MANAGEMENT DISCUSSION AND ANALYSIS REPORT

❖ **FORWARD-LOOKING STATEMENTS**

This report contains forward-looking statements based on certain assumptions and expectations of future events. The Company, therefore, cannot guarantee that these assumptions and expectations are accurate or will be realised. The Company's actual results, performance or achievements can thus differ materially from those projected in any such forward-looking statements. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

❖ **INDUSTRY STRUCTURE AND DEVELOPMENTS**

The Global economy remained largely subdued in FY 2017-18 due to widespread uncertainties. A real sense of the impact of the opportunities provided by the growth in multiplex and digital distribution can be gained by looking at box office numbers and screens. 2008 witnessed the first film ever in India to cross 1 billion. In 2012 nine films achieved this milestone. Similarly, in 2008 a large film may have been released across around 1,000 screens, whereas the current figure is close to 3,500 screens. Looking ahead, continued growth is expected in multiplex screens. For example, the newly combined PVR and Cinemax chains are expected to increase the number of screens by 25% (90 screens) in FY 2014. With the expansion of Cinapolis in India and the growth in other chains such as Inox Movies and Reliance Big Cinema, growth has become an industry-wide phenomenon. This growth in the number of screens is also being accompanied by rising average ticket prices across cinemas, as the mix of multiplex and single screens cinemas changes, with a skew towards multiplexes. In FY 2013, for example, PVR Limited reported a 10% increase in average ticket prices. Growth in cinema is not restricted to Hindi films. Tamil, Telegu, Bengali and Punjabi cinema continue to grow as the availability of screens increases, with films from the regions joining the 1 billion box offices. Hindi Film Industry has become risky because of higher rates of the artists & technicians as well as the publicity taking before release become very costly. Any Hindi film publicity budget should be minimum 4-5 crore and in other way, regional film publicity budget is very restricted. During the period under review, the company is having pleasure to announce its new Tamil Film which was earlier Titled as "Teri Mehrbaniya-2" now it's title has been changed as "Rocky".

We would like to share that shooting of the film is in progress at Chennai and is about to release in August, 2018.

❖ **BUSINESS OVERVIEW**

The Sales during the year 2017-18 is Nil in the current year as compared to Rs. 25,08,800 in the previous year 2016-17.

❖ **MARKETING**

The Company is setting up a good marketing team to enter to increased turnover.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

We have framed our opinion on the basis of the management representation letter received by the Company's management. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the institute of Chartered Accountants of India.

The IndAs are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2017.

2A. Use of estimates

The preparation of financial statements in conformity with IndAs requires the management to make judgment, estimates and assumptions. The application of Accounting Policies that require critical Accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in the notes separately. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as the management becomes aware of the changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

2B.7 Taxation

Current income tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside profit or loss is recognized outside profit or loss. Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognized for all taxable temporary differences, except when it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

The company incurred loss in FY 2017-18 and DTA is recognized for temporary difference, since the company have unsold land and reduced operating and administration expenditure, hence it is probable that company will have taxable profit in future hence DTA recognized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

GST, Sales/ value added taxes paid on acquisition of assets or on incurring expenses

Expenses and assets are recognized net of the amount of sales/ value added taxes paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of tax included, the net amount of tax recoverable from, or payable to, the taxation authority is included as part of

receivables or payables in the balance sheet.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. In FY 2017-18, Company do not have the liability for MAT.

2B.8 Employee benefit schemes

Short-term employee benefits are recognized as an expense at the undiscounted amount in the Statement of profit and loss for the year in which the related service is rendered. Post employment and other long term employee benefits are recognized as an expense in the profit and loss account of the year in which the employee has rendered services and treated as defined benefit plans. The expense is recognized on the assumption that such benefits are payable at the end of the year to all the eligible employees.

2B.9 Provision for liabilities and charges, Contingent liabilities and contingent assets

The assessments undertaken in recognising provisions and contingencies have been made in accordance with the applicable Ind AS.

Provisions represent liabilities to the Company for which the amount or timing is uncertain. Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Guarantees are also provided in the normal course of business. There are certain obligations which management has concluded, based on all available facts and circumstances, are not probable of payment or are very difficult to quantify reliably, and such obligations are treated as contingent liabilities and disclosed in the notes but are not reflected as liabilities in the financial statements. Although there can be no assurance regarding the final outcome of the legal proceedings in which the Company involved, it is not expected that such contingencies will have a material effect on its financial position or profitability.

Contingent assets are not recognized but disclosed in the financial statements when an inflow of economic benefits is probable.
