B. MANAGEMENT DISCUSSION AND ANALYSIS

The company manufactures and markets a range of Emulsion Polymers - Synthetic Latexes, Synthetic Rubber and Nitirle Rubber.

I. CURRENT SCENARIO

Your Company is one of the leading producers of emulsion polymer products namely, Synthetic Latexes (Vinyl Pyridine Latex, Carboxylated Styrene Butadiene Latex, Styrene Acrylic Latex, Nitrile Latex, etc.) and Synthetic Rubber (High Styrene Rubber, Nitrile Butadiene Rubber, NBR Powder, and Nitrile Polyblends) in India. The Company has one of the broadest ranges of products in the industrial segments and caters to a wide range of industries. Your Company's Synthetic Latex products are used, among other applications, for tyre cord dipping, paper and paperboard coating, carpet backing, concrete modification/water proofing, non-wovens, textile finishing, paints, etc. Various grades of Synthetic Rubber find application in products such as footwear, automotive components, rice rolls, moulded items, v-belts, conveyor belts, hoses, etc.

The Company's major raw materials are petrochemical products and its business could be vulnerable to high volatility in the prices of crude oil and its downstream products.

Over the years, a number of steps have been taken by the management to improve the operational efficiency of the Company in different functions like marketing, human resource development, production process, utilities etc.

Your Company's plant at Taloja is recipient of Total Productive Maintenance (TPM) Excellence in Consistent TPM Commitment Award - Category A by the Japan Institute of Plant Maintenance (JIPM). TPM has helped the company significantly in improving efficiencies in the plant and in operations and rationalizing costs. The Taloja plant has successfully completed re-certification of the integrated ISO 9001, ISO 14001 and OHSAS 18001. It has also successfully completed recertification by Indian Chemical Council (ICC) to use the "Responsible Care" logo.

The above initiatives are also being implemented at the recently acquired plant at Valia, Ankleshwar, Gujarat.

II. OPERATIONS DURING THE FINANCIAL YEAR 2016-17.

After amalgamation of wholly owned subsidiary viz. Apcotex Solutions India Private Limited, which was made effective from 1st December 2016, the Company achieved Gross Value Sales of Rs. 43,163.43 lacs during the financial year, compared to Rs. 29,772.38

lacs in the preceding year on standalone basis. The company exported its products worth Rs. 4014 lacs during the financial year. The sales of Synthetic Latex products were lower during the financial year due to strike of unionized workmen at Taloja plant for almost 2 months and intermittent stoppages of production at one of our major customer's plant.

There was a continuous thrust from the management to develop a strong research and development and technical service team to develop new products for export markets, explore new applications and understand better the changing customer needs.

Profits before tax were lower by 33% to Rs. 2221.71 lacs as compared to Rs 3,342.75 lacs during the previous year due to strike at Taloja Plant and intermittent stoppages of production at one of our major customer's plant. Due to the recently acquired company, there were some one time post-acquisition and merger expenses which also put some pressure on the bottom line. Your Company was also successful in turning around a loss-making asset in a very short period of time. In spite of the challenging year, EBITDA decreased by only 17% from Rs 4479.20 lacs in the previous year to Rs 3,718.04 lacs during the financial year 2016-17.

Profit after tax stood at Rs.1909.00 lacs as compared to Rs. 2,467.10 lacs in the previous year.

The Balance Sheet of the Company is also quite healthy with zero debt, reasonable working capital cycle and cash/liquid Investments valued at about Rs.35 crore based on NAV as on 31st March, 2017.

Your Directors consider Company's performance as satisfactory.

NEW LOGO

Your Company is proud to inform that the management has adopted a new logo for the Company as a part of the ongoing evolution of business.

Over the last few years, your company has grown and changed dramatically and during FY 2015-16 your Company acquired Omnova Solutions India Pvt. Ltd., which immensely helped to expand the product basket. It was a perfect time to evaluate our company's brand and logo to ensure it is in sync with who we are and where we are heading. After careful consideration, the Company chose a new logo the shape of which not only represents the letter "A" but also the upwardly mobile nature of the Company. At the same time, the curved stroke and colours used in gradient depict flexibility and adaptability which is essential for success. The colours green and blue symbolizes the importance of the eco-system and environment for our Company. We have also retained the same font and red colour of "apcotex" in the logo to ensure that we remember our roots and values.

III. MERGER

The Scheme of Amalgamation of wholly owned subsidiary viz. Apcotex Solutions India Private Limited with the Company was approved by the Honorable High Court, judicature at Bombay on 27th October 2016 and was made effective from 1st December 2016 with appointed date as 31st March 2016, by filing the High Court order with Ministry of Corporate Affairs (MCA).

The Board of Directors of your Company on 31st March 2017 has approved the Scheme of Amalgamation of Saldhar Investment and Trading Company Private Limited, the holding company of Apcotex Industries Limited (holding 51.10% paid-up share capital) with the Company from 31st March 2017. Your Company is in process of making an application to Stock exchanges for their consent, before filing petition before National Company Law Tribunal (NCLT), Mumbai Bench.

IV. OUTLOOK

In light of the acquisition of Omnova Solutions India Private Limited in Financial Year (FY) 2015-16 and subsequent merger in 2016-17, the Company expects FY 2017-18 to be an exciting year in spite of a few challenges. The Company will explore introducing new products and focusing on exports as short term future growth drivers for the Company. In the medium to long term the Company is exploring adding new capacities for current products, new adjacent businesses as well as opportunities for inorganic growth.

With the Company's continuous endeavour to enhance efficiencies at all levels and functions, your Directors view the prospects for the financial year 2017-18 with cautious optimism.

V. RISKS AND CONCERNS

The Company has laid down a well-defined Risk Management Framework covering the risk, risk exposure, potential impact and risk mitigation process. Major risks identified by the business and functions are systematically addressed through mitigating actions on continuing basis. These are discussed at the meetings of the Audit Committee and the Board of Directors of the Company.

The Company's Risk Management Committee, periodically reviews the risks in the organization, identifies new risk areas, develops action plans and monitors and reports the compliance and effectiveness of the policy and procedure to the Audit Committee and Board.

The Audit Committee and Board review the risks and suggest steps to be taken to control and mitigate the same through a properly defined framework.

The Company's Board of Directors perceives the following risks as current high risks areas:

1) Credit Risk:

The management has adopted the stringent credit policy due to which the bad debts written off is only Rs.36.22 lacs - 0.11% of Sales Turnover during past 3 years. The credit period and the exposure limits are reviewed regularly. Taking the credit report of new customers and for existing customers once in 2-3 years to understand their credit worthiness. The supplies are stopped once the overdue outstanding exceeds the set limit. Deposits / bank guarantees are obtained from the dealers / consignment agents wherever necessary. The overdue outstanding list is reviewed by the senior Sales Managers and Managing Director on a weekly basis. One of the largest customer in paper/paperboard segment is facing financial problem and overdue outstanding is about Rs.11 crore.

2) Procurement Risk:

Presently the Company is procuring major quantity of Butadiene from IOCL, OPAL and on availability basis from RIL and Haldia. Butadiene availability in India is now fairly sufficient. Styrene is not manufactured in India, hence completely imported and our quantities are large. Acrylonitrile (ACN) is also not manufactured in India, hence is completely imported but our quantities are small so we should be able to get this material. To mitigate the risk of availability of material, same are sourced from multi sources viz, bulk suppliers, dealers and imports.

A system has been set to constantly monitor inventories and prices. The company has maintained relation with domestic and overseas suppliers for regular supplies of materials.

3) Safety Risk:

The Company has several safety measures in place. Consent to operate for Taloja plant is valid upto 30th March 2021. The Consent to operate Valia Plant is valid till 9th November 2019. The safety committee meets regularly and conducts the mock drills to check the preparedness in the organisation to face any eventuality. To track the compliances in the organisation implemented software called Total Compliance which helps to escalate the non-compliance to higher-ups.

The Company has taken adequate Insurance policies for covering the floods, earthquake, and terrorism for appropriate amount.

4) Strike Risk:

The unionised workmen at Taloja Plant were on strike for 51 days in Q4 of FY 2016-17. A new

action plan is being prepared to mitigate the risks faced during the strike period. Even though the impact is high it has been somewhat reduced due to the second manufacturing plant which allowed the Company to make some products in our other facility. There is no insurance policy to cover the loss of profit on account of strike.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **APCOTEX INDUSTRIES LIMITED** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India"

The Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

(ii) Use of Estimates:

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and the disclosures of contingent liabilities. Difference between actual results and the estimates are recognized in the period in which the results materialize / are known.

(iii) Property Plant & Equipment and Depreciation / Amortization

a. Property Plant & Equipment

Freehold land is carried at carrying cost. All other items of Property Plant & Equipment are carried at the cost of acquisition or construction, less accumulated depreciation and accumulated impairment, if any. The cost of items of Property Plant & Equipment includes taxes (other than those subsequently recoverable from tax authorities), duties, freight and other directly attributable costs related to the acquisition or construction of the respective assets. Know-how related to plans, designs and drawings of buildings or plant and machinery is capitalized under relevant asset heads.

Subsequent costs are included in the assets carrying amount or recognized as separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs & maintenance are charged to profit and loss during the reporting period in which they are incurred.

Intangible assets are recorded at the consideration paid for acquisition of such assets and are carried at cost less accumulated amortization and impairment, if any.

NOTES TO ACCOUNTS FOR THE YEAR ENDED 31ST MARCH 2017

c. Impairment

The carrying amounts of the Company's tangible and intangible assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated in order to determine the extent of impairment loss, if any. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The impairment loss, if any, is recognized in the Statement of Profit and Loss in the period in which impairment takes place.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, however subject to the increased carrying amount not exceeding the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior accounting periods

(iv) Borrowing Cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

(v) Investments

Non-current investments are valued at cost less provision for diminution in value, if the diminution is other than temporary. Current Investments are stated at lower of cost and fair value.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss. Profit or loss on sale of investments is determined on average cost basis.

(vi) Inventory

Inventories are valued at lower of Cost and Net Realizable Value.

The cost is determined as follows:

- (a) Raw and Packing Materials are valued at cost or market value, whichever is lower, computed on FIFO basis. The cost includes the cost of purchase and other expenses directly attributable to their acquisition but excludes duties and taxes, which are subsequently recoverable from the taxing authorities.
- (b) The finished goods inventory is valued at cost, or net realizable value whichever is lower. Cost includes material cost, conversion, appropriate factory overheads, any tax or duties and other costs incurred in bringing the inventories to their present location and condition.
- (c) Work-in-Process is valued at material cost and cost of conversion appropriate to their location in the manufacturing cycle.
