#### D. Opportunities & Threats

Scope: We at VAMA, being Offshore Technology Service Provider's, practices high quality, Cost Competitive Technology Solutions and Related Support Functions to offshore Technology Service Providers to reduce cycle time for introducing new products and services. We firmly believe that our quality process and access to skilled talent base at lower costs enable us to take advantage of the trend towards outsourcing IT services.

Innovation, leadership, commitment to superior quality and process execution are the strengths of VAMA.

In view of establishing strong brand and long standing client relationships, to strengthen our position as a leading global technology service company by successfully differentiating our service offerings and increasing the scale of our operations, we understand that we have to expand geographically, continue to enhance our engagement models and offerings, continue to develop deep industry knowledge, increase business from existing and new clients, continue to invest in infrastructure and employees, enhance brand visibility.

Competition: Obviously we are operating in a highly competitive and rapidly changing market and In the future, we expect competition from companies

establishing and building their offshore presence and firms in countries with lower personnel costs than those prevailing in India and apart from those who are strongly established. However, we understand that price alone cannot constitute a sustainable competitive advantage. We are confident to compete favorably with respect to these factors. The situation is demanding to provide end to end business solutions for our clients, which could lead to clients discontinuing their work with us.

### E. Outlook, Risks and Concerns

In this section, we are disclosing the risks and concerns of the company.

**Revenues & Expenses:** Like any other company, even our expenses and revenues are difficult to predict, our revenues are highly dependent in clients primarily located in the U.S. The impact of economic slowdown or other factors that affect the economic health of U.S may also affect our business. Our revenues are largely dependent upon small number of clients and the loss of any one of the client will certainly impact the business. As a result, there is intense competition in the market for technology services and this can affect our cost advantages, which could reduce our share of business from clients and may decrease our revenues. Currency fluctuations may also affect the result of our operations.

### Government & Compliance:

Legislation in certain countries may restrict the company from outsourcing work to us. Increasing compliance in India and abroad is increasing the costs of compliance. Our increasing work with governmental agencies may expose us to additional risks. Our net income is expected to effect this financial year as a result of withdrawal of tax holiday for STPI units. The income can also be affected if the Government of India or the government of another country changes its tax policies in a manner that is adverse to us. Our ability to acquire companies organized outside India depends on the approval of the Government of India and/or Reserve Bank of India, and failure to obtain permissions and approval could adversely impact our business.

### Human Resources:

Increasing cost of employees may affect the margins of the company and In addition, our services demands

highly skilled technology professionals and our ability to hire, attract, motivate, retain and train our personnel is demanding higher cost. Apart from this, wage pressures in India and the requirement of hiring of personnel outside India may reduce our profit margin.

### Number of People Employed.

As on 31st March 2012, the employee strength was 107.

### Customers & Clients:

Our client's contracts are often conditioned upon our performance, which if unsatisfactory, may result in fewer revenues. Our engagements with customers are singular in nature and may not necessarily provide for subsequent engagements. Some of our long term client contracts contain certain provisions which, if triggered, could result in lower future revenues and profitability under the contract. This means that, our clients contracts can be terminated any time without cause. This could certainly affect the business negatively. On the other hand our business will suffer if we fail to anticipate and develop new services and enhance existing services in order to keep pace with rapid changes in technology and in the industry on which we focus.

### F. Segment-Wise Performance

As of March 31, 2012 our main reportable segments are Software Development & Services (IT & ITeS) and Product/ Hardware Sales & Services.

## NOTES TO FINANCIAL STATEMENTS

### 27. SIGNIFICANT ACCOUNTING POLICIES:

#### Basis of preparation of Financial Statements

The accompanying financial statements are prepared and presented in accordance with Indian Generally Accepted Accounting Principles (GAAP) under historical cost convention on the accrual basis. GAAP comprises mandatory Accounting Standards issued by the Institute of Chartered Accountants of India, the provisions of the Companies Act, 1956 and guidelines issued by the Securities and Exchange Board of India. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to existing accounting standard requires the change in the accounting policy hitherto in use.

Management evaluates all relevant issues or revised accounting standards on an ongoing basis.

#### Revenue Recognition

- Revenue from sale of computer hardware is recognized on dispatch of the products from the company for delivery to the customers. Revenue from product sale is shown net of Sales Tax separately charged and discounts as applicable.
- Revenue from IT Services consists of earnings from services performed on a 'time and material' basis and fixed price contracts. The related revenue is recognized as and when the services are performed and delivered.
- Revenue from Annual Maintenance Contracts (AMCs) is recognized on accrual basis as per the Contracts / Agreements entered with the Clients.
- Other income is recognized on accrual basis.

#### Translation of Foreign Currency Transactions

**Employee Benefits**

Contributions to Provident Fund, Employees State Insurance are charged as incurred on accrual basis. The liability for retirement benefits of employees, if arise, will be accounted for on cash basis.

**Income Tax**

Income taxes are accounted for in accordance with AS-22, namely "Accounting for taxes on Income" issued by ICAI. Taxes comprise both current and deferred tax.

The tax effect of the timing differences that result between taxable income and accounting income and are capable of reversal in one or more subsequent periods are recorded as a deferred tax asset or deferred tax liability. Deferred tax assets and liabilities are recognized for future tax consequences attributable to timing differences. They are measured using the substantively enacted tax rates and tax regulations. The carrying amount of deferred tax assets at each balance sheet date is reduced to the extent that it is no longer reasonably certain that sufficient future taxable income will be available against which the deferred tax asset can be realized.

Tax on distributed profits payable in accordance with the provisions of section 115D of the Income Tax Act, 1961 is in accordance with the Guidance Note on "Accounting for Corporate Dividend Tax" regarded as a tax on distribution of profits and is not considered in Determination of profits for the year.
