FINANCIAL PERFORMANCE:

During the year under review the Company recorded a total revenue of Rs. 18,674.56 lakhs as compared to Rs. 24,514.80 lakhs of previous year. The Company registered losses of Rs. 2403.52 lakhs as compared to profit of Rs. 471.10 lakhs in the previous year. The excess global steel capacity, fall in demand and steep drop in prices in Indian Steel Industry on account of dumping of steel by China has resulted in decline in revenue of the Company and consequently the company has suffered losses.

INDUSTRY AND ECONOMIC SCENARIO:

Due to adverse Global conditions, there has been a large inflow of imports. This has also manifested in a series of price cuts for the domestic steel industry during the year, leading to a squeeze on margins earned by steel producers.

India is the third largest steel producer in the world after China and Japan. In the year of 2016, India produced higher finished steel. Driven by rising infrastructure development and growing demand for automotives, steel consumption is expected to grow in future. The Government of India has allowed 100 percent Foreign Direct Investment (FDI) in the steel sector under automatic route. India's prospects are brightening due to low oil prices, the reform momentum and policies to increase infrastructure manufacturing output. India's steel demand is likely to increase in years to come. Going forward, implementation of policy measures already announced, structural reforms and government investment in infrastructure will be critical to India's economy.

EVENTS SUBSEQUENT TO THE DATE OF FINANCIAL STATEMENTS:

There are no material changes or commitments or events affecting the financial position of the Company which have occurred after March 31, 2017 till the date of this report except that the company has recently filed an application with the Hon'ble National Company Law Tribunal under clause 10 of Insolvency and Bankruptcy Code, 2016 for implementing a Corporate Insolvency resolution process being a Corporate Debtor.

EXPORTS:

The company's exports have declined from Rs. 1983.73 lakhs to Rs. 367.68 lakhs due to adverse global conditions. The company has continued to export its products in various countries such as Kuwait, Namibia and Nepal and the management is quite hopeful that in future it will be able to achieve improved results on Exports Front.

DIVIDEND AND RESERVES:

In view of losses, during the year under review, the Board has not proposed to transfer any amount to reserves further the Board has not recommended any dividend for the financial year 31.03.2017.

**ANNEXURE - I
MANAGEMENT DISCUSSION & ANALYSIS REPORT**

(a) Industry Structure and Development:

The Indian Steel Industry remains one of the most competitive steel industries in the world. However, there is a need to create a fair and level playing field amidst supply glut caused by surplus capacities in global steel industry. India has emerged as one of the brightest spots in the world grappling with economic turbulence and fragile growth. It is expected that in the financial year 2017-18 growth rate is estimated around 7% driven by the fundamentals of strong consumption and the government's push for streamlining the business processes. Focus on infrastructure creation, extensive urbanization/ Smart Cities, make in India, startups and promoting affordable housing policy initiatives by the Government of India augers well for the pick up in Steel demand in India considerably in the years to come.

Besides the strong adverse impact of global economic meltdown, the Indian economy also faced major headwinds during the year in the form of: a) slow agricultural growth due to the two consecutive years of below average monsoons, b) disappointing manufacturing output owing to weak demand and low commodity prices, c) sharp contraction in exports due to weak global demand and low commodity prices and d) growing NPA's and stressed assets. In the recent years the steel industry in India has faced lot of volatility mainly on account of fall in demand and outcome of crises in global economy.

The domestic steel industry was forced to take a series of price cuts - leading to a severe margin squeeze for the Indian steel companies. Steel demand in India is expected to grow this year on the back of low oil prices, reform momentum in India that remains better than in many countries. The construction industry is expected to rise further due to government's stimulus plan. The automotive sector is doing well. Hence, it is expected that domestic steel demand is going to recover soon and for the long time as well.

The consumption demand is expected to benefit from the recently announced Pay Commission award, continued low commodity prices, recent interest rate cuts and measures announced in the Union Budget of financial year 2017-18 to transform the rural sector. The consumer confidence remains upbeat, while the corporate sector's expectations of business conditions also remain positive. Overall, the Indian economy is poised to realize the benefits of higher government spending, policy initiatives, rural demand and continuing reforms and thrust on infrastructure development.

Key risks synonymous to industry include the global recessionary trend, economic slow-down, increase in financial charges, non-availability of raw materials, such as iron-ore, coal and labour etc., coupled with market fluctuations. 3. The supply and demand imbalance due to new capacities coming on stream while the demand remains subdued which may have negative impact on the plant utilization and steel prices.
4. Subdued growth of the manufacturing sector impacting demand.
5. Quantitative restrictions and/or additional tariffs of exports from India by importing countries.
6. Unpredictable and sharp cyclical movements in the raw material and other input prices.
7. Any change in Govt. Policies pertaining to steel industry may affect the profitability.

The opportunities of growth for your company as detailed below are manifold in view of its Strengths which may also counter the above concerns:

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with Authorizations of management and directors of the company; and
- (3) provide reasonable Assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected.

Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Government grants relating to specific fixed assets are treated as deferred income, which is recognized in the Statement of Profit and Loss on a systematic basis over the useful life of the asset.
All costs attributable to bringing the asset to its working condition for its intended use, including financing costs till commencement of commercial production and charges on foreign exchange contracts and adjustments arising out of exchange rate variations attributable to the fixed assets are capitalized.
- Depreciation**
Pursuant to the enactment of the companies Act 2013, the Company has applied the estimated useful lives as specified in schedule II. Accordingly the unamortized carrying value is being depreciated over the revised/remaining useful lives on straight line method.
- Inventories**
Inventories are valued at cost or net realizable value, whichever is lower. Raw Material and stores are valued at cost determined on a weighted average basis. Work in process is valued at cost plus an appropriate share of overheads depending upon the stage of completion. Finished Goods are valued taking into account the raw material cost, conversion cost and the overheads incurred to bring the goods to their present location and condition.

f) Foreign Exchange Transactions

Foreign Currency transactions are accounted for at exchange rate prevailing on the date of transaction. Premium on forward cover contracts in respect of import of raw materials is charged to the Statement of Profit and Loss over the period of contract. Amounts payable and receivable in foreign currency at the Balance Sheet date, not covered by forward contracts, are restated at the applicable exchange rate prevailing on the date of the Balance Sheet. All exchange differences, if any, arising on revenue transactions are charged/credited to the Statement of Profit and Loss.

g) Taxation

Provision for current tax is made in accordance with the provisions of the Income Tax law applicable for the relevant year. Deferred tax asset/liability is created in accordance with the requirements of Accounting Standard 22 "Accounting for taxes on Income" issued by the Institute of Chartered Accountants of India. h) Employee Benefits

(a) Short-Term Employee benefits

Employee benefits payable wholly within twelve months of rendering services are classified as short term employee benefits and are recognized in the period in which the employee renders the related services.

(b) Post-employment benefits

Defined benefits Plans

The employee gratuity scheme is a defined benefit plan. The present value of defined benefit obligation as at the end of the year is determined using the Projected Unit Credit method i.e. each period of service rendered by the employee is considered to give rise to an additional unit of benefit entitlement, gradually building up the final obligation.

The liability on account of compensated absences i.e. leave with wages is accounted for on the basis of unutilized leave standing to the credit of the employee at the close of the year.

Defined contribution Plans

Contributions to the employees' provident fund, which is a defined contribution plan, are recognized as expense in the period in which the employee has rendered the services.

i) Provisions and contingencies

Provision is recognized in the balance sheet when, the company has a present obligation as a result of past events and it is probable that an outflow of economic resources will be required to settle the obligations, and a reliable estimate of the amount of the obligation can be made. A disclosure by way of contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are neither recognized nor disclosed in the financial statements.

j) Borrowings

Borrowing cost includes interest. Such costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are charged to statement of profit and loss in the period in which they are incurred.

ANNEXURE – 'A' TO INDEPENDENT AUDITORS' REPORT

(Referred to in our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of VARDHMAN INDUSTRIES LIMITED and its Subsidiary as of 31st March 2017 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI').

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's

CONSOLIDATED RESULTS OF VARDHMAN INDUSTRIES LIMITED

policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that :

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with Authorizations of management and directors of the company; and
- (3) provide reasonable Assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note: 36 SIGNIFICANT ACCOUNTING POLICIES

a) Accounting Convention

The financial statements, other than the Cash Flow Statement, are prepared under the historical cost convention, treating the entity as a going concern and in accordance with the applicable accounting standards and relevant provisions of the Companies Act, 2013.

b) Revenue Recognition

Revenue from domestic sale of goods is recognized at the time of dispatch of goods from the factory. Sales are exclusive of VAT and CST. Export sales are booked on the basis of the date of Bill of Lading.

c) Fixed Assets

Fixed Assets are stated at cost, net of taxes and duties subsequently recoverable from government authorities less accumulated depreciation and impairment loss, if any. Government grants relating to specific fixed assets are treated as deferred income, which is recognized in the Statement of Profit and Loss on a systematic basis over the useful life of the asset.

All costs attributable to bringing the asset to its working condition for its intended use, including financing costs till commencement of commercial production and charges on foreign exchange contracts and adjustments arising out of exchange rate variations attributable to the fixed assets are capitalized.

d) Depreciation

Pursuant to the enactment of the companies Act 2013, the Company has applied the estimated useful lives as specified in schedule II. Accordingly the unamortized carrying value is being depreciated over the revised/remaining useful lives on straight line Method.

e) Inventories

Inventories are valued at cost or net realizable value, whichever is lower. Raw Material and stores are valued at cost determined on a weighted average basis. Work in process is valued at cost plus an appropriate share of overheads depending upon the stage of completion. Finished Goods are valued taking into account the raw material cost, conversion cost and the overheads incurred to bring the goods to their present location and condition.

f) Foreign Exchange Transactions

Foreign Currency transactions are accounted for at exchange rate prevailing on the date of transaction. Premium on forward cover contracts in respect of import of raw materials is charged to the Statement of Profit and Loss over the period of contract. Amounts payable and receivable in foreign currency at the Balance Sheet date, not covered by forward contracts, are restated at the applicable exchange rate prevailing on the date of the Balance Sheet. All exchange differences, if any, arising on revenue transactions are charged/credited to the Statement of Profit and Loss.

g) Taxation

Provision for current tax is made in accordance with the provisions of the Income Tax law applicable for the relevant year. Deferred tax asset/liability is created in accordance with the requirements of Accounting Standard 22 "Accounting for taxes on Income" issued by the Institute of Chartered Accountants of India. Deferred Tax Asset is created only to the extent there is virtual certainty that future taxable income will be available against which such deferred tax asset can be realized.

In terms of the Guidance Note on "Accounting for Credit available in respect of Minimum Alternate Tax (MAT) under the Income Tax Act, 1961" issued by the Institute of Chartered Accountants of India, MAT credit is recognized as an asset only to the extent there is a convincing evidence that the company will be paying regular income tax during the specified period.

h) Employee Benefits

(a) Short-Term Employee benefits

Employee benefits payable wholly within twelve months of rendering services are classified as short term employee benefits and are recognized in the period in which the employee renders the related services.

(b) Post-employment benefits

Defined benefits Plans

The employee gratuity scheme is a defined benefit plan. The present value of defined benefit obligation as at the end of the year is determined using the Projected Unit Credit method i.e. each period of service rendered by the employee is considered to give rise to an additional unit of benefit entitlement, gradually building up the final obligation.

The liability on account of compensated absences i.e. leave with wages is accounted for on the basis of unutilized leave standing to the credit of the employee at the close of the year.

Defined contribution Plans

Contributions to the employees' provident fund, which is a defined contribution plan, are recognized as expense in the period in which the employee has rendered the services.

CONSOLIDATED RESULTS OF VARDHMAN INDUSTRIES LIMITED

i) Provisions and contingencies

Provision is recognized in the balance sheet when, the company has a present obligation as a result of past events and it is probable that an outflow of economic resources will be required to settle the obligations, and a reliable estimate of the amount of the obligation can be made. A disclosure by way of contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are neither recognized nor disclosed in the financial statements.

j) Borrowings
