Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets are recognised on carry forward of unabsorbed depreciation and tax losses only if there is virtual certainty that such deferred tax assets can be realised against future taxable profits. Unrecognised deferred tax assets of earlier years are re-assessed and recognised to the extent that it has become reasonably certain that future taxable income will be available against which such deferred tax assets can be realised.

As there is no virtual certainty that the Company would be able to make taxable profits in the next few years. Deferred tax Assets representing losses during the year have not been recognized in the books of accounts. Deferred Tax assets/liability, which arose on account of timing differences have been recognized to the extent possible.

F. Provisions :

A provision is recognised when an enterprise has a present obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent Liability is not recognized in the financial statements but is disclosed.
