### Governance Philosophy

***A corporate philosophy translates into a habit in the course of execution and experience. Your Company reaffirms its sense of responsibility to the cause and concerns regarding corporate Governance.***

**MANAGEMENT DISCUSSION AND ANALYSIS****I. INDUSTRY****A. INDUSTRY STRUCTURE & DEVELOPMENT:****Growth Prospects**

1. The performance of the Indian economy during the year 2010-2011 greatly exceeded expectations. The farm sector which was expected to contract showed resilience, growing by 0.5 per cent despite the weak South West monsoon. The non farm sector also did well. It is the assessment based on sound research that the Indian economy would grow at 9 per cent in the year 2011-2012 and 9.5 per cent in the year 2012-2013.
2. Industrial sector recovery became evident in June 2010 and by August 2010 the General Index of Industrial Production (IIP) registered double digit growth rate driven by similar growth rates in output in the manufacturing and mining sector. In the year 2010-2011, the mining sector output grew at 9 per cent but a slowdown is expected in the year 2011-2012 with a projected growth of 8.0 per cent in both output and GDP arising in the sector.

**Global Prospects**

The Indian global economic and financial situation is recovering slowly. The large fiscal deficits and high debt ratios coupled with slow economic growth have created unsettling conditions for business and have potential for causing great volatility in financial markets. It is hard to visualize strong economic growth in the advanced economies in 2011 and to a large extent in 2012. The implications of this, for India's strategy to return to the 9.5 percent growth trajectory, are that public policy must promote business confidence and facilitate increased investment.

**B. OPPORTUNITIES:**

By general consensus, India has been blessed by nature for its wide varieties of granite which, are not found anywhere in the world. Also the market demand for granite products is increasing in countries with high annual growth rate, like Spain, China, Hong Kong, East Europe etc. The market potential is abundant and there are excellent prospects for the Indian granite industry to get better share in the world market.

Your Company is predominantly engaged in the manufacturing of High Quality Polished Granite Slabs and Tiles. Your Company's brand name 'Pacific' has built up a better image over the other brands available in the domestic market. Your Company makes sustainable efforts to provide beautiful and durable varieties of Granite to the whole world and in the process nurtures long-term relations with customers. All this taken together heralds a bright future for your Company

**C. THREATS:**

Indian Granite industries are being forced to invest not only in (increasingly expensive) modern equipment, but also in extraction for access to the raw materials and moreover, also in expensive commercial investments such as opening their own warehouses etc. This strategy has its own risks. It places huge demands on management skills in an industry where, presently, all decisions were made by the owners at the top of the hierarchy. In other words, the granite industry is evolving into a highly capital intensive and complicated industry.

The market share of China in the international trade in granite has been steadily increasing in recent years. If that ever happens the threat to the survival of the elaboration of this industry in other countries will be real.

This is the age of technology. Resist it and you are dead. Invest in it and there is still no guarantee of success. Your Company has developed a strong and persistent work culture to operate successfully in diverse business environments by adapting to new technologies and complexities in different spheres of work. Adjustability and adaptability thus have become a part of day-to-day work. Cost effectiveness is directly and ultimately linked up with our Economies of Scale and Total Integration. This is what keeps your Company moving forward with agility and dynamism

**D. OUTLOOK:**

India is the world's third largest producer of natural stones and fifth in export of finished products. Even today the Indian share of world market is less than 10%. There is, however, a bright future for increasing the Indian share in the world market with its vast area of granite deposits spreading over more than 15 states and with wide variety of colours and skilled work force. The growth of the granite sector, which provides a lot of employment, particularly for the rural masses, is important for the socio-economic development of the country.

Moreover with the production of Pacific Red Granite, your Company shall command dominance in the global market

**E. INTERNAL CONTROL SYSTEMS & THEIR ADEQUACY:**

Your Company has in place proper and adequate system of internal controls to provide reasonable assurance that all assets are safeguarded, transactions are authorised, recorded and reported correctly and to ensure compliance with policies, statutes, rules and regulations. The internal control system provides for documented procedures covering all financial and operating functions.

**F. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE:**

Despite the challenges of the environment and the strategic drive to integrate and transform, the organization financial performance was strong. Company achieved a turnover of Rs. 6077.34 lakh during the period under review in comparison to the last year 2009-10 i.e., Rs. 6726.49 lakh. The Net Profit after Tax of the Company is Rs.353.55 Lakh as against Rs.798.21 Lakh in the previous year. The decrease in the Net Profit is due to increase in Material & operating Cost.

**G. MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED:**

Your Company has 251 employees on its rolls as on 31st March, 2011. Your Company value human resource as one of its most important assets, they being vital to the Company's performance and growth. The human resource systems promote co-operation and innovation within the employees and flexibility to adapt with the changing business needs. With an enlightened workers industrial relations in your Company continue to be healthy and cordial.

**H. CAUTIONARY STATEMENT**

Statements in the Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations may be "forward-looking statements" within the meaning of applicable securities laws and regulations. The Company can not guarantee that these assumptions and expectations are accurate or will be realized. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include economic conditions affecting demand /supply and price conditions in the domestic and overseas markets in which the Company operates, changes in the Government regulations, tax laws and other statutes applicable to the Company and incidental factors.
