MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT

Pursuant to Clause 34 of the SEBI (Listing Obligations And Disclosure Requirements) Regulations, 2015 with Stock Exchanges, a report on Management Analysis Report, as an annexure to the Directors' Report is give below: Industry structure and risk

A. Company Outlook

The Company during the current Financial Year 2017-18 had no business in the full year.

There is a clear shift in focus towards managed services model and new contracting models (output / outcome based) that align costs with activity levels. Customers are also trying to derive enhanced value from existing software investments – through application modernization, consolidation and upgrade of packaged solutions. There has been significant interest in some of the emerging technology areas like Mobility and Cloud Computing – in terms of adoption.

B. Internal Control Systems and their adequacy

The company has adequate internal control systems commensurate with the size of its operations and for the purpose of exercising adequate controls on the day-to-day operations. Systems are regularly reviewed to ensure effectiveness.

C. Material Developments in Human Resources / Industrial Relations

Human resource development is a primary area of focus for the Company. The company recruited senior level and other functional specialists during the year. The Human relations in the organization have been cordial.

D. Discussion on Financial Performance with respect to operational performance

The Company is not carrying any business and thus there was no turnover during the current year during, same as in the previous year. The major loss in the current year to the short term loss on the shares of Rs. 2,10,04,401 (Two crores ten lakhs for thousand four hundred and one) and remaining amount of Rs. 25,01,618/- as expenses leading to loss of Rs. 2,35,06,019/- Two Crores thirty five lakhs six thousand and nineteen only) in the current year compared to loss of Rs. 10,16,282/- (Ten Lakhs sixteen thousand two hundred eighty two only) during previous year 2016-17.

E. Opportunities and Threats

In every challenge lies an opportunity. As explained earlier, we see a distinct preference from customers to align their costs with activity levels, using innovative contracting models like output / outcome based pricing or even risk reward models that involve sharing of IP. Company's proven track record in having worked on such models through various engagements puts us in good stead to capitalize on this opportunity.

Our deep alliances with technology leaders like Microsoft, Oracle and IBM and involvement in several early adoption partnerships with them provides us with an early mover advantage on newer technology platforms and new releases of packaged applications. As customers embark on initiatives that derive enhanced value from existing software investments – through application modernization, consolidation and upgrade of packaged solutions, Company would be able to take advantage of these trends.

“Annexure B” referred to in paragraph 2 (f) of our Report of even date to the members of Mahavir Industries Limited on the accounts of the Company for the year ended March 31, 2018

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 (“the Act”).

We have audited the internal financial controls over financial reporting of Mahavir Industries Limited (“the Company”) as of March 31, 2018 in conjunction with our audit of the financial statements of the company for the year ended on that date.

Management’s responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Control Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by the Institute of Chartered Accountants of India and deemed to be prescribed under Section 143 (10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting includes obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedure selected depends on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting.

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial control over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES**Corporate Information:**

The Company is engaged in the business of Information Technology.

A. Basis of preparation of financial statements

The financial statements of the Company have been prepared under the historical cost convention, on the accrual basis of accounting in accordance with the Generally Accepted Accounting Principles ('GAAP') in India, mandatory accounting standards including Indian Accounting Standards ("IND AS") specified under Section 133 of the Act, read with Rule 7 of Companies (Accounts) Act, 2013., to the extent applicable and in accordance with the presentational requirements of the Companies Act, 2013 and other accounting requirements pronouncements of the Institute of Chartered Accountant of India.

This is the fourth year of application of the revised Schedule VI to the Companies Act, 2013 for the preparation of the financial statements of the company. The revised Schedule VI introduces some significant conceptual changes as well as new disclosures. These include classification of all assets and liabilities into current and non-current. The previous year figures have also undergone a major reclassification to comply with the requirements of the revised Schedule VI.

B. Use of estimates

The preparation of the financial statements in conformity with GAAP and Indian Accounting Standards ("IND AS") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the year. Example of such estimates includes future obligations under employee retirement benefit plans, estimated useful life of fixed assets, warranty on sales, provision for obsolete and slow moving inventory, etc. Actual results could differ from those estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

C. Current-Non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a. It is expected to be realized in, or is intended for sale or consumption in ,the company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is expected to be realized within 12 months after the reporting date; or
- d. It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a. It is expected to be settled in the company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is due to be settled within 12 months after the reporting date; or
- d. The company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of liability that could, at option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

D. Revenue recognition

Revenue from sale of goods is recognized on the basis of terms and conditions with respective customers which coincides with the transfer of significant risks and rewards to the customer. Sales are stated at invoice value net of sales tax, turnover/trade discount, returns and claims, if any.

Interest income is recognized on time proportion basis considering the amount outstanding and the rate applicable.

E. Inventories

The stock in trade are valued at the lower of cost and net realizable value. Cost includes purchase price including duties and taxes (other than those subsequently recoverable by the enterprise from tax authorities) freight inward and other expenditure directly attributable to bring the inventory to the present location and condition. Cost is determined on first in first out basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs necessary to make the sale.

F. Fixed assets

There are no fixed assets in the company.

G. Foreign currency transactions

Foreign currency transactions are recorded at the rate of exchange prevailing on the date of the respective transactions. Monetary foreign currency assets and liabilities remaining unsettled at the balance sheet date are translated at the rates of exchange prevailing on that date. Gains/ (losses) arising on account of realisation/ settlement of foreign exchange transactions and on translation of foreign currency assets and liabilities are recognized in the statement of Profit and Loss.

H. Employee benefits

Short term employee benefits

All employee benefits payable/available within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and bonus etc., are recognised in the Profit and Loss Account in the period in which the employee renders the related service.

Defined benefit plan

Gratuity is a defined benefit plan. The present value of obligations under such defined benefit plans is determined based on actuarial valuation carried out by an independent actuary at the end of the year using the projected unit credit method. The obligation is measured at the present value of estimated future cash flows. The discount rates used for determining the present value of obligation under defined benefit plans, is based on the market yields on Government securities as at the balance sheet date, having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognised immediately in the Profit and Loss Account.

I. Taxation

Income tax expenses comprise current tax (i.e. the amount of tax for the period determined in accordance with the income tax laws) and deferred tax charge or credit (reflecting the tax effects of timing differences between the accounting income and the taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognised using tax rates that have been enacted, or substantively enacted, by the Balance Sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that the assets can be realised in the future, however, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such assets. Deferred tax assets are reviewed as at each Balance Sheet date and written down or written up to reflect the amount that is reasonably/ virtually certain (as the case may be) to be realised.

J. Provisions and contingent liabilities

A provision is created when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. Provisions are not discounted to their present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

K. Earnings per share

Basic earnings per share are calculated by dividing the net profit/ (loss) attributable to equity shareholders for the year by the weighted average number of equity shares outstanding during the year.

L. Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposit with banks, other short term highly liquid investments with original maturities of three months or less.

21. Legal and professional fees includes auditor's remuneration:

Particulars	For the year ended 31 March 2018	For the year ended 31 March 2017
As Auditors: -Statutory audit	50,000.00	50,000.00
Total	50,000.00	50,000.00

22. Related party disclosures:

Related parties with whom transactions have taken place during the year: NIL

23. Previous year's comparative figures have been regrouped / recasted wherever necessary.

24. The balances of sundry debtors, sundry creditors, Loans and advances are subject to confirmations or reconciliation from respective parties
