MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Management discussion and analysis report as required under Clause 49 of the listing agreement is as under:

INDUSTRY STRUCTURE AND DEVELOPMENTS

Indian healthcare industry has distinct merits of clinical excellence and low cost. The sectors tenders much potential to healthcare players as there are frequent lifestyle related and other diseases in the country. The increasing elderly population and increase in income levels are also urging for better facilities in the industry. The health-conscious middle class who can afford and wants quality healthcare is the main driver of the growing sector.

OUTLOOK ON OPPORTUNITIES AND FUTURE PROSPECTS

There is a tremendous scope for growth in the health insurance sector, as the sector at present covers only 10% of the entire Indian population. Over 95% of India's private healthcare expenditure is paid for out of pocket expenditure as health insurance coverage is under 5%. However, with increasing awareness and increasing number of the domestic workforce, more and more insurance coverage is taken through corporate health plans, family and individual health plans, as a result the hospitalization rates are expected to increase. The increasing population, links to other medical centers and the ability to treat a complex range of ailments are providing plenty of opportunities for the growth of the industry.

THREATS, RISKS AND CONCERNS

In order to meet the demand for healthcare in India and improve the availability of hospital beds and doctors, infrastructure will need to be improved significantly. These additional beds will be required for specialty healthcare needs such as cancer and cardiac diseases in view of the growing incidence of such diseases. Since the Company is becoming stronger day by day, the required finance for the expansion / modernization programme can be mobilized from Banks / Financial Institutions.

The competition from the un-organised sector would be met by delivering quality health care on par with international standards which the un-organised sector lacks in view of constraints in investment to create a quality hospital. There is also the risk of attrition of losing the trained and experienced professionals and the investment made on them in their training. Because of increased opportunities, many private players are entering into this sector. Your Company can counter this challenge because it has an early bird advantage and also by providing focused health care delivery and by deploying the state of the art equipments backed up by a panel of expert Doctors.
