# **Macro-Economic Review**

# Global

The pick-up in global economic growth, gained further momentum in 2017, with the global output is estimated to have grown by 3.7% in 2017, which is 0.6% higher than in 2016. The pickup in growth has been broad based, with notable upside surprises in Europe and Asia. More importantly, the growth momentum is expected to continue in the short-term, with the International Monetary Fund revising its global growth forecasts for 2018-19 upward by 0.2% to 3.9%. According to IMF forecasts, after the period of economic crisis from 2007 to 2012, and the instability in many regions up to 2017, the global economy will show a trend towards stable growth up to 2022.

Among the major emerging and developing economic regions, Asia is estimated to grow at around 6.5% over 2018 and 2019, broadly the same pace as in 2017. The region continues to account for over half of world growth. Growth is expected to gradually moderate in China, pick up in India and remain stable in the ASEAN region. The World Bank's Global Economic Prospects report has put out a cautious note, saying that although the near-term growth could surprise on the upside, the global outlook is still subject to substantial downside risks, including the possibility of financial stress, increased protectionism, and rising geopolitical tensions. The recent surge in crude oil prices is expected to further add uncertainties in the global economic growth prospects in the short-term.

# India

The Indian economy continued to be a bright spot globally, with the FY 2017-18 GDP growing at 6.6%. The growth rate, however, was lower than the 7.1% achieved in the previous fiscal. However, with strong fundamentals and good demography, the Indian economy holds bright prospects. GDP growth (year-on-year in %) among the major economic indicators, inflation rate, which remained below 4% from April till October 2017, took a sudden upward turn from November onwards, and rose to 4.9%, peaking at 5.2% in December and decelerating to 4.3% in March 2018. Index of Industrial Production (IIP) growth for FY 2017-18 was stagnant at 4.4%, same as in the previous fiscal, while manufacturing sector posted an improvement to 4.4% from 3.3% in FY 2017-18. The lingering impact of demonetization and the hiccups in the early phase of GST implementation are said to have impacted the overall performance of the industrial sector. The country's fiscal deficit is expected to be contained at the revised target of 3.5%, while the forex reserve has reached \$ 424.36 billion towards the close of FY 2017-18. The repo rate has further declined by 25 basis points to 6% in the fiscal.

Riding on the pick-up in global trade, India's exports rose 9.8% to \$ 302.8 billion during FY 2017-18, the highest growth rate in six years. Imports during the period grew 19.6% to touch \$ 459.7 billion as commodity prices pushed up the value of shipments in andout of the country, resulting in widening of India's trade deficit to \$ 156.9 billion in FY 2017-18 from \$ 108.6 billion in the previous fiscal. The outlook for FY 2018-19 economic growth is slated to be more buoyant, with the IMF projecting the Indian economy to grow by 7.4% in FY 2018-19 and further accelerate to 7.8% in FY 2020, which would make India as the world's fastest-growing economy in 2018 and 2019, the top ranking it briefly lost in 2017 to China. Major downside risks to India's economic outlook include fiscal slippages, especially in view of the surging oil prices, which could adversely impact India's oil import bill and looming protectionist threats on the trade front.

# Industry

**Automotive Spring Market size** will witness growth owing to increasing focus on passenger safety, convenience and comfort. Positive outlook for automotive industry drives the auto parts and components demand. Expanding automobile sector in developing countries coupled with rise in disposable income and increasing spending on comfort and luxury will support the automotive spring market.

Based on products, automotive spring market is categorized in to Coil, Leaf, Balance and Flat spring. Coil springs acquires substantial share owing to its use in passenger cars and two wheelers for smooth vehicle experience. Leaf spring can bear high weight of cargo, absorbs vehicle shocks and carry tons of cargo for longer distance. Increasing demand of commercial vehicle will fuel product demand.

Based on vehicle type, automotive spring market is categorized in to PCV, LCV and HCV. PCV dominates the overall market owing to highest demand across the globe. OEMs focusing on improving driver experience and convenience will support the demand. Demand from LCV is driven by increasing public transport and taxi hire services.

The app-cab aggregators are expanding their operations extensively, resulting in higher demand for passenger vehicles.

The Company has received 4 Nos certifications from its United Registrar of Systems.

I) TS 16949 : 2009 for Management System.

II) ISO 9001: 2008 for Management System.

III) ISO 14001: 2015 for Environmental Management System.

IV) ISO 18001: 2007 for Health and safety Management System.

# **Financial Performance:**

There was increase in the turnover of your Company for the financial year 2017-18 and the Company performed well during the year, it was extremely stressful due to increase in Labour costs coupled with increase in Legal fees. Added to this were huge Volume & Cash Discounts given to Customers for increasing its sales for now and also for the future.

The Net Sales of the Company increased by about 18.7% amounting to Rs. 5629,21 lakhs (including the GST for nine months) for the 2017-18. However the Company could manage to keep the expenditure at Rs. 5899.21 and thereby improving the Operating Loss (before Interest, Depreciation and Taxes) of Rs. 70.07 lakhs as against an Operating Loss (PBIDT) of Rs. 102.97 lakhs during 2016-17, improving it by 46.95%. The Net Loss (PAT) was at Rs. (109.40) lakhs compared with the Net Loss (PAT) of Rs. (140.48) lakhs for the previous year, resulting thereby an increase of 28.40% over the last year.

With new spring manufacturers coming into the Passenger Vehicle segment, thereby increasing huge competition, CCHL had to offer huge volume and cash Discounts to its Customers to retain and increase its Order Books. The Company's operations were under pressure to generate profits as this contributed to the Company's losses and put a lot of stress on its cash flow. Also with developing of new segment and to maintain quality and delivery schedules, there was high stress on internal efficiencies resulting in spurt in elevation of raw material and operational costs. Concerted efforts are being made to reduce and control the raw material and operational costs in the current fiscal.

# **Industry Development**

FY 2017-18 witnessed another re-run of robust performance by the domestic auto industry, with sales registering an increase of 12%. The sale of Passenger Vehicles grew by 7.9% in 2017-2018 over the same period last year Within the Passenger Vehicles segment, Passenger Cars and Utility Vehicle grew by 3.5% and 21% respectively in FY 2017-18 compared to the previous fiscal.

Overall Commercial Vehicles segment grew by 20.7% in FY 2017-18, as compared to the same period last year. Medium & Heavy Commercial Vehicles (MHCVs) grew by 14.4% and Light Commercial Vehicles (LCVs) grew by 23.8% in 2017-2018 over the same period last year.

30<sup>th</sup> Annual Report 2017-18=

The Company's focus is on enhancing its product offerings through constant innovation. The Company also initiated design engineering improvements to enhance the optical properties and reflection quality of its products.

# **Product Development:**

Because of high operational costs as explained above, CCHL was not able to adapt the new technology to increase its foray in the Front Suspension Springs for passenger cars and MUVs so as to further enable it to increase its presence in this segment again. However, with better control on its operational costs and reduction in raw material, the Company expects to start generating profits and be able to adapt the newer technology.

# **OPPORTUNITIES:**

In the Budget 2018, Government of India has plans to complete 9,000 km of national highways by Fiscal 2019 and 35,000 km under the Bharatmala project at Rs. 5.35 lac crore. With the allocation of funds to improve national highways; people will see values in personal transportation and increase in sentiments towards purchasing new vehicles. Even the commercial vehicle industry will benefit from this increased connectivity. The Automotive Mission Plan 2016-26 aims at 13% share of automotive industry in GDP, along with implementation of BS6 vehicles effective April 1, 2020 and increase in Value added services. National Electric Mobility Mission, aims at providing 7 million electric cars 2020, along with concession in manufacturing of selected parts for electric cars.

#### **BUSINESS OUTLOOK AND OVERVIEW**

#### Outlook

The future for automobile industry looks bright because of rising global automobile production and consumption along with rapid urbanisation. The Indian Auto-component makers are well positioned to benefit from the globalisation and have the potential to achieve \$40 billion of exports by 2020.

# **Automotive Mission Plan 2016-26**

- ➤ Indian automotive industry to grow 3.5-4 times of the current value of USD 74 billion to USD 260 -300 billion by 2026

ANNEXURE - A

# (A) BASIS OF QUALIFIED OPINION IN THE AUDITORS' REPORT

The Auditors in its Auditors Report has expressed qualified opinion as under

Note No. (17) of 33 of other notes to financial statement regarding Going Concern Assumption may no longer be appropriate –As the Company has incurred significant operating losses, negative operating cash flows, adjudication of legal process against the company for loan liability and negative net worth indicating that going concern assumption is no longer be appropriate. Consequently, adjustment for amount of assets and classification of liabilities required to be recorded has not been carried.

# **Management Reply**

Management has evaluated the circumstances and events and is of the view that it is largely because of earlier slowdown in the Auto Industry from which the Company has not been able to recover. The Company has now taken certain measures, the affect of which shall be seen in the coming years. This is a temporary phase and shall not affect the Company's ability to meet its obligations.

# **Auditors Qualification**

- 2.1 The company has not made provisions of Interest & Other Charges on Secured Loans taken from Financial Institutions/ Banks Rs. 705.34 lakhs as per interim order of the divisional bench of Punjab and Haryana high court, Chandigarh, as stated in Note No.— (V) of Other notes 33(7).
- 2.2 Note No. 33(7) (v) para (k) of other notes to financial statements describes that company has not made provision calculated on the IFCI debts confirmed by the order dated 18-01-2016 in DRT-I, New Delhi by AARCL for the recovery of Rs. 8449.39 lakhs together with simple interest @ 13.50% p.a. from 14-05-2007 which amount to Rs. 21180.34 lakhs.
- 2.3 Had the Provision been made, the Loss up to the year after tax Rs. 106.11 lakhs would have resulted in loss of Rs. 21286.45 lakhs, Reserve & Surplus Deficit (Balance of Statement of Profit and Loss) would have been Rs. 22476.92 lakhs instead of Rs. 1296.58 lakhs.

# **Management Reply**

- 2.1 The Company had deposited Rs. 5 Crore in the Punjab & Haryana High Court, Chandigarh which was given to Alchemist Asset Reconstruction Company Limited (AARCL) (Rs. 3 crore) and Kotak Mahindra Bank Ltd (KMBL) (Rs. Rs. 2 Crore) and the affect was taken in the Books. The Company, in this regard, has already handed over 10 Acres of land (valued by AARCL at Rs. 18 Crores). But it may be noted that the Order of Punjab & Haryana High Court is an Interim Order. Final Order is yet to be pronounced. The Company shall make changes in the books when the Final Order comes into effect.
- 2.2 Company has already filed an appeal against the Final Order of DRT 1. The Company shall comply with the Final Order depending on the outcome of the Appeal. Accordingly the amount in said Orders is not relevant for the time being.
- 2.3 As explained in 2.2 above.

# **Auditors Qualification**

#### INDEPENDENT AUDITOR'S REPORT

To the Members of Coventry Coil-O-Matic (Haryana) limited,

#### Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Coventry Coil-O-Matic (Haryana) Limited** ("the company"), which comprise the Balance Sheet as at **31**st **March**, **2018**, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a Summary of Significant Accounting Policies and Other Explanatory Information.

#### Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance (Including other comprehensive income), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) specified under Section 133 of the Act, read with relevant rules issued thereunder. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind-AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

# Basis for Qualified Opinion

- 1. Note No. (17) of 33 of other notes to financial statement regarding Going Concern Assumption may no longer be appropriate As the Company has incurred significant operating losses, negative operating cash flows, adjudication of legal process against the company for loan liability and negative net worth indicating that going concern assumption is no longer be appropriate. Consequently, adjustment for amount of assets and classification of liabilities required to be recorded has not been carried.
- 2. 2.1 The company has not made provisions of Interest & Other Charges on Secured Loans taken from Financial Institutions/ Banks Rs. 705.34 lakhs as per interim order of the divisional bench of Punjab and Haryana high court, Chandigarh, as stated in Note No. (V) of Other notes 33(7).
- 2.2 Note No. 33(7) (v) para (k) of other notes to financial statements describes that company has not made provision calculated on the IFCI debts confirmed by the order dated 18-01-2016 in DRT-I, New Delhi by AARCL for the recovery of Rs. 8449.39 lakhs together with simple interest @ 13.50% p.a. from 14-05-2007 which amount to Rs. 21180.34 lakhs.

- 2.3 Had the Provision been made, the Loss up to the year after tax 106.11 lakhs would have resulted in loss of Rs. 21286.45 lakhs, Reserve & Surplus Deficit (Balance of Statement of Profit & Loss) would have been Rs. 22476.92 lakhs instead of Rs. 1296.58 lakhs.
- 3. The company had to give physical possession of a part of land comprising of approx. 10 acres as stated in Note 5 (a) whose approx. cost appearing in books is Rs. 12.02 Lakhs, to Alchemist Asset Reconstruction Company Ltd., assignees of IDBI & IFCI (Financial Institution) on 8th March 2013 as per the direction of Honourable Supreme Court who re-affirmed the interim orders of Honourable Punjab & Haryana High Court, Chandigarh of 9th August 2011. As informed to us, registry and other documents relating to sale of the land to third party is not available with the company, therefore necessary accounting entries and profit on transfer of land & capital gain tax could not be determined and accounted for in books of account

# **Qualified Opinion**

In our opinion and to the best of our information and according to the explanations given to us, for the effects/ possible effects of the matter described in the basis for qualified opinion paragraph, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31 March, 2018, and its financial performance including other comprehensive income, its cash flows and the change in equity for the year ended on that date.

# **Emphasis of Matter**

We draw attention to:

- Note No. 33 (1A) (ii) to financial statement, which describes contingent liability not provided for claims under adjudication
  - in DRT-II, New Delhi by KMBL for recovery of Rs. 4,72.07 lakhs and
  - in DRT-I, New Delhi by AARCL for recovery of the dues calculated on the IDCI Debts Rs. 9315.19 lakhs

(The Company has also filed counter claims of more than Rs.500 Crores on both KMBL and AARCL.)

- b) Note No. 33 (11) to financial statement, which describes Account Reconciliation/Confirmation in respect of certain accounts of Debtors have not been received and they are subject to confirmations and reconciliation. The management is of the opinion that adjustment, if any, arising out of such reconciliation would not have material effect on the financial statement of current year.
- c) Note No. 33 (12) to financial statement, which describes Account Reconciliation/Confirmation in respect of certain accounts of Vendor's have not been received and they are subject to confirmations and reconciliation. The management is of the opinion that adjustment, if any, arising out of such reconciliation would not have material effect on the financial statement of current year.

#### Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure-A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

# Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **COVENTRY COIL-O-MATIC** (HARYANA) LIMITED ("the Company") as of 31st March, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

# Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

#### Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

# Notes to the Financial Statement As at 31st March, 2018

# 1 CORPORATE AND GENERAL INFORMATION

**Coventry Coil-O-Matic (Haryana) Limited** is a Public Limited Company incorporated in India having its registered office at Village Salawas, P.O. Sangwari, District Rewari (Haryana), India. It was incorporated as per the provisions of the Companies Act as **Coventry Coil-O-Matic (Haryana) Ltd.** in the year **23rd September 1988**. The Company is listed on BSE Limited. The Company is primarily engaged in the manufacturing of Cold Formed Coil Springs.

#### 2 BASIS OF ACCOUNTING

#### 2.1 Statement of Compliance

These Financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 as amended by the companies (Indian Accounting Standards) Amendment Rules, 2016, other relevant provisions of the Act and other accounting principles generally accepted in India.

The Financial statements for all periods up to and including the year ended 31st March, 2016, were prepared in accordance with Generally Accepted Accounting Principles (GAAP) in India, which includes the accounting standards prescribed under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014 and other provisions of the Act (collectively referred to as "Indian GAAP"). These Financial statements for the year ended 31st March, 2018 are the first Ind AS Financial Statements with comparatives, prepared under Ind AS. The Company has consistently applied the accounting policies used in the preparation of its opening Ind AS Balance Sheet as at 1st April, 2016 throughout all periods presented, as if these policies had always been in effect and are covered by Ind AS 101"First Time Adoption of Indian Accounting Standards".

An explanation of how the transition to Ind AS has affected the previously reported Financial position, Financial performance and cash flows of the Company is provided in Note No. 33(15). Certain Ind-AS accounting policies of the Company used in the opening Balance Sheet differed from its Indian GAAP policies applied as at 31st March, 2016 and accordingly the adjustments were made to restate the opening balances as per Ind-AS. The resulting adjustment arising from events and transactions before the date of transition to Ind-AS were recognized directly through retained earnings as at 1st April, 2016 as required by Ind- AS 101.

The Financial statements of the Company for the year ended 31st March, 2018 have been approved by the Board of Directors in their meeting held on 30th May, 2018.

# 2.2 Basis of Measurement

The Financial statements have been prepared on historical cost basis, except for following:

- Financial assets and liabilities that is measured at Fair value/ Amortized cost;
- Defined benefit plans plan assets measured at fair value.

# 2.3 Functional and Presentation Currency

The Financial Statements have been presented in Indian Rupees (INR), which is also the Company's functional currency. All Financial information presented in INR has been rounded off to the nearest lakh as per the requirements of Schedule III of "the Act", unless otherwise stated.

# 2.4 <u>Use of Estimates and Judgments</u>

The preparation of Financial statements require judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities including contingent liabilities on the date of the Financial statements and the reported amount of revenues and expenses during the reporting period. Difference between actual results and estimates are recognized in the period prospectively in which the results are known/ materialized.

#### 2.5 Current vs. Non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is classified as current when it is:

- Expected to be realized or intended to sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realized within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All the other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current. Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities respectively.

#### 3 SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the Financial statements are as given below. These accounting policies have been applied consistently to all the periods presented in the Financial Statements.

#### 3.1 Inventories

Inventories are valued at Cost or Net Realizable Value, whichever is lower. Cost comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition and is determined on first in first out(FIFO) basis. Net Realizable Value is the estimated selling price in the ordinary course of business less estimated cost of completion and the estimated cost necessary to make the sale. However materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

# 3.2 Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

#### 3.3 Income Tax

Income Tax comprises current and deferred tax. It is recognized in the Statement of Profit and Loss except to the extent that it relates to an item recognized directly in equity or in Other Comprehensive Income.

# 3.3.1 Current Tax

Current tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the taxation authorities using the tax rates (and tax laws) that have been enacted or substantively enacted, at the end of the reporting period.

#### 3.3.2 **Deferred Tax**

- Deferred Tax assets and liabilities shall be measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.
- Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for Financial reporting purposes and the corresponding amounts used for taxation purposes (i.e., tax base). Deferred tax is also recognized for carry forward of unused tax losses and unused tax credits.

- Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.
- The carrying amount of deferred tax assets is reviewed at the end of each reporting period. The Company reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or that entire deferred tax asset to be utilized. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.
- Deferred tax relating to items recognized outside the Statement of Profit and Loss is recognized either in Other Comprehensive Income (OCI) or in equity. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.
- Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.
- Deferred tax includes Tax Credit under section 115JAA of Income Tax Act,1961 recognized as an asset only to the extent that there is convincing evidence that the company will pay normal income tax during the specified period i.e. the period for which Tax credit is allowed to be carried forward. The company review the "Tax Credit Entitlement" asset at each reporting date and writes down the assets to the extent the company does not have convincing evidence that it will pay normal tax during the specified period.

#### 3.4 Property, Plant and Equipment

#### 3.4.1 Recognition and Measurement:

- -Property, plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes, are stated in the Balance Sheet at cost, less any accumulated depreciation and accumulated impairment losses (if any).
- Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.
- In case of self-constructed assets, cost includes the costs of all materials used in construction, direct labour, allocation of directly attributable overheads, directly attributable borrowing costs incurred in bringing the item to working condition for its intended use, and estimated cost of dismantling and removing the item and restoring the site on which it is located. The costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling items produced while bringing the asset to that location and condition are also added to the cost of self-constructed assets.
- If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.
- Profit or loss arising on the disposal of property, plant and equipment are recognized in the Statement of Profit and Loss.

#### 3.4.2 **Subsequent Expenditure**

- Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.
- Major Inspection/ Repairs/ Overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied. Any Unamortized part of the previously recognized expenses of similar nature is derecognized.

#### 3.4.3 **Depreciation and Amortization**

- Depreciation on tangible assets is provided on straight line method at the rates determined based on the useful lives of respective assets as prescribed in the Schedule II of the Act.
- In case the cost of part of tangible asset is significant to the total cost of the assets and useful life of that part is different from the remaining useful life of the asset, depreciation has been provided on straight line method based on internal assessment and independent technical evaluation carried out by external valuers, which the management believes that the useful lives of the component best represent the period over which it expects to use those components. In case of certain components of plant and machineries depreciation has been provided based on the useful life considered at 2-15 years.
- Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).
- Depreciation on assets built on leasehold land, which is transferrable to the lessor on expiry of lease period, is amortized over the period of lease.
- Depreciation method, useful lives and residual values are reviewed at each Financial year-end and adjusted if appropriate.

# 3.4.4. Disposal of Assets

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognized in the Statement of Profit and Loss.

# 3.4.5. Reclassification to Investment Property

When the use of a property changes from owner-occupied to investment property, the property is reclassified as investment property at its carrying amount on the date of reclassification.

# 3.4.6. Capital Work in Progress

Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

#### 3.5 Revenue Recognition

- Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the Government.
- The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the company's activities as described below. The company bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specific of each arrangement.

# 3.5.1. Sale of Goods

Revenue from the sale of goods is recognized when significant risks and rewards of ownership are transferred to customers and the company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. Revenue from the sale of goods is measured at the fair value of the consideration received or receivables, net of returns and allowances, trade discounts and volume rebates.

#### 3.5.2. Interest Income

For all debt instruments measured either at amortized cost or at Fair Value through Other Comprehensive Income (FVTOCI), interest income is recorded using the Effective Interest Rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the Financial instrument or a shorter period, where appropriate, to the gross carrying amount of the Financial asset.

#### 3.6 Employee Benefits

# 3.6.1. Short Term Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period.

#### 3.6.2. Other Long Term Employee Benefits

The liabilities for earned leaves and sick leaves that are not expected to be settled wholly within twelve months are measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurements as the result of experience adjustment and changes in actuarial assumptions are recognized in statement of profit and loss.

#### 3.6.3. Post Employment Benefits

The Company operates the following post employment schemes:

- Defined Benefit Plans

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The benefits are discounted using the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation.

Remeasurements of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in Other Comprehensive Income. Remeasurement recognized in Other Comprehensive Income is reflected immediately in retained earnings and will not be reclassified to the Statement of Profit and Loss.

- Defined Contribution Plan

Defined contribution plans such as provident fund etc. are charged to the Statement of Profit and Loss as and when incurred.

#### 3.6.4. Termination Benefit

Expenditure incurred on Voluntary Retirement Scheme is charged to the Statement of Profit & Loss immediately.

# 3.7 Foreign Currency Transactions

- Foreign currency transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.
- Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are generally recognized in profit or loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those qualifying assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings, the balance is presented in the Statement of Profit and Loss within finance costs.
- Non monetary items are not retranslated at period end and are measured at historical cost (translated using the exchange rate at the transaction date).

#### 3.8 Borrowing Cost

- Borrowing Costs consists of interest and other costs that an entity incurs in connection with the borrowings of funds. Borrowing costs also includes exchange difference to the extent regarded as an adjustment to the borrowing costs.
- Borrowing costs directly attributable to the acquisition or construction of a qualifying asset are capitalized as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use or sale. The Company considers a period of twelve months or more as a substantial period of time.
- Transaction costs in respect of long term borrowing are amortized over the tenure of respective loans using Effective Interest Rate (EIR) method. All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

#### 3.9 Financial Instruments

A Financial instrument is any contract that gives rise to a Financial asset of one entity and a Financial liability or equity instrument of another entity.

#### 3.9.1 Financial Assets

- Recognition and Initial Measurement:

All Financial assets are initially recognized when the company becomes a party to the contractual provisions of the instruments. A Financial asset is initially measured at fair value plus, in the case of Financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the Financial asset.

- Classification and Subsequent Measurement:

For purposes of subsequent measurement, Financial assets are classified in four categories:

- Measured at Amortized Cost;
- Measured at Fair Value Through Other Comprehensive Income (FVTOCI);
- Measured at Fair Value Through Profit or Loss (FVTPL); and
- Equity Instruments measured at Fair Value Through Other Comprehensive Income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing Financial assets.

- <u>Measured at Amortized Cost</u>: A debt instrument is measured at the amortized cost if both the following conditions are met:
- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
- The contractual terms of the Financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such Financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method.

- <u>Measured at FVTOCI</u>: A debt instrument is measured at the FVTOCI if both the following conditions are met:
- The objective of the business model is achieved by both collecting contractual cash flows and selling the Financial assets; and
- The asset's contractual cash flows represent SPPI.

Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognized in Other Comprehensive Income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognized in the Statement of Profit and Loss in investment income.

- Measured at FVTPL: FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of Profit and Loss.
- Equity Instruments measured at FVTOCI: Equity instrument in scope of Ind AS 109 are measured at fair value. On initial recognition, an equity investment that is not held for trading, the company may irrevocably elect to present subsequent changes in fair value in OCI. The election is made on an investment by investment basis.
- All other Financial instruments are classified as measured at FVTPL.
- Derecognition

The Company derecognizes a Financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the Financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

- Impairment of Financial Assets

The Company assesses at each date of Balance Sheet whether a Financial asset or a group of Financial assets is impaired. Ind AS – 109 requires expected credit losses to be measured through a loss allowance. The company recognizes lifetime expected losses for all contract assets and/ or all trade receivables that do not constitute a financing transaction. For all other Financial assets, expected credit losses are measured at an amount equal to the 12 months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the Financial asset has increased significantly since initial recognition.

# 3.9.2. Financial Liabilities

- Recognition and Initial Measurement:

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All Financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

- Subsequent Measurement:

Financial liabilities are measured subsequently at amortized cost or FVTPL. A Financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in Statement of Profit and Loss. Other Financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in Statement of Profit and Loss. Any gain or loss on derecognition is also recognized in Statement of Profit and Loss.

- Financial Guarantee Contracts

Financial guarantee contracts issued by the company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirement of Ind AS 109 and the amount recognized less cumulative amortization.

# - Derecognition

A Financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

#### - Offsetting Financial instruments

Financial assets and liabilities are offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

#### 3.10 Impairment of Non-Financial Assets

- The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value being higher of value in use and net selling price. Value in use is computed at net present value of cash flow expected over the balance useful lives of the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (Cash Generating Units CGU).
- An impairment loss is recognized as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

#### 3.11 Provisions, Contingent Liabilities and Contingent Assets

#### 3.11.1. Provisions

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pretax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

# 3.11.2. Contingent Liabilities

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in Other Notes to Financial Statements.

#### 3.11.3. Contingent Assets

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

#### 3.12 Intangible Assets

# 3.12.1. Recognition and Measurement

#### Other Intangible Assets

Software which is not an integral part of related hardware, is treated as intangible asset and are stated at cost on initial recognition and subsequently measured at cost less accumulated amortization and accumulated impairment loss, if any.

#### 3.12.2. Subsequent Expenditure

Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Company and the cost of the item can be measured reliably. All other expenditure is recognized in the Statement of Profit & Loss.

#### 3.12.3. Amortization

- Other Intangible assets are amortized over a period of three years.
- The amortization period and the amortization method are reviewed at least at the end of each Financial year. If the expected useful life of the assets is significantly different from previous estimates, the amortization period is changed accordingly.

#### 3.12.4. Intangible Assets under Development

Intangible Assets under development is stated at cost which includes expenses incurred in connection with development of Intangible Assets in so far as such expenses relate to the period prior to the getting the assets ready for use.

#### 3.13 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

#### 3.14 Exceptional Items

Exceptional items are transactions which due to their size or incidence are separately disclosed to enable a full understanding of the Company's Financial performance. Items which may be considered exceptional are significant restructuring charges, gains or losses on disposal of investments of subsidiaries, associate and joint ventures and impairment losses/write down in the value of investment in subsidiaries, associates and joint ventures and significant disposal of fixed assets.

#### 3.15 Measurement of Fair Values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both Financial and non-Financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-Financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Financial statements are categorized within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 Inputs which are unobservable inputs for the asset or liability.

External valuers are involved for valuation of significant assets & liabilities. Involvement of external valuers is decided by the management of the company considering the requirements of Ind As and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

#### 3.16 Standards issued but not yet effective

The amendments to standards that are issued, but not yet effective, up to the date of issuance of the Company's Financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective.

The Ministry of Corporate Affairs (MCA) has issued the Companies (Indian Accounting Standards) Amendment Rules, 2017 and has amended the following standards:

#### Amendment to Ind AS 21

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018 containing Appendix B to Ind AS 21, Foreign currency transactions and advance consideration which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. The amendment will come into force from April 1, 2018. The Company is evaluating the requirements of the amendment and the effect on the Financial statements will be given in due course.

#### **Amendment to Ind AS 115**

Ind AS 115- Revenue from Contract with Customers: On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The standard permits two possible methods of transition:• Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors • Retrospectively with cumulative effect of initially applying the standard recognized at the date of initial application (Cumulative catch - up approach). The effective date for adoption of Ind AS 115 is Financial periods beginning on or after April 1, 2018. The Company is evaluating the requirements of the amendment and the effect on the Financial statements will be given in due course.

# 4 SIGNIFICANT JUDGMENTS AND KEY SOURCES OF ESTIMATION IN APPLYING ACCOUNTING POLICIES

Information about Significant judgments and Key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the Financial statements is included in the following notes:

- Useful lives of depreciable/ amortizable assets (tangible and intangible): Management reviews its estimate of the useful lives of depreciable/ amortizable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to actual normal wear and tear that may change the utility of plant and equipment.
- Defined Benefit Obligation (DBO): Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, medical cost trends, anticipation of future salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate. However, any changes in these assumptions may have a material impact on the resulting calculations.
- Provisions and Contingencies: The assessments undertaken in recognizing provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgment by management regarding the probability of exposure to potential loss.
- Allowances for Doubtful Debts: The Company makes allowances for doubtful debts through appropriate estimations of irrecoverable amount. The identification of doubtful debts requires use of judgment and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.
- Fair value measurement of Financial Instruments: When the fair values of Financial assets and Financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The input to these models are taken from observable markets where possible, but where this not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility.

FVTOCI	NA	NA	NA	NA	NA	NA	NA	NA	NA
Financial Liabilities	NA	NA	NA	NA	NA	NA	NA	NA	NA

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds, ETFs and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration and indemnification asset included in level 3. There are no transfers between levels 1 and 2 during the year.

#### Valuation technique used to determine fair value:

#### Specific valuation techniques used to value financial instruments include:

- -the use of quoted market prices or dealer quotes for similar instruments
- -the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

#### Valuation Techniques used for fair value measurement

#### Valuation processes

- 1. The finance department of the company includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This team reports directly to the Chief Financial Officer (CFO) and the audit committee (AC).
- 2. Discussions of valuation processes and results are held between the CFO, AC and the valuation team quarterly, in line with the company's quarterly reporting periods.

Changes in level 2 and 3 fair values are analyzed at the end of each reporting period during the quarterly valuation discussion between the CFO, AC and the valuation team. As part of this discussion the team presents a report that explains the reason for the fair value movements.

#### 7. SUMMARY STATEMENT OF FINANCIAL RISK MANAGEMENT

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables and cash and cash equivalents that are derived directly from its operations.

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company is exposed to market, credit and liquidity risk.

<sup>-</sup> The carrying amounts of trade receivables, trade payables and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

<sup>-</sup> For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

<sup>-</sup> The company has not classified any financial assets as hedge instruments and hence hedge accounting is not applicable.

The Company's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Company are accountable to the Board of Directors and Audit Committee. This process provides assurance to Company's senior management that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Company policies and Company risk objective.

#### A) Credit Risk Management

The credit risk is the risk of financial loss arising from counter party failing to discharge an obligation. The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk. The credit risk is controlled by analysing credit limits and credit worthiness of customers on continuous basis to whom the credit has been granted, obtaining necessary approvals for credit. For banks and financial institutions, only high rated banks/institutions are accepted.

Credit Risk of various classes of assets is managed as given below:

#### I. Cash and cash equivalents and deposits with banks

The company maintains its Cash and Cash Equivalents with credit worthy banks and financial institutions and reviews it on an on-going-basis. Moreover, the interest bearing deposits are with banks of good reputation, good past track record and high quality credit rating. hence the credit risk is assessed to be low. The maximum exposure to credit risk as at 31st March 2018, 31st March 2017 and 1st April 2016 is the carrying value of such cash and cash equivalents and deposits with banks as shown in note 13 and 14 of the financials.

#### II. Trade Receivables

Trade receivables of the company are typically unsecured and are derived from revenue earned from customers. Credit risk is managed through credit approvals and periodic monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business. The major customers of company are highly reputed. Before sales company assess and evaluate the creditworthiness, general feedback about the customer in the market, past experience, if any with customer and accordingly negotiates the terms and conditions with the customers.

The company assesses its Trade receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in profit and loss, the company makes judgments whether there is observable data indicating a measurable decrease in the estimated future cash flows and from such Trade receivables. The company customer base is normally highly reputed clients. The company has a provisioning policy based on past experience, customer creditability and also on the nature of business.

The maximum exposure to the credit risk as at 31st March 2018, 31st March 2017 and 1st April 2016 is the carrying value of such trade receivables as shown in note 8 and 12 of financials.

#### C) Market Risk Management

#### I. Foreign Currency Risk

- 1. The company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US\$ and EURO. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The objective of the hedges is to minimize the volatility of the INR cash flows of highly probable forecast transactions.
- 2. The company uses foreign exchange forward contracts to hedge its exposure in foreign currency risk. The company measures the forward contract at fair value through profit and loss not classified as hedge.
- 3. The spot component of forward contracts is determined with reference to relevant spot market exchange rates. The differential between the contracted forward rate and the spot market exchange rate is defined as the forward points.

### II. Cash flow and Interest rate risk

The company's main interest rate risk arises from long-term borrowings with variable rates, which expose the group to cash flow interest rate risk., the group's borrowings at variable rate were mainly denominated in INR & USD.

The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

### IV) Commodity Price Risk

The Company is affected by the price volatility of steel commodities. Its operating activities require the ongoing purchase of Steel therefore require a continuous supply of steel. Due to significantly increased volatility of the price of the steel, the Company has entered into various purchase contracts for steel.

The Company has developed developed and enacted a risk management strategy regarding steel price risk and its mitigation

#### V) Legal Risk

The entity have legal risk which is defined as below:

#### Secured loan:

- a. The Company is contesting in various Courts and Tribunals the exaggerated claims by the assignees of the various Term Loans availed between 1990 and 1992 from a consortium of 3 Financial Institutions (FIs) namely ICICI, IDBI and IFCI.
- **b.** The Company availed Term Loans of Rs. 925.67 lakhs between 1990 and 1992 from the consortium, with ICICI as the lead Institution. However the total amount so received was only Rs. 894.03 and the balance was adjusted against Interest payable. Due to recession in the market and accumulated losses which were partly occasioned by high interest rates and partly by time over-run and cost over-run, and despite best efforts of the promoters and the management, the Company turned into a sick company and was referred to the Board for Industrial and Financial Reconstruction (BIFR) vide Reference Case No.197/97.
- c. A Rehabilitation Scheme/Package formulated and agreed upon by all the FIs was approved by the BIFR on 27-12-1999 wherein the dues were freshly determined and fixed as Rs. 1178 lakhs to be paid by 31-03-2002.

The Net Worth of the Company turned positive and after considering the Balance Sheet for the year ended on 31st March 2000, the BIFR closed the reference case on 04-10-2001.

- d. As per the package, one of the sources of finance to repay the FIs was Working Capital facilities. Since the Company was under RBI's defaulters list, no banks were willing to extend the required working capital limits. This was duly brought to the notice of the BIFR. However, despite the best efforts, the Company could not arrange the working capital limits thereby leading to delayed repayments to the Financial Institutions.
- **e.** In all, however, over the years, the Company made a total repayment of Rs. 1286.77 lakhs out which Rs. 1101.89 lakhs was made under/after the BIFR Scheme to the consortium members. The major portion of this was paid to the lead institution, ICICI, as part of approval for the BIFR Rehabilitation Scheme/Package. As the Company did not have the details of amounts adjusted by and amongst members of the Consortium out of the various repayments made by it and since, ICICI had filed a winding-up petition in the High Court of Punjab & Haryana at Chandigarh on 08-10-2004 for recovery of Rs. 329.93 Lakhs, the Company, after October 2005, preferred not to make any further payments to the FIs since the matter was sub-judice.
- f. In 2005, the RBI released a Scheme / Guidelines for One-Time Settlement of loan accounts of Small and Medium Companies. Since the Company fulfilled the criteria for availing the benefits under the said Scheme, which is binding upon the Banks and FIs, the Company re-calculated the payments made under the said Scheme, and after adjusting the amounts already paid to the consortium members, the dues towards the consortium came out to be Rs. 2.62 lakhs only.

The Company accordingly made an application under the OTS Scheme to the FIs before the deadline of end March 2006 and offered to pay the said amount of Rs. 2.62 lakhs.

g. However, the Financial Institutions did not settle the Company's matter under RBI's OTS Guidelines and demanded unreasonably high amounts.

In the meanwhile, ICICI assigned its debts to Kotak Mahindra Bank Ltd. (KMBL) on 25-04-2005, and both IFCI and IDBI assigned their debts to Dhir & Dhir Asset Reconstruction and Securitisation Company Ltd. (now known as Alchemist Assets Reconstruction Company Ltd. (AARCL)) on 05-03-2008 for Rs. 304.00 lakhs and 12-08-2008 for Rs. 411.50 lakhs respectively.

Thereafter, the assignees filed various Applications under section 19 of The Recovery of Debts Due to Banks and Financial Institutions Act, 1993 for recovery of debts as follows:

- In DRT-II, New Delhi by KMBL on 23-01-2007 for recovery of Rs. 472.07 lakhs
- In DRT-I, New Delhi by AARCL on 11-12-2008 for recovery of Rs. 13370.25 lakhs for dues calculated on the IFCI debts.
- In DRT-I, New Delhi by AARCL on 21-05-2012 for recovery of Rs. 9315.19 lakhs for dues calculated on the IDBI debts.
- h. The Company has also filed counter claims of more than Rs. 500 crores on both KMBL and AARCL.

The final adjudication of the debt liability is yet to be completed.

AARCL (formerly D&DARSCL) also issued notice on 12-12-2008 under Section 13(2) of The Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act (SARFAESI), 2002 demanding an amount of Rs. 14446.60 lakhs against dues calculated on both IFCI and IDBI debts. With an application filed on 29-07-2009 u/s 14 of the SARFAESI Act with Dy. Commissioner, Rewari, they made an attempt to take possession of the Company's Assets. However, with timely actions, the Company has obtained from the Hon'ble Punjab & Haryana High Court, Chandigarh Stay Order against any coercive action, if any, taken under SARFAESI Act for taking over the possession of the property in dispute.

i. The Hon'ble Punjab & Haryana High Court, Chandigarh had through interim orders dated 21-01-2011 and 11-03-2011 directed the Company to deposit a sum of Rs. 500 lakhs in the High Court, which the Company complied with.

As per further directions of the Hon'ble High Court vide order dated 09-08-2011 the sum of Rs. 5 crores was appropriated as follows:

- · Rs. 300 lakhs to Alchemist Assets Reconstruction Company Ltd., and
- · Rs. 200 lakhs to Kotak Mahindra Bank Ltd.

Apart from the aforesaid payment of Rs. 500 lakhs the assignees were also given the liberty to recover further sum of Rs. 1350.00 lakhs from the sale of the surplus land appurtenant to the factory premises. This had further been re-affirmed by the Hon'ble Supreme Court with modifications vide Orders dated 07-05-2012, 30-07-2012 and 01-03-2013. As per the directions of the Hon'ble Supreme Court on 01-03-2013, the Company has given physical possession of a part of the property comprising of approx. 10 acres of land to Alchemist Assets Reconstruction Company Ltd. on 08-03-2013. The Appeals are pending adjudication before the Division Bench of Hon'ble Punjab & Haryana High Court.

j. Since this was only an Interim Order and the amount is yet to be adjudicated, no provision for differential Interest has been made by the Company, nor has any effect been given in the Fixed Assets Schedule of the Accounts.

Also, in compliance to the directions given by Hon'ble Debts Recovery Appellate Tribunal, Delhi (DRAT), the Company deposited with the Debts Recovery Tribunal - I, Delhi (DRT-I) a sum of Rs. 51.81 lakhs, which was received from the District Revenue Officer-cum-Competent Authority, Rewari as land acquisition compensation for acquisition of approx. 0.69 acres of the Company's land for widening of the Delhi-Jaipur NH-8 Highway.

**k.** Final Arguments in Debts Recovery Tribunal-1, Delhi (DRT-I) for dues calculated on the IFCI debts is complete and pronouncement of the Order was made on 18-01-2016 for recovery of Rs. 8449.39 lakhs together with simple interest @ 13.5% p.a. The Company has filed on Appeal in the Appellate Court (DART) against this order, along with an Appeal for waiver of the pre-deposit. However, both the Appeals have been dismissed by the Appellate Court on 12th October 2017 (waiver Appeal) and 30th November 2017 (Appeal against DRT-1 Order of 18-01-2016).

The Company has filed a Writ Petition in the Hon'ble High Court, Delhi against the Dismissal Orders of the Appellate Court (DRAT) as the Company is of the view that the said Order is not in accordance with the law and after applying the Reserve Bank of India One-Time Settlement (RBI OTS) Guidelines and after adjusting amounts already paid, physical possession of part property given and amount deposited with the DRT, the Company is of the opinion that nothing will be due and payable by the Company to the Lenders/ Assignees. On the contrary amounts may become recoverable which claims have been filed by the Company.

In the meanwhile, the Appeal filed by the Company before the Commissioner, Gurgaon Div. has been allowed on 10-03-2016. Court has held that the Assignment Deed on the basis of which AARCL filed the case in DRT-I is understopel to the extent of about Rs. 500 lakhs Stamp Duty.

Against this Order, Alchemist Asset Reconstruction Company Ltd. (AARC) had filed Writ Petition in the Punjab & Haryana High Court, Chandigarh who granted an interim stay on the Commissioner's Order till further arguments are heard for final decision.

#### 10. Capital Management

The Company objective to manage its capital is to ensure continuity of business while at the same time provide reasonable returns to its various stakeholders but keep associated costs under control. In order to achieve this, requirement of capital is reviewed periodically with reference to operating and business plans that take into account capital expenditure and strategic Investments. Sourcing of capital is done through judicious combination of equity/internal accruals and borrowings, both short term and long term. Net debt (total borrowings less current investments and cash and cash equivalents) to equity ratio is used to monitor capital.

#### 15. Transition to Ind AS

#### 15.1 Basis for Preparation

For all period up to and including the year ended 31st March, 2016, the Company has prepared its financial statements in accordance with generally accepted accounting principles in India (Indian GAAP). These financial statements for the year ended 31st March, 2018 are the Company's first annual IND AS financial statements and have been prepared in accordance with IND AS.

The accounting policies set out in **Note 3** have been applied in preparing the financial statements for the year ended 31st March 2018, the comparative information presented in these financial statements for the year ended 31st March, 2017 and in the preparation of an opening Ind AS balance sheet at 1st April, 2016 (the date of transition). This note explains the principal adjustments made by the Company in restating its financial statements prepared in accordance with previous GAAP, and how the transition from previous GAAP to Ind AS has affected the Company's financial position, financial performance and cash flows.

### 15.2 Exceptions and Exemptions Applied

IND AS 101 "First-time adoption of Indian Accounting Standards" (hereinafter referred to as Ind AS 101) allows first time adopters certain mandatory exceptions and optional exemptions from the retrospective application of certain IND AS, effective for 1st April, 2016 opening balance sheet. In preparing these financial statements, the Company has applied the below mentioned optional exemptions and mandatory exceptions.

#### 15.2.1 Optional Exemptions Availed

#### a. Property Plant and Equipment, Intangible Assets and Investment Properties

As permitted by para D5-D8B of Ind AS 101, the Company has elected to continue with the carrying values under previous GAAP for all the items of property, plant and equipment. The same election has been made in respect of intangible assets and investment property also.

### b. Determining whether an arrangement contains a Lease

Para D9-D9AA of Ind AS 101 includes an optional exemption that permits an entity to apply the relevant requirements in Appendix C of Ind AS 17 "Leases" for determining whether an arrangement existing at the date of transition contains a lease by considering the facts and circumstances existing at the date of transition (rather than at the inception of the arrangement). The Company has applied the above transitional provision and has assessed all the arrangements at the date of transition.

### 15.2.2 Mandatory Exceptions

#### a. Estimates

As per para 14 of Ind AS 101, an entity's estimates in accordance with Ind AS at the date of transition to Ind AS at the end of the comparative period presented in the entity's first Ind AS financial statements, as the case may be, should be consistent with estimates made for the same date in accordance with the previous GAAP unless there is objective evidence that those estimates were in error. However, the estimates should be adjusted to reflect any differences in accounting policies.

As per para 16 of the standard, where application of Ind AS requires an entity to make certain estimates that were not required under previous GAAP, those estimates should be made to reflect conditions that existed at the date of transition or at the end of the comparative period. The Company's estimates under Ind AS are consistent with the above requirement.

### b. De-recognition of financial assets and liabilities

As per para B2 of Ind AS 101, an entity should apply the derecognition requirements in Ind AS 109, "Financial Instruments", prospectively for transactions occurring on or after the date of transition to Ind AS. However, para B3 gives an option to the entity to apply the derecognition requirements from a date of its choice if the information required to apply Ind AS 109 to financial assets and financial liabilities derecognized as a result of past transactions was obtained at the initially accounting for those transactions. The company has elected to apply the derecognition provisions of Ind AS 109 prospectively from the date of transition to Ind AS.

#### c. Classification and measurement of financial assets

Para B8 - B8C of Ind AS 101 requires an entity to assess classification of financial assets on the basis of facts and circumstances existing as on the date of transition. Further, the standard permits measurement of financial assets accounted at amortized cost based on facts and circumstances existing at the date of transition if retrospective application is impracticable.

Accordingly, the company has determined the classification of financial assets based on facts and circumstances that exist on the date of transition. Measurement of the financial assets accounted at amortized cost has been done retrospectively.

### 15.3 Transition to Ind AS - Reconciliations

The following reconciliations provide a quantification of the effect of significant differences arising from the transition from previous GAAP to Ind AS as required under Ind AS 101:

- 1. Reconciliation of material items of Balance sheet as at 1st April, 2016 (Transition Date) and as at 31st March, 2017
- 2. Reconciliation of Statement of Profit & Loss for the year ended 31st March, 2017
- 3. Reconciliation of Equity as at 1st April, 2016 and as at 31st March, 2017
- 4. Adjustments to Statement of Cash Flows

The presentation requirements under Previous GAAP differs from Ind AS, and hence, Previous GAAP information has been regrouped for ease of reconciliation with Ind AS. The Regrouped Previous GAAP information is derived from the Financial Statements of the Company prepared in accordance with Previous GAAP.

### **Reconciliation of Total Equity**

The reconciliation of Equity as reported as per earlier Indian GAAP and the equity as per IND AS is as per table below:

(Rs. in Lakhs unless otherwise stated)

Particulars	As at 31st March, 2017	As at 1st April, 2016
Equity under Previous Indian GAAP	(736.38)	(595.90)
Equity as per Ind As	(736.38)	(595.90)

### Explanations to the material adjustments made in the process of IND AS transition from previous GAAP

#### a. Re-Classifications

The Company has done the following reclassifications as per the requirements of Ind-AS:

- i) Assets / liabilities which do not meet the definition of financial asset / financial liability under IND AS have been reclassified to other asset / liability.
- ii) Remeasurement gain/loss on long term employee defined benefit plans are re-classified from statement of profit and loss to OCI.
- iii) Excise duty on sales was netted off with Sales under Previous IGAAP and now it is required to be presented separately under IND AS.

## b. Remeasurements of post-employment benefit obligations

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year. As a result of this change, the loss for the year ended March 31, 2018 decreased by Rs. 3.29 Lakhs. There is no impact on the total equity as at 31 March 2018.

#### c. Other comprehensive income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans and tax thereon. The concept of other comprehensive income did/does not exist under previous GAAP.

#### 16. Segment Reporting

The company has reported segment information as per Indian Accounting Standards-108 "Operating Segments "(IND AS -108). The identification of operating segment is consistent with performance assessment and resource allocation by the chief operating decision maker.

#### 17. Going Concern Assumption

The Company has incurred significant operating losses, negative operating cash flow, adjudication of legal process against the company for loan liability and negative net worth. However the management is continuing with the operations, therefore the accounts have been prepared on basis of going concern assumption. Consequently, adjustment for amount of assets and classification of liabilities required to be recorded has not been carried out.

#### 18. Deferred Tax Assets

There being virtual uncertainties of taxable income in subsequent year, hence deferred tax assets has not be created in these accounts.
