Driving Transformation.

Enhancing Capabilities.

Since our inception, the Indian Automotive Industry has been evolving dynamically. We have always been proactive in acknowledging the change that was on the horizon and pre-planned our readiness for the transformation. Over the years we have been continuously supporting our partner and customer, Maruti Suzuki, as it charted its growth trajectory and ventured into high-end models.

As Maruti Suzuki kick starts its new policy of 'Transformation through Motion' named Transformation, we have geared up our capabilities to partner our client in its new journey. One of our noteworthy initiatives of enhancing capabilities, amongst many which are driving our own transformation, is the expansion of our high-end robotic lines. This will give a

significant fillip to our technological prowess. We have also invested in new welding equipment technology with Medium Frequency Inverter Technique (MFDC) guns and transfer press which would further add to our product quality. This would also lead in energy saving and enhancing our efficiency. In line with Maruti Suzuki's requirement, we have adopted a new production system, 'Sequence Production'. This will bring in great synergy with our client's requirements, significantly reducing the time gap and bringing in Just in Time concept, thereby adding value for both.

With these initiatives, we are ready to take our next leap of growth, which would lead our transformation for a better and brighter tomorrow.

Chairman's Message

Dear Shareholders,

I am very pleased to share with you, your Company's performance for the year 2015-16 and the way forward. The world today is highly interconnected with open business policies across continents. This has both, direct and indirect, bearing on the changes that happen in the major economies. The world today is witnessing a stubbornly low commodity prices, triggered by the slowdown in China. The economy of China was having a dream run for the past many years, largely driven by investments from the government. This had made China one of the largest consumers of many commodities. The slowdown in the global economy

has pushed China to shift its focus from investment driven growth to consumption driven growth. Though, in the short-term, this would have an adverse impact on China's economy, in the long run this would bring in sustainability to its economy. Hence, commodity prices are expected to remain low for quite some time.

India, on the other hand, is seeing some drastic change. India, being a major importer of commodities, has been one of the biggest beneficiaries of the low commodity prices. This has also led to lower inflation, triggering interest rate easing cycle, where the RBI has been reducing repo rates at regular intervals. This would further bring in cost competitiveness

Over the last three decades, we have been a strategic partner for Maruti Suzuki, delivering many high quality parts in its various brands.

amongst the companies and benefit many debt ridden sectors. As per the IMF's predictions, India currently is the brightest spot in the global economy and is well placed to grow steadily over the coming years. The CSO has estimated a GDP growth of 7.6% in FY16.

With growth returning to India, the Indian automobile industry has started to stabilize. It grew by 2.58% in volume, while value growth was slightly higher, at 3.78% in FY16. The passenger car segment, which is the single largest contributor to your Company's revenue, has surpassed industry growth with 7.24% growth in FY16, over the previous year. Our client Maruti Suzuki has achieved record sales of 14.29 lac units, surpassing the industry growth with 10.6% growth in FY16, over the previous year.

Though our supply has been higher, we were impacted by the significant fall in global steel prices. Hence, the revenue during the year remained almost same and stood at ₹ 1,306.56 crore. However, EBITDA has witnessed a growth of 8.1% from ₹ 112.78 crore in FY15, to ₹ 121.93 crore in FY16. The growth has been driven by operational efficiency, leading to improvement in margins. The EBITDA margin in FY16 has been enhanced by close to 30 bps to 9.3%, from 8.7% in FY15. The net profit for the year stood at ₹ 40.40 crore, as against ₹ 39.98 crore in FY15. Marginal increase in profit was largely due to the higher tax charge, as the benefit under Section 32AC of the Income Tax Act, 1961, has reduced from the previous year.

During the year, we have enhanced our robotic line and also further streamlined our production processes with Maruti Suzuki. This would enhance our scope of work with our sole client. Over the last three decades, we have been a strategic partner for Maruti Suzuki, delivering many high quality parts in its various brands. As our partner plans for the next quantum leap with its new policy 'Transformotion', we have taken up the mantle to provide the required support in our limited scope, to enable a seamless execution of their strategy. This would also help your Company to maintain its steady growth over the coming years.

I would also like to take this opportunity on behalf of the Board, to thank all our stakeholders for their continuous support. I would also like to thank our valued partner, Maruti Suzuki India Limited, for their continued trust and support. I would also like to extend my gratitude to our team of talented and dedicated employees, for their service and dedication. I would like to thank my fellow Board Members for their guidance and direction, and look forward to their enthusiastic and active participation in helping to achieve the objective of the Company.

Sincerely,

S. K. Arya
Chairman & Managing Director

Corporate Social Responsibility Initiatives

At JBML, corporate social responsibility is embedded in our business model, as we firmly believe that the contribution to economic, societal and environmental capital ensures long-term business sustainability and competitiveness.

Our community outreach program encompasses initiatives for the empowerment of rural communities, by working towards their economic independence, improving social infrastructure and social upliftment.

Our Company has adopted Ekal Vidyalayas in remote villages of the country, as we strongly believe that education is the best long term investment for improving lives and building

a better nation. Besides this, we also extended our humble support to NGOs actively involved in the field of education, character building, health and sports. During the year, we continued our emphasis on employee engagement to show our concern for the underprivileged.

Many employees and their families participated in Blood Donation Camps, organised in-house, in aid of children suffering from thalassemia. Donations were extended to the Red Cross Foundation for helping distressed people and communities, to overcome natural calamities.

We are committed to the protection of the environment for the benefit of the society, future generations and each of us as individuals. Going forward, we will continue to align our business development to support inclusive growth, social equity and concern for the environment, thereby creating value for all our stakeholders.

Our committed efforts in this direction, includes:

- Effective management of our operational activities to minimise the adverse effects of our operations on the environment, health and safety
- Implementing effective policies for environment conservation
- Maintaining an environmental health and safety management team to regularly monitor, set and review the environment, health and safety objectives and targets
- Reduce waste and implement the effective recycling of waste at manufacturing operations

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. ECONOMIC REVIEW

I. Global Economy

As per IMF’s World Economic Outlook, the global economy grew by 3.1% in the calendar year 2015 (CY15) as compared to 3.4% in the previous year, a slight decrease of 30bps. In CY15, Advanced Economies grew by 1.9% compared to 1.8% in the previous year. Emerging and Developing Economies grew by 4.0% in CY15 which was lower than the previous year’s growth rate of 4.6% on account of economic slowdown in major economies such as China, Brazil and Russia. IMF has projected that the global economy will grow by 3.2% in CY16 and 3.5% in CY17.

Source: IMF’s World Economic Outlook, April 2016

II. Indian Economy

The Central Statistical Organization (CSO) has estimated that the Indian economy has grown by 7.6% in FY 2015-16 (FY16) as compared to the 7.2% growth rate of the previous fiscal. As per CSO estimates, the cumulative growth in Index of Industrial Production (IIP) for the period from April, 2015 to March, 2016 over the corresponding period of the last year, stands at 2.4%. The Consumer Price Index (CPI) during the year FY16 has been moving close to 5.0%, which is well within the target set by Reserve Bank of India for CPI. Whereas, the Wholesale Price Index (WPI) during the year remained in the negative zone. With CPI well in control and WPI in negative zone, RBI has been reducing REPO rate. During the year FY16, RBI has reduced REPO rate by 75 bps.

The improvement in India’s economic fundamentals has accelerated in the year FY16 with the combined impact of strong government reforms, RBI’s inflation focus supported by benign global commodity prices.

Foreign direct investment (FDI) (equity inflows) in India have increased by 29% to USD 40 billion in FY16 from USD 30.9 billion which India received previous year on the back of strong response of Make-in-India campaign and relaxation of FDI limits in many sectors.

Exhibit 5: WPI Inflation (Base 2004-05) and CPI Inflation (Base 2012)

Going forward, the Indian economy is poised to grow further from the current level on the back of new reforms initiated by the government, increased investment from global financial institutions, lower oil prices and bigger infrastructure funding. The likely introduction of GST, which will replace state indirect taxes, is also expected to augment GDP growth in long run. The India Meteorological Department has predicted an above normal monsoon for FY17 which further adds towards fortifying the economic recovery in India.

B. INDIAN AUTOMOTIVE INDUSTRY

India is one of the fastest growing and largest auto markets in the world. The automobile industry contributes close to 7% to the Indian gross domestic product. As per SIAM's vision document, by CY16, India is expected to be the third largest automotive maker by volume in the world and will account for more than 5% of global sales. Indian automotive industry also employs more than 19 million people. There are four large automotive clusters in the country; Delhi-Gurgaon-Faridabad in the North; Mumbai-Pune-Nashik-Aurangabad in the West; Chennai-Bengaluru-Hosur in the South; and Jamshedpur-Kolkata in the East.

C. THE AUTOMOBILE PRODUCTION, DOMESTIC SALE AND EXPORT:

I. Production:

The industry produced a total of 23.96 million vehicles, including passenger vehicles, commercial vehicles, three wheelers and two wheelers in FY16 as against 23.36 million in FY15, registering a marginal growth of 2.58 percent over the same period last year. The industry produced 18.83 million two-wheelers, 3.41 million passenger vehicles, 0.93 million three-wheelers and 0.78 million commercial vehicles.

II. Domestic Sales:

The industry sold 20.47 million vehicles in FY16 (19.72 million in FY15) registering a growth of 3.78% in current year as compared to the previous year. This constitute a sale of 2.79 million passenger vehicles (2.60 million in FY15), an increase of 7.24%; 0.69 million commercial vehicles (0.61 million in FY15), an increase of 11.51%; 0.54 million three-wheelers (0.53 million in FY15), an increase of 1.03%; and 16.46 million two wheelers (15.98 million in FY15), an increase of 3.01%.

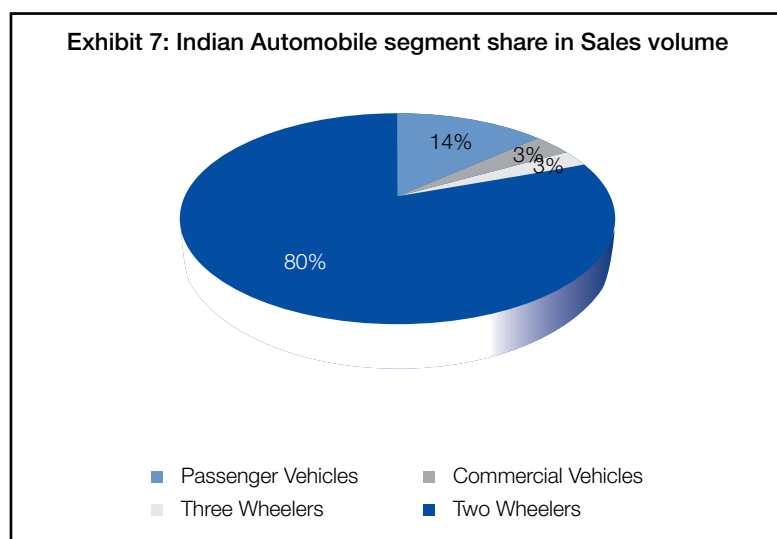

III. Exports:

In FY16, the overall export grew by 1.90%. Passenger Vehicles, Commercial Vehicles, Three-Wheelers and Two-Wheelers registered a growth of 5.24%, 16.97%, (-) 0.78% and 0.97% respectively, over the same period last year.

Indian Auto Component Industry:

The Indian automotive components industry has grown significantly over the past few years primarily due to increase in investment by automotive OEMs in India, improved consumer sentiments and a buoyant end user market. The industry has transformed itself from being a low cost supplier to key auto components provider and has become one of the most preferred supplier of a range of high value and critical automobile components, not only to domestic OEM, but also to global auto makers. A stable government framework, increased purchasing power, large domestic market, and an ever increasing development in infrastructure have made India a favourable destination for investment.

Automotive Sector growth: India's automotive component industry offers one of the most cost effective manufacturing base and a high degree of technological advancement to global OEMs, which is expected to give increased investment from global OEMs in India. According to the automotive mission plan 2016-26 (AMP 2016-26) the Indian automotive industry is to be the engine of the "Make-in-India" programme and will be among the top three of the world in engineering, manufacture and export of vehicles and auto components, growing in value to over 12% of India GDP and generating additional 65 million jobs. AMP 2016-26 envisages that the Indian automotive industry will grow 3.5 to 4 times in value from the current output of around Rs. 4,64,000 crores, to about 16,16,000 – 18,88,500 crores by 2026.

D. OPPORTUNITIES AND THREATS / CHALLENGES TO INDIAN AUTO COMPONENT INDUSTRY

(a) OPPORTUNITY

The automotive sector in India, comprising of the automobile and auto component sub-sectors, is one of the key segments of the economy having extensive forward and backward linkages with other key segments of the economy. The Indian auto component industry is one of the India's sunrise industries with tremendous growth prospects. From a low-key supplier providing components to the domestic market alone, the industry has emerged as one of the key auto components center in Asia and today it is seen as a significant player in the global automotive supply chain.

The Opportunities can be lined as under:

- i. **Government Initiatives and Policies:** Many foreign companies are setting up their facilities in India on account of various government initiatives like Make in India and Digital India. The aim of Make in India initiative is to boost the manufacturing sector of Indian economy. This initiative is expected to increase the purchasing power of an average Indian consumer, which would further boost demand, and hence spur development, in addition to benefiting investors. Besides, the Government has also come up with Digital India initiative, which focuses on three core components – (i) creation of digital infrastructure, (ii) delivering services digitally, and (iii) increase digital literacy.

Currently, the manufacturing sector in India contributes over 15% of the GDP. The Government of India, under the Make in India initiative, is trying to give boost to the contribution made by the manufacturing sector and aims to take it up to 25% of the GDP.

The Government is also taking various initiatives for the development of infrastructure. The Road Transport and Highway Ministry has set ambitious target of adding 25,000 KMs in FY17 out of which 15,000 KMs would be awarded by NHAI and 10,000 by NHIDL. In FY 2015-16, the ministry awarded 10,000 KMs of highway worth Rupees One Lac Crore. Better inter-state connectivity is bound to bring about an upswing in transportation. Thus create a demand for personal and commercial vehicles.

- ii. **Market Size:** Over the last decade, the automotive components industry has scaled three times to US\$ 40 billion in FY16 while exports have grown even faster to US\$ 11 billion. This has been driven by strong growth in the domestic market and increasing globalization (including exports) of several Indian suppliers. According to the Automotive Component Manufacturers Association of India (ACMA), the Indian auto-components industry is expected to register a turnover of US\$ 113 billion by 2020 backed by strong exports.

The Government of India's Automotive Mission Plan (AMP) 2006 - 16 has come a long way in ensuring growth for the sector. It is expected that this sector's contribution to the GDP will reach US\$ 145 billion in FY17 due to enhanced impetus on exports of small cars, multi-utility vehicles (MUVs), two and three-wheelers and auto components by many Indian companies.

- iii. **Investment:** India is an emerging global hub for sourcing auto components. Geographically it is closer to key automotive markets like the ASEAN, Japan, Korea and Europe. The Government of India encourages foreign direct investment in automobile sector and allows 100% FDI under automatic route. Several global Tier-I suppliers have announced plans to increase procurement from their Indian subsidiaries.

- iv. **Low Crude Oil Price:** Crude oil price is currently trading at USD 50 per barrel and is expected to be in range bound of 50 - 60 for next one to two years. Low oil prices are bound to increase the consumers' disposable income, resulting in a raise in discretionary spending and a demand for automobile and auto parts.
- v. **Positive Economic Indicators:** Macro-economic indicators such as GDP, Inflation, REPO rates and consumer sentiments have been positive in recent times. We are also assuming that interest rates will further come down from the current level. These favorable key indicators are expected to drive consumer spending which, added by availability of credit, should positively impact the demand for automobile and auto parts.
- vi. **Road Ahead:** The rapid globalization is opening up newer avenues for the transportation industry, especially while it makes a shift towards electric, electronic and hybrid cars, which are deemed more efficient, safe and reliable modes of transportation. Over the next decade, this will lead to newer verticals and opportunities for auto-component manufacturers, who would need to adapt to the change via systematic research and development.

The Indian auto-components industry is set to become the third largest Industry in the world by 2025. Indian auto-component makers are well positioned to benefit from the globalization of the sector as exports potential could be increased by up to four times to US\$ 40 billion by 2020.

(b) THREATS / CHALLENGES

Despite many opportunities and manufacturing capabilities, the industry is exposed to several risk factors:

- i. **Increasing Regulatory Intervention:** In the past few years, regulatory intervention has increased significantly to reduce the emission levels owing to increased environmental issues. Regulators have also made it mandatory to have CBS and ABS in all two wheelers sold from April 2017. The recent ban by Supreme Court on diesel vehicles (above 2000 CC) in Delhi NCR is another example. Delhi NCR is the biggest automobile market in India and as per industry experts; the recent ban on diesel cars has not only hurt the sales of SUVs but also impacted inquiries for compact cars. These factors may affect the growth of the industry.
- ii. **Threat of Low Cost Import:** The Indian auto components industry faces difficult pricing challenges from China and South East Asian countries as they compete not only in the international markets but also in the domestic Indian market. The cost competitiveness of Indian players is constrained on account of infrastructure inefficiencies like higher cost of power; upward pressure on wages of labour and inflexible labour laws.
- iii. **Development of New Technology:** New technologies like use of fuel cells in vehicles instead of engine can have an adverse impact on auto component industry. Specially the sensation created by Tesla Model-S and its big expansion plan including Giga factory, which entails close to USD 5 billion investment and expected to produce more batteries than the rest of the world collectively. The mass production of batteries will reduce the Tesla Car price by 30% and make it more affordable to own.
- iv. **Increase in Input Prices:** In recent years, the input cost of key raw materials like metals and paints has gone up significantly. Labour cost has also increased in recent times. Talent shortage has driven up the pay and increased staff turnover. The high labour cost, added by raw material cost, is creating a pressure to increase the prices of automobiles. The constant increase in prices of automobiles can affect demand.

E. OPERATIONAL HIGHLIGHTS

During the FY16, the turnover of the Company is ₹ 13,065.59 Million (₹ 13,015.35 Million in previous year), a marginal increase of 0.39%, which is due to significant reduction in raw material price. However, our main customer (MSIL) volume has gone up by 10.58%. This has resulted into improved operating margin of 9.37% in FY16 as compared to 8.71% in FY15. There was an increase in employee cost from 5.66% of net sales in FY15 to 6.36% in FY16 due to steep hike in minimum wages by Haryana Government effective from 1st November, 2015. The profit before tax has gone up to ₹ 606.09 Million as compared to ₹ 532.48 Million in last year, an increase of 13.82%. However, the net profit has increased marginally from ₹399.82 Million in FY15 to ₹ 403.95 Million in FY16 due to higher tax charges, as the benefit under Section 32AC of the Income Tax Act, 1961 has reduced from the previous year. The EPS of the Company as on 31st March, 2016 is ₹ 18.66 (₹ 18.47 Previous Year).

F. WORKING CAPITAL MANAGEMENT

The Company adopts prudent working capital management and does adequate planning for managing its day to day requirement of working capital funds. The Company has tied up with banks for cash credit facilities including factoring and bills discounting. The funds from banks are borrowed primarily at base rate & Marginal Cost Lending Rate (MCLR). The Company has also floated Commercial Paper to reduce its borrowing cost to lower than the bank base rate of interest. The Company also gives enormous importance to timely receivables, realizations, and maintaining a low level of inventory, considering the JIT supply to customers, which helps in reducing the working capital requirement. Besides, the Company has departmental budget systems, wherein the requirement of each department is chalked out in advance and planning is done to make funds available in a timely manner. The Company continues to maintain its short term credit rating to A1+ and A+ credit rating for long term borrowing from ICRA.

G. OUTLOOK

The auto components industry is likely to grow to US\$ 113 billion by 2020, with the domestic market at around US\$ 84 billion. Going forward, the Indian auto components industry is well poised to achieve strong growth, owing to rising domestic demand in the OEM market and the expanding replacement market, which would give India a strong platform to gain a stand in the global market. The export market for auto components is also likely to see strong traction. The cooling off of raw material prices and the expected rate cut to revive the decelerating economic growth is likely to have a favorable impact on the margin of industry players. Many Foreign OEMs are also making plans to make India as their sourcing hub. In the long run, auto component industry's outlook remains robust on the back of various government initiatives to make India an Auto Hub of the world by 2020.

H. RISKS & CONCERNS

The Company has a system in place to mitigate the risk which can arise from external or internal factors. The Company operates in the automobile components sector so its operations are directly linked to the Indian automotive industry which itself is linked to the general economic condition of the country.

The Company's risk management policy identifies risk and then categorizes them based on their severity and the probability or likelihood of their occurrence. The operational risks of the Company are managed through an enterprise risk management system with periodic reviews and control mechanisms.

During the year under review, a risk analysis and assessment were made and no major risk was noticed.

The Company makes continuous efforts to mitigate the risks, which arise due to external factors or beyond the Company's control, by taking adequate insurance coverage and hedging for forex exposure.

Apart from the regular operational risks, there are some other strategic risks, which are as under:

- i. Slowdown in Economy:** Indian economy is on a revival path backed by many policy initiatives taken by the government. However, any delay in implementation can significantly impact the economy and industry.

Mitigation measure: Your Company has no control over the risks affecting the Indian economy. However, your Company has a sound management which closely monitors the macro-economic situations and takes appropriate decisions.
- ii. Interest Rate:** The automobile industry is capital intensive and partly funded through the debt portion of the capital. Any significant upward movement in the interest rate can severely impact the financial feasibility of the project and the Company itself.

Mitigation measure: Your Company closely monitors the RBI outlook for the banking system and takes decisions accordingly. Further, your Company has tied up most of its loan at floating interest rate to take advantages of lower interest rate.
- iii. Currency Depreciation:** Any significant upward or downward movement in the exchange rate of foreign currency vis-à-vis INR can significantly impact the business.

Mitigation measure: Your Company has prudent management which takes care of this risk while having an appropriate Hedging Mechanism.
- iv. Manufacturing inputs and Cost Inflation:** The raw material cost is directly linked to inflation and any significant upward movement in inflation can cause raw material prices to go up. Apart from raw material prices, inflation also warrants an increase in salaries of employees to retain the talent. Such a cost escalation may affect our profitability.

Mitigation Measure: Your Company primarily passes on the increase or decrease in the cost of raw materials to the customers. Apart from that, your Company is continuously implementing cost reduction through budgetary control of operating expenses.
- v. Increased competitions:** Your Company operates in a highly competitive market and customers have started adopting de-risking strategies to maintain more than one source for a product.

Mitigation Measure: Your Company worked closely with customers and develops products accordingly. Your company also retains and motivates talent by focused employee development programs, which helps it to remain competitive in the industry. Further, your Company continues to invest in new technologies and upgrade its production process to keep an edge over its competitors.
- vi. Regulatory Risk:** The change in tax laws, government policies and regulatory requirements might affect your Company's business.

Mitigation measure: Your Company does not have any control over the risk which arises due to change in regulatory requirement or government policies, but we emphasis on process improvement in manufacturing and administration to sustain growth for the future, so as to increase business competence.
- vii. Credit and default Risk:** Any tightness in liquidity can impact the consumer demand and result in the increase of receivables.

Mitigation: Your Company is closely monitoring these risks and is continuously taking appropriate action.

I. INTERNAL CONTROL SYSTEMS AND ITS ADEQUACY

The Company has adequate internal control systems and procedures designed to effectively control the operations at its Corporate Office and its plants. INDEPENDENT AUDITOR'S REPORT

To the Members of Jay Bharat Maruti Limited

Report on the Financial Statements

We have audited the accompanying financial statements of **Jay Bharat Maruti Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("The Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent, and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used, the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as on 31st March, 2016, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. ANNEXURE-A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON FINANCIAL STATEMENT OF JAY BHARAT MARUTI LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Jay Bharat Maruti Limited ("the Company") as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by Institute of Chartered Accountants of India (ICAI) and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES ANNEXED TO AND FORMING PART OF THE ACCOUNTS

Note 1:- SIGNIFICANT ACCOUNTING POLICIES

1) Presentation of Financial Statements :-

The financial statements have been prepared in compliance to the requirements of the Companies Act 2013 (the Act), applicable Accounting Standards and the requirements of Schedule-III of the Act.

2) Basis of preparation:-

The Financial statements have been prepared under the historical cost convention, in accordance with applicable Accounting Standards and provisions of the Companies Act, 2013 as adopted consistently by the Company except for defined benefit pension/other funds obligations that have been measured at fair value. The carrying value of certain monetary items denominated in foreign currency is translated at the exchange rates applicable on the date of balance sheet.

3) Use of Estimates:-

The preparation of financial statements require estimates and assumptions to be made that affect the reported amount of asset and liabilities on the date of the financial statements and the reported amount of the revenue and the expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known / materialized.

4) Revenue/Expenditure recognition:-

Sales represents the net invoice value of goods and services provided to third parties after deducting discounts, outgoing sales tax and other duties, and are recognized when all significant risks and rewards/ownership are transferred to the customer. Sale of material by products are included in other operating revenue.

Dividend income is recognized when the Company's right to receive payment is established. Interest income is recognized on accrual basis in the income statement.

Expenditure is accounted for on accrual basis and provision is made for all known losses and liabilities.

5) Fixed Assets:-

The initial cost of Fixed Assets comprise its purchase price, including import duties, net of modvat/cenvet, less accumulated depreciation and include directly attributable costs of bringing an asset to working condition and location for its intended use, including borrowing costs relating to the qualified asset over the period upto the date the asset is ready to commence commercial production. Adjustments arising from exchange rate variations relating to long term monetary items attributable to depreciable fixed assets are capitalized.

Machine spares that can be used only in connection with an item of fixed asset and their use is expected to be irregular are capitalized. The replacement of such spares is charged to revenue.

6) Assets in the course of construction:-

Assets in the course of construction are capitalized in the assets under construction account. At the point when an asset is operating at management's intended use, the cost of construction is transferred to appropriate category of fixed assets. Costs associated with the commissioning of an asset are capitalized where the asset is available for use but incapable of operating at normal levels until a period of commissioning has been completed.

7) Intangible assets:-

In accordance with the Accounting Standard (AS) 26 relating to intangible assets, all costs incurred on technical know how/license fee relating to production process are charged to revenue in the year of incurrence. Technical know how/license fee relating to process design/plants/facilities are capitalized at the time of capitalization of the said plant/ facility and amortized over a period of three years.

8) Impairment of Assets:-

Carrying amount of cash generating units/Fixed assets are reviewed for impairment, if events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. The excess of recoverable amount over the carrying value of the asset is charged, as an impairment loss to the statement of profit & Loss.

NOTES ANNEXED TO AND FORMING PART OF THE ACCOUNTS

9) Depreciation:-

Tangible Assets

Depreciation on fixed assets is provided on straight line method based on useful life of assets as prescribed in schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is determined based on technical Advice.

Particulars	Life
Plant & machinery	20 years
Factory Building (Including Tube well)	28-29 Years
Vehicles	} 5 Years
Furniture & Fixtures	
Trolleys & Bins *	

Dies, Fixtures & Special Purpose Machine *:-

Over the amortization life, taken by the customer i.e. 3-4 years from the date of start of commercial production and in other cases based on life of 8.44 years

Depreciation is charged on pro-rata basis for assets purchased / sold during the year. Individual assets costing ₹ 5000/- or less are depreciated in full in the year of purchase. Plant & Machinery and other assets the written down value of which at the beginning of the year is ₹ 5000/- or less and ₹ 1000/- or less respectively are depreciated at the rate of 100%. Depreciation on incremental cost arising on account of translation of foreign currency liabilities for acquisition of fixed assets is provided as aforesaid over the residual life of the respective assets. Leasehold Land is amortized over the period of Lease.

Intangible Assets

Computer Software:	} 3 Years
Technical Know-how Fees	

*Included in plant & machinery.

10) Inventories:-

Inventories are valued at the lower of cost or net realizable value, less any provisions for obsolescence. Cost is determined on the following basis;

Raw Material is recorded at cost on a first-in, first-out (FIFO) basis;

Stores & spares are recorded at cost on a weighted average cost formula.

Finished goods and work-in-process are valued at raw material cost + cost of conversion and attributable proportion of manufacturing overhead incurred in bringing inventories to its present location and condition.

By products and scrap are valued at net realizable value.

11) Investment:-

Investments are classified into Current and Non Current investments. Current investments are stated at lower of cost or market value. Non Current investments are stated at cost and provision for diminution in value is made only if such decline is other than temporary in the opinion of management.

12) Foreign Exchange Transactions:-

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of transaction. Monetary items denominated in foreign currencies outstanding at the year end are translated at the exchange rate applicable as of that date. Non-monetary items denominated in foreign currency are valued at the exchange rate prevailing on the date of transaction. Any income or expense on account of exchange difference either on settlement or on translation is recognized in the Statement of Profit and Loss except in cases of long term monetary items where these relate to the acquisition of depreciable fixed assets in which case these are adjusted to the carrying cost of such assets.

Exchange difference on forward exchange contracts are recognized in the Statement of Profit and Loss in the year in which the exchange rate changes except in the cases these relate to the depreciable fixed assets in which case these are adjusted to the carrying cost of such assets.

13) Borrowing Cost:-

Interest on borrowing is expensed in the statement of profit & loss except where it relates to qualifying asset in which case it is capitalised. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use.

NOTES ANNEXED TO AND FORMING PART OF THE ACCOUNTS

Exchange difference arising from short term foreign currency borrowings to the extent that they are regarded as adjustment to interest cost is treated as finance cost and charged to statement of profit and loss except where it relates to qualifying asset in which case it is capitalised. All other borrowing costs are charged to revenue.

14) Employees Benefits:-

- i. Short term employee benefits are recognized as an expense at the undiscounted amount in the profit and loss account of the year in which related service is rendered.

The Company has defined contribution plans for post retirements benefits, namely, Employees Provident Fund Scheme administered through provident fund commissioner and Superannuation Fund administered through Life Insurance Corporation of India and the company's contribution are charged to revenue every year.

Company's contribution to state plans namely Employees State Insurance Fund is charged to revenue every year.

- ii. The company has defined benefit plans namely Leave encashment / Compensated absence and Gratuity, the liability for which is determined on the basis of an Actuarial valuation at the end of the year. Gratuity Trust is administered through Life Insurance Corporation of India.
- iii. Termination benefits are recognized as an expense immediately.
- iv. Gain or Loss arising out of actuarial evaluation are recognized immediately in the profit and loss account as income or expense.

15) Claims:-

Claims receivable are accounted for depending on the certainty of receipt and claims payable are accounted for at the time of acceptance.

16) Excise Duty:-

Excise duty is accounted for on the basis of both payments made in respect of goods cleared as also provision made for goods lying in bonded warehouse.

17) Tax Expense:-

Current tax is provided after taking credit for allowance and exemptions using the tax rates and laws that have been enacted or substantially enacted by the Balance Sheet date. In case of matters under appeal due to disallowance or otherwise, provision is made when the said liabilities are accepted by the company.

Deferred tax is provided on all temporary differences at the Balance Sheet date between the tax basis of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax asset arising from temporary differences are recognized to the extent there is virtual certainty of realization of asset in future.

18) Leases:-

Assets acquired under finance lease from 01.04.2001 are capitalized at the lower of their fair value or the present value of the minimum lease payments.

19) Provision and Contingent Liability:-

Show cause notices issued by various government authorities are not considered as obligation, when the demand notices are raised against such show cause notice and are disputed by the company then these are classified as possible obligation.

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is a probable that there will be an outflow of resources that can be reliably estimated, will be required to settle such an obligation. . Contingent liabilities are not recognized but are disclosed in notes.

20) Derivative Financial Instruments:-

In respect of the Financial derivative contracts the premium / interest paid and profit / loss on settlement is charged to statement of profit & loss. The contracts entered into other than forward contracts are marked to market at year end and the resultant profit / loss is charged to statement of profit & loss except in the cases these relate to the depreciable fixed assets in which case these are adjusted to the carrying cost of such assets.

21) Contingencies & Commitments:-

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, these are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements, although there can be no assurance regarding the final outcome of the legal proceedings, the company does not expect them to have a materially adverse impact on the financial position or profitability.
