Due to financial constraints, the company is been depending on business of processing steel on job work basis to maintain better economics and has successfully been able to achieve job work production. The Company also has indulged in the special heat treatment job in order to establish future market of Hardened & Tempered steel for exports as well as domestic, which will pave the path of revival and re-instating the strength of the company.

Short term spurts of improved demand has been affecting the company to regain its position from time to time in the international market, but the consistent improvement has been lacking in the international market since long time. The company has still been able to remain in the market even with these trends as well recessionary trends. As known worldwide, Indian steel has faced a lot of anti-dumping suits for Bright Steel Bars from European Community, U.S.A., Canada, the company has successfully being able to fight such anti-dumping petition and retain reasonable supplies to these countries and struggle to retain its position even at low profitability.
