MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Industry Structures & Developments: The year 2010 began with acceleration in economic growth all over the world and this phenomena prevailed almost the whole financial year, and was supported by recovery in all the sector including the industrial sector. In spite of all the positive outlook, our Company could not perform and was unable to improve its financial position due to various factors, which are out of control of the Board and especially due to ongoing dispute between the Company and ex-banker State Bank of India, Spl. Comm. Branch, Karnal.

Opportunities & Threats: Indian Rice manufacturers have the potential to emerge as major production base for the global Rice Industry. Considering the large pool of low cost skilled professionals and the fact that the raw materials for the industry are also cheaper making the Indian industry highly cost competitive.

Outlook: Though the medium size rice manufacturing companies continue to face stiffing scenario yet they are trying hard just to sustain them.

Risks & Concerns: The Competition has resulted in improvement in inefficiently, reduction in cost, wider distribution, adequate availability and lowest Consumer prices of raw materials; such cut throat competition has given way to deterioration in production and sales ethics.

Internal Control Systems and their ability: The Board of Directors of the Company has tried to maintain the adequate internal control system and effective monitoring thereof. Optimum utilization of resources and effective monitoring thereof and compliance with applicable laws.

Statements in this management discussion and analysis report are based upon the data available with the Company and on certain assumptions having regard to the economic conditions, government policies, political developments etc. within and outside country. The Management does not guarantee the accuracy of the assumptions and projected performance of the Company in future.
