Under the provisions of Section 180(1)(c) of the Act, which were made effective from September 12, 2013, the above powers can be exercised by the Board only with the consent of the shareholders obtained by a Special Resolution. Further, as per the Circular dated March 25, 2014 issued by the Ministry of Corporate Affairs, the Ordinary Resolution earlier passed under Section 293 (1) (d) of the Companies Act, 1956 will remain valid for a period of one year from the date of notification of Section 180 of the Act, i.e. up to September 11, 2014. As such, it is necessary to obtain fresh approval of the shareholders by means of a Special Resolution, to enable the Board of Directors of the Company to borrow moneys, in excess of the paid up capital and free reserves of the Company.

The shareholders of the Company in the 36th AGM held on 28/9/2012 has accorded their consent to the Board of Directors for borrowing upto ₹250000 Lakh and also for creation of charge/ provide security for the sums borrowed.

As on 31st March, 2015, the aggregate of paid-up capital and free reserves of the company is ₹123430 Lakh. The total loan funds as on 31/3/15 is ₹103865 lakh. It is proposed to pass an enabling resolution to maintain the borrowing limits at the same level earlier approved by shareholders i.e, ₹250000 lakh in order to enable the Directors to borrow monies, provided that the total amount so borrowed by the Board shall not at any time exceed ₹250000 lakh or the aggregate of the paid up capital and free reserves of the Company, whichever is higher, under the aegis of section 180(1)(c) of the Act. For this purpose, it is necessary to obtain fresh approval of the shareholders by means of a Special Resolution. None of the Directors and key managerial personnel of the Company or their respective relatives are concerned or interested in the above Resolution.

The Board commends the resolution for approval of the members as special resolution.

Item No. 9:

Under the erstwhile Section 293(1)(a) of the Companies Act, 1956, the Board of Directors of a Company could, with the consent of the shareholders obtained by an Ordinary Resolution, create charge/ mortgage/ hypothecation on the Company's assets, both present and future, in favour of the lenders/ trustees for the holders of debentures/ bonds, to secure the repayment of monies borrowed by the Company (including temporary loans obtained from the Company's Bankers in the ordinary course of business).

Under the provisions of Section 180 (1) (a) of the Act, which were made effective from September 12, 2013, the above powers can be exercised by the Board only with the consent of the shareholders obtained by a Special Resolution. As such, it is

necessary to obtain fresh enabling approval of the shareholders by means of a Special Resolution, to enable the Board of Directors of the Company to create charge/ mortgage/ hypothecation on the Company's assets, both present and future, in favour of the lenders, to secure the repayment of monies borrowed by the Company. Standard market terms of long term debt finance include conditions whereby lenders in certain circumstances (such as non-payment or other events of default) can take over the management of the Company, to recover their dues. It is therefore, necessary to obtain members' approval by way of a Special Resolution under Section 180 (1) (a) of the Act for creation of charges/mortgages/hypothecations etc. in respect of borrowings upto ₹2,500Crores.

The Board recommends the Resolution at Item No. 9 of the Notice for approval of the shareholders by a Special Resolution. It is also proposed to ratify under section 180(1)(a) of the Act, the existing charges created by DCI.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDIAN DREDGING - OUTLOOK & POLICY GUIDELINES

1. India has an extensive coastline of approximately 7517 kilometers. There are 13 Major Ports under the administrative control of the MoS and approximately 187 Non-Major Ports under the administrative control of the Government of India ("GoI") and State Governments and the private ports, strategically located on the world's shipping routes, its long tradition of seafaring with a large pool of trained maritime personnel and its dynamic and rapidly globalizing economy with a vast potential to expand its participation in trade and development. A few such ports are natural harbours with sufficient water depth to handle vessels plying cargo to and from them. Most of the other ports require capital dredging to expand vessel size handling capability and maintenance dredging for maintenance of their existing/expanded capability to berth vessels of different shapes and sizes.

1.1. The Indian dredging market consists primarily of maintenance dredging and capital dredging in addition to a limited amount of inland dredging, beach nourishment and reclamation dredging. We are a very prominent player on account of our expertise in this highly technical and skilled sphere of business.

1.2. As per the report of the Working Group for Ports Sector for 12th Plan, a total quantity of 675.25 MCM and 429.99 MCM had been planned for capital and maintenance dredging respectively for all the ports in the country during the 11th Plan. This quantity includes the dredging to be done for fishing harbours also besides, the major and non major ports. Against this targeted plan, only 278.93 MCM and 291.63 CM had been achieved under the capital and maintenance dredging respectively. This constitutes 41.31% and 67.82% against the targeted quantity. The major ports achieved 31.97% of the targeted quantity, the non-major ports achievement was 49.55% in capital dredging work. In maintenance dredging work, the figures are 68.89% and 59.92% respectively. The shortfall in achieving the set target is due to many factors. Delay or failure to takeoff number of port development projects, financial and environmental constraints, the need to carry out engineering studies to assess the quantum of dredging and the type of dredging to be performed, poor response from bidders to undertake the work are some of the reasons attributable to the shortfall. Overall, the ports had done better in achieving the target in maintenance dredging. The non major ports had done better than the major ports in capital dredging work.

2. Dredging requirement for 12th Plan period

The capital dredging requirements for major ports during the 12th plan period stem from the various port projects planned by the major ports. Ports of Kolkata, Paradip, Visakhapatnam, Ennore, Chennai, Tuticorin, Mormugao, Jawaharlal Nehru and Kandla are planning to undertake the capital dredging of quantities more than 10 MCM. The requirement of capital dredging has been estimated at 221.11 MCM for all the major ports including the requirement of Navy. The projection for maintenance dredging at major ports is 404.25 MCM. In total the requirement is 625.36 MCM which is almost at the same level when (92.5%) compared with 676.34 MCM projected for the major ports during 11th Five Year plan. The non major ports have projected a total requirement of 543.61 MCM of which 418.03 MCM is for capital dredging and 125.58 MCM is for maintenance dredging. When compared with the projection of 368.59 MCM and 46.41 MCM respectively for capital and maintenance dredging during 11th Five year plan, there is an increase of nearly 31%. Capital dredging requirement of the State of Orissa, Andhra Pradesh and Gujarat constitute 57.8% of total capital dredging due to development of Gopalpur and Dhamra ports in Orissa, development of Machilipatnam, Krishnapatnam, Kakinada and Gangavaram ports in Andhra Pradesh, and development of Hazira port in Gujarat state.

3. The 12th plan dredging requirements, if achieved, will enable all the Major Ports (except Kolkata) and non-Major Ports to handle the vessels with 14 meters draft at the end of 12th plan period. In case transloading facilities installed at sandheads by Kolkata Port, then Kolkata Port can also handle 14 m draft vessels.

4. The Maritime Agenda 2020, which is the perspective plan of the Ministry for this decade, identifies the priority areas for Government intervention and is a road map for creation and upgradation of infrastructure in the Ports and also for augmentation of Indian tonnage in the shipping sector. The document says that Shipping lines have been representing time and again that port charges at Indian Ports are very high as compared to other comparable International Ports. As a matter of fact, vessel related charges are perhaps higher than some of the International Ports whereas cargo related charges are much lower in some Indian Ports in comparison to ports abroad. The document says that if Vessel related charges alone are taken, the reasons for higher charges are mainly two: (1) higher cost of dredging in certain ports, requiring perennial dredging and (2) lack of subsidy on the part of Government. In many parts of the world, some part of dredging (at least Capital) is funded by Provincial Governments or Federal Governments. If the same approach is adopted by Central Government or State Governments, the vessel related charges also could be brought to the reasonable levels. The document says that Major Ports in India have drawn up some ambitious expansion plans during the next decade including several major dredging projects by some ports, thereby intending to create substantial additional capacity. The dredging projects are mainly for deepening of channels, enhancing the available draft at berths or for construction of more berths.

5. DCI participates in the open competitive bids for dredging issued by major ports as per the dredging policy guidelines issued by Ministry of Shipping. DCI has secured the dredging project for Kandla port on open tender basis. Further, as per the dredging policy, Government of India reserves the right to assign in public interest any contract for dredging work in any of the major ports on nomination basis.

6. With the entry of global players either directly or through their Indian arms competing to get the contracts at competitive rates, has put the financials of the Company under severe strain more so because of increasing cost due to frequent repairs and lay-up of the ageing dredgers. The addition of the dredgers XIX and XX to the fleet in December, 2012 and July, 2013 and XXI in March, 2014 has helped in improving the capacity utilisation of the Company.

9. OUR STRATEGIES

We intend to increase income from operations and strengthen our domestic and international competitive position by expanding our operations in both our traditional and new dredging services and adopting a pro-active marketing strategy for our domestic and foreign operations. We aim to achieve our mission by pursuing the following business strategies:

Enhancement of market share in maintenance dredging and more participation in capital dredging in India

With the addition of the two new dredgers in December 2012 and July 2013 respectively and third dredger in March 2014 respectively of higher capacity, our Company expects to maintain its domestic leadership position in maintenance dredging by becoming more customer-focused and tailoring marketing initiatives that differentiate between specific groups of customers. In particular, it is consolidating its relationships with the Major Ports and developing marketing efforts aimed at non-Major Ports and new private port developers in India. Also at present company is undertaking Capital dredging assignment at Ennore Port and Kandla Port. We plan to undertake more such assignments subject to the availability of the fleet.

Making forays in foreign dredging market

Apart from consolidation in the Indian dredging market, we have plans to make forays in the foreign dredging market.

Project Management Consultancy

DCI is already doing PMC for a major port for the dredging works. The company is intending to enhance the scope by including all port related activities.

Shallow water dredging

With the impetus given to desiltation of rivers and inland channels, the company plans to reenter the inland dredging area and has already started discussions with Inland Waterways Authority of India and State Governments.

Enhancement of the fleet capability

In continuation of the efforts to sustain the existing capacity for which orders were placed for three dredgers meant as replacement of existing aged dredgers, our Company plans to procure two higher hopper capacity 9000 cubic meters trailer suction hopper dredgers in the twelfth plan. Our Company also plans to refurbish the existing aged dredgers during the current plan period so as to increase their effectiveness and enhance their economic life.

Reducing operational costs

Our Company proposes to reduce its operational costs by refurbishing the existing aged dredgers. Further, in addition to its capacity utilization initiatives discussed above, our Company also intends to reduce operational costs by focusing on fuel efficiency in ship operations and ship procurement and further streamlining the spare parts procurement systems. Our Company also intends to have tie-ups with ship repair yards for continued maintenance of our vessels for a period of time so as to make available the dredgers for a guaranteed minimum number of days every year.

Strategic alliances through long term contracts with major ports

Our Company proposes to have strategic alliances with major ports on similar terms with the Kolkata Port at present. This will ensure assured business for the Company and enable the Company to plan in advance regarding the deployment of the vessels. The Company is also having discussion with some Ports to part finance the proposed new acquisitions.

Optimize capacity utilization

Our Company intends to continue to optimize its capacity utilization by continuous project monitoring and review, reducing equipment downtime through preventive maintenance and working with repair yards to accelerate dry dock repair periods, and increasing computerization, including introducing online connectivity between dredgers, projects and the head office. Our Company also intends to continue to invest in quality pre-dredging surveys and equipment and continue to invest in repairs and maintenance. Through a renewed focus on training, our Company intends to introduce specific project planning and management initiatives to educate its staff to identify and develop new market opportunities. Our Company believes in the introduction of best practices in procurement, costing and working capital management, along with the introduction of tailored human resources practices, participatory management and new technologies, which will create new competencies in its organization and add value for its dredging customers.

11. INDIAN DREDGING MARKET OUTLOOK

While the consistent maintenance dredging requirements at the major ports are expected to continue, increasing private sector participation in port development and related capital dredging activity is expected. At the same time, the dynamics in the Indian market are rapidly changing. The key changes taking place include changes in customer profile for dredging companies from Government to private sector developers, changes in payment patterns for dredging work with stringent performance parameters the expansion of Indian port capacity and increasing participation of international companies in the Indian dredging market. Other developments include:

- i Deeper draught requirements of Indian Ports.
- ii Tourism development and increasing need for beach nourishment.
- iii Land reclamation for low lying areas.

INDEPENDENT AUDITORS' REPORT

To
The Members,

VISAKHAPATNAM

1. Report on the Financial Statements

We have audited the accompanying financial statements of Dredging Corporation of India Limited ('the Company') which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss and the Cash Flow statement for the year then ended and a summary of significant accounting policies and other explanatory information.

2. Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("The Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting principles generally accepted in India including the Accounting Standards specified under the section 133 of the Act, read with Rule 7 of the Companies (accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the Assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of the appropriate accounting policies; making judgements and estimates that are reasonable and prudent; design implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

3. Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the Accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143 (10) of the Act. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial control system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

4. Opinion

I. Basis for Qualified Opinion:

The Company had not complied with the provisions of Section 135, 149 (1), 149(4) 177 and 178 of the Companies Act, 2013. At this stage, we are unable to comment on the consequential impact of non-compliance of these provisions, if any.

Aggrieved by the said directions the Company vide its letter no.DCI/CS/E.1/2015 requested SEBI to review its decision appropriately as it would not be correct to consider any diminution in value of the investment as investee company's (SCL) networth has been increasing over the period as under:
