Industry Structure and Development

The Social Expressions Industry is still unorganized in India. There are number of small players whose operations are restricted in their respective regions. Besides them, there are very few serious players having nationwide presence. Greeting Cards are more of a fashion than culture in India and the Industry is driven by retailers and distributors rather than consumers.

The Company, which pioneered the concept in the Indian market, is the leader with more than 50% share of the organized sector.

Technology in the form of e-greeting, SMS and applications like facebook, Whatsapp had its toll on the growth of the greeting card business in general. However, this segment has the potential to bounce back, because if one really wants to make someone feel happy or greet someone on his/her special day, the technology in the form of call or SMS is very short lived and the recipient forgets the same in a moment. However greeting cards and gifts have a long lasting impact and the products keeps on reminding the same to the recipient which creates a source of happiness for a longer span of time.

The Company has developed into a gifting solution destination for the consumers and has enhanced its reach to come closer to the Customers, with opening of retail outlets in various cities in India. As on 31.03.2016 the Company is having 229 Company owned and operated retail outlets and is planning to open more stores.

This business is based on sentiments both at micro and macro level.

Opportunities and Threats

Last year your Company had reoriented its business strategy by shifting its focus on other verticals such as online platform and alternate selling channel for its Stationery Products. This year the Company has broadened its alternate selling channel for perfumes and deodorants also. Your Company is continuously making its footprints, PAN India (for alternate selling channel) There is a significant scope and opportunities available in the segment. Looking at the market size and Your Company's network, we believe the segment has potential for taking Your Company to next level. Hitherto, the channel for selling stationery products and perfume was limited to gifts stores and galleries. The Company is now more focused towards sales optimization by creating value proposition for the consumers.

As realty sector continues to be under stress and organized retailing is mushrooming in different parts of the country; your Company's constant endeavor is to tap most of the locations for deeper penetration. Additionally, your Company will continue to explore overseas markets that offer vast opportunities.

Your Company understands that different stores and areas have different needs, and a one-size-fits-all promotional strategy doesn't work. Your Company has initiated in-store promotion activity at various stores and has observed positive feedback and increasing footfalls.

Company has also tied up with various e-retailers and marketing affiliates to increase product visibility in the virtual space like Flipkart, Snapdeal, E-India Store, Group on India, Saffron Art India Pvt. Ltd., Gift A love.com, Phoolwala.com, My flower tree, Shopclues, Indian gifts portal. Fern and petals & Bookflower.com

Your Company understands that the business model that would run in future is by creating customer satisfaction and value creation for ensuring profitability and sustainability. Your Company's constant endeavor is to serve the consumer better, faster and at less cost in ever changing market scenarios. While we are hopeful that we will be able to shape our future, yet we are alive to the threats that we face and are geared to overcome them. Technological changes like SMS, Whatsapp, text messaging service pose a threat to our core product i.e. greeting cards. However we are making all efforts to revive the greeting cards category and by bringing lot of innovations and creativity to fulfill the need of consumers. Observing the changing dynamics. Your Company has already initiated various measures by focusing on other verticals to combat these developments.

ANNEXURE-B TO THE INDEPENDENT AUDITORS' REPORT

Annexure referred to in paragraph 2(g) under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act.

We have audited the internal financial controls over financial reporting of the Company as of 31 March, 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("the ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, both issued by ICAI and deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note.
