• **INDUSTRY STRUCTURE AND DEVELOPMENTS**

The NBFC sector in India has undergone a significant transformation over the past few years. It has come to be recognized as one of the systematically important components of the financial system. NBFCs play a critical role in infrastructural development; employment generation, wealth creation opportunities and financial support for economically weaker sections. NBFCs with their innovative products and strategic geographic presence, have been able to effectively compete with banks.

The recent demonetization drive has triggered an increase in formal credit. With emphasis on digitization and cashless economy by the government, the finance institutions would be able to lend credit through faster, easier and friendly processes. On an overall basis, the sector is expected to witness impressive growth with several government initiatives, increasing urbanization and expansion in formal system.

The revised regulatory framework released in November, 2014 by the RBI focuses on strengthening the structural profile of the NBFC sector. These changes have to be implemented in a phased manner by March 31, 2018.

• **OPPORTUNITIES**

Structural changes in the financial services sector have created new opportunities for NBFCs. The success of NBFCs can be clearly attributed to their better product lines, lower cost, wider and effective reach, strong risk management capabilities to check and control bad debts, and better understanding of their customer segments. Going forward, the latent credit demand of an emerging India will allow NBFCs to fill the gap, especially where traditional banks have been wary to serve.

• **THREATS, RISKS & CONCERNS**

Growth of the Company's asset book, quality of assets and ability to raise funds depend significantly on the economy. With the emergence of Small Finance Banks, the landscape is set to get more competitive.

The Company is also dealing in shares & Stock trading which is unforeseen in terms of the performance of the industries, economic scenario.

Your Company is exposed to several market risks like credit risk, liquidity risk and interest rate risk. The volatility of the capital markets in which your Company operates is also a major cause of concern to the Company.

• **SEGMENT WISE OR PRODUCT WISE PERFORMANCE**

• **OUTLOOK**

The Outlook of the Company for the year ahead is to diversify risk. The markets will continue to grow and mature leading to differentiation of products and services. “Annexure-B” to the Auditors’ Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **SHRI KALYAN HOLDINGS LIMITED** (“the Company”) as of 31 March 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’).

These responsibilities include the design, implementation and maintenance of internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial statement

A company's internal financial control over financial **statement** is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an internal financial controls system with reference to financial statements and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements

1) Significant Accounting Policies

1.1 Basis of Accounting :

These financial statements are prepared in accordance with generally accepted accounting principles applicable in India under the historical cost convention except for certain financial instruments which are measured at fair value. These financial statements comply with the applicable provisions of the Companies Act, 2013 and the accounting standards.

1.2 Use of Estimates :

The preparation of Financial Statements in conformity with the Accounting Standards generally accepted in India 'requires, the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of the financial statements and reported amounts of revenues and expenses for the year. Actual results could differ from these estimates. Any revision to accounting 'estimates is recognised prospectively in current and future periods.

1.3 Fixed Assets and Depreciation :

Tangible Assets

- A Tangible Assets are stated at acquisition cost, net accumulated depreciation and accumulated impairment losses.
- B Subsequent expenditures related to an item of fixed asset are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard performance.
- C Items of fixed assets that have been retired from active use and are held for disposal are stated at the lower of their net book value and net realisable value and are shown separately in the financial statements. Any expected loss is recognised immediately in the Statement of Profit and Loss.
- D Losses arising from the retirement of and gains and losses arising from disposal of fixed assets which are carried at cost are recognised in the statement of Profit and Loss.

Intangible Assets

- A Intangible assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives.
- B Gains or losses from the retirement of and gains and losses arising from the disposal of fixed assets which are carried at cost are recognised in the Statement of Profit and Loss.

Methods of Depreciation and Amortisation

- A Depreciation on all the fixed is provided on a Straight Line Method.
- B Effective 1st April 2014, the Company depreciates its fixed assets over the useful life in the manner prescribed in Schedule II of the Act, as against the earlier practice of depreciating at the rates prescribed in Schedule XIV of the Companies Act, 1956

1.4 Investments :

- A All the Investments are classified as Long Term Investments by the management and are valued at cost in terms of "Non Banking Financial Companies Prudential Norms (Reserve Bank) Directions, 1998" and provision is made to recognize any decline in the value of investments.
- B Considering the strategic and long term nature of the investment and the asset base of the investee companies, in the opinion of the management the decline in the market value of certain quoted investments and the book value of certain unquoted investment is of temporary nature and requires no provisioning.

1.5 Inventories :

The Company was valuing closing stock of shares at cost or market value whichever is less, where the quotes are available. The closing stocks of shares are valued at cost or last traded price available where the quotes are not available.

1.6 Revenue Recognition :

- A Dividend income is recognised when the unconditional right to receive the income is established.
- B Interest income is recognised on time proportionate method.
- C Revenue in respect of other income is recognised when no significant uncertainty as to its determination or realisation exists.
- D All expenses and incomes to the extent considered payable or receivable are accounted for on accrual basis. However, Interest on Calls in Arrears shall be accounted for on Cash Basis.

1.7 Taxes on Income :

- A Tax expenses comprise of current and deferred tax.
- B Current tax is measured at the amount expected to be paid on the basis of reliefs and deductions available in 'accordance with the provisions of the Income Tax Act, 1961.
- C Deferred tax reflects the impact of current year timing differences between accounting and taxable income and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and laws that have been

enacted or 'substantively enacted as of the balance sheet date. Deferred tax assets are recognised only to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised and are reviewed at each balance sheet date.

1.8 Leases :

Leases are classified as operating leases where the lessor effectively retains substantially all the risks and benefits of the ownership of the leased assets. Operating lease payments are recognised as expenses in the Profit and Loss Account as and when paid.

1.9 Provisions, Contingent Liabilities and Contingent Assets :

Provision is recognised when the company has a present obligation as a result of past events and it is probable that the outflow of resources will be required to settle the obligation and in respect of which reliable estimates can be made. A disclosure for contingent liability is made when there is a possible obligation, that may, but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision / disclosure is made. Contingent assets are not recognised in the financial statements. Provisions and contingencies are reviewed at each balance sheet date and adjusted to reflect the correct management estimates.

1.10 Accounting of Equity Index / Stock Futures :

- A** Initial Margin - Equity Index/Stock Futures Account", representing the initial margin paid, and "Margin Deposits" representing additional margin paid over and above the initial margin, for entering into a contract for equity index/stock futures which are released on final settlement/squaring-up of the underlying contract, are disclosed under Loans & Advances.
- B** Equity index/stock futures are marked-to market on a daily basis. Debit or credit balance disclosed under Loans and Advances or Current Liabilities, respectively, in the "Mark-to-Market Margin - Equity Index/Stock Futures Account", represents the net amount paid or received on the basis of movement in the prices of index/stock futures till the balance sheet date.
- C** As on the balance sheet date, profit/loss on open positions in equity index/stock futures is accounted for as follows :
 - * Credit balance in the "Mark-toMarket Margin - Equity Index/Stock Futures Account", being the anticipated profit, is ignored and no credit for the same is taken in the profit and loss account.
 - * Debit balance in the "Mark-toMarket Margin - Equity Index/Stock Futures Account", being the anticipated loss, is adjusted in the profit & loss account.
- D** On final settlement or squaring-up of contracts for equity index/stock futures, the profit or loss is calculated as the difference between the settlement/squaring-up price and the contract price. Accordingly, debit or credit balance pertaining to the settled/squared-up contract in "Mark to Market Margin - Equity Index / Stock Futures Account" after adjustment of the provision for anticipated losses is recognised in the profit & loss account.
- E** When more than one contract in respect of the relevant series of equity index/stock futures contract to which the squared-up contract pertains is outstanding at the time of the squaring-up of the contract, the contract price of the contract so squared-up is determined using the weighted average cost method for calculating the profit/loss on squaring up.

1.11 Accounting of Equity Index / Stock Options :

- A** "Equity Index/Stock Futures Account", representing the initial margin paid, and "Margin Deposits" representing additional margin paid over and above the initial margin, for entering into a contract for equity index/stock options, which are released on final settlement/squaring-up of the underlying contract, are disclosed under Loans & Advances.
- B** "Equity Index/Stock Option Premium Account" represents the premium paid or received for buying or selling the options, respectively.
- C** As at the balance sheet date, in the case of long positions, provision is made for the amount by which the premium paid for those options exceeds the premium prevailing on the balance sheet date, and in the case of short positions, for the amount by which the premium prevailing on the balance sheet date exceeds the premium received for those options, and is reflected in "Provision for Loss on Equity Index/Stock Option Account".
- D** When the option contracts are squared-up before the expiry of the options, the premium prevailing on that date is recognised in the profit and loss account. If more than one option contract in respect of the same index/stock with the same strike price and expiry date to which the squared-up contract pertains is outstanding at time of squaring-up of the contract, the weighted average method is followed for determining the profit or loss.
- E** On the expiry of the contracts and on exercising the options, the difference between the final settlement price and the strike price is transferred to the profit & loss account.
- F** In both the above cases, the premium paid or received from buying or selling the option, as the case may be, is recognised in the profit and loss account for all squared-up / settled contracts.
