Management Discussion and Analysis Report:

To avoid duplication between the Directors Report and the Management Discussion and Analysis Report for the year, we present below a composite summary of performance of the various business & functions of the Company.

Industry Overview:

The trend in slowdown in global growth continued during the year. India was the fastest growing large economy with a stable currency that performed better than the most emerging market currencies. If the industry players manage to restructure their operations as per the new realities, success will not be very hard to find now. India growth story remained reasonably positive due to stable domestic consumption, lower commodity & energy prices & hence improving macroeconomic parameters.

However there are some negative factors like drought, rising Non-Performing Assets (NPA) of Banks & low credit growth. The Company is into business of development of commercial, residential and infrastructure projects. The new Government policies as well as, certain High Court rulings have made many infrastructure projects unviable and there is considerable delay as many restrictions have been imposed by the High Court. The infrastructure sector is badly hit because of regulatory, legal & financial hurdle.

Business Overview:

The Company is into business of development of commercial, residential and infrastructure projects.

The Company is exploring various options to improve margins of the Company, by having tight control on expenses & exploring various business activities. The Company has decided to take work on sub-contract basis, as the Capital & cost will be minimal & loss can also be eliminated because of any change in Government regulations. This will impact the profit margin, but at least the Company can sustain in the long run. The Company is also exploring low cost housing projects in Gujarat, which is easily saleable in the present scenario. Despite various adverse factors we firmly believe that Indian economic will grow and hence the growth of construction & infrastructure sector presents us with exciting opportunities like India's long-term growth story remains intact notwithstanding declining growth in the past year or two. This presents vast opportunities for us to grow our businesses in the medium to long term, though short-term pain remains a possibility. We further believe the policy liberalization and forward-looking regulatory changes will help markets grow in size. The Company has turnaround this year and it expect to keep this momentum. The growth in the sector is very good and Management expects better results in forth coming year.

Adequacy of Internal Control:

The Company has robust internal control systems in place which are commensurate with the size and nature of the business. The internal controls are aligned with statutory requirements and designed to safeguard the assets of the Company. The internal control systems are complemented by various Management Information System (MIS) reports covering all areas. Increased attention is given to auto generation of MIS reports as against manual reports to take care of possible human errors or alteration of data. The Management reviews and strengthens the controls periodically.

Human Resource Development:

The Company recognizes the importance of Human Resource as a key asset instrumental in its growth. The Company believes in acquisition, retention and betterment of talented team players. With the philosophy of inclusive growth, the Company has redefined its performance management system. The new system focuses on progression of individual employees together with organizational goals. Under the new system increased thrust will be on job rotation and multi-skilling.

Manpower:

The company recognizes the importance of human value and ensures that proper encouragement both moral and financial is extended to employees to motivate them.

Segment-Wise Performance:

The Company is into single reportable segment only.

Compliance:
