**ANNEXURE TO THE NOTICE**

EXPLANATORY STATEMENT AS REQUIRED BY SECTION 102 OF THE COMPANIES ACT, 2013.

The following Explanatory Statement, as required by Section 102 of the Companies Act, 2013 sets out the material facts relating to business under Item Nos. 4 to 7, mentioned in the accompanying Notice dated 27th May, 2015.

Item No. 4

The item relates to the appointment of M/s. Mahendra N. Shah & Co., Chartered Accountants, Ahmedabad as the Auditors' of the Company and fixation of their remuneration as may be determined by the audit committee in consultation with the auditors. The existing auditors, M/s. C.C.Chokshi & Co., Chartered Accountants, Ahmedabad, have expressed their regret to continue as 'Statutory Auditors' of the Company.

Item No. 5

The Articles of Association ("AoA") of the Company is presently in force since its incorporation of the Company i.e. year 1989. The existing Articles of Association are in line with the erstwhile Companies Act 1956, which are thus no longer in full conformity with the Companies Act, 2013 ('New Act'). The New Act is now largely in force and substantive sections of the Act which deal with the general working of companies stand notified. With the coming into force of the Act several articles of the existing Articles of Association of the Company require alterations / deletions. Given this position, it is considered expedient to wholly replace the existing Articles of Association by a new set of Articles. It is thus expedient to adopt new set of Articles of Association (primarily based on Table F set out under the Companies Act, 2013), in place of existing Articles of Association of the Company instead of amending the Articles of Association by alteration/incorporation of provisions of the Companies Act, 2013. Hence the Board of Directors at its meeting held on 27th May, 2015 decided to adopt new set of Articles in place of existing Articles of Association of the Company and seek shareholders' approval for the same. In terms of section 5 and 14 of the Companies Act, 2013, the consent of the members by way of special resolution is required for adoption of new set of Articles of Association of the Company. Your approval is sought by voting via Ballot Paper/e-Voting in terms of the provisions of inter-alia, Section 14 of the Companies Act, 2013, read with the Companies (Incorporation) Rules, 2014. A copy of the proposed set of new Articles of Association of the Company would be available for inspection for the members at the Registered Office of the Company during the office hours on any working day, except Saturdays, between 11.00 a.m. to 1.00 p.m.

None of the Directors, Key Managerial Personnel of Company and their relatives are concerned or interested in the said resolution.

Item No. 6 & 7

As per section 149(4) of the Companies Act, 2013 and clause 49 of the listing agreement, the Board of Directors of the company shall have an optimum combination of executive and non-executive directors with at least one woman director and not less than fifty percent of the Board of Directors comprising non-executive directors. Where the Chairman of the Board is a non-executive director, at least one-third of the Board should comprise independent directors and in case the company does not have a regular non-executive Chairman, at least half of the Board should comprise independent directors.

Therefore, It is proposed to recommend to the shareholders the appointment of Ms. Saloni Jhaveri (DIN 00029474) and Mr. Jigen A. Mehta (DIN 02693293) as Independent Directors of the Company, not liable to retire by rotation to hold office for a term of 5 consecutive years commencing from 12th August, 2015.

Ms. Saloni Jhaveri (DIN 00029474) and Mr. Jigen A. Mehta (DIN 02693293) have confirmed that they are not disqualified in terms of section 164 of the Companies Act, 2013 and have given their consent to act as such. They have also submitted the declaration under section 149(6) of the Companies Act, 2013. The copy of the draft letter of appointment of the Independent Directors setting out the terms and conditions are available for inspection by members at the Registered office of the Company.

The Company has received notice in writing under the provisions of section 160 of the Companies Act, 2013, from the members along with a deposit of Rs 1,00,000/- from each candidate proposing the candidature of Ms. Saloni Jhaveri (DIN 00029474) and Mr. Jigen A. Mehta (DIN 02693293) for the office of Independent Directors.

The Board of Directors further confirm that in the opinion of the Board, the Independent Directors possess the relevant experience and fulfills the conditions specified in the Act, for such appointment and are independent of the management of the Company.

None of the Directors, Key Managerial Personnel and their relatives except Ms. Saloni Jhaveri and Mr. Jigen A. Mehta and their relatives are interested in the resolution.

The facility to manufacture Multilayer Ceramic Capacitor in Radials, Axial's, Surface Mount Devices (SMD's) in the state of art facility in Gandhinagar, Gujarat. The complete Plant & Machinery was Imported & setup with their support. Subsequently other products like Single Layer Ceramic Capacitors & Metal Oxide Varistor's (MOV's) and Trading in other components like TANCAPS, DIODES etc., have been added to our range of products. The company has now outsourced these products from abroad & marketing the same in our brand name maintaining the same quality levels as our Manufactured Products.

INDUSTRIAL STRUCTURE & DEVELOPMENT.

Electronic components are the building blocks in any Electronics Systems. They are primarily classified into ACTIVE & PASSIVE Components. Ceramic Capacitors are Passive Components & are the most widely used due to their miniature size , low price, Wide Range etc.

These components are widely used by a cross Section of the Electronics Sector Customers divided into the following segments.

1. Computer & Computer Peripherals.
2. Instrumentations & Industrial Electronics
3. Strategic (DEFENCE) Electronics
4. Consumer Electronics
5. Telecommunications
6. Electronics Manufacturing Services (EMS).

GPAEL's products find applications in the growing Electronic Industry & have been well received in the market.

OPPORTUNITIES & THREATS.

- Ceramic Capacitors are the most widely used Passive Components due to the excellent Electrical Characteristics over other types as well as by way of its flexibility in casting into any shape.
- In addition to this Ceramic Capacitors have a wide range due to the variable Dielectric Constant & find application in Tuning, Timing Circuits, Coupling, Filtering, Harmonic Suppression, Power factor Compensation etc.,

- The company is also marketing other components to our existing customers.
- We have started outsourcing our parts due to the fiercely Competitive nature of the market.
- It is very easy for Manufacturers to import these parts at zero percent duty.

RISKS & CONCERNS

- The evolution of the EMS segment has brought in new technologies. However this has led to price pressures as the EMS customers have access to global sourcing.
- The Electronic Market is highly Competitive due to which the manufacturers have to resort to new design developments to offer consumers more value for money. Consequently the absolensce rate is high.
- The Component market is very sensitive to faster turn around. Resultingly customers expect faster deliveries & high stocking levels to meet their requirements.
- The dependence on imports exposes the company to be sensitive to foreign currency volatility.
- Due to the faster turn around time, customers particularly OEM's resort to imports in kit form & is a persistent threat.

PERFORMANCE BY SECTOR

The overall market continued to be sluggish in the FY 2014-15. Despite the adverse market condition, the UPS, Inverter & the Energy Meter markets fared reasonably well. The Automotive Segments requirements were slow. However the overall Instrumentations & Industrial Electronic Segment recorded a drop over previous year. The Telecom sector sales improved over previous year, due to one time requirement from a C-DOT vendor. The EMS segment has been growing every year & was no exception this year too.

Product wise the Radial , SMD & SLCC sales recorded an increase over previous year & the High Voltage Single Layer Disc sales dropped largely due to low requirements in the Instrumentation Segment. The Radial requirements are continuously being replaced with SMD's.

Due to the above, the revenues during the FY 2014-15 increased from Rs. 1029.01 lacs to Rs. 1115.41 Lacs, an increase of 8%.

1 CORPORATE INFORMATION

Gujarat Poly-AVX Electronics Limited (the Company) is a public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company in collaboration with AVX corporation, USA has set up a state of art facilities for manufacturing of capacitors.

2. SIGNIFICANT ACCOUNTING POLICIES

1) Basis of Accounting:

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Companies Act, 2013 ("the 2013 Act") / Companies Act, 1956 ("the 1956 Act"), as applicable. The financial statements have been prepared on accrual basis under the historical cost convention. The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

2) Use of Estimates:

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. The Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

3) Operating Cycle

Based on the nature of products / activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

4) Cash flow Statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

5) Fixed Assets: (Tangible/ Intangible)

Fixed assets are carried at cost less accumulated depreciation / amortisation and impairment losses, if any. The cost of fixed assets comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use. Subsequent expenditure on fixed assets after its purchase / completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.

6) Depreciation and Amortisation:

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on tangible fixed assets, except furniture and fixtures, has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013.

Depreciation on furniture and fixtures is calculated on Written down value basis as per the useful life prescribed in Schedule II to the Companies Act, 2013.

Cost of leasehold land is amortised over the period of the lease.

Intangible assets are amortised over their estimated useful life on straight line method as follows:

- Technical Knowhow is amortised over its useful life of seventeen years which is the useful life of plant and machinery for which it is used.
- Computer software are amortized over a period of three years from the date of their acquisition.

7) Impairment of Assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognised for such excess amount. The impairment loss is recognised as an expense in the Statement of Profit and Loss.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

8) Leases:

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

7) Inventories:

Inventories are valued at the lower of cost (determined on FIFO basis) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and Finished goods include appropriate proportion of overheads and, where applicable, excise duty.

8) Revenue recognition:

Sale of goods:

Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Sales include excise duty, where applicable, but exclude sales tax and value added tax.

Other Income:

Revenue in respect of other income is recognized when no significant uncertainty as to its determination or realization exists.

9) Foreign Currency Transactions:

Transactions in foreign currencies entered into by the Company are accounted at the exchange rates prevailing on the date of the transaction or at rates that closely approximate the rate at the date of the transaction.

Foreign currency monetary items of the Company, outstanding at the balance sheet date are restated at the year-end rates. Non-monetary items of the Company are carried at historical cost.

Exchange differences arising on settlement / restatement of foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss.

10) Employees Benefits:

Employee benefits include provident fund, superannuation fund, employee state insurance scheme, gratuity fund, compensated absences and pension fund.

Defined contribution plans

The Company's contribution to provident fund, superannuation fund, employee state insurance scheme and Pension fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

Defined benefit plan

For defined benefit plans in the form of gratuity fund the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuation being carried out at each balance sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the schemes.

**Short-term employee benefits**

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the balance sheet date.

11) Taxes on Income:

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there are unabsorbed depreciation and carry forward of losses and items relating to capital losses,, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each balance sheet date for their realisability.

12) Government Grants:

Government grants in the nature of promoter's contribution like investment subsidy, where no repayment is ordinarily expected in respect thereof, are treated as capital reserve.

13) Provisions, Contingent liabilities and Contingent Assets:

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognised in the financial statements.
