Information regarding Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo pursuant to Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988 and forming part of Directors' Report.

A. CONSERVATION OF ENERGY

Energy conservation is a very important part of energy planning and its management. This not only saves energy resources for future but also avoids wasteful utilization of energy. Energy conservation initiatives provide solution to the energy crisis, environmental degradation and pollution.

New energy initiatives give greater reliance on non-exhaustible and non-conventional resources of energy in order to conserve exhaustible & conventional resources like coal, petroleum, natural gas etc. Another aspect of energy conservation is to give greater importance on reduction in consumption of energy.

This can be achieved by inculcating change in the individual habits and adoption of latest technology available in vogue. There is a growing gap between supply and demand of electrical power. Needless to say the use of fossil fuels is accompanied with severe and several environmental damages. Due to the liberalization measures of the Government of India, the industrial sector is rapidly growing, thus increasing the energy demand enormously.

In the short run, the only solution to the growing energy deficit is to facilitate good energy saving measures through conservation of power, fuel and water. As industries are the major gutters/ consumers of these resources, the onus should lie on the industrial sector to limit & minimize its demand for energy. The need of the hour is to conserve and preserve the energy resources for future of the mankind.

Your Company is not covered in the Schedule of Industries under rule 2 of the Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988, requiring furnishing of information relating to conservation of energy. However realizing its importance, the Company has launched a concerted drive for conserving energy. Replacement of worn out wires, control of idle running of engines, and plugging of leakage were some of the measures taken. Besides the measures already taken, efforts are continuing to examine and implement fresh proposals for further conservation of energy. Positive impact of measures already taken has been observed on the costs.

B. TECHNOLOGY ABSORPTION

- a) Company has indigenously developed moulds thereby saving precious foreign exchange.
- b) The technology imported from Japanese and French Collaborators has been well absorbed by the Company and is being updated on a regular basis by keeping abreast of the latest developments in the field.

1. SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Preparation of Financial Statements

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values. GAAP comprises mandatory accounting standards as prescribed under Section 133 of the Companies Act, 2013 ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014, the provisions of the Act (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

B. Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of financial statements and the reported amount of revenues and expenses during the reporting period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from these estimates. Any revision to the accounting estimates is recognized prospectively in the current and future periods.

2. Valuation of Inventories

	Classification	Valuation Method and Cost Formula
A.	Finished Products	At cost or net realizable value whichever is lower.
B.	Raw Material	At cost or net realizable value whichever is lower.
		Cost is ascertained on First In First Out (FIFO) basis.
C.	Stores and Spare Parts	At cost or net realizable value whichever is lower. Cost is ascertained on FIFO basis.
D.	Recyclable Waste	At cost (after recycling) or net realizable value whichever is lower on FIFO basis.
E.	Packing Material & Fuel	At cost or net realizable value whichever is lower. Cost is ascertained on FIFO basis.
G.	Goods in Transit	At cost or net realizable value whichever is lower on specific identification method.

Cost includes Purchase Cost, cost of conversion and other costs incurred in bringing the inventories to their present location and conditions (inclusive of VAT, Excise and other taxes, wherever not recoverable).

Net realizable value is the estimated selling price less the estimated cost necessary to make the sale.

3. Cash & cash equivalents

Cash and cash equivalents in the 'Cash Flow Statement' comprise cash at bank and in hand and short term investments with an original maturity of three months or less.

4. Cash Flow Statement

Cash Flow Statement' has been prepared using indirect method where net profit has been adjusted for effect of non cash nature, any deferrals or accrual of past or future operating cash receipts and payments, and item of income and expenses associated with investing and financing cash flows. The cash flow from operating, investing and financing activities are segregated.

5. Prior period items & extraordinary items

Prior period items & extraordinary items are separately classified, identified & dealt with as required under Accounting Standard- 5 on 'Net Profit & Loss for the period, Prior period items & Changes in accounting policies'.

6. Depreciation

Depreciation on fixed assets is provided as per the Schedule-II of the Companies Act, 2013. As per this Schedule the carrying amount of the asset as on 1 April 2014—(a) shall be depreciated over the remaining useful life of the asset (as defined in the schedule-II) ;(b) after retaining the residual value, shall be recognised in the opening balance of retained earnings where the remaining useful life of an asset is nil.

7. Revenue Recognition

Revenue is recognized only when it can be reliably measured and it is reasonable to expect ultimate collection. Sales of goods: Sale are recognized when substantial risks and rewards of ownership in the goods transferred to the buyer, usually on delivery of the goods. Turnover includes sales of goods & excise duty (net of sales returns, sales tax/ value added tax).

Other Income: Interest income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable

8. Fixed Assets

Fixed Assets are stated at historical cost. All costs up to the stage of commercial production including pre-operative expenses, adjustments arising from exchange rate variations relating to borrowings attributable to the fixed assets, are capitalized. Cost includes related taxes, duties, freight, insurance etc. attributable to acquisition and installation of assets and borrowing cost incurred up to the date when the assets are ready for its intended use, but excludes duties and taxes, which are recoverable subsequently from taxing authorities.

9. Accounting for Government Grants

Capital Grants received on account of Capital Investment are credited to Capital Reserve.

10. Investments

Investments are classified into current and Non Current investments. Current investments are stated at the lower of cost and fair value determined on each category of investments. Non Current investments are stated at cost. Provision for diminution in value is made if the decline is other than temporary in nature.

11. Employee Benefits

a) Short Term Employee Benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Short term employee benefits, including accumulated compensated absences, at the balance sheet date, are recognized as an expense as per the Company's scheme based on expected obligations on undiscounted basis.

b) Long Term Employee Benefits Defined Contribution Plans

The state government provident fund scheme and employee state insurance scheme are defined contribution plans. The contribution paid/payable under the scheme is charged to Profit and Loss Account during the period in which the employee renders the related service.

c) Defined Benefits Plans

Gratuity and Leave Encashment is a defined benefit obligation. The present value of obligation under such defined benefit plans is determined based on actuarial valuation as at the balance sheet date, using the 'Projected Unit Credit Method', which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. Actuarial gains/losses are recognized in the financial statements.

12. Borrowing Cost

Borrowing costs are capitalized as part of the cost of qualifying assets when it is possible that they will result in future economic benefits and the cost can be measured reliably. Other borrowing costs are recognized as an expense in the period in which they are incurred.

13. Segment Reporting

The Company is engaged in the business of Manufacturing & Reselling of Plastic Bottles, Jars, Containers, and Pre-forms & its Caps. Based on the guiding principles given in the Accounting Standard-17 Segment Reporting issued by The Institute of Chartered Accountants of India, the said AS is not applicable to the Company during the year.

14. Lease Financial Lease

a) Assets acquired under leases where the company has substantially acquired all the risks and rewards of ownership are classified as finance leases. Such assets are capitalized at the inception of the lease at lower of the fair value or present value of minimum lease payments and a liability is created for an equivalent amount.

- b) Each lease rental paid is allocated between the liability and interest cost, to obtain a constant periodic rate of interest on the outstanding liability for each period.

Operating Lease

- c) Assets acquired under leases where a significant portion of the risks and rewards of ownership are retained by the lesser are classified as operating leases. Lease rental are charged to profit and loss account on accrual basis.

15. Earnings per share (EPS)

The basic and dilutive earnings / (loss) per share is computed by dividing the net profit / (loss) attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year. Dilutive earnings per share are computed and disclosed after adjusting the effects of all dilutive potential equity shares, if any, except when the results will be anti-dilutive.

16. Taxes on income

Provision for current tax is determined on the income for the year chargeable to tax as per the provisions of Income Tax Act, 1961.

Provision for deferred tax is recognized on timing differences arising between the taxable income and accounting income that originates in one period and are capable of reversal in one or more subsequent periods using the tax rates and law enacted or substantively enacted as on the Balance Sheet Date.

Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognized if there is virtual certainty that there will be sufficient future taxable income available to realize such losses. Other Deferred tax assets are recognized, if there is reasonable certainty that there will be sufficient future taxable income available to realize such assets.

17. Impairment of assets

As at the balance sheet date, the carrying amount of assets is tested for impairment to determine:

- a) The provision for impairment, if any, required, or
- b) The reversal, if any required of impairment loss recognized in previous periods.
- c) Impairment loss is recognized when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined as below:
 - a) In case of an individual asset, at higher of the net selling price or the value in use.
 - b) In case of cash generating unit (a group of assets that generates identified, independent cash flows) at higher of the cash generating unit's net selling price or value in use.

(Value in use is determined as the present value of estimated future cash flows from the continuing use of an asset and from its disposal at the end of its useful life.)

18. Provisions, contingent liabilities and contingent assets

Provisions are recognized only when there is a present obligation as a result of past events and when a reasonable estimate of the amount of obligation can be made. Contingent liability is disclosed for (a) possible obligation which will be confirmed only by future events not wholly within the control of the company or (b) present obligations arising from past events where it is probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made. Contingent assets are neither recognized nor disclosed in the financial statement.

- 19. The loss on chit is accounted for on accrual basis. The same is estimated based on excepted cash Outflow during the tenure of chits.

“Annexure A” to the Independent Auditor’s Report of even date on the Consolidated Financial Statements of Innovative Tack Pack Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

i. In conjunction with our audit of the consolidated financial statements Innovative Tack Pack Limited as of and for the year ended March 31, 2016. We have audited the internal financial controls over financial reporting of Innovative Tack Pack Limited (hereinafter referred to as “the Holding Company”) except its subsidiary company as of that date.

Management’s Responsibility for Internal Financial Controls

ii. The respective Board of Directors of the Holding Company, its subsidiary, which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India” These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

- iii. Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.
- iv. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
- v. We believe that the audit evidence we have obtained for the Holding Company except its subsidiary company is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company’s internal financial controls system over financial reporting.

Meaning of Internal financial control over financial reporting

vi. A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

vii. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

viii. 1.1 SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Preparation of Financial Statements

The Consolidated financial statements (CFS) of the Group have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Group has prepared these financial statements to comply in all material respects with the Accounting Standards notified under section 133 of the Companies Act 2013, read together with Rule 7 of the Companies (Accounts) Rules 2014. The financial statements have been prepared on an accrual basis and under the historical cost convention.

In the preparation of these Consolidated Financial Statements, investment in Subsidiaries and Associates have been accounted for in accordance with Accounting Standards (AS) 21, Consolidated Financial Statements and Accounting Standards (AS) 23, Accounting for Investments in Associates in Consolidated Financial Statements. The Consolidated Financial Statements have been prepared on the following basis;

- (i) Subsidiaries have been consolidated on a line-by-line basis by adding together the book values of the like items of assets, liabilities, income and expenses, after eliminating all significant intra-group balances and intra-group transactions and also unrealized profits or losses, except where cost cannot be recovered if any.
- (ii) The difference of the cost to the Company of its investment in subsidiaries in the equity of the investee company as at the date of acquisition of stake is recognized in the financial statements as Goodwill or Capital Reserve, as the case may be.
- (iii) The difference between the proceeds from disposal of investment in subsidiaries and the carrying amount of its assets less liabilities as of the date of disposal is recognised in the consolidated Profit and Loss Statement being the profit or loss on disposal of investment in subsidiary.
- (iv) Minorities' interest in net profit of consolidated subsidiaries for the year is identified and adjusted against the income in order to arrive at the net income attributable to the shareholders of the Company. Their share of net assets is identified and presented in the Consolidated Balance Sheet separately. Where accumulated losses attributable to the minorities are in excess of their equity, in the absence of the contractual obligation on the minorities, the same is accounted for by the holding company.
- (v) Investment in entities in which the Group has significant influence but not the controlling interest, are reported according to the equity method i.e. the investment is initially recorded in at cost. The carrying amount of the investment is adjusted thereafter for the post acquisition change in the Company's share of net assets of the associates. The consolidated statement of profit and loss includes the Company's share of the result of the operations of the associate.
- (vi) As far as possible, the CFS have been prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's standalone financial statements.

The difference between the proceeds from disposal of investment in subsidiary and the carrying amount of its assets less liabilities as of the date of disposal is recognized in the consolidated statement of profit & loss as the profit or loss on disposal of investment in subsidiary.

B. Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of financial statements and the reported amount of revenues and expenses during the reporting period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from these estimates. Any revision to the accounting estimates is recognized prospectively in the current and future periods.

1.2 Valuation of Inventories

	Classification	Valuation Method and Cost Formula
A.	Finished Products	At cost or net realizable value whichever is lower.
B.	Raw Material	At cost or net realizable value whichever is lower.
		Cost is ascertained on First In First Out (FIFO) basis.
C.	Stores and Spare Parts	At cost or net realizable value whichever is lower. Cost is ascertained on FIFO basis.
D.	Recyclable Waste	At cost (after recycling) or net realizable value whichever is lower on FIFO basis.
