MANAGEMENT DISCUSSION AND ANALYSIS**INDUSTRY STRUCTURE AND DEVELOPMENTS**

With the continuous fluctuating cotton prices on the raw material front, the Cotton Textile Industry during the year under review faced several ups and downs. The recent couple of years were challenging for the Indian textile Industry as a result of the global economic slowdown. Back home, the Industry faced challenges of strong demand side pressures due to inflationary trends and volatility in commodity prices.

During the year under review our Company has been striving hard to face the major challenges during the year. Our focus remains on value added products and new product development to cater to the niche segment of the market.

OPPORTUNITIES & THREATS

Positive steps taken by the Central Government for the textile industry, from allocation of funds to giving extra rebate to exporters (mainly on made-ups) and various other benefits, are expected to improve investment in this sector and provide more business opportunities in the near future.

With increasing capacities of man-made fibres as compared to cotton, the preferred shift of the consumer to use products of man-made fibres i.e. viscose, polyester, polyamide, acrylic, etc. and its blends, is expected. Presently in India, the consumption of textile products is 65% made of cotton and 35% made of man-made fibres as against the reverse trend overseas.

RISKS AND CONCERNS

The rupee is strengthening against the dollar and other currencies. Hence, there will be pressure on margins in exports. The cotton prices have also increased and to a certain extent, the increase has been absorbed in yarn sales. But, due to lower demand, the prices have not increased in finished fabrics, made-ups and garments, which is a matter of concern.

HEALTH, SAFETY AND SECURITY ENVIRONMENT

The Company has always been adopting all possible safety measures considering the health and safety of the workers and staff at all levels. This has resulted in improvement in the working environment and motivation among workers and staff.

HUMAN RESOURCES/INDUSTRIAL RELATIONS

Employer- employee relations continued to remain cordial during the year at all the units of the Company. Various measures are being adopted towards improving the life, work culture, productivity, efficiency and effectiveness of the workers and staff at all levels. Fundamental HR process of recruiting, training and deployment of trained labour, at added costs continues in view of shortage of manpower persisting in this industry in Andhra Pradesh.

Annexure-B to the Independent Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **KAKATIYA TEXTILES LIMITED** ("the Company") as of 31 March 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

STATEMENT ON ACCOUNTING POLICIES AND NOTES ON ACCOUNTS

1. Corporate Information:

Kakatiya Textiles Limited is a public limited company domiciled in India and incorporated under the provisions of the Companies Act, 1956. Its shares are listed on Bombay Stock Exchange in India. The company is engaged in the manufacture and sale of cotton yarn.

2. Basis of preparation of financial statements:

The financial statements of the company have been prepared in accordance with generally accepted accounting principles in India on the accrual basis.

a) Use of Estimates :

The preparation of financial statements requires the management of the Company to make judgments, estimates and assumptions that affect the reported balance of assets and liabilities, revenues and expenses and disclosures relating to the contingent liabilities and commitments. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. The judgments, estimates and underlying assumptions are made with the management's best knowledge of the business environment and are reviewed on an ongoing basis. However, future results could differ from these estimates. Any revision to these accounting estimates is recognised prospectively in the current and future periods.

b) Tangible assets and capital work-in-progress

Tangible assets are stated at cost, less accumulated depreciation and impairment, if any. Direct costs are capitalized until such assets are ready for use but exclusive of duties and taxes that are subsequently recoverable from taxing authorities. Capital work-in-progress comprises the cost of fixed assets that are not yet ready for their intended use at the reporting date.

c) Depreciation and Amortization:

Depreciation on tangible assets is provided on the straight-line method over the useful lives of assets in the manner prescribed in Schedule II of the Companies Act, 2013. Depreciation for assets purchased / sold during a period is proportionately charged. Intangible assets are amortized over their respective individual estimated useful lives on a straight-line basis, commencing from the date the asset is available to the Company for its use.

d) Borrowing Costs :

Borrowing Costs, that are directly attributable to the acquisition or construction of assets, that necessarily take a substantial period of time to get ready for its intended use, are capitalized as part of the cost of qualifying asset when it is possible that they will result in future economic benefits and the cost can be measured reliably.

Other borrowing costs are recognized as an expense in the period in which they are incurred.

e) Investments :

Non-current investments are stated at cost and income thereon is accounted for on accrual. Provision towards decline in the value of long term investments is made only when such decline is other than temporary.

f) Inventories :

Valuation of inventories is made as under:

- i) Finished goods are valued at lower of cost or net realizable value.
- ii) Raw materials, work-in-progress and stores and spares are valued at cost, following the FIFO Basis.
- iii) Work-in-Progress, raw materials, stores, spares are valued at cost except where the net realizable value of the finished goods they are used in is less than the cost of finished goods and in such an event, if the replacement cost of such materials etc., is less than their books value, they are valued at replacement cost.
- iv) By-products and scrap are valued at net realizable value.

g) Revenue Recognition :

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

Revenue from sale of products is recognized when the risks and rewards of ownership are transferred to the buyer under the terms of the contract usually on the dispatch of goods to the customer.

Sales are accounted for net of discounts and rebates.

Interest on investments and deposits is booked on a time proportion basis taking into account the amounts invested and the rate of interest when no significant uncertainty as to measurability or collectability exists.

Revenue from sale of assets is recognized upon delivery, which is when title passes to the customer.

h) Retirement benefits to employees

(i) Gratuity

In accordance with The Payment of Gratuity Act, 1972 The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation

or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Gratuity benefits are managed through the Group Gratuity Scheme of LIC. Liabilities with regard to the Gratuity Plan are determined by actuarial valuation, performed by an independent actuary, at each Balance Sheet date using the projected unit credit method.

The Company recognizes the net obligation of the Gratuity Plan in the Balance Sheet as an asset or liability, respectively in accordance with Accounting Standard (AS) 15, 'Employee Benefits'.

Benefits under the plan are based on pay and years of service and are vested on completion of five years of service as provided in the payment of gratuity Act, 1972. The terms of benefit are common for all the employees of the company

(ii) Provident fund and ESI

Provident fund and Employees State Insurance contributions are paid as per the rates prescribed by the respective acts and the same is charged to revenue

i) Foreign Exchange Transactions :

- i) Transactions in foreign currency are initially accounted at exchange rate prevailing on the date of transaction, and adjusted appropriately, with the difference in the rate of exchange arising on actual receipt/payment during the period under report.
- ii) At each Balance Sheet date foreign currency monetary items being receivables/payables are reported using the rate of exchange on that date and difference is recognized as income or expense. Foreign currency non-monetary items are reported using the exchange rate at which they were initially recognized.
- iii) In respect of forward exchange contracts in the nature of hedges. Premium or discount on the contract is amortized over the term of the contract. Exchange differences on the contract are recognized as profit or loss in the period in which they arise.

j) Income Taxes :

Income tax expense comprises current and deferred taxes.

- i) Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.
- ii) Deferred tax is recognized under the liability method, on timing differences, being the difference between taxable income and accounting income that originate in one period and capable of reversal in one or more subsequent periods, at the rate of tax enacted or substantively enacted by the balance sheet date.

k) Provisions, Contingent Liabilities and Contingent assets :

Provisions are recognized only when there is a present obligation as a result of past events and when a reliable estimate of the amount of obligation can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liability is disclosed for (i) Possible obligation which will be confirmed only by future events not wholly within the control of the Company or (ii) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made. The company does not recognise contingent liabilities but the same are disclosed in the Notes.

Contingent assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized.

l) Earnings per Share :

Earnings per share is calculated by dividing the net profit or loss for the year after tax attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

m) Government Grants:

Grants from government are recognized when there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. Government grants relating to assets the company has opted "capital approach" method. Accordingly, the grant is deducted from the gross value of the assets concerned in arriving at their books value.

n) Impairment of Assets :

An asset is treated as impaired when the carrying cost of the same exceeds its recoverable amount. An impairment loss is charged to the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.
