## From The CEO's Desk

Dear friends,

This year we celebrate two decades of going public. These are 20 eventful years that has seen your Company take giant strides and win the trust of the public as the country's most valued family footwear brand.

Coincidentally we are also into the 60th year of our existence and not surprisingly Brand Liberty has acquired the sparkle of diamonds as a brand that's today synonymous with fashion and comfort. This is the result of many initiatives that we have perpetuated over the years. Innovations & Excellence have been the hallmark of these initiatives. They have resulted in not just manufacturing excellence but merchandising excellence and excellence in supply chain management. This makes us a unique corporate focusing on customer delight and taking it to newer heights. We see footwear today as an aspirational product, something the Indian youth truly relates to. Today even the youth in smaller towns are increasingly turning to lifestyle and allied products and we at Liberty have positioned our shoes as a lifestyle product. So in addition to a strong presence through the retail outlets we are also visible online. All our stores are seamlessly connected with the back end operations including central warehouse for faster and timely replenishment.

These are indeed good times for the Indian footwear industry and things are only getting better. Today as a footwear manufacturing hub we are second only to China globally and initiatives are being perused to grow further. India's domestic footwear market is also expected to record a strong growth in the years to come boosted by advantageous factors such as a skilled workforce combined with low labour costs.

We at Liberty are proud to be one of the driving forces of the Indian footwear success story. The reason: our production has kept pace with the rising demand for footwear that combines stylish looks with wearer comfort while ensuring durability and lasting value.

This is also reflected in our healthy bottom line and in our profits, a fact you'll find most gratifying. We have after gap of few years also paid dividend this year.

No wonder there is a visible bounce in our stride. What's truly remarkable in all of this is the true globalization of Indian footwear. Something, that's only to be expected when we look at the emerging trends in footwear with the youth constituting around

Our excitement began in 1993 !!!

60% of India's total populace. At the same time affordability is an important factor that can never be over-looked. Currently the per capita consumption of footwear in India is a mere 1 as compared to 4-6 in neighbouring Asian Countries and 6-8 in the developed European markets. As consumption habits changes and newer market emerges, demand for the footwear will surely increase in future.

I would like to assure you all that your Company is today set to be at the forefront of the change that'll sweep this country in the near future and ensure that you fully enjoy the gains of this fast changing retail scenario. We'll do so by our adherence to the three 'Cs' that define our business philosophy and work culture. The first C stands for our Commitment to all our shareholders. The second C stands for our Customer-centric approach. The third C stands for Cutting-edge technology that we will continue to adhere to in our manufacturing. We are confident that with these three 'Cs' we will ensure better days ahead for all our shareholders.

We are, along with, manufacturing and IT excellence, working on financial excellence. A brief outline of our plan is given in the pages ahead. We hope these changes will fan out as exciting times for the Company and the stakeholders.

**Adesh Kumar Gupta**  
Chief Executive Officer

## Our excitement began in 1954 !!!

Founders of Liberty Shoes Limited had formed Liberty Footwear Co., a partnership firm in Karnal in the year 1954 to fight against the monopoly of a leading multinational footwear company who was dominating Indian Footwear industry since 1930's. Within a short while, these visionary founders, Sh. Dharam Pal Gupta, Sh. Purshotam Das Gupta & Sh. Raj Kumar Bansal made Liberty a popular brand in northern India spreading the distribution strength with 200 retailers.

In 1964, the firm bagged its first export order from Czechoslovakia and in the year 1966, the firm completely switched over its production to export for European Countries.

The demand for LIBERTY products continued to rise year after year and to meet the demand of quality footwear, the founders set up new partnership firms like Lifo International, Liberty Enterprises etc. to comply with the requirement of reservation of footwear industry for Small & Cottage sector. To supplement its production, it also set up a Tannery for producing finished leather in 1981 and also decided to set up an ultramodern automatic footwear manufacturing unit with Polyurethane, (PU) Technology especially for Indian Market. The PU products, launched in 1982, surprised the markets with their innovative technology, quality and styles.

The Group adopted a unique production model of sub-contracting wherein major components used in the footwear were produced in-house and the assembly of various components was outsourced. This manufacturing model led to setting up of another partnership firm Liberty Group Marketing Division (LGMD) which undertook the responsibility of marketing the products manufactured by several Group firms to a common distribution network to make products affordable for Indian Consumers. LGMD quickly established a nationwide distribution network and LIBERTY emerged as a strong home grown brand offering innovative products for the whole family. The Group continued to expand its product range, production capacities and reach in both international and domestic market.

### Liberty Shoes Ltd. - The Rising Sun

Operating through the multiple manufacturing entities for a common sales network was posing a big challenge and therefore several manufacturing units needed to be consolidated to one large scale production unit and with this vision, Liberty Shoes Limited (LSL) was incorporated and in December 1993 a new plant was

set up at sprawling 50 Acres integrated complex in Liberty Puram, Karnal which started commercial production of 2nd generation Sport Shoes with multi-colour PVC Injection machine with an installed capacity of 500 pairs daily. This revolutionised the Sports Shoe Market in India.

With the intent of making LSL the flagship company of the Group over a period of time, the family started making fresh investments for increasing capacities and distribution reach only in the new company and it was envisaged that in the future the entire business of footwear carried by multiple legal entities will be merged/transferred to Liberty Shoes Ltd.,

To share the rewards of its business success with common man, the family decided to take Liberty Shoes Ltd., public in August 1994 offering its share at a premium of ₹89/- per share. The Issue was oversubscribed nearly 42 times and Liberty Shoes Ltd., stock created history when the its share was listed on BSE in October 1994 at a record price of ₹ 329.00.

With its innovative approach of marketing by capturing the imagination of Indian consumers with interesting concepts of advertising on unique mediums of Video, Satellite Television Channels, Events, National & International Beauty Pageants including Miss Word, Liberty continued setting up new records and standards for the Indian Footwear Industry leaving most footwear multinationals way behind in Indian market. By the turn of the century, Liberty with its multi-brand marketing approach became the leader in the footwear industry and was ranked amongst the top 100 Most Trusted Brands of India by The Economic Times.

### Setting up for Operational Excellence

In the year 2000, under the liberalised industrial policy, the footwear industry was de-reserved. The Promoters family agreed to start the consolidation process of bringing entire business of footwear under the umbrella of Liberty Shoes Ltd. Within a span of 3 years, LSL completed the first phase of consolidation on 1<sup>st</sup> April, 2003 and under different exclusive arrangements, the entire footwear manufacturing capacity of all group concerns were transferred to LSL under franchise arrangements. Moreover, LSL was made the exclusive licensee for using the Trademark LIBERTY worldwide under a separate Royalty Agreement with Liberty Footwear Co, the owners of the brand since 1954 and with the present arrangement valid till 2028.

## Two Decades of Excellence

### Consolidating for an Exciting Future

The vision of consolidation, foreseen in 2000 is being actively pursued now as Liberty Shoes Ltd. has now become strong enough to absorb all the footwear business assets the family has generated in the last 60 years and the Promoters Family have agreed for completing the consolidation in 3 phases subject to approval by the shareholders and is likely to be completed by 2016-17.

bottom line by having better inventory management, cutting raw material and production cost and reducing production cycle time.

In the subsequent phase of Business Restructuring, the company intends to bring in efficiencies in Sales, Distribution and Marketing by setting up different Business Verticals as independent profit centres. This will help the company to identify any demand & supply gaps and plug them by improving its supply chain

The wholly owned Retail Subsidiary Liberty Retail Revolutions Ltd., started in 2004, has already been merged with LSL during 2013-14. The next phase of consolidation (Phase II) is under process in which the Business Assets including Plant & Machinery held by the group concerns Liberty Enterprises and Liberty Group Marketing Division are proposed to be acquired by Liberty Shoes Limited during the ongoing financial year 2015. The well established Sub Brands used for Multi Brand Strategy and owned by the above named group concerns along with the distribution network set up by them since 1954 will also be transferred to Liberty Shoes Ltd.

This consolidation will not only help reduce outflow of Franchise Fee/Royalty Fee being paid at present by Liberty Shoes Limited to its group concerns and improve bottom line but will also pave the way for independent growth of business by Liberty Shoes Limited.

LSL, after the acquisition, intends to implement the process of streamlining of its manufacturing operations to make its entire operations of manufacturing lean and efficient which will enable the company to improve its

and supplementing it with expansion in its Sales & Distribution network both in India and in International Market.

The business restructuring initiatives will increase the shareholders wealth and will allow the company to exploit the Market Potential to fullest level.

#### **ITEM NO. 13**

The Articles of Association ("AoA") of the Company as presently in force were adopted on September 3<sup>rd</sup> 1986 from what they were when the Company was incorporated. The existing AoA are based on the Companies Act, 1956 and several regulations in the existing AoA contain references to specific sections of the Companies Act, 1956 and some regulations in the existing AoA are no longer in conformity with the Act.

The Act is now largely in force. On September 12, 2013, the Ministry of Corporate Affairs ("MCA") had notified 98 Sections for implementation. Subsequently, on March 26, 2014, MCA notified most of the remaining Sections (barring those provisions which require sanction / confirmation of the National Company Law Tribunal ("Tribunal") such as variation of rights of holders of different classes of shares (Section 48), reduction of share capital (Section 66), compromises, arrangements and amalgamations (Chapter XV), prevention of oppression and mismanagement (Chapter XVI), revival and rehabilitation of sick companies (Chapter XIX), winding up (Chapter XX) and certain other provisions including, inter alia, relating to Investor Education and Protection Fund (Section 12S) and valuation by registered

valuers (Section 247). However, substantive sections of the Act which deal with the general working of companies stand notified.

With the coming into force of the Act, several regulations of the existing AoA of the Company require alteration or deletions in several articles. Given this position, it is considered expedient to wholly replace the existing AoA by a new set of Articles.

The new AoA to be substituted in place of the existing AoA are based on Table 'F' of the Act which sets out the model articles of association for a Company limited by shares. Shareholder's attention is invited to certain salient provisions in the new draft AoA of the Company viz:

- (a) Company's lien now extends also to bonuses declared from time to time in respect of shares over which lien exists;
- (b) the nominee(s) of a deceased sole member are recognized as having title to the deceased's interest in the shares;
- (c) new provisions regarding application of funds from reserve accounts when amounts in reserve accounts are to be capitalized;
- (d) new provisions relating to appointment of Chief Executive Officer and Chief Financial Officer, in addition to manager and Company Secretary;
- (e) provisions relating to increase in Maximum number of Directors upto a limit of 15.
- (f) existing articles have been streamlined and aligned with the Act;
- (g) the statutory provisions of the Act which permit a Company to do some acts "if so authorized by its articles" or provisions which require a company to do acts in a prescribed manner "unless the articles otherwise provide" have been specifically included; and
- (h) provisions of the existing AoA which are already part of statute in the Act have not been reproduced in the new draft of AoA as they would only lead to duplication - their non-inclusion makes the new AoA crisp, concise and clear and aids ease of reading and understanding.

The proposed new draft of AoA is being uploaded on the Company's website for perusal by the shareholders.

None of the Directors, Key managerial Personnel of the Company or their relatives may be deemed to be concerned or interested in the proposed resolution.

#### ITEM NO. 14

2006 have accorded their consent to the Board of the Company for borrowing up to the extent of ₹250 Crores (Rupees Two Hundred and Fifty Crores only) in terms of the provisions of Section 293 (1) (d) of the Companies Act, 1956.

However, in the recent past Companies Act, 2013 has been enforced. Various new sections and provisions are applicable on the Company in lieu of old sections under Companies Act, 1956. Section 180 (1) (c) of the Companies Act, 2013 is one such section which is enforced on 12<sup>th</sup> September, 2013 which deals with the provisions of borrowing powers of the Company (corresponding section 293 (1) (d) of the Companies Act, 1956). Under the provisions of Companies Act, 2013, Company shall have to comply with the provisions of Section 180 (1) (c).

As per the provisions of Section 180 (1) (c) of the Companies Act, 2013 (corresponding Section 293 (1) (d) of the Companies Act, 1956), the Board of Directors cannot, except, with the consent of the Shareholders by way of Special Resolution in General Meeting, borrow monies, apart from temporary loans obtained from the Company's bankers in the ordinary course of business, in excess of aggregate of its Paid Up Share Capital and Free Reserves.

Thus, with a view to meet the provisions of Section 180 (1) (c) of the Companies Act, 2013, and to meet the current financial requirements of the Company, it is proposed to seek the approval of the Shareholders to enhance the borrowing limit up to ₹500 Crores (Rupees Five Hundred Crores only) from ₹250 Crores (Rupees Two Hundred and Fifty Crores only) previously approved by the Members.

With a view to have flexibility, such funds as above would be used for expansion, acquisition, modernization, normal capital expenditure, general corporate purposes and working capital requirements and such other purpose permitted under respective regulations, during the course of the business of the Company.

None of the Directors, Key managerial Personnel of the Company or their relatives may be deemed to be concerned or interested in the proposed resolution.

#### ITEM NO. 15

# Management Discussion and Analysis Report

## **Economy & Market- Outlook**

India's economy is presently the 10th biggest economy in the world in terms of Gross Domestic Product (GDP). However, its growth continued to be subdued with the 2<sup>nd</sup> successive year of sub 5% GDP growth. Financial Year 2014 witnessed steep currency depreciation and rupee after plunging to ₹68.36 to a US dollar in August 2013, triggered by the expected taper of quantitative easing in the United States, gradually strengthened and the year ended with the exchange rate averaging ₹61 per US dollar in March 2014, due to measures taken by the Government and the Reserve Bank of India (RBI). Improvement is also recorded on the fiscal front, with the fiscal deficit declining from 5.7 per cent of GDP in 2011-12 to 4.9 per cent in 2012-13 and 4.5 per cent in 2013-14. The overall economic environment experience pessimistic attitude where Industrial activities remained in narrow mode and the demand for consumer and Capital goods continued to decline due to inflation and contraction of disposable income with the consumers.

The formation of new Govt. of India with a absolute mandate is considered as progressive and the prospects of economic recovery in India by adopting an agenda of all around development and growth ,seems bright in the near future. At retail level, where the Company dominantly operates, Liberty assumes that a real momentum will take some more time to start in reflecting in its numbers.

Liberty's performance for the year under consideration has to be viewed in the above given economic and market scenario environment.

## **The Indian Footwear Industry - Structure and Development, Opportunities / Threats, Risk and Concern**

During the year 2013-14, the exports of leather and leather products, where footwear has a foremost contribution, touched ₹357482.35 million as against the performance of ₹272887.70 million in the corresponding period of last year, recording a positive growth of 31% with truly performing to its rising potential. Export of different categories of footwear holds major share of about 43% in India's total leather & leather products exports with an export value ₹153125.39 million. Leather Goods and Accessories with a share of 23%, Finished Leather, Leather Garments etc. were the other constituents of this growing sector. In view of its potential for export earnings as also its potential for creation of job opportunities, The Govt. of India has always been supportive of the leather industry and has

again identified this sector as a focus sector in its various present policies.

Although, share of India's exports of this sector has grown notably in the past yet its share in the global market is quite insignificant. Indian footwear manufacturers in order to improve India's share in the growing global trade, has started focusing more on innovative design with quality, state-of-the-Art production technology with committed delivery schedules and most of them have their operations now in compliance with International Environmental standards as well as the Certifications.

The Indian footwear sector has emerged from the level of traditional manufacturing methods to automated manufacturing systems. It has transformed from being a highly unorganized market to an emerging organized retail Industry. The trend has completely changed today with the increase in urban population, changing lifestyle, rising brand consciousness and transformation in the buying potential of the Indian customer specifically in the youth. Many global players because of the potential and liberalized Govt. policies are now entering India which would besides offering Indian consumers diversified choice also provide an opportunity to Indian manufactures to tie up for their sourcing requirements.

Indian domestic market has also huge potential and tremendous opportunities to grow in the near future due to emergence of new market and feasible locations, change in consumption habits like separate formal and casual wear, moving towards organized retailing and desire for branded footwear. Institutional or bulk customers segment is also very promising because of the change in preferences and desire to fulfill the aspirations of the working force.

As the Indian consumer become more conscious and demanding in their choice and preference, at Liberty after implementation of Theory of Constraints (TOC) and working further adding on its fashion oriented merchandise, it would be easier to make the most of the emerging opportunities.

The rising input cost, inflation, high financing costs, availability of suitable locations and occupancy cost, competition, higher attrition at front end and unstable

**Inspiring Past.  
Evolving Present.  
Vibrant Future.**

Our founding fathers joined Gandhiji's call for Quit India against the British in 1942 and with the same enthusiasm started Pal Boot House in 1944 to help create employment and business opportunities for the most backward leather artisans. Within 10 years Liberty was formed in 1954. As we go into 60 years of our existence we salute the Indian spirit and are happy to state that generations of artisans who had joined the successful business movement are now entrepreneurs. We have seen a very fulfilling existence. We have grown to become an acknowledged and respected brand. Thousands of dedicated people help build the Liberty name each day. Thousands are set to take a leap into new horizons. Innovating for comfort. Innovating for fashion. Innovating for newer landmarks. We're looking forward to the next 60 years.
