#### Indian Scenario

In the year 2011-12, the Indian economy witnessed slowdown to 6.5%, which was lowest among the last 9 years figures. This was mainly due to global uncertainties, domestic challenges, low investment, delay in policy making, etc. This slowdown was seen in all major sectors of the economy which also includes power sector.

#### **Indian Power Scenario:**

As electricity is one of the most important input in the Industrial Sector, the development of the nation is generally compared by the per capita consumption of electricity. In the developing countries, the indicator cannot be related directly with the average development of the nation. The use of Electricity is basically in Industrial sector, Commercial & Residential lighting and Agriculture and Irrigation.

The infrastructure would need the availability of assured and quality power at affordable price through reliable and adequate generation, transmission and distribution facilities.

Your Company endeavors to utilize its full capacity so as to fulfill the increasing demands in the domestic market and earn profits in near future.

# **Operating Results of the Company:**

The Financial Statements have been prepared in compliance with the requirements of the Companies Act 1956 and Accounting Standards (AS) notified by the Companies (Accounting Standard) Rules, 2006.

The salient features of the Company's performance are:-

- Total Sales of ₹. 35612.10 Lakhs.
- Net loss of ₹. 1858.50 Lakhs.

With a net worth of about ₹. 6971.87 Lakhs as on 31st March, 2012, Bilpower Limited considers itself poised to cater to increased demand in the power sector with a growth in the bottom line also. Concerned about the losses, the directors have waived their remuneration for part of the year and presently, no director is drawing any remuneration from the company.

With a view to minimize the losses, the company has downsized the manufacturing operations and is presently carrying on the manufacturing activities from Baroda only. Further, the company has also increased the trading operations.

#### Outlook for the Company:

The management is hopeful that the company's business plan for the coming year would yield good results which will be better than the industry averages.

#### Internal Control and its adequacy:

The Internal audit was carried out by an independent firm of Chartered Accountants which conducts the audit on the basis of Annual Audit Plan. The process includes review and evaluation of effectiveness of the existing process, controls and compliance.
