Chairman Message

Dear Shareholders,

Greetings

It gives me immense pleasure to place before you the Annual Report of your Company for the financial year 2015–16. The export of Basmati Rice grew by healthy 11% in volume terms as compared to last financial year, a satisfying performance in the backdrop of current market. Your Company achieved total revenues of INR 11,302 Mn as against INR 11,571 Mn in the same period last year. The last year was very challenging one because it saw lowest basmati prices in last 8 years that resulted into lower top-line for the Company.

The growth of volume terms has been possible due to focused sales and marketing efforts in all the major basmati rice importing countries of the world viz., UK, Saudi Arabia, Iran and to the US. IRAN basmati rice market is again giving immense opportunities; KFL have reinforced its marketing efforts by infusing additional resources, thereby ensuring that we get good share in the world's largest basmati rice market of 1 million metric tons.

In our processed & packaged food business, we acquired a new Food Processing Unit near Sonipat, Haryana, which will add to our existing out-sourced production capacity and enable us to meet the increasing demand of our clients for Ready to Eat & Ready to Cook products. The acquisition of new food facility would not only reduce the dependence on our existing out-

sourced facilities but also help us to focus on business by acquiring new customers. We will continue to Invest & Innovate and expand our product offering to add value to our Food business operations.

Our wholly owned subsidiary in UK, Indo European Foods Limited (IEFL) had a very good year with business growth of more than 14% in volume. Led by the flagship Kohinoor Brand, the IEFL has become the leading supplier of rice in big bags in UK grocery market.

Our JV Company, Al Dahra Kohinoor LLC, in its second year of operation is progressing well. Through this JV we'll be able to gain enhanced marketing & trading access for our rice products across the Arabian Gulf & Middle East Region. The rice facility is expected to be operational in Abu Dhabi by the year end.

Keeping in line with our business philosophy, we have developed 100% Certified Organic range of Products under 'Green Grown' brand such as Pulses, Spices, Cereals, Healthy Grains and much more. We plan to introduce this new range in next financial year in the markets of US, Canada, Saudi Arabia, Iran, Oman & Qatar.

With the objective of bringing authentic Indian flavours to the people all over the world, we want your company Kohinoor Foods to become a leading name in the food business globally. In pursuit of our vision to make Kohinoor the most trusted & preferred food brand globally, we would continue to develop quality products, increase operational efficiency and follow our successful strategies.

I am grateful to the Board of Directors for their unwavering support and guidance. I also take this opportunity to express my gratitude to all our consumers, business partners, employees and stakeholders who have shown their trust in us and have extended their constant support.

With best wishes,

Sincerely

Sd/-

Operations:

For the financial year under review 2015-16, the company's Export Sales stood at INR 7,705 millions as against INR 8,867 millions in previous year and the Domestic Sales stood at INR 3,597 millions as against INR 2,704 millions in the last financial year.

During 2015-2016, the contribution of Rice to the Company's total business is INR 10,406 millions as against Rs.10,289 millions during the last financial year. The Food Business has contributed INR 674 millions in the total turnover as against INR 769 millions in the previous year.

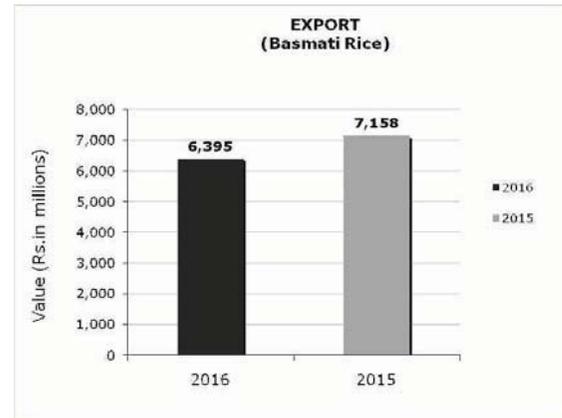

The year saw an increase in Basmati rice exports from India in volume terms; however there was decrease in total value of goods exported. The major reason was low average price of Basmati Rice Paddy due to all time high domestic production of 4.5 Mn Metric Tonnes. Also political instability in countries such as Iraq, Syria & Yemen contributed to the decline of Indian export of basmati rice. In addition, many importing countries of Basmati rice held back as they had enough stock of Indian Rice imported earlier and were now disposing that inventory instead of ordering fresh quantities. Major highlights of performance during the financial year being:

- -Focused sales and marketing efforts in all the major basmati rice importing countries of the world viz. UK, Saudi Arabia, Iran and to the US.
- -Our over-all Basmati Rice exports grew by 11% in volume terms.
- -Impressive growth in the export volume of Basmati Rice in the markets of United Kingdom, USA, Canada, UAE, Kuwait, Qatar, Oman, Egypt, Morocco, New Zealand & Singapore.
- -The UK subsidiary has not only added volumes but have also increased 'Kohinoor' brand listings and its presence in many new multiple stores. TESCO has recently awarded it with an honour of the "Most Preferred Suppliers"
- -The private label business of Basmati Rice grew on the back of acquiring new clients & more buying from existing customer. New clients include from countries such as Iran, USA, Saudi Arabia, Qatar, Kuwait & Sweden. The company focussed on spreading its foot prints across the globe and reaching out to new customers.
- Our Private Label business of Basmati Rice in Saudi Arabia, USA, and Canada has recorded a robust growth.
- Kohinoor Basmati Rice (Brand) exports saw significant increase over last year in Qatar, Oman, Kuwait, UK, New Zealand & Morocco
- We have recorded phenomenal growth in both value and volume terms in export of Basmati Rice to our JV Company M/s Al Dahra Kohinoor LLC (Abu Dhabi)
- Acquired business from new countries such as – Brunei, Cyprus, Djibouti, Mauritania, Guinea, Somalia, Sweden & Taiwan.
- Also a robust increase of 30% in volume in our business of export of Non Basmati Rice.

EXPORT MARKETS

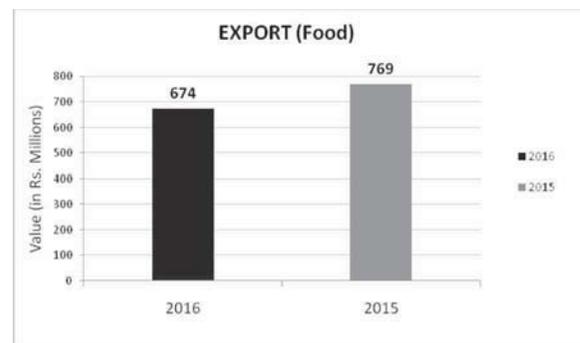

Export- Basmati Rice

This year, in the Export of Basmati Rice, the company did a business of INR 6,395 millions as against INR 7,158 millions in the previous financial year.

Export- Processed Food

This year the export of processed & packaged food products recorded a decline in revenues and stood at INR 674 millions as against INR 769 millions in the previous year. On account of restructuring of US operations, low business revenue from one of our major client of Private Label in South Africa and erratic supply from one of the Vendor the overall business momentum was hampered that resulted in slow-down.

Subsidiaries/Joint Venture

UK Operations

Indo European Foods Limited (IEFL) was incorporated in year 2000 in United Kingdom (UK), as a wholly owned subsidiary of Kohinoor Foods Limited (KFL), India, to cater the markets of UK and Europe.

Business performance and plans

IEFL had a very good year, with business growth of around 14% in volumes. Led by the flagship Kohinoor Brand, the IEFL has become the leading supplier of big bags rice to the UK grocery market. (Source: IRI, UK Grocery Major Multiples). The marketing and new product development efforts have focussed on revitalizing the portfolio packaging and on reformulating the food range. IEFL has also invested in road shows that have sampled the products and showcased the brands at major retail outlets.

Investment in People-

The sales and marketing teams of IEFL has been strengthened, experienced marketing people have been hired and provided exposure to various training programmes.

BRC Audit –

The IEFL have been awarded the highly sought after “Grade AA” by the British Retail Consortium (BRC). The Felixstowe factory meets the criteria of global standard for food safety and is equipped to supply all major international retailers.

Forward Thinking-

IEFL while focusing on rice business is also strengthening the food side of its business. The Efforts of IEFL will continue to open new accounts in the UK and Continental Europe.

USA Operations

Kohinoor Foods USA Inc. was incorporated in year 2000 in the state of New Jersey, USA, as a wholly owned subsidiary of Kohinoor Foods Limited (KFL), India, to cater to the markets of US & Canada. Through this subsidiary the Company has demonstrated its presence in both the Ethnic & the Mainstream segment of the business for both Rice & Processed & Packaged food products. The brand 'Kohinoor' is well known in US and under our new strategy we plan to increase the width and the depth of distribution across US & Canada markets to further improve the visibility & strengthen the brand.

During the financial year 2015-16, the company operated under a new restructured business plan; wherein the company appointed a national distributor to sell & promote its brands in US market. It would helped the company (Kohinoor Foods USA Inc.) to considerably reduce the cost of operation & improve financial position. Under this new business model the role of US subsidiary is to support & supervise the Distributor to generate business & sales volume. The re-alignment of business operations of Kohinoor Foods USA Inc. has reduced cost of operations. We expect an improvement in our sales to US under the distribution system. This year we plan to focus on mainstream buyers of rice and food products.

UAE Operations

In FY: 2013-14, Kohinoor Foods Limited entered into a Joint Venture Agreement with Al Dahra (Abu Dhabi) that seeks to establish a robust frame work for supply of Rice & other agro products from India UAE and provide long-term sustainable food security to the people of UAE. Kohinoor Foods also entered into the Shareholders Agreement to jointly develop and manage brown to white rice facility in Abu Dhabi with a capacity of approximately 60,000 MTs per annum scalable up to 1,00,000 MTs and also to build storage facility of approx 30,000 MT. The Joint venture Company M/s Al Dahra Kohinoor LLC and Al Dahra Kohinoor Industries LLC, have been incorporated in Abu Dhabi in which Kohinoor Foods Limited is a Share Holder and also having

a board seat in consideration for providing supervision/guidance to establish these JV Companies. This JV Company in its second year of operation has conducted satisfying & encouraging business so far.

The Rich Rice Raisers Factory LLC, (RRR) is a Joint Venture Company having 25% equity of KFL. The RRR is not doing any business activity since the inception of Al Dahra-Kohinoor Joint Venture. As per the terms of the JV agreement with Al-Dahra; Kohinoor Foods Ltd., have already initiated steps to exit from Rich Rice Raisers Factory LLC, Dubai.

FOOD BUSINESS:

During the year (2015-16) our Food Vertical, executed a business of INR 674 Mn as against INR 769 Mn in the previous financial year, a decline of 12% over last year. UK & US are two major markets for our range of processed & packaged food products. The restructuring of our US subsidiary coupled with ban on import of Indian origin dairy products by UK & EU has resulted into a decline in turnover.

Food Business has few large buyers and we need to expand customer base to avoid over dependence on few buyers, efforts are being made in this direction.

Highlights (2015-16)

- Acquired a new Food Processing Unit near Sonipat, Haryana to add to our existing production capacity and enable us to meet the increasing demand of our clients for Ready to Eat & Ready to Cook products. The acquisition of new food facility would not only reduce the dependence on our existing facilities but also help us to focus on business by acquisition of new customers.

- Developed 100% Certified Organic range of Products under 'Green Grown' brand such as Pulses, Spices, Cereals, Healthy Grains and much more. We are planning to launch this new category of products in Saudi Arabia, Oman & Qatar to name a few.

- Secured a long-term contract (4 years) from our major Private Label Client- COLES thus ensuring steady business over a long period of time.

- Revamped & gave new look to the entire packaging of Kohinoor Branded Products for UK Market for Ready to Cook- Sauces and Ready to Eat-Curries.

- Added new markets such as Oman, Sri Lanka, Uganda, Saudi Arabia & Nepal..

CHALLENGES:.

- Erratic supply from a major vendor resulted in delayed shipment & business loss.

- Re-structuring of US office contributed to business slow-down.

- Export of products to UK containing 'Dairy' suffered due to EU regulations.

- Quality related issues with one of our major clients in South Africa (M/s Tiger Brands) hampered the business & momentum.

FINANCIAL YEAR (2016-17)

- We'll consolidate the existing categories & products by increasing the Width & Depth of Distribution in focus markets.

- We will discontinue non core product categories such as cookies, pickles etc.

- Focus on mainstream market in US & Canada.

- "Green Grown" Organic range of products would be our focused category and look to launch in several countries.

Overview - Food Processing Industry

The Indian market offers a huge potential for the food processing industry - more so because of the fact that it promotes two main growing factors of our Indian Economy - Industry & Agriculture. During the last one decade, India moved from a position of scarcity to surplus in Food. Given the trade in production of food commodities, the Food Processing Industry in India is on an assured track of growth and profitability. It is expected to attract phenomenal investment in capital, human, technological and financial areas. A reason why the Food Processing Industry sector in India has been accorded high priority by the Government of India, with a number of fiscal relief and incentives, to encourage commercialization and value addition. As per a study conducted by McKinsey and Confederation of Indian Industry (CII), the turnover of the total food market is approximately Rs.250,000 Crores, out of which value-added food products comprise Rs.80,000 Crores.

Basmati Rice

Like any other commodity business, Basmati Rice is a category which is little complex and widely unorganized. With an industry estimated consumption of around 1.5 million tonnes of Basmati Rice in India, this is one category which has grown significantly over the years and slated to grow further in times to come. Though majorly unorganized, but year on year this category is experiencing good number of conversions from unbranded to branded packaged Basmati Rice in terms of consumptions in India. This is mainly due to introduction of branded and package basmati rice in many retail outlets. India's growing middle class has augmented the domestic demand of branded rice. Moreover, introduction of modern food retail formats has also propelled the packaged food market, facilitating the availability, visibility and accessibility of branded products. The domestic branded market in India is expected to grow in double digits as compared to single digit growth for unbranded rice. Eating rice is common habit in most of the Indian households and it is usually a part of one of the 3

meals cooked every day. Geographically, the consumption of Basmati is higher in the Northern & Western part of the country while culturally, its consumption is quite high in the Punjabi & Gujarati families. With the view of serving the best to their customers, Basmati consumption is also high in well recognized hotels & large institutions. The consumption of branded packaged Basmati Rice is also being driven by the modern retail that offers wide choice to customers

Ambient - Ready Meals

Ready Meals, is a category which is gaining popularity globally though still at a growing stage; but the factors that has so far contributed to sales of Ready Meals have been increasing consumer base of working people who have less time to spend on cooking, Eating out of home have become a common phenomena on weekends, growth of Modern trade, the Convenience of making exotic vegetarian & non-vegetarian dishes in just a few minutes, etc. As this category grows, an Innovative value addition to products with Health & Nutrition is expected to become an important aspect of it.

Frozen Food - Ready Meals

Though Frozen Food as a category constitutes many products, majority of it being the frozen unprocessed non-vegetarian food, but within this segment vegetarian Frozen Ready Meals, snacks too is growing at significant rate. The factors that contribute to the growth of this category is very similar to that of Ambient Ready Meals like growing consumer base of working people who have less time to spend on cooking, eating out of home becoming a common phenomena every week & on weekend, growth of Modern trade, the convenience of making exotic vegetarian dishes in just a few minutes, etc.

Risks & Concerns

Macro-economic factors like recession, subdued demand and political uncertainty may affect the business of the Company and the industry at large as well. The Company is aware that uncertainties in business offer opportunities as well as downside risks and thus has identified and put in place mitigation tools for the same. Some key risk areas are:

Procurement risk: Adequate availability of key raw materials at the right prices is crucial for the Company. Being a generic natural product with low yield concentrated in a small region of the World, production of Basmati depends on the vagaries of nature. Therefore, any disruption in the supply due to a natural or other calamity or violent changes in the cost structure could

adversely affect the Company's ability to reach its consumers with the right value proposition. However, we are ready with plans that might help us at such times. However, the Company's long term relationship with farmers built on trust ensures constant supply and thus over the years it has not faced any procurement problems. Also, adequacy of irrigation facilities in the Basmati producing regions mitigates these uncertainties.

High working capital requirement: Basmati rice requires to be aged for 9-12 months before selling, leading to huge working capital requirements. This results in low ROCE for the industry. Combating this risk, efficient working capital management system has been set in place by the Company and cash flow is monitored on daily basis.

Intense competition from unorganized sector: Another characteristic of this industry is the presence of unorganized sector offering basmati in loose unbranded form which intensifies competition. The Company is moving towards branded products and has invested significantly in building strong brands which helps differentiate their product.

Annexure – B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Kohinoor Foods Limited ("the Company") as of 31 March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered

Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal

financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

(f) **Impairment of Assets:**

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on

internal / external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the assets net selling price and value in use. In assessing value in use the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

(g) Expenditure Incurred during Construction Period:

Expenditure directly relating to construction activity is capitalized, Indirect expenditure incurred during construction period is capitalized as part of the indirect construction cost to the extent to which the expenditure indirectly related to construction or is incidental thereto. Other indirect expenditure (including borrowing costs) incurred during the construction period which is not related to the construction activity nor is incidental thereto is charged to the Statement of Profit and Loss. Income earned during construction period is deducted from the total of the indirect expenditure.

All direct capital expenditure on expansion are capitalized. As regards indirect expenditure on expansion, only that portion is capitalized which represents the marginal increase in such expenditure involved as a result of capital expansion. Both direct and indirect expenditure are capitalized only if they increase the value of the asset beyond its original standard of performance.

(h) Leases:

(a) Finance Lease:

(i) Assets taken on finance lease are capitalised at fair value or net present value of the minimum lease payments, whichever is less.

(ii) Lease payments are apportioned between the finance charges and outstanding liability in respect of assets taken on lease.

(ii) Minimum Alternate Tax (MAT) paid in accordance with Income Tax Act, 1961 gives rise to future economic benefits in the form of adjustments of future income tax liability against such payments.

(iii) Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets are recognized on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realized against future taxable profits. Unrecognized deferred tax assets of earlier years are re-assessed and recognized to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realized.

Defined Benefit Plan

Gratuity cost is a defined benefit plan. The present value of obligations under such defined benefit plan is determined based on actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measure each unit separately to build up the final obligation. The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, years approximating to the terms of related obligations. Actuarial gains and losses are recognised immediately in the profit and loss statement. Gains or losses on the curtailment or settlement of any defined benefit plan are recognised when the settlement occurs.

As a result, the company has received substantial relief of Rs. 4681.37 Lacs towards outstanding tax & interest demand on the additions made by the AO in his earlier orders. Finally, the tax and interest demand stand reduced to Rs.590.40 Lacs and Rs.234.38 Lacs for AY2002-03 to AY2008-09 and the same has been adjusted against the amount of Rs.1350.00 Lacs deposited with the Department under protest. However, the Company has still preferred an appeal before the Commissioner of Income Tax (Appeals), New Delhi, which is yet to be heard.

Following appeals are also lying pending for hearing before the Income Tax Appellate Tribunal, New Delhi against the tax demand raised in impugned Income Tax Assessment Orders as per details given below :-

AY	Tax	Interest	Total
2009-10	1,789.66	1,054.26	2,843.93
2010-11	2,331.25	1,347.86	3,679.11

* The company has also filed a rectification application before DRP to reconsider its findings.

In respect of Assessment Year 2012-13, the company has received Final order dtd. 09.05.2016, making an addition of Rs.5855.69 Lacs on which the tax effect is Rs.2294.97 Lacs. The company is in the process of filing the appeal against the above order before the Commissioner of Income Tax (Appeals), New Delhi.

As per the advice received from legal experts and on the basis of merit of the case, there is a high probability that the aforesaid impugned orders will be set aside and the demand will be deleted. Accordingly, management is of the view that no provision in respect of the above demands is required to be made in the books of accounts.

Annexure - A to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31 March 2016, we have audited the internal financial controls over financial reporting of Kohinoor Foods Limited ("the Holding Company") and its subsidiary companies which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies

Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
