MANAGEMENT DISCUSSION AND ANALYSIS REPORT

SOCIO-ECONOMIC ENVIRONMENT

The global economy remained on a decelerating trend in 2016 growing by 3.1% compared to 3.4% in 2015 (as per latest IMF estimates). This marks the slowest pace of expansion since the global financial crisis in 2009 and the fifth successive year that the global economy has grown at a rate lower than its long-term average of 3.6% p.a. It is anticipated that the global economy will perform better and grow by 3.5% in 2017 and improve further to 3.6% in 2018, on the back of synchronized growth momentum in Advanced as well as Emerging Economies.

The Indian economy witnessed another challenging year with Real GDP growth pegged at 7.1% representing a sharp slowdown over 2015-16 (7.9%). The Industry and Services sectors decelerated further during the year, recording the slowest growth in three years. On the positive side, India remains the fastest growing major economy in the world. During the year, there was significant improvement on the 'twin deficit' front. Fiscal Deficit is estimated to be contained within target at 3.5% of GDP in 2016-17 (against 3.9% in 2015-16) aided by buoyant tax collections and decline in oil subsidies. While growth in Wholesale Price Index (WPI) for 2016-17 stood at 1.7% compared to a decline of 3.7% in 2015-16, this was mainly attributable to the base effect of low fuel and commodity prices. Consumer Price Index (CPI) for 2016-17 declined to 4.5% against 4.9% in 2015-16 with Core CPI remaining stable at 4.7% in 2016-17 (4.6% in 2015-16). As per median estimates, based on the Survey of Professional Forecasters conducted by RBI, the Gross Value Added (GVA) of the Indian economy is likely to grow by 7.3% in 2017-18 (6.7% in 2016-17). The proposed implementation of the Goods and Services Tax (GST) with effect from 1st July, 2017 is expected to transform the indirect tax landscape in the country and accelerate economic growth in the long run by simplifying the tax structure, enhancing tax compliance. The proposed implementation of the Goods and Services Tax (GST) is expected to transform the indirect tax landscape in the country and accelerate economic growth in the long run by simplifying the tax structure, enhancing tax compliance and facilitating the ease of doing business in a unified common market.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Tea Division

The division continues to grow from strength to strength through its special emphasis on "Quality" of its produce and is now recognized as one of the "Top Quality Tea Producer" in the industry. Crop on the other hand, is also on an increasing trend with its planned uprooting, replanting & rejuvenation programme each year, projecting a long term sustainability / viability. With various certifications (viz. FSSAI, Trustea, Rainforest Alliance, UTZ, ISO 9001 & 22000, HACCP etc.), market penetration with Green, Specialty & Flavored teas (both domestic & international) and e-commerce outlets; the division constantly endeavors to enhance its brand equity as well as value addition.

Electrical Division

The rapid development of industrial infrastructure and expansion witnessed in the construction sector, primarily in the emerging markets, are fueling demand for low voltage (LV) and medium voltage (MV) switchgear. With governments proactively investing in urbanization and rural development, renewal of existing transmission and distribution networks is on the cards. This is expected to create attractive opportunities for the LV and MV switchgear market. Global LV and MV switchgear market will exhibit a CAGR of 6.8% between 2016 and 2024. The market had a valuation of US\$56.23 bn in 2015 and is expected to reach US\$98.80 bn by the end of the forecast period. Government has adopted several approaches to improve grid connectivity in remote locations. A significant portion of the budget for such improvement plans has been allocated to urbanization, thus fueling the deployment of smart grid technology. This substantially translates into greater opportunities for resale of LV and MV switchgear. Reforms in T&D sector boost prospects for the Indian distribution transformer market too. The Indian distribution transformer market has grown by leaps and bounds for over five decades and has a well-matured technology base for all types of applications using different types of construction and materials. As there is a demand upswing for reliable power in the country, the transformer market is witnessing a growth trend.

Developments in the power sector will have huge ramifications for the Indian transformer industry. Strengthening of power transmission and distribution system has created opportunities for the power and distribution transformer market.

Engineering Division

The major product of the division is Industrial Fan. The product is of the nature of capital goods and is sold to all sectors of Industry viz. Power, Steel, Cement, Refineries, etc. The Division is trying for development of other products viz. Bridge Girder, Air and Water pollution control equipment for use in similar and other industries as well. While the Industrial Fan market shrunk by nearly 40% in last two years, industry is now looking up in the capital goods sector from November, 2016 onwards. Competition has enlarged multifarious in this segment and value addition is under stress because of entry of cheap products from competitors having low overhead expenses.

OPPORTUNITIES & THREATS

[A] OPPORTUNITIES

Tea Division

- Increasing younger age profile of the tea bushes (through vigorous uprooting & replanting programme each year) leading to higher crop prospects for years to come.
- 320 hectares of fallow land to be planted, yielding guaranteed growth over the next decade.
- Orthodox tea manufacturing facilities in some Tea Estates in Assam which fetches higher prices / margins, as compared to CTC teas.
- Green Tea and Organic Tea manufacture in West Bengal, for further value addition.
- Market penetration of packaged (instant, flavored, green, specialty) and organic teas.
- Certification (viz. FSSAI, Trustea, Rainforest Alliance, UTZ, ISO 9001 & 22000, HACCP etc.) for recognition and export stipulations.
- New Export opportunities in Iran, Germany, USA, Australia & Canada and domestic e-commerce outlets.
- With better field practices and major emphasis on Crop as well as Quality, the Division will continue maintaining its profitability in the near future.

Electrical and Engineering Division

- In view of the huge investment by GOI in T+D Sector, we have already initiated steps for foray into substation project work (132kV Class and above). Apart from addition to topline growth it will also serve as an outlet for in-house equipment like Power and Distribution Transformers as well as VCBs.
- There is potential interest of market participants to develop and invest in the electricity market.
- There is potential for reasonable increase in the usage of renewable energy sources.
- There is an increase in the inflow of foreign direct investment into the domestic market.

[B] THREATS

Tea Division

- Unprecedented hike in wage, pest management, power and other input costs threatens to bring down margin of profit drastically.
- Exodus of labour resulting in shortage of workers during peak cropping months.
- Being primarily in Bulk tea business and sales through Auction, prices are market driven and not in the hands of the producer.
- Industry is dependent on weather conditions. Adverse weather conditions especially in Dooars can dramatically change the bottom line.
- Agitations/closures also effects division's profitability.

Electrical and Engineering Division

- With steel price (major raw material) hike by 30% between July, 2016 to January, 2017, the rise of value erosion increased as the user industry is not willing to absorb the price shock. This increases concern for future business and pricing model as some competitors may use inferior grade material, thereby undercut the price to increase their market share.
- Products getting outpriced due to intense price war.

SEGMENT WISE PERFORMANCE

The Company is a multi segment Company as reported in Note No.10.11 in the Accounts.

OUTLOOK

Tea Division

By building on a proud legacy of enterprise that spanned nearly two and a half centuries, India has acquired an exalted status on the global tea map. The country is the second largest tea producer in the world. The export sector of India has experienced an increase in the export of this commodity. The tea industry in India is labour intensive, meaning it depends heavily on human labour instead of machines. This industry provides employment to more than 1.1 million Indian workers and almost half the workforce constitutes of women.

Turnover of Tea division of the company was ₹205.81 crores during the year. Tea exports during the year were 0.82 lakh kgs with FOB ₹1.78 crores, catering to markets in Georgia, USA, Germany, Australia and Canada. PBT increased from ₹14.77 crores last year to ₹31.39 crores this year. Own Crop increased from 100.72 lakh kgs last year to ₹102.34 lakh kgs this year. With Company's focus on quality of the produce and continuous investments in uprooting and replanting and thereby assuring increased yield, the outlook of Tea division is encouraging.

Electrical Division

- The Government of India is encouraging investments at the transmission and distribution level to increase access to reliable and continuous power supply through schemes such as Deen Dayal Upadhyaya Gram Jyoti Yojana (DDUGJY) Integrated Power Development Scheme (IPDS). The schemes aim to provide power for every village and thereby provide power to everybody. This entails huge investment in the T&D sector including use of energy efficient transformers, besides renovation, modernization, restructuring and upgradation of the sub transmission and distribution infrastructure. Major infrastructures have geared up their manufacturing facilities to meet the spurt in demand due to this project initiated by GOI. The Bureau of Indian Standard, Ministry of Power & DHI are actively working to ensure that quality products are procured by the electricity boards and has accordingly stipulated mandatory level-2 rating for distribution transformers for DDUGJY scheme.
- In the last few years, the market has witnessed growth globally. However, intense price based competition between established and local players have been creating bottlenecks for the market. Besides this, the easy availability of substitutes for switchgear might also hinder sales of LV and MV switchgear. Nevertheless, in the near future government initiatives are expected to provide lucrative opportunities for the market. Furthermore, the increasing demand for renewable energy will also bolster sales of LV and MV switchgear in the forthcoming years.

Engineering Division

The Indian Engineering sector has witnessed a remarkable growth over the last few years driven by increased investments in infrastructure and industrial production. The engineering sector, being closely associated with the manufacturing and infrastructure sectors, is of strategic importance to India's economy. India on its quest to become a global superpower and has made significant strides towards the development of its engineering sector.

With impending growth in capital goods sector, the outlook is turning positive.

Engineering Division recorded all time high steel consumption of 917 MT (+6% YOY) for Industrial Fan & 310 MT for Bridge Girder. Division's Capacity Utilization also reached All Time High, as number of Impellers, produced in-house stands at 309 (+1.3%YOY). Productivity increased with process improvement like introduction of non-bolted composite liner, use of plasma cutting for refurbishment job. First billing of newly developed Axial Fan was done during the year under review.

RISK AND CONCERN

In the transformer industry, hardly any technological entry barrier exists. Over the years, manufacturing capacity of other manufacturers has increased substantially. Further intensification of price war and predatory pricing is of serious concern.

FINANCIAL PERFORMANCE

The details of financial performance of the Company are appearing in the Balance Sheet and Statement of Profit & Loss for the year. Profit after Tax (PAT) for the financial year 2016-17 was recorded as ₹27.39 crore as compared to ₹8.35 crore during the previous financial year 2015-16, registering an increase of 228.02%.

INTERNAL CONTROL SYSTEMS

The company has in place, adequate internal financial controls with reference to financial statements. During the year, such controls were tested and no reportable material weaknesses in the design or operation were observed.

The CEO and CFO certification provided in the relevant section of the Annual Report specify the adequacy of the internal control system and the procedures of the company.

[A] Our Observations :

- [i] As required under Regulation 17 (10) of the Listing Regulations, 2015, the annual performance evaluation of the Independent Directors was not carried out by the Board of directors. Further, in terms of Regulation 25 (4) of the Listing Regulations, 2015 and the Code for Independent Directors pursuant to Section 149 (8) of the Act read with Schedule IV, the Independent Directors were required to review the performance of non-independent directors and the Board as a whole along with the review of the performance of the Chairperson of the Company. In view of the exemptions /exceptions provided under sections 178 (2), (3) and (4) and 134 (3) (e) and (p) of the Act, and in view of a well laid procedure for evaluation of Functional Directors and CMD by the concerned Administrative Ministry, the Company has not undertaken any evaluation process as aforesaid.
- [ii] The Company has not yet adopted a Board Diversity Policy as required under Part D (A) (3) of Schedule II of the Listing Regulations, 2015. The said Policy should be formulated by the Nomination and Remuneration Committee of the Board. Since the Listing Regulations, 2015 has not granted any exemption/ exception to the Government Companies from the aforesaid requirement, such Policy was required to be formulated by the Company. In this regard, the Company has submitted that, being a Government Company, the directors on the Board of the Company are appointed by the Government of India and therefore, the said Policy has not been adopted by the Company.

Subject to the aforesaid observations, the Company has complied with the conditions of Corporate Governance as stipulated in the Listing Regulations, 2015 as well as Corporate Governance Guidelines issued by Department of Public Enterprises

The Company has not yet prepared any Succession Plan for its directors and Senior Managerial Personnel as required under Regulation 17 (4) of the Listing Regulations, 2015, since the appointments of directors in the Company are made by the Government of India, however, succession planning is required at the senior management personnel level as well, for which the Nomination Remuneration Committee may take appropriate action.

[C] Matter of Emphasis

Under the Act and Listing Regulations, 2015

- [i] As on 31st March, 2017, the Board was comprised of 8 (Eight) directors, viz.,
 - [a] 3 (Three) were Whole Time Directors, viz. Director (Personnel) and Chairman & Managing Director (Addl. Charge), Director (Finance) and Director (Planning),
 - [b] 2 (Two) were Part-time Non-executive Government Nominee Directors from Department of Heavy Industries; and
 - [c] 3 (Three) were Non-executive Independent Directors.

Pursuant to section 152(6) of the Act, 2/3rds of the total directors (except Independent Directors) of a company shall be rotational directors. Thus, while the Company needed 3 (Three) rotational directors, it had only 2 (Two) rotational directors on its Board.

- [ii] In terms of sec 149 (4) of the Act, Regulation 17(1)(b) of the Listing Regulations, 2015, where Chairman of the Board is an executive director, atleast half of the Board shall comprise of Independent Directors. In view of the total number of non-independent directors on board, viz., 5 (Five) Directors, the Company has only 3 (Three) Independent Directors on its Board. Thus, the Board of directors of the Company is not duly constituted in terms of the Act, Listing Regulations, 2015 and the Corporate Governance Guidelines issued by Department of Public Enterprises.
- [iii] Since there were no Independent Directors on the Board of Directors from 1st April, 2016 till 11th August, 2016, the provisions of the Act and the Listing Regulations, 2015 relating to the composition of the Committees, viz., Audit Committee, Remuneration Committee, CSR Committee, were not complied with by the Company during that period.
- [iv] The Company has constituted Audit Committee, Stakeholders Relationship Committee, Nomination and Remuneration Committee, Corporate Social Responsibility Committee and Risk Management Committee at its board meeting held on 12th August, 2016. However, the Company was unable to hold the requisite number of Audit Committee meetings during the Financial Year 2016-17 as required under regulation 18 of the Listing Regulations, 2015.
- [v] As reflected from the financial statement of the Company for the Financial Year 2016-17, the Company has granted loan to its wholly owned subsidiaries and has provided guarantee to its Associate Companies. However, the same was not approved by the Audit Committee, in terms of section 177(4)(iv) and (v) of the Act, since the Audit Committee did not exist on the relevant date. The said transactions were placed before the Board and the Committee of the Board for review and approval.

We further report that adequate notice was given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting. Majority decisions of the Board were taken with the requisite majority and recorded as part of the minutes.

We further report that based on the information provided by the Company during the Audit Period and also on the review of quarterly compliance reports by the Company Secretary taken on record by the Board of Directors of the Company, in our opinion, adequate systems and processes and control mechanisms exist in the Company to monitor and ensure compliance with applicable general laws.

We further report that during the Audit Period, the Company has not incurred any specific event/ action that can have a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc. except the following :

- [01] Sanctioned Rehabilitation Scheme approved by Board for Industrial and Financial Reconstruction (BIFR) vide Order dated 30th October, 2007 with the cut-off date of 31st March, 2006 is under implementation and the Company has come out from BIFR as per Order of BIFR dated 8th July, 2015. Pursuant to the financial restructuring package of, loan received from the Government of India and Bank of Baroda were converted into equity. Pursuant to said conversion, 14,28,50,000 equity shares of Rs.2/- each were issued to Government of India in the name of the President of India and 1,24,62,500 shares of Rs.2/- each issued to Bank of Baroda on Conversion of Working Capital Term Loan as approved by Cabinet Committee of Economic Affairs, Government of India.

Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of

Annexure - C to the Independent Auditor's Report

(Referred to in paragraph-2(g) on Other Legal and Regulatory Requirements of our Report of even date to the members of Andrew Yule and Co. Ltd. on the Standalone Financial Statements of the Company for the year ended 31st March, 2017)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Andrew Yule and Company Ltd ("the Company") as of 31st March, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE-A TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph-1(g) on Other Legal and Regulatory Requirements of our Report of even date to the members of Andrew Yule & Company Limited on the Consolidated Financial Statements for the year ended 31st March, 2017]

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

In conjunction with our audit of the Consolidated Financial Statements of the Company as of and for the year ended 31st March 2017, we have audited the internal financial controls over financial reporting of Andrew Yule & Company Limited (hereinafter referred to as "the Holding Company"), its subsidiary companies and its associate companies, which are companies incorporated in India as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies and associate companies, which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes

in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies and its associate companies which are incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI, except for one subsidiary company namely Hoogly Printing Company Limited whose auditor have given an Adverse Opinion on the system of internal financial controls over financial reporting and two associate companies namely The New Beerbhoom Company Limited and Katras Jherriah Coal Company Limited whose respective auditors have given a Disclaimer of Opinion on the system of internal financial controls over financial reporting hence in respect of the above subsidiary company and associate companies, we are unable to comment on the adequacy of the internal financial controls over financial reporting.

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to two subsidiary companies and one associate company which are companies incorporated in India, is based on the corresponding reports of the Auditors of such companies. Our Opinion is not qualified in respect of this matter.
