MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. INDUSTRY STRUCTURE & DEVELOPMENT

The year 2014 was a challenging year for the global economy owing to the various challenges across multiple economies. The Eurozone grappled with its currency crisis, with inflation rising in Greece and Spain. The slowdown began to take shape in China, with the government deciding to ditch the "growth at all cost" strategy employed since 2008 and took initiatives to control credit flow.

The financial Year 2014-15 can be termed as a euphoric year for the Indian Economy. The national elections of 2014 set the tone in terms of uprising of a single largest party. The mandate along with the bleak economic situation led people to believe that growth will be brisk and therefore various business optimism indices reflected the optimism. While the equity markets rose, due to election results and business confidence; the reality continued to bear the brunt of heightened optimism. In spite of falling

Yash Management & Satellite Ltd.

crude prices, the investment cycles from the corporates remain stagnant. Moreover, while the plans are being made and the grounds being laid to kick-start investment programs in infrastructure sector; the current scenario is demonstrating the signs of impatience. While the indigenous programs like “Make in India” and “Swacch Bharat Abhiyaan” have also been initiated; the predictions signal a timeline of two years for the optimism to ferment into economic growth.

The Government is now focused on ‘Ease of doing business’ thereby simplifying processes and attracting more investments from the Indian diaspora outside country along with global companies. The Government also focused on removing policy bottlenecks to simplify documentation and processes to initiate business activities. The Union Budget announced measures to restart the infrastructure creation and prior to that the coal blocks allocations were completed successfully. Given the large consumer economy and favourable demographic indicators, the country is attractively poised to reignite its economic machinery.

B. OPPORTUNITIES & THREATS

Opportunities

- Regulatory reforms would aid greater participation by all class of investors
- Leveraging technology to enable best practices and processes
- Corporates looking at consolidation / acquisitions / restructuring opens out opportunities for the corporate advisory business

Threats

- Execution risk
- Short term economic slowdown impacting investor sentiments and business activities
- Slowdown in global liquidity flows
- Increased intensity of competition from local and global players
- Market trends making other assets relatively attractive as investment avenues

C. RISKS AND CONCERNS

The Company has put in place adequate risk identification, risk Management and mitigation processes to keep any such trade –off at bay. The Company has built robust systems and processes for its business. It is also constantly gauging the external macroeconomic environment, market Conditions, and government policies to ensure that the business is one step ahead of the industry and monetary cycles, thereby insulating the Company from downtrends and enabling it to ride uptrend.

D. OUTLOOK

The International Monetary Fund (IMF) in its annual assessment of the Indian economy, raised the growth estimate to 7.2% for 2015-16 based on firm policy action and lower global oil prices. However, reforms in agriculture, land acquisition, mining, power sectors and labour markets would be crucial to enhance growth. A World Bank report recently said the Indian economy appeared to be better than it was in 2012 and 2013. The report also said

- India’s growth would catch up with China’s in 2016-17, buoyed by economic reform measures taken by the Indian government.
- Progress on the reform agenda—particularly implementation of the Goods and Services Tax (GST), and easing the process of doing business could transform India into a common market and dramatically boost competitiveness.
- Externally, the scenario is predicated on exports boost from improving growth and job prospects in the US and largely stable or declining crude price

Yash Management & Satellite Ltd.

The Government of India estimated economic growth at 7.4 percent in Financial Year 2014 - 15, against 6.9 percent in Financial Year 2013-14
