REMUNERATION TO KMPS AND OTHER EMPLOYEES

The policy on remuneration for KMPs and other employees is as below:-

1. Fixed pay

The remuneration and reward structure for employees comprises two broad components — annual remuneration and long-term rewards. The Committee would determine the remuneration of the Directors and formulate guidelines for remuneration payable to the employees. These guidelines are as under:

a. Annual remuneration

Annual remuneration refers to the annual compensation payable to the employees of the Company. This comprises two parts - a fixed component, and a performance-linked variable component based on the extent of achievement of the individual's objectives and performance of the business unit. Every employee is required to sign a performance contract which clearly articulates the key performance measures for that particular defined role. The performance-linked variable pay will be directly linked to the performance on individual components of the performance contract and the overall performance of the business. An employee's variable pay would, therefore, be directly dependent on key performance measures that represent the best interests of shareholders.

The objective is to set the total remuneration at levels to attract, motivate, and retain high-caliber, and high potential personnel in a competitive global market. The total remuneration level is to be reset annually based on a comparison with the relevant peer group in the Indian market, established through independent compensation surveys, from time to time.

b. Long-term rewards

Long-term rewards may include Long-Term Incentive Plans (LTIP) or under which incentives would be granted to eligible key employees based on their contribution to the profitability of the Company, relative position in the organisation, and length of service under the supervision and approval of the Committee. The company could implement various long term awards schemes that could include Long Term Incentive Programme (LTIP) spread over several years with payouts in multiple tranches linked to Company's performance. Another form of long term awards could be in the nature of stock options of the company. Stock Options may be granted to key employees and high performers in the organisation who would be selected by the Committee based on their criticality, past performance and potential. The grant, vesting and other scheme details would be formulated from time to time.

These long-term reward schemes are implemented to attract and retain key talent in the industry.

2. Minimum remuneration to Managing Director

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay remuneration to its Managing Director in accordance with the provisions of Schedule V of the Companies Act, 2013 and if it is not able to comply with such provisions, with the previous approval of the Central Government.

Remuneration to non-executive / independent directors Remuneration

The remuneration payable to each non-executive director is based on the remuneration structure as determined by the Board, and is revised from time to time, depending on individual contribution, the Company's performance, and the provisions of the Companies Act, 2013.

Policy review

- o This policy is framed based on the provisions of the Companies Act, 2013 and rules thereunder and pursuant to regulation 19 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.
- o In case of any subsequent changes in the provisions of the Companies Act, 2013 or any other regulation which makes any of the provisions in the policy inconsistent with the Act or regulations, the provisions of the Act or regulations would prevail over the policy, and the provisions in the policy would be modified in due course to make it consistent with the law.
- o This policy shall be reviewed by the nomination and remuneration committee as and when changes need to be incorporated in the policy due to changes in regulations or as may be felt appropriate by the committee. Any change or modification in the policy as recommended by the committee would be given for approval to the Board.

ANNEXURE 4 TO DIRECTORS' REPORT
MANAGEMENT'S DISCUSSION AND ANALYSIS

- **Overall Review:-**
The company has diversified its business into textile. The Company has focused on trading in Textile fabrics, cotton yarns and undertakes redevelopment of residential properties in and around Mumbai.
- **Discussions on Financial performance with respect to Operational Performance:-**
The Company's income derives from its business of Textiles. During the year 2016-17, the Company was able to achieve total income from operations of Rs. 1613.03 lacs as compared to Rs. 1008.13 lacs in the previous year & able to reduce its Net Loss after tax of Rs. (48.32) lacs as compared to Rs. (107.07) Lacs in the previous year.
- **Business Segment: Textile**
 - a) **Industry Structure and Development:**
India's textiles sector is one of the oldest industries in Indian economy dating back several centuries. Even today, textiles sector is one of the largest contributors to India's exports with approximately 15 per cent of total exports India accounts for around 25% share of the global trade in cotton yarn. The fiber industry is growing at a rapid speed as large varieties of cotton fiber are available easily. The apparel industry holds about 12% of the total export across the globe. The industry has an added advantage of having numerous segments which help in the provision of a huge variety of products.
Policies of the successive Governments were primarily responsible for the disintegrated development. Government of India has at last taken up the issue seriously and has started extending helping hand to overcome some of the problems. The introduction of "Power Tex India" – a comprehensive Powerloom development scheme w.e.f. 01.04.2017 is bound to bolster the development of Powerloom production both in terms of volume as well as in quality. More such initiatives are needed to bolster the Powerloom sector. Further, policy decisions especially on Pollution control norms are needed for the healthy development of the processing segment, which continues to suffer.
 - b) **Opportunities and Threats:**
The future for the Indian textile industry looks promising, by both strong domestic consumption as well as export demand. The Indian cotton textile industry is expected to showcase a stable growth in FY2017-18.
After implementation of Goods and Service Tax (GST) will end interstate barriers to trade and help free movement of goods. It will be a win-win for all stake holders.
Though the demonetization of currency in November '16, had affected the textile trade initially as this segment was largely dependent on cash, yet over a period of time, this could be overcome. Further, the move had benefitted in mobilizing surplus money in the banking sector.
 - c) **Outlook:-**
The company is taking all efforts to improve sales to get more orders at competitive rates.
 - d) **Risks and Concerns:-**
Textile industry is always subject to facing crisis in a cyclical way. Timely action is needed to overcome this situation by taking corrective and proactive steps, then and there. Rupee has appreciated by around 6% in the past six months. This is making it extremely difficult to be competitive at a time when some of our major competing countries are depreciating against dollar. Exporters are badly affected. Indian Textile industry needs to overcome some of the threats looming large in this front.
- **Business Segment: Real Estate**
 - a) **Industry Structure and Development:**
For the past few years, Mumbai has witnessed growing demand for office space and being projected as the Financial Capital in this sub-continent. It is a preferred destination for real estate investments and has attracted capital infusion from foreign institutional investors/foreign funds as well as domestic players, both institutional and retail investors. We have witnessed a surge in this sector over the past decade.
Policies of Maharashtra Real Estate Regulatory Authority, introduced with The newly proposed Land Bill as well as the Real Estate Regulatory Bill, which was then passed by Indian parliament and became The RERA ACT effective from May 01, 2017 is considered as one of the landmark legislations passed by the Indian Parliament. Its objective is to address grievances of buyers and to bring transparency and accountability in country's real estate sector. This is in line with the vast and growing economy of India as in future many people will be investing in real estate sector.
 - b) **Opportunities and Threats:**
Due to the Real Estate Regulatory which is now effective will bring about more transparency in the long term, hence making investments more attractive. By virtue of the change in government policies and protection to the investors as well as developers will increase demand due to our large population base, this sector has grown continually and is expected to stay steady for long.
 - c) **Outlook:**
India's property market has struggled in recent years amid high interest rates and slowing economy. A stable Government at the Centre has given boost to the sector by instilling confidence to the builders as well as the buyers. Government's

- announcement on Foreign Direct Investment has also given boost to the sector.
- d) **Risks and Concerns:-**
Risks and threats are an imminent part of any business. The major risks and threats to our business are Constraints of funds, Human Resources, Legal and legal compliances.
- **Internal Control Systems and their Adequacy:-**
The Company has an adequate Internal Control System commensurate with its size and operations. Management has overall responsibility for the Company's Internal Control System to safeguard the assets and to ensure reliability of financial records. Audit Committee reviews all financial statements and ensures adequacy of internal control systems.
 - **Statement of Caution:**
Representations and statements made under "Management Discussions and Analysis" is based on the projection and expectation on the basis of the present market conditions. Actual results may materially differ due to several factors which could influence the Company's business operations such as demand and supply conditions, prices of input, changes in Government levies and regulations, industrial relations and other economic developments in the country.
 - **Human Resource:**
Performance measurement is a fundamental principle of the management. The measurement of performance is important because it identifies current performance gaps between current and desired performance and provides indication of progress towards closing the gaps. The Human Resource Department has carefully selected key performance indicators and has taken necessary steps to improve performance of our workforce.
 - **Corporate Social Responsibilities:**
The Company continued to pursue its agenda on social responsibility during the year.

“Annexure B” to the Independent Auditor’s Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)
We have audited the internal financial controls over financial reporting of **S R K INDUSTRIES LIMITED** (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely

preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to you, the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
