These financial statements have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention on accrual basis. Pursuant to Section 133 of the Companies Act, 2013 read with Rule 7 of Companies (Accounts) Rules, 2014, till the standards of accounting or any addendum thereto are prescribed by Central Government in consultation and recommendation of the National Financial Reporting Authority, the existing Accounting Standards notified under the Companies Act, 1956 shall continue to apply. Consequently, these financial statements have been prepared to comply in all material aspects with the accounting standards notified under Section 211(3C) of the Companies Act, 1956 [Companies (Accounting Standards) Rules, 2006, as amended] and other relevant provisions of the Companies Act, 2013. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

II. SYSTEM OF ACCOUNTING:

- i) The Company follows the mercantile system of accounting and recognises income and expenditure on an accrual basis except in case of significant uncertainties.
- ii) Financial statements are prepared under the historical cost convention. These costs are not adjusted to reflect the impact of changing value in the purchasing power of money.
- iii) Estimates and assumptions used in the preparation of the financial statements and disclosures are based upon management's evaluation of the relevant facts and circumstances as of the date of the financial statements, which may differ from the actual results at a subsequent date.

III. REVENUE RECOGNITION:

- a) Revenue/Income and Cost/Expenditure are generally accounted for on accrual as they are earned or incurred, except in case of significant uncertainties. However, where the ultimate collection of the same lacks reasonable certainty revenue recognition is postponed to extent of uncertainty.
- b) Sale of goods is recognised on transfer of significant risks and rewards of ownership which is generally on the despatch of goods and are recognised net of discounts & rebates.

IV. FIXED ASSETS AND DEPRECIATION / AMORTISATION:**A) TANGIBLE ASSETS:**

useful lives of the assets in the manner prescribed by Schedule II of the Companies Act, 2013, as against the past practice of computing depreciation at rates with reference to the life of assets subject to the minimum of rates provided by Schedule XIV of the Companies Act, 1956. Differences due to changes in the method have been adjusted from Reserves.

- ii) Useful life of assets are determined by the Management by internal technical assessments except in case where such assessment suggests a life significantly different from those prescribed by Schedule II- Part 'C', where the useful life is as assessed and certified by a technical expert.
- iii) Depreciation on additions to fixed assets or on sale/disposal of fixed assets is calculated pro-rata from the month of such addition, or upto the month of such sale/disposal, as the case may be.

C) IMPAIRMENT OF ASSETS :

The carrying amounts of assets are reviewed at each Balance Sheet date. If there is any indication of impairment based on internal / external factors, i.e. when the carrying amount of the asset exceeds the recoverable amount, an impairment loss is charged to the Profit and Loss in the year in which an asset is identified as impaired. An impairment loss recognised in prior accounting periods is reversed or reduced if there has been a favourable,

V. INVESTMENTS:

Investments made by the Company are, generally, of a long-term nature and are stated at cost. A provision for diminution is made to recognise a decline, other than temporary, in the value of long term investments. However, current investments, representing investment not intended to be held for a period more than 1 year, are stated at lower of cost or fair value. However, temporary decline in value of current investment are ignored.

VI. INVENTORY VALUATION:

- a) Goods for trade are valued at cost or net realisable value, whichever is lower.

VIII. TAXATION:

the assessable income at the tax rate applicable to the relevant assessment year. The deferred tax asset and deferred tax liability is calculated by applying the tax rate and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets arising mainly on account of brought forward losses and absorbed depreciation under tax laws, are recognised only if there is a virtual certainty of their realisation, supported by convincing evidence. However such deferred tax assets are recognised to the extent there is adequate deferred tax liability reversing out in future periods. Deferred tax Assets on account of other timing differences are recognised, only to the extent there is a reasonable certainty of its realisation. At each Balance Sheet date, the carrying amount of deferred tax assets is reviewed to obtain reassurance as to realisation. Provisions involving a substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events and it is probable that there will be an outflow of resources. A provision is not discounted to its present value and is determined based on the last estimate required to settle an obligation at the year end.
