MANAGEMENT DISCUSSION AND ANALYSIS

Industry Structure and Development

The Indian Economy is one of the fastest growing economies of the world. Our economy is expected to grow at 7.2% in 2009-10 as against the growth of 6.7 % in 2008-09. The dust of subprime crisis has settled now and the economy all over the world has shown smartest recovery with business prudence, conservative approach and sound and safe business strategies. But the clouds of uncertainty have dispersed on the welkin of all global economies throughout the year. The sub prime crisis, like an inflectional disease, has spread in other nations too in one form or other as we saw the next victim was Dubai which found in deep water as ripples of debt crisis spread on the news of which the global market tanked again after showing blistering recovery post the US sub prime crisis. This has again shattered the faith on the soundness of the financial system of the world as no one was able to get into the bottom of the bag as to how much pain is still there in the financial system. The carnage was not even over after the mayhem of Dubai as the next victim was Greece and was in the headlines of the news papers on account of its debt crisis which made the market dynamics most unpredictable. The European government has come up with booster dose and stimulus packages that have uplifted the sentiments a bit but may fall short of the expectations.

As the global market has done smart recovery, our country India, with it stunning growth rate is always a front runner on the recovery path. The Indian Inc. has done well in last year although the topline growth for most of the companies was flat, the bottomline has gone up on account of cost reduction. The capital market has gained 109 per cent year-on-year basis as the bulls are back in business. This could have been far better but the low rainfall has created a concern on crop yield resulting in inflationary pressure and which has reached at stature during the year. The RBI has felt enormous pressure for the ratehike during the year on account of higher inflation but the credit offtake and growth was in lackluster which again induced the RBI to keep the rates unchanged. Now, with onset of monsoon which is expected to be very good as per the predictions of the Metrological department, the year ahead would have bumper crops which is expected to cool of the prices and so also the inflation. Even the banks were concerned with the subdued credit growth during the year, the Non Banking Finance Companies (NBFC) continued to face fierce competition from the banking sector which has penetrated in almost all the segments of financial services sector. With liquidity crunch and credit squeeze, the working of Non Banking Finance Companies (NBFCs) also continued to be adversely affected by defaults and absence of proper and faster recovery laws and procedures, such as those available to banks and other financial institutions. In this cut throat competitive environment in which the NBFCs are presently functioning, they have no option but to continue streaming and optimizing their operations to adapt to the emerging scenario.

Outlook, Risks and Concerns

The Union Budget announcement has something to cheer for the NBFCs as they have been allowed to foray into the banking business. This has opened new dimensions to the NBFCs to caper into the banking business which has tremendous growth potentials in India. Going forward, we would see many entities would plunge into banking space.

Another reason for cheer is that BSE has reduced the Broking Membership Deposit by 90 per cent which would open up new horizons of operations into broking business. The growth potentials are robust in this space too as in India only 5 per cent of the household saving is coming into Equities which is very low in compare to developed nations. With only 1.69 crores of Demat Accounts in India and Equity as an asset class would outperform over all other asset class in future to come. Equities have given 18 per cent CAGR return since inception and with the India story still intact, it is expected to perform at the same line in next 3 to 4 decades to come. The NBFC sector is exposed to stiff competition from the banking sector and with timid credit growth and rising interest rate scenario on account of higher inflation, your company has cut down its exposure to credit operations. The company's operations continued to be focused on capital market related activities. Further, your company will continue to explore additional opportunities in areas related to its operations.

NBFC is exposed to normal industry risk such as credit, interest rate, economic, political, market and operation risks. The company views risk management as integral to its business for creating and maintaining best practices in business operations and administration. Your company follows prudent business and risk management practices to combat these challenges.

Your company is almost a debt-free company. It is persistently pursuing a conservative investment policy over the years and exposure to almost risk free or low risk activities. This approach leads to a larger shareholder value in the long run and is in line with our vision for growth.

Opportunities and threat:

After the whirlwind of 18 months, the Indian market has doubled the shareholder's wealth over the last fiscal year on account of mesmerizing GDP numbers which has resulted in huge exuberance in the minds of market players. The valuations at the secondary market have gone up sharply in short span of one year as the market is fairly poised at almost twenty times of its current year's earnings. This sharp upmove in market has taken with itself so many weak hands in the system and with depth of the financial crisis which is spreading across the nations would fall the market sharply and give the opportunities for cherry picking. The Index for Industrial Production (IIP) was at 13.5 per cent for March, 2010, a stellar double digit growth showing excellent performance of overall economy.

Adequacy of internal control:

Your company has proper and adequate system of internal control in place to monitor persistently proper recording of the transactions as per the policies and procedures laid down by the company. The company ensures that the regulatory guidelines are duly complied with at all the levels. The internal audit reports are regularly monitored by the Audit Committee.

Segment wise performance:

The company is a Non Banking Finance Company; its core business is financial business. Hence, there are no separate segments for reporting as per Accounting Standard-17 issued by the Institute Of Chartered Accountants Of India.

Discussion on financial performance with respect to operational performance:

The profit after tax for the current year is Rs 28.13 lacs as against profit after tax of Rs 8.39 lacs in the last year. The company's revenue is derived from the dividend income, profit from sale of investments and interest income from advances etc.

Human resource and Industrial Relations:

For enhanced performance of any organization, its important that its human resources are abreast of new developments and possess relevant skill sets. To realize this, the emphasis on training and development activities has been increased. Executives were nominated for various programmes and seminars at local and national levels by premier institutes.

Cautionary Statement:

The statements in above analysis, describing the company's projections, estimates, expectations and predictions may be 'forward looking statements' within the meaning of applicable security laws and regulations. The actual results may differ from those expressed or implied. The important factors that may impact the operations of the company may consist of economic developments – globally and locally, government regulations, tax regimes and other related factors.

**AUDITORS' REPORT**

We have audited the attached Balance Sheet of M/S. MORARKA FINANCE LIMITED as at 31st March 2010 and also the Profit and Loss Account and the Cash Flow Statement for the year ended on that date annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As required by the Companies (Auditor's Report) Order, 2003 issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Companies Act, 1956, we enclose in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the said order.

Further to our comments in the Annexure referred to above, we report that:

- i) We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit;
- ii) In our opinion, proper books of accounts as required by law, have been kept by the Company so far as appears from our examination of those books;
- iii) The Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report are in agreement with the books of account.
- iv) In our opinion, the Balance Sheet, Profit and Loss Account and Cash Flow Statement dealt with by this report comply with the accounting standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956.
- v) On the basis of written representations received from the directors, as on 31st March 2010, and taken on record by the Board of Directors, we report that none of the directors is disqualified as on 31st March 2010 from being appointed as a director in terms of clause (g) of section 274 of the Companies Act, 1956.

In our opinion and to the best of our information and according to the explanations given to us, the said accounts together with the significant accounting policies in Schedule "N" and the notes on accounts in Schedule "O" give the information required by the Companies Act, 1956, in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India;

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at 31st March 2010.
- b) in the case of the Profit and Loss Account, of the Profit for the year ended on that date,
- c) in the case of the Cash Flow Statement, of the cash flow of the Company for the year ended on that date.

25th ANNUAL REPORT

SCHEDULE FORMING PART OF ACCOUNTS: 31ST MARCH 2010

SCHEDULE N: SIGNIFICANT ACCOUNTING POLICIES

1. SIGNIFICANT ACCOUNTING POLICIES:

a. Basis of presentation

The accounts have been prepared using historical cost convention and on the basis of going concern with revenues recognised and expenses accounted on accrual including committed obligations and are in accordance with Section 211(3C) and other provisions of the Companies Act, 1956.

b. Fixed Assets

- (i) Fixed assets are valued at cost of acquisition.
- (ii) Expenditure relating to existing fixed assets is added to the cost of the assets where it increases the performance/life of the assets as assessed earlier.

c. Inventories

Inventories representing stock of shares, debentures etc. are valued at lower of cost or market price.

d. Investments

Long term investments are carried at cost after providing for any diminution in value, if such diminution is of permanent nature.

e. Retirement Benefits

Provision for leave encashment are determined and accrued on actual basis. Gratuity is accounted for on cash basis.

f. Depreciation

The Company provides for depreciation on fixed assets at the rates and in the manner specified in Schedule XIV of the Companies Act, 1956, on written down value method.

g. Taxes on Income

- (i) Provision for income tax Rs.Nil is determined on the basis of the estimated taxable income of the current year in accordance with the Income Tax Act, 1961.
- (ii) Deferred tax is recognized in respect of deferred tax assets (subject to the consideration of prudence) and to the extent there is virtual certainty that the asset will be realized in future and deferred tax liabilities on timing differences, being the difference between taxable income and accounting income that originate in one year and are capable of reversal in one or more subsequent years.

h. Contingencies and events occurring after the Balance Sheet Date

Accounting for contingencies (gains & losses) arising out of contractual obligations, are made only on the basis of mutual acceptances. Events occurring after the date of the Balance Sheet are considered up to the date of approval of the accounts by the Board, where material.

i. Intangible Assets:

i. Intangible Assets are recognized only where:

- a) It is probable that the future economic benefits that are attributable to the asset will flow to the enterprise; and
- b) The cost of the asset can be measured reliably.

ii. Intangible Assets are capitalized at cost of acquisition including any import duty and other taxes and any directly attributable expenditure on making the assets ready for its intended use.

iii. Amortization of Intangible Assets:

- a) Intangible assets recognized are amortized over its best-estimated useful life, under a rebuttable presumption that the useful life of an intangible asset will not exceed ten years.
- b) Where the expenditure incurred on intangible assets do not meet recognition criteria, it is recognized as an expense for the period.
