### **4. Management And Discussion Analysis**

#### **Industrial Structure and Development**

The Indian economy has weathered many challenges successfully in recent times. Markets are optimistic, as a result of various policy measures announced or taken by the Government.

In FY 2015-16, the Government focused on its theme "Transform India". The Budget for FY 2016-17 preferred fiscal prudence and stability over growth. The priorities of the Government were to provide additional resources for the vulnerable sections of society, to rural areas and for creating social and physical infrastructure. The Government encouraged private and public spending, but private investment is not likely to recover in FY 2016-17 as there is significant unutilized capacity and private sector Balance Sheets are stretched. By maintaining fiscal deficit at 3.5%, the Government has precluded the possibility of any direct fiscal stimulus. The positive effect of the Government's fiscal discipline is that it has created conditions for the Reserve Bank of India ("RBI") to cut rates, thereby indirectly benefiting the economy by bringing down the cost of borrowing for both the Government and the private sector. The RBI started cutting rates in FY 2015-16, the transmission of which is likely to happen in FY 2016-17.

The banking system in India saw a major shift with the RBI ending forbearance in April 2015 and, through the Asset Quality Review process, ensuring that banks were taking proactive steps to clean up their Balance Sheets by March 2017. In all adversity, there is opportunity and as a result of the stressed bank Balance Sheets, the NBFC sector has a significant opportunity to grow. NBFCs do not have the NPA problem of the magnitude of that of the banks and are already operating under strict

# LEAD FINANCIAL SERVICES LIMITED

regulatory supervision. The NBFC sector is likely to report higher NPAs in the initial period as it moves to the 90+ recognition norm, but the sector as a whole will emerge stronger after the implementation of these initiatives. Additionally, SARFAESI cover and a new bankruptcy code would make collections through the judicial system much simpler.

A normal monsoon and further rate cuts by RBI are expected to facilitate rural and urban consumption. The year ahead will be challenging on many fronts, credit quality and shifts in operating model, to name a couple. Each individually, and all of them collectively, have the ability to change the face of the financial services sector. The NBFC sector appears to be best placed to take advantage and succeed in this changing environment.

## **Outlook Risk and Concern**

The Outlook of the Company for the year ahead is to diversify risk and stabilize its asset quality. Credit risk, Market risk, Operational risk and Liquidity risk are the key risks faced by the Company. The Company takes risk management seriously and in process to set the procedures and policies in the area for the assessment and management of individual risk categories.

Except for some unforeseen and extreme event, the Company is well placed on the liquidity front and appropriate policies exist for underwriting credit risk. The Company endeavors to continuously learn and modifies its policies to manage the aforementioned risks.

## **Opportunities and threats**

There are several large and profitable opportunities for NBFCs and the sector plays an important role in the Indian financial system. The key is for the NBFC sector to grow in a prudential manner while focusing on financial innovation and in having in place, the adequate risk management systems and procedures before entering into risky areas.

It will be critical to retain talent at the right cost for effectively building a high performance organization with an engaged and young workforce. Adequate funding at the right cost and tenure will be critical to achieve business growth.

## **Adequacy of Internal Control System**

The Company's internal control system is designed to ensure operational efficiency, protection and conservation of resources, accuracy and promptness in financial reporting and compliance with laws and regulations. The internal control system is supported by qualified personnel for reviewing the adequacy and efficacy of the Company's internal controls, including its systems and processes and compliance with regulations and procedures. The Company's internal control system is commensurate with the size, nature and operations of the Company.

“We have audited the internal financial controls over financial reporting of LEAD FINANCIAL SERVICES LTD. (“the Company”) as of March 31, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

#### Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. #### Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
