REHABILITATION OF THE COMPANY UNDER THE AEGIS OF BIFR:

The company is a sick industrial company duly declared sick by the Hon'ble Board for Industrial and Financial Reconstruction (BIFR) for its rehabilitation. FUTURE PROSPECTS OF THE COMPANY:

There has been a prolonged slump in the Indian Economy. The GDP growth of Indian Economy was 4.7% and the Industrial output growth contracted to 1.4% (the worst since 1991) in the year 2013-2014. The moderate inflation, fiscal consolidation, comfortable level of foreign exchange reserves, positive policy changes and excitement of investment cycle through restoration of confidence of the investors for the over-hauling of the collapsing infrastructure of Indian Economy are early signs of economic recovery during the year 2014-2015. The production of the company is positively related with the growth of the infrastructure sector. The growth of Indian economy needs quick decisions and speedier implementation for the present pending and coming infrastructure projects. Our company has immense scope from this scenario.

27th Annual Report

MANAGEMENT DISCUSSION AND ANALYSIS:

The Company's assessment performance for the period ended 31.03.2014 and the outlook for the current year are based on the current environment and business situation. However, unforeseen circumstances and those arising from external factors could affect the performance and the results.

(i) Industry Structure and Business Overview:

Infrastructure is the key driver of the Steel Tubes Industry. Liberalization scenario promoted competition and acceptability of the products of the industry which was a net exporter before the international recession. At present, our industrial unit, given its technology, scale of production and location, mainly operates in the Northern region of the country and supply its products to small and medium contracts which are related to water carriage schemes. Fiscal incentives and transport charges are the main external economies to face competition at the location from big players.

(ii) Opportunities and Threats:

India has emerged as one of the largest steel producers in the world. However, the per capita consumption of steel in India is still low as compared to developed countries, providing huge opportunity for growth.

The Company remains alert and updated on the latest technology and product development processes and best practices applied in the area of business risks to control and mitigate the risk of intense market competitive pressure and product liability risks.

(iii) Segment-wise Performance:

The company has business activity within a single primary business segment viz "Longitudinal & Helical Pipes" and is a single geographical segment.

(iv) Financial & Operational Performance

Balance of Profit/(Loss) brought forward	(1514.87)	(1320.11)
Balance of Profit/(Loss) carried to Balance Sheet	(1658.26)	(1504.18)

During the year under review, the Company has recorded a Profit before Interest, Depreciation & Tax of Rs.69 lacs as compared to a loss of (Rs.48.24 lacs) in the previous year. An Extra-Ordinary expenditure was incurred on account of payment of Rs.74.97 Lacs to the Director General Foreign Trade, Mumbai on account of settlement of export obligation against advance Licences No. 0003030886, 0310061733 & 0310093657 under the policy of Ministry of Finance, Department of Revenue, Central Board of

Excise & Customs, New Delhi for option to close cases of default in Export Obligation. The Loss after tax is Rs.143.39 lacs as compared to Rs.184.07 lacs in the previous year. The current year figures are influenced by lower economic growth, persistent high inflation, global economic slowdown and high fiscal deficit which have significantly impacted domestic industrial production, foreign investment inflows and overall market sentiments yet the current year results have a little improvement in the reduction of operational loss as compared to the previous year. The emerged industrial structure of our unit is financially challenging. The increasing cost and decreasing revenue has badly affected the profitability and cost competitiveness.

The Company caters to infrastructure sector and due to slow down in developmental expenditure in this sector; the sales of the Company have declined considerably due to lack of orders. This has been a challenging year. The operational business of your Company has also been adversely affected by increasing cost and falling revenue from the sale of the products of the company. The fall in GDP, especially in manufacturing and infrastructure sectors; recession in domestic & international markets has generated a cascading effect to squeeze the demand for the business of the Company.

(v) Internal Control Systems:

The Standard Operating Policy, Procedures and Guidelines are issued from time to time to achieve best Practices for adequate control in regard to operations of the Company.

Comprehensive internal audit is also carried out by an independent internal auditor to ensure Compliance and identify weaknesses in the system.

(vi) Human Resources & Industrial Relations:

The industrial relations continued to be harmonious and cordial providing an atmosphere conducive to sustenance of growth and enhancement of value for shareholders.

(vii) Health and Safety:

(viii) Conclusion:

The Company is hopeful to break through into new business and is looking various avenues for the same.

(ix) Cautionary Statement:

Some of the statements contained within this report may be forward looking in nature and may involve risks and uncertainties. Actual Result and Outcomes in future may vary materially from those discussed herein. Factors that may cause such variances include, but are not limited to management of growth, market acceptance of Company's product and services, risk associated with new product version, dependence on third party relationship and the activities of competitors.
