**EXPLANATORY STATEMENT IN RESPECT OF THE SPECIAL BUSINESS
PURSUANT TO SECTION 102 OF THE COMPANIES ACT, 2013****Item No. 3**

Your company intends to expand and diversify its present scope of operations and it is proposed to venture into new real estate activities which have good potential for growth of the Company. The proposed alteration to the main objects of the memorandum of association shall enable the Company to expand its activities and venture into new areas of business. The Board of Directors, at their meeting held on 13.08.2018 has approved the alteration of Memorandum of Association of the Company.

The existing Memorandum of Association ("MOA") of the Company, based on Companies Act, 1956 ("1956 Act") are no longer in conformity with the Companies Act, 2013 ("2013 Act"). With the enactment of 2013 Act, several clauses of MOA require alteration/deletion. Given this position, it is considered expedient to adopt the new set of Memorandum of Association (primarily based on Table A set out under Schedule I to the Act) in place of existing MOA, instead of amending it by alteration/incorporation of provisions of 2013 Act. In terms of Section 13 of 2013 Act, consent of Members by way of a Special Resolution is required for adoption of a new set of Memorandum of Association. The entire set of proposed new Memorandum of Association is available in the website of the Company. Members can also obtain a copy of the same from the Company's Registered Office.

None of the Directors, Key Managerial Personnel and their relatives are in any way concerned or interested in the said Resolution. The Directors recommend the aforesaid Resolution for the approval by the Members as Special Resolution.

**MANAGEMENT DISCUSSION & ANALYSIS****OVERVIEW:**

The financial statements have been prepared in compliance with the requirements of the Companies Act, 2013, guidelines issued by the Securities and Exchange Board of India (SEBI) and other statutory requirements. Our Management accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner the form and substance of transactions and reasonably present our state of affairs, profits and cash flows for the year.

INDUSTRY STRUCTURE AND DEVELOPMENT:

Despite high interest rates and their consequent cascading impact on the broader economy, the overall trends in agro products industry consumption remained positive. Continuing robust growth of the processed agro products industry in India will require investments in two key areas - building of agro products processing capabilities and expansion of distribution reach. Together, these will ensure that we are capable of reaching out to large numbers of Indian consumers with products that are relevant, affordable and profitable.

OPERATIONS:

The Operations of the Company are at minimal scales and the management is actively working towards bagging new orders for execution and is evaluating all the possibilities of bringing back the glory of the Company with good order book and generation of sizable revenues

FUTURE OUTLOOK:

The management is actively scouting for new orders and markets. In the coming years, the management will strive to identify and produce distinct varieties of products to cater to the needs of overseas markets.

OPPORTUNITIES & THREATS

Strength: Huge demand for natural agro products produced in India in foreign countries, providing high export potential.

Weakness: The necessity of any product may come at any time and any material required in this connection needs to be purchased in bulk quantity whenever it is available, requiring heavy capital investments in stocks.

Opportunities: We are a very old Company having vast amount of experience which will enable us to execute any orders received by the Company.

Threats: The business of the Company is exposed to normal industry threats.

INTERNAL CONTROL SYSTEM AND ITS ADEQUACY

The philosophy we have with regard to internal control systems and their adequacy has been formulation of effective systems and their strict implementation to ensure that assets and interests of the Company are safeguarded; checks and balances are in place to determine the accuracy and reliability of accounting data. The Company has a well defined organization structure with clear functional authority, limits for approval of all transactions. The Company has a strong reporting system, which evaluates and forewarns

the management on issues related to compliance. Company updates its internal control system from time to time, enabling it to monitor employee adherence to internal procedures and external regulatory guidelines.

PERSONNEL:

Human wealth is the ultimate wealth in for any industry. The Company recognizes this fact and understands that employees are one of the most important sources for sustained growth of any business. Quality personnel delivering their optimum potential for the organization is the key differentiator. The Company maintained good relations with its employees and there was no unrest in the Company at any point of time.

HEALTH AND SAFETY:

The Company places considerable emphasis on health and safety throughout its operation and displays commitment to ensure the high standards being maintained in compliance with applicable laws and regulations.

FORWARD LOOKING / CAUTIONARY STATEMENT:

Certain statements in the Management Discussion & Analysis Report detailing the Company's objectives, projections, estimates, expectations or predictions may be forward looking statements within the meaning of applicable securities laws and regulations. These statements being based on certain assumptions and expectation of future event, actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include economic conditions affecting domestic demand supply conditions, finish goods prices, changes in Government Regulations and Tax regime etc. The Company assumes no responsibility to publically amend, modify or revise any forward looking statements on the basis of subsequent developments, information or events.

**INDEPENDENT AUDITORS' REPORT****To
The Members of TMT (India) Limited
Report on the Financial Statements**

We have audited the accompanying Ind AS financial statements of TMT (India) Limited ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of the matter described in the Basis for Qualified Opinion, the aforesaid financial

statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its profit and its cash flows for the year ended on that date.

We have audited the Internal Financial Controls Over Financial Reporting of TMT (India) Limited (“the Company”) as of 31st March 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and

dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company needs to documents its procedures and controls vis a vis Internal controls over Financial Reporting.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

22. Financial risk management

The Company's activities expose it to the following financial risks: -
market risk (see (a))

credit risk (see (b)); and

liquidity risk (see (c)).

The Company has not arranged funds that have any interest rate risk.

a) Market risk

(i) Foreign Exchange Risk

The Company does not deal with import and export transactions and hence foreign exchange risk is not applicable to the Company.

(ii) Price Risk

The Company's exposure to price risk arise as the investments held by the Company are classified in balance sheet at fair value through other comprehensive income.

As of March 31, 2018, March 31, 2017 and 1st April, 2016, every increase or decrease of the respective equity prices would impact other component of equity by approximately INR14.87, INR3.14 and INR 3.01 (in Lakhs) respectively. It has no impact on profit or loss.

b) Credit Risk

Credit risk refers to the risk of default on its obligation by a counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables. Accordingly, credit risk from trade receivables has been separately evaluated from all other financial assets in the following paragraphs.

Trade Receivables:

The Company has outstanding trade receivables amounting to INR 27.13, INR4.32 and INR 4.32 (in lakhs) as of March 31, 2018, March 31, 2017 and 1st April,2016, respectively. Trade receivables are typically unsecured and are derived from revenue earned from customers.

Credit risk exposure:

An analysis of age of trade receivables at each reporting date is summarized as follows:

(As at 31st March 2018, Amount in Rs)

Past due more than 120 days	4,31,996	-	4,31,996
Total	4,31,996	-	4,31,996

Trade receivables are generally considered credit impaired after 120 days past due, unless the amount is considered receivable, when recoverability is considered doubtful based on the recovery analysis performed by the Company for individual trade receivables.

With regard to trade receivable on certain transactions, the Company has equivalent trade payables to associate suppliers which are payable on realization of trade receivables. Such trade receivables are considered not impaired though past due.

Financial assets:

Credit risk relating to cash and cash equivalents is considered negligible because our counterparties are banks. There will be no credit risk related to employee loans as they are adjusted against their salaries.

Liquidity Risk

Our liquidity needs are monitored on the basis of monthly and yearly projections. The Company's principal sources of liquidity are cash and cash equivalents, cash generated from operations and availability of funding through an adequate amount of committed credit facilities to meet obligations when due.

Due to the dynamic nature of underlying businesses, the Company maintains flexibility in funding by maintaining availability under committed credit lines.

Short term liquidity requirements consists mainly of sundry creditors, expense payable, employee dues arising during the normal course of business as of each reporting date. The Company maintains sufficient balance in cash and cash equivalents to meet short term liquidity requirements.

The Company assesses long term liquidity requirements on a periodical basis and manages them through internal accruals and committed credit lines.

The table below provides details regarding the contractual maturities of non-derivative financial liabilities.

1.5 Revenue Recognition

i) Trading Income

Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discount and volume rebates. Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, it is probable that economic benefits associated with the transaction will flow to the entity, the associated costs incurred or to be incurred in respect of the transaction can be measured reliably and there is no continuing management involvement with the goods. The point of transfer of risks and rewards depends upon the terms of the contract of sale with individual customers.

ii) Other Operating Revenue

The income relating to the core activities of the Company which are not included in revenue from sales/services for e.g. dispatch earned, subsidy, claims against losses on trade transactions, interest on credit sales and trade related advances (other than on overdue) etc., which are derived based on the terms of related trade agreements with business associates or schemes on related trade, are accounted for under 'Other Operating Revenue'.

iii) Claims

Claims are recognized in the Statement of Profit & Loss (Net of any payable) on accrual basis including receivables from Govt. towards subsidy, cash incentives, reimbursement of losses etc, when it is not unreasonable to expect ultimate collection. Claims recognized but subsequently becoming doubtful are provided for through Statement of Profit and Loss. Insurance claims are accounted upon being accepted by the insurance Company

**iv) Service Income**

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction shall be recognized by reference to the stage of completion (Percentage of Completion Method) of the transaction at the end of the reporting period. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:-

- a) The amount of revenue can be measured reliably;
- b) It is probable that the economic benefits associated with the transaction will flow to the Company ;
- c) The stage of completion of the transaction can be measured reliably;
- d) Costs incurred for the transaction and to complete the transaction can be measured reliably.

v) Dividend and interest income

Dividend income from investments is recognized when the Company's right to receive payment is established and it is probable that the economic benefits associated with the transactions will flow to the Company and the amount of income can be measured reliably.

Interest income is recognised on a time proportion basis taking into account the amount outstanding and the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset.

vi) Revenue Recognition on Actual Realization

Revenue is recognized on accrual basis except in the following items which are accounted for on actual realization since realisability of such items is uncertain, in accordance with the provisions of Ind AS-18 :-

- a) Duty credit / exemption under various promotional schemes of EXIM policy in force, Tax credit, refund of custom duty on account of survey shortage, and refund of income-tax/ service tax / sales-tax /VAT and interest thereon etc.
- b) Decrees pending for execution/contested dues and interest thereon, if any:
- c) Interest on overdue recoverable where realisability is uncertain.
- d) Liquidated damages on suppliers/underwriters.

1.6 Property, Plant and Equipment

All Property, Plant and Equipments (PPE) are stated at carrying value in accordance with previous GAAP, which is used as deemed cost on the date of transition to Ind AS using the exemption granted under Ind AS 101.

The cost of an item of property, plant and equipment is recognized as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The cost of an item of PPE is the cash price equivalent at the recognition date. The cost of an item of PPE comprises:

- i) Purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- ii) Costs directly attributable to bringing the PPE to the location and condition necessary for it to be capable of operating in the manner intended by management.
- iii) The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, the obligation for which the Company incurs either when the PPE is acquired or as a consequence of having used the PPE during a particular period for purposes other than to produce inventories during that period.

The carrying value of assets held by the Company has fallen below the residual value and hence no depreciation has been charged.

1.7 Intangible Assets

All Intangible Assets are stated at carrying value in accordance with previous GAAP, which is used as deemed cost on the date of transition to Ind AS using the exemption granted under Ind AS 101. Identifiable intangible assets are recognized when the Company controls the asset; it is probable that future economic benefits expected with the respective assets will flow to the Company for more than one economic period; and the cost of the asset can be measured reliably. At initial recognition, intangible assets are recognized at cost. Intangible assets are amortized on straight line basis over estimated useful lives from the date on which they are available for use. Softwares are amortized over its useful life subject to a maximum period of 5 years or over the license period as applicable.

1.8 Non-Current Assets Held for Sale

The Company classifies a non-current asset (or disposal group of assets) as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. The non-current asset (or disposal group) classified as held for sale is measured at the lower of its carrying amount and the fair value less costs to sell.

1.9 Depreciation

Depreciation is provided on straight line method as per the useful lives approved by the Board of Directors, which are equal to those provided under schedule II of the Companies Act, 2013. The useful life of an asset is reviewed at each financial year-end. Each part of an item of PPE with a cost that is significant in relation to the total cost of the asset and if the useful life of that part is different from remaining part of the asset; such significant part is depreciated separately. Depreciation on all such items have been provided from the date they are 'Available for Use' till the date of sale / disposal and includes amortization of intangible assets and lease hold assets. Freehold land is not depreciated. An item of PPE is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset.

Certain items of small value like calculators, wall clock, kitchen utensils etc. whose useful life is very limited are directly charged to revenue in the year of purchase. The useful lives of the assets are taken as under:-

Name of Assets	Useful life as adopted by the Company as per Schedule II
A. General Assets

C. Fixed Assets created on Land and neither the Fixed Assets nor the Land belongs to the Company	5
D. Amortization of Intangible Assets	
Softwares	5 years or License period as applicable

The carrying value of assets held by the Company has fallen below the residual value and hence no depreciation has been charged.

1.10 Borrowing Costs

The Company capitalises borrowing costs that are directly attributable to the acquisition, construction or production of qualifying asset as a part of the cost of the asset.

The Company recognises other borrowing costs as an expense in the period in which it incurs them.

A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.

1.11 Foreign currencies

Transactions in currencies other than the functional currency are recognized at the rates of exchange prevailing at the dates of the transactions.

At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are re-translated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Foreign currency monetary items (except overdue recoverable where realizability is uncertain) are converted using the closing rate as defined in the Ind AS-21. Non-monetary items are reported using the exchange rate at the date of the transaction. The exchange difference gain/loss is recognized in the Statement of Profit and Loss.

Liability in foreign currency relating to acquisition of fixed assets is converted using the closing rate. The difference in exchange is recognized in the Statement of Profit and Loss.

1.12 Inventory

The Company does not hold any inventory during the year.

1.13 Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

1.14 Contingent Liabilities / Assets**Contingent Liabilities**

Contingent liabilities are not recognized but disclosed in Notes to the Accounts when the Company has possible obligation due to past events and existence of the obligation depends upon occurrence or non-occurrence of future events not wholly within the control of the Company.

Contingent liabilities are assessed continuously to determine whether outflow of economic resources have become probable. If the outflow becomes probable then relative provision is recognized in the financial statements.

Where an entity is jointly and severally liable for an obligation, the part of the obligation that is expected to be met by other parties is treated as a contingent liability. The entity recognises a provision for the part of the obligation for which an outflow of resources

embodying economic benefits is probable, except in the extremely rare circumstances where no reliable estimate can be made.

Contingent Assets

Contingent Assets are not recognised in the financial statements. Such contingent assets are assessed continuously and are disclosed in Notes when the inflow of economic benefits becomes probable. If it's virtually certain that inflow of economic benefits will arise then such assets and the relative income will be recognised in the financial statements.

1.15 Leases

Assets held under lease, in which a significant portion of the risks and rewards of ownership are transferred to lessee are classified as finance leases. Other leases are classified as operating leases. The Company normally enters into operating leases which are accounted for as under:-

- (i) Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease.
- (ii) Where the Company is a lessee, operating lease payments are recognized as an expense on a straight-line basis over the lease term. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

1.16 Employee benefits

- i. Provision for gratuity, leave encashment/availment and long service benefits i.e. service award, compassionate gratuity and employees' family benefit scheme is made on the basis of actuarial valuation using the projected unit credit method. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur. Re-measurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to Statement of Profit or Loss.
- ii. Provision for post-retirement medical benefit is made on defined contribution basis.
- iii. Provident fund contribution is made to Provident Fund Trust on accrual basis.
- iv. Payment of Ex-gratia and Notice pay on Voluntary Retirement are charged to revenue in the year incurred.
- v. Superannuation plan, a defined contribution scheme is administered by Life Insurance Corporation of India (LIC). The Company makes contributions based on a specified percentage of each eligible employee's salary.

Short-term employee benefit obligations

Short-term employee benefit obligations are measured on an undiscounted basis and are recorded as expense as the related service is provided. A liability is recognized for the amount expected to be paid under PLI / PRP Scheme, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

1.17 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

**Current tax**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit or loss and other comprehensive income/statement of profit or loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognized if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

The deferred tax liability or asset that arises from the revaluation of a nondepreciable asset in accordance with paragraph 31 of Ind AS 16 shall be measured on the basis of the tax consequences that would follow from recovery of the carrying amount of that asset through sale, regardless of the basis of measuring the carrying amount of that asset.

1.18 Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are

measured initially at cost, including transaction costs. All of the Company's property interests held under operating leases to earn rentals or for capital appreciation purposes are accounted for as investment properties.

After initial recognition, the Company measures investment property at cost.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

Investment properties to be depreciated in accordance to the class of asset that it belongs and the life of the asset shall be as conceived for the same class of asset at the Company.

1.19 Impairment

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalue amount, in which case the impairment loss is treated as a revaluation decrease.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

At the end of each reporting period, the Company reviews the carrying amounts of its tangible, intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset. The Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Impairment of financial assets

Financial assets, other than those at Fair Value through Profit and Loss (FVTPL), are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected. For Available for Sale (AFS) equity investments, a significant or prolonged decline in the fair value of the security below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- Significant financial difficulty of the issuer or counterparty;
- Breach of contract, such as a default or delinquency in interest or principal payments;
- It becoming probable that the borrower will enter bankruptcy or financial re-organisation; or the disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial assets, such as trade receivables, assets are assessed for impairment on individual basis. Objective evidence of impairment for a portfolio of receivables could include Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of zero days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets that are carried at cost, the amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables; such impairment loss is reduced through the use of an allowance account for respective financial asset. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognized in profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognized.

De-recognition of financial assets

The Company de-recognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, The Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On de-recognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss.

1.20 Earnings per share

A basic earnings per equity is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares

outstanding during the period. Diluted earnings per equity share is computed by dividing the net profit attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any shares splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the Board of Directors.

1.21 Discontinued operations

A discontinued operation is a component of the Company's business that represents a separate line of business that has been disposed off or is held for sale, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon the earlier of disposal or when the operation meets the criteria to be classified as held for sale.

1.22 Financial instruments

i) Non-derivative financial instruments

Non-derivative financial instruments consist of:

- financial assets, which include cash and cash equivalents, trade receivables, unbilled revenues, finance lease receivables, employee and other advances, investments in equity and debt securities and eligible current and non-current assets;
- financial liabilities, which include long and short-term loans and borrowings, bank overdrafts, trade payables, eligible current and non-current liabilities.

Non derivative financial instruments are recognized initially at fair value including any directly attributable transaction costs. Financial assets are derecognized when substantial risks and rewards of ownership of the financial asset have been transferred. In cases where substantial risks and rewards of ownership of the financial assets are neither transferred nor retained, financial assets are derecognized only when the Company has not retained control over the financial asset.

Subsequent to initial recognition, non derivative financial instruments are measured as described below:

a) Cash and cash equivalents

For the purposes of the cash flow statement, cash and cash equivalents include cash in hand, at banks and demand deposits with banks, net of outstanding bank overdrafts that are repayable on demand and are considered part of the Company's cash management system. In the statement of financial position, bank overdrafts are presented under borrowings within current liabilities.

b) Investments in liquid mutual funds, equity securities (other than Subsidiaries, Joint Venture and Associates) are valued at their fair value. These investments are measured at fair value

and changes therein, other than impairment losses, are recognized in other comprehensive income and presented within equity, net of taxes. The impairment losses, if any, are reclassified from equity into statement of income. When an available for sale financial asset is derecognized, the related cumulative gain or loss recognised in equity is transferred to the statement of income.

c) **Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are presented as current assets, except for those maturing later than 12 months after the reporting date which are presented as non-current assets. Loans and receivables are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at amortized cost using the effective interest method, less any impairment losses. Loans and receivables comprise trade receivables, unbilled revenues and other assets.

The company estimates the un-collectability of accounts receivable by analysing historical payment patterns, customer concentrations, customer credit-worthiness and current economic trends. If the financial condition of a customer deteriorates, additional allowances may be required.

d) **Trade and other payables**

Trade and other payables are initially recognized at fair value, and subsequently carried at amortized cost using the effective interest method. For these financial instruments, the carrying amounts approximate fair value due to the short term maturity of these instruments.

e) **Investments in Subsidiary, Associates and Joint Venture**

The Company accounts investment in subsidiary, joint ventures and associates at cost

An entity controlled by the Company is considered as a subsidiary of the Company.

Investments in subsidiary Company outside India are translated at the rate of exchange prevailing on the date of acquisition.

Investments where the Company has significant influence are classified as associates. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement is classified as a joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

ii) **Derivative financial instruments**

The Company is exposed to foreign currency fluctuations on foreign currency assets, liabilities, net investment in foreign operations and forecasted cash flows denominated in foreign currency.

The Company limits the effect of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives. The Company enters into derivative financial instruments where the counterparty is primarily a bank.

Derivatives are recognized and measured at fair value. Attributable transaction costs are recognized in statement of income as cost.

Subsequent to initial recognition, derivative financial instruments are measured as described below:

a) Cash flow hedges

Changes in the fair value of the derivative hedging instrument designated as a cash flow hedge are recognized in other comprehensive income and held in cash flow hedging reserve, net of taxes, a component of equity, to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognized in the statement of income and reported within foreign exchange gains/ (losses), net within results from operating activities. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the statement of income upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, such cumulative balance is immediately recognized in the statement of income.

b) Others

Changes in fair value of foreign currency derivative instruments neither designated as cash flow hedges nor hedges of net investment in foreign operations are recognized in the statement of income and reported within foreign exchange gains/ (losses), net within results from operating activities.

Changes in fair value and gains/ (losses) on settlement of foreign currency derivative instruments relating to borrowings, which have not been designated as hedges are recorded in finance expense.

1.23 Segment Information

The Company has only one reportable business segment, which is supply of designs and drawings and operates in a single business segment. Accordingly, the amounts appearing in the financial statements relate to the Company's single business segment.

1.24 Prior Period Errors

Errors of material amount relating to prior period(s) are disclosed by a note with nature of prior period errors, amount of correction of each such prior period presented retrospectively, to the extent practicable along with change in basic and diluted earnings per share. However, where retrospective restatement is not practicable for a particular period then the circumstances that lead to the existence of that condition and the description of how and from where the error is corrected are disclosed in Notes to Accounts. Taking into account the nature of activities of the Company, prior period errors are considered material if the items of income / expenditure collectively (net) exceed 0.5% of sales turnover of the Company.

32. Approval of financial statements

The financial statements were approved by the board of directors and authorised for issue on 29-05-2018.

33. Transition from IGAAP to IND AS

These financial statements, for the year ended March 31st, 2018, are first financial statements prepared by the Company in accordance with Ind AS. For years upto and including the year ended March 31, 2016, the Company prepared its financial statements in accordance with IGAAP, including accounting standards notified under the Companies (Accounting Standards) Rules, 2006 (as amended).

Accordingly, the Company has prepared IND AS compliant financial statements for year ending on March 31st, 2017. In preparing these financial statements, the Company has prepared opening IND AS balance sheet as at 1st April, 2016 the Company's date of transition to Ind-AS in accordance

with requirement of IND AS 101, "First time Adoption of Indian Accounting Standards". The basic approach adopted is summarized hereunder:

- i) All assets and liabilities have been classified into financial assets/liabilities and non-financial assets/liabilities.
- ii) All non-current financial assets/liabilities at below market rate of interest or zero interest and outstanding as on 1st April, 2016 have been measured at fair value.
- iii) In accordance with IND AS 101, the resulting adjustments are considered as arising from events and transactions entered before date of transition and recognized directly in the retained earnings at the date of transition to IND AS.
- iv) The estimates as at 1 April 2016 and at 31 March 2017 are consistent with those made for the same dates in accordance with IGAAP (after adjustments to reflect any differences in accounting policies).
- v) IND AS 101 also allows to first time adopter certain exemptions from the retrospective application of certain requirements under IND AS. Accordingly, the Company has availed the following exemptions/mandatory exceptions as per IND AS 101:
 - a) **Deemed Cost for Property, Plant & Equipment and Intangible Assets:** Para D7AA of appendix D to IND AS 101 which permits a first time adopter to continue with the carrying values for its PPE as at date of transition to IND ASs measured as per previous GAAP. However, the assets of the Company are carried at an amount below the residual value. Thereby, the above provision is not applicable.
 - b) **Classification & Fair value measurement of financial assets or financial liabilities at initial recognition:** The financial assets and financial liabilities have been classified on the basis of facts existing as at the date of transition to IND AS. In addition, the exemption permits prospective application of requirements of IND AS 109 to transactions entered into on or after date of transition.
