Annual Report 2014-2015

Moving Out From Under The Umbrella

Courage And Vision To Let Grow

To paraphrase columnist Ann Landers, 'holding on' means believing that you have only a past; 'letting go' means you know you have a future.

Majesco's demerger from Mastek, initiated last year, was an unusual step for a mid-sized company in an era where the industry tries to achieve scale at any cost.

Our decision to demerge was based on the belief that:

It takes great strength to hold on.

It takes great courage and vision to let go.

The subsequent emergence of Mastek and Majesco as separate entities in their own fields of expertise is opening up whole new vistas of opportunities hitherto unavailable or inaccessible.

What's more, in the coming months, it'll be evident that the management of each company is now more focused and is prioritising investment and growth strategies to maximise stakeholder returns in a way that could not occur when under the one umbrella.

Not that being under the umbrella has been without merit: as you know, for over three decades, Mastek has thrived on delivering transformational business outcomes for our customers and society in general. The journey has made Mastek not just another IT company, but an institution with a 'soul', seeking to make a valuable difference to the world. Our insistence that maintaining a spotless reputation over the long run is more important than short-term growth and profits, has ensured that every stakeholder benefits - a "Win For All" situation. However, it became apparent that Mastek actually had two entities under the umbrella—with both being restricted and constrained from expressing themselves out fully.

The Solutions business is quite different from the Insurance Products & Services business in terms of business model, growth opportunities, investment required and staff profile. Holding on would severely limit the growth potential of both entities.

The demerger objectives revolve around one single premise—"Maximizing Stakeholder Value":

- To provide an opportunity for shareholders to participate in the business of their choice based on their risk preference.
- To fully meet growing customer expectations in both parts of the business – making the investments necessary to build products and capabilities.
- To attract, grow and retain the right talent for each type of business.
- To create a platform for each to enhance financial flexibility to pursue next stage of growth.

Majesco – Poised To Become A Dominant Insurance Technology Solutions Provider

Majesco's *raison d'être* is to enable transformation of Insurance businesses globally by providing technology solution encompassing software products, consulting and services.

And we have been rather successful at this: we made 4 different acquisitions, invested over \$100 million, successfully integrated these businesses and then grown them organically. Our 2014-15 fiscal pro-forma annualized revenue is \$86 million. We have 1,800 staff globally and a presence in six countries.

Recently, we acquired the business of Agile Technologies to add consulting capabilities to our portfolio. Plus we have the merger with Cover-All in progress, which brings commercial lines policy and business intelligence solutions to Majesco customers.

What this means is that the future promises even more exciting possibilities. And Majesco, in its new avatar, is well suited to leverage growth opportunities!

- We already have strong momentum. Our core P&C

business has grown by 23% CAGR over last two years – a demonstration of the strength of our product suite and our sales engine.

- We have a base of over 150 global customers including customers of Agile and Cover-All. This is our most valuable asset.
- We have a comprehensive suite of offerings which is well regarded in the industry.
- We have an experienced leadership team with a track record of growing insurance technology businesses.

Majesco's Focus – Growth, Growth And More Growth

The acquisition of Agile Technologies, and the Cover-All merger provide us growth opportunities and dominant positions in many parts of the Insurance business.

In the near future, we hope to build upon and scale up our track record of growth and momentum in the P&C business. We have cross sell opportunities to our expanding client base. For example, we have an opportunity to sell our billing

solution to Cover-All policy customers, and we have an opportunity to offer the Cover-All Business Intelligence platform to Majesco clients.

Our Life & Annuity and Insurance Services businesses are operating from a smaller, more nimble base, and therefore have strong growth opportunities.

The cloud is a fast growing part of our business, providing exciting opportunities in data and content services as well.

And of course, there are huge growth opportunities in international businesses, which benefit from our insurance focus and synergies from other regions.

All in all, Majesco is right there in the middle of a vibrant industry which is large and growing. We firmly believe that leaders in the insurance technology space will take a larger piece of the market share and that is exactly what we aim to do.

Mastek – Agile Solutions For The Digital Age

The Digital Age has seen the ways in which customers interact with businesses, move from physical channels to virtual channels. Customers expect to transact at any time on any device and brand loyalty is a thing of the past—customers demand the right product at the right price and a great user experience or they will go elsewhere. This also has a fundamental impact on Government, as citizens now demand the same level of experience when engaging with the public sector – it must be engaging, accessible from any where and available at any time.

Mastek has always thrived on large, complex programmes which deliver transformational business outcomes for our customers and society in general. These programmes are full of uncertainty, highly complex and take extraordinary levels of commitment, desire and flexibility to successfully deliver. It is precisely these qualities that our clients love about us. These core competencies of Mastek position us as a partner of choice for customers embarking on a digital transformation programme.

Mastek currently operates in UK and India & Asia Pacific and these geographies will remain our focus for FY15-16. We aspire to return to North America in the medium term and will begin

examining the market opportunity and plans for market entry during FY16-17. Our core service offerings will be Agile Enterprise Transformation; Next Generation Service Management; Business Intelligence and Analytics; Enterprise Digital; and, Testing.

Verticals

Government And Health (UK)

Mastek has built a strong base within the G Cloud platform – as one of the top agile application vendors. From our work on Home Office, HSCIC, Monitor and the NHS National Spine, we are now building a strong brand in UK Government. Our focus will continue to be on central rather than local government and our experience in delivering complex IT programmes using agile methods is a strong differentiator for us.

Retail

With the recent new logos in the Retail sector, Mastek has built up an impressive client base of Tier1 retailers. Our reputation at our anchor client, Morrisons, continues to grow and we have transitioned from a business that had little understanding of retail to one which brings innovation and thought leadership to our customers and prospects. Our reputation, client list and focus on building assets gives us solid basis for growth in the coming years.

Financial Services

With the separation of our Insurance business, FY15-16 will see a reset of our Financial Services strategy – i.e. identification of our target markets, our value propositions and our approach to sales and marketing. Financial Services has been a major contributor to the success of Mastek in FY14-15 and once the strategy is in place, we expect to grow our pipeline substantially.

India Government

We have established a strong position in rolling out state-wide IT programs in the Social Welfare domain. We will continue to add newer customers and strengthen the framework with latest technology interventions. As part of the focus on new businesses, we entered into a JV with the Law Society during 2014-15 to develop a conveyancing portal for the UK market. During FY15-16, we will explore potential to expand into adjacent markets with foundation steps taken in at least one such target market. In summary, both businesses and governments want to digitally transform. These programmes need specialized skills, capabilities and track record. Mastek is well poised to leverage this growing opportunity within the UK and India in the short run, and in the US and Europe in the medium run.

Letter To Shareholders

Dear Shareholders,
It gives me great pleasure to share my thoughts on the key developments of the fiscal year 2015 of our Company. I would say it was a milestone year, as we continued to grow strategically and strengthened the foundations for the future.

Let me first touch upon the key strategic moves that the Company undertook this year before we dwell into the operational highlights of the year gone past.

Mastek as a company was built on foundations of a strong technology focus coupled with deep domain competencies in the insurance vertical as well as the government practice. While each of the businesses had its own strengths and focused on specific markets and geographies, there were instances where the Board felt that the two businesses were dissimilar with its own business model, investment requirements, growth rate potential, and even the kind of

people needed to service those businesses. As a result, the Board decided to carve the insurance products business out of Mastek into a separate entity called Majesco which will focus on Insurance Products while the parent Company will continue to be in the solutions space.

The demerger is a win-win for all concerned as the individual businesses will get enhanced management focus and operational flexibility apart from independently pursuing

their growth plans through organic/inorganic means. The arrangement also creates a platform for both businesses to enhance their financial flexibility. Most importantly, it provides the shareholders to participate in a business of their choice based on the risk-reward profile. On demerger, Mastek shareholders will get one equity share of Majesco for every share held in Mastek, over and above their existing Mastek shares. Majesco is proposed to be listed on the BSE and NSE, being exchanges where Mastek is currently listed.

This apart, we also strengthened our insurance products business by announcing two acquisitions in the US in the second half of fiscal 2015. The first one was the acquisition of the insurance business of Agile Technologies which is in the insurance consulting side with a revenue base of approx. US\$ 10 million. This acquisition was completed by Majesco, the US subsidiary of your company effective January 1, 2015 and has been integrated into Majesco as the Insurance Consulting Division (ICD). The second acquisition pertains to Cover-All Technologies, a US based P&C company with revenues in excess of US\$ 20 million and currently listed on the NYSE-MKT. Majesco plans to merge Cover-All Technologies with itself in a 100% stock for stock transaction and in turn

plans to list Majesco on the NYSE-MKT, subject to regulatory and shareholder approvals. We expect this transaction to get closed by June 2015. We believe that these acquisitions add a lot of muscle and power to our already strong insurance practice in the US and will enable us to actively compete for larger and more complex assignments in the future.

On the solutions side, we entered into 'Shareholders Agreement' with The Law Society of England and Wales (TLS), United Kingdom to establish an entity in United Kingdom named Legal Practice Technologies Limited (LPTL). LPTL is in the process of building a platform which is a conveyancing portal to be used by solicitors on real estate transactions and we have already garnered sufficient interest from the legal community in the UK. I think the Veyo portal should do very well in terms of getting a good market share of all the real estate transactions happening in the UK as we go along.

On the solutions side, Mastek sees traction building up in the UK through the G-Cloud framework that I shared with you last year. This is largely a UK government initiative to structure smaller deals and procure directly through the

small/medium players rather than go on for large/huge programs which have had a high failure rate which plays to our advantage. We are making considerable progress on the retail front too, where apart from a large marquee client, we have had entries into three Tier-I accounts which sets us up to build a strong pipeline of growth ahead. On the financial services side, given that Insurance is now part of Majesco, we have turned our attention to micro-lending where we have started winning multiple deals. India was a bit slow last year due to the elections but the new government has announced its intentions of bolstering the IT framework and we do believe that there will be a lot of large unbundled opportunities that Mastek can address.

Turning towards the operational highlights, we ended year FY 15 with operating revenue of Rs 1,012.6 crore as compared to Rs 923.0 crore in FY 14 reflecting an increase of 9.7% in rupee terms and 8.1% in constant currency dollar terms. We posted an EBITDA of Rs 61.0 crore (5.9% of total income) as compared to an EBITDA of Rs 101.3 crore (10.8% of total income) in the corresponding period of the previous year. The Net profit stood at Rs 17.7 crore as against Rs 51.8 crore in FY 14. The EBITDA and the Net Profit

figures were down this year due to restatement of revenues at one insurance client, increased product development expenses during the year, loss on our joint venture with LPT which has just started operations as well as the restructuring costs associated with demerger of the Company into insurance product and solutions business.

There was a good addition to the client portfolio in the year and we added quite a few names to our insurance portfolio and also some in the government space. The total number of clients added this year was 19 for the period ended March 31, 2015 taking the total number of clients to 153 on a trailing twelve month basis. Our order backlog, which is an indicator of the business momentum, ended the year at Rs 526.8 crore as compared to Rs 541.8 crore in FY 14. The total cash & cash equivalent on the books stands at Rs 214.3 crore as compared to Rs 171.1 crore in the corresponding period of the previous year. Net cash balance after setting off the debt stands at Rs 185.0 crore as of 31st March, 2015 as compared to Rs 169.7 crore at the end of 31st March, 2014.

During the year, we declared an interim dividend @ 30% i.e. Rs 1.50 per Equity Share of Rs. 5.

Along with the final dividend of Rs 1.00 per Equity Share, Total Dividend for the year including Interim Dividend works out to 50%.

Our Company continues to receive many accolades and awards either directly or through its clients including being ranked 71st in the leader category in the Global Outsourcing 100 awarded by IOAP and Majesco US was positioned as a Leader in Gartner's First Quadrant for P & C Insurance Policy Management Modules.

To summarize, I believe our Company is working to build an aggressive growth strategy to capitalize on the opportunities in the Insurance and Solutions segment. We have tried to grow our capacity to enable client transformation through demerger, selective acquisitions, as well as investments in our existing services. We have invested over \$110 million in acquisitions and R&D over the last eight years. The demerger provides both the Insurance Product and Solutions business a huge platform to take off and I am sure all of you would continue this journey with us as we await the legal formalities to complete the demerger process and begin life as two new companies.

On behalf of the Board of Directors, I would like to place my sincere appreciation to our customers, partners, shareholders, employees and vendors for their support.

Best Regards

INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF MASTEK LIMITED

Independent Auditors' Report

To the Board of Directors of Mastek Limited

1. We have audited the accompanying consolidated financial statements (the "Consolidated Financial Statements") of Mastek Limited ("the Company") and its subsidiaries and its jointly controlled entity; hereinafter referred to as the "Group" (refer Note 1 to the attached consolidated financial statements), which comprise the consolidated Balance Sheet as at March 31, 2015, the consolidated Statement of Profit and Loss, the consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 (the "Act") with respect to the preparation of these consolidated financial statements to give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with accounting principles generally accepted in India including the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

3. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.
4. We conducted our audit in accordance with the Standards on Auditing and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.
5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and presentation of the consolidated financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of

accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the consolidated financial statements.

6. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

7. We report that the consolidated financial statements have been prepared by the Company's Management in accordance with the requirements of Accounting Standard (AS) 21 – Consolidated Financial Statements and Accounting Standard (AS) 27 – Financial Reporting of Interests in Joint Ventures specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
8. Based on our audit and on consideration of reports of other auditors on separate financial statements and on the other financial information of the components of the Group as referred to in paragraph 10 below, and to the best of our information and according to the explanations given to us, in our opinion, the aforesaid consolidated financial statements give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Group as at March 31, 2015, and its consolidated profit and its consolidated cash flows for the year ended on that date.

Other Matter

9. We did not audit the financial statements of five subsidiaries and one jointly controlled entity included in the consolidated financial statements, which constitute total assets of ₹ 28,453 Lakhs and net assets of ₹ 17,905 Lakhs as at March 31, 2015, total revenue of ₹ 56,239 Lakhs, net profit of ₹ 369 Lakhs and net cash flows amounting to ₹ 6,793 for the year then ended. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us, and our opinion on the consolidated financial statements to the extent they have been derived from such financial statements is based solely on the report of such other auditors. Our opinion is not qualified in respect of this matter.

2. Summary of significant accounting policies:

2.1 Basis of preparation

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles in India under the historical cost convention on accrual basis. Pursuant to Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, till the standards of accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently, these consolidated financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 211(3C) [Companies (Accounting Standards) Rules, 2006, as amended] and other relevant provisions of the Companies Act, 2013.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the acquisition of assets / inputs for processing and their realisation in cash and cash equivalents, the Group has ascertained its normal operating cycle as 12 months for the purpose of current / non current classification of assets and liabilities.

The financial statements of the Company, its subsidiaries and the joint venture (on a proportionate basis) have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses. Intra group balances and intra group transactions and resulting unrealized profits are eliminated in full. Unrealized losses resulting from intra group transactions are also eliminated unless cost cannot be recovered.

The consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR YEAR ENDED MARCH 31, 2015 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

2.2 Use of estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles requires that the management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

2.3 Tangible assets and depreciation

Tangible assets are stated at cost of acquisition less accumulated depreciation and accumulated impairment losses, if any. Direct costs are capitalized until the assets are ready for use and include inward freight, duties, taxes and expenses incidental to acquisition and installation. Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Losses arising from the retirement of, and gains or losses arising from disposal of tangible assets which are carried at cost are recognised in the Statement of Profit and Loss.

Depreciation on tangible assets is provided on the straight line method, on a pro rata basis, over the estimated useful lives of assets which are not longer than the useful lives prescribed under Schedule II to the Companies Act, 2013, in order to reflect the period over which the depreciable asset is expected to be used by the company. The estimates of useful lives of the assets based on a technical evaluation, have not undergone a change on account of transition to the Companies Act, 2013.

Assets	Useful Life
Buildings	25 - 30 years
Computers	2 years
Plant and equipment	2 - 5 years
Furniture and fixtures	5 years
Vehicles	5 years
Office equipment	2 - 5 years
Leasehold land	Lease Term ranging from 95-99 years
Leasehold improvements	5 years or the primary period of lease whichever is less

2.4 Intangible assets and amortisation

Intangible assets are stated at cost of acquisition less accumulated amortisation and accumulated impairment losses, if any. Intangible assets are amortised on a straight line method over their estimated useful lives as follows:

Assets	Useful Life
Goodwill	3 - 5 years
Computer software	1 - 5 years

Expenditure on research is recognised as an expense when it is incurred. Development costs of products are also charged to the Statement of Profit and Loss unless all the criteria for capitalisation as set out in paragraph 44 of AS 26 - 'Intangible Assets' have been met by the Group.

2.5 Impairment of assets

At each Balance Sheet date, the Group assesses whether there is any indication that an asset may be impaired. If any such indication exists, management estimates the recoverable amount. Recoverable amount is higher of an asset's net selling price and value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of the its useful life. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognised in the Statement of Profit and Loss to the extent carrying amount exceeds recoverable amount. Assessment is also done at each Balance sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exists or many have decreased.

2.6 Investments

Investments that are readily realisable and are intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as Non-current investments. Current investments are carried at cost or fair value, whichever is lower. Non-current investments are carried at cost. However, provision for diminution is made to recognise a decline, other than temporary, in the value of the non-current investments, such reduction being determined and made for each investment individually.

Investment property: Investment in buildings that are not intended to be occupied substantially for used by, or in the operations of, the Group, have been classified as investment property. Investment properties are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Refer note 2.3 for depreciation rate used for buildings.

2.7 Foreign currency transactions and translation

The consolidated financial statements are prepared in Indian Rupees. The Indian Rupee is the functional currency of Mastek Limited. However, U.S. Dollar, Pound Sterling, Singapore Dollar, Malaysian Ringitts, Thai Baht and Canadian Dollar are the functional currencies for its non-integral subsidiaries located in United States of America, United Kingdom, Singapore, Malaysia, Thailand and Canada, respectively. The translation of the functional currencies into Indian Rupees (reporting currency) is performed for assets and liabilities using the current exchange rates prevailing at the Balance Sheet date and for revenues and expenses using average exchange rates prevailing during the reporting period. All resulting exchange differences on translation are taken directly to reserves under Foreign Currency Translation Reserve until the disposal of the investment in subsidiary.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR YEAR ENDED MARCH 31, 2015 (Contd.)

(All amounts in ₹ Lakhs, unless otherwise stated)

Foreign currency transactions of the Company and of its integral foreign branch are accounted at the exchange rates prevailing on the date of the transaction or at an average rate that approximates the actual rate at the date of the transaction. Monetary assets and liabilities are translated at the rate prevailing on the Balance Sheet date whereas non-monetary assets and liabilities are translated at the rate prevailing on the date of the transaction. Gains and losses resulting from the settlement of foreign currency monetary items and from the translation of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Profit and Loss.

In case of forward exchange contracts which are open on the balance sheet date and are backed by receivables, the premium or discount arising at the inception of such a forward exchange contract is amortised as expense or income over the life of the contract. The exchange difference on such contracts is computed by multiplying the foreign currency amount of the forward exchange contract by the difference between a) the foreign currency amount of the contract translated at the exchange rate at the reporting date or the settlement date where the transaction is settled during the reporting period, and b) the same foreign currency amount translated at the latter of the date of inception of the forward exchange contract and the last reporting date. The exchange difference so computed on such contracts is recognised in the Statement of Profit and Loss. Any profit or loss arising on cancellation or renewal of such forward exchange contracts is recognised as income or expense for the year.

2.8 Interest in Joint Venture

The Group's interest in the Jointly controlled entity is accounted for using proportionate consolidation method.

2.9 Derivative instruments and hedge accounting

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. The Company designates these hedging instruments as cash flow hedges.

The use of hedging instruments is governed by the policies of the Company which are approved by its Board of Directors.

Hedging instruments are initially measured at fair value, and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised directly in the hedging reserve and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

For derivative financial instruments that do not qualify for hedge accounting, the premium or discount arising at the inception of the contract is amortised as expense or income over the life of the contract. Gains/losses on settlement of transaction arising on cancellation or renewal of such a forward exchange contract are recognized as income or expense for the year.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in shareholders' funds is retained there until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in hedging reserve is transferred to the Statement of Profit and Loss for the year.

2.10 Employee benefits

(i) Long-term employee benefits

(a) Defined contribution plans

The Company has defined contribution plans for post employment benefits in the form of provident fund, employees' state insurance, labour welfare fund and superannuation fund in India which are administered through Government of India and/or Life Insurance Corporation of India (LIC). The Group also makes contributions towards defined contribution plans in respect of its subsidiaries and branches in foreign jurisdictions, as applicable. Under the defined contribution plans, the Group has no further obligation beyond making the contributions. Such contributions are charged to the Statement of Profit and Loss as incurred.

(b) Defined benefit plans

The Company has defined benefit plans for post employment benefits in the form of gratuity for its employees in India. The gratuity scheme of the Company is administered through Life Insurance Corporation of India (LIC). Liability for defined benefit plans is provided on the basis of actuarial valuations, as at the Balance Sheet date, carried out by an independent actuary. The actuarial valuation method used by independent actuary for measuring the liability is the projected unit credit method. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss as income or expense.

(c) Other long-term employee benefits

The employees of the Group are also entitled for other long-term benefit in the form of compensated absences as per the policy of the Group. Leave encashment vests to employees on an annual basis for leave balance above the upper limit as per the Group's policy. At the time of retirement, death while in employment or on termination of employment leave encashment vests equivalent to salary payable for number of days of accumulated leave balance subject to an upper limit as per the Group's policy. Liability for such benefit is provided on the basis of actuarial valuations, as at the Balance Sheet date, carried out by an independent actuary. The actuarial valuation method used by independent actuary for measuring the liability is the projected unit credit method. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss as income or expense.

(ii) Short-term employee benefits

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees is recognised in the year during which the employee rendered the services. These benefits comprise compensated absences such as paid annual leave and performance incentives.

(iii) Termination benefits

Termination benefits, in the nature of voluntary retirement benefits or those arising from restructuring, are recognised in the Statement of Profit and Loss when the Group has a present obligation as a result of past event, when a reliable estimate can be made of the amount of the obligation and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations.

(All amounts in ₹ Lakhs, unless otherwise stated)

2.11 Revenue recognition

The Group derives revenues primarily from information technology services. Revenue is recognised in accordance with the terms of the contracts with customers as the service is performed by the proportionate completion method and when it is reasonably certain that the ultimate collection will be made. Revenues on time and material contracts are recognised when services are rendered and related costs are incurred. Revenues on fixed price, fixed time bound contracts are recognised over the life of the contract measured by the proportion that contract costs incurred for work performed up to the reporting date bear to the estimated total contract costs. The cumulative impact of any revision in estimates of the percentage of work completed is reflected in the period in which the change becomes known. Provisions for estimated losses on such contracts are made during the period in which a loss becomes probable and can be reasonably estimated. When the uncertainty, relating to the collectability arises subsequent to the rendering of the service, a separate provision is made to reflect the uncertainty and the amount of revenue originally recorded is not adjusted.

Revenues from maintenance contracts are recognised on a straight line basis over the period of the contract.

Revenues from resale of software and hardware are recognised upon delivery of products to the customer, when the significant risks and rewards of ownership are transferred to the buyer and the ultimate collection is reasonably certain.

Accrued revenue included in 'Other current assets', represents amounts in respect of services performed in accordance with contract terms, not yet billed to customers at the year end. Unearned revenue included in 'Other current liabilities' represents amounts received/billed in excess of the value of work performed in accordance with the terms of the contracts with customers.

2.12 Other income

Dividend income from investments is recognised when the right to receive payment is established. Interest income is recognised on time proportion basis taking into account the amount outstanding and the applicable rate of interest. Rental income is recognised on a straight line basis over the term of the lease as per the terms of the base contract.

2.13 Leases

Assets taken on leases which transfer substantially all the risks and rewards incidental to ownership of the assets to the lessee i.e. finance leases, in terms of provisions of Accounting Standard (AS) 19 – 'Leases', are capitalised. The assets acquired under finance leases are capitalized at the lower of the fair value at the inception of the lease and the present value of minimum lease payments and a liability is created for an equivalent amount. Such assets are disclosed as leased assets under tangible assets and are depreciated in accordance with the Group's depreciation policy described in note 2.3. Each lease rental paid on the finance lease is allocated between the liability and interest cost, so as to obtain a constant periodic rate of interest on the outstanding liability for each period. Other leases are classified as operating leases and rental payments in respect of such leases are charged to the Statement of Profit and Loss on a straight line basis over the lease term. Assets given under operating leases are capitalised in the Balance Sheet under tangible assets and are depreciated as per the Group's depreciation policy described in note 2.3.

2.14 Earnings per share

Basic earnings per share (EPS) are calculated by dividing the net loss / profit after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by adjusting the number of shares used for basic EPS with the weighted average number of shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The diluted potential equity shares have been adjusted for the proceeds receivable had the shares been actually issued at fair value i.e. average market value of outstanding shares. The number of shares and potentially dilutive shares are adjusted for share splits and bonus shares, as appropriate. In calculating diluted earnings per share, the effects of anti-dilutive potential equity shares are ignored. Potential equity shares are anti-dilutive when their conversion to equity shares would increase earnings per share or decrease loss per share.

2.15 Income Taxes

Tax expense for the year comprises of current tax and deferred tax. Current tax is measured by the amount of tax expected to be paid to the taxation authorities on the taxable profits after considering tax allowances and exemptions and using applicable tax rates and laws. Deferred tax is recognised on timing differences between the accounting income and the taxable income for the year and quantified using the tax rates and tax laws enacted or substantively enacted as on the Balance Sheet date. Deferred tax assets are recognised and carried forward to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets in respect of unabsorbed depreciation or carry forward losses are recognised only to the extent there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. The carrying amount of deferred tax assets is reviewed at each balance sheet date for any write down or reversal, as considered appropriate.

Minimum Alternative Tax (MAT) credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amount and there is an intention to settle the asset and liability on a net basis.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing the current tax and where the deferred tax assets and liabilities relate to taxes on income levied by the same governing taxation laws.

(All amounts in ₹ Lakhs, unless otherwise stated)

2.16 Segment Reporting

The accounting policies adopted for segment reporting are in conformity with the accounting policies adopted for the Group. Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities of the segment. Expenses, net of income, which relate to the Group as a whole and are not allocable to segments on a reasonable basis, have been included under "Common unallocable charges, net".

2.17 Accounting for Employee Stock Options

Stock options granted to employees of Mastek Limited and its subsidiaries under the stock option schemes established after June 19, 1999 are accounted as per the treatment prescribed by Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 (SEBI guidelines) issued by the Securities and Exchange Board of India (SEBI) and as amended from time to time and the guidance note on Employee Share-based Payments issued by the Institute of Chartered Accountants of India. The intrinsic value of the option being excess of market value of the underlying share immediately prior to date of grant over its exercise price is recognised as deferred employee compensation with a credit to share options outstanding account. The Expense on deferred employee compensation is charged to Statement of Profit and Loss on straight line basis over the vesting period of the option. The options that lapse are reversed by a credit to Expense on Employee Stock Option Scheme, equal to the amortized portion of value of lapsed portion and a debit to share options outstanding account equal to the un-amortised portion.

2.18 Provisions and Contingent Liabilities

Provisions are recognised when the Group has a present obligation as a result of past events, for which it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Provisions are reviewed regularly and are adjusted where necessary to reflect the current best estimates of the obligation. Where the Group expects a provision to be reimbursed, the reimbursement is recognized as a separate asset, only when such reimbursement is virtually certain.

2.19 Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, demand deposits with banks and other short term highly liquid investments with original maturities of three months or less.

35. Employee Stock Option Scheme

(a) Nature and extent of employee share-based payment plans that existed during the year:

i. Plan III

The Company passed special resolutions at its Annual General Meeting held on September 20, 2004 approving the allocation of 700,000 stock options to the eligible employees of the Company and its subsidiaries.

The Company subsequently established a new scheme in 2004 for granting 700,000 stock options to the employees referred to above, each option representing one equity share of the Company. The exercise price is as governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within two years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. No options have been granted under the scheme at below market price and consequently, there is no compensation cost in the current year. In April, 2006 the Company issued Bonus Shares in the ratio of 1:1 and the number of unvested and unexercised options and the price of the said options have been adjusted accordingly.

ii. Plan IV

The Shareholders of the Company through Postal Ballot on August 9, 2007 approved the allocation of 1,000,000 stock options to the eligible employees of the Company and its subsidiaries.

The Company subsequently established a new scheme in 2007 for granting 1,000,000 stock options to the employees referred to above, each option representing one equity share of the Company. The exercise price is as governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within two years from the date of vesting. During the year ended June 30, 2011, the Company has extended the vesting period from two years to seven years. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. No options have been granted under the scheme at below market price and consequently, there is no compensation cost in the current year.

iii. Plan V

The Company introduced a new scheme in 2008 for granting 1,500,000 stock options to the employees, each option representing one equity share of the Company. The exercise price as may be determined by the Nomination & Remuneration Committee ("Committee") and such price may be the face value of the share from time to time or may be the Market Price or any price as may be decided by the Committee and will be governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within seven years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. During the financial year ended June 31, 2011, 50,000 options were granted at price less than the market price. There is no compensation cost in the current year, as the cost of discounted options has been charged off in earlier year.

iv. Plan VI

The Company introduced a new scheme in 2010 for granting 2,000,000 stock options to the employees, each option representing one equity share of the Company. The exercise price as may be determined by the Committee and such price may be the face value of the share from time to time or may be the Market Price or any price as may be decided by the Committee and will be governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within seven years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. During the year ended March 31, 2015, 256,957 options have been granted under the scheme at below market price. Consequently, the amortised compensation cost for the exercisable options is ₹ 96.06 and have been charged to the statement of profit and loss during the current year.

	Year ended March 31, 2015	(No of Options) Year ended March 31, 2014

Balance unexercised options	1,315,439	1,892,300

v. Plan VII

The Company introduced a new scheme in 2013 for granting 2,500,000 stock options to its employees, employees of its subsidiaries and its Independent Directors, each option giving a right to apply for one equity share of the Company on its vesting. The exercise price as may be determined by the Committee and such price may be the face value of the share from time to time or may be the Market Price or any price as may be decided by the Committee and will be governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within seven years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. During the year ended March 31, 2015, 46,373 options have been granted under the scheme at below market price. Consequently, the amortised compensation cost for the exercisable options is ₹ 35.69 and have been charged to the statement of profit and loss during the current year.

36. Income Taxes

- In accordance with the Indian Income Tax Act, the Company has calculated its tax liability after considering Minimum Alternate Tax (MAT). Payments under MAT can be carried forward and set off against future tax liability for a period of ten years. Accordingly, a sum of ₹ 2,694.26 (Previous year ₹ 3,001.75) has been carried forward and shown under 'Long-term loans and advances' (Refer Note 15).
- In addition to Indian operations, the Group has accounted for the tax liabilities of its foreign subsidiaries and the UK branch in accordance with their respective tax legislations.
- The Company had received tax demands aggregating to ₹ 2,835.05 (including interest of ₹ 853.09) primarily on account of transfer pricing issues for the assessment years 2006-07 to 2011-12. For the assessment year 2006-07 and assessment year 2007-08, the second appellate authority (the Income Tax Appellate Tribunal) has allowed these issues in favour of the company and the income tax authorities have filed an appeal with the Honourable High Court. For the assessment years 2008-09 and assessment year 2009-10, the first appellate authority (the Commissioner of Income tax (Appeals)) has allowed most of these issues in favour of the company. For the assessment years 2010-11 and 2011-12 the matter is pending before the first appellate authority (the Commissioner of Income tax (Appeals)).

Considering the facts, materiality and favourable order of the second appellate authority for assessment years 2006-07 and 2007-08 and the first appellate authority for 2008-09 and 2009-10, the management believes that the final outcome of majority of the above disputes for the remaining years should be in favour of the Company and there should not be any material impact on the financial statements.

37. Derivative Financial Instruments

The Company, in accordance with its risk management policies and procedures, enters into foreign currency forward contracts to hedge against foreign currency exposures relating to highly probable forecast transactions. The Company does not enter into any derivative instruments for trading or speculative purposes. The counter party is generally a bank. These contracts are for a period between one day and two years.

The following "sell" foreign exchange forward contracts are outstanding as at:

39. Segment reporting

Group follows AS 17, 'Segment Reporting' issued by the Institute of Chartered Accountants of India, which requires disclosures of financial and descriptive information about Mastek's reportable segments, both primary and secondary. The Group has identified geographic segments as primary segments and industry verticals as secondary segments.

Group's operations predominantly relate to providing IT services, delivered to customers globally. The organisational and reporting structure of the Group is based on Strategic Business Units (SBU) concept. The SBU's are primarily geographical segments. SBU's are the operating segments for which separate financial information is available and for which operating results are evaluated regularly by management in deciding how to allocate resources and in assessing performance. These SBU's provide end-to-end information technology solutions on time and material contracts or fixed bid contracts, entered into with customers.

The Group's primary reportable segments consist of the following SBUs, which are based on the risks and returns in different geographies and the location of the customers: North America Operations, UK Operations, and Others. 'Others' include operations of the Group in other parts of the world including India.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR YEAR ENDED MARCH 31, 2015 (Contd.)

Revenues and expenses directly attributable to segments are reported under each reportable segment. All other costs i.e. corporate costs and support function costs, which are not directly attributable or allocable to segments have been disclosed as common unallocable charges. Similarly revenues and income not allocable to segments are disclosed separately.

A major portion of the Group's fixed assets are primarily located at its off shore centres in India and are commonly used by various SBUs. These fixed assets are therefore not directly identifiable to any particular reportable segment and have been allocated to SBUs on the basis of man-months used by these SBUs. Consequently, capital expenditure incurred and depreciation and amortization are similarly allocated to SBUs.

Further, the Company has subscribed to 40,000 equity shares of Minefields ₹ 10/- each for a total consideration of ₹ 4. Thus the total shareholding of the Company in Minefields at March 31, 2015 amounts to 50,000 equity shares of ₹ 10/- each for a total consideration of ₹ 5 (including 6 equity shares purchased jointly with other shareholders).

48. Purchase of Investment in Majesco, USA (formerly MajescoMastek, USA)

During the year, the Company purchased 24,765,750 equity shares of Majesco, USA from Mastek (UK) Limited for a total consideration of ₹ 3,024.79 (USD 4.95 million). Subsequent to the purchase, Mastek Limited holds 83.5% of Majesco and the balance 16.5% is held by Mastek (UK) Limited.

49. Pursuant to the Scheme of Arrangement (the "Scheme") under Sections 391 to 394 read with Sections 100 to 103 and other applicable provisions of the Companies Act, 1956 and other applicable provisions of the Companies Act, 2013, the Board of Directors of Mastek Limited (the "Company" or "Mastek"), in its meeting held on September 15, 2014, had approved the demerger of the Insurance Products and Services business of the Company, into a new wholly owned subsidiary, Minefields Computers Limited ("Minefields"), to be renamed as Majesco Limited ("Majesco India"), to be followed by transfer by Majesco India of the offshore insurance operations business in India to Majesco Software and Solutions India Private Limited ("MSSIPL"), a wholly owned subsidiary of Majesco Software and Solutions Inc., USA ("MSSUS"). The Appointed date of the Scheme will be April 1, 2014 or any other date as decided by the Board of Directors and the appointed date for the offshore insurance operations business transfer will be November 1, 2014 or any other date as decided by the Board of Directors – both these dates will be subject to the approval of the Hon'ble High Court of Bombay and Hon'ble High Court of Gujarat. On approval of the Scheme by the respective High Courts, Mastek shareholders will get one equity share of Majesco India for every share held in Mastek, over and above their existing Mastek shares. Majesco India is proposed to be listed on the BSE and NSE, being exchanges where Mastek is currently listed. Under the proposed restructuring, Mastek will continue with the Solutions business. The Company has obtained the necessary approval for the scheme under Clause 24 (f) of the Listing Agreements with BSE and NSE from SEBI on December 9, 2014 and is in the process of obtaining requisite approval from the respective High Courts.

As the Company's Board has approved the demerger scheme of the Insurance Products and Services business (the "Transferred Undertaking") and an announcement of the same has been made, the Mastek Group has treated the Transferred Undertaking as a discontinuing operation with effect from the proposed appointed date of the scheme i.e April 1, 2014. The demerger will result in transfer of the assets and liabilities and the Indian and global operations relevant to the Transferred Undertaking to Minefields Computers Limited (to be renamed as Majesco Limited), the ultimate holding company of the Transferred Undertaking. The Transferred Undertaking predominately relates to the Insurance business vertical reported under the secondary segment reporting in this consolidated financial statements. The existing shareholders of Mastek will be the shareholders of both the businesses post the demerger, through their shareholdings in two separate listed companies viz. Mastek Limited and Majesco Limited, subject to court and regulatory approvals.

Overview of Industry and Business Environment

Global Economy & IT

The Global economy is expected to grow at a slightly faster but moderately, with world GDP projected to grow by 3.1% in 2015 and 3.3% in 2016 largely driven by expansion of activity in high-income economies. US is expected to grow by 3.3% from 2.3% in 2014. The Euro area remained fragile, while growth is expected to improve to 1.3% from 0.8% in 2014; however the downside risk of slowdown in the Euro economy would remain the major concern.

China, Japan and the UK are expected to have a slightly lower growth in 2015. Many emerging markets are strengthening but the outlook has become more uncertain given the expectation that the US Federal Reserve (Fed) will begin raising interest rates in 2015. Monetary policy is expected to tighten next year in the US and UK.

China's success in steering its economy toward growth with subdued credit expansion, will determine if it avoids a hard-landing.

In India, business and consumer sentiment has improved significantly on expectations of a strong push toward economic reform and liberalization by the new government.

According to the latest forecast by Gartner, Worldwide IT spending is on pace to total \$3.8 trillion in 2015, a 2.4% increase from 3.9% in 2014, largely attributed to the rising U.S. dollar as well as a modest reduction in growth expectations for devices, IT services and telecom services.

In 2014, the global IT-BPM industry witnessed a steady growth; with worldwide spend was US\$ 2.3 trillion, growing at 4.6% over 2013. Global Sourcing grew by 9-10% over 2013. Growth was led by Software Products, IT and BPM services accounting for over US\$ 1.3 trillion – 55% of total spend. While the U.S remained the largest market which grew 4.8%, APAC recorded the highest growth of 5.1%, driven by faster growth in BPM industry services. India continued to hold on to its leadership position in the global outsourcing market with a share of 55% in 2014 mainly due to its ability to continuously evolve over time. (source: Nasscom)

BFSI and Manufacturing continued to gain momentum; emerging verticals like healthcare, communications and media, government were key growth drivers for IT industry during the year.

Insurance Industry

A recent report by IDC reveals that global insurers will increase IT spending to US\$101 billion in 2015, a Year-on-Year increase of 4.4% compared to 2014, with rigorous investments in technologies to boost efficiencies and innovation. Geographically, the cumulated spending for emerging markets is projected to be at US\$19 billion, this will rise at a 3-year CAGR of 6.7% between 2015 to 2018, which is double that of mature nations. In mature nations, the 3-year CAGR is expected to be 3.1% and globally to be 3.8%.

According to Celent report, total insurance IT spending across North America, Europe, Latin America, and Asia-Pacific is expected to grow over US\$162.1 billion in 2014, with continued growth to US\$176.7 in 2016 a CAGR of 4.4%. This upward shift is above last year's estimates and is a result of the cautious upturn in the global economy. The report indicates that Asia-Pacific insurers are expected to increase their IT spend by 12.8% from 2014 to 2016.

The P&C industry appears well on its way to a second year in a row of strong performance. A study by Munich Re expects that until 2020 the P&C insurance market will grow by approximately 50% compared with 2012 to €1.85trillion and the life insurance market by almost two-thirds to €3.1trillion.

The insurance industry has traditionally lagged behind other industries in adapting to and leveraging new technology. Over the last few years, many insurance companies, particularly in the P & C carriers, have been investing heavily in upgrading existing and/or deploying new systems. This has helped them improve their operational effectiveness and efficiency, thanks to new found abilities to more accurately analyze trends and risks

to the business and thereby improve underwriting. Over the last few years, we have seen potential acquirers seek to leverage the technology of target companies. Moreover technology can have a significant impact on valuations as companies seek strategic acquisitions to upgrade their systems.

We are seeing unprecedented investment by insurance carriers in policy administration systems (PAS) transformations. The convergence of ageing legacy platforms, complex market demands, and a more mature vendor landscape has ushered in a unique period in which it is possible for insurance carriers to change their policy administration systems with less risk than before. Carriers that make the change successfully will be well positioned to leap frog larger, better funded competitors thanks to improved product flexibility and timeliness, not to mention lower IT costs.

PAS transformations are benefitting carriers in three main areas: 1) speed to market 2) operational efficiency and 3) IT rationalization. More importantly, modern policy systems also allow carriers to improve the customer and agent experience, support multiple distribution systems, allow a single view of the customer, and enhance analytics capabilities.

Insurers across the globe are taking advantage of data analytics, cloud computing and new modeling software to improve their market segmentation strategies, minimize claims fraud, and fine-tune underwriting and risk management. New technology solutions will make it possible for these firms to optimize processes, increase collaboration internally and externally, and make it easier to demonstrate regulatory compliance.

Indian Market

India is the world's largest sourcing destination for the IT industry, accounting for 52% of the US\$ 124-130 billion market. The Indian IT-BPM sector grew at a CAGR of 25% over 2000-2013, which is 3-4 times higher than the global IT-BPM spend, and is estimated to expand at a CAGR of 9.5% to US\$ 300 billion by 2020 as per NASSCOM.

NASSCOM estimates the revenue of the IT-BPM industry at \$119 billion grew by 12% in FY2015 with export market making up almost \$100 billion. The year witnessed hyper-growth in the technology start-up and software product landscape, India ranking as the fourth largest start-up hub in the world with over 3,100 start-ups in the country. Software products and services revenue for 2015-16 is projected to grow at 12-14%. Industry contribution relative to India's GDP is set to touch 9.5% and share in total services exports more than 38%.

Gartner expects Indian IT spending to reach \$73.3 billion in 2015, up 9.4% from \$67.1 billion in 2014, driven by digital business. The pace of IT spending in India may make it the third-largest IT market in the Asia-Pacific by 2016 and second-largest by 2018, after China, it said.

It further said that new government's emphasis on 'Digital India' initiative and use of technology to deliver citizen services is expected to help IT spending in the government sector in India to grow 5% to touch US\$ 7.2 billion in 2015. For the ongoing year, government IT spending is on pace to total US\$ 6.6 billion.

IT services are expected to grow 10.9% in 2014 to reach US\$ 1.8 billion in 2015, up from US\$ 1.6 billion in 2014, with business process outsourcing segment growing 22% during 2014, report said.

The adoption of key technologies across sectors spurred by the 'Digital India Initiative' could help boost India's gross domestic product (GDP) by US\$ 550 billion to US\$ 1 trillion by 2025, as per research firm McKinsey.

India and U.S have agreed to jointly explore opportunities for collaboration on implementing India's ambitious ₹ 1.13 trillion (US\$ 18.22 billion) 'Digital India Initiative'. The two sides also agreed to hold the US-India Information and Communication Technology (ICT) Working Group in India later this year, this gives new opportunities for growth.

India continues to be the topmost offshoring destination for IT companies followed by China and Malaysia in second and third position, respectively. Emerging technologies present an entire new gamut of opportunities for IT firms in India. Social, mobility, analytics and cloud (SMAC) collectively

MANAGEMENT DISCUSSION AND ANALYSIS (contd.)

provide a US\$ 1 trillion opportunity. Cloud represents the largest opportunity under SMAC, increasing at a CAGR of approximately 30% to around US\$ 650-700 billion by 2020. Social media is the second most lucrative segment for IT firms, offering a US\$ 250 billion market opportunity by 2020.

Mastek in UK

The UK economy has been recovering at a relatively strong rate since early 2013, although there were signs of a slight slowdown in growth in late 2014 due to problems in the Eurozone and other geopolitical uncertainties. The services sector is expected to remain the main engine of UK growth for both output and employment. Manufacturing and construction growth have slowed recently, but should remain positive contributors to overall UK growth in 2015-16.

As we had outlined in our last year's discussion, the G-Cloud platform is a new framework put in place by the UK government which lets small and medium companies bid directly for projects. Mastek has continued to ride the momentum it secured last year with wins in both the insurance and the government vertical apart from a marquee win in the retail segment too.

While there could be a slight lull in decision making in the market due to the elections process in the UK, we believe that the visibility and traction in the market is good and we will continue investing in both the insurance and the services business and are confident of the business delivering in this fiscal.

During the current year, we also entered into a joint venture agreement with "The Law Society" to form a separate company called Legal Practice Technologies (LPT). This company will set up a "Conveyancing Portal" that would completely automate processes which are a part of conveyancing of residential properties. This is another example of a transformational project where we will substantially bring down the cost of conveyancing for lawyers and hence the ultimate users who are the buyers and sellers. Mastek is building the entire software solution for this portal and the project is expected to go live by the end of this year. Given that it will be the only major such portal operating in the UK, we expect to have a significant market share of the conveyancing market over a 2/3 year kind of a timeframe.

Mastek in North America

Mastek operates in the Property & Casualty and the Life and Annuity segment in North America. This is the company's dominant market as far as our portfolio is concerned. The Company is seeing enough traction in this geography and is uniquely positioned to take advantage of the opportunities that would come our way.

In the North American insurance industry, the lines of businesses that spend the most on IT are Life and P&C. P&C insurers account for nearly half of total North American IT spending and are also the biggest buyers of insurance industry outsourcing. On average insurers spend between 3 to 4 percent of their direct written premiums (DWP) on IT.

Insurers of all sizes are looking to better align IT investments with business objectives to address current challenges as well as capitalize on growth opportunities, evidenced by the finding that half of all contract signings during the last three years were made by small/mid-sized insurers.

A survey of CFO's at North American P & C Insurers conducted by professional services company Towers Watson revealed that most of the firms have plans to invest heavily in their businesses in the coming years. About half said they plan to deploy capital in analytics, data or technology-related areas in the next one to two years. Many also intend to invest in enhancing their core data systems and infrastructure in a number of essential operational areas such as pricing, underwriting and product development. Technology presents the greatest challenge to execution for 44% of the respondents.

The Company continues to invest in product development in the P&C space and we further strengthened our practice by Majesco's acquisition of two firms Cover All Technologies, which is listed on the NYSE market and Agile Technologies in the US.

While Cover-All provides P&C insurance professionals a robust state-of-the-art, browser-based family of Policy, Business Intelligence, and Claims solutions designed to deliver products to market faster, enhance quality, ensure compliance, and reduce costs, Agile's strong consulting practice, business process optimization capabilities and additional technology services including data architecture strategy & services adds a complementary fit to our capabilities.

The two acquisitions give us size and scale and one of the key reasons for the acquisition was that it enables us to cross sell our offerings to our enhanced base of over 150 customers in the Insurance domain. The cross selling will manifest itself as strong growth from the insurance vertical in the coming years.

The Company is proud to have 9 of the top 25 P&C insurers as its customers and over 90% of our customers are engaged in active relationships while over 75% of our business in any year comes from existing customers.

Mastek in India and Asia Pacific

India continues to do well though it is a small part of the Company's operation. There has been a good momentum in the Insurance and Government space that we operate in India both in terms of revenues, and in terms of the gross profits from these lines of business.

MANAGEMENT DISCUSSION AND ANALYSIS (contd.)

Review of Financial and Operating Performance

Financial performance review

Continuing on the trend witnessed last year, the current fiscal saw the company improving its revenue base particularly in Insurance products vertical as well as large complex solutions which has grown steadily..

Financials

On a consolidated basis, the Group registered total operating revenue of ₹ 101,258.4 lakhs in FY2015. This represents an annualized growth of 9.7% compared to ₹ 92,302.3 lakhs in FY2014. The Group registered a net profit of ₹ 1,773.1 lakhs in FY 2015 as compare to ₹ 5,179.6 lakhs in FY2014.

Break up of Revenue by regions

Region	Year ended March 31, 2015		Year ended March 31, 2014	
	(₹ in Lakhs)	% of Revenue	(₹ in Lakhs)	% of Revenue
UK	52,788.6	52.1	43,225.73	46.8
North America	40,494.7	40.0	41,949.20	45.4
Others (India/ Asia Pacific)	7,975.0	7.9	7,127.36	7.8
Total Operating Revenue	101,258.4	100	92,302.29	100.00

The North American operations, registered a de-growth of 3.5% to ₹ 40,494.7 lakhs from ₹ 41,949.2 lakhs last year primarily due to 8.21% decrease in revenues from the traditional IT services business and a drop of 8.18% in the insurance vertical linked to a project being put on hold as guided at the beginning of year offset by an increase in P & C Insurance business.

The U.K. operations contributed ₹ 52,788.6 lakhs in revenue as compare to ₹ 43,225.7 lakhs during the corresponding period last year. The increase of 22.1% was led by 28.0 % growth in revenues from the UK government vertical which constituted 53.8 % of UK operations.

The share of total operating revenue of other Regions, i.e. India and Asia Pacific as a percentage of total operating revenue of the Group increased by 0.5%.

Break up of Revenue by verticals

Vertical	2014-15 (₹ in Lakhs)	% of Revenue	2013-14 (₹ in Lakhs)	% of Revenue
Insurance	45,716.0	45.6	44,865.1	45.0
Government	29,902.0	29.8	23,868.1	26.2
Financial Services	11,296.0	11.3	9,732.3	10.6
IT & Other Services	13,282.3	13.3	12,491.3	18.2
Total – IT services revenue	1,00,196.3	100.0	90,956.8	100.0
Other operating revenue	1,062.1		1,345.5	
Total	1,01,258.4		92,302.3	

The key driver for the 1.9% growth in the insurance segment has been the revenues earned from new customers which was partly offset by reduction in revenues from existing customers.

The Government vertical grew by 25.3%, led by growth in business from UK Government Departments.

The Financial Services witnessed an increase of 16%, led by revenues from the Joint Venture Company in the UK and other existing customers in the UK. This was offset by reduction in revenues from customers in North America.

The IT & Other Services grew by 6.3%, led by IT Services provided to new customers.

Profitability

During the year ended March 31, 2015, the Group earned a profit of ₹ 1,773.1 Lakhs as compared to ₹ 5,179.6 lakhs for the year ended March 31, 2014, reflecting a drop of 65.8% largely on account of:

1. Exceptional costs on account of reorganization and merger related expenses of ₹ 1,166.1 lakhs.
2. Share of loss from the Legal Practice Technologies (LPT) JV in the UK region of ₹ 1,127.0 lakhs.
3. Higher product development expenses by ₹ 509.0 lakhs and increase in amortization of expenses by ₹ 119.0 lakhs on account of the acquisition of the insurance consulting business of Agile technologies.
4. And balance due to lower operating margins in the UK region with requirement to service onsite clients with security cleared resources in the government vertical.

Balance Sheet

Non-current Assets

A) Fixed Assets

Tangible assets as at March 31, 2015 were ₹ 6,582.71 lakhs as compared to ₹ 7,251.8 lakhs the previous year. Intangible assets as at March 31, 2015 were ₹ 21,304.3 lakhs as compared to ₹ 18,830.2 lakhs the previous year. This included an addition of ₹ 3,410.0 lakhs on account of Goodwill and purchase of computer software and after considering depreciation of ₹ 1,690.8 lakhs for the 12 month period ended March 31, 2015 and foreign exchange translation adjustment of ₹ 6.3 lakhs.

B) Long-term loans and advances

Long term loans and advances were ₹ 5,329.3 lakhs as compared to ₹ 6,201.4 lakhs as at the end of previous year.

Current Assets

A) Current Investments and Cash and Bank Balances

The total current investments and cash and bank balances as on March 31, 2015 was ₹ 21,425.0 lakhs as compared to ₹ 17,113.3 lakhs in the previous year. The difference was primarily on account of Net cash generated from Operations of ₹ 5,898.29 lakhs, and purchase of fixed assets of ₹ 4,924.9 lakhs made during the 12 month period ended March 31, 2015.

B) Trade Receivables

Trade receivables as at March 31, 2015 stood at ₹ 13,349.0 lakhs as compared to ₹ 11,678.3 lakhs as at March 31, 2014. This is due to increase in the level of business.

C) Short Term Loans and Advances and Other Current Assets

The short term loans and advances was at ₹ 2,547.2 lakhs as at March 31, 2015 as compared to ₹ 2,356.2 lakhs as at March 31, 2014. Other current assets were lower at ₹ 8,899.1 lakhs as at March 31, 2015 as compared to ₹ 9,402.6 lakhs as at March 31, 2014. The decrease was primarily on account of Accrued Revenue of ₹ 6,671.8 lakhs as compared to ₹ 8,797.0 lakhs.

Shareholders' Funds

Total shareholders' funds as at March 31, 2015 stood at ₹ 59,585.5 lakhs as compared to ₹ 56,019.0 lakhs. The increase was mainly on account of

MANAGEMENT DISCUSSION AND ANALYSIS (contd.)

profit for the year of ₹ 1,773.1 lakhs, increase of ₹ 1,849.7 lakhs in Hedging Reserve and ₹ 539.5 lakhs increase in Securities premium account. This was offset by Dividend outflow of ₹ 973.90 lakhs

Non-current Liabilities

The total non-current liabilities stood at ₹ 4,675.8 lakhs as at March 31, 2015 as compared to ₹ 2,617.4 lakhs as at March 31, 2014. The increase was mainly on account of Term Loan availed of ₹ 1,875.0 lakhs and ₹ 693.8 lakhs for Contingent consideration payable on business acquisition. This was partly offset by reduction in provision for gratuity of ₹ 727.2 lakhs.

Current Liabilities

The total of current liabilities as at March 31, 2015 was ₹ 18,907.5 lakhs as compared to ₹ 16,736.57 lakhs as at March 31, 2014. The increase was due to availment of Working Capital Line of Credit amounting to ₹ 918.8 and increase of ₹ 866.2 lakhs and ₹ 1,067.3 lakhs in Trade Payables and Other Current Liabilities respectively. This was partly off-set by reduction in short-term provisions of ₹ 681.3 lakhs.

Operations review

Operational delivery within Mastek has always been a core attribute. The Company aligned the delivery organization to focus on improving the overall productivity and efficiency levels within projects. In the P&C market, Company's PAS technology have been rated higher than its peers including Guidewire and Duck Creek..

The Company continued to invest in product development of the insurance platforms in North America. During the 12-month period ended FY 2014-15, the Company spent ₹ 6,355.0 lakhs as compared to ₹ 5,846.0 lakhs in FY 2013-14.

Client Wins during the year

Mastek added 19 clients during the year and we finished the year at 153_ active clients. The client profile includes some marquee names across the insurance in US and the government organizations in the US & UK.

Update on Board of Directors: The Mastek Board currently has 10 members, of which 6 are Independent Directors and the remaining 4 are Promoter Directors.

Update on Management: Key additions to the senior leadership team within Majesco Insurance Group include:

- Ed Ossie, former President of Innovation Group PLC and an M&A Director at Corum Group, has joined Majesco as Chief Operating Officer. In this role he will be responsible for key growth and operational initiatives besides corporate development and strategy.
- Chad Hersh, best known as a leading insurance industry researcher and analyst having served as a managing director within the insurance research practice at Novarica and a senior analyst at Celent, has joined Majesco as Executive Vice President. In this role, he will lead the life & annuity and group & worksite benefits businesses.
- Bill Freitag, founder and CEO of Agile Technologies, has joined Majesco as Executive Vice President responsible for growing the consulting business.

Update on progress of Demerger

Pursuant to the Scheme of Arrangement (the "Scheme") under Sections 391 to 394 read with Sections 100 to 103 and other applicable provisions, if any, of the Companies Act, 1956 and other applicable provisions, if any, of the Companies Act, 2013, the Board of Directors of Mastek Limited (the "Company" or "Mastek"), in its meeting held on September 15, 2014, had approved the demerger of the Insurance Products and Services business of the Company, into a new company, Minefields Computers Limited ("Minefields"), to be renamed as Majesco Limited ("Majesco India"), to be followed by transfer by Majesco India of the offshore insurance operations business in India to Majesco Software and Solutions India Private Limited

("MSSIPL"), a wholly owned subsidiary of Majesco Software and Solutions Inc., USA ("MSSUS"). The Appointed date of the Scheme will be April 1, 2014 or any other date as decided by the Board of Directors and the appointed date for the offshore insurance operations business transfer will be November 1, 2014 or any other date as decided by the Board of Directors – both these dates will be subject to approval by the Hon'ble High Court of Bombay and Hon'ble High Court of Gujarat. On approval of the Scheme by the respective High Courts, Mastek shareholders will get one equity share of Majesco India for every share held in Mastek, over and above their existing Mastek shares. Majesco India is proposed to be listed on the BSE and NSE, being exchanges where Mastek is currently listed. Under the proposed restructuring, Mastek will continue with the Solutions business. The company has obtained necessary approval for the scheme under Clause 24 (f) of the Listing Agreements with BSE and NSE from SEBI on December 9, 2014 and is in the process of obtaining requisite approval from the respective High Courts.

The Insurance Products and Services business of the Company as well as its investment in Majesco, USA will be transferred to Minefields on approval of the Scheme from the respective High Courts (Collectively the "Transferred Undertakings").

People Strength: As on March 31, 2015, the Company had a total head-count of 3,352 of which about 24.4% were based on-site while the rest were at various offshore locations as compared to a total of 3,123 employees at the end of March 31, 2014. The Company continues to recruit fresh talent and intends to add more technical resources at various levels during the new fiscal.

Interim Dividend: The board recommended a Final Dividend of ₹ 1/- and along with the interim dividend of ₹ 1.50 this amounts to ₹ 2.50 per share.

Awards/Accolades - Mastek, either directly or through its clients was also recipient of many awards in India, notable among those being:

- Mastek ranked 67th in the Leader category in the 'The 2013 Global Outsourcing 100 service providers' list by The International Association of Outsourcing Professional (IOAP)
- Mastek's Elixir Distribution Management(EDM) solution received the Celent's XCelent Service Award, 2013
- Majesco U.S., a subsidiary of Mastek in USA, positioned as a Leader in Gartner's First Magic Quadrant for P&C Insurance Policy Management Modules

BUSINESS OUTLOOK

The demerger is a win-win as the insurance and solutions businesses will get enhanced management focus and operational flexibility apart from independently pursuing their growth plans through organic/inorganic means. The arrangement also creates a platform for both businesses to enhance their financial flexibility.

The two acquisitions on the insurance business will strengthen the overall portfolio of products to cater to the growing market in North America and will enable Majesco to actively compete for larger and more complex assignments in the future.

On the solutions side, Mastek sees traction building up in the UK through the G-Cloud framework. This is largely a UK government initiative to structure smaller deals and procure directly through the small medium players rather than go on for large huge programs which have had a high failure rate which plays to our advantage. On the UK retail front too where apart from a large marquee client, the company has plans to service other Tier-I accounts. On the UK financial services side, the focus is on micro-lending clients.

The Joint Venture with The Law Society of England and Wales (TLS), United Kingdom named Legal Practice Technologies Limited (LPTL) is in the process of building a platform which is a conveyancing portal branded as "Veyo" to be used by solicitors on real estate transactions and it has already garnered sufficient interest from the legal community in the UK. The Veyo portal should do well in terms of getting a good market share of all the real estate transactions happening in the UK

MANAGEMENT DISCUSSION AND ANALYSIS (contd.)

In India, the business was a bit slow last year due to the elections but the new government has announced its intentions of bolstering the IT framework and we do believe that there will be a lot of large unbundled opportunities that Mastek can address.

INTERNAL CONTROL SYSTEMS AND RISK MANAGEMENT

Mastek's systems for internal control and risk management go beyond what is mandatorily required to cover best practice reporting matrices and to identify opportunities and risks with regard to its business operations.

Internal control systems

The Company has mechanisms in place to establish and maintain adequate internal controls over all operational and financial functions. The Company intends to undertake further measures as necessary in line with its intent to adhere to procedures, guidelines, and regulations as applicable in a transparent manner.

Mastek maintains adequate internal control systems that provide, among other things, reasonable assurance of recording the transactions of its operations in all material respects and of providing protection against significant misuse or loss of Company assets. The Company uses an enterprise resource planning (ERP) package that enhances the efficiency of its internal control mechanism.

The Company's internal control systems are supplemented by an internal audit program and periodic reviews by the management. Mastek has appointed an independent audit firm as its Internal Auditors, and the Audit Committee reviews its findings and recommendations at periodic intervals. Mastek's internal control system is adequate considering the nature, size and complexity of its business. Mastek has also put in place a strong enterprise risk management function which oversees the risk management of the Company on an ongoing basis.

Enterprise Risk Management: The primary objective of the Enterprise Risk Management (ERM) function is to:

- Provide a framework that enhances risk response decisions
- Reduce operational surprises and thereby losses
- Identify and manage cross-enterprise risks

The ERM policy, approved by the Board, lays down the risk management process, expected outcomes, governance and reporting structure. The policy also stresses on the importance of having a strong risk culture for ERM to succeed.

Risk Governance Structure: Mastek has put in place a strong risk governance model to ensure risk management principles are followed throughout the organization and a risk culture inculcated. This ERM process and policy is approved by the Governance Committee of the Board and is executed through the Risk Management Committee (RMC) represented by the business and functional heads within Mastek. The RMC is responsible for:

- Being the primary champion of risk management at strategic and operational level
- Setting policy and strategy for enterprise risk management
- Ensuring that risk management policies are implemented with the right spirit through a monitoring mechanism
- Building a risk aware culture within the organization including appropriate trainings
- Informing the Board (through the Audit Committee) about the ERM status & top risks of the Company on a timely basis

Risk Champions: The RMC is supported by the risk champions who are responsible for:

- providing oversight to line managers who manage risk on a day-to-day basis
- promoting risk awareness within their operations
- ensuring that risk management is incorporated right from the conceptual stage of projects / opportunities

- ensuring compliance to the risk management procedures
- providing periodic reports to the RMC.

A discussion of key risks and concerns, and measures aimed at mitigating them, are discussed in the following paragraphs.

Strategic risks: The Company could be susceptible to strategy, innovation, and business or product portfolio related risks if there is any significant and unfavorable shift in industry trends, customer preferences, or returns on R&D investments. Mastek does have the benefit of being very well entrenched with many of its customers, involved in their critical and strategic initiatives. Therefore, client concentration related risks are mitigated to an extent. The Company's investments in intellectual property creation too are being done in a measured manner and are focused more on extending and strengthening existing offerings rather than on new business or end-use/application areas.

Macro-economic risks: Risks emanating from changes in the global markets such as the recent financial meltdown, regulatory or political changes, and alterations in the competitive landscape could affect the Company's operations and outlook. Any adverse movements in economic cycles in the Company's target markets and volatility in foreign currency exchange rates could have a negative impact on the Company's performance. This risk is mitigated to some extent due to the Company's presence in multiple, diverse markets from Europe to Malaysia and India. The Company also takes necessary steps such as forex hedging to mitigate exchange rate risks.

Competition-led risks: Mastek operates in a highly competitive industry, replete with much bigger competitors, in both India and abroad. Shifts in clients' and prospective clients' dispositions could affect its business. While the Company has strong domain expertise, robust delivery capabilities, and significant project experience, there is no guarantee that it will always get the better of competition.

Dependence on Key Personnel: Mastek has one of the best management teams in the industry and this has been a critical enabler of its operating successes. Any loss of personnel through attrition or other means may have an impact on the Company's performance. Mastek does endeavor to have an effective succession plan in place to mitigate these risks.

Client and account risks: The Company's strategy is to engage with a few strategic customers and build long-term relationships with them. Any shift in customer preferences, priorities, and internal strategies can have an adverse impact on the Company's operations and outlook. Mastek does have the benefit of being very well entrenched with many of its customers, involved in their critical and strategic initiatives. Therefore, client concentration related risks are mitigated to an extent.

Contractual, execution and delivery related risks: The Company's operating performance is subject to risks associated with factors that may be beyond its control, such as the termination or modification of contracts and non-fulfillment of contractual obligations by clients due to their own financial difficulties or changed priorities or other reasons. Mastek does have mechanisms in place to try and prevent such situations, as well as insurance cover as necessary.

Acquisition/M&A related risks: Well-considered, properly evaluated and strategic acquisitions form part of the Company's growth strategy. There is no guarantee, however that an acquisition will produce the business synergies, revenues and profits anticipated at the time of entering into the transaction although the Company would undertake all due care and diligence in the process of making any acquisition.

In addition to the aforementioned issues, there are multiple other risk factors that the Company believes it will need to take cognizance of and manage. The Board and management team continually assess the operations and operating environment to identify potential risks and take meaningful mitigation actions.

The Company does take necessary insurance or related cover in cases as necessary.

17. **FAQs on De-merger**

1. **What does the Scheme of Arrangement envisage?**

The Scheme envisages:

- Demerger of Insurance Products and Services Business of Mastek Limited to Minefields Computers Limited (MCL) (to be renamed as Majesco Limited pursuant to the Scheme) with effect from 1st April, 2014.
- Transfer of Offshore Insurance Operations Business of MCL by way of slump sale to MSS IPL with effect from 1st November, 2014.

2. **What is the rationale/reasons for such an arrangement/demerger?**

Insurance Products & Services business is an IP driven business model largely US centric. This business needs investments to capitalize on the large opportunity in US market. At the same time, Vertical Solutions business which is focused in the UK market, need to address newer opportunities and expand the client footprint. Proposed restructuring will enable both the businesses to function independently and focus on their growth plans

3. **Why has the company felt the need to restructure?**

- Businesses are different in terms of business model, growth opportunities, investment required, and, staff profile.
 - o While the Insurance Products & Services business offers us tremendous growth potential, it has high investment requirements in terms of R&D, Brand Building and sales.
 - o The Vertical Solutions business offers steady growth which is more profitable with less investment.
- Combining these businesses under one umbrella has made it difficult for each of these businesses to perform to full potential.
- The differing risk-reward profiles of these two businesses has led to sub-optimal overall performance of the company.
- In order to mitigate these challenges, management has decided to restructure the business

4. **What benefits are expected out of restructuring?**

- Insurance Products & Services business with higher R&D investment and specialized skillsets will be able to gain market leadership. This will lead to higher license revenue and higher profitability.
- Solution enjoys good reputation for delivering complex, green-field programs within UK and Indian government. This restructuring presents an opportunity to focus on building new capabilities and addressing new markets within the vertical solutions business
- Restructuring will provide an opportunity to the shareholders to participate in the business of their choice based on their risk reward profile
- Demerger would facilitate independent value discovery of both the businesses leading to maximization of value for shareholders

5. **What is the share entitlement ratio?**

Every shareholder of Mastek will get 1 share in Minefields Computers Limited for every share held in Mastek and the shareholder will continue to hold the original Mastek share.

6. **What is the appointed date for the transaction?**

The appointed date for the demerger is April 1, 2014

7. **What is the effective date for the transaction?**

Post approval of the scheme of arrangement by the Hon'ble Bombay and the Gujarat High Court the scheme of arrangement is required to be filed with the RoC which is when the scheme will become effective.

8. **Why is the appointed date for the demerger retrospective?**

The decision by the Board of Directors of Mastek to carry out the De-merger was taken in September 2014. Hence, the Appointed date for the demerger is kept as April 1, 2014.

9. **When will the new company get listed?**

Minefields Computers Limited will be listed on the stock exchanges when the Hon'ble Bombay and Gujarat High Court approve the scheme of arrangement and the same is made effective. The listing approval process will take approx. 60-75 days, post the scheme becoming effective.

10. **What will be the composition of the new board?**

The Board of the new company will be decided in due course.

11. **What will be the capital structure of the new company?**

The share capital of the new company (i.e.MCL) will be same as Mastek Ltd.

12. **Are you planning to delist either of these companies post demerger?**

No

2. RESULTS OF OPERATIONS

A) Mastek Consolidated Operations

Financials

On a consolidated basis, the Group registered total operating revenue of ₹ 101,258.39 lakhs for the year ended March 31,

2015 as compared to ₹ 92,302.29 lakhs for the year ended March 31, 2014, i.e. a growth of 9.7%. The Group registered a net profit of 1,773.05 lakhs in the year ended March 31, 2015 as compared to ₹ 5,179.56 lakhs in the year ended March 31, 2014, i.e. a de-growth of 65.8%.

Breakup of the Operating Revenue by regions

Region	Year ended March 31, 2015		Year ended March 31, 2014	
	₹ in Lakhs	% of Revenue	₹ in Lakhs	% of Revenue
UK	52,788.62	52.1	43,225.73	47.5
North America	40,494.73	40.0	41,949.20	45.1
Others (India/Asia Pacific)	7,975.04	7.9	7,127.36	7.4
Total Operating Revenue	1,01,258.39	100.0	92,302.29	100.0

The U.K. operations contributed ₹ 52,788.62 lakhs in total operating revenue as compared to ₹ 43,225.73 lakhs during the year ended March 31, 2014, representing an increase of 22.1%. This was due to 28.0% growth in revenues from the UK government vertical which constituted 53.8% of UK operations.

The North America operations, on the other hand, registered a decrease in its total operating revenue by ₹ 1,454.47 lakhs (3.5%), primarily on account of 8.21 % decrease in revenues from the traditional IT services business and a drop of 8.18% in the insurance vertical linked to a project being put on hold as guided at the beginning of year.

The share of total operating revenue of other Regions, i.e. India and Asia Pacific as a percentage of total operating revenue of the Group increased by 0.5%.

Breakup of the Operating Revenue by Verticals

Vertical	2014-15 (in ₹ Lakhs)	% of Revenue	2013-14 (in ₹ Lakhs)	% of Revenue
Insurance	45,716.4	45.6	44,865.0	49.3
Government	29,902.3	29.8	23,868.1	26.3
Financial Services	11,296.5	11.3	9,732.3	10.7
IT & Other Services	13,281.1	13.3	12,491.4	13.7
Total – IT services revenue	1,00,196.3	100.0	90,956.8	100.0
Other operating Revenue	1,062.1		1,345.5	
Total	1,01,258.4		92,302.3	

The insurance vertical as a proportion to total IT services revenue dropped by 3.7% in FY 2014-15 as compared to the previous year primarily due to the drop in the insurance revenue in North America linked to a project being put on hold at the start of the year. However, in rupee terms the revenues grew marginally by 1.9%. The government vertical witnessed a robust growth in the UK region which resulted in the overall share of revenue growing by 3.5% in FY 2014-15 as compared to the previous year. In rupee terms the government revenue grew at a healthy rate of 25.3% helped by a better exchange rate in FY 2014-15. The IT and other services vertical grew by

6.3% in rupee terms with good growth in the retail clients in the UK region.

Profitability

During the year ended March 31, 2015, the Group earned a profit of ₹ 1,773.1 Lakhs as compared to ₹ 5,179.6 lakhs for the year ended March 31, 2014, reflecting a drop of 65.8% largely on account of:

1. Exceptional costs on account of reorganization and merger related expenses of ₹ 1166.1 lakhs.
2. Share of loss from the Legal Practice Technologies (LPT) JV in the UK region of ₹ 1,127.0 lakhs.
3. Higher product development expenses by ₹ 509.0 lakhs and increase in amortization of expenses by ₹ 119.0 lakhs on account of the acquisition of the insurance consulting business of Agile technologies.
4. And balance due to lower operating margins in the UK region with requirement to service onsite clients with security cleared resources in the government vertical.

Mastek standalone operations

On a stand-alone basis, Mastek reported an operating income of ₹ 66,512.0 lakhs for the year ended March 31, 2015, as compared to ₹ 55,042.7 lakhs for the year ended March 31, 2014. The Company made a Net profit of ₹ 7,438.8 lakhs for the year ended March 31, 2015 as compared to Net Profit of ₹ 2,697.1 lakhs for the year ended March 31, 2014, representing a growth of 176%, on account of higher revenues, better margins on offshore projects in FY 2014-15 and the exceptional loss incurred in the previous year of ₹ 1555.0 lakhs due to provision for other than temporary decline in value of investments in Majesco Canada Limited.

Update on progress of Demerger

Pursuant to the Scheme of Arrangement (the "Scheme") under Sections 391 to 394 read with Sections 100 to 103 and other applicable provisions, if any, of the Companies Act, 1956 and other applicable provisions, if any of the Companies Act, 2013, the Board of Directors of Mastek Limited (the "Company" or "Mastek"), in its meeting held on September 15, 2014, had approved the demerger of the Insurance Products and Services business of the Company, into a new company, Minefields Computers Limited ("Minefields"), to be renamed as Majesco Limited ("Majesco India"), to be followed by transfer by Majesco India of the offshore insurance operations business in India to Majesco Software and Solutions India Private Limited ("MSSIPL"), a wholly owned subsidiary of Majesco Software and Solutions Inc., USA ("MSSUS"). The Appointed date of the Scheme will be April 1, 2014 or any other date as decided by the Board of Directors and the appointed date for the offshore insurance operations business transfer will be November 1, 2014 or any other date as decided by the Board of Directors – both these dates will be subject to approval by the Hon'ble High Court of Bombay and Hon'ble High Court of Gujarat. On approval of the Scheme by the respective High Courts, Mastek shareholders will get one equity share of Majesco India for every share held in Mastek, over and above their existing Mastek shares. Majesco India is proposed to be listed on the BSE and NSE, being exchanges where Mastek is currently listed. Under the proposed restructuring, Mastek will continue with the Solutions business. The company has obtained necessary approval for the scheme under Clause 24 (f) of the Listing Agreements with BSE and NSE from SEBI on December 9, 2014 and is in the process of obtaining requisite approval from the respective High Courts.

The Insurance Products and Services business of the Company as well as its investment in Majesco, USA will be transferred to Minefields on approval of the Scheme from the respective High Courts (Collectively the "Transferred Undertakings").

3. HOLDING AND SUBSIDIARIES

Your Company continues to be the Holding Company of Mastek UK Limited, Majesco USA and newly created Minefields Computers Limited.

During the year under review, as part of the demerger plan approved for the Insurance Products and Services business, Majesco Canada Ltd and Majesco Msc Sdn Bhd, Malaysia, ceased to be the Subsidiary Companies of your Company. Further during the year, Minefields Computers Limited became a subsidiary Company of your Company. Statement containing salient features of the financial statement of subsidiaries/ associate companies/ joint venture are given in Annexure 1

4. INDUSTRY SCENARIO

In FY2016, NASSCOM expects the industry to add revenues of \$20bn to the existing industry revenues of \$146bn. Export revenues for FY2016 is projected to grow by 12-14% and reach \$110-112 bn. Domestic revenues (including ecommerce) for the same period will grow at a rate of 15-17% and is expected to reach \$55-57 bn during the year.

According to Gartner's latest quarter forecast, worldwide IT spending in 2015 is expected to shrink by 1.3%, down from 2.4% growth forecast in last quarter's update; recent depreciation of GBP, Euro and AUD against USD has led to drop in the forecast. On a constant currency basis, growth figure is 3.1%, only off 0.6% from last quarter's update. IT services spending is expected to contract slightly to \$942 bn in CY 2015; down from \$948 bn in CY 2014.

Gartner stated that emphasis on 'Digital India' initiative and use of technology to deliver citizen services is expected to help IT spending in the government sector in India to grow 5% to touch \$7.2 bn in CY 2015.

IT & Outsourcing Trends for the North American Insurance Industry

The past few years have been challenging for the insurance industry as it tries to grow in spite of economic, regulatory and business challenges. Despite these challenges, many industry experts indicate that there are growth opportunities on the horizon. By looking at IT as a strategic enabler, insurers are continuously investing in people, processes, and technologies that can help them streamline operations, improve their value proposition, and support robust growth strategies.

IT Spending: Market Size

The U.S economy continues to recover and the insurance industry witnessed overall business growth in 2013. To capture growth opportunities, insurers are investing in operating technologies that can drive down frictional costs and help them stay ahead. According to a recent industry study by SMA of U.S. insurers, more than 70 percent predict that their IT spending will increase in the next two years. According to Celent, IT spending in the insurance industry across North America was USD 51.1 bn in 2013, contributing approximately 37 percent of the total worldwide insurance IT insurance spending. These figures are expected to reach USD 58.4 billion in 2015 at a CAGR of five percent as North American insurance firms are looking to modernize business systems in a race to address current market challenges.

In the North American insurance industry, the lines of businesses that spend the most on IT are Life and P&C. P&C insurers account for nearly half of total North American IT spending and are also the biggest buyers of insurance industry outsourcing. On average insurers spend between 3 to 4 percent of their direct written premiums (DWP) on IT. Insurers of all sizes are looking to better align IT investments with business objectives to address current challenges as well as capitalize on growth opportunities, evidenced by the finding that half of all contract signings during the last three years were made by small/mid-sized insurers.

A major growth impediment for the entire insurance industry is legacy systems. Many carriers are still running on systems that are 15 to 25 years old that cannot keep up with current evolving business demands. In the past five years, the insurance industry has experienced a new wave of modernizing or replacing policy administration, billing, and claims systems and insurers view this core replacement as an opportunity to position their carrier for the future. Celent reports that replacing core systems is one of the top priorities for insurers and more than 50 percent of North American insurers plan to do this in the next 12 to 18 months.

The insurance industry is also looking to leverage data and analytics to grow bottom line profits. Insurers are investing in internal data and systems capabilities to yield information advantage, improve decision-making capabilities, and streamline business processes such as underwriting, claims, and risk management and compliance. In addition, in an effort to become more customer centric, insurers need to build an agile IT framework that leverages technologies such as mobile, analytics, and cloud computing.

Many insurers have aggressive plans to develop mobile tools for agents and intermediaries that can lead to product innovation, faster time to market, enhancing distribution channels, and improving sales and marketing tactics. Many CIOs are requiring an integrated service delivery model that combines technology solutions, operational excellence, and analytics-led insights.

5. BUSINESS OUTLOOK

The demerger is a win-win as the insurance and solutions businesses will get enhanced management focus and operational flexibility apart from independently pursuing their growth plans through organic/inorganic means. The arrangement also creates a platform for both businesses to enhance their financial flexibility.

The two acquisitions on the insurance business will strengthen the overall portfolio of products to cater to the growing market in North America and will enable Majesco to actively compete for larger and more complex assignments in the future.

On the solutions side, Mastek sees traction building up in the UK through the G-Cloud framework. This is largely a UK government initiative to structure smaller deals and procure directly through the small medium players rather than go on for large huge programs which have had a high failure rate which plays to our advantage. On the UK retail front too where apart from a large marquee client, the company has plans to service other Tier-I accounts. On the UK financial services side, the focus is on micro-lending clients.

The Joint Venture with The Law Society of England and Wales (TLS), United Kingdom named Legal Practice Technologies Limited (LPTL) is in the process of building a platform which is a conveyancing portal branded as "Veyo" to be used by solicitors on real estate transactions and it has already garnered sufficient interest from the legal community in the UK. The Veyo portal should do well in terms of getting a good market share of all the real estate transactions happening in the UK.

In India, the business was a bit slow last year due to the elections but the new government has announced its intentions of bolstering the IT framework and we do believe that there will be a lot of large unbundled opportunities that Mastek can address.

16. EMPLOYEE STOCK OPTIONS

Nature and extent of employee share-based payment plans that existed during the year:

i. Plan III

The Company passed special resolutions at its Annual General Meeting held on September 20, 2004 approving the allocation of 700,000 stock options to the eligible employees of the Company and its subsidiaries.

The Company subsequently established a new scheme in 2004 for granting 700,000 stock options to the employees referred to above, each option representing one equity share of the Company. The exercise price is as governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within two years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over

the vesting period. No options have been granted under the scheme at below market price and consequently, there is no compensation cost in the current year. In April, 2006 the Company issued Bonus Shares in the ratio of 1:1 and the number of unvested and unexercised options and the price of the said options have been adjusted accordingly.

ii. Plan IV

The Shareholders of the Company through Postal Ballot on August 9, 2007 approved the allocation of 1,000,000 stock options to the eligible employees of the Company and its subsidiaries.

The Company subsequently established a new scheme in 2007 for granting 1,000,000 stock options to the employees referred to above, each option representing one equity share of the Company. The exercise price is as governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within two years from the date of vesting. During the year ended June 30, 2011, the Company has extended the vesting period from two years to seven years. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. No options have been granted under the scheme at below market price and consequently, there is no compensation cost in the current year.

iii. Plan V

The Company introduced a new scheme in 2008 for granting 1,500,000 stock options to the employees, each option representing one equity share of the Company. The exercise price as may be determined by the Nomination & Remuneration Committee ("Committee") and such price may be the face value of the share from time to time or may be the Market Price or any price as may be decided by the Committee and will be governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within seven years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the

options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. During the financial year ended June 31, 2011, 50,000 options were granted at price less than the market price. There is no compensation cost in the current year, as the cost of discounted options has been charged off in earlier years.

MASTEK LIMITED

AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF MASTEK LIMITED

Independent Auditors' Report

To the Members of Mastek Limited

Report on the Standalone Financial Statements

1. We have audited the accompanying standalone financial statements of Mastek Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2015, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements to give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit.
4. We have taken into account the provisions of the Act and the Rules made thereunder including the accounting standards and matters which are required to be included in the audit report.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India. Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial

statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2015, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

9. As required by 'the Companies (Auditor's Report) Order, 2015', issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (hereinafter referred to as the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order.

10. As required by Section 143 (3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
- (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on March 31, 2015 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2015 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our knowledge and belief and according to the information and explanations given to us:
 - i. The Company has disclosed the impact, if any, of pending litigations as at March 31, 2015, on its financial position in its standalone financial statements – Refer note 20;
 - ii. The Company has made provision as at March 31, 2015, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer note 6;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2015.

ANNEXURE TO INDEPENDENT AUDITORS' REPORT

Referred to in paragraph 9 of the Independent Auditors' Report of even date to the members of Mastek Limited on the financial statements as of and for the year ended March 31, 2015.

- i. (a) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of fixed assets.
- (b) The fixed assets of the Company have been physically verified by the Management during the year and no material discrepancies have been noticed on such verification. In our opinion, the frequency of verification is reasonable.
- ii. The Company is in the business of rendering services, and consequently, does not hold any inventory. Therefore, the provisions of Clause 3(ii) of the said Order are not applicable to the Company.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms or other parties covered in the register maintained under Section 189 of the Act. Therefore, the provisions of Clause 3(iii), (iii)(a) and (iii)(b) of the said Order are not applicable to the Company.
- iv. In our opinion, and according to the information and explanations given to us, there is an adequate internal control system commensurate with the size of the Company and the nature of its business for the purchase

of fixed assets and for the sale of goods and services. Further, on the basis of our examination of the books and records of the Company, and according to the information and explanations given to us, we have neither come across, nor have been informed of, any continuing failure to correct major weaknesses in the aforesaid internal control system.

- v. The Central Government of India has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company.
- vi. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is regular in depositing the undisputed statutory dues, including provident fund, employees' state insurance, income tax, sales tax, wealth tax, service tax, duty of customs, value added tax, cess and other material statutory dues, as applicable, with the appropriate authorities.
- (b) According to the information and explanations given to us and the records of the Company examined by us, there are no dues of income-tax, wealth-tax, service-tax, duty of customs and cess which have not been deposited on account of any dispute. The particulars of dues of sales tax and value added tax as at March 31, 2015 which have not been deposited on account of a dispute, are as follows;

Name of the statute	Nature of dues	Amount in ₹ Lakhs	Period to which the amount relates	Forum where the dispute is pending
The Maharashtra Value Added Tax Act, 2002	Demand of VAT on provision of software services including interest	152.34 (including interest of ₹ 57.14)	F.Y. 09-10	Joint Commissioner of Sales-tax (Appeals), Mazgaon
The Central Sales Tax Act, 1956	Demand of CST on provision of software services including interest	21.43 (including interest of ₹ 8.04)	F.Y. 09-10	Joint Commissioner of Sales-tax (Appeals), Mazgaon

- (c) The amount required to be transferred to Investor Education and Protection Fund has been transferred within the stipulated time in accordance with the provisions of the Companies Act, 1956 and the rules made thereunder.
- vii. The Company has no accumulated losses as at the end of the financial year and it has not incurred any cash losses in the financial year ended on that date or in the immediately preceding financial year.
- viii. According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of dues to any financial institution or bank or debenture holders as at the balance sheet date.
- ix. In our opinion, and according to the information and explanations given to us, the terms and conditions of the guarantees given by the Company for loans taken by others from banks or financial institutions during the year, are not prejudicial to the interest of the Company.
- x. The Company has not raised any term loans. Accordingly, the provisions of Clause 3(xi) of the Order are not applicable to the Company.
- xi. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud on or by the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

1. General information

Mastek Limited (the 'Company') is a public limited company domiciled in India and is listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). The Company is a provider of vertically-focused enterprise technology solutions and platforms in Insurance (Life, Pensions and General), Government / Public Sector and Financial Services Sectors. Following the Company's decision to demerge its Insurance Products and Services business through a court scheme (Refer note 44), that business has been treated as a discontinuing operation in these financial statements from the proposed appointment date of April 1, 2014.

The Company's offering portfolio includes business and technology services comprising IT Consulting, Application Development, Systems Integration, Application Management Outsourcing, Testing, Data Warehousing and Business Intelligence, Application Security, CRM services and Legacy Modernisation. The Company operates through its offshore software development centres at Mumbai, Pune, Chennai and Mahape and through its subsidiaries / branch in U.S., Canada, U.K. and Asia-Pacific.

2. Summary of significant accounting policies

2.1 Basis of preparation

These financial statements have been prepared in accordance with generally accepted accounting principles in India under the historical cost convention on accrual basis. Pursuant to Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014, till the standards of accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently, these financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 211(3C) [Companies (Accounting Standards) Rules, 2006, as amended] and other relevant provisions of the Companies Act, 2013.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the acquisition of assets / inputs for processing and their realisation in cash and cash equivalents, the Group has ascertained its normal operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

2.2 Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires that the management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements, and the reported amounts of revenue and expenses during the reported year. Actual results could differ from those estimates.

2.3 Tangible assets and depreciation

Tangible assets are stated at cost of acquisition less accumulated depreciation and accumulated impairment losses, if any. Direct costs are capitalized until the assets are ready for use and include inward freight, duties, taxes and expenses incidental to acquisition and installation. Subsequent expenditures related to an item of tangible asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

Losses arising from the retirement of, and gains or losses arising from disposal of tangible assets which are carried at cost are recognised in the Statement of Profit and Loss.

Depreciation on tangible assets is provided on the straight line method, on a pro rata basis, over the estimated useful lives of assets which are not longer than the useful lives prescribed under Schedule II to the Companies Act, 2013, in order to reflect the period over which the depreciable asset is expected to be used by the company. The estimates of useful lives of the assets based on a technical evaluation, have not undergone a change on account of transition to the Companies Act, 2013.

<u>Assets</u>	<u>Useful Life</u>
Buildings	25 - 30 years
Computers	2 years
Plant and equipment	5 years
Furniture and fixtures	5 years
Vehicles	5 years
Office equipment	2 - 5 years
Leasehold land	Lease Term ranging from 95-99 years
Leasehold improvements	5 years or the primary period of lease whichever is less

2.4 Intangible assets and amortization

Intangible assets are stated at cost of acquisition less accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a straight line method over their estimated useful lives as follows:

<u>Assets</u>	<u>Useful Life</u>
Goodwill	3 years
Computer software	1 - 5 years

Expenditure on research is recognised as an expense when it is incurred. Development costs of products are also charged to the Statement of Profit and Loss unless all the criteria for capitalisation as set out in paragraph 44 of AS 26 - 'Intangible Assets' have been met by the Company.

2.5 Impairment of assets

At each Balance Sheet date, the Company assesses whether there is any indication that an asset may be impaired. If any such indication exists, management estimates the recoverable amount. Recoverable amount is higher of an asset's net selling price and value in use. Value in

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2015

(All amounts in ₹ Lakhs, unless otherwise stated)

use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognised in the Statement of Profit and Loss to the extent carrying amount exceeds recoverable amount. Assessment is also done at each Balance sheet date as to whether there is any indication that an impairment loss recognised for an asset in prior accounting periods may no longer exist or many have decreased.

2.6 Investments

Investments that are readily realisable and are intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as Non-current investments. Current investments are carried at cost or fair value, whichever is lower. Non-current investments are carried at cost. However, provision for other than temporary decline in value is made to recognise a decline, other than temporary, in the value of non-current investments, such reduction being determined and made for each investment individually.

Investment property: Investment in buildings that are not intended to be occupied substantially for use by, or in the operations of, the Company, have been classified as investment property. Investment properties are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Refer note 2.3 for depreciation rate used for buildings.

2.7 Foreign currency transactions and translation

Foreign currency transactions of the Company and of its integral foreign branch are accounted at the exchange rates prevailing on the date of the transaction or at an average rate that approximates the actual rate at the date of the transaction. Monetary assets and liabilities are translated at the rate prevailing on the Balance Sheet date whereas non-monetary assets and liabilities are translated at the rate prevailing on the date of the transaction. Gains and losses resulting from the settlement of foreign currency monetary items and from the translation of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Profit and Loss.

In case of forward exchange contracts which are open on the balance sheet date and are backed by receivables, the premium or discount arising at the inception of such a forward exchange contract is amortized as expense or income over the life of the contract. The exchange difference on such contracts is computed by multiplying the foreign currency amount of the forward exchange contract by the difference between a) the foreign currency amount of the contract translated at the exchange rate at the reporting date or the settlement date where the transaction is settled during the reporting period, and b) the same foreign currency amount translated at the latter of the date of inception of the forward exchange contract and the last reporting date. The exchange difference so computed on such contracts is recognised in the Statement of Profit and Loss. Any profit or loss arising on cancellation or renewal of such forward exchange contracts is recognised as income or expense for the year.

2.8 Derivative instruments and hedge accounting

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. The Company designates these hedging instruments as cash flow hedges.

The use of hedging instruments is governed by the policies of the Company which are approved by its Board of Directors.

Hedging instruments are initially measured at fair value, and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised directly in the hedging reserve and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

For derivative financial instruments that do not qualify for hedge accounting, the premium or discount arising at the inception of the contract is amortized as expense or income over the life of the contract. Gains/losses on settlement of transaction arising on cancellation or renewal of such a forward exchange contract are recognized as income or expense for the year.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated, or exercised, or no longer qualifies for hedge accounting. At that time for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in shareholders' funds is retained there until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in hedging reserve is transferred to the Statement of Profit and Loss for the year.

2.9 Employee benefits

(i) Long-term employee benefits

(a) Defined contribution plans

The Company has defined contribution plans for post employment benefits in the form of provident fund, employees' state insurance, labour welfare fund and superannuation fund in India which are administered through Government of India and/or Life Insurance Corporation of India (LIC). The Company also makes contributions towards defined contribution plans in respect of its branch in foreign jurisdiction, as applicable. Under the defined contribution plans, the Company has no further obligation beyond making the contributions. Such contributions are charged to the Statement of Profit and Loss as incurred.

(b) Defined benefit plans

The Company has defined benefit plans for post employment benefits in the form of gratuity for its employees in India. The gratuity scheme of the Company is administered through Life Insurance Corporation of India (LIC). Liability for defined benefit plans is provided on the basis of actuarial valuations, as at the Balance Sheet date, carried out by an independent actuary. The actuarial valuation method used by independent actuary for measuring the liability is the projected unit credit method. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss as income or expense.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2015

(All amounts in ₹ Lakhs, unless otherwise stated)

(c) Other long-term employee benefits

The employees of the Company are also entitled for other long-term benefit in the form of compensated absences as per the policy of the Company. Leave encashment vests to employees on an annual basis for leave balance above the upper limit as per the Company's policy. At the time of retirement, death while in employment or on termination of employment, leave encashment vests equivalent to salary payable for number of days of accumulated leave balance subject to an upper limit as per the Company's policy. Liability for such benefit is provided on the basis of actuarial valuations, as at the Balance Sheet date, carried out by an independent actuary. The actuarial valuation method used by independent actuary for measuring the liability is the projected unit credit method. Actuarial gains and losses are recognised immediately in the Statement of Profit and Loss as income or expense.

(ii) Short-term employee benefits

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees is recognised in the year during which the employee rendered the services. These benefits comprise compensated absences such as paid annual leave and performance incentives.

(iii) Termination benefits

Termination benefits, in the nature of voluntary retirement benefits or those arising from restructuring, are recognised in the Statement of Profit and Loss when the Company has a present obligation as a result of past event, when a reliable estimate can be made of the amount of the obligation and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations.

2.10 Revenue recognition

The Company derives revenues primarily from information technology services. Revenue is recognised in accordance with the terms of the contracts with customers as the service is performed by the proportionate completion method and when it is reasonably certain that the ultimate collection will be made. Revenues on time and material contracts are recognised when services are rendered and related costs are incurred. Revenues on fixed price, fixed time bound contracts are recognised over the life of the contract measured by the proportion that contract costs incurred for work performed up to the reporting date bear to the estimated total contract costs. The cumulative impact of any revision in estimates of the percentage of work completed is reflected in the period in which the change becomes known. Provisions for estimated losses on such contracts are made during the period in which a loss becomes probable and can be reasonably estimated. When the uncertainty, relating to the collectability arises subsequent to the rendering of the service, a separate provision is made to reflect the uncertainty and the amount of revenue originally recorded is not adjusted.

Revenues from maintenance contracts are recognised on a straight line basis over the period of the contract.

Revenues from resale of software and hardware are recognised upon delivery of products to the customer, when the significant risks and rewards of ownership are transferred to the buyer and the ultimate collection is reasonably certain.

Accrued revenue included in 'Other current assets', represents amounts in respect of services performed in accordance with contract terms, not yet billed to customers at the year end. Unearned revenue included in 'Other current liabilities' represents amounts received/billed in excess of the value of work performed in accordance with the terms of the contracts with customers.

2.11 Other income

Dividend income from subsidiaries and on other investments is recognised when the right to receive payment is established. Interest income is recognised on time proportion basis taking into account the amount outstanding and the applicable rate of interest. Rental income is recognised on a straight line basis over the term of the lease as per the terms of the base contract.

2.12 Leases

Assets taken on leases which transfer substantially all the risks and rewards incidental to ownership of the assets to the lessee i.e. finance leases, in terms of provisions of Accounting Standard (AS) 19 – 'Leases', are capitalized. The assets acquired under finance leases are capitalised at the lower of the fair value at the inception of the lease and the present value of minimum lease payments and a liability is created for an equivalent amount. Such assets are disclosed as leased assets under tangible assets and are depreciated in accordance with the Company's depreciation policy described in note 2.3. Each lease rental paid on the finance lease is allocated between the liability and interest cost, so as to obtain a constant periodic rate of interest on the outstanding liability for each period. Other leases are classified as operating leases and rental payments in respect of such leases are charged to the Statement of Profit and Loss on a straight line basis over the lease term. Assets given under operating leases are capitalised in the Balance Sheet under tangible assets and are depreciated as per the Company's depreciation policy described in note 2.3.

2.13 Earnings per share

Basic earnings per share (EPS) are calculated by dividing the net loss / profit after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by adjusting the number of shares used for basic EPS with the weighted average number of shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless they have been issued at a later date. The diluted potential equity shares have been adjusted for the proceeds receivable had the shares been actually issued at fair value i.e. average market value of outstanding shares. The number of shares and potentially dilutive shares are adjusted for share splits and bonus shares, as appropriate. In calculating diluted earnings per share, the effects of antidilutive potential equity shares are ignored. Potential equity shares are anti-dilutive when their conversion to equity shares would increase earnings per share or decrease loss per share.

2.14 Income Taxes

Tax expense for the year comprises of current tax and deferred tax. Current tax is measured by the amount of tax expected to be paid to the taxation authorities on the taxable profits after considering tax allowances and exemptions and using applicable tax rates and laws. Deferred

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2015

(All amounts in ₹ Lakhs, unless otherwise stated)

tax is recognised on timing differences between the accounting income and the taxable income for the year and quantified using the tax rates and tax laws enacted or substantively enacted as on the Balance Sheet date. Deferred tax assets are recognised and carried forward to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets in respect of unabsorbed depreciation or carry forward losses are recognised only to the extent there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. The carrying amount of deferred tax assets is reviewed at each balance sheet date for any write down or reversal, as considered appropriate.

Minimum Alternative Tax (MAT) credit is recognised as an assets only when and to the extent their is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each balance sheet date and the carrying amount of the MAT credit asset is written down to the extent their is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Current tax assets and liabilities are offset when there is a legally enforceable right to set off the recognised amount and there is an intention to settle the asset and liability on a net basis.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing the current tax and where the deferred tax assets and liabilities relate to taxes on income levied by the same governing taxation laws.

2.15 Accounting for Employee Stock Options

Stock options granted to employees of Mastek Limited and its subsidiaries under the stock option schemes established after June 19, 1999 are accounted as per the treatment prescribed by Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 (SEBI guidelines) issued by the Securities and Exchange Board of India (SEBI) and as amended from time to time and the guidance note on Employee Share-based Payments issued by the Institute of Chartered Accountants of India. The intrinsic value of the option being excess of market value of the underlying share immediately prior to date of grant over its exercise price is recognised as deferred employee compensation with a credit to share options outstanding account. The Expense on deferred employee compensation is charged to Statement of Profit and Loss on straight line basis over the vesting period of the option. The options that lapse are reversed by a credit to Expense on Employee Stock Option Scheme, equal to the amortized portion of value of lapsed portion and a debit to share options outstanding account equal to the un-amortised portion.

2.16 Provisions and Contingent Liabilities

Provisions are recognised when the Company has a present obligation as a result of past events, for which it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made. A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Provisions are reviewed regularly and are adjusted where necessary to reflect the current best estimates of the obligation. Where the Company expects a provision to be reimbursed, the reimbursement is recognized as a separate asset, only when such reimbursement is virtually certain.

2.17 Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, demand deposits with banks and other short term highly liquid investments with original maturities of three months or less.

31. Employee Stock Option Scheme

(a) Nature and extent of employee share-based payment plans that existed during the year:

i. Plan III

The Company passed special resolutions at its Annual General Meeting held on September 20, 2004 approving the allocation of 700,000 stock options to the eligible employees of the Company and its subsidiaries.

The Company subsequently established a new scheme in 2004 for granting 700,000 stock options to the employees referred to above, each option representing one equity share of the Company. The exercise price is as governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within two years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. No options have been granted under the scheme at below market price and consequently, there is no compensation cost in the current year. In April, 2006 the Company issued Bonus Shares in the ratio of 1:1 and the number of unvested and unexercised options and the price of the said options have been adjusted accordingly.

ii. Plan IV

The Shareholders of the Company through Postal Ballot on August 9, 2007 approved the allocation of 1,000,000 stock options to the eligible employees of the Company and its subsidiaries.

The Company subsequently established a new scheme in 2007 for granting 1,000,000 stock options to the employees referred to above, each option representing one equity share of the Company. The exercise price is as governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within two years from the date of vesting. During the year ended June 30, 2011, the Company has extended the vesting period from two years to seven years. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. No options have been granted under the scheme at below market price and consequently, there is no compensation cost in the current year.

iii. Plan V

The Company introduced a new scheme in 2008 for granting 1,500,000 stock options to the employees, each option representing one equity share of the Company. The exercise price as may be determined by the Nomination & Remuneration Committee ("Committee") and such price may be the face value of the share from time to time or may be the Market Price or any price as may be decided by the Committee and will be governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within seven years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. During the financial year ended June 31, 2011, 50,000 options were granted at price less than the market price. There is no compensation cost in the current year, as the cost of discounted options has been charged off in earlier years.

iv. Plan VI

The Company introduced a new scheme in 2010 for granting 2,000,000 stock options to the employees, each option representing one equity share of the Company. The exercise price as may be determined by the Committee and such price may be the face value of the share from time to time or may be the Market Price or any price as may be decided by the Committee and will be governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within seven years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. During the year ended March 31, 2015, 256,957 options have been granted under the scheme at below market price. Consequently, the amortised compensation cost for the exercisable options is ₹ 96.06, out of which ₹ 82.67 have been charged to the subsidiaries based on the employees where they are employed and balance of ₹ 13.39 have been charged to the statement of profit and loss during the current year.

v. Plan VII

The Company introduced a new scheme in 2013 for granting 2,500,000 stock options to its employees, employees of its subsidiaries and its Independent Directors, each option giving a right to apply for one equity share of the Company on its vesting. The exercise price as may be determined by the Committee and such price may be the face value of the share from time to time or may be the Market Price or any price as may be decided by the Committee and will be governed by the guidelines issued by SEBI. The scheme is governed by the Employee Stock Option Scheme and Employee Stock Purchase Guidelines issued in 1999 by SEBI and as amended from time to time. The first vesting of the stock options shall happen only on completion of one year from the date of grant and the options are exercisable within seven years from the date of vesting. As per the SEBI guidelines, the excess of market price of the underlying equity shares as of the date of the grant of the options over the exercise price of the option is to be recognized and amortized on a straight line basis over the vesting period. During the year ended March 31, 2015, 46,373 options have been granted under the scheme at below market price. Consequently, the amortised compensation cost for the exercisable options is ₹ 35.69. The entire cost have been charged to the subsidiaries based on the employees where they are employed and Rs. Nil have been charged to the statement of profit and loss during the current year.

Other current liabilities (Refer note 8)	49.56	53.03
	135.22	188.45

33. Income Taxes

- (a) In accordance with the Indian Income Tax Act, the Company has calculated its tax liability after considering Minimum Alternate Tax (MAT). Payments under MAT can be carried forward and set off against future tax liability for a period of ten years. Accordingly, a sum of ₹ 2,694.26 (Previous year ₹ 3,100.53) has been carried forward and shown under 'Long-term loans and advances' (Refer note 13).
- (b) The Company had received tax demands aggregating to ₹ 2,835.05 (including interest of ₹ 853.09) primarily on account of transfer pricing issues for the assessment years 2006-07 to 2011-12. For the assessment year 2006-07 and assessment year 2007-08, the second appellate authority (the Income Tax Appellate Tribunal) has allowed these issues in favour of the company and the income tax authorities have filed an appeal with the Honourable High Court. For the assessment years 2008-09 and assessment year 2009-10, the first appellate authority (the Commissioner of Income tax (Appeals)) has allowed most of these issues in favour of the company. For the assessment years 2010-11 and 2011-12 the matter is pending before the first appellate authority (the Commissioner of Income tax (Appeals)).

Considering the facts, materiality and favourable order of the second appellate authority for assessment years 2006-07 and 2007-08 and the first appellate authority for 2008-09 and 2009-10, the management believes that the final outcome of majority of the above disputes for the remaining years should be in favour of the Company and there should not be any material impact on the financial statements.

34. Derivative Financial Instruments

The Company, in accordance with its risk management policies and procedures, enters into foreign currency forward contracts to hedge against foreign currency exposures relating to highly probable forecast transactions. The Company does not enter into any derivative instruments for trading or speculative purposes. The counter party is generally a bank. These contracts are for a period between one day and two years.

39. Acquisition of Minefields Computers Limited, India

During the year, the Company purchased 10,000 equity shares (including 6 equity shares purchased jointly with other shareholders) of face value of ₹ 10/- each of Minefields Computers Limited ("Minefields") for a total consideration of ₹ 1. Further, the Company has subscribed to 40,000 additional equity shares of Minefields of ₹ 10/- each for a total consideration of ₹ 4. Thus the total shareholding of the Company in Minefields at March 31, 2015 amounts to 50,000 equity shares of ₹ 10/- each for a total consideration of ₹ 5 [Refer note 11(b)].

40. Other than temporary decline in the value of Investment in Majesco Canada Limited, Canada

During the previous year ended March 31, 2014 based on the review of the operations and the expected cash flow of its wholly owned subsidiary, Majesco Canada Limited (Formerly - MajescoMastek Canada Limited), Canada ("MCAN"), the Management of the Company had determined and accounted an other than temporary decline in the carrying value of this investment amounting to ₹ 1,555.01 [Refer note 11(b)].

41. Sale of Investment in Majesco Canada Limited, Canada (formerly MajescoMastek Canada Limited, Canada)

During the year, the Company sold its entire holding of 3,500,000 equity shares of Majesco Canada Limited, Canada ("MCAN") (a wholly owned subsidiary before this sale) to Majesco, USA (a wholly owned subsidiary) for a total consideration of ₹ 439.47. This sale resulted in a gain of ₹ 439.47, as the carrying value of MCAN in the books of Mastek was reduced to nil, considering the provision for other than temporary decline in value of ₹ 1,555 made in earlier year (Refer note 40). The Gain has been included under the heading "exceptional items" in the Statement of Profit and Loss (Refer note 28).

42. Purchase of Investment in Majesco, USA (formerly MajescoMastek, USA)

During the year, the Company purchased 24,765,750 equity shares of Majesco, USA from Mastek (UK) Limited for a total consideration of ₹ 3,024.79 (USD 4,953 K). Subsequent to purchase, Mastek Limited holds 83.5% of Majesco and the balance 16.5% is held by Mastek (UK) Limited.

43. Sale of Investment in Majesco Sdn. Bhd., Malaysia (formerly Mastek MSC Sdn. Bhd., Malaysia)

During the year, the Company sold its entire holding of 11,262,000 equity shares of Majesco Sdn. Bhd., Malaysia ("MSC") (a wholly owned subsidiary before this sale) to Majesco, USA (a wholly owned subsidiary) for a total consideration of ₹ 2,042.94. This sale resulted in a gain of ₹ 599.52 to the Company which has been included under the heading "exceptional items" in the Statement of Profit and Loss (Refer note 28).

44. Pursuant to the Scheme of Arrangement (the "Scheme") under Sections 391 to 394 read with Sections 100 to 103 and other applicable provisions of the Companies Act, 1956 and other applicable provisions of the Companies Act, 2013, the Board of Directors of Mastek Limited (the "Company" or "Mastek"), in its meeting held on September 15, 2014, had approved the demerger of the Insurance Products and Services business of the Company, into a new wholly owned subsidiary, Minefields Computers Limited ("Minefields"), to be renamed as Majesco Limited ("Majesco India"), to be followed by transfer by Majesco India of the offshore insurance operations business in India to Majesco Software and Solutions India Private Limited ("MSSIPL"), a wholly owned subsidiary of Majesco Software and Solutions Inc., USA ("MSSUS"). The Appointed date of the Scheme will be April 1, 2014 or any other date as decided by the Board of Directors and the appointed date for the offshore insurance operations business transfer will be November 1, 2014 or any other date as decided by the Board of Directors – both these dates will be subject to the approval of the Hon'ble High Court of Bombay and Hon'ble High Court of Gujarat. On approval of the Scheme by the respective High Courts, Mastek shareholders will get one equity share of Majesco India for every share held in Mastek, over and above their existing Mastek shares. Majesco India is proposed to be listed on the BSE and NSE, being exchanges where Mastek is currently listed. Under the proposed restructuring, Mastek will continue with the Solutions business. The company has obtained the necessary approval for the scheme under Clause 24 (f) of the Listing Agreements with BSE and NSE from SEBI on December 9, 2014 and is in the process of obtaining requisite approval from the respective High Courts.

As the Company's Board has approved the demerger scheme of the Insurance Products and Services business (the "Transferred Undertaking") of the Company and an announcement of the same has been made, the Company has treated the Transferred Undertaking as a discontinuing operation with effect from the proposed appointed date of the scheme i.e April 1, 2014. The demerger will result in transfer of the assets and liabilities and Indian and global operations relevant to the Transferred Undertaking and the Company's investment in Majesco, USA to Minefields Computers Limited (to be renamed as Majesco Limited), the ultimate holding company of the Transferred Undertaking. The Transferred Undertaking predominately relates to the Insurance business vertical, reported under the secondary segment reporting by the Company in its consolidated financial statements. The existing shareholders of Mastek will be the shareholders of both the businesses post the demerger, through their shareholdings in two separate listed companies viz. Mastek Limited and Majesco Limited, subject to court and regulatory approvals.

The details of carrying amounts of assets and liabilities attributable to the Transferred Undertaking at the Balance Sheet date are as below:

	As at March 31, 2015	As at March 31, 2014

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE REPORT 2014-15

PART- I CLAUSE 49 OF LISTING GUIDELINES

Mastek's philosophy on Corporate Governance is embedded in the rich legacy of ethical governance practices, most of which were implemented before they were mandatorily prescribed by Government under the Companies Act, 2013.

Mastek always believes that sound Corporate Governance is critical for enhancing long-term shareholder value and retaining investor trust.

A Corporation is a congregation of various stakeholders, namely, customers, employees, investors, vendor partners, Government and society. A corporation should be fair and transparent to its stakeholders in all its transactions. This has become imperative in today's globalized business world where corporations need to access global pools of capital, need to attract and retain the best human capital from various parts of the world, need to partner with vendors on mega collaborations and need to live in harmony with the community. Unless a corporation embraces and demonstrates ethical conduct, it will not be able to succeed.

N. R Narayana Murthy Committee has defined Corporate Governance as

"Corporate Governance is beyond the realm of law. It stems from the culture and mindset of management, and cannot be regulated by legislation alone. Corporate Governance deals with conducting the affairs of a company such that there is fairness to all stakeholders and that its actions benefit the greatest number of stakeholders. It is about openness, integrity and accountability. What legislation can and should do, is to lay down a common framework – the "form" to ensure standards. The "substance" will ultimately determine the credibility and integrity of the process. Substance is inexorably linked to the mind set and ethical standards of management."

Mastek has always strived to go beyond the statutory and regulatory requirements of Corporate Governance. Our endeavor is to follow good governance both in letter as well as in spirit.

A. Company's Philosophy

Corporate Governance is a set of systems and practises to ensure that the affairs of the Company are being managed in a way which ensures accountability, transparency, fairness in all its transactions with all its stakeholders in the widest sense. The Company's philosophy of Corporate Governance, that of timely disclosures, transparent accounting policies and a strong and Independent Board, goes a long way in preserving Shareholders' interest, while maximizing long-term shareholder value.

Corporate Governance practised at the Company is not restricted to Board of Directors. It is an approach to Sustainable Development.

Governance Structure

Mastek's Governance structure broadly comprises of the Board of Directors and the Committees of the Board at the apex level and the Management structure at the operational level. This layered structure brings about a harmonious blend in governance as the Board sets the overall corporate objectives and gives direction and freedom to the Management to achieve these corporate objectives within a given framework, thereby bringing about an enabling environment for value creation through sustainable, profitable growth.

CERTIFICATE FROM PRACTISING COMPANY SECRETARY ON COMPLIANCE WITH THE CONDITIONS OF CORPORATE GOVERNANCE UNDER CLAUSE 49 OF THE LISTING AGREEMENT(S)

I have examined the compliance of conditions of Corporate Governance by Mastek Limited for year ended March 31, 2015 as stipulated in Clause 49 of the Listing Agreements of the Company with the Stock Exchanges.

The compliance of the conditions of Corporate Governance is the responsibility of the management. My examination was limited to the procedure and implementation thereof adopted by the Company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of the opinion of the financial statements of the Company.

In my opinion and to the best of my information and according to the explanation given to me, I certify that the Company has complied with the conditions of Corporate Governance as stipulated in the abovementioned Listing Agreements. I state generally that no investor grievances are pending for a period exceeding one month against the Company as per the records maintained by the Share Transfer cum Investor Grievance Committee.

I further state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

CORPORATE SOCIAL RESPONSIBILITY

About Mastek Foundation:

Mastek Foundation is the CSR wing of the company. Founded in 2002, the mission of Mastek foundation is Responsible Receiving, Informed Giving. Inspiring our employees to contribute back to the community by, sensitizing them to the issues and needs of the community and engaging them with the community through volunteering and giving opportunities. The foundation also supports NGOs to scale and build their capabilities through our core skill of IT. Hence the foundation has three clearly defined activities: Build, Engage and Give.

Build

Transformation

Transforming NGOs through Information Technology

This unique initiative by Mastek Foundation has affected numerous lives, both directly and indirectly. The objective of this initiative is to build the IT infrastructure of non-profit organisations. Non-profit organisations make a huge difference to society with their innovative and committed actions, but are held back by their inability to build state-of-the-art information technology infrastructure. This is mainly because of a lack of awareness. NGOs simply don't know how much of an advantage that IT will bring to their organisations.

Mastek Foundation pitched in to help with IT and made a huge difference to these organisations:

- Kherwadi Social Welfare Association (Yuva Parivartan)
- Magic Bus
- Mission of Vision
- TARA Livelihood Academy

Kherwadi Welfare Association (KSWA)

KSWA's main aim is Yuva Parivartan, whose objective is to improve the lives of underprivileged youth through vocational training. It operates in 18 states in India, and requires a strong MIS system to carry out this huge task. KSWA made an attempt to set up such a complex system but failed. Mastek Foundation then stepped in. Under the guidance of Radhakrishnan Sundar and Anil D'sa, senior software professionals, took care of KSWA's IT issues and since then Mastek Foundation has been with KSWA. Recently it developed the following IT system that has helped KSWA impact many young lives:

- A multi-blade server system giving KSWA the ability to scale up to deploy and host multiple applications. Currently managing four live systems
- Release of camp module in IRIS, catering to the future focus approach of KSWA in its quest to provide vocational training to 1 million students annually
- Setting up domain environment at KSWA to ensure effective monitoring and use of expensive resources
- Mail servers at KSWA premises for testing with a view to eliminate dependence on external vendors in email services
- Progressing with YPLE with a target to provide employment to 500,000 youths on a year-to-year basis

Magic Bus India Foundation

The Magic Bus Children programme aims at the holistic development of underprivileged children. It seeks to create positive attitudes and behaviour in three areas -- education, health and gender equality. It also aims to develop the child's socio-emotional skills so that he or she evolves into a confident and competent person, and thus empowering him or her to choose a livelihood and succeeding in it and moving out of poverty.

PEOPLE PRACTICES

2014-15:

Creating an environment that would foster Mastek's ideals and strengthen the vision 2020 through our actions by building empowered teams to set their own goals and free to make the decisions required to unleash their true potential.

We believe that individuals and teams need to stretch beyond their comfort zone to perform, develop and grow. In an endeavor to enable teams to enhance their performance, we are strengthening Empowerment and building an environment of trust where every action is taken with responsibility. As an Organization we are also committed to Individuals and Institutions being the best they can be!

Key Initiatives in the financial year 2014-15 that facilitated us to achieve our Goal:

Strengthening our Culture of Recognition

Every Mastekeer is valuable and we, at Mastek believe that performance needs to be appreciated and encouraged. We continue to recognize and award team / individual performances during our Quarterly Meets, Global Annual Awards, Long Service Awards and Attitude Awards.

Expressions 2015, a recognition initiative at Mastek was launched in a fresh form. A totally different approach was adopted right from the formation of the Cross Functional Team to planning and execution along with a vision of making Expressions more effective so that its valued by Mastekeers. Every event held in EXPRESSIONS 2015 provided a platform for a Mastekeer to appreciate and recognize his/her colleagues and seniors.

EXPRESSIONS 2015 helped not only strengthen the Recognition Culture at Mastek but also added fun to Mastekeers' life. It created bonding across various teams and was a perfect platform for each one to express their gratitude and appreciation for one another.

The more we talk about the events; the less it is! We saw Mastekeers eager to participate in events like **Wall of Fame, Spread a Smile, Attitude Awards**

Engaging & Leveraging our Top Performers through Prism Club

As part of the Prism Club initiative, we continue to design and implement programs that engage our top performers and enable their growth and development.

With a vision to recognize & celebrate the outstanding performance of our top talents, Prism Event 2013 – 14 was held at Mastek, Mahape in September'14 for the Prism Members along with their family members. The event was well received and was widely appreciated by Mastekeers and their families.

Business HR in action @ Mastek

The Business HR team gained significant momentum in this year with the innovative initiatives launched in the last year.

An initiative named 'Reflect' that was introduced last year, which gained momentum and increased participation with involvement of Business and Centers of Excellence Leaders. This provided valuable feedback to identify the scope of improvement in organizational processes and norms to facilitate better jumpstart to new joiners and the necessary handholding was facilitated by the respective COE leaders. This also helped us get in touch with expectations of new joiners and gaps. Work with respective stakeholders to make on-boarding pleasant and more effective.

Talk Tuesdays and Top of Mind, two very innovative methods to understand the pulse of people that was launched last year to bring about a healthy and positive work environment that foster Mastek Values and Culture, gained its full momentum with the project teams. Mastekeers United, an in house sports team worked on various sports extravaganzas amidst high adrenaline with enthusiastic participation and outstanding feedback through the year which executed a successful hat-trick cricket tournament (named Mastek Premier League, MPL3), Indoor sports and LAN games and a Badminton tournament. This gave Mastekeers an opportunity to bond outside work that will help better workplace effectiveness and expand circle of influence. This helped create higher levels of engagement and energy.

Fun & Joy (FnJ) helped achieve high level of engagement across locations and fantastic feedback on various events. Mastek offshore has experienced high level of energy and enthusiasm with fullest of participation in celebrations and competition. Fun & Joy has helped Mastekeers not only rejuvenate from time to time but also encourages talents of all kinds. Highlights of the year have been Diwali Celebrations(celebrated in a unique way by awakening of the gourmet chef within each individual by putting food stalls for Mastekeers to relish), Children's Day , Christmas, Navratri & Women's Day celebrations- to name a few.

Compensation & Benefits and HR Operations

Compensation being an important element in the overall engagement of every employee, the C&B team ensured that the annual global revisions for 2014-15 were very successfully executed, after conducting detailed benchmark study within the industry and releasing the increases in line with average trends. Alongside, the variable pay entitlements FY 13-14 were also released within committed timelines.

Strengthened the awareness of Whistle Blowing mechanism within our Code of Business Conduct & Ethics Policy.

Online module was introduced for creating awareness amongst employees with respect to the policy on 'Sexual Harassment at work place'.

All existing HR Policies related to employee welfare and benefits continue to be reviewed on a periodic basis and changes, wherever required, are incorporated

PEOPLE PRACTICES (Contd.)

Learning & Development @ Mastek

The Learning and Development Journey at Mastek continues to be exciting and innovative with the support of various practitioners, Centres of Excellence. This year again we saw tremendous involvement of our employees in various learning initiatives. Their continuous inputs and recommendations helped us design focused learning events. Their direct involvement in our initiatives like "You Decide Your Training Calendar" helped us coming up with lots of relevant offerings like Liferay, Qlikview, Microsoft BI/DW, ITIL, ASP.NET MVC, UI Technologies like Angular.JS, Kendo UI, Backbone.JS, Trending technology stacks like Microsoft Dynamics CRM, Big data/ Hadoop, Android app development to name a few. All this resulted into significant upturn in training participation.

To list few important initiatives this year,

- ✓ "Beautiful Code" workshops were organized with a specific purpose of making our developer community aware of importance of writing quality code.
- ✓ Learning events were organized around various technology tracks including UI, Microsoft, Agile, Big Data and Testing. There was involvement of practitioners internally as well as from Industry. All these events received enthusiastic participation from employees and there was a real buzz around it and caught the attention of a sizable number of developers
- ✓ There was a good headway towards Enterprise Agile, one of our strategic initiate at org level. The teams focused on making Agile behaviors happen on the ground – with training programs, events to raise awareness around Agility as a way of life, contests around daily stand up and talks.
- ✓ Agile Olympiad was the first Live Quiz show which was held with lot of teams participating. The event gave a different form to learning and created awareness around Agile.
- ✓ There was also a big drive around Agile internal certifications. Today we have almost 75% of our organization trained and certified on Agile.
- ✓ This year too we had lot of focus on Certifications. There were exclusive workshops organized on the popular certifications like PMP, MSP, ITIL, ISTQB and so on. We have also developed internal Selenium certification courses this year with automation being a keyword in testing industry.
- ✓ In the Insurance Domain our emphasis has been on building up our capabilities on the P&C insurance product and toolkit.
- ✓ We launched a new platform "Speakers Café" to all those who want to enhance their ability to present their thoughts, develop skills in a fun environment, games and activities. Speakers Café also launched a program on Grammar essentials which was well received.

All of this has been successful in instilling and enhancing skills and inculcating the desire to learn more. To summarize, 2014-2015 has been an exciting learning year for Mastek. We are now poised to move into a future where we will continue to strive to build a culture of empowered teams and learning organization.

SUSTAINABILITY REPORT

Sustainability Initiatives

Mastek has always considered sustainability from a long term perspective. From the time sustainability initiatives were introduced in the organization in 2009-10, Mastek has consistently taken steps to reduce the carbon footprint through a planned approach which include both short term and long term measures.

Environment Management System

Mastek was certified by Det Norske Veritas (DNV) for the implementation of ISO 14001:2004, an internationally recognized standard for Environment Management System at our Mahape facility in February 2014. The certification is valid for a period of three years and a surveillance audit was conducted by DNV in December 2014 which was cleared successfully.

Health & Safety

Mastek was also certified by DNV for the implementation of OHSAS 18001:2007, an internationally recognized standard for Occupational Health and Safety Management System in February 2014. A surveillance audit was conducted for OHSAS 18001 by DNV in December 2014, which was cleared successfully. The ISO 14001 and OHSAS certifications have been a milestone achievement in our journey on sustainability.

Sustainability Reporting

A long term Sustainability Roadmap has been prepared by which Mastek plans to report voluntarily the initiatives in sustainability on social, economic and environment areas as per GRI G4 guidelines. Mastek has appointed RSM GC to guide and support us for the preparation of this sustainability report. After identifying the gaps, the new policies and procedures will be implemented during FY 2015-16. We expect our first sustainability report as per GRI G4 guidelines to be published in April 2016.

Reduction in Power Consumption

Energy costs have been increasing over the years and account for around 40% of the total facility expenses. We have taken several measures during the last year to reduce our energy costs. We have replaced CFL lighting with LED lighting at our MNDC building at Mahape. This was implemented in July 2014 and we have been able to achieve on an average over 30% savings in the lighting energy consumption.

We have replaced air cooled chillers which provide air conditioning to the MNDC building with the more efficient water cooled chillers. This was a major project which was initiated in 2014. The water cooled chillers are expected to reduce the HVAC energy consumption by around 20%. The usage of VFD on these chillers will help to balance the load on the chillers depending on the air conditioning load in the building, thus leading to better efficiency and lower energy consumption. The new water cooled chillers were commissioned in March 2015 and we expect the savings to be realized with effect from April 2015. The Mastek Millenium Centre building has an aging VRV air conditioning system, which we are planning to replace with new units during FY 2015-16 and FY 2016-17. The new systems will have more environment friendly gas and coolants as against those of the existing units, thereby reaffirming our commitment towards sustainability and reducing impact of our operations on the environment.
