We are now setting up new plans for Infrastructure Development and plan to commence new operations over the next few months.

MANAGEMENT REVIEW ANALYSIS

i. INDUSTRY STRUCTURE AND DEVELOPMENT

Agriculture remains a pivotal part of the Indian Economy despite the emergence of other sectors and decreasing GDP Share. The Agri-inputs industry produces products that provide essential support to modern agriculture. The Seed is one of the most crucial inputs in agricultural production. We continued to play a dominant role in the seed industry & the Company is now dealing in all types of Hybrid seeds. We have been in this business since inception and have made tremendous inroads in the seeds markets. The main stay of the company is cotton seed, for which we have already developed a Bt Seed, suitable for Indian Markets.

ii. OPPORTUNITIES AND THREATS

The company had been majoring on cotton seed over the last few years. However, we have now begun to concentrate on other crops, especially Paddy and then subsequently wheat thereby changing the product mix of the company. We have also been concentrating on Research & Development, with a focus to release new hybrid seeds every 2-3 years. With the growing seed industry, the company is all poised to reap rich dividends. The monsoon factor plays a very important role in the seed industry, basically because majority of the agrarian society of the nation is dependent on rains. This factor has played a significant role in the past and would continue to be a factor for future too.

iii. **SEGMENTATION OR PRODUCT-WISE PERFORMANCE**

Although the Company deals in research of various types of hybrid seeds, the seed as such is a single product, and hence is reported as one segment. However, we keep a track on the product performances and apart from Cotton; Paddy & Wheat have also been performing well.

iv. **OUTLOOK, RISK AND CONCERNS**

The main risk in the seed industry is erratic monsoon, which is beyond control. The Company feels that with the modernization in Irrigation systems, the seed industry would be able to face the situation better in future. There is an opportunity to accelerate growth in the farming sector which has remained stagnant for over past two decades. However, several other factors like floods, drought and macro economic factors like demand and supply of end products will have an impact on this industry.

v. **INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY**

There is adequate internal control system in the company through internal audit and regular operational reviews.

vi. **DEVELOPMENT IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT**

During the year a number of key HR initiatives were taken up to link business objectives with employee performance. The human resources of the Company are adequately motivated to work towards optimal performance. The industrial relations are also cordial.
