Management Discussion and Analysis Report

Business of Brokerage is over-regulated and is subject to a large number of Compliances, which no doubt, protect the interests of investors, as well as, its own interest. Fact Sheet of Compliance requirements reveal

- i. Despatch of contract notes to the clients within 24 hours of trade done.
- ii. Transfer of funds/securities to the clients within 24 hours of pay out of fund/securities.
- iii. Daily margin reports to Exchanges/clients.
- iv. Daily confirmation of trades by the Stock Exchanges directly to investors by SMS and E-Mail.
- v. Sending scanned copies of all Delivery Instruction Slips (DIS) to the Depositories on daily basis.
- vi. Recording of clients' telephonic orders by trading Members.
- vii. Client funding/margin funding reports submitted to NSE/BSE on monthly basis.
- viii. Despatch of demat holding statements to clients by Directing and Depositories. NSDL & CDSL.
- ix. Monthly Account statements to clients.
- x. Monthly investor grievance report by DP to the Depositories.
- xi. Quarterly settlement of funds and Securities of clients.
- xii. Half-yearly Internal Audit Report to Exchanges and Depositories.
- xiii. Half-yearly Net Worth statements to Exchanges and Depositories.
- xiv. Annual System Audit Report to Exchanges.
- xv. Half-yearly Risk Based Supervision Report to Exchanges.
- xvi. Annual Returns to Exchanges.
- xvii. Inspection by Stock Exchanges, Depositories and SEBI.

It is generally argued that SEBI's apprehension is mainly due to following two counts.

- (i) Mis-use of Clients Money
- (ii) Mis-use of Clients Securities

We believe that SEBI can act really fast on receipts of investors complaints as that is the stage where problem is first identified. But at the same time, investor is not soft-target to be cheated. Also investors got ample information by way of SMS, E-mail, Alert message from Banker and telephone call on real time basis from brokers, Exchange and/or Depositors.

The question is can SEBI or Exchange guarantee that there will not be a single case of fraud on investors after such grilling compliances/enhanced supervision?

Is it not that the present regulations and amendments/additions thereto are counter to PM Mody's push for "Ease of Doing Business". This will become a huge deterrent to the new players and send wrong signals to the Global financial fraternity. Perhaps that is why a number of small brokers are pulling down the shutters.

M. B. PARIKH FINSTOCKS LIMITED

The industry is facing

- (i) Non-Viability of their operations.
- (ii) Too many compliances.
- (iii) Scared of too many and too high penalties.
- (iv) The fear of unknown.
- (v) Reduction in business and very low brokerages while the costs are going up.

Despite all fears, as above, opportunities are ample to attract retail clients and move to Tier III Cities. Also services to investors have to be broad based like collection of Pay-In of funds and Pay-In of shares.

With awakening to enter and make fortune in capital market, outlook is bright. Limited percentage of income tax paying population is in capital market. Moreover, Mutual Funds and Investment Institutions should consider enrolment of SM sized brokers who can be part with 0.5% to 1.0% of total trade. A clean background in observing Pay-In and Pay-Out as also NSE/BSE Inspection score should be given weightage for registration.

Internal Audit by NSE approved CA is an adequate control mechanism; apart from a host of requirements of SEBI (i.e. like Margin Funding etc.)

Record Maintenance and Compliance call for a good number of skilled personnel. This adds to costs. Also, though inflation is witnessed in all activities, brokerage is pointing south-ward. It seems for one dealer, one has to have staff of 2 as back-up and compliance. At the same time employees are co-ordinal as most of the staff is skilled, self-disciplined and conscience about the intricacy of duties.

M. B. PARIKH FINSTOCKS LIMITED

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes forming part of the financial statements (Contd.)

Notes	Particulars
	<p>The Company has trading activities in Derivative segment in Shares and Commodities. Derivative contracts are marked-to-market and loss, if any, is recognised in the Statement of Profit and Loss as at the Balance Sheet date. Gains arising on the same are not recognised, until realised, on grounds of prudence.</p>
	<p>b. Other income Interest income is accounted on accrual basis. Dividend income is accounted for when the right to receive is established.</p>
2.08	<p>Tangible fixed assets Fixed assets are carried at cost less accumulated depreciation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use, net of CENVAT (where claimed), excluding government grant, borrowing cost for qualifying assets.</p>
2.09	<p>Investments Investments are classified as long term and Current based on their nature and intended holding period. Long-term investments are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. The diminution in value, if any, of investment in funds is taken as per the published annual audited results of relevant fund.</p>
2.10	<p>Employee benefits As the number of employees of the company is below the prescribed limit for Registration under the Payment of Gratuity Act, 1972; Employees Provident Funds and Miscellaneous Provisions Act, 1952 or any other Act pertaining to employee benefits, the company has not provided for such employee benefits. Bonus is paid to employees as decided by the Management.</p>
2.11	<p>Segment reporting Considering the nature of Company's business and operations, there is no reportable segment (business and / or geographical) in accordance with the requirement of Accounting Standard – 17 'Segment Reporting', prescribed under the Companies (Accounts) Rules, 2014.</p>
2.12	<p>Earnings per share Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, by the number of equity shares considered for deriving basic earnings per share.</p>
2.13	<p>Taxes on income Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961. Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company. Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets in respect of unabsorbed depreciation and carry forward of losses are recognised only if there is virtual certainty that</p>

Notes	Particulars
	<p>there will be sufficient future taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability. Current and deferred tax relating to items directly recognised in equity are recognised in equity and not in the Statement of Profit and Loss.</p>
2.14	<p>Provisions and contingencies A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent Assets are not recognised in financial statements.</p>
2.15	<p>Derivative contracts The Company has trading activities in Derivative segment in Shares and Commodities. Derivative contracts are marked-to-market and losses are recognised in the Statement of Profit and Loss. Gains arising on the same are not recognised, until realised, on grounds of prudence.</p>
2.16	<p>Impairment of Assets The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor. When there is indication that an impairment loss recognised for an asset in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognised in the Statement of Profit and Loss, except in case of revalued assets.</p>
2.17	<p>Service Tax Input Credit Service tax input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is reasonable certainty in availing / utilising the credits.</p>
