MANAGEMENT DISCUSSION & ANALYSIS REPORT

OVERVIEW

FY 2017-18 began in an uncertain environment with the economy coming to terms with the impact of demonetization of Rs. 500 and Rs. 1,000 bank notes that came into effect on 8 November 2016. In the first quarter (April-June 2017), real GDP growth declined to 5.7% - the lowest in 12 successive quarters. The second quarter (July-September 2017) also saw disruption in economic activity on account of teething troubles that accompanied the nation-wide rollout of the Goods and Services Tax (GST). At 6.5%, while GDP growth in the second quarter was higher than the immediately previous one, it was nevertheless the third-lowest in 12 quarters.

The third quarter, however, has shown a much needed uptick - posting 7.2% GDP growth vis-à-vis the same quarter in the previous year, and the highest that India saw in five successive quarters. Some believe that the economy has finally recovered and that the Nation is now set for higher growth.

However, the second advance estimates of national income for FY 2017-18 released by the Central Statistics Office (CSO) on 28 February 2018 suggest quite the opposite. The CSO estimates real GDP growth for FY 2018 at 6.6%, which is 0.5% less than the 7.1% growth witnessed in FY2017. Despite this lower growth forecast, there is a positive trend relating to investments. There seems to have been a relatively sharp growth in gross fixed capital formation (GFCF). Consequently, after falling for several years, the share of GFCF to GDP has finally risen to 31.4% for FY 2018. Although this is still less than what it needed to sustain a steady-state GDP growth of 7.5% to 8%, reversal of the downward trend should augur well for the economy. But that remains to be seen.

INDUSTRIAL STRUCTURE AND DEVELOPMENT

Non-banking finance companies (NBFCs) form an integral part of the Indian financial system. They play an important role in nation building and financial inclusion by complementing the banking sector in reaching out credit to the unbanked segments of society, especially to the micro, small and medium enterprises (MSMEs), which form the cradle of entrepreneurship and innovation. NBFCs' ground-level understanding of their customers' profile and their credit needs gives them an edge, as does their ability to innovate and customize products as per their clients' needs. This makes them the perfect conduit for delivering credit to MSMEs.

However, NBFCs operate under certain regulatory constraints, which put them at a disadvantage vis-à-vis banks. While there has been a regulatory convergence between banks and NBFCs on the asset side, on the liability side, NBFCs still do not enjoy a level playing field. This needs to be addressed to help NBFCs realize their full potential and thereby perform their duties with greater efficiency.

Moreover, with the banking system clearly constrained in terms of expanding their lending activities, the role of NBFCs becomes even more important now, especially when the government has a strong focus on promoting entrepreneurship so that India can emerge as a country of job creators instead of being one of job seekers. Innovation and diversification are the important contributors to achieve the desired objectives.

OPPORTUNITY & THREATS

India is an attractive investment destination and the Companies here are the part of India's growth story and through this we have also get hold of immense opportunities to expand, strengthen and enhance our business. We have enough headroom available to enlarge our network and at the same time educate number of customers to tie-up with us.

However due to continuing recession throughout world markets, a slowdown in financial flows into the economy and lingering impact of global credit crunch are seen as the greatest risk faced by NBFCs.

Further the volatility in the Indian equity markets and the huge liquidity crunch due to global financial meltdown would be a threat for the Company's business growth.

SEGMENT WISE OR PRODUCT WISE PERFORMANCE:

Your company is not dealing in any kind of product as the company's principal business is lending business only and during the year under review, the interest income from loans granted Rs.76.25 Lacs as against Rs. 88.18Lacs for the previous year. The considerable increase in revenues is on account of higher realization of Trade Receivables / earnings of interest on finances made by it. The operations of the Company have resulted in Profit after Tax of Rs 18.00 Lacs as against Rs. 20.85 Lacs in the previous year, which is on account of the employee benefit expenses and other expenses.

OUTLOOK

The Company's present business operations are preponderantly that of Loans & Advances, future of which largely depends upon financial and capital markets. The income from the advances/lending business is steadily growing, contributing significant volume to the overall business of the Company. The Management is optimistic, expects to maintain its performance in FY2017-18 and hopes to grow at a rate faster than the growth of bank credit. The approach would be to continue the growth momentum while balancing risk. As before, it will continue to invest in strengthening risk management practices; and in maintaining its investment in technology and human resources to consolidate its position as a leading NBFC in India.

RISK AND CONCERNS

The Company's risk philosophy involves the developing and maintaining a healthy portfolio within its risk appetite and the regulatory framework. While the Company is exposed to various types of risk, the most important among them are credit risk, market risk (which includes liquidity risk and price risk) and operational risk. The measurement, monitoring and management of risk remains key focus areas for the Company which manages this risk by maintaining prudent and commercial business practices.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has in place proper and adequate internal control systems commensurate with the nature of its business, size and complexity of its operations. Internal control systems comprising of policies and procedures designed to ensure reliability of financial reporting, timely feedback on achievement of operational and strategic goals, compliance with policies, procedure, applicable laws and regulations, and that all assets and resources acquired are used economically.

**“Annexure – B” to the Auditors’ Report of GOLECHHA GLOBAL FINANCE LIMITED
for the financial year ended 31st March, 2018**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of
the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of **Golechha Global Finance Limited (“the Company”)** as of 31st March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial

statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
