MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW:

The Indian pharmaceutical market is the third largest in terms of volume and thirteenth largest in terms of value. Branded generics dominate the pharmaceutical market, constituting nearly 70 to 80 percent of the market. India is the largest provider of generic drugs globally accounting for 20 percent exports in terms of volume. Of late, consolidation has become an important characteristic of the Indian pharmaceutical market as the industry is highly fragmented. The Indian pharma industry, which is expected to grow over 15 per cent per annum between 2015 and 2020, will outperform the global pharma industry, which is set to grow at an annual rate of 5 per cent between the same period. The market is expected to grow to 55 billion \$s by 2020, thereby emerging as the sixth largest pharmaceutical market globally by absolute size. India has also maintained its lead over China in pharmaceutical exports with a year-on-year growth of 7.55 per cent to 12.54 billion \$s in 2015, according to data from the Ministry of Commerce and Industry.

Overall drug approvals given by the US Food and Drug Administration (USFDA) to Indian companies have nearly doubled to 201 in FY 2015-16 from 109 in FY 2014-15 an increase of 84 per cent as per analysis by USFDA.

The country accounts for the second largest number of Abbreviated New Drug Applications (ANDAs) and is the world's leader in Drug Master Files (DMFs) applications with the US. Indian drugs are exported to more than 200 countries in the world, with the US as the key market. Generic drugs account for 20 per cent of global exports in terms of volume, making the country the largest provider of generic medicines globally and expected to expand even further in coming years. Pharmaceutical Exports Promotion Council (Pharmexcil) expects pharmaceutical exports to reach 25 billion \$s in 2015.

The Government of India plans to set up a 640 million \$s venture capital fund to boost drug discovery and strengthen pharmaceutical infrastructure. The 'Pharma Vision 2020' by the government's Department of Pharmaceutical aims to make India a major hub for end-to-end drug discovery. There are plenty of Opportunities for bulk drugs industry. Our Company is making facilities to gain over the opportunities in the manufacturing of bulk drugs.

PRODUCT WISE PERFORMANCE:

S. S. Organics Limited is strong in manufacturing of anti ulcerative and anti bacterial drugs. The Company is doing contract manufacturing work for APL and also having its own production. To minimize the working capital requirement and to have consistent income, it is necessary to continue contract manufacturing work till the Company gets working capital limits from any Bank. This contract manufacturing helps the Company to meet major operational expenses of the company. Company has been doing contract manufacturing work with APL for manufacturing of Cirprofloxacin HCL from Q-Acid and Company is manufacturing Pantapazole Sodium and Gabapentine for Own Production.

RISKS AND CONCERNS

The company is no exception to the competition from the market, new technologies and stringent patent laws. The Company has already identified such risks and trying to counter them over a period of time.

All the transactions are authorized, recorded and reported correctly. The internal control system provides for well documented policies, guidelines, authorizations approvals and procedures. The significant observations, made in internal audit reports, along with the status of action thereon are reviewed by the Audit Committee of the Board of Directors on a regular basis for future appropriate action, if deemed necessary.

FINANCIAL PERFORMANCE:

Since the Company has started its commercial production in the month of July 2015 after fire accident, it is in the process of stabilizing the manufacturing and marketing. Revenue from operations and operating income is less when compared to the amount of expenditure which is due to fire accident on 07.01.2015. Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013
("the Act")

We have audited the internal financial controls over financial reporting of S S Organics Limited as of 31 March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
