MANAGEMENT DISCUSSION AND ANALYSIS

Pursuant to Regulation 34 (2) (e) of the SEBI (LODR) Regulations, 2015, your Board report as follows:

a) Steel Industry Structure and Developments

India retained 3rd rank of steel producer in 2016 in the world. India's crude steel production grew by 7.4% year-on-year to 95.6 Million Tonnes in 2016, whereas the World's crude steel production grew by 0.8% during 2016.

During financial year 2016-17, India's steel exports grew 102.10 per cent at 8.24 Million Tonnes as compared to 4.07 Million Tonnes in the previous financial year 2015-16, while steel imports stood at 7.42 Million Tonnes declined by 36.60% from 11.71 Million Tonnes of imports in previous year. India has become a net exporter of Steel in 2016-17 as imports fell gradually. Total consumption of finished steel grew by approx. 3 per cent year-on-year to 83.93 Million Tonnes during financial year 2016-17 as against 81.52 Million Tonnes during financial year 2015-16.

Opportunities and Threats

There is good opportunity for Indian Steel Industries in future considering the following:

- (i) In the financial year 2016-17, in India, consumption of total finished steel was 83.93 Million Tonnes, an increase of approx. 3 per cent in comparison to financial year 2015-16. This is further expected to improve by growth in the domestic market.
- (ii) Huge scope for growth is offered by India's comparatively low per capita steel consumption and the expected rise in consumption due to increased infrastructure construction and the thriving automobile & railways sectors.
- (iii) Domestic players' investments in expanding and upgrading manufacturing facilities are expected to reduce reliance on imports. In addition, the entry of international players would provide benefits in terms of capital resources, technical know how and more competitive industry dynamics.
- (iv) Steel production in India is forecast more than double by 2030, with growth rate expected to go above 10 per cent in near future.
- (v) Easy availability of low-cost manpower & presence of abundant iron ore reserves make India competitive in the global set up.
- (vi) National Steel Policy (NSP) implemented to encourage the industry to reach global benchmarks.
- (vii) GDP growth rate for the financial year 2016-17 has been 7.1% and expected growth rate for the financial year 2017-18 is around 7.4%, with a minimum and maximum level of 7% and 7.6% respectively.

National Steel & Agro Industries Ltd.

Though there is good opportunity for Indian Steel Industries in future there are following threats also:

- (i) Imports of Steel from countries like China, Brazil etc. having excess capacities;
- (ii) Global as well as Domestic Competition;
- (iii) Global Market Trends;
- (iv) Aluminium and plastics are being used in few cases in automotive and other consumer durable sectors;
- (v) Foreign exchange rate volatility; etc.

Outlook of Steel Industry

Huge scope of growth is offered to Steel Industry by New Steel Policy, 2017 announced by Government of India.

Highlights of the New Steel Policy, 2017 are as under:

- It aspires to achieve 300 Million Tonnes of Steel making capacity by 2030. This would translate into additional investment of ₹ 10 Lac Crore by 2030-31.
- It seeks to increase consumption of steel and major segments are infrastructure, automobiles and housing.
- It seeks to increase per capita steel consumption to the level of 160 Kgs by 2030 from existing level of around 68 Kg.

Risks and Concerns

India's role as a major producer is important and it can be sustainable only when if we keep track of the global market trends and our quality standards while ensuring consumer protection.

R&D should be a vital component of business strategy for sustained cost competitiveness and there is a need to explore alternatives and replace existing steel making technologies that increase operating costs.

In-line with this your Company developed new value-added products namely "Nationalume", "Rangoli" and "Kawach".

b) Agro Trading Business

The Company is also engaged in the Agri business mainly in trading of beans and pulses. On account of growing population of India, the demand for Proteins has increased considerably over the last two decades. As on today, the demand for Pulses is calculated around 24 Million Tonnes, whereas the average production of Pulses in India is around 20 to 22 Million Tonnes. Hence, there is a need to import pulses.

National Steel & Agro Industries Ltd.

Your Company imports Pulses & beans from international production centers to India. We import from Countries like Burma, Canada, USA, Australia, France, Russia etc. These imports are being sold from our Sales offices situated at different ports viz; Kolkata, Mumbai, Vizag, Tuticorin (Thoothukudi), Mundra and Hazira.

Outlook of Agro Trading Business

Given the monsoon which fared very well last year & with the support of the Government, the country produced 22 Million Tonnes of pulses last year. Also, in the forthcoming monsoon season, the forecast of good monsoon is made which again is a positive sign for Pulses.

Your Company feels that, as the production prospers, the demand for pulses will rise by 10 to 15% this year as price of pulses have come down to a very reasonable level which will help in demand generation for low cost Protein.

Your Company will take every opportunity on the Production boom and demand by actively participating in the Supply chain process. Your Company aims to increase its business of Import pulses and domestic trade this year.

Risk & Concerns of Agro Trading Business

Agri commodities trading is a cyclical business with every commodity having its own cyclical patterns. Weather during the growing cycle, price of the commodity before sowing, cost of production and price of the other peer crops are the major deciding factors for this cyclical movement. Your Company does its best to analyse the market during the season in terms of Demand, Production of the commodity, Stock Reports, Logistics operations, weather of both the growing and buying countries, etc and thereafter come out with a strategy, with its vast experience.

As a trader, your Company faces the fluctuation risk of Price and Currency(ies). Currency fluctuations also results in high variation of the prices of imported commodities. Your Company continuously keeping a watch on prices, commodities as well as Currency(ies). To avert the currency risk, hedging policy is in place in your Company.

ANNEXURE B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (I) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of National Steel And Agro Industries Limited ("the Company") as of 31st March, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial information as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10), of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial control system over financial reporting.

National Steel & Agro Industries Ltd.

Meaning of Internal financial Controls over financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition use or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal financial Controls Over financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial control system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017 based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

GAAP comprises mandatory accounting standards as specified in the Companies (Accounting Standards) Rules, 2006, the provisions of the Companies Act, 2013, guidelines issued by the Securities and Exchange Board of India ('SEBI') and other pronouncements of the Institute of Chartered Accountants of India ('ICAI'), to the extent applicable. Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in an accounting policy hitherto in use. The financial statements are prepared and presented in Indian Rupees unless otherwise stated.

B. Use of Estimates :

Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Significant estimates used by the management in the preparation of these financial statements include estimates of the economic useful life of Fixed Assets and provisions for bad and doubtful debts. Any revision to accounting estimates is recognised prospectively.

C. Revenue Recognition :

The remuneration recommended by the Audit Committee shall be considered and approved by the Board and ratified by the Members.

Goyal & Co., Cost Accountants (FRN 000051), Jaipur, for conducting of Cost Audit of the cost records maintained by the Company at a remuneration of ₹ 80,000/- (Rupees Eighty Thousand only) plus applicable tax and reimbursement of actual travel and out-of pocket expenses for the financial year ending 31st March, 2018.

Accordingly, consent of Members is sought for ratification of remuneration payable to Cost Auditor for the financial year ending 31st March, 2018.

None of the Directors or Key Managerial Personnel(s) of the Company or their relative(s) is / are, in any way, concerned or interested financially or otherwise in the Ordinary Resolution set out at Item No. 4 of the Notice.

The Board recommends passing of the resolution as an Ordinary Resolution.

Item No. 5:

The Board of Directors is of the opinion that the Company requires additional funds to meet with the needs of growing business, in addition to the funds raised internally and through debt from banks and financial institutions. Therefore, it is thought prudent for the Company to have enabling approvals to raise a part of the funding requirements for the said purposes as well as for such other corporate purposes as may be permitted under applicable laws through the issue of Equity Shares / warrants / non-convertible debt instruments along with warrants / any other convertible securities (other than warrants), which are convertible into or exchangeable with equity shares on such date as may be determined by the Board but not later than 60 months from the date of allotment (collectively referred as "QIP Securities"), as defined in the regulation.

Section 62(1)(c) of the Act provides, inter-alia, that such further QIP Securities may be offered to any persons whether or not such persons are existing holders of Equity Shares of the Company as on the date of offer by way of a Special Resolution passed to that effect by the Company in General Meeting.

Further, under regulation 82 of the SEBI ICDR Regulations it is necessary to obtain approval of Shareholders through Special Resolution for issuing QIP Securities through QIP Issue. Accordingly, consent of the Shareholders is being sought, pursuant to the provisions of Section 62(1)(c) and other applicable provisions

National Steel & Agro Industries Ltd.

of the Act, the SEBI ICDR Regulations and the SEBI Listing Regulations and such other approvals as may be necessary to issue and allot Securities as stated in the Special Resolution.

The Equity Shares issued pursuant to the QIP Issue shall rank pari passu in all respects with the existing Equity Shares of the Company.

These QIP Securities will be allotted only to QIBs as per the SEBI ICDR Regulations and there will be no issue to retail individual investors and existing retail shareholders. The resolution proposed is an enabling resolution and the exact price, proportion and timing of the issue of the QIP Securities will be decided by the Board based on an analysis of the specific requirements after consulting all concerned. Therefore, the proposal seeks to confer upon the Board the absolute discretion to determine the terms of issue in consultation with the lead managers to the QIP Issue.

As per Chapter VIII of the SEBI ICDR Regulations, an issue of QIP Securities on QIP basis shall be made at a price not less than the average of the weekly high and low of the closing prices of the related shares quoted on the stock exchange during the two weeks preceding the "relevant date". The Board may, at its absolute discretion, issue Equity Shares at a discount of not more than 5 percent or such other discount as may be permitted under applicable regulations to the 'floor price' as determined in terms of the SEBI ICDR Regulations, subject to Section 53 of the Companies Act, 2013. As the pricing of the offer cannot be decided except at a later stage, it is not possible to state the price of shares to be issued. However, the same would be in accordance with the provisions of the SEBI ICDR Regulations, the Companies Act, 2013, or any other guidelines/regulations/consents as may be applicable or required. The Stock Exchange for the pricing purpose is the BSE Limited/National Stock Exchange of India Limited.

The above mentioned Special Resolution has a validity period of 12 months before which allotments under the authority of said resolution should be completed.

The Special Resolution also seeks to give the Board the powers to issue QIP Securities in one or more tranche or tranches, at such time or times, at such price or prices and to such QIBs as the Board in its absolute discretion deems fit. The detailed terms and conditions for the issue(s)/offering(s) will be determined by the Board or its committee in its sole discretion in consultation with the advisors, lead managers, underwriters and such other authority or authorities as may be necessary considering the prevailing market conditions and in accordance with the applicable provisions of law and other relevant factors.

As and when the Board does take a decision on matters on which it has the discretion, necessary disclosures will be made to the Stock Exchanges as may be required under the provisions of the SEBI Listing Regulations.

In connection with the proposed issue of QIP Securities, the Company is required, inter alia, to prepare various documentations and execute various agreements. Accordingly, it is proposed to authorize the Board/Committee of the Board (including certain officers of the Company) to negotiate, finalise and execute such documents and agreements as may be required and do all such act(s), deed(s) and thing(s) in this

National Steel & Agro Industries Ltd.

regard for and on behalf of the Company.

The Special Resolution, if passed, will have the effect of allowing the Board to offer, issue and allot QIP Securities to the QIBs, who may or may not be the existing shareholders of the Company.
