The financial statements have been prepared under the historical cost convention on an accrual basis except in case of assets for which provision for impairment is made and revaluation is carried out.
B Use of estimates	The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates.
C Fixed assets	Fixed assets are stated at cost of acquisition inclusive of duties (net of CENVAT and other credits, wherever applicable), taxes, incidental expenses, erection / commissioning expenses and borrowing costs etc. up to the date the assets are ready for their intended use.
D Depreciation	Depreciation on Fixed Assets is provided on written down value method at the rates prescribed in Schedule XIV of the Companies Act, 1956 or at rates determined based on the useful life of the assets, whichever is higher.
E Impairment of assets	The carrying amount of assets is reviewed at each balance sheet date to determine if there is any indication of impairment thereof based on external / internal factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount, which represents the greater of the net selling price of assets and their 'value in use'. The estimated future cash flows are discounted to their present value at appropriate rate arrived at after considering the prevailing interest rates and weighted average cost of capital.
F Investments	Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term. Current investments are carried at lower of cost and fair value determined on an individual investment basis.
