In case of investments transferred to stock-in-trade, carrying amount on the date of transfer is considered as cost. Commission earned in respect of securities acquired upon devolvement is reduced from the cost of acquisition. Fair value of unquoted shares is taken at break-up value of shares as per the latest audited Balance Sheet of the concerned company. In case of debt instruments, fair value is worked out on the basis of yield to maturity rate selected considering quotes where available and credit profile of the issuer and market related spreads over the government securities
