Annexure B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **SHRI KALYAN HOLDINGS LIMITED** ("the Company") as of 31 March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of

financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

that have been enacted or 'substantively enacted' as of the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised and are reviewed at each balance sheet date.

1.8 Leases :

Leases are classified as operating leases where the lessor effectively retains substantially all the risks and benefits of the ownership of the leased assets. Operating lease payments are recognised as expenses in the Profit and Loss Account as and when paid.

1.9 Provisions, Contingent Liabilities and Contingent Assets :

Provision is recognised when the company has a present obligation as a result of past events and it is probable that the outflow of resources will be required to settle the obligation and in respect of which reliable estimates can be made. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision / disclosure is made. Contingent assets are not recognised in the financial statements. Provisions and contingencies are reviewed at each balance sheet date and adjusted to reflect the correct management estimates.

1.10 Accounting of Equity Index / Stock Futures :

- A** Initial Margin - Equity Index/Stock Futures Account", representing the initial margin paid, and "Margin Deposits" representing additional margin paid over and above the initial margin, for entering into a contract for equity index/stock futures which are released on final settlement/squaring-up of the underlying contract, are disclosed under Loans & Advances.
- B** Equity index/stock futures are marked-to market on a daily basis. Debit or credit balance disclosed under Loans and Advances or Current Liabilities, respectively, in the "Mark-toMarket Margin - Equity Index/Stock Futures Account", represents the net amount paid or received on the basis of movement in the prices of index/stock futures till the balance sheet date.
- C** As on the balance sheet date, profit/loss on open positions in equity index/stock futures is accounted for as follows :
 - * Credit balance in the "Mark-toMarket Margin - Equity Index/Stock Futures Account", being the anticipated profit, is ignored and no credit for the same is taken in the profit and loss account.
 - * Debit balance in the "Mark-toMarket Margin - Equity Index/Stock Futures Account", being the anticipated loss, is adjusted in the profit & loss account.
- D** On final settlement or squaring-up of contracts for equity index/stock futures, the profit or loss is calculated as the difference between the settlement/squaring-up price and the contract price. Accordingly, debit or credit balance pertaining to the settled/squared-up contract in "Mark to Market Margin - Equity Index / Stock Futures Account" after adjustment of the provision for anticipated losses is recognised in the profit & loss account.
- E** When more than one contract in respect of the relevant series of equity index/stock futures contract to which the squared-up contract pertains is outstanding at the time of the squaring-up of the contract, the contract price of the contract so squared-up is determined using the weighted average cost method for calculating the profit/loss on squaring up.

1.11 Accounting of Equity Index / Stock Options :

- A** "Equity Index/Stock Futures Account", representing the initial margin paid, and "Margin Deposits" representing additional margin paid over and above the initial margin, for entering into a contract for equity index/stock options, which are released on final settlement/squaring-up of the underlying contract, are disclosed under Loans & Advances.
- B** "Equity Index/Stock Option Premium Account" represents the premium paid or received for buying or selling the options, respectively.
- C** As at the balance sheet date, in the case of long positions, provision is made for the amount by which the premium paid for those options exceeds the premium prevailing on the balance sheet date, and in the case of short positions, for the amount by which the premium prevailing on the balance sheet date exceeds the premium received for those options, and is reflected in "Provision for Loss on Equity Index/Stock Option Account".
- D** When the option contracts are squared-up before the expiry of the options, the premium prevailing on that date is recognised in the profit and loss account. If more than one option contract in respect of the same index/stock with the same strike price and expiry date to which the squared-up contract pertains is outstanding at time of squaring-up of the contract, the weighted average method is followed for determining the profit or loss.
- E** On the expiry of the contracts and on exercising the options, the difference between the final settlement price and the strike price is transferred to the profit & loss account.
- F** In both the above cases, the premium paid or received from buying or selling the option, as the case may be, is recognised in the profit and loss account for all squared-up / settled contracts.
