The past few years have been challenging for players engaged in the agriculture sector.

Droughts, Restriction on import of Basmati Rice by some of the key importers, Sharp fluctuation in the prices of commodity, Indian currency and Demonetisation have been some of the key issues.

Amidst, such scenario, only the tough could survive and the best could outlast.

When most other industry players were reeling under pressure and finding difficulties in sustaining operations, we outdid the industry by recording highest ever profitability and margins.

85%

Growth in market capitalisation over 2015-16 to ₹ 9,699 Crores

When others were playing it safe by focussing on existing products, we outshined by creating a new business segment of super-premium foods by re-launching brown rice new packaging and launching 'Quinoa' a new health-oriented product.

When most others were hard hit during demonetisation due to cash crunch, we outperformed the industry by growing our market share, media presence and distribution network.

At KRBL, our business model enables us to... Outdo, outlast, outshine and outperform.

New Product Launches

Driven by the rising awareness for health and premium food, in 2016-17, the Company created the super-premium segment and launched several products under it. This shall enable it to stay relevant to the changing consumer preference, while at the same time command better margins owing to its premium quality. The new products launched during the year under this category include:

Eat Healthy. Live Healthy. Stay Energised.

INDIA GATE QUINOA – A Superfood for Superfamily

With the addition of India Gate Quinoa to our product basket we have forayed into the healthy food category.

Launch Rationale

One of the greatest and perhaps the most under-recognised threats in India today is the rising instances of lifestyle diseases and stress arising from hectic schedules for people of all ages living in crowded urban locations. Demanding jobs, rising competition in education, eating out and packed days are the new norm.

Despite rising awareness amongst the urban elite, on the importance of leading a healthy and balanced life, it is difficult to maintain a healthy schedule given the demands of the modern lifestyle.

Studies have revealed several worrying statistics over the last few years: in India 33% of those over 30 suffer from at least one lifestyle disease, obesity is rising at an alarming pace, stress levels among professionals and students is continuously rising and diseases like diabetes and cholesterol are claiming millions every year.

Product USP

Driven by this, we launched India Gate Quinoa, which is a superfood providing balanced nutrition, can be cooked quickly and is good in taste. The product caters to the cream of the Indian society, who is willing to spend energy and money

Some Worrying Health Statistics:

6

of individuals in India over the age of 30 suffer from one or more lifestyle diseases.

14.4 million

Children in India suffer from obesity.

focussed on health and fitness. Rightly tagged a superfood, Quinoa is a protein-rich grain that is full of goodness – a complete protein source, rich in minerals and high on dietary fibre that helps in countering the effects of modern, hectic lives by keeping families healthy, energised and satisfied.

Positioning

Quinoa is positioned as 'superfood for the superfamily' to bring out its many benefits. This positioning is targeted to the womenof-the-house for trying something new that can be beneficial for the entire family. Geared towards a super launch of this superfood, India Gate has the unique opportunity and challenge to create this category and lead the movement towards a healthier and happier India.

Eat Healthy. Stay Calm. Improve Productivity.

INDIA GATE BASMATI BROWN RICE – Brain Metabolism Booster

Launch Rationale

The pace at which stress levels are rising and taking toll on millions of working professionals and students across the country is alarming. It is essential to give consumers something natural for relaxing and relieving stress.

Product USP

The India Gate Basmati Brown Rice, enriched with Gamma Amino Butyric Acid (GABA), a naturally occurring neurotransmitter that plays a vital role in spreading a calming effect throughout the nervous system. It also helps in increasing the brain metabolism through enhanced flow of oxygen which facilitates in better concentration, focus, sleep quality and reduces anxiety. As per researchers, continuous intake of GABA Rice has several health benefits on the human body like better sleep quality and improved focus and retention.

Positioning

The product is positioned as 'Brain Metabolism Booster'. Adopting this extremely sharp positioning for Basmati Brown Rice has two benefits. One, it creates differentiation from rest of the India Gate products which facilitates the Company to provide additional offering to existing India Gate customers, thereby increasing purchase occasions and enabling it to retain existing customers. Two, its unique proposition differentiates it from all other competitor brown rice available in the market, thereby facilitating in acquiring new market share.

The target audiences for this product are schoolgoing children and working professionals as it facilitates them in increasing brain activity while reducing stress level, which enables them to be more productive and efficient in work environment.

Eat Healthy. Control Weight. Improve Productivity.

INDIA GATE BROWN RICE – Weight Watchers Special

Re-Launch Rationale

With increasing number of people in urban India falling prey to sedentary lifestyles, there has been rising cases of obesity. As per National Family Health Survey, in 2015-16, 20.7% of women and 18.6% of men aged 15-49 years in India were obese compared to 12.6% and 9.3% respectively in 2005-06. This stark increase is leading to rising consciousness among urban consumers to watch one's diet and weight.

Driven by this, we re-launched brown rice in a new packaging with new positioning to better connect with targeted consumers. Besides, with consumers getting more calorie-conscious and more particular about what they eat, it is important to leverage brown rice within our portfolio to ensure that rice doesn't lose its 'share-of-plate'.

Product USP

Brown rice has traditionally been known to be healthier. With 100% whole grain brown rice and low GI (glycaemic index) levels, the India Gate Brown Rice offers high fibre density that helps people stay satisfied and full for longer duration.

Positioning

The product is positioned as 'Weight-watcher's special'. It shall help in creating significant buzz in the market with this sharp positioning towards weight-loss and fitness through hi-fibre healthy eating. It ensures that we are in tandem with our consumers as they focus on weight management for looking good and feeling great.

Management Discussion & Analysis

ECONOMIC SCENARIO

Global Economy

The year 2016 witnessed the global economy stabilising to pick up the momentum for second year in a row. Market sustained a period of volatility, feeble trade scenario and uncertainties relating to policies which dampened markets across the globe. While growth amongst the advanced economies was stronger than expected, the Emerging Nations and Developing Economies (EMDEs) was slower. The year witnessed two key global events contributing to global anxiety – the Brexit, which saw the UK exiting the European Union and the crucial Presidential elections in the USA, which saw the Republican candidate Mr. Donald Trump winning.

Amongst the advanced economies, the growth declined from 2.1% in 2015 to 1.7% in 2016 driven by slowdown in the USA and Euro area. The USA witnessed growth plunging down from 2.6% in 2015 to 1.6% in 2016, driven by potential policy uncertainties led by elections, impact of appreciating dollar on trade, and decline in spending. For the coming years, President Trump's focus on inward-looking policies and expected initiatives for reform have the potential to improve outlook. In Euro areas, the persistent low demand and capital formation coupled with weak investments and high levels of unemployment led to growth slowing down from 2.6% in 2015 to 1.7% in 2016.

The EMDEs continued to face resistance in growth owing to political turmoil and recessions across some regions in addition to the slowdown in major economies of the region i.e. the growth amongst these nations declined marginally from 4.2% in 2015 to 4.1% in 2016. China continued to witness pressures of economic rebalancing, weak private investments and declining productivity. Its economic growth slowed down to 6.7% compared to 6.9% in 2015. However, continuous policy stimulus and strong real estate investments buoyed some recovery in China. Countries like Brazil, Argentina and Turkey faced sharp contraction in tourism revenues, while in Russia scenario seemed to improve on the back of firming oil prices.

Outlook

Driven by partial recovery towards the second half of the year, that saw recoveries in manufacturing, stabilising political

During the end of the current fiscal, the country's inflation declined to 3.81%, forex reserves increased to over ₹ 24 Lac Crore, while the fiscal deficit is likely to be 3.5% of the GDP.

scenario, reducing inventory drags and improving scenario amongst the EMDEs, the outlook for the global remains positive. Strengthening oil prices and stabilising interest rates are further expected to improve market sentiments. By the favourable turn of events, it is expected that the global economy will grow 3.5% in 2017 and then by 3.6% in 2018. (Source: IMF Economic Outlook, 2017).

Indian Economy

In 2016-17, the Indian economy rated as one of the fastest growing major economies and considered amongst the world's fourth largest manufacturer, recorded a growth of 7.1%. All the primary sectors of the economy witnessed growth. The gross value added in the services, industrial and agricultural sector grew at 7.7%, 5.6% and 4.9% respectively. The robust growth in agriculture was on account of normal monsoon after two successive years of drought. Besides the positive initiatives undertaken by the government to meet its fiscal targets are steadily improving the country's macro-economic fundamentals.

During the end of the current fiscal, the country's inflation decline to 3.81%, forex reserves increased to over ₹ 24 Lac Crore, while the fiscal deficit is likely to be 3.5% of the GDP. The repo rates in the country further declined by 50 basis points to 6.25%, its lowest level since highs of 8% in 2014. Rupee depreciated by 2.12% against dollar, with RBI reference rate for one US dollar on March 31, 2017, being ₹ 64.8386. Exports during the year grew 4.71% to USD 274.64 billion against a decline of 0.17% in imports to USD 380.3 billion. This resulted in trade deficit declining by nearly 11% to USD 105 billion. (Source: Reserve Bank of India, The Economic Times).

Government Initiatives

The year also witnessed one of the historic events of the recent times in the form of demonetisation. Nearly 86% of the currency in circulation were withdrawn in a bid to curb currency counterfeiting, terrorism funding and black money accumulation. Though the move created temporary cash crunch and hardships for the citizens, it is likely to be beneficial in the long run with large sum of idle funds getting channelised into the economy, while facilitating in bringing a large chunk of informal sector into the formal sector. The digitisation initiative which emerged as a follow-up event shall also facilitate in reducing cash transactions in the country.

During the year, the government also undertook several crucial initiatives which included relaxation of FDI forms for attracting foreign investments, passing of the Goods and Services Tax bill for simplifying the taxation regime in the country, and reducing red tapes for enhancing decision-making speeds. There is a clear intent from the government on faster implementation of projects and improving the lagging infrastructural scenario. In its Union Budget 2016-17, the government enhanced its

allocation to the infrastructure sector to ₹ 3.96 Lac Crore, which includes allocation to the railways of ₹ 1.31 Lac Crore. (Source: Business Line).

Important Assembly Elections

Another major developments during the year has been the current Central Government's win in the crucial state assembly elections in Uttar Pradesh, Goa, Uttarakhand and Manipur. This is likely to stabilise the political scenario in the country, while facilitating the government to make better decisions and pass important bills.

Outlook

The outlook for the country remains moderate in the short term as the country adjusts to various structural changes. However, in the longer run with increasing financial inclusion, rising investor confidence, infrastructural development and easing business scenario, India is headed to continue being the fastest growing major economies in the world. International Monetary Fund projects the country to grow 7.2% in 2017-18, while gaining momentum and growing by 7.7% in 2018-19.

AGRICULTURE SECTOR IN INDIA

Overview

The agriculture and its allied sector are amongst the most vital sectors of India. The sector provides employment to nearly 58% of the country's population and is amongst the largest contributors to the GDP. In terms of exports, it is the fourth largest exported principal commodity accounting for nearly 10% of the country's export. Despite, such strong numbers, a major concern for the sector has been low farm income, low productivity, less area under irrigation and crop losses which is leading to the sector witnessing decline in workforce. However, with the renewed focus of the present government and implementation of various positive schemes, the sector is expected to add 12 million people to its workforce till 2018-19.

Performance in 2016-17

In 2016-17, the Gross Value Added (GVA) from the agriculture and allied sectors (including agriculture, livestock, forestry and fishery) is likely to grow by 4.9%. The total foodgrains production is likely to increase by 8.7% from 251.57 million tonnes (MMT) in 2015-16 to 273.38 MMT in 2016-17. Rice production, post two years of decline, is likely to grow by 4.5% from 104.41 MMT in 2015-16 to 109.15 MMT in 2016-17. As per APEDA, the total exports of agri and processed food products increased by 2.70% from ₹ 1,06,002 Crores in 2015-16 to ₹ 1,08,867 Crores in 2016-17. (Source: RBI monetary policy report, 3rd advanced estimates of production of food grains, APEDA)

Union Budget Developments

The government in a bid to address challenges in the agriculture increased its allocation to the sector by 24% to ₹ 1.87 trillion for the year 2017-18. The budget primarily focussed on pushing market reforms and increasing funds for crop insurance to tackle farmers' distress. NABARD (National Bank for Agriculture and Rural Development), was also assigned the task for implementing schemes to improve access to irrigation and develop the dairy sector.

For enhancing the farmers' income, the government focusses on developing a model of contract farming and delisting perishables from Agriculture Produce Marketing Committees (APMCs) such that farmers can directly sell produce to consumers for earning better margins.

Key Highlights of the Budget:

Focus on reforms and contract farming

Increase crop insurance from ₹ 5,500 Crores in 2016-17 to ₹ 9,000 Crores in 2017-18

Target agriculture credit disbursement of ₹ 10 trillion against ₹ 9 trillion in 2016-17

₹

Additional allotment of ₹ 20,000 Crores to NABARD for long-term irrigation fund and ₹ 5,000 Crores for setting up a dedicated micro irrigation fund

Assistance to rural entrepreneurs for setting-up soil testing labs in Krishi Vigyan Kendras

Evergreen Revolution

The Ministry of Agriculture has developed a three-year roadmap that focusses on the growth of farm sector and doubling farmers income by 2022. The various initiatives under this scheme includes:

- Use of cutting-edge technology to enhance farm productivity
- Promotion of climate-resilient indigenous breeds of cows and buffaloes
- Leverage the advantages of space technology in agriculture and allied sectors
- Promotion of deep sea fishing
- Setting up of seed production and processing units at 'panchayat' level
- Increase cropping intensity by 1 million hectares per year through the utilisation of rice fallow areas for pulses and oilseeds
- Consolidating online trading and inter-market transactions

Outlook

The outlook for the agricultural sector in 2017-18 remains positive with Indian Meteorological Department's projection of normal rainfall in 2017. This is likely to improve agricultural output resulting in growth of gross value added from the sector. Driven by this, FICCI expects the Indian agriculture sector to grow 3.5% in 2017-18.

GLOBAL RICE OVERVIEW

Production and Utilisation

The year 2016 turned out to be a record year for paddy production post two years of poor outcome which was marked with El Niño weather anomaly. With weather conditions getting back to normalcy, the paddy producers, especially the ones in the northern hemisphere, were able to reclaim lands for paddy cultivation leading to expansion of area under cultivation by 2.7 million hectares. As a result, paddy production in Asia, led by strong growth in India and Thailand, reached record levels of 680.1 MMT, grown by 1.6% in 2016-17. Countries like Cambodia, Iran, Iraq, North Korea, Japan, Lao, Nepal, Myanmar and Philippines also witnessed good growth. However, the production in China, Malaysia, Sri Lanka and Vietnam declined.

During the year, Africa witness growth in production by nearly 7% to 30.8 MMT. A majority of this growth would come from sizeable expansion in Eastern and Western Africa, especially Mali and the United Republic of Tanzania.

Rice utilisation in 2016-17 is forecasted to grow 1% to 500.3 MMT. Of this, nearly 401.8 MMT would be towards food intake, 18.3 MMT for animal feed and the remaining 80.2 MMT for other uses. (Source: Rice Market Monitor, April 2017 – Food and Agriculture Organisation).

Global Paddy Production and Area

(Source: Rice Market Monitor, April 2017– Food and Agriculture Organisation)

The U.S. Department of Agriculture (USDA) projects the global rice production on milled basis to reach record levels of 481.1 MMT in 2016-17, an increase of 8.89 MMT over 2015-16. China, despite a fall in production over 2015-16 levels, would still continue to be the largest rice producer with 144.85 MMT production followed by India at 106.50 MMT and Indonesia at 37.15 MMT. The area under production reached the record levels of 161.5 million hectares, while the yield per hectare at 4.44 tonnes was marginally higher than in 2015-16. (Source: USDA Rice Outlook, April 2017)

Trade

The international rice trade, post two years of decline, is likely to grow 4% to 41.6 MMT in 2016-17 as major buyers in Asia and Africa focus on meeting production shortfall and reconstituting reserves. Import demand from America and Europe is likely to remain low amid comfortable supply situations. Driven by the on-going scenario, the competition among various global suppliers is expected to be intense. India is likely to remain the

(Source: Rice Market Monitor, April 2017– Food and Agriculture Organisation)

largest supplier for the fifth consecutive year. However, it faces intense competition from Thailand driven by output rebound and stock releases from the Government. Exports from Australia, Myanmar, Paraguay, Uruguay and Vietnam are seen increasing, while that from Argentina, Brazil and Pakistan is expected to decline driven by weaker demand from traditional outlets.

International rice prices, after touching multi-year lows during the end of 2016 witnessed some recovery in 2017. The FAO All Rice Price Index (2002-2004=100) rose 6% from its December 2016 levels as it averaged 198 points in mid-April 2017. (Source: Rice Market Monitor, April 2017– Food and Agriculture Organisation)

As per the USDA, the global rice export in 2016-17 is likely to increase by 1.48% from 40.40 MMT in 2015-16 to 41 MMT in 2016-17. The exports from India and Thailand are expected to be around 10 MT each, while together they would account for nearly half of the total global exports.

(Source: Rice Market Monitor, April 2017– Food and Agriculture Organisation)

Rice utilisation in 2016-17 is forecasted to grow 1% to 500.3 MMT. Of this, nearly 401.8 MMT would be towards food intake, 18.3 MMT for animal feed and the remaining 80.2 MMT for other uses.

Inventory

With the global rice consumption keeping pace with the production growth, the rice inventory at the close of 2016-17 marketing year is likely to remain steady at 171.3 MMT. As a result, the global stock-to-use ratio would remain at comfortable levels of 33.8% this season. China with 101.2 MMT of stock would hold the largest stock of rice. (Source: Rice Market Monitor, April 2017– Food and Agriculture Organisation)

Outlook

In 2017, the global paddy production is expected to reach 758.9 MMT (503.8 MMT on milled basis) on the assumption of normal

growing conditions, with majority of growth coming from Asian region. However, the growth rate would be slower at 0.9% compared to 1.6% in 2016-17 suggesting a slowdown in rate of production growth. This would be driven by reduced production from large producers in Asia, who have witnessed diminished returns from large harvests. Rice utilisation in 2017-18 is expected to surge by 6.2 MMT to 506.5 MMT. Consumption of rice as food item would continue to be the major driver. Global trade in 2017 is expected to increase by 4% to 43.3 MMT with Asia, especially China, leading in terms of imports at 20.8 MMT. In terms of exports, India is expected to lead with shipment rising 8% to 10.8 MMT followed by Thailand at 10.4 MMT.

INDIAN RICE OVERVIEW

Overview

2

Δ

Rice is amongst the most crucial food crops and staple diet for majority of the country's population. India is the second largest producer and largest exporter of rice. West Bengal, Uttar Pradesh, Andhra Pradesh, Telangana, Punjab, Odisha, Bihar, Chhattisgarh and Tamil Nadu are amongst the top rice producing states in the country. Fertile soil, adequate monsoon, favourable weather conditions, and appropriate farming skills make rice farming predominant in India. Besides, low cost of production and quality of paddy makes India one of the most favourable export destinations for rice. It is also the largest producers and exporters of premium Basmati Rice that is highly renowned across the globe.

Facts on India's Rice Industry

- India is the second largest producer and
largest exporter of rice in the world
 - **India** continues to remain competitively positioned in the global rice market at the back of surplus rice stockpiles and improved production methods
 - In 2016-17, **India** accounted for nearly 23% of the total global rice production of 500 MMT
 - **Basmati Rice** is a GI (geographical indication) product which is produced only in India and Pakistan
 - 70% Basmati Rice is produced by India
 - 30% Basmati Rice is produced by Pakistan
- 5 Currently, the organised Basmati Rice segment is about 40% and the unorganised trade accounts for the remaining 60%

The industry is witnessing a steady shift towards organised retail on the back of the strong growth drivers in the Indian FMCG and packaged goods space

Production

The rice production during the year 2016-17 is expected to reach record levels of 109.15 MMT (4.55 growth over 2015-16). This growth was primarily driven by bumper harvests during the Kharif season which witnessed normal pattern of rainfall resulting in production growing by 5.12% to 96.09 MMT. However, in the Rabi season, the production was nearly flat at 13.06 MMT driven by tight water availabilities in southern producing states, which led to decline in planting of irrigated crops for the third year in a row. The minimum support prices (MSP) or the pre-decided prices at which the government procures paddy from farmers continued its rising trend to incentivise the farmers. For the year 2016-17, the government increased the MSP for common and grade 'A' paddy price to ₹ 1,470/quintal and ₹ 1,510/quintal respectively. Until February 15, 2017, the total paddy procurement by the government reached 292.31 lacs tonnes which was nearly 28 lacs tonnes higher than that in the similar period in the previous year. Exports

In 2016-17, India is the largest exporter of rice for fifth year in a row. However the growth rate of exports was lower than that of production driven by Government's fast procurement of Kharif production, prospects of nearly flat Rabi harvest and strengthening of Indian Rupee in the past few months. Outlook

With IMD's projections of rainfall likely to be 96% of the long period average, the Agriculture Minister Radha Mohan Singh expects the foodgrain production to touch new heights. Government's initiative to make rice production more lucrative by increasing the minimum support prices (MSP) is also likely to contribute to the growth factor. Besides, the government is also focussed on addressing the low productivity problems through its National Food Security Mission and the Bringing Green Revolution to Eastern India programmes. Initiatives to bolster agricultural credit, and enhance coverage of irrigation, soil health and crop insurance (through Pradhan Mantri Fasal Bima Yojana) are likely to benefit the agriculture sector in the coming years. Driven by these, the FAO projects the total rice production in the country is likely to reach 110.2 MMT. (Source: Rice Market Monitor – FAO, Ministry of Agriculture)

INDIAN BASMATI RICE OVERVIEW

Overview

The Indian Basmati Rice (aromatic long grain rice) is amongst the most renowned rice variants globally. It has even received Geographical Indicated (GI) Protection which means that only the long grain aromatic rice cultivated in the foothills of the Indo-Gangetic plain can use the term 'Basmati'. It is amongst the best quality rice commanding a premium in the international market. The key Basmati Rice producing states in India includes Jammu and Kashmir, Punjab, Haryana, Uttarakhand, and western Uttar Pradesh.

Production

In 2016-17, the Basmati Rice production is likely to decline by over 18% from 9.8 MMT in 2015-16 to 8 MMT driven by a sharp decline in acreage. Late rainfall coupled with dry spells in key growing areas resulted in area under Basmati paddy declining by nearly 20% from 2.1 million hectares in 2015-16 to 1.6 million hectares in 2016-17. Haryana and Punjab are likely to account for nearly 40-45% production followed by Uttar Pradesh at

10-15%. This resulted in the share of Basmati Rice to total rice production declining from 9.4% in 2015-16 to 7.3%.

One of the major drivers for Basmati Rice has been the increasing domestic demand over the past couple of years. However, in the year 2016-17, 102.72 million tonnes rice is available for the domestic consumption.

Exports

The exports of Basmati Rice in 2016-17 declined from 4.04 MMT in 2015-16 to 4.00 MMT in 2016-17. Gulf countries, Iran and Iraq accounted for nearly 80% of the total exports during the year. The realisation per tonne declined by 3.81% from ₹ 56,156

per tonne in 2015-16 to ₹ 54,016 per tonne in 2016-17. During the year, Basmati Rice exports as a proportion of overall rice exports accounted for nearly 37% in volume terms and nearly 56% in value terms.

Outlook

The year 2017-18 is likely to be a good year for Basmati Rice with area under cultivation expected to increase by 25% driven by forecast of normal rainfall and favourable climatic condition. This shall in all likelihood enhance production and exports. Though the export demand for Basmati remained weak in the past two years, it is likely to improve with Iran recommencing procurement from India since January-March 2017 quarter. Procurement from Iran is likely to be around 1 million tonnes. Besides, China has also identified 14 Indian firms for exports, which opens up opportunity for direct exports to the country contrary to the practice of small indirect exports earlier through Hong Kong route. In addition to this, with the firming up of paddy prices, the average realisations are likely to increase which in turn shall boost revenues. In 2017-18, the exports is likely to be around 4.09 MMT in volume terms and ₹ 22,000-22,500 Crores in value terms. (Source: Business Standard, ICRA).

BUSINESS SEGMENT REVIEW

Agri division

The Company's agri business spans the entire value chain of rice, right from the seed to the grain, across agro processing and marketing. In 2016-17, KRBL continued to lead the industry ranking in terms of Basmati Rice production and trade, both within and outside the country. Sustained quality focus, inhouse R&D capabilities, strong backward and forward linkages and a visionary management supported by a dedicated team continued to steer the quality and growth for KRBL during the year. In addition to this, a favourable monsoon further contributed to good harvests, resulting in the Company's impressive performance in terms of revenue and profitability.

The total sales for the financial year 2016-17 from agri division was ₹ 3,051 Crores, with Rice sales accounted to 92% of total revenue from operations. Export sales during the year remained constant except for export sales of 95,000 MT [in Tender sales] executed by the Company last year and the same did not come this year. Domestic sales grew by 31% to ₹ 2,054 Crores.

Company's rice milling capacity of 195 MT/hour, the largest in the world, lends it a distinctive edge making operations extremely productive and cost effective. Besides, the Company's state-of-the-art storage and warehousing capacities, innovative marketing approach, expanding distribution network, deep-rooted relations with farmers through structured contract farming OR contact farming and strong R&D capabilities further enhances its long-term business sustainability and revenue visibility. These strengths along with rising brand popularity positions the Company favourably to capitalise on the growing demand for Basmati Rice within and outside India.

The Company has also strategically placed its product range across all major price points to garner a major share in the organised Basmati Rice market.

Strong farmer Relations and Procurement

The Company's deep-rooted relation with farmers is its biggest strength. Through its contact farming methodology, the Company is adequately able to monitor quality while consistently reaching out to farmers with innovative initiatives and technological support for further improvement. This also helps insulate the farmers from market risks and uncertainties. In this mutually beneficial relation, the Company gains through uninterrupted supply of high quality paddy and the farmers get security.

State-of-the-art Infrastructure

Besides scaling capacities, KRBL consistently focusses on upgrading its facilities through technological investments and focussing on enhancing operational efficiency. Its state-of-theart, integrated manufacturing facilities in Dhuri and Gautam Budh Nagar unit have given the Company a strong manufacturing edge. The Company also has an ultra-modern packaging unit and foodgrain warehousing facility at Alipur and Sonipat unit.

DOMESTIC AGRI BUSINESS PERFORMANCE

In India, KRBL commands a 32% market share, making it the largest player by a margin. With a massive distribution network, the Company has a robust pan-India presence enabling its product to reach the remotest corners of the country, a feat unmatched by any of the peers in the branded rice segment.

In 2016-17, the sales from domestic rice business increased by 34% to ₹ 1,822 Crores in value terms. Basmati contributed 96% to the domestic revenues from rice sales.

Contrary to the previous year where the product prices were lowered driven by declining commodity prices, in 2016-17 the Company undertook calibrated price increase to pass on the steep rise in commodity prices. The average selling prices for branded rice increased by 12.5% to ₹ 45 per kg in 2016-17 as compared to ₹ 40 per kg in 2015-16. As a result, the sales growth in value terms was higher compared to the volume terms. The changing lifestyle and consumer patterns coupled with rising disposable income and middle class population is boosting branded Basmati Rice demand in the country.

India Gate continued to lead the Indian growth story for KRBL by contributing to a majority portion of the Company's domestic sales. India Gate brand performance has been steered by improving sales in the consumer pack categories of 1 kg and 5 kg. This has been aided by healthy marketing, trade investments, market development and in-market execution. Other brands that performed well in some selected regions during the year were Unity, Doon, Necklace which were particularly popular in the institutional segment.

The Non-Basmati India Gate Brown Rice also continued to find an expanding consumer base in the top metros of India on its health factor. The Company's efforts during the past few years to strengthen its brand Unity found considerable success with the products gaining significant acceptance in the domestic market.

In domestic market, the Company distributes its products through three channels – traditional, modern and e-commerce. For each channel, the Company has devised diverse strategies to grow business. In traditional, the focus is on improving quality of distribution, in modern, to enhance presence and in e-commerce to build loyalty.

Consumer Pack Segment

In the consumer pack segment, the Company's sales in 2016-17 increased by 28.66% in volume terms and by 25.55% in value terms. Growth was stronger during the third and fourth quarter of the year driven by implementation of demonetisation which impacted the business of unorganised players who were unable to operate in cash crunch scenario. KRBL, with its brand goodwill, robust distribution network and trade investments was able to capitalise on this opportunity and capture a significant share of market during this phase.

The Company sub-segments its consumer pack segment into India Gate brand and other brands which include Bemisal, Nur Jahan and Doon.

The India Gate brand, having an established market, enjoys a unique premium positioning in the market. Its USP of having the longest rice grains, best in terms of quality, aroma, aesthetics and the concept of two years ageing make it the most premium brand in the segment commanding premium pricing, while the other brands are lower priced and target the bottom of the pyramid.

This premium segment was created with the rationale of capturing market share from the huge unbranded Basmati Rice market, which by estimates account for nearly 40-45% of the overall Basmati Rice market in India, and subsequently upgrade them to India Gate.

The changing lifestyle and consumer patterns coupled with rising disposable income and middle class population is boosting branded Basmati Rice demand in the country.

India ki Puraani Aadat

During the year, the Company launched its new brand philosophy 'India Ki Puraani Aadat'. India ki Puraani Aadat was developed as a campaign to allow us to do just that. Reinforcing both, the claim of 2 years aged rice and establishing us as India's oldest and most preferred Basmati by going beyond the rice category- talking about those endearing Indian habits we have, and love. The campaign focussed on small, sweet habits and customs surrounding our culture, festivals, celebrations and food habits that are uniquely Indian and that we wouldn't change for the world. It is showcasing these hugely relatable everyday Indian 'habits' that helped us connect with consumers across age groups and regions, and made this one of our most successful campaigns.

This campaign was also promoted through radio and digital media. The digital media campaign garnered one million video views and 195,000 fans on Facebook.

The immediate impact of the campaign launched during December 2016-March 2017, was evident in a 30.98% growth in the Company's Q4 sales of India Gate consumer pack. Besides, it also led to enhancement in the consumer brand perception scores on core brand attributes. The consumer perception for:

- Visually appealing rice grains improved from 57% to 66%
- Brand that ages grains longer time improved from 58% to 64%

TasteTogetherness

The Company also created a series of 11 cooking videos with star Chef Kunal Kapur. These videos were part of Company's earlier brand campaign '#TasteTogetherness'. Through these videos, Chef Kunal Kapur explained viewers the advantage of ageing rice, and its impact on length, yield and appearance of rice grains. The Chef also communicated that Basmati Rice is best when aged, while bringing out India Gate Basmati Rice's USP (unique selling proposition) of two years ageing, which makes it the best product. These videos, circulated across digital media together garnered over two million views.

Digital Aspect and Consumer Engagement

KRBL has identified social strategy as core growth strategy for the future to engage with consumers. In view of this, the Company has focussed on associating with influencers and food bloggers to undertake advocacy programmes. This shall facilitate in spreading digital word of mouth and awareness in social media necessary to engage customers.

The Company is also investing in sampling and distribution initiatives whereby it shall arrange for food stalls across major retail outlets. This shall enable the Company to reach out to target audience and induce trial rate.

In India, the rural category of the Basmati Rice industry segment witnessed a 70% growth and this is where the majority of the growth will come from in the coming years. The Company's strong focus on this segment has enabled it to grow market share while ensuring that it is moving in the right direction.

Highest All India Traditional Trade Market Share of KRBL Limited

In value terms, India Gate Basmati Rice is a leading brand dominating the all India traditional trade with a 28% market share.

Modern trade

In its modern trade distribution channel, the Company has enhanced its presence to 6,500 stores, while growing market share from 27.4% to 36.9%. Initiatives undertaken by the Company towards retail activation and dominating shelf-space, has resulted in improved same-store sales and category share. The Company's strong business development team undertakes significant research and analysis to identify the right city, right catchment area and right store. This facilitates the Company in consistently growing its market share.

E-commerce

Viewing the huge scope of opportunity from the online distribution network, the Company has focussed on strengthening its e-commerce channel. The Company tied-up with major players like Big Basket, Grofers, Amazon, Shopfilo, JBL, and Flipkart among others. It has also created a dedicated team of professionals to build capabilities and devise effective strategy to drive sales through this channel.

With nearly 40-45% Basmati volumes in India still being sold in loose form, there is enough headroom for the branded players to enhance market share in the consumer pack segment.

(Source: AC Nielsen MAT March 2017 data)

Bulk Packaging Segment

In the bulk packaging segment, the Company's sales grew by 26.9% in volume terms and by 43% in value terms, as compared to last financial year. The segment caters to the requirements of institutional buyers such as hotels, restaurants and caterers.

The industry perception to grow this segment is by having stringent focus on quantity and prices, as brand equity does not matter in institutional sales. However, the Company has created a strong brand in this segment.

The Company's brand positioning for this segment is perfection in every grain which talks about the technical aspects of the products such as fluffy and non-sticky, longer holding time, cooking yield, elongation ratio etc. which is the right fit for target audience. The Company's ability to continuously deliver on these propositions makes it a preferred supplier in this segment.

The Company's two key brands in the segment i.e, Unity and India Gate contribute to 85% of the segmental sales. To enhance brand visibility and market brand proposition, the Company consistently participates in various institutional exhibitions across India. This has facilitated in effective communication of value parameters enabling the Company to create differentiation and command premium over competitors. This has resulted in the growth of Unity brand by 80% in volume terms and by 77% in value terms as compared to last financial year. Some of the prominent institutional buyers include Star Group of Hotels, The Leela and ITC Hotels.

The Company launched the super-premium segment comprising KRBL's most premium and health-oriented products.

Super Premium Segment

This is a new segment created by the Company for building consumer perception. This category comprises KRBL's most premium and health-oriented products. With the rising awareness of health food and rapidly growing super-premium food segment in India, the Company focussed on capitalising this opportunity by re-launching existing product with sharper consumer positioning and also by launching new products. Products in this category include India Gate Classic, India Gate Brown Rice (Basmati and non-Basmati variant) and India Gate Quinoa.

The Company is focussed on growing this segment to enhance its brand equity and margins. In 2016-17, sales volume from this category grew by 19.36%, while in value terms it grew by 10.48%. For 2017-18, the Company intends to grow this segment by nearly 35% in value terms. Products newly launched or re-launched within this category include:

India Gate Quinoa

KRBL launched Quinoa in 250g and 500g packaging. Quinoa being a complete source of protein with high dietary fibre, Vitamin B1 and antioxidants content, low GI, and free of Gluten and Cholesterol is categorised as a super food. This is one vegetarian product which caters to nutritional needs of whole family.

Being a completely new product, consumers are still unreceptive for Quinoa. Thus, in order to promote this product, the Company has initiated a campaign 'Quinoa.Life' which focusses on the whole new lifestyle for India, where health and wellness is a top priority. The campaign, through experts, recipes, tips and conversation with users, shall try to establish that Quinoa is for everyone and that it is not a specialist food but rather a healthier alternative of common Indian food.

For this, the Company is in the process of launching a web asset (www.quinoa.life) that will target six crucial types of consumers – mothers and kids, vegetarians, diabetic and pre-diabetics, people looking to lose weight, people into fitness and athletics, and people following a specific diet because of a lifestyle change such as vegans and gluten free. It would cover all information about Quinoa that a consumer might want to know.

India Gate Brain Metabolism Booster (Brown Basmati Rice)

This product is naturally enriched with GABA (gammaaminobutyric acid) neuro transmitters, a technology from Japan, which increases brain metabolism by enhancing oxygen flow to brain and calm nervous system resulting in enhanced focus, concentration, improved sleep quality and reduced anxiety. The product is primarily targeted to working professionals and school-going children.

• India Gate Weight Watchers Special (Brown Rice)

The product is targeted to the rising fitness consciousness among youths in India. It is low in GI, helps in increasing metabolic process, keeps one full for longer, is Gluten free and can be cooked quickly. This is an existing product that was re-launched for sharper positioning and focussed brand equity.

Sales and distribution

In India, metro and class I towns account for nearly 78% of the overall packaged Basmati Rice demand. However, with these markets nearing saturation, the growth momentum has slowed down. Majority of the growth is now coming from Rest of Urban and Rural markets, where the Company has devised strategic plans and undertaken initiatives for improving quality of distribution and improving reach. To tap these markets, the Company has also launched non-premium Basmati Rice brands to grab market share from the unbranded players dominant here. This has enabled the Company to expand market share in the region from 33.5% in 2015-16 to 42.6% in 2016-17, indicating its move in the right direction.

Besides, the Company has identified Go-To-Market as an important driver of growth and business sustainability. For this the Company has been systematically investing in advanced processes and IT infrastructure to strengthen its capability. The Company is focussed on enhancing the interplay of data analytics and decision-making for enhancing effectiveness. Some of the key initiatives undertaken by the Company towards this include:

- Empowering the sales force with GPS-enabled hand-held devices powered with sales force automation software. This facilitates in faster movement and better effectiveness of sales force in addition to tracking sales team movement, track orders on real-time and optimising resources in the field level. This has enabled the Company to add nearly 21,000 retailers in 2016-17, at a time when overall industry retailer count declined by 1.9%. (Source: AC Nielsen data)
- Undertook geo-tagging of 36,000 outlets and identified them as direct service outlets. This shall facilitate in better monitoring the sales force movement, optimise sales effort, demarcate key outlets, make better decisions and figure out areas requiring actions. The move enabled the Company in optimising assortment and improving order placement. The focus for the coming three years shall be on enhancing geotagging to 100,000 stores.

Digital aspect and consumer engagement

KRBL has identified social strategy as core growth strategy for the future to engage with consumers. In view of this, the

Company has focussed on associating with influencers and food bloggers to undertake advocacy programmes. This shall facilitate in spreading digital word of mouth and awareness in social media necessary to engage customers.

The Company is also investing in sampling and distribution initiatives whereby it shall arrange for food stalls across major retail outlets. This shall enable the Company to reach out to target audience and induce trial rate.

INTERNATIONAL AGRI BUSINESS PERFORMANCE

Backed by its strong brand equity and dealer network, KRBL has developed extensive international presence with products being exported to 75 countries. This makes it the largest player in the Branded Rice Segment with maximum global reach.

The Company further strengthened its export presence in the Middle East, especially Saudi Arabia, UAE, Kuwait, Qatar, Oman and Bahrain among others. The Middle East region accounts for nearly 74% of the Company's total exports sales. KRBL is among the largest branded Basmati Rice player in these countries. It is also amongst the most recognised brands in Lebanon and other Levant Countries.

The Company reported export sales of Rice for ₹ 1,083 Crores in the 2016-17 as against ₹ 1,769 Crores in the same period previous year. The export sales of the Company during the year remains constant except for export sales of 95,000 MT i.e. 514.11 Crores (in tender sale) executed by the Company last year and the same did not come this year.

As the most preferred rice brand, India Gate has 82% market share in the 'premium' category (on RSP basis) in the GCC markets. India Gate's Classic variant is the most preferred brand in Saudi Arabia, Kuwait, UAE, Qatar, Bahrain and Oman.

Nur Jahan premium was launched in the Middle East to take advantage of the growing recognition of Nur Jahan brand. It is positioned at a premium position to Nur Jahan and unlike its parent which competes with Pakistani and Lower priced Indian Basmati brands, Nur Jahan premium competes with premium and mid tier Indian Basmati brands. Nur Jahan premium is launched in South Africa, Qatar, Bahrain and Oman and has been listed in all important retail outlets. The brand is well supported via promotions and marketing campaign. Nur Jahan packing is in gold packing and the Company partnered with Paper Products Packaging to come up with a unique design that

uses metallic and Matt lamination. The packaging design took almost 4 months of joint efforts of both teams.

India Gate Quinoa was also launched in the Middle East and rest of the world with great enthusiasm from distributors and retailers. It is listed across the retail network. Consumers are taking the health foray very positively and Company is trying to increase awareness via digital and conventional marketing formats. Quinoa marks the launch of a series of other health products. The Company is tapping the e-commerce and non-conventional retail outlets by tying up with diet centres, gymnasiums and healthy product outlets. The pack is available globally in 1 lbs poly packing in earthen colours to denote Company philosophy to supply nature's goodness to its consumers.

RESEARCH AND DEVELOPMENT

The Company's strong in-house R&D capability facilitates it to consistently drive quality and operational excellence across its business segments. The various endorsements and certifications received by the Company underlines its quality strength. KRBL is certified as BRC (British Retail Consortium) for meeting the requirements of Global Standard for Food Safety issued by SGS and the SQF Code, 7th Edition, for Comprehensive Safety and Quality Management System. KRBL is also certified by SGS for FSSC (Food Safety System Certification) 22000. This is a clear endorsement of its strong quality thrust.

Being the largest manufacturer of Basmati Rice seed, KRBL has the capacity to handle 20% of India's total Basmati production. Its R&D cell undertakes extensive research on various parameters such as chemistry, quality and ageing of Basmati Rice to constantly improve quality. The R&D cell brings together a team of experienced rice professionals, including farmers, who blend their traditional knowledge with modern technology focussed on improving pre and post harvesting techniques.

The Company's core R&D strength comes from its modern seed farm and product testing centre. The thrust is on continuous upgradation of seed quality, for which the Company works in close coordination with the Indian Agriculture Research Institute (IARI), New Delhi. The collaboration also facilitates continuous improvement in quality cropping methodologies, seed varieties and harvesting techniques of the farmer partners.

The Company has also entered into technical tie-ups with leading machine manufacturers like Bühler (Switzerland), Brock Grain System (USA), Carterday International (USA), Komatsu (Japan), M/s Satake International Bangkok (Thailand) and M/s. Bühler Sortex (England) and Schimaga (Europe). This enables the Company to constantly improve process and enhance operational efficiency.

The Company pioneered the development of premium Pusa 1121 seed variety, which is considered superior than the Pakistan Basmati seed variants.

STRENGTHS, WEAKNESSES, OPPORTUNITIES & THREATS

Strengths

Strong Legacy & Brand Equity

Core competencies built over 127 years of operations propels robust business growth Strong brand reputation and recall contributes to KRBL's global leadership in the Basmati Rice market

Management Strength & Committed Team

Presence of experienced, visionary and far-sighted management team facilitates in making strategic decisions A team of dedicated, committed and talented people enables the realisation of the Company's vision

Integrated Value Chain & R&D Capabilities

Integrated operations and presence across the entire value chain facilitates in controlling costs and quality Strong R&D capabilities facilitates in consistent improvement in quality and operational excellence

Strong Farmer Relations & Dealer Network

Contact farming operations (providing farmers high quality seeds, knowledge on best agricultural practices and facilitating them in sourcing quality inputs) ensures consistency in quality Strong supply chain network enables products to reach pan-India retailers on time to avoid stocking out

State-of-the-art Plants & Storage Facilities

Investment in scaling capacities and upgrading milling technology provide the benefits of economies of scale, and improvement in productivity and product quality Large automated facilities for storage and warehousing enhances operational efficiencies and facilitates in stocking rice for ageing

Strong Legacy & Brand Equity

Own power generation capacities ensures consistent power supply at low cost for continuous production Investments in eco-friendly non-conventional power generation capacities reduces carbon emission

Weaknesses

Climate Dependent

Low rainfall and improper climatic conditions can adversely impact rice plantations

Risks of Crop Damage

Rice, being an agricultural commodity, is prone to plant diseases that can damage the crop.

High Working Capital

Ageing of rice for enhancing quality requires time and high investments making it a capital intensive industry.

Inventory Losses

Fluctuations in the market prices of paddy can lead to inventory losses

Evolving Lifestyles and Consumer Preferences

Changes in consumer lifestyle and preferences is increasing demand for branded rice across modern retail chains

Global Market Expansion and Increased Consumption

Increasing preference and consumption of high quality, aromatic and aesthetically pleasing Basmati Rice globally, especially in the Middle East region is leading to significant increase in demand

Changing Quality Consciousness and Consumer Perception

Consumers' increasing preference for super-premium and healthy food instead of low quality and cheap ones is leading to rise in demand for Basmati Rice

Greater Access to World Market

Increasing acceptance of rice as a staple diet has enhanced accessibility of Basmati Rice in global markets

Threats

Competition from Unorganised Segment

Unorganised players accounting for nearly 40-45% of the Basmati market and operating at low margins pose a threat to the large organised players

Economic Slowdown and Currency Fluctuations

Declining economies of major importing countries and currency fluctuations adversely impacts international/export business

Competition from Pakistan

Increasing competition from Pakistan may impact India's dominance in the global Basmati market

RISKS & CONCERNS

Economic Risk

Various structural initiatives undertaken by the government such as implementation of demonetisation, Goods and Services Tax and other policies may take the country time to adjust and slowdown its economic growth momentum. This in turn can adversely impact the rice industry.

Though, the short-term outlook of the country remains moderate, over the longer run, IMF expects various supply side bottlenecks to clear up with improving private consumption. It expects the Indian economy to grow by 7.2% in 2017-18 and 7.7% in 2018-19. Besides, the economic activities across major countries across the globe is expected to bounce back with revival in financial markets, reducing inventory drags, improving manufacturing and increased trade. This shall facilitate in supporting the Company's international business.

Raw Material Risk

Production of premium quality rice necessitates consistent supply of premium paddy as the key raw material. Inability to procure good quality paddy at right prices can impact production and adversely impact the Company's profitability.

Risk Mitigation

The Company's strong farmer relations, built over decades through a well-established contact farming system, insulate it from this risk. In addition to this, the Company has a wide farming network spread across 250,000 acres in the states of Western Uttar Pradesh, Uttarakhand, Punjab and Haryana.

Premiumness and Quality Risk

KRBL brand reputation and customer loyalty is established on the foundation of premium and high quality products demanded by consumers across the globe. Inability to maintain this premium quality can negatively impact goodwill.

Risk Mitigation

The ability of the Company to procure good paddy, invest in research and development, better equipment and manufacturing facilities, and continuously improve operations has facilitated in consistency in the quality of products. The Company's continuous efforts to rise up to the quality value chain with introduction of new products enables it to remain relevant to the changing preference of consumer, who are looking for health conscious and super-premium foods.

Competition Risk

Rice markets across the globe are witnessing rising competition from unbranded and unorganised players, as well as imitations and private labels. Besides, the rising competition from Pakistan Basmati Rice markets is also negatively impacting India's dominance in the global market. The Company's strong farmer relations, built over decades through a well-established contact farming system, insulate it from this risk.

Risk Mitigation

The Company undertakes robust branding and marketing initiatives that has enabled it to build robust goodwill and consumer loyalty, which facilitates it to retain its leadership position. Additionally, the Company produces diverse range of products catering to diverse consumer segment. This has not only enabled it to cater to the super premium consumers but also the bottom of the pyramid consumers who presently consume unbranded Basmati. This strategy shall enable it to grab market share from the unbranded segment. The Company is also enhancing its distribution quality to enhance its presence in the rural markets. It has also devised diverse strategies to enhance effectiveness of all its trade channels – traditional, modern and e-commerce.

As far as competition from Pakistan market is concerned, the geographical indication (GI) recognition to Indian Basmati Rice shall be crucial. This recognition allows only the aromatic Basmati Rice grown in the Indo-Gangetic plains to use the term 'Basmati Rice' while barring others. This shall enable the Indian players the much-needed immunity for the international markets.

Foreign Exchange Risk

The Company has exports presence in a number of countries. A significant depreciation of Indian rupee can negatively impact revenues.

Risk Mitigation

The Company has in place a well-structured foreign exchange risk management policy to hedge all foreign exchange exposures.

Cost Risk

The nature of Company's business requires significant storage facilities for ageing rice to enhance its premiumness. This involves huge capital and operational cost which in turn makes the business capital intensive. Inability to compensate for this can lead to decline in margins.

Risk Mitigation

The ability of the Company to provide significantly higher quality than competitors enables it to command higher prices for its premium products which easily covers various costs involved.

Besides, the Company also has other lower variant brands that enable it to have regular cash flows. The Company's diversification to power generation further enables it to reduce energy costs, while contributing significantly to the bottom-line as excess power is sold in the open market.

Regulatory Risk

Any regulatory policies that adversely affect the industry would impact the Company's business.

Risk Mitigation

The Company's diversified model with brands catering to bottom of pyramid consumers to super premium consumers insulates it from this challenge. Presence in diverse countries also facilitates in negating downfall in sales from one country with focussed increase in sales in the other.

Product Concentration Risk

The Company's main product is Basmati Rice which makes it susceptible to operational risks as any impact on the Basmati Rice business will badly hit the overall revenues.

Risk Mitigation

As a strategic diversification measure, the Company has ventured in several value-added products and Power business. The Company's multi-brand, multi-product strategy spanning various consumer price points further facilitates in countering this risk.

Geo-political Risk

Frequent political turmoil and unrest in the Middle East - India's biggest export market for Basmati Rice - poses a serious risk to exports.

Risk Mitigation

The Company is negating this risk by strategically diversifying to newer regions like US, Europe, Australia and New Zealand. Africa and China are other markets that have opened up to Indian Basmati Rice.

HUMAN RESOURCE (HR) DEVELOPMENT

People relations are integral to KRBL's growth strategy. The Company has built-up a dedicated and committed team focussed on steering ahead the Management's vision of sustaining the position of being the world's biggest and most preferred rice player. The Company, with its strong HR practices, strives to enhance employee competitiveness by investing in training and skill development. Inspired by the ongoing digital trend and its effectiveness, the Company has also leveraged the digital platform to train its employees and provide the team relevant data anytime anywhere on the go. This allows the employees to remain updated with market information, which is important in making critical decisions. The Company lays great importance to incentive and welfare schemes, which forms an integral part of its HR programme. This enables it to ensure high levels of people motivation and bonding throughout the KRBL hierarchy. Employees are encouraged and motivated to grow across the organisation, while personal and professional growth is ensured through regular interventions.

The Company believes in ethical growth through a transparent and honest work culture. The approach is collaborative, leading to mutual growth of the Company and its employees. With effective efforts being made towards maintaining harmonious and friendly relations with the workers, the Company did not see any labour problems affecting its business during the year under review. As on March 31, 2017, the Company had a total of 2,162 employees.

INFORMATION TECHNOLOGY

Information technology (IT) has been one of the key factors driving the robust growth of the Company and facilitating it to effectively manage its vast network of distribution channels. KRBL is consistently scaling up its IT investments to upgrade its technological processes and develop a framework capable of harnessing the mega opportunities coming in from the online channel.

The Company has implemented SAP for its employees and distributors, facilitating real-time tracking at the distributor and sub-distributor level too. This has led to strengthening of the supply chain efficiencies, with increased qualitative control. Processes have been standardised across the Company to ensure streamlining of the systems across the operational value chain. The Company is also investing massively in data analytics to devise effective sales and distribution strategy.

AUDIT SYSTEMS

With its focus on transparency, ethics and corporate governance of the highest levels, the Company established strong internal controls, which continue to boost its leadership and growth across regions and brands. The Company maintains proper accounting control and monitoring of operational efficiency. Policies are structured to ensure stringent compliance with applicable laws and the Company works towards maintaining the reliability of financial and operational information.

The Company's Audit Committee periodically reviews all audit reports, audit plans, significant audit findings, adequacy of internal controls and compliance with Indian Accounting Standards (Ind AS). The Committee, after detailed reviews, also suggests improvements where it is deemed necessary.

FUTURE OUTLOOK

As a visionary and future-focussed organisation, KRBL has undertaken a series of scaling, branding and operational efficiency improvement initiatives that shall enable it to sustain its success

during the coming years. The Company's focus on creating a niche for through positioning itself as a premium player shall enable it to generate better margins and enhance its return on equity. With a robust financial position and balance leveraged only to the extent of its working capital, the Company is well positioned to surge confidently ahead to further augment growth.

Besides, investments in technology and infrastructure, the Company is also undertaking initiatives to strengthen relations with farmers and build robust people team. This will further enhance its competitive position in the industry, domestically and globally.

The Company shall continue to strengthen its portfolio of renewable energy, which not only facilitates it in reducing carbon footprint but also contributes to the bottom-line through reducing captive power consumption costs and sale of excess power. The segment ensures a diversified source of earning for the Company.

For the coming years, the Company will continue to focus on growing its core rice business by expanding domestic distribution network. The various expansion plan target includes:

- Expanding retail network from 6,65,000 to 8,00,000 within next 2-3 years;
- Deeper penetration in modern trade through engaging 20,000 outlets in the next 2-3 years compared to 6,500 presently;
- Strengthen e-commerce presence and focus on direct delivery to customers; and
- Focus on wellness trend by offering more variants such as brown and organic rice to further consolidate the premium market.

ANNUAL REPORT ON CORPORATE SOCIAL RESPONSIBILITY (CSR) ACTIVITIES

[Pursuant to Section 135 of the Companies Act, 2013 and the Companies (Corporate Social Responsibility Policy) Rules, 2014]

1. Company's policy on CSR – An Overview:

Every organization has the right to exist in a society. With the right, there comes a duty to give back the society a portion of what it receives from it. As a corporate citizen we receive various benefits out of society and it is our coextensive responsibility to pay back in return to the society.

KRBL believes that creation and maximization of value to stakeholders is paramount, and it generates profit in long term. The Company is committed to improving the quality of life of the workforce and their families as well as of the local community and society at large. With the Companies Act, 2013 mandating the Corporate to contribute for social development and welfare, KRBL would fulfil this mandate and supplement the government's efforts.

2. Our CSR Vision:

Endeavour to serve the society and achieve excellence.

3. Our CSR Mission:

Strive to improve our image in the eyes of all the stakeholders by ensuing wellbeing of community around our operation.

4. Composition of the CSR Committee:

| Name of Committee Members | Designation | Category |

"Corporate governance is not a matter or right or wrong - it is more nuanced than that."

Advocate Johan Myburgh

KRBL Limited ('KRBL' or 'the Company') believe that good corporate governance is about ensuring that companies are managed as efficiently as possible in the interests of the stakeholders. Efficient corporate governance requires a clear understanding of the respective roles of the Board and of senior management and their relationships with others in the corporate structure. The relationship of the Board and management shall be characterized by sincerity, their relationship with employees shall be characterized by fairness, their relationship with the communities in which they operate shall be characterized by good citizenship, and their relationship with government shall be characterized by a commitment to compliance.

1. COMPANY'S PHILOSOPHY ON CODE OF GOVERNANCE

In KRBL, Corporate Governance philosophy stems from our belief that corporate governance is an integral element in improving efficiency and growth as well as enhancing investor confidence level. The Board of Directors has the important role of overseeing management performance on behalf of Stakeholders. Stakeholders necessarily have little voice in the day to day management of corporate operations, but have the right to elect representatives (Directors) to look out for their interests and to receive the information they need to make investment and voting decisions.

Over the last few years, the Board of Directors of your Company has from time to time developed corporate governance practices to enable the Directors to effectively and efficiently discharge their responsibilities individually and collectively to the shareholders of the Company in the areas of; - fiduciary duties - oversight of the Management - evaluation of the Management performance – support and guidance in shaping company policies and business strategies.

KRBL Corporate Governance has been a high priority both in letter as well as in spirit. The Company's Board of Directors represents the Stakeholders interest in perpetuating a successful business and optimizing long term financial returns in a manner consistent with applicable legal requirements and ethical considerations. The Board is responsible for identifying and taking reasonable actions to help and assure that the Company is managed in a way designed to achieve this result.

The Company is fully compliant with the mandatory requirements of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as the "SEBI

Listing Regulations") formulated by the Securities and Exchange Board of India.

2. BOARD OF DIRECTORS

A. SIZE AND COMPOSITION OF BOARD

INDEPENDENT AUDITORS' REPORT ON CONSOLIDATED IND AS FINANCIAL STATEMENTS

To the Members of KRBL Limited, New Delhi

REPORT ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

We have audited the accompanying Consolidated Ind AS Financial Statements of KRBL Limited (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") which comprising the Consolidated Balance Sheet as at March 31, 2017, the Consolidated Statement of Profit and Loss [including other comprehensive income], the Consolidated Cash Flow Statement and Consolidated Statements of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the Consolidated Ind AS Financial Statements").

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

The Holding Company's Board of Directors are responsible for the preparation of these Consolidated Ind AS Financial Statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the Consolidated financial position, Consolidated financial performance [including other comprehensive income] and Consolidated cash flows, Consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (particularly Accounting Standard AS-21, Consolidated Ind AS Financial Statements and Accounting Standard AS-27, Financial Reporting of Interest in Joint Ventures). The respective Board of Directors of the companies are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidates Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Ind AS Financial Statements by the Directors of the Holding Company, as aforesaid.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these Consolidated Ind AS Financial Statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Ind AS Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Consolidated Ind AS Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Ind AS Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Holding Company's preparation of the Consolidated Ind AS Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Holding Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Directors, as well as evaluating the overall presentation of the Consolidated Ind AS Financial Statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Ind AS Financial Statements.

OPINION

ANNEXURE I TO THE INDEPENDENT AUDITORS' REPORT ON THE REPORT ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

(Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act)

In conjunction with our audit of the Consolidated Ind AS Financial Statements of KRBL Limited ("the Holding Company") as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiary companies incorporated as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding company and its subsidiary companies are responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and audit evidence obtained by other auditor in terms of their report referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the company's internal financial controls system over financial reporting.

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls over financial reporting includes those policies and procedures that.

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal

ANNEXURE I TO THE INDEPENDENT AUDITORS' REPORT ON THE REPORT ON THE CONSOLIDATED IND AS FINANCIAL STATEMENTS

financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Holding Company and its subsidiary companies have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal controls over financial reporting criteria established by the company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

OTHER MATTERS

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in sofar as it relates to subsidiary companies is based on the corresponding report of the auditor of such company.

1. COMPANY INFORMATION

- KRBL Limited (the Company) is a Domestic Public Limited Company and listed on the Bombay Stock Exchange Ltd. (BSE) and National Stock Exchange of India Ltd. (NSE). The Company is World's leading Basmati Rice player with milling capacity of 195 MT per hour. The company has fully integrated operations with involvement in every aspect of Basmati value chain, right from seed development, contact farming, procurement of paddy, storage, processing, packaging, branding and marketing. Among the many brands launched by the company "India Gate" is the flagship brand both in Domestic and International Markets.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Principles of Consolidation

- The Consolidated financial statements relates to KRBL Limited ('the Company') and its subsidiary Companies ('the Group Companies'). The consolidated financial statements have been prepared on the following basis:
- The financial statements of the parent and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, revenues and expenses after eliminating intra-Group balances / transactions and resulting profits in full.
- The results and financial position of all the Group Companies are translated into the reporting currency as follows:
 - Current Assets and Liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
 - (ii) Income and expenses for each income statement are translated at average exchange rates (unless average rate is not reasonable at the rates prevailing on the transaction dates, in such case income and expenses are translated at the rate on the dates of the transactions); and
 - (iii) All resulting exchange differences are accumulated in foreign currency translation reserve until the disposal of net investment.
- Minority interest's share in net assets of 'the Group' is identified and presented in the consolidated balance sheet separate from liabilities and the equity of the Company's shareholders.

2.2 Basis of Preparation

- These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. These financial statements for the year ended March 31, 2017 are prepared by the company under Ind AS for the first time. For all periods upto and including the year ended March 31, 2016, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013. read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India immediately before adopting Ind AS. The financial statements for the year ended March 31, 2016 and the opening Balance Sheet as at April 01, 2015 have been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from Previous GAAP to Ind AS on the Company's Balance Sheet. Statement of Profit and Loss and Statement of Cash Flows are provided in Other Notes Forming part of the financial statements.
- The Financial Statements have been prepared on the historical cost convention on going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at April 01, 2015 being the 'date of transition to Ind AS'.

2.3 Use of Estimates and Judgments

- The preparation of Financial Statements requires management to make certain assumptions and estimates that affect the reported amount, the Financial Statements and Notes thereto. Difference between actual results and estimates are recognized in the period in which they materialize.

2.4 Property, Plant & Equipment including Intangible Assets

 Property, Plant & Equipment are stated at cost of acquisition / installation inclusive of freight, duties, and taxes and all incidental expenses and net of accumulated depreciation. In respect of major projects

involving construction, related pre-operational expenses form part of the value of assets capitalized. Expenses capitalized also include applicable borrowing costs. All upgradation / enhancements are generally charged off as revenue expenditure unless they bring similar significant additional benefits.

- Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress" and stated at the amount spent upto the date of Balance Sheet.
- Freehold Land is stated at original cost of acquisition.
- Intangible assets are stated at their cost of acquisition.

2.5 Depreciation

- Depreciation on fixed assets has been provided on straight line method, in terms of useful life of the Assets as prescribed in Schedule II to the Companies Act 2013.
- Computer software charges, patent, trademark & design and goodwill are recognized as intangible assets and amortized on straight line method over a period of 10 years except one software which is depreciated in 6 years on straight line method based upon life of servers where it is installed.

2.6 Investment Properties

 Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

2.7 Investments and Other Financial Assets

- **Classification:** The Company classifies its financial assets in the following measurement categories:
 - those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
 - (ii) those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

- Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial

assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

2.7.1 Investments

 Investments that are readily realizable and are intended to be held for not more than one year at the point of acquisition are classified as "Current Investments". All other Investments are classified as "Non-Current Investments". The Company measures its Current investments at fair value through profit and loss. Non-current investments are stated at cost. A provision for diminution is made to recognize a decline, other than temporary, in the value of non-current investments. Upon first-time adoption of Ind AS, the Company has elected to measure its investments in subsidiaries at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 01, 2015.

2.8 Dividend to equity shareholders

- Dividend to equity shareholders is recognised as a liability and deducted from shareholders' equity, in the period in which the dividends are approved by the equity shareholders in the general meeting.

2.9 Inventories

- Items of inventories are measured at lower of cost or net realizable value. Raw material on shop floor and work-in process is taken as part of raw material and valued accordingly.
- The cost is calculated on weighted average cost method and it comprises expenditure incurred in normal course of business in bringing such inventories to its location and includes, where applicable, appropriate overheads based on normal level of activity. Obsolete, slow moving & defective inventories are identified at the time of physical verification and wherever necessary a provision is made.
- By-products are valued at net realizable value and are deducted from the cost of main product.
- Inventory of Finished Excisable products are valued inclusive of Excise Duty.

2.10 Cash and Cash Equivalent

- Cash and cash equivalents are short-term, highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

2.11 Revenue Recognition and Accounting for Sales & Services

- Revenue from sale of goods is recognised when all the significant risk and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract, there is no continuing managerial involvement with the goods and the amount of revenue can be measured reliably. On recognition of revenue the Company retains no effective control of the goods transferred to a degree usually associated with ownership and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue is measured at fair value of the consideration received or receivable. export sales are adjusted for exchange fluctuations on exports realized during the year and the trade receivable in foreign exchange which are restated at the year end. Domestic sales are recognized net of discounts, Scheme on Sales, Sales Tax, Sale Returns and Excise Duty.
- Sale of energy is accounted for on basis of energy supplied. Sale of Certified Emission Reduction (CER) is recognized as income on delivery of CERs to the customer. Sale of Renewable Energy Certificate (REC) is recognized as income on sale of REC on the IEX/PXIL.
- Dividend income is recognised when the right to receive Dividend is established. Revenue and Expenditure are accounted for on going concern basis. Interest Income / Expenditure is recognized using the time proportion method based on the rates implicit in the transaction.
- Revenue in respect of Insurance / others claims, Interest, Commission, etc. is recognised only when it is reasonably certain that the ultimate collection will be made.

2.12 Research and Development

- Revenue expenditure on Research & Development is written off in the year in which it is incurred. Capital Expenditure on Research & Development is included under Fixed Assets.

2.13 Employee Benefits

 Contributions to defined provident fund are charged to the statement of profit and loss on accrual basis.

2.14 Derivative financial instruments

- Derivative financial instruments such as forward contracts, option contracts and cross currency swaps, to hedge its foreign currency risks are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value with changes in fair value recognised in the Statement of Profit and Loss in the period when they arise.

2.15 Foreign Currency Transactions

- Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.
- Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.
- In respect of Non integral foreign operation both monetary and non-monetary items are translated at the closing rate and resultant difference is accumulated in foreign currency translation reserve, until the disposal of net investment.
- Non monetary foreign currency item are carried at cost.

2.16 Government Grant

- Grants from the government are recognised when there is reasonable assurance that the grant will be received and the Company will comply with all attached conditions. Grant received from government towards fixed assets acquired/constructed by the Company is deducted out of gross value of the asset acquired/ constructed and depreciation is charged accordingly.

2.17 Borrowing

- Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method.

2.18 Borrowing Costs

- Interest and other borrowing costs attributable to qualifying assets are capitalised as a part of such assets till such time the assets are ready for use. Other interest and borrowing costs are charged to Statement of Profit and Loss.

2.19 Income taxes

- The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences. Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are excepted to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled. Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences.
- Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively the liability of Company on Account of Income Tax is estimated considering the provisions of Income tax Act, 1961.
- Deferred tax is recognized subject to the consideration of prudence on timing differences being the difference between book and tax profits that originate in one year and capable of reversal in one or more subsequent years.

2.20 Leases

- i) As a lessee:
 - Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company, as lessee, are classified as operating leases. Payments made under operating leases are charged to the Statement of

Profit and Loss on a straight-line basis over the period of the lease.

ii) As a lessor:

- Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term.

2.21 Provisions, Contingent Liability and Contingent Assets

The Company creates a provision when there is a present obligation as a result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. A disclosure of contingent liability is made when there is a possible obligation or a present obligation that will probably not require outflow of resources or where a reliable estimate of the obligation cannot be made. Contingent Assets neither recognised nor disclosed in the Financial Statement.

2.22 Segment Reporting

Segments are identified based on dominant source and nature of risks and returns and internal financial reporting system to the management Inter segment revenue are accounted for on the basis of transactions which are primarily market led. Revenue and expenses which relate to enterprises as a whole and are not attributable to segments are included under "Other Unallocable Expenditure Net of Unallocable Income".

2.23 Financial and Management Information System

- An Integrated Accounting System has been put to practice which unifies both Financial Books and Costing Records. The books of account and other records have been designated to facilitate compliance with the relevant provisions of the Companies Act on one hand and provide Internal Financial Reporting System for Planning, Review and Internal Control on the other. The Cost Accounts are designed to adopt Costing Systems appropriate to the business carried out by the Division, with each Division incorporating into its costing system, the basic tenets and principles of Standard Costing, Budgetary Control and Marginal Costing as appropriate.

2.24 Impairment of Financial Asset

 Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category.

2.25 Impairment of Non-Financial Asset

The Company assesses at each Balance Sheet date whether there is any indication that an assets may be impaired. If any such Indication exists; the Company estimates the recoverable amount of assets. If such recoverable amount of the assets or the recoverable amount of the cash generating unit to which the assets belong is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of Profit & Loss. If at the Balance Sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the assets is reflected at recoverable amount.

2.26 Mergers/Amalgamation

3. FIRST TIME ADOPTION OF IND AS

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from April 01, 2016, with a transition date of April 01, 2015. These financial statements for the year ended March 31, 2017 are the first financial statements the Company has prepared under Ind AS. For all periods upto and including the year ended March 31, 2016, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('Previous GAAP').

The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements be applied retrospectively and consistently for all financial years presented. Accordingly, the Company has prepared financial statements which comply with Ind AS for year ended March 31, 2017, together with the comparative information as at and for the year ended March 31, 2016 and the opening Ind AS Balance Sheet as at April 01, 2015, the date of transition to Ind AS.

In preparing these Ind AS financial statements, the Company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP have been recognised directly in retained earnings.

(a) Optional exemptions from retrospective application

Ind AS 101 permits first-time adopters certain exemptions from retrospective application of certain requirements under Ind AS. The Company has elected to apply the following optional exemptions from retrospective application:

(i) Deemed cost for property, plant and equipment and intangible assets

The Company has elected to measure all its property, plant and equipment and intangible assets at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS.

(ii) Investment in subsidiaries

The Company has elected to measure its investments in subsidiaries at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS.

(b) Mandatory Exceptions to retrospective application

The Company has applied the following exceptions to the retrospective application of Ind AS as mandatorily required under Ind AS 101:

(i) Estimates

On assessment of the estimates made under the Previous GAAP financial statements, the Company has concluded that there is no necessity to revise the estimates under Ind AS, as there is no objective evidence that those estimates were in error. However, estimates that were required under Ind AS but not required under Previous GAAP are made by the Company for the relevant reporting dates reflecting conditions existing as at that date.

(ii) Classification and measurement of financial assets

The classification of financial assets to be measured at amortised cost or fair value through profit/loss is made on the basis of the facts and circumstances that existed on the date of transition to Ind AS.

| 2 | Leave Encashment (unfunded) | 142.57 | 133.90 | 113.78 |

(b) The Company has classified the various benefits provided to employees as under:

Gratuity: The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the Company makes contributions to recognised funds in India.

Leave Encashment: The Company provides for Leave Encashment for during the year on an arithmetical basis and the same is payable to the employees on separation from the Company due to death, retirement, superannuation or resignation. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the Balance Sheet date.

Provident Fund: Retirement benefit in the form of provident fund is a defined contribution scheme. All the employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and the Company contribute monthly at a stipulated rate. Contributions are made to PF in India for employees at the rate of 12% of the basic salary as per the rules and regulations. The Company has no liability for future provident fund benefits other than its annual contribution and recognises such contributions as an expense in the period in which employee renders the related service. The contributions are made to recognised provident fund administered by the government.

(c) The assumptions used for the actuarial valuation are as under:

Significant estimates with respect to Defined benefit plans:

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in India.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates in India.

(d) The following tables summarise the components of net benefit expense recognized in the statement of profit or loss and the funded status and amounts recognized in the balance sheet for the respective plans:

31.06. DISCLOSURE IN RESPECT OF FINANCIAL RISK MANAGEMENT:

1 Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including cash and cash equivalents and deposits with banks and financial institutions.

Credit risk management:

i) Trade receivable related credit risk

Concentrations of credit risk with respect to trade receivables are limited, due to the customer base being large and diverse. All trade receivables are reviewed and assessed for default on routine basis. Our historical experience of collecting receivables, supported by the level of default, is that credit risk is low and so trade receivables are considered to be a single class of financial assets.

ii) Other financial assets

The Company maintains exposure in cash and cash equivalents, term deposits with banks, money market liquid mutual funds with financial institutions and derivative financial instruments. The Company's maximum exposure to credit risk as at March 31, 2017, March 31, 2016 and April 01, 2015 is the carrying value of each class of financial assets.

iii) Treasury related credit risk

Credit risk from balances with banks is managed by the Company's treasury department in accordance with the Company's policy. The Company actively manages its exposure to credit risk, reducing surplus cash balances wherever possible through investment in bank deposits. Further, the company ensures it diversifies its treasury related credit risk by investing in bank deposits in different banks. Limits are set for maximum investment in deposits in each bank.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

2 Liquidity Risk:

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses.

The Company regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in interest bearing term deposits and other highly marketable debt investments with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

A Maturities of financial liabilities

The table below analyses the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows.

3 Market risk - foreign exchange risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- currency risk;
- price risk; and
- interest rate risk.

4 DISCLOSURES AS REQUIRED BY INDIAN ACCOUNTING STANDARD (IND AS) 21: THE EFFECT OF CHANGES IN FOREIGN EXCHANGE RATES:

Potential Impact of Risk:

A Currency Risk

The Company operates internationally and consequently the Company is exposed to foreign exchange risk through its sales in overseas market. The Company evaluates exchange rate exposure arising from foreign currency transactions and the Company follows policies which includes the use of derivatives like foreign exchange forward contracts to hedge exposure to foreign currency risk.

The Company has Outstanding Forward contracts as on March 31, 2017 and there is Marked to Market (MTM) unrealized gain/(loss) on forward contracts of ₹ Nil as at March 31, 2017, (March 31, 2016- ₹ 1.22 Lacs, April 01, 2015- ₹ 80.86 Lacs), which has been accounted for accordingly in the books of accounts.

Derivative Instruments

 Outstanding forward exchange contracts as entered into by the Company for the purpose of hedging its foreign currency exposures are as under:

| Foreign currency | Cross | | ell contrac | | D | | (t in Lacs) |
|------------------|----------|----------|-------------|----------|----------|-------------|-------------|
| | Cross | 0 | en contrac | | D | uy contract | |
| | Currency | March | March | April | March | March | April |
| | | 31, 2017 | 31, 2016 | 1, 2015 | 31, 2017 | 31, 2016 | 1, 2015 |
| USD | Indian | Nil | 815.19 | 3,325.88 | Nil | Nil | Nil |
| | Rupee | | | | | | |

ii) Foreign currency exposure recognized by the Company that have not been hedged by a derivative instrument or otherwise are as under:

| S. | Particulars | | ₹ in Lacs | | ι | USD in Lacs | | | |
|----|--|-----------|-----------|----------|----------|-------------|---------|--|--|
| No | | March | March | April | March | March | April | | |
| | | 31, 2017 | 31, 2016 | 1, 2015 | 31, 2017 | 31, 2016 | 1, 2015 | | |
| a) | Receivables in Foreign | | | | | | | | |
| | Currency - Sundry Debtors(including Orders in Hand) | 22,411.42 | 18,055.04 | 5,106.24 | 345.82 | 272.53 | 94.73 | | |
| b) | Payables in Foreign Currency - Sundry Creditors | | | | | | | | |

Apart from above Company has foreign currency Liability (PCFC/Advances received from customers/ECB) of ₹ 30,380.79 Lacs as at March 31, 2017, (March 31, 2016- ₹ 35,704.45 Lacs, April 01, 2015- ₹ 74,105.46 Lacs) at the year end, further as per the IND AS the effect of change in foreign exchange gain/(loss) as on March 31, 2017, is amounting to ₹ (109.56 Lacs) {(March 31, 2016- ₹ (305.19) April 01, 2015- ₹ (32.46 Lacs)} has been taken to statement of profit and loss.

iii) Foreign currency risk sensitivity:

A change of 5% in Foreign currency would have following Impact on profit before tax

| Currency | March | 31, 2017 | March | 31, 2016 | April 0 | (₹ in Lacs) 1, 2015 |
|----------|-------------|-------------|-------------|-------------|-------------|------------------------|
| USD | 5% increase | 5% decrease | 5% increase | 5% decrease | 5% increase | 5% decrease |
| | (1120.57) | 1120.57 | (902.75) | 902.75 | (296.05) | 296.05 |

B Interest Risk

Interest rate sensitivity

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at March 31, 2017, the Company had long term borrowings amounting to ₹ 12,502.00 Lacs (March 31, 2016: ₹ 27,606.06 Lacs, April 01, 2015: ₹ 31,430.25 Lacs)

| | | (₹ in Lacs) |
|--|----------------|----------------|
| A change of 100 bps in interest rates would have following | March 31, 2017 | March 31, 2016 |
| Impact on profit before tax: | | |
| 100 bps increase- decrease in profits | 113.01 | 115.30 |
| 100 bps decrease- increase in profits | (113.01) | (115.30) |

Sensitivity is calculated based on the assumption that amount outstanding as at reporting dates (after considering repayments) were utilised for the whole financial year.

C Price Risk

The Company is mainly exposed to the price risk due to its investment in equity shares and mutual funds. The price risk arises due to uncertainties about the future market values of these investments.

The table below summarises the impact of increases/decreases of the index on the Company's equity and profit for the year. The analysis is based on the assumption that the index has increased by 5% or decreased by 5% with all other variables held constant, and that all the Company's equity instruments moved in line with the index.

| | | | (₹ in Lacs) |
|-----------------------------|----------------|----------------|----------------|
| Impact on profit before tax | March 31, 2017 | March 31, 2016 | April 01, 2015 |
| Sensex increase by 5% | 50.55 | 41.13 | 40.84 |
| Sensex decrease by 5% | (50.55) | (41.13) | (40.84) |

31.07. DISCLOSURES AS REQUIRED BY INDIAN ACCOUNTING STANDARD (IND AS) 113: FAIR VALUE MEASUREMENT

Significant estimates with respect to fair value of financial instruments:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the present valuation technique. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

B Fair value hierarchy

This section explains the judgements and estimates made in determining the fair value of financial instruments that are (a) recognised and measured at fair value (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three level prescribed under the accounting standard. An explanation each level follows underneath the table.

Assets and liabilities measured at amortised cost, for which fair value are disclosed

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices, for example listed equity instruments, traded bonds and mutual funds that have quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques that maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There are no transfers among levels 1, 2 and 3 during the year.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

C Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include the use of discount cash flows for estimating fair value of loans to employees, security deposits and borrowings.

The carrying amounts of trade receivables, cash and cash equivalents, consignment debtors, interest accrued, other receivables, other bank balances, trade payables, employee payables and other current payables are considered to be the same as fair values, due to their short term nature.

The fair value for loans and security deposits were calculated based on cash flow discounted using a current lending rate. They are classified as level 3 fair value in the fair value hierarchy due to the inclusion of unobservable inputs, including own credit risk. The fair value of loans to employees and security deposits approximates the carrying amount.

The fair value for borrowings was calculated based on cash flow discounted using a current borrowing rate. They are classified as level 3 fair value in the fair value hierarchy due to the inclusion of unobservable inputs, including own credit risk. The fair value of borrowings approximates the carrying amount.

31.08. DISCLOSURE IN RESPECT OF CAPITAL MANAGEMENT:

A Risk management

Equity share capital and other equity are considered for the purpose of Company's capital management.

The Company manages its capital so as to safeguard its ability to continue as a going concern and to optimise returns to shareholders. The capital structure of the Company is based on management's judgement of its strategic and day-today needs with a focus on total equity so as to maintain investor, creditors and market confidence.

The management and the Board of Directors monitors the return on capital as well as the level of dividend to shareholders. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

B Dividend

Under Previous GAAP, proposed dividend and related dividend distribution tax was recognised as a provision in the year to which they relate, irrespective of when they are declared. Under Ind AS, dividend and related dividend distribution tax are recognised as a liability in the year in which it is approved by the shareholders in the Annual General Meeting of the Company.

* The previous GAAP figures have been reclassified to conform to Ind AS presentation requirements for the purposes of this note.

A Property, plant & equipment

Under previous GAAP, all leasehold lands are classified as Property, plant & equipment. Under Ind AS, leasehold land is to be recognised as an Operating or a Finance lease as per the definition and classification criteria under Ind AS 17. Accordingly deemed cost of the leasehold land is required to be reclassified from property plant and equipment and to be disclosed as operating leases prepayments under "current assets" and "non-current assets" to be amortised annually. Therefore, Property, plant & equipment has been reduced by ₹ 600.44 lacs (April 01, 2015- ₹ 628.74 lacs) and Prepayments have increased by the same amount.

Depreciation has decreased by ₹ 28.29 lacs and lease expenses have increased by the same amount.

B Investment property

Under previous GAAP, building given for the purpose of earning rental income was a part of property, plant & equipment, however as per Ind AS, the same needs to be disclosed as a part of investment property. Hence, warehouse at Kandla has been reclassified from Property, plant & equipment to Investment property ₹ 446.39 lacs (April 01, 2015-464.28 lacs).

C Discounting of security deposit

Under the previous GAAP, interest free security deposits are recorded at their transaction value. Under Ind AS, all financial assets are required to be recognised at fair value. Accordingly, the Company has fair valued the security deposits under Ind AS. Difference between fair value of security deposits and the carrying value (transaction value) as per Previous GAAP has been recognised as prepaid rent. Consequently, the amount of security deposit has been decreased by ₹ 808.65 lacs (April 01, 2015 - ₹ 824.42 lacs). The prepaid rent increased by ₹ 705 lacs as at March 30, 2016 (April 01, 2015- ₹ 747 lacs). Total equity decreased by ₹ 77.42 lacs as at April 01, 2015. The profit for the year ended March 31, 2016 decreased by ₹ 24.90 due to amortisation of prepaid rent ₹ 41.07 lacs which is partially set off by notional interest income of ₹ 16.17 lacs recognised on these security deposits.

D Fair valuation of Investments

Under the previous GAAP, investments in equity instruments and mutual funds were classified as longterm investments or current investments based on the intended holding period and realisability. Longterm investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value. Under Ind AS, these investments are required to be measured at fair value. At the date of transition to Ind AS, difference between the fair value of the instruments and its Previous GAAP carrying amount has been recognised in retained earnings for ₹ 157.63 lacs. Fair value changes are recognised in the Statement of Profit and Loss for the year ended March 31, 2016 (₹ 91.26 lacs).

E Derivative instruments

Under the Ind AS 109, Forward Contracts are carried at fair value and the resultant gains and losses are recorded in the statement of Profit and Loss. Accordingly, the same has been fair valued resulting in increase of in equity by ₹ 1379.02 lacs as at March 31, 2016 (increase 602.71 lacs as at April 01, 2015). Derivative assets and derivative liabilities are presented on gross basis.

F Proposed dividend

Under the previous GAAP, dividend proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events and accordingly, provision for proposed dividend was recognised as a liability. Under Ind AS, such dividend are recognised when the same is approved by the shareholders in the general meeting. Accordingly, the liability for proposed dividend of ₹ 4001.26 lacs as at April 01, 2015 included under provisions has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity has been increased by an equivalent amount.

G Borrowings

As required under the Ind AS 109 transactions costs incurred towards origination of borrowings have been deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit and loss over the tenure of the borrowing as interest expense, computed using the effective interest rate method corresponding effect being in Long term borrowings and to the extent attributable to Current maturity of long term debts.

Under the previous GAAP, these transaction costs were charged to the profit and loss as and when incurred. As per Ind AS 32 and Ind AS 109, a debt instruments are required to fair valued. Accordingly, debt instruments in foreign currency (external commercial borrowings) were restated at the balance sheet date, resulting in increase in borrowings.

The net impact of above resulted in decrease in amount of borrowings by ₹ 144.18 lacs as at March 31, 2016. However, the impact as at April 01, 2015 was increase in borrowings by ₹ 843.51 lacs) with corresponding impact on equity as at April 01, 2015.

Increase in interest on borrowings due to effective interest rate method is ₹ 82.14 lacs for the year ended March 31, 2016.

H Remeasurements of post employment benefit obligation

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit and loss. Under the previous GAAP, these remeasurements were forming part of the profit and loss for the year. As a result of this change, the profit for the year ended March 31, 2016 increase by ₹ 100.89 lacs along with tax amounting to Rs 35 lacs . There is no impact on the total equity as at March 31, 2016.

I Retained earnings

Retained earnings as at April 01, 2015 has been adjusted consequent to the above Ind AS transition adjustments. Refer Reconciliation of Equity on note no. 31.10 (iv).

J Other comprehensive income

Under Ind AS, all items of income and expense recognised in a period should be included in statement of profit and loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans. The concept of other comprehensive income did not exist under previous GAAP.

K Deferred Tax

Under Previous GAAP, deferred taxes were recognised for the tax effect of timing differences between accounting profit and taxable profit for the year using the income statement approach. Under Ind AS, deferred taxes are recognised using the balance sheet for future tax consequences of temporary differences between the carrying value of assets and liabilities and their respective tax bases. The above difference, together with the consequential tax impact of the other Ind AS transitional adjustments lead to temporary differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or through other comprehensive income.

L Excise duty

Under Previous GAAP, sale of goods was presented as net of excise duty. However, under Ind AS, sale of goods includes excise duty. Excise duty on sale of goods is separately presented on the face of Statement of Profit and Loss. Thus, sale of goods under Ind AS has increased with a corresponding increase in expenses of ₹ 87.16 lacs.

M Revenue from sale of goods

- a) Under Previous GAAP, revenue is recognised net of trade discounts, rebates, sales taxes and excise duties. Under Ind AS, revenue is recognised at the fair value of the consideration received or receivable, after the deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government such as sales tax and value added tax except excise duty. Discounts given include cash coup scheme, quantity discount, cash discount, target incentives etc. which have been classified under "Other expenses" as per previous GAAP have been netted from revenue under Ind AS. Accordingly, Gross revenue has decreased by ₹ 3,034.11 lacs with corresponding effect on "Other expense". There is no impact on profit for the year.
- b) Under previous GAAP, revenue from export sale was recognised on the date of bill of lading. However, under Ind AS, the Company is recognising the revenue from export sale when all the significant risk and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract. Hence, some export sales were derecognised as at April 01, 2015. The net impact resulted in decrease in retained earnings by ₹ 1,004.63 lacs increase in trade receivables by ₹ 11,582.67 lacs , increase in inventories by ₹ 10,110 lacs and in prepayments by ₹ 472.45 lacs.

As at March 30, 2016, sales derecognised in 2015 were now recognised and hence, as at March 30, 2016, net impact resulted in decreased trade receivables by ₹ 9913.81 lacs and increase in inventories by ₹ 5141.88 lacs.

- N Financial assets and liabilities have been reclassified/regrouped wherever necessary according to their definitions.
- O Current tax liability has been disclosed on the face of balance sheet by reclassifying it from Provisions.
- P Staff welfare expenses have been reclassified to "Employee benefit expenses" from "Other expenses" as the nature of such expenses is related to employee welfare.
- Q Certain assets amounting to ₹ 694.30 lacs have been considered as not recoverable, therefore company has made a provision of the aforesaid amount as per Expected Credit Loss (ECL) model.
- R The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended March 31, 2016 as compared with the previous GAAP.

ANNEXURE II TO THE INDEPENDENT AUDITORS' REPORT ON THE STANDALONE IND AS FINANCIAL STATEMENTS

(Report on the Internal Financial Controls under Clause (i) of Subsection 3 of Section 143 of the Act)

We have audited the internal financial controls over financial reporting of KRBL Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Ind AS Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by ICAI.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of Preparation

- These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016. These financial statements for the year ended March 31, 2017 are prepared by the company under Ind AS for the first time. For all periods upto and including the year ended March 31, 2016, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India immediately before adopting Ind AS. The financial statements for the year ended March 31, 2016 and the opening Balance Sheet as at April 01, 2015 have been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from Previous GAAP to Ind AS on the Company's Balance Sheet, Statement of Profit and Loss and Statement of Cash Flows are provided in Other Notes Forming part of the financial statements.
- The Financial Statements have been prepared on the historical cost convention on going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance Sheet as at April 01, 2015 being the 'date of transition to Ind AS'.

2.2 Use of Estimates and Judgments

 The preparation of Financial Statements requires management to make certain assumptions and estimates that affect the reported amount, the Financial Statements and Notes thereto. Difference between actual results and estimates are recognized in the period in which they materialize.

2.3 Property, Plant & Equipment including Intangible Assets

- Property, Plant & Equipment are stated at cost of acquisition / installation inclusive of freight, duties, and taxes and all incidental expenses and net of accumulated depreciation. In respect of major projects involving construction, related pre-operational expenses form part of the value of assets capitalized. Expenses capitalized also include applicable borrowing costs. All upgradation / enhancements are generally charged off as revenue expenditure unless they bring similar significant additional benefits.
- Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress" and stated at the amount spent upto the date of Balance Sheet.
- Freehold Land is stated at original cost of acquisition.
- Intangible assets are stated at their cost of acquisition.

2.4 Depreciation

- Depreciation on fixed assets has been provided on straight line method, in terms of useful life of the Assets as prescribed in Schedule II to the Companies Act 2013.
- Computer software charges, patent, trademark & design and goodwill are recognized as intangible assets and amortized on straight line method over a period of 10 years except one software which is depreciated in 6 years on straight line method based upon life of servers where it is installed.

2.5 Investment Properties

 Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

2.6 Investments and Other Financial Assets

- **Classification:** The Company classifies its financial assets in the following measurement categories:
 - those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and
 - (ii) those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

- **Measurement:** At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

2.6.1 Investments

- Investments that are readily realizable and are intended to be held for not more than one year at the point of acquisition are classified as "Current Investments". All other Investments are classified as "Non-Current Investments". The Company measures its Current investments at fair value through profit and loss. Non-current investments are stated at cost. A provision for diminution is made to recognize a decline, other than temporary, in the value of non-current investments. Upon first-time adoption of Ind AS, the Company has elected to measure its investments in subsidiaries at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 01,2015.

2.7 Dividend to equity shareholders

- Dividend to equity shareholders is recognised as a liability and deducted from shareholders' equity, in the period in which the dividends are approved by the equity shareholders in the general meeting.

2.8 Inventories

- Items of inventories are measured at lower of cost or net realizable value. Raw material on shop floor and work-in process is taken as part of raw material and valued accordingly.
- The cost is calculated on weighted average cost method and it comprises expenditure incurred in

normal course of business in bringing such inventories to its location and includes, where applicable, appropriate overheads based on normal level of activity. Obsolete, slow moving & defective inventories are identified at the time of physical verification and wherever necessary a provision is made.

- By-products are valued at net realizable value and are deducted from the cost of main product.
- Inventory of Finished Excisable products are valued inclusive of Excise Duty.

2.9 Cash and Cash Equivalent

- Cash and cash equivalents are short-term, highly liquid investments that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

2.10 Revenue Recognition and Accounting for Sales & Services

- Revenue from sale of goods is recognised when all the significant risk and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract, there is no continuing managerial involvement with the goods and the amount of revenue can be measured reliably. On recognition of revenue the Company retains no effective control of the goods transferred to a degree usually associated with ownership and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of goods. Revenue is measured at fair value of the consideration received or receivable. Export sales are adjusted for exchange fluctuations on exports realized during the year and the trade receivable in foreign exchange which are restated at the year end. Domestic sales are recognized net of discounts, Scheme on Sales, Sales Tax, Sale Returns and Excise Duty.
- Sale of energy is accounted for on basis of energy supplied. Sale of Certified Emission Reduction (CER) is recognized as income on delivery of CERs to the customer. Sale of Renewable Energy Certificate (REC) is recognized as income on sale of REC on the IEX/PXIL.
- Dividend income is recognised when the right to receive Dividend is established. Revenue and Expenditure are accounted for on going concern basis. Interest Income / Expenditure is recognized using the time proportion method based on the rates implicit in the transaction.

- Revenue in respect of Insurance / others claims, Interest, Commission, etc. is recognised only when it is reasonably certain that the ultimate collection will be made.

2.11 Research and Development

- Revenue expenditure on Research & Development is written off in the year in which it is incurred. Capital Expenditure on Research & Development is included under Fixed Assets.

2.12 Employee Benefits

 Contributions to defined provident fund are charged to the statement of profit and loss on accrual basis.
 Present liability for future payment of gratuity and unavailed leave benefits are determined on the basis of actuarial valuation at the balance sheet date and charged to the statement of profit and loss. Gratuity fund is managed by the Kotak Life Insurance.

2.13 Derivative financial instruments

 Derivative financial instruments such as forward contracts, option contracts and cross currency swaps, to hedge its foreign currency risks are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value with changes in fair value recognised in the Statement of Profit and Loss in the period when they arise.

2.14 Foreign Currency Transactions

- Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.
- Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.
- In respect of Non integral foreign operation both monetary and non-monetary items are translated at the closing rate and resultant difference is accumulated in foreign currency translation reserve, until the disposal of net investment.
- Non monetary foreign currency item are carried at cost.

2.15 Government Grant

- Grants from the government are recognised when there is reasonable assurance that the grant will be received and the Company will comply with all attached conditions. Grant received from government towards fixed assets acquired/constructed by the Company is deducted out of gross value of the asset acquired/ constructed and depreciation is charged accordingly.

2.16 Borrowing

- Borrowings are initially recognised at net of transaction costs incurred and measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the Statement of Profit and Loss over the period of the borrowings using the effective interest method.

2.17 Borrowing Costs

- Interest and other borrowing costs attributable to qualifying assets are capitalised as a part of such assets till such time the assets are ready for use. Other interest and borrowing costs are charged to Statement of Profit and Loss.

2.18 Income taxes

- The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences. Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are excepted to apply when the related deferred income tax assets is realised or the deferred income tax liability is settled. Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, only if, it is probable that future taxable amounts will be available to utilise those temporary differences.
- Current and deferred tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also

recognised in other comprehensive income or directly in equity, respectively the liability of Company on Account of Income Tax is estimated considering the provisions of Income tax Act, 1961.

- Deferred tax is recognized subject to the consideration of prudence on timing differences being the difference between book and tax profits that originate in one year and capable of reversal in one or more subsequent years.

2.19 Leases

- i) As a lessee:
 - Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company, as lessee, are classified as operating leases. Payments made under operating leases are charged to the Statement of Profit and Loss on a straight-line basis over the period of the lease.
- ii) As a lessor:
 - Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term.

2.20 Provisions, Contingent Liability and Contingent Assets

- The Company creates a provision when there is a present obligation as a result of past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of obligation. A disclosure of contingent liability is made when there is a possible obligation or a present obligation that will probably not require outflow of resources or where a reliable estimate of the obligation cannot be made. Contingent Assets neither recognised nor disclosed in the Financial Statement.

2.21 Segment Reporting

- Segments are identified based on dominant source and nature of risks and returns and internal financial reporting system to the management Inter segment revenue are accounted for on the basis of transactions which are primarily market led. Revenue and expenses which relate to enterprises as a whole and are not attributable to segments are included under "Other Unallocable Expenditure Net of Unallocable Income".

2.22 Financial and Management Information System

An Integrated Accounting System has been put to practice which unifies both Financial Books and Costing Records. The books of account and other records have been designated to facilitate compliance with the relevant provisions of the Companies Act on one hand and provide Internal Financial Reporting System for Planning, Review and Internal Control on the other. The Cost Accounts are designed to adopt Costing Systems appropriate to the business carried out by the Division, with each Division incorporating into its costing system, the basic tenets and principles of Standard Costing, Budgetary Control and Marginal Costing as appropriate.

2.23 Impairment of Financial Asset

- Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financials assets in FVTPL category.

2.24 Impairment of Non-Financial Asset

- The Company assesses at each Balance Sheet date whether there is any indication that an assets may be impaired. If any such Indication exists; the Company estimates the recoverable amount of assets. If such recoverable amount of the assets or the recoverable amount of the cash generating unit to which the assets belong is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of Profit & Loss. If at the Balance Sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the assets is reflected at recoverable amount.

2.25 Mergers/Amalgamation

 Mergers / Amalgamations (in the nature of Merger) of other company / body Corporate with the company are accounted for on the basis of purchase method, the Asset / Liabilities being incorporated in terms of values of assets and Liabilities appearing in the books of transferor entity on the date of such merger / amalgamation for the purpose of arriving at the figure of Goodwill or capital reserve.

3. FIRST TIME ADOPTION OF IND AS

- The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from April 01, 2016, with a transition date of April 01, 2015. These financial statements for the year ended March 31, 2017 are the first financial statements the Company has prepared under Ind AS. For all periods upto and including the year ended March 31, 2016, the Company prepared its financial statements in accordance with the accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ('Previous GAAP').
- The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and effective for the first Ind AS financial statements be applied retrospectively and consistently for all financial years presented. Accordingly, the Company has prepared financial statements which comply with Ind AS for year ended March 31, 2017, together with the comparative information as at and for the year ended March 31, 2016 and the opening Ind AS Balance Sheet as at April 01, 2015, the date of transition to Ind AS.
- In preparing these Ind AS financial statements, the Company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP have been recognised directly in retained earnings.

(a) Optional exemptions from retrospective application

Ind AS 101 permits first-time adopters certain exemptions from retrospective application of certain requirements under Ind AS. The Company has elected to apply the following optional exemptions from retrospective application: (i) Deemed cost for property, plant and equipment and intangible assets

The Company has elected to measure all its property, plant and equipment and intangible assets at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS.

(ii) Investment in subsidiaries

The Company has elected to measure its investments in subsidiaries at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS.

(b) Mandatory Exceptions to retrospective application

The Company has applied the following exceptions to the retrospective application of Ind AS as mandatorily required under Ind AS 101:

(i) Estimates

On assessment of the estimates made under the Previous GAAP financial statements, the Company has concluded that there is no necessity to revise the estimates under Ind AS, as there is no objective evidence that those estimates were in error. However, estimates that were required under Ind AS but not required under Previous GAAP are made by the Company for the relevant reporting dates reflecting conditions existing as at that date.

(ii) Classification and measurement of financial assets

The classification of financial assets to be measured at amortised cost or fair value through profit/loss is made on the basis of the facts and circumstances that existed on the date of transition to Ind AS.

| 2 | Leave Encashment (unfunded) | 142.57 | 133.90 | 113.78 |

(b) The Company has classified the various benefits provided to employees as under:

Gratuity: The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan and the Company makes contributions to recognised funds in India.

Leave Encashment: The Company provides for Leave Encashment for during the year on an arithmetical basis and the same is payable to the employees on separation from the Company due to death, retirement, superannuation or resignation. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the Balance Sheet date.

Provident Fund: Retirement benefit in the form of provident fund is a defined contribution scheme. All the employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan in which both the employee and the Company contribute monthly at a stipulated rate. Contributions are made to PF in India for employees at the rate of 12% of the basic salary as per the rules and regulations. The Company has no liability for future provident fund benefits other than its annual contribution and recognises such contributions as an expense in the period in which employee renders the related service. The contributions are made to recognised provident fund administered by the government.

(c) The assumptions used for the actuarial valuation are as under:

Significant estimates with respect to Defined benefit plans:

The cost of the defined benefit gratuity plan and other post-employment benefits and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in India.

The mortality rate is based on publicly available mortality tables for the specific countries. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates in India.

(d) The following tables summarise the components of net benefit expense recognized in the statement of profit or loss and the funded status and amounts recognized in the balance sheet for the respective plans:

31.06. DISCLOSURE IN RESPECT OF FINANCIAL RISK MANAGEMENT:

1 Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including cash and cash equivalents and deposits with banks and financial institutions.

Credit risk management:

i) Trade receivable related credit risk

Concentrations of credit risk with respect to trade receivables are limited, due to the customer base being large and diverse. All trade receivables are reviewed and assessed for default on routine basis. Our historical experience of collecting receivables, supported by the level of default, is that credit risk is low and so trade receivables are considered to be a single class of financial assets.

ii) Other financial assets

The Company maintains exposure in cash and cash equivalents, term deposits with banks, money market liquid mutual funds with financial institutions and derivative financial instruments. The Company's maximum exposure to credit risk as at March 31, 2017, March 31, 2016 and April 01, 2015 is the carrying value of each class of financial assets.

iii) Treasury related credit risk

Credit risk from balances with banks is managed by the Company's treasury department in accordance with the Company's policy. The Company actively manages its exposure to credit risk, reducing surplus cash balances wherever possible through investment in bank deposits. Further, the company ensures it diversifies its treasury related credit risk by investing in bank deposits in different banks. Limits are set for maximum investment in deposits in each bank.

2 Liquidity Risk:

Liquidity risk is the risk that the Company will face in meeting its obligations associated with its financial liabilities. The Company's approach in managing liquidity is to ensure that it will have sufficient funds to meet its liabilities when due without incurring unacceptable losses.

The Company regularly monitors the rolling forecasts to ensure it has sufficient cash on an on-going basis to meet operational needs. Any short term surplus cash generated, over and above the amount required for working capital management and other operational requirements, is retained as cash and cash equivalents (to the extent required) and any excess is invested in interest bearing term deposits and other highly marketable debt investments with appropriate maturities to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

A Maturities of financial liabilities

The table below analyses the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for all non-derivative financial liabilities.

The amounts disclosed in the table are the contractual undiscounted cash flows.

3 Market risk - foreign exchange risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's size and operations result in it being exposed to the following market risks that arise from its use of financial instruments:

- currency risk;
- price risk; and
- interest rate risk.

4 DISCLOSURES AS REQUIRED BY INDIAN ACCOUNTING STANDARD (IND AS) 21: THE EFFECT OF CHANGES IN FOREIGN EXCHANGE RATES:

Potential Impact of Risk:

A) Currency Risk

The Company operates internationally and consequently the Company is exposed to foreign exchange risk through its sales in overseas market. The Company evaluates exchange rate exposure arising from foreign currency transactions and the Company follows policies which includes the use of derivatives like foreign exchange forward contracts to hedge exposure to foreign currency risk.

The Company has Outstanding Forward contracts as on March 31, 2017 and there is Marked to Market (MTM) unrealized gain/(loss) on forward contracts of ₹ Nil as at March 31, 2017, (March 31, 2016- ₹ 1.22 Lacs, April 01, 2015 - ₹ 80.86 Lacs), which has been accounted for accordingly in the books of accounts.

Derivative Instruments

 Outstanding forward exchange contracts as entered into by the Company for the purpose of hedging its foreign currency exposures are as under:

| Foreign currency | Cross | S | Sell contrac | :t | В | (Suy contrac | ₹ in Lacs)_ t |
|------------------|-----------------|----------------|----------------|------------------|----------------|------------------|------------------|
| | Currency | March 31, 2017 | March 31, 2016 | April 1, 2015 | March 31, 2017 | March 31, 2016 | April 1, 2015 |
| USD | Indian Rupee | Nil | 815.19 | 3,325.88 | Nil | Nil | Nil |

ii) Foreign currency exposure recognized by the Company that have not been hedged by a derivative instrument or otherwise are as under:

| S. | Particulars | | ₹ in Lacs | USD in Lacs | | | |
|----|--|-----------|-----------|-------------|----------|----------|---------|
| No | | March | March | April | March | March | April |
| | | 31, 2017 | 31, 2016 | 1, 2015 | 31, 2017 | 31, 2016 | 1, 2015 |

| b) | Payables in Foreign Currency | | | | | | |
| | - Sundry Creditors | - | - | - | - | - | - |

Apart from above Company has foreign currency Liability (PCFC/Advances received from customers/ECB) of ₹ 30,380.79 Lacs as at March 31, 2017, (March 31, 2016-₹ 35,704.45 Lacs, April 01, 2015-₹ 74,105.46 Lacs) at the year end, further as per the Ind AS the effect of change in foreign exchange gain/(loss) as on March 31,2017, is amounting to ₹ (109.56 Lacs) {(March 31, 2016-₹ (305.19) April 01, 2015-₹ (32.46 Lacs)}has been taken to statement of profit and loss.

iii) Foreign currency risk sensitivity:

A change of 5% in Foreign currency would have following Impact on profit before tax

| | | | | | | (< in Lacs) | |
|----------|-------------|----------------|-------------|----------|----------------|-------------|--|
| Currency | March 31 | March 31, 2017 | | , 2016 | April 01, 2015 | | |

| | (1120.57) | 1120.57 | (902.75) | 902.75 | (296.05) | 296.05 | |

B) Interest Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As at March 31, 2017, the Company had long term borrowings amounting to ₹ 12,502.00 Lacs (March 31, 2016: ₹ 27,606.06 Lacs and April 01, 2015: ₹ 31,430.25 Lacs)

Interest rate sesitivity

| | | (₹ in Lacs) |
|--|----------------|----------------|
| A change of 100 bps in interest rates would have following Impact on profit before tax: | March 31, 2017 | March 31, 2016 |
| 100 bps increase-decrease in profits | 113.01 | 115.30 |
| 100 bps decrease-increase in profits | (113.01) | (115.30) |

Sensitivity is calculated based on the assumption that amount outstanding as at reporting dates (after considering repayments) were utilised for the whole financial year.

C) Price Risk

The Company is mainly exposed to the price risk due to its investment in equity shares and mutual funds. The price risk arises due to uncertainties about the future market values of these investments.

The table below summarises the impact of increases/decreases of the index on the Company's equity and profit for the year. The analysis is based on the assumption that the index has increased by 5% or decreased by 5% with all other variables held constant, and that all the Company's equity instruments moved in line with the index.

| | | | (₹ in Lacs) |
|-----------------------------|----------------|----------------|----------------|

| Sensex decrease by 5% | (50.55) | (41.13) | (40.84) |

31.07. DISCLOSURES AS REQUIRED BY INDIAN ACCOUNTING STANDARD (IND AS) 113: FAIR VALUE MEASUREMENT: Significant estimates with respect to fair value of financial instruments:

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the present valuation technique. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

B Fair value hierarchy

This section explains the judgements and estimates made in determining the fair value of financial instruments that are (a) recognised and measured at fair value (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three level prescribed under the accounting standard. An explanation each level follows underneath the table.

Assets and liabilities measured at amortised cost, for which fair value are disclosed

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices, for example listed equity instruments, traded bonds and mutual funds that have quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques that maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

There are no transfers among levels 1, 2 and 3 during the year.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

C Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include the use of discount cash flows for estimating fair value of loans to employees, security deposits and borrowings.

The carrying amounts of trade receivables, cash and cash equivalents, consignment debtors, interest accrued, other receivables, other bank balances, trade payables, employee payables and other current payables are considered to be the same as fair values, due to their short term nature

The fair value for loans and security deposits were calculated based on cash flow discounted using a current lending rate. They are classified as level 3 fair value in the fair value hierarchy due to the inclusion of unobservable inputs, including own credit risk. The fair value of loans to employees and security deposits approximates the carrying amount

The fair value for borrowings was calculated based on cash flow discounted using a current borrowing rate. They are classified as level 3 fair value in the fair value hierarchy due to the inclusion of unobservable inputs, including own credit risk. The fair value of borrowings approximates the carrying amount.

31.08. DISCLOSURE IN RESPECT OF CAPITAL MANAGEMENT:

A Risk management

Equity share capital and other equity are considered for the purpose of Company's capital management.

The Company manages its capital so as to safeguard its ability to continue as a going concern and to optimise returns to shareholders. The capital structure of the Company is based on management's judgement of its strategic and day-today needs with a focus on total equity so as to maintain investor, creditors and market confidence.

The management and the Board of Directors monitors the return on capital as well as the level of dividend to shareholders. The Company may take appropriate steps in order to maintain, or if necessary adjust, its capital structure.

B Dividend

Under Previous GAAP, proposed dividend and related dividend distribution tax was recognised as a provision in the year to which they relate, irrespective of when they are declared. Under Ind AS, dividend and related dividend distribution tax are recognised as a liability in the year in which it is approved by the shareholders in the Annual General Meeting of the Company.

| S. No. | Particulars | March 31, 2017 | March 31, 2016 |
|--------|---|----------------|----------------|
| i) | Dividend on Equity shares declared and paid during the year | - | 8,474.04 |
| | During the Financial Year 2015-16, the company has declared and paid Interim Dividend of ₹ 1.90 per share and Final Dividend of ₹ 1.70 per share for Financial Year 2014-15. | | |
| ii) | Dividend not recognised at the end of the reporting period In addition to the above dividend, since year end, the directors have recommended the payment of a final dividend of ₹ 2.10 per equity share for the year ended March 31, 2017. This proposed dividend is subject to the approval of shareholders in the ensuing annual general meeting. | 4,943.19 | - |

31.09. DISCLOSURES AS REQUIRED BY INDIAN ACCOUNTING STANDARD (IND-AS) 33: EARNINGS PER SHARE

Earning per share (EPS):

EPS is calculated by dividing the profit attributable to the Equity shareholders by the average number of Equity Shares outstanding during the year. Number used for calculating basic and diluted earnings per equity is stated below:

| Particulars | March 31, 2017 | March 31, 2016 |
|--|----------------|----------------|
| Profit attributable to equity holders of the Company (₹ in lacs) | 40,112.38 | 32,743.56 |
| Weighted average number of Equity shares for Basic & Diluted | 235,389,892 | 235,389,892 |
| Nominal value per equity share (In ₹) | 1.00 | 1.00 |
| Earnings per share (Basic & Diluted) (In ₹) | 17.04 | 13.91 |

* The previous GAAP figures have been reclassified to conform to Ind AS presentation requirements for the purposes of this note.

A Property, plant & equipment

Under previous GAAP, all leasehold lands are classified as Property, plant & equipment. Under Ind AS, leasehold land is to be recognised as an Operating or a Finance lease as per the definition and classification criteria under Ind AS 17. Accordingly deemed cost of the leasehold land is required to be reclassified from property plant and equipment and to be disclosed as operating leases prepayments under "current assets" and "non-current assets" to be amortised annually. Therefore, Property, plant & equipment has been reduced by ₹ 600.44 lacs (April 01, 2015- ₹ 628.74 lacs) and Prepayments have increased by the same amount.

Depreciation has decreased by ₹ 28.29 lacs and lease expenses have increased by the same amount.

B Investment property

Under previous GAAP, building given for the purpose of earning rental income was a part of property, plant & equipment, however as per Ind AS, the same needs to be disclosed as a part of investment property. Hence, warehouse at Kandla has been reclassified from Property, plant & equipment to Investment property ₹ 446.39 lacs (April 01, 2015-464.28 lacs).

C Discounting of security deposit

Under the previous GAAP, interest free security deposits are recorded at their transaction value. Under Ind AS, all financial assets are required to be recognised at fair value. Accordingly, the Company has fair valued the security deposits under IND AS. Difference between fair value of security deposits and the carrying value (transaction value) as per Previous GAAP has been recognised as prepaid rent. Consequently, the amount of security deposit has been decreased by ₹ 808.65 lacs (April 01, 2015 - ₹ 824.42 lacs). The prepaid rent increased by ₹ 705 lacs as at March 31, 2016 (April 01, 2015 - ₹ 747 lacs). Total equity decreased by ₹ 77.42 lacs as at April 01, 2015. The profit for the year ended March 31, 2016 decreased by ₹ 24.90 due to amortisation of prepaid rent ₹ 41.07 lacs which is partially set off by notional interest income of ₹ 16.17 lacs recognised on these security deposits.

D Fair valuation of Investments

Under the previous GAAP, investments in equity instruments and mutual funds were classified as longterm investments or current investments based on the intended holding period and realisability. Longterm investments were carried at cost less provision for other than temporary decline in the value of such investments. Current investments were carried at lower of cost and fair value. Under Ind AS, these investments are required to be measured at fair value. At the date of transition to Ind AS, difference between the fair value of the instruments and its Previous GAAP carrying amount has been recognised in retained earnings for ₹ 157.63 lacs. Fair value changes are recognised in the Statement of Profit and Loss for the year ended March 31, 2016 (₹ 91.26 lacs)

E Derivative instruments

Under the Ind AS 109, Forward Contracts are carried at fair value and the resultant gains and losses are recorded in the statement of Profit and Loss. Accordingly, the same has been fair valued resulting in increase of in equity by ₹ 1,379.02 lacs as at March 31, 2016 (increase 602.71 lacs as at April 01, 2015). Derivative assets and derivative liabilities are presented on gross basis.

F Proposed dividend

Under the previous GAAP, dividend proposed by the board of directors after the balance sheet date but before the approval of the financial statements were considered as adjusting events and accordingly, provision for proposed dividend was recognised as a liability. Under Ind AS, such dividend are recognised when the same is approved by the shareholders in the general meeting. Accordingly, the liability for proposed dividend of ₹ 4,001.26 lacs as at April 01, 2015 included under provisions has been reversed with corresponding adjustment to retained earnings. Consequently, the total equity has been increased by an equivalent amount.

G Borrowings

As required under the Ind AS 109 transactions costs incurred towards origination of borrowings have been deducted from the carrying amount of borrowings on initial recognition. These costs are recognised in the profit and loss over the tenure of the borrowing as interest expense, computed using the effective interest rate method corresponding effect being in Long term borrowings and to the extent attributable to Current maturity of long term debts.

Under the previous GAAP, these transaction costs were charged to the profit and loss as and when incurred. As per Ind AS 32 and Ind AS 109, a debt instruments are required to be fair valued. Accordingly, debt instruments in foreign currency (external commercial borrowings) were restated at the balance sheet date, resulting in increase in borrowings.

The net impact of above resulted in decrease in amount of borrowings by ₹ 144.18 lacs as at March 31, 2016. However, the impact as at April 01, 2015 was increase in borrowings by ₹ 843.51 lacs) with corresponding impact on equity as at April 01, 2015.

Increase in interest on borrowings due to effective interest rate method is ₹ 82.14 lacs for the year ended March 31, 2016.

H Remeasurements of post employment benefit obligation

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit and loss. Under the previous GAAP, these remeasurements were forming part of the profit and loss for the year. As a result of this change, the profit for the year ended March 31, 2016 increase by ₹ 100.89 lacs along with tax amounting to ₹ 35 lacs. There is no impact on the total equity as at March 31, 2016.

I Retained earnings

Retained earnings as at April 01, 2015 has been adjusted consequent to the above Ind AS transition adjustments. Refer Reconciliation of Equity on note no. 31.10 (iv).

J Other comprehensive income

Under Ind AS, all items of income and expense recognised in a period should be included in statement of profit and loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as 'other comprehensive income' includes remeasurements of defined benefit plans. The concept of other comprehensive income did not exist under previous GAAP.

K Deferred Tax

Under Previous GAAP, deferred taxes were recognised for the tax effect of timing differences between accounting profit and taxable profit for the year using the income statement approach. Under Ind AS, deferred taxes are recognised using the balance sheet for future tax consequences of temporary differences between the carrying value of assets and liabilities and their respective tax bases. The above difference, together with the consequential tax impact of the other Ind AS transitional adjustments lead to temporary differences. Deferred tax adjustments are recognised in correlation to the underlying transaction either in retained earnings or through other comprehensive income.

L Excise duty

Under Previous GAAP, sale of goods was presented as net of excise duty. However, under Ind AS, sale of goods includes excise duty. Excise duty on sale of goods is separately presented on the face of Statement of Profit and Loss. Thus, sale of goods under Ind AS has increased with a corresponding increase in expenses of ₹ 87.16 lacs.

M Revenue from sale of goods

- a) Under Previous GAAP, revenue is recognised net of trade discounts, rebates, sales taxes and excise duties. Under Ind AS, revenue is recognised at the fair value of the consideration received or receivable, after the deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government such as sales tax and value added tax except excise duty. Discounts given include cash coup scheme, quantity discount, cash discount, target incentives etc. which have been classified under "Other expenses" as per previous GAAP have been netted from revenue under Ind AS. Accordingly, Gross revenue has decreased by ₹ 3,034.11 lacs with corresponding effect on "Other expense". There is no impact on profit for the year.
- b) Under previous GAAP, revenue from export sale was recognised on the date of bill of lading. However, under Ind AS, the Company is recognising the revenue from export sale when all the significant risk and rewards of ownership in the goods are transferred to the buyer as per the terms of the contract. Hence, some export sales were derecognised as at April 01, 2015. The net impact resulted in decrease in retained earnings by ₹1,004.63 lacs increase in trade receivables by ₹ 11,582.67 lacs, increase in inventories by ₹ 10,110 lacs and in prepayments by ₹ 472.45 lacs.

As at March 31, 2016, sales derecognised in 2015 were now recognised and hence, as at March 31, 2016, net impact resulted in decreased trade receivables by ₹ 9,913.81 lacs and increase in inventories by ₹ 5,141.88 lacs.

- N Financial assets and liabilities have been reclassified/regrouped wherever necessary according to their definitions.
- O Current tax liability has been disclosed on the face of balance sheet by reclassifying it from Provisions.
- P Staff welfare expenses have been reclassified to "Employee benefit expenses" from "Other expenses" as the nature of such expenses is related to employee welfare.
- Q Certain assets amounting to ₹ 694.30 lacs have been considered as not recoverable, therefore company has made a provision of the aforesaid amount as per Expected Credit Loss (ECL) model.
- R The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net cash flow for the year ended March 31, 2016 as compared with the previous GAAP.

Business Responsibility Report

INTRODUCTION

The National Voluntary Guidelines which are a major part of Business Responsibility Reporting were released by the Ministry of Corporate Affairs in December 2009. They were drafted together after significant inputs from diverse stakeholders groups across the country were put together. Business responsibility reports showcase the basic requirements for businesses to function responsibly, thereby ensuring inclusive, as well as wholesome economic growth.

Enterprises are at a time and age when it is extremely important for them to be accountable to not just their shareholders and investors, but also to the larger society, which also forms out to be an important stakeholder. Adoption of responsible business practices in the interest of the society and the environment is as important as a company's operational and economic performance. This is all the more relevant for listed entities which, considering the fact that they have accessed funds from the public, have an element of public interest involved, and are obligated to make exhaustive continuous disclosures on a regular basis.

Ministry of Corporate Affairs, Government of India, in July 2011, came out with the 'National Voluntary Guidelines on Social, Environmental and Economic Responsibilities of Business'. These guidelines contain comprehensive principles to be adopted by companies as part of their business practices and a structured business responsibility reporting format requiring certain specified disclosures, demonstrating the steps taken by companies to implement the said principles. SEBI had introduced requirements with respect to Business Responsibility Reporting as on August 13, 2012. SEBI has made it mandatory for the top 500 companies to adopt Business Responsibility Reporting.

KRBL's business responsibility report describes the initiatives taken by the company from an environmental, social and governance perspective, in the format as specified by the BRR and NVG.

Section E: Principle Wise Performance

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

1. Does the policy relating to ethics, bribery and corruption cover only the company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/Contractors/NGOs /Others?

KRBL's policies on ethics, bribery and corruption i.e. its code of conduct covers not only its employees, but also includes other people associated with it like contractors/suppliers. KRBL's code of conduct or "Vigil Mechanism (Whistle Blower Policy)" constantly promotes ethical behaviour in all its business activities in accordance with the best international governance practices; through its directors, employees, business associates and other stakeholders, KRBL has established a system to report unethical behaviour, malpractices, fraud and other incidents of misconduct. KRBL has a policy in place in which all the directors, employees and business associates have the ability to directly access the Chairman, who then work towards resolving the issues. KRBL is putting in a mechanism in place to develop a supply chain policy to ensure that best practices are followed throughout its supply chain. 2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

During this year, we have not received any significant complaint related to unethical practices across all our operations

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

1. List up to 3 products or services whose design has incorporated social or environmental concerns, risks, and/or opportunities.

Majorly being a rice processing company, food safety is of greatest importance to KRBL. Other than just food safety, KRBL strives to reduce environmental impact across its supply chain for all its basmati rice products. KRBL ensures that the basmati rice farmers use best practices to ensure optimal resource consumption and maximum output. Even within the rice processing divisions, in order to reduce energy consumption, KRBL generates its own energy using rice husk (biomass energy). All byproducts created within KRBL's facilities are put to use. Social concerns are taken into consideration too, basmati rice farmers are provided with quality seeds and trained in the latest agricultural techniques to ensure good produce. Rice is bought from them at fair prices.

Through KRBL's renewable energy production division, it aims to reduce dependency on fossil fuels through solar energy and wind energy

KRBL's products and services which have incorporated social and environmental risks and opportunities in their design are:

- 1) All rice brands- India Gate, Nur Jahan, Doon, India Farm, Bemisal etc.
- 2) Wind farms
- 3) Solar farms

- 2. For each product, provide the following details in respect of resources (energy, water, raw material etc.) per unit of product.
- (i) Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain?
- (ii) Reduction during usage by consumers (energy, water) has been achieved since the previous year?

| Division | Resource | Reduction |
|----------|------------------|-------------------|
| Rice | Energy savings | 20,70,593 kWh |
| | Carbon reduction | 1694242.01 kg CO₂ |

3. Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Provide details thereof, in about 50 words or so.

KRBL is mostly involved in rice processing, and its major suppliers are farmers. KRBL ensures that farmers follow best agricultural practises to ensure reduction in resource consumption in the agricultural phase, through modern agricultural techniques, reduction in energy and water usage is achieved, and utilization of materials like fertilizer and pesticides is also reduced. KRBL ensures that farmers maintain good soil conditions throughout agricultural processes.

Currently, KRBL does not have a policy for sustainable sourcing. But it is in process of developing a sustainable sourcing policy to ensure that all its suppliers follow sustainable practices.

4. Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

KRBL sources rice only from local farmers in the basmati rice growing regions around the places where it operates. In order to ensure that all the farmers that it works along with gain good quality harvest, KRBL provides them with quality seeds that are a result of extensive research and development, it provides them with adequate training on agricultural techniques to maximize produce and to optimize pesticide and fertilizer usage, best agricultural equipment to use, etc. They're also paid appropriate prices for their agricultural produce. KRBL ensures that the farmers that it works along with are a part of its CSR activities too, and it has put various projects into place to improve their livelihood.

5. Does the company have mechanism to recycle products and waste? If yes, what is the percentage of recycling waste and products?

Yes, KRBL has a mechanism in place to recycle waste. KRBL ensures that none of its operational by-products go to waste. KRBL uses the state-of-the-art processing technologies within its divisions to ensure that a minimal amount of waste is generated within all its facilities. The main by-products generated in KRBL's facilities are Rice Bran and Paddy Husk. Rice bran can be used to make edible oil, and paddy husk is used in the manufacture of rice husk boards, silica gel and manufacture of furfural. Soluble rice bran is also used as cattle feed. KRBL uses the rice husk that's generated in its facilities to produce non-conventional power, to meet along with its power requirements. Any excess energy generated is sold to the Punjab State Electricity Board. All of KRBL's by-products are recycled; within its energy division, the cotton waste that is generated and the oil waste are given to recycling vendors.

Principle 3: Businesses should promote the wellbeing of all employees

1. Please indicate the total number of employees

2162

2. Please indicate the total number of employees hired on temporary/ contractual/casual basis.

No contractual employees. All employees are permanent.

3. Please indicate the number of permanent women employees.

63

4. Please indicate the number of permanent employees with disability.

We have a policy of non-discrimination against age, race or disability. We don't have any permanent employees with a disability as of now, but we are open to the idea of hiring employees with disability.

5. Do you have an employee association that is recognized by management?

No unions within the company. But KRBL works with a truck union. KRBL supports collective bargaining, by constantly supporting its truck unions, a union of more than 1000 truckers. The truckers are responsible to carry the rice procured from the farmers to KRBL factories. The truckers have formed a collective union to decide on the pricing. KRBL interacts on a regular basis with its truck union to strategize on pricing.

6. What percentage of your permanent employees are a member of this recognized employee association?

Not applicable.

7. Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.

KRBL has not received any complaints on any labour issues including child labor, forced labour, involuntary labour and sexual harassment during the reporting period.

8. What percentage of your under mentioned employees were given safety & skill upgradation training in the last year?

KRBL provides training to all employees for enhancement of performance and skill development. In the year 2016-2017, training sessions of 10-12 hours/month were conducted for employees. Different types of training programs were conducted - Personal Hygiene, Quality Parameter, Stock rotation, fire safety, first Aid, Machine operation, Regular affairs, site security, maintenance related to food safety, pest control, rice grain identification, industrial relation, problem solving etc.

Principle 4: Businesses should respect the interests of, and be responsive to the needs of all stakeholders, especially those who are disadvantage vulnerable, and marginalized.

1. Has the company mapped its internal and external stakeholders? Yes/No

Yes, KRBL has mapped its internal and external stakeholders.

- a) Management
- b) Employees
- c) Farmers
- d) Customers
- e) Partners
- f) Suppliers
- g) Vendors
- h) Retailers
- i) Government authorities/regulators
- j) Local communities

2. Out of the above, has the company identified the disadvantaged, vulnerable & marginalized stakeholders?

KRBL has identified disadvantaged, vulnerable and marginalized stakeholders within its communities and has worked towards building community development programs for assisting them.

3. Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable, and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.

Education Initiatives- Education is one of the primary focuses of KRBL's CSR activities. KRBL has a staunch belief that education is a right that needs to be provided to all children. Keeping this in mind, KRBL has been actively involved in funding the education for about 10 school children studying in Government Secondary School in Bhasaur and Babanpur, Punjab. These children are mostly orphans, and those who cannot afford to pay their school fees. KRBL spends 250 rupees/month on each of these children for their school fees. KRBL has also provided for computer education within the school to improve their skillset.

Farmer relations- KRBL is actively involved with its stakeholders, especially farmers, who form an important part of KRBL's stakeholder network. KRBL regularly interacts with the farmers, to consult them on various agricultural aspects and conducting training sessions to increase their knowledge database and at the end of the day, increase their harvest. KRBL is involved with more than 90000 plus farmer families, in a mutually beneficial relationship. Quality seeds are provided to these farmers to improve harvest.

Communities- KRBL regularly interacts with communities around its operational areas through stakeholder engagement, to figure out various issues effecting the communities. Bhasaur, one of the villages near which KRBL operates did not have a sewage system in place. This caused a lot of issues like contamination of groundwater, contamination of land, bad odour, unhygienic conditions etc. KRBL helped the communities in Bhasaur by creating a sewage management system for them. KRBL constructed a major pipeline, 5000 metres long, worth one crore in Bhasaur, to effectively manage sewage. KRBL has also provided toilet facilities in accordance with SDG 6- Access to improved sanitation to the communities of Bhasaur.

Creation of jobs- The presence of KRBL has provided many job opportunities for the communities present around it, resulting in economic growth, community development, income growth and improvement in general quality of life.

Principle 5: Businesses should respect and promote human rights

1. Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

KRBL's human rights policy extends across all its operations. It covers all its employees, suppliers, farmers and contractors associated with it. KRBL is in process of further extending its human rights policy across different stakeholder groups.

2. How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

We have not received any complain related to human rights violation during the reporting period.

Principle 6: Business should respect, protect, and make efforts to restore the environment

1. Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others.

Currently, KRBL does not have a policy in place to cover principle 6, but it is in the process of developing an environmental policy that covers different stakeholder groups across its supply chain. KRBL has however carried out various environmental protection initiatives within its operations. KRBL has also worked with farmers in order to ensure that they follow sustainable agricultural methods.

2. Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc.? Y/N. If yes, please give hyperlink for webpage etc.

KRBL is actively involved in addressing issues in relation to environment. In order to reduce energy consumption within its rice division, KRBL has undertaken various initiatives, the major one being setting up a biomass energy generation facility that uses rice husk (byproduct generated at KRBL facility) as fuel.

- KRBL's has specific energy management initiatives at its Gautambudh Nagar, Dhuri and Sonipat sites.
- The details of these initiatives can be found as part of answers to question number 5 under this section (Principle 6)
- KRBL recycles waste water within its facilities.
- KRBL's energy division was started to reduce dependency on fossil fuels, with wind and solar energy assets.

http://www.krblrice.com/ourstrengths.html

3. Does the company identify and assess potential environmental risks? Y/N

Yes, KRBL has identified and assessed potential environmental risks in relation to its operations. The key risks are:

- 1) Climate change risk
- 2) Water availability risk
- 3) Agricultural risk
- 4) Raw material risk

4. Does the company have any project related to Clean Development Mechanism? If so, provide details thereof, in about 50 words or so. Also, if yes, whether any environmental compliance report is filed?

Yes, KRBL has a project in relation to Clean Development Mechanism for its biomass generation facility.

With a vision to reduce energy consumption and GHG impact, KRBL implemented rice husk based cogeneration plants in Dhuri and Gautambudh Nagar. These cogeneration plants have reduced the energy usage in Dhuri as well as Gautambudh Nagarby reducing the amount of diesel and grid electricity that would otherwise have been consumed. The biomass powered plants also displace possible GHG emissions from use of DG. Through the biomass powered plants, KRBL's requirement of thermal energy is being met.

| Baseline emissions (tons CO2) | Emissions (tons per GWh) | Energy displaced (GWh) |
|----------------------------------|--------------------------|------------------------|
| 16,934 | 800 | 21.168 |

5. Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy, etc. Y/N. If yes, please give hyperlink for web page etc.

KRBL's rice division has a biomass power generation unit to meet along with its energy requirements, thus reducing its dependency on grid electricity and DG.

Energy management at Gautambudh Nagar

- Installation of VFD's on motors.
- Addition of power capacitors in order to improve power factor in order to enhance generation.
- Installation of LED lights.
- Optimization of steam usage.
- Addition of temperature transmitter in the condenser in order to the cooling tower fan in an optimal manner.
- Installation of steam traps to capture steam

Energy management in Dhuri

- Usage of low pressure steam instead of high pressure steam.
- Reuse of pitch residue in rice-husk boilers
- Using waste heat to heat soak water.
- Addition of VFD's on ETP sludge pumps, steam boilers, and air pollution control devices. Replacement of old rewind motors at 912-B/D with two, 215 HP energy efficient motors for reduction of kw/TR in HF refrigeration
- Power Capacitor has been equally distributed as per installed load which helps in monitoring and maintaining system and feeder power factor at 0.998

Energy Management in Sonipat

- Installation of VFD on Blowers 10Nos, Compressor & all length graders.
- Avg. Monthly power factor is maintained above 0.99.
- Installation of LED Light at all points in factory
- Zero water discharge. STP is installed & treated water used for green area.
- Two battery operated forklift are in operation which is economical & environmental friendly in comparison with diesel operated forklift.
- Use of transparent sheet in warehouse & plant area which eliminated use of LED lights in day time.

KRBL's energy division is completely focused on production of solar and wind energy. Focusing on clean energy production, KRBL is working extensively towards strengthening its clean energy portfolio, from 119.6MW in 2015-2016 to 129.35MW in 2016-2017. KRBL's wind energy division expanded its capacity from 87.05 MW in 2015-2016 to 114.35MW in 2016-2017.

6. Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Yes, KRBL's emission and generated waste are within the permissible limits given by CPCB/SPCB.

7. Number of show cause/ legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

No legal notices from CPCB/SPCB are pending in the reporting period.

Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

1. Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

KRBL strives towards maintaining healthy industrial relations at all levels. It has been associated with India's Basmati Farmers since 1889. Even in the face of severe competition, KRBL continues to receive the support from its network of farmers, distributors, retailers, stockists, suppliers and trading partners.

2. Have you advocated/lobbied through above associations for the advancement or improvement of public good? Yes/No; if yes specify the broad areas (drop box: Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)

As a part of India's Basmati Farmers, KRBL is associated with various farmers with whom it works to improve basmati rice agricultural process at different levels, by providing them with high quality seeds, providing them with training to ensure that sustainable agricultural practices are followed, that reduce resource consumptionwater, energy, pesticide, fertilizers, and at the same time, increase the rice that is produced.

Principle 8: Businesses should support inclusive growth and equitable development

1. Does the company have specified programs/initiatives/projects in pursuit of the policy related to Principle 8? If yes details thereof.

Yes, KRBL has undertaken initiatives for supporting inclusive growth and equitable development through its CSR activities.

KRBL continuously engages itself in the upliftment of the communities that it is involved with. KRBL Limited believes that a triple bottom line approach- growth of people, protection of environment, and profit in operations, is essential for sustained growth. KRBL constantly works towards the wellbeing of the community around its operations, believing in the principles of inclusive growth. Community growth and development is done by promoting various healthcare programs, educational programs, and many other activities. KRBL ensures that such community development programs are conducted in all its locations of operation. The results of such programs are subject to public disclosure. Since KRBL is an organization into agricultural product processing and clean energy production, it has no negative impacts on local communities. KRBL has a CSR Committee that is responsible for the development of the company's CSR activities, and develop, monitor and review various CSR initiatives as specified under Companies Act, 2013 which relate to environmental protection as well as community involvement and development. The CSR committee also recommends the amount of expenditure on different types of activities to the board, depending on the kind of CSR policy is in place. The committee also looks at various communities and the issues effecting them, in order to create effective management plans to address such issues. The CSR committee is also involved with development of the CSR policy.

The CSR committee initially identifies priority areas- education, health, and infrastructure, skill development etc. Livelihood promotion and Women Empowerment are the primary focus points for KRBL.

1) Farmer relations- KRBL constantly works towards improving livelihoods of farmers and their families in the villages in which it operates. Families of farmers that KRBL works along with are provided with job opportunities to improve overall income of the family.

- 2) Community relations- KRBL works extensively with the communities around it.
- a) EDUCATION- Providing children with education opportunities, paying their fees, providing computer education etc. Education is one of the primary focuses of KRBL's CSR activities. KRBL has a staunch belief that education is a right that needs to be provided to all children. Keeping this in mind, KRBL has been actively involved in funding the education for about 30-35 school children studying in 11th and 12th standard in Jaswantsingh Government Secondary School. These children are mostly orphans, and those who cannot afford to pay their school fees. KRBL spends 250 rupees/month on each of these children for their school fees. KRBL has also provided for computer education within the school to improve their skillset.
- b) JOB OPPORTUNITIES- Providing various people in the community with jobs to improve their livelihoods.
- c) SANITATION- Providing sanitation facilities within the communities around which it operates. Bhasaur, one of the villages near which KRBL operates did not have a sewage system in place. This caused a lot of issues-contamination of groundwater, contamination of land, bad odor, unhygienic conditions etc. KRBI helped the communities in Bhasaur by creating a sewage management system for them. KRBL constructed a major pipeline, 5000 metres long, worth one crore in Bhasaur, to effectively manage sewage. KRBL has also provided toilet facilities in accordance with SDG 6- Access to improved sanitation to the communities of Bhasaur
- d) VILLAGE DEVELOPMENT- KRBL conducts village development activities around the villages in which it operates depending on the requirement.

2. Are the programs/projects undertaken through in-house team/own foundation/external NGO/government structures/any other organization?

KRBL has a dedicated in-house team which undertakes CSR activities and initiatives. Its projects are also directed through external trusts and agencies which have a positive proven track record.

3. Have you done any impact assessment of your initiative?

KRBL has not yet done an impact assessment of its CSR initiatives as CSR initiatives have been conducted by KRBL only since the past two years. It intends on conducting impact assessments in the future.

4. What is your company's direct contribution to community development projects-Amount in INR and the details of the projects undertaken?

| Project | Sector in which the Project is covered | Location where project was undertaken | Expenditure (lakhs INR) |
|--|---|--|----------------------------|
| Project for Sponsoring Scholarship for providing Education to the Students | Promoting Education including Special Education | Bhasaur, Dhuri | 0.30 |
| Project for Sponsoring 1 Year Residential Education of 1 Tribal Child | Promoting Education including Special Education | Bhubaneswar, Odisha | 0.25 |
| Improving Infrastructure of Government Girls Senior Secondary School | Promoting Education and Preventive Health Care | Sohana, Mohali | 0.30 |

| "Vidhya Jyoti" project as an initiative to promote the education in the form of setting up a library in village school | Promoting Education including Special Education | Gautam Buddha Nagar, Uttar Pradesh | 0.73 |
|--|---|--|--------|
| Village Development Activity/ Sanitation | Village Development Project | Sangrur, Punjab | 133.94 |
| Village Development Activity | Rural Development Project | Gautam Buddha Nagar, Uttar Pradesh | 72.80 |

5. Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words, or so.

Yes, KRBL frequently monitors its initiatives & projects to ensure that it's successfully adopted by the communities. KRBL is constantly in touch with communities to constantly check the progress of the CSR activities that are implemented. KRBL's CSR policy ensures effective implementation of various CSR programs by monitoring them on a constant basis.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

1. What percentage of customer complaints/consumer cases are pending as on the end of financial year.

No customer complaints have been received in the reporting year.

2. Does the company display product information on the product label, over and above what is mandated as per local laws? Yes/No/N.A. /Remarks(additional information)

Yes, product information details are always displayed on the label over and above what is mandated as per local laws. Being a rice processing company, product safety is of extreme importance to KRBL.

The following product information is important when it comes to labelling:

Sourcing of rice is important during labelling too. KRBL's Basmati Rice is sourced from Basmati growing regions of UP, Uttaranchal, Punjab and Haryana after extensive testing and grading of the harvest, and soil conditions, ensuring that the produce is GMO free, and identifying the season's best paddy produce.

Safety of the consumable is an important parameter for labelling of KRBL's products. All of KRBL's rice brands are BRC and SQF certified.

Quality of the rice is another important parameter for labelling. Once the sourced rice arrives at the plant, it's made to go through a thorough examination, looking at parameters like moisture content, head rice yield, broken rice count, length and width of grain etc. Only when all the quality benchmarks are met, is the basmati rice sent for storage, processing and labelling, under different basmati rice brands.

After the rice is processed, rice grains are checked for consistency, and upon meeting with the requirements, they are packaged and labelled, in accordance with the brand of basmati rice. KRBL also has its very own "**KRBL Seed Advantage**" label, showcasing the fact that the rice is produced from the seeds that KRBL itself procures and develops.

3. Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behavior during the last five years and pending as on end of financial year. If so, provide details thereof, in about 50 words or so.

We have not received any complaints during the reporting year.

4. Did your company carry out any consumer survey/ consumer satisfaction trends?

Yes, KRBL did conduct a consumer satisfaction survey to find out the preference of customers towards India Gate Basmati rice as compared to other brands of basmati rice in the market. Key highlights of the survey were:

- In 2016-2017 KRBL's customer satisfaction survey showcased that 76% of the consumers found India Basmati Rice affordable, as compared to 60% of the other competitors.
- 67% of the consumers were recommended India Gate by shopkeepers as compared to 56% of the competitors.
- 60% of consumers were recommended India Gate by family and friends as compared to 52% of the competitors.

Using the results of such customer satisfaction surveys, KRBL gains its feedback to further develop its brands.
