## **SIGNIFICANT ACCOUNTING POLICIES**

### **I. Principles of consolidation**

- a) The financial statements of the Company and its Subsidiary Company are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions resulting in unrealised profits or losses in accordance with Accounting Standard (AS) 21 - "Consolidated Financial Statements".
- b) The difference between the cost of investment in the subsidiaries, over the net assets at the time of acquisition of shares in the subsidiaries is recognised in the financial statements as Goodwill or Capital Reserve as the case may be.
- c) Minority Interest's share of net profit of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company.
- d) Minority Interest's share of net assets of consolidated subsidiaries is identified and presented in the consolidated balance sheet separate from liabilities and the equity of the Company's shareholders.
- e) The Company accounts for its share in the change in the net assets of the Subsidiary, post acquisition, after eliminating unrealised profits and losses resulting from transactions between the Company and its associates to the extent of its share, through its Statement of Profit and Loss to the extent such change is attributable to the Subsidiary's Statement of Profit and Loss and through its reserves for the balance, based on the available information.
- f) The difference between the cost of investment in the Subsidiary and the share of net assets at the time of acquisition of shares in the Subsidiary is identified in the financial statements as Goodwill or Capital Reserve as the case may be.
- g) As far as possible, the consolidated financial statements are prepared using uniform accounting policies for similar transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

Employee Stock Options are evaluated and accounted on intrinsic value method as per the accounting treatment prescribed by Guidance Note on 'Accounting for Employee Share-based payments' issued by Institute of Chartered Accountants of India (ICAI) read with Securities and Exchange Board of India (SEBI) (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines 1999 issued by SEBI. The excess of market value if any, of the stock options as on the date of grant over the exercise price of the options is recognized as deferred employee compensation and is charged to the Statement of Profit and Loss on vesting basis over the vesting period of the options. The un-amortized portion of the deferred employee compensation is reduced from Employee Stock Option Outstanding, which is shown under Reserves and Surplus.

**l) Revenue recognition:**

- i. Sales are recognized net of returns, trade discounts, rebates and include excise duty on manufactured products.
- ii. Revenue in respect of export sales is recognized on shipment of products.
- iii. Service Income (Processing Charges) is recognized pro-rata over the period of the contract as and when services are rendered.
- iv. Export incentive benefits consist of duty drawback, high value added licenses and DEPB entitlements. These are recognized on the basis of receipt of proof of export.
- v. Interest is recognised on time proportion basis.
- vi. Dividend Income is recognised when the right to receive the same is established.

**m) Employee Benefits:**

- i) Short term employee benefits are recognised as expenses at the undiscounted amounts in the Statement of Profit & Loss of the year in which the related service is rendered.
- ii) Post employment and other long term employee benefits are recognised as an expense in the Statement of Profit & Loss for the year in which the employee has rendered services. The expenses are recognised at the present value of the amounts payable determined using actuarial valuation techniques, with effect from April, 2014. Actuarial gains and losses in respect of post employment and other long term benefits [net of expected return on plan assets] are charged to the Statement of Profit & Loss.

**n) Foreign Currency transactions:**

**o) Taxes on Income:**

- i) Provision for income tax (current tax) is determined on the basis of the taxable income of the current year in accordance with the Income Tax Act, 1961.
- ii) Deferred tax is recognised in respect of deferred tax assets (subject to the consideration of prudence) and deferred tax liabilities on timing differences, being the difference between taxable income and accounting income that originate in one year and are capable of reversal in one or more subsequent years.
- iii) Minimum Alternate Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period.

In the year in which the Company recognises MAT credit as an asset in accordance with the Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of credit to the statement of profit and loss and shown as "MAT Credit Entitlement".

The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the Company does not have convincing evidence that it will be able to utilise the MAT Credit Entitlement within the period specified under the Income-tax Act, 1961
