ANNEXURE B REFERRED TO PARAGRAPH 1(f) UNDER "REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS" SECTION OF OUR REPORT OF EVEN DATE ON THE ACCOUNTS FOR THE YEAR ENDED ON 31ST MARCH 2018 OF PANCHMAHAL STEEL LIMITED, KALOL.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of PANCHMAHAL STEEL LIMITED ("the Company") as of March 31, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI').

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Revenue is measured at fair value of the consideration received or receivable, taking into account contractually defined terms of payment excluding duties or taxes collected on behalf of the government.

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on delivery of goods.

- i) Sales are recognized on dispatch of goods and are inclusive of excise duty as the case may be but are net of returns, trade discounts, and other applicable taxes.
- ii) Export incentives available under prevalent schemes are recognized as income in the year of exports and when there is reasonable assurance that the Company will comply with the conditions and the incentives will be received.
- iii) Revenue from job work is recognized on completion of the job.

2. Interest Income:

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on time basis and is included in other income in the Statement of Profit and Loss.

3. Taxes:

Current Income Tax

Income tax expense comprises of current tax and deferred tax. Income tax expense is recognized in the Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity/OCI, in which case it is recognized in Other Comprehensive Income. Tax on income for the current period is determined on the basis of taxable income and tax credits computed in accordance with the provisions of the Income Tax Act, 1961 using the tax rates and tax laws that have been enacted or substantively enacted on the reporting date. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred Tax

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates and laws that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax assets is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses. Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority.

4. Property, Plant and Equipment:

Property, plant and equipment are recorded at cost of acquisition/construction less accumulated depreciation and impairment losses, if any. Cost comprise of purchase price including non-refundable purchase taxes and any directly attributable cost of bringing the assets to its working condition and location for its intended use.

Subsequent expenditure on major maintenance or repairs includes the cost of the replacement of parts of assets and overhaul costs. Where an asset or part of an asset is replaced and it is probable that future economic benefits associated with the item will be available to the Company, the expenditure is capitalized and the carrying amount of the item replaced is derecognized. Similarly, overhaul cost associated with major maintenance are capitalized and depreciated over their useful lives where it is probable that future economic benefits will be available and any remaining carrying amount of the cost of previous overhauls are derecognized. All other costs are expensed as incurred.

5. Capital Work-in-Progress:

Project under commissioning and/or construction wherein assets are not ready for use in the manner intended by the management are carried at cost. At the point when an asset is operating at management's intended use, the cost of construction and/or commissioning is transferred to the appropriate category of property, plant and equipment.

6. Transition to Ind AS:

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

7. Depreciation / Amortization on Property, Plant and Equipment:

Depreciation on property, plant and equipment is provided on straight line method as per the useful life prescribed in Schedule II of the Companies Act, 2013. In the case of leased assets (including leasehold improvements), the cost of the leased assets are amortized over the lease term. The lease period is considered by excluding any lease renewal options unless the renewals are reasonably certain.

The estimated useful lives and residual values are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of that asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and loss.

8. Intangible Assets:

Intangible assets acquired are reported at cost less accumulated amortization and accumulated impairment losses. Amortization is charged over their estimated useful lives.

The estimated useful life and amortization method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognized on disposal or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognized in the Statement of Profit and Loss.

9. Non-Current Assets held for Sale:

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less cost to sell.

10. Impairment of Non-Financial Assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) unless the asset

does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the cash generating unit (CGU) to which the asset belongs.

Impairment losses of continuing operations, including impairment on inventories are recognized in the Statement of Profit and Loss, except for properties previously revalued with the revaluation surplus taken to OCI. For such properties, the impairment is recognized in OCI up to the amount of any previous revaluation surplus.

11. Borrowing Costs:

Borrowing Costs directly attributable to acquisition or construction of qualifying fixed assets are capitalized as part of cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

All other borrowing costs are charged to the Statement of Profit and Loss account in the year in which they are incurred.

12. Leases:

The determination of whether an arrangement is a lease is based on the substance of the arrangement at the inception of the lease.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

13. Inventories:

Inventories are stated at lower of cost and net realizable value.

Raw materials, production materials and General Stores and Spares are valued at lower of cost determined on weighted average basis and net realizable value. The cost includes freight inward, direct expenses and other cost incurred in bringing the inventories to their present location and condition.

Finished goods are valued at lower of cost or net realizable value. Cost includes raw-materials cost, production materials cost, related overheads and excise duty.

Net realizable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

14. Employee Benefits:

A liability is recognized in respect of short-term employee benefits accruing to employees in respect of wages and salaries in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Company's contribution to Provident Fund, Superannuation Fund, Employee State Insurance and other funds are determined under the relevant schemes and/or statute and charged to revenue.

Gratuity and Leave Encashment which are defined benefits are accrued based on actuarial valuation as at the Balance Sheet date. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. Remeasurements gains or losses are recognized in profit or loss in the period in which they arise.

15. Financial Instruments:

Financial instruments are recognized when the Company becomes a party to the contractual provisions of the instrument.

i) Financial Assets:

The Company determines the classification of its financial assets at initial recognition. The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. For the purpose of subsequent measurement, financial assets are classified in three categories:

a) **Amortized Cost:**

A financial asset is subsequently measured at amortized cost if it is held within a business model with the objective of collecting the contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding.

Financial assets at amortized cost includes loans receivable, trade and other receivable and other financial assets that are held with the object of collecting contractual cash flows. After initial measurement at fair value, the financial assets are measured at amortized cost using the effective interest rate (EIR) method less impairment.

b) **Fair Value through Other Comprehensive Income:**

A financial asset is subsequently measured at fair value through other comprehensive income if it is held with in the business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Movements in the carrying amount are taken through other comprehensive income, except for recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in the Statement of Profit and Loss.

c) **Fair Value through Profit or Loss:**

Financial assets, which are not classified in any of the above categories are subsequently fair valued through profit or loss.

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

The Company recognizes loss allowance using the expected credit loss (ECL) model for the financial assets, which are not fair valued through profit or loss/OCI. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. Trade receivables are of short duration, normally less than twelve months and hence the loss allowance measured as lifetime ECL does not differ from that measured as twelve months ECL. For all other financial assets, expected credit losses are measured at an amount equal to the twelve months ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

ii) **Financial Liabilities:**

The financial liabilities are classified at initial recognition as at fair value through profit or loss or as those measured at amortized cost. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and financial guarantee contracts.

The subsequent measurement of financial liabilities depends on their classification as under:

a) **Fair Value through Profit or Loss:**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading. The Company has not designated any financial liabilities upon initial recognition at fair value through profit or loss.

b) **Amortized Cost:**

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortized cost using the effecting interest rate method.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

16. Cash and Cash equivalents:

Cash and cash equivalents comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less.

17. Foreign Currencies:

The financial statements are presented in Indian Rupees which is the Company's functional and presentation currency.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at reporting date exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Profit and Loss.

18. Segment Accounting:

The Company is engaged in the business of manufacturing of Stainless Steel Long Products, which, in the context of Ind-AS 108 on Segment Reporting, constitutes a single reportable segment.

19. Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognized only when there is a present obligation as a result of past event and when a reliable estimate of the amount of the obligation can be made. Contingent liability is disclosed for (i) Possible obligations which will be confirmed only by the future events not wholly within the control of the company or (ii) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation can not be made. Contingent Liabilities are not recognized but are disclosed in the Financial Statements. Contingent Assets are neither recognized nor disclosed in the Financial Statements.

The Provisions, contingent liabilities and contingent assets are reviewed at each balance sheet date.

20. Earnings per share:

21. Cash Flow Statement:

The cash flows from operating, investing and finance activities of the Company are segregated.

22. Standards issued but not yet effective up to the date of Financial Statements:

There are certain amendments to standards which are issued, but not yet effective, up to the date of the Company's financial statements. The Company intends to adopt these standards, if applicable, when they become effective.

23. Key Accounting Estimates, Assumptions and Management Judgments:

In preparing the financial statements, management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Any revision to such estimates is recognized in the period in which the same is determined.

Estimates and assumptions are reviewed on an ongoing basis. Any change in these estimates and assumptions will generally be reflected in the financial statements in current period or prospectively, unless they are required to be treated retrospectively under relevant accounting standard.
