MANAGEMENT DISCUSION ANAYLSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENT:

The Company is engaged in

- (1) Software Development
- (2) Real-estate &
- (3) manufacturing and marketing of auto parts and equipments.

The auto industry of India has not performed well during the year under review. The company started the development of real-estate and advanced for land development in the state of Maharashtra. The slowdown in the real-estate sector and in absence of actual borrower, the company decided to wait and watch. The Software development on a contract basis started during the year under review.

OPPORTUNITIES AND RISKS:

Today's equipments manufacturers are faced with a spectrum of challenges as they strive for consistent quality products while reducing input costs. The fluctuating customer demands, high energy costs, strict environmental limits are few of the threats faced by the Industry. The Company also strives to improve its efficiency levels in all areas of its operations by reducing the costs thereby increasing the profits. The economic slowdown forced the company to not to venture into auto industries.

The Company can see a better future in real-estate sector and want to go for development. Presently the sector is for reason of recession and interest rate not generating much interest amongst actual user. The company in the long run will venture in the said segment.

The company even though there was lot of recession in the software industry got few contracts for development and will continue the said businesses accordingly.

There has been a global rise in demand for the auto parts and equipments due to increased activity in automobile Industry. The Company sees great opportunity for the industry to grow as a whole.

SEGMENT WISE OR PRODUCT WISE PERFORMANCE:

The Company during the year mainly engaged in contact work of software development. Also the company invested in real-estate development. Due to adverse market condition the company is presently exploring new opportunities.

OUTLOOK:

1. The world's top car makers turn to India for the nuts and bolts of their vehicles. Due to slowdown in the auto segment, it would be difficult to go for retail segment. Manufacturing the parts also not cost effective.
2. In Use and Europe the software segment started showing improvement. The Company can go for procuring businesses abroad. The chances of getting business in this segment just started in a revised trend.
3. The real-estate sector presently witnessing downturn and hopefully after the general election and correction in interest rate will give a boost which actually has a bright future in the long run.

Annexure –B to the Auditor’s Report

Report on the Internal Financial Controls under Clause(i) of Sub- section 3 of section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over the financial reporting of **Aris International Limited** (“the Company”) as of **31st March 2017** in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with our Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of Internal Financial Controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatements of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company’s internal financial controls over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;(2) provide reasonable assurance that the transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditure of the company are being made only in accordance with authorisations of management and directors of the company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Aris International Limited

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at **31st March 2017**, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Significant Accounting Policies

a. **Basis of Preparation of Financial Statements**

The financial statements have been prepared under historical cost convention, on accrual basis, in accordance with the generally accepted accounting principles (GAAP) in India and comply with the Accounting standards prescribed under Section 133 of the Companies Act, 2013 (the Act) read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). The accounting policies have been consistently applied by the Company. All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III of the Act. Based on the nature of business and the time between the acquisition of assets and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities..

b. **Use of estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the results of operations during the reporting year end. Although these estimates are based upon management's best knowledge of current events and actions, belief that these estimates are reasonable and prudent, actual results may differ from estimates.

c. **Revenue Recognition**

Revenue is recognized only when risks and rewards incidental to ownership are transferred to the customer, it can be reliably measured and it is reasonable to expect ultimate collection. Revenue from operation includes sale of services.

d. **Cash flow**

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

e. **Segmental reporting**

Operations of the company consist of one segment i.e. Software Development. Thus AS -17 is not applicable to the company from the current year.

f. **Earnings Per Share**

Earnings per Share has been computed in accordance with Accounting Standard 20 - "Earning Per Share" by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The earnings considered for ascertaining the company's Earnings per Share is the net profit after tax.

g. **Income Tax**

Tax expense comprises of current tax and deferred tax. Provision for current tax is made for the tax liability payable on taxable income after considering the allowances, deductions and exemptions and disallowances if any determined in accordance with the prevailing tax laws.

Deferred income tax reflect the current period timing difference between taxable income and accounting income for the period and reversal of timing difference of earlier years/period. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future income will be available except that deferred tax assets, in case there are unabsorbed depreciation or losses, are recognised if there is a virtual certainty that sufficient future taxable income will to available to realise the same.

Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

h. **Provisions, Contingent Liabilities and Contingent Assets**

The Company creates a provision when there is a present obligation as a result of an obligating event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the outflow. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimate.

Contingent liabilities are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements.
