### Forward-looking statement

In this Annual Report the forward-looking information if any, is for enabling investors to comprehend our prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried, wherever possible to identify such statements by

using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in our assumptions. The achievement of results is subject to risks, uncertainties and

even inaccuracies in our assumptions. Should known or unknown risks or uncertainties materialize, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. We undertake no obligation to publicly update any forward-looking statements, arising as a result of new information, future events or otherwise.

### Important Communication to Members

The Ministry of Corporate Affairs has taken a "Green Initiative in Corporate Governance" by allowing paperless compliances by the companies and has issued circulars allowing service of notices / documents including Annual Report by e-mail to its members. To support this green initiative of the Government in full measure, members who have not registered their e-mail addresses, so far, are requested to do the same immediately.

## 13th Annual General Meeting

On Wednesday, the 22<sup>nd</sup> June 2011

At 3.00 p.m. at Rama Watumull Auditorium, K.C. College, Dinshaw Wacha Road, Churchgate, Mumbai 400020

1. Shareholders intending to require information about accounts to be explained in the meeting are requested to inform the Company at least seven days in advance of the Annual General Meeting.
2. Shareholders are requested to bring their copy of Annual Report to the Meeting as the practice of handing out copies of the Annual Report at the Annual General Meeting has been discontinued in view of the high cost of paper and printing.
3. The Listing Fees for the year 2011-2012 have been paid by the Company to Mumbai, Ahmedabad and National Stock Exchanges where the shares of the Company are listed.

# Chairman's review

Navin Fluorine International Limited reinforced its competitive position in a challenging market place to report a satisfactory 2010-11.

The Company not only reported higher volumes, but also leveraged its complex chemistry skills and business insights to generate higher realisations.

The operational performance of the Company grew substantially resulting in higher contribution margins.

During the year, the worldwide issuance of CERs from industrial gases projects, which includes your Company's project, was inordinately delayed due to an extensive study conducted by the Clean Development Mechanism (CDM) Board. As a result, there was no issuance of CERs until the end of December 2010 and there was no CER income booked during the second and third quarter of the year under review.

## Challenges for 2010-11

The financial year under review was challenging for various reasons.

While we were able to recover most of the costs through higher prices, the challenge was for our user industries to absorb the cost increase.

Fluctuating exchange rates posed a challenge which affected our financial performance. Besides, there was an instability in

the US pharma market, a country we were entering with CRAMS business.

## Achievements for 2010-11

Your Company's overall achievements for 2010-11, some of which helped us to counter these challenges are as under:

- We commissioned a multi-purpose plant to manufacture specialty fluorochemicals (operational 2011-12) that will enable us to service comprehensive customer requirements (grams to multi tonnes of quantity) on the one hand and enable us to produce a large number of products on the other.
- We established a new contract research facility at our Surat R&D centre to enable us to enter a rapidly growing business segment of CRAMS.
- We maintained an excellent relationship with our workmen's union, signing a three-year wage agreement starting 2010-11, which enhanced mutual trust and reinforced a performance-driven culture.
- The debt burden remained minimum despite significant investments in capacity expansion and completely writing down subsidiary losses.
- We announced a buyback of equity shares to the extent of Rs 135 mn. The buyback was conducted through the tender offer route at a price of Rs 400 per share with the objective to

acquire 338,792 shares. The buyback was exercised to the extent of 10% of the paid-up capital and free reserves of the Company as on March 31, 2010.

## Strengthening the core business

Over the last few years, we strengthened our manufacturing infrastructure through a combination of revamping existing plants and expanding capacities. This enabled us to address emerging customer requirements – anywhere, anytime – with speed and surety.

Your Company continued to focus on increasing its research capabilities and product development speed. In line with this priority, we are investing in increasing the strength of scientists as well as investing in additional equipment.

This investment will take our business ahead in the following ways: help us develop value-added molecules based on emerging customer requirements, accelerate product commercialisation, reinforce our presence in contract research and manufacture and address the robust growth coming from key user segment of life sciences.

With our pilot and multi-purpose plants in place, we now possess the methodology to scale output from the nominal to the large, quicker than most of our competitors. Consequently, our specialty fluorochemicals business is multi-step, multi-product and multi-purpose in character.

## Road ahead

For the last few years, our goal was to position ourselves as a sustainably growing Company. We have done so through a consistent investment in knowledge, enabling us to capitalise on industry opportunities. The time has come to demonstrate our capability in exploiting these opportunities. More importantly, Navin will enhance its CRAMS focus, which shall make us grow from a technology and products vendor to a

specialised research and services partner.

Besides, we progressively derisked our business model through a growing relevance to a number of downstream applications and industries.

- The bulk fluorides sector enjoys a positive outlook due to the growing demand coming out of the stainless steel and glass sectors.
- The increase in India's per capita income augurs well for the growing demand for automotives and refrigerants, strengthening our refrigerant prospects.
- The continuing growth of the pharmaceuticals industry will catalyse revenues from specialties, considering that a recent study indicated that of ten discoveries made in the pharma sector, four involve fluorochemicals.

To capitalise effectively on the emerging situation, we are looking at acquiring smaller specialty companies in Europe or the US. These acquisitions are expected to improve our technology and process capabilities.

A combination of these initiatives will drive our growth beyond 2012 in a sustainable way.

## A word of thanks

In conclusion, I would like to express my gratitude to our shareholders, employees, bankers, customers, suppliers, advisors and other partners. They played a motivating role in our performance in 2010-11 and we assure that we will endeavour to enhance value for our entire stakeholding family.

## 2. Dividend

Your Company declared an interim dividend of Rs.6.50 per share in the month of October 2010 aggregating to Rs.656.49 lacs for 10099889 equity shares of nominal value of Rs.10/- each. The Board of Directors is pleased to recommend a final dividend for the year of Rs.8.50 per share on 9761097 equity shares of nominal value of Rs.10 each, aggregating to Rs.829.69 lacs taking the total dividend payout to Rs.15/- per share of a nominal value of Rs.10 each.

## 3. Year in retrospect

Turnover for the year remained flat at Rs. 42,969 lacs against Rs. 42,933 lacs of the previous year. Profit after tax of Rs. 7,164.38 lacs remained broadly at the same level as that of the previous year.

India in 2010-11 was clearly a high demand inflation economy with a healthy demand pull. In contrast to the earlier years, 2008-09 being a year of economic meltdown and 2009-10 being

a year of correction, this has been a year of consolidation for many Indian corporates.

Global commodity prices have once again been on the upswing. Crude Oil reached a high of \$ 110 a barrel in last March from \$ 75 a barrel in June '10. Similarly, all the major raw material prices steadily escalated during the current fiscal. There has been an increase of 30 % to 50 % in the prices of fluorspar, sulphur and chloroform, the most critical raw materials for the Company. However, through some medium term strategic buying, your Company could smother the impact of rising raw material costs while progressively increasing the selling prices of its products. During the year there have been steady price corrections for many of the finished products of the Company, bringing their margins back on track. Their sustainability, which is a function of the global demand-supply equilibrium, now needs to be carefully watched. Demand for refrigerant gases, bulk fluorides and specialty chemicals was robust in the second half of the current fiscal, both in the international and local markets.

The Indian Rupee during the year remained volatile against the US \$. It reached a low of Rs. 47.51 and a high of Rs. 44.03 during the year, fluctuating in a 10% band. The Indian Rupee remained weak from May to September '10 and thereafter kept on strengthening for the balance part of the year. This resulted in weakening of the export value realisation in the second half of the year. Unlike the US \$, the Euro steadily strengthened against the Indian Rupee in the second half of the fiscal, which helped the Company's Carbon price realisation. The Euro moved in a 15% band against the rupee from a low of Rs.56 in mid May to a high of Rs.64 in March '11.

During 2010 – 11, worldwide issuance of Certified Emissions Reductions (CERs) from industrial gases projects, which includes your Company's Project, were inordinately delayed due to an extensive study conducted by the Clean Development Mechanism (CDM) Board. As a result there was no issuance of CERs until the end of December '10 and there was no CER income booked during the second and third quarter of the current fiscal. Majority of the CERs issued since the third quarter has been utilised in fulfilling the old long term contracts.

The demand for carbon credits in the near term and until the end of 2012 is expected to remain steady. However, there are

growing uncertainties around the Kyoto Protocol, its continuity beyond 2012 and most importantly the eligibility of industrial gases, CERs for use within the European Union (80 % of the current market) beyond 2012 as a carbon off-set instrument.

A strategic plan to grow the Specialty Chemicals business was formulated and a medium term road-map was drawn-up. Accordingly your Company took several steps in the past two years namely; investments in R&D, Pilot Plant, a multi-purpose plant and entry into Contract Research and Manufacturing Services (CRAMS).

The state-of-the-art R&D centre commissioned in 2009-10 at Surat will help your Company to develop new value-added molecules based on specific customer requirements whereas the pilot plant is expected to speed up the process of commercialization of the new molecules. Following significant investments in R&D and Pilot Plant, your Company also commissioned the state-of-the-art Multi Product Plant during the current fiscal, which increased your Company's ability to meet changing customer needs and provide flexible product mix of enhanced process capabilities. During this year a state-of-the-art Contract Research (CRO) facility was built at Surat which will support your Company's entry into CRAMS. The contract manufacturing operations will predominantly emerge out of Dewas which will house the small batch cGMP (Current Good Manufacturing Practices) plant. Both the CRO and cGMP will become fully operational during the first quarter of 2011-2012.

Your Company as a good corporate citizen, is alert to its responsibilities in health, safety and environmental management, the details of which are covered in the management discussion and analysis.

Your Company continues to be rated as (a) 'CARE A+' (indicating adequate safety for timely servicing of debt obligations and low credit risk) for borrowings with a tenure of more than one year and fund-based facilities and (b) 'PR1+' (indicating strong capacity for timely payment of short-term debt obligations and lowest credit risk) for its non-fund based facilities.

During the year the residual debt of Rs. 801 lacs was paid. Debentures worth Rs. 140 lacs were also repaid during the year and the balance debentures of Rs.140 lacs shall be paid of in the

month of August 2011.

During the year your Company purchased 61599 Sq. Ft (built up area) of office space in Lower Parel, Mumbai at a total investment of Rs. 4756.74 lacs. The rental income from this property has handsomely contributed to the results of the Company.

#### **4. Subsidiary and associates**

Sulakshana Securities Limited (SSL), created through the Sanctioned Scheme of Rehabilitation (SS) of Mafatlal Industries Limited (MIL) for settlement of dues of the term lenders of MIL, continued to remain a wholly-owned subsidiary of your Company.

Pursuant to the exemption granted to the Company by the Central Government vide its letter No. 47/41/2011-CL-III dated 31<sup>st</sup> January 2011, the Company has not attached copies of the Balance Sheet and Profit and Loss Account, Directors' Report and Auditors' Report of the subsidiary company for the financial year ended 31<sup>st</sup> March 2011 and other documents required to be attached under Section 212(1) of the Companies Act, 1956, to the Balance Sheet of the Company. However, the other details, as required by the Central Government while granting the said exemption, are disclosed in this Report.

The annual accounts and related information of the subsidiary company are open for inspection by any member / investor at the Registered Office of the Company on working days between 2.00 p.m. and 4.00 p.m. and the Company will make available these documents / details upon request by any member of the Company who may be interested in obtaining the same. The annual accounts and related information of the subsidiary company are also available on the Company's website.

Your Company continues to hold 43% of the equity share capital of Mafatlal Denim Limited (MDL) which is its only associate company.

#### **5. Industrial relations**

There were cordial and harmonious industrial relations during the year and the management received full cooperation from the employees. During the year, a long-term wage settlement with the Workmen has been entered into.

During the year extensive training and developmental activities were undertaken, both in-house and out-bound, for the management as well as unionized employees. The workmen actively participated in several small group activities to identify and implement efficiency improvement programmes wherein they demonstrated self initiative and sense of ownership.

# Annexure to the Directors' Report

## 1. Conservation of Energy

### A) Energy conservation measures taken:

- With the growing market demand, production plant utilisation was increased by engineering up-gradation; this has resulted into better output at lower energy consumption. Substantial saving of power and natural gas has been achieved at major manufacturing units like HF, Mafron, BF3, Sulphuric acid etc.
- Many other initiatives towards energy savings were taken up and executed during the year like :
- Right sizing of motors.
- Replacement of old motors with energy efficient motors.
- De-scaling of heat exchangers.
- Replacement of cables to save line losses.
- Provision of capacitors to maintain high power factor
- Modification and automation of cooling towers.
- Recycle of cooling water instead of once through.

### B) Additional investments and proposal, if any being implemented for reduction in consumption of energy.

- To reduce the heavy cable losses and to improve load factor, the Power Management System will be implemented. Substantial saving is envisaged in power distribution as well as in natural gas consumption at power plant.
- Following other initiatives are planned to improve energy efficiency :
- Provision of Variable Frequency Drive at various pumps and drives.
- Changing of Delta mode to Star mode at under utilised motors.
- Water ring vacuum pumps will be replaced by oil ring or steam ejectors.
- Once through water will be replaced by recycling.
- Capacity augmentation in plants like HF will improve energy efficiency.

### C) Impact of the measures at (A) and (B) above, for the reduction of energy consumption and consequent impact on the cost of production of goods.

As indicated in (A) and (B) above

### D) Total energy consumption and energy consumption per unit of production

The particulars are furnished in the prescribed Form A annexed hereto.

## 2. Technology Absorption

Effort made in technology absorption are furnished in prescribed Form B annexed hereto.

## 3. Foreign Exchange Earnings and Outgo

### A) Activities relating to export initiatives taken to increase exports, developments of new export markets for products and services and export plans.

As you are aware a sizeable income of your Company comes in foreign exchange as a result of its large exports of refrigerant gases and specialties and sale of carbon credits. Your Company has a dedicated export team regularly visiting overseas markets and end-users in different geographies. This year we participated in CPHI exhibition in Paris, Chem Outsourcing exhibition in the US and Informex in the US with our own booths. Participation in these exhibitions help explore new business partners in newer geographies and improve your company's visibility among the major international customers in this industry.

Visits are also made to different carbon credit related fairs to enhance the knowledge on the latest developments in the carbon credit space, keep in contact with existing customers and add new customer contacts.

## FORM B

### A) Research and Development

#### 1. Specific areas in which R&D is carried out by your Company

The R&D efforts of the Company are directed towards the following:

- a) Process improvements in all existing products to achieve better consumption norms and to reduce the overall cost of manufacture of the Company's Products.
- b) Development of new Fluorination techniques to introduce Fluorine in a chemical substance including development of specific catalysts with a general objective of improving conversion of desired products and reducing the generation of waste.

#### 2. Benefits derived as a result of the above R&D

Following benefits were derived from the above R&D:

- a) More products were added to the growing portfolio of specialty fluoro-chemicals products of the Company and incorporation of value added products from basic raw materials.
- b) Increase in numbers of companies added to the list of the Company's customers and partners both in domestic and overseas segments.
- c) The Company's competitive positioning was strengthened and also reliability as a potential strategic vendor is on the rise, also evident from the growth in the overall business of the Company.

#### 3. Future plan of action

A state-of-the-art R&D and quality control and assurance centre has been instrumental in achieving the growth by continuing its support to the production, trouble shooting to cope with the increasing competitiveness in the market and also to accelerate new product development and effective process improvement of some value added products for customers, with the aim of making the Company most competitive in value-added specialty fluoro-chemicals business segment.

### 4. Expenditure on R&D

c) Total	461.92	539.49
d) Total R&D expenditure as a % of total turnover	1.03	1.22

### B) Technology absorption adaptation and innovation

#### 1. Efforts in brief were made towards technology absorption, adaptation and innovation:

The R&D team develops most of the processes for the new products through extensive literature survey, laboratory tests, Safety and Environmental studies, scale up and pilot plant studies along with commercial impact studies after which the products are manufactured on a semi-commercial and then on a commercial scale.

The R&D team constantly interacts with our customers through our marketing division to understand their requirements and develops, makes modifications in the product profile and quality to meet the exacting needs of the customer along with the expected price targets.

R&D is also involved with supporting customers in case of developing newer chemicals from their R&D (mg) level to all the way up to manufacturing (Ton) level for their fluoro-chemical needs by bringing in years of experience and know-how on fluorination, identification & handling of various fluorinating agents and technologies.

#### 2. Benefits derived as a result of above efforts

As stated above

#### 3. Information regarding technology imported during the last five years

- (i) Technology imported – Thermal oxidation of HFC 23  
Year of import – Technology was imported during the year 2006-07
- (ii) Has technology been fully absorbed – Yes
- (iii) If not fully absorbed, not taken place, reasons therefore and future plans of action – Not Applicable.

# Management discussion and analysis

## Economic overview

The global recovery is proceeding at different speeds in various regions. The world economy is projected to grow at about 4.50% in 2010 and 4.25% in 2011 (Source: IMF).

India's GDP grew at a healthy 8.6% in 2010-11 against 8% in 2009-10, surpassing estimates of an 8.5% GDP growth at the start of fiscal 2010-11. This growth was largely owing to the significant growth in the agriculture sector at 5.4% (0.4% in 2009-10); the services and industrial sectors maintained their previous year's momentum.

## Industry overview

The global fluorochemical industry is worth USD 12.7 billion and global demand for fluorochemicals is expected to rise 2.7 percent annually by volume through 2013. The Asia Pacific region will remain the largest market while Africa and the Mid-eastern region will grow the fastest.

The fluorochemical industry has sizeable entry barriers, including economies of scale needed for the profitable production of high volume products, steep research and development costs and evolving environmental regulations. Consequently, much of the global supply is concentrated among a handful of major integrated companies.

## Growth drivers

**Automobile:** The Indian auto industry sold 2.5 million cars in 2010-11. Growth of the Indian middle-class along with growth of the economy over the past few years attracted global auto majors to the Indian market. Moreover, according to a study

released by global consultancy firm Deloitte, at least one Indian Company will be among the top six car manufacturers that will dominate the global auto industry by 2020. These developments will foster unprecedented growth in sales of fluorocarbons used in automobile air-conditioners (*Source: Enam Research*).

**Pharmaceutical:** India's domestic pharmaceutical market is valued at around USD 12 billion in 2010 and has shown a strong growth of 21.3% for the 12 months ending September 2010, as per consulting firm Pricewaterhouse Coopers (PwC). The drugs and pharmaceuticals sector attracted FDI worth US\$1.8 billion between April 2000 and September 2010, according to data published by Department of Industrial Policy and Promotion (DIPP). The Indian pharmaceutical industry is expected to report a CAGR of 15% to reach USD 28 billion (Rs 1,26,000 crores) in FY 15, catalysing demand for specialty chemicals.

**Steel:** The Indian steel industry ranks fifth in the world and India is ranked 10th among global stainless steel producers. India's share in global crude steel production increased from 3% in 1998 to 4.7% in 2010. India's steel consumption grew 8.3% in 2000-2010, outpacing 6% production growth. Going ahead, India's steel production is expected to grow attractively.

## Refrigerators

The Indian refrigerator market has a penetration of 18% and is expected to grow by 16% over the next ten years. Rising nuclear families, increase in the working women population and deeper rural penetration will fuel the demand for refrigerators. Major

industry players have lined up capacity expansions to tap increasing demand. This will strengthen the demand for refrigerants, going forward.

#### **Air-conditioners**

The Indian room air conditioner market can grow from 2.5 million pieces to 18 million pieces in 2020, achieving a 25% market penetration. With soaring temperatures (caused by global warming), wider choice, easy finance availability and higher disposable incomes, the domestic air-conditioners industry is expected to grow at CAGR of 22% over the next ten years. Manufacturers are coming out with new models to enhance the product portfolio and reap economies of large-scale production with a parallel gain in higher consumer confidence index, driving the demand for refrigerants (Source: Enam Research).

#### **Agrochemicals**

The Indian agricultural space reflects a huge potential for growth, reflected in a single statistic – while over half the country's population is engaged in farming, agriculture's contribution to the country's GDP has remained low. Agriculture accounted for 14.2 per cent of the country's gross domestic product (GDP) in 2010-11 (Source: CSO estimates).

The global  
fluorochemical  
industry is worth  
USD 12.7 billion  
and global demand  
for fluorochemicals  
is expected to rise  
2.7 percent  
annually by volume  
through 2013.

### Product

## 1. Refrigerants

Rs. 23,871 Lac

Sales

(13%)

Growth over the previous year

Navin Fluorine pioneered the manufacture of refrigerant gases in India in 1967, marketed under the 'Mafron' brand, which is now a generic name for refrigerant gases in India. Mafron is the preferred choice for Original Equipment Manufacturers (OEMs), service technicians and equipment owners leading to safe, reliable and efficient refrigeration and air conditioning solutions. The Company's refrigerant product is exported to South Asia, Southeast Asia, the Middle East and Turkey. The Company also trades in R134a within India.

### Highlights

Operations improved substantially resulting in higher contribution margins. Nearly 85% of the Company's refrigerant business was directed at international buyers even as the domestic refrigerant market grew over 25% owing to the robust

OEM demand coming out of the country's consumer appliances industry. The Company could capitalise on growing demand and consequent increase in realisations due to the following reasons: increased demand from Poly Tetra Fluoroethylene (PTFE) and a shutdown of some international capacity due to environment concerns. Overall operating margins, including that of export of refrigerant gases, improved substantially over the last year.

### CER income

Following the installation of a Clean Development Mechanism (CDM) in 2008-09, in collaboration with Ineos Fluor (global fluorochemicals major), the Company successfully discontinued the release of harmful by-product HCFC-23 into the atmosphere. The project was registered by the CDM Executive Board of

United Nations Framework Convention on Climate Change (UNFCCC) for generating 2.8 million CERs per annum and generating substantial revenues. During the year, the worldwide issuance of CERs from industrial gases projects, which includes your Company's project, was inordinately delayed due to an extensive study conducted by the Clean Development Mechanism (CDM) Board. As a result, there was no issuance of CERs until the end of December 2010 and there was no CER income booked during the second and third quarter of the year.

### Road ahead

India's refrigerant demand is expected to grow 20% in 2011-12, partly influenced by a softening of global realisations as a Chinese plant restarted operations. Your Company is experiencing continued growth with improved margins. In the long run, even as volumes decline, the Company's profitability could be protected on account of rising realisations due to a long-term demand-supply disparity. The future of CERs beyond 2012 remains uncertain.

#### HCFC market limited to developing nations - Montreal Protocol

While developed countries switched to non-polluting blends of Hydro Chlorofluorocarbons (HCFCs), the Montreal Protocol permitted the use of HCFC-22 until 2030. On January 1, 2013, the production of HCFC-22 will go back to the base level (the average production of calendar years 2009 and 2010). In 2015, a further reduction of 15% on the base level is forecast with complete phase-out by 2030.

#### Product

### 2. Bulk fluorides

Rs. 7,704 Lac

Sales

29%

Growth over the previous year

Bulk fluorides primarily comprise Hydrofluoric Acid (HF), Potassium Fluoride (KF), cryolite and ammonium bifluoride. Bulk fluorides cater mainly to the steel and aluminium sectors with downstream applications in the glass, pharma and agrochemical industries.

This division reported a growth of 29% owing to a rising demand coming from the stainless steel and glass industries. There was a large focus on the domestic market, affording superior realisations.

#### Highlights, 2010-11

- There was an overall improvement in the production

efficiency norms of many products.

- Segment margins improved following efficient purchases of raw material and production; besides, most of the cost increases were passed on to customers.
- Established Potassium Fluoride capabilities with improvement in quality as per global standards with increase in capacities.
- There was a debottlenecking of HF capacities

#### Road ahead

The Company aims to capture much of a growing market with a proposed introduction of more products and wider market penetration within India and abroad.

## Product

### 3. Specialty fluorochemicals

Rs. 11,748 Lac

Sales

29%

Growth over the previous year

This specialty segment comprises fluorine-based molecules with niche applications in pharmaceutical and crop protection segments. The Company specifically chose to be present in growing therapeutic segments where fluoro intermediates can be increasingly used. Fluorine-based chemistry is gaining importance in agro and pharma molecules owing to the stability and activity that it provides. Besides, the Company is capitalising on a global preference for the use of less harmful substances. The growth in this segment was hindered due to capacity constraints.

#### Highlights, 2010-11

Our specialty business is dependent on niche products. NFIL's competitive advantage is derived from our in-house capability of extending chemistry skills into successful technologies through R&D capabilities. The speed of product development is critical in business growth. Our full-fledged 20,000 sq.ft Navin Research & Innovation Centre (NRIC) with state-of-the-art research facilities, along with pilot plant is helping us develop new products faster to market.

We are strengthening our delivery capabilities through following initiatives:

- The first multi-purpose plant (MPP-1) was commissioned in Surat.

- A Current Good Manufacturing Practices (cGMP) pilot plant is under construction at Dewas to address requirements of international pharmaceutical customers.
- Increased focus on high value pharmaceutical intermediates based on fluorine chemistry.

The focus of this business is on the growing international demand for fluorospecialites and being cost competitive against international competition.

#### Outlook

Investments made in the previous years in research and manufacturing will substantially help in developing value-added products and providing products to our customers as and when needed. The focus on value-added products will help the business to enhance the margins. Our growing relationships with international customers will help us sustain growth for years to come.

#### Applications

Specialty chemicals are used in the manufacture of agrochemical and pharmaceutical intermediates.

## II. Supply chain management

Our products are hazardous in nature. The raw material price movements are volatile and certain key materials are crude oil-dependent and hence there is a premium on the capability to source raw materials with speed, safety and sustainability.

During the year, the supply chain strategy was based on supplies security and optimisation of procurement cost. To

mitigate various challenges, we undertook the following initiatives which resulted in an effective and successful system which benefited the Company.

**Raw material sourcing:** The Company generally procured fluorspar from China where prices hardened but during the year under review, it commenced sourcing fluorspar from two

alternative locations with better bargaining power and timely availability.

**Price tracking and forecasting system:** With raw material prices being crude oil-dependent, the Company established a price tracking and forecasting system for a lead into what the Company's relevant response should be.

**Raw material volatility:** Strategic purchases based on prevailing raw material price movements, capturing opportunities

presented by price volatility.

**Information accuracy:** Introduced integrated supply chain initiative (based on SAP) for online inventory data, rationalising non-moving inventory and timely product sale for overall cost reduction.

### Road ahead

The Company intends to optimise procurement costs through the identification of alternative fluorspar sourcing points.

## III. Manufacturing

In a business with a growing appetite for demanding purity standards, there is a premium on high manufacturing efficiency, lifecycle product management (research to commercialisation) and progressive production scale-up.

During the year, the operational focus was on capacity utilisation and efficiency norm improvement.

Efficiency was enhanced and resources were utilised productively through a Company-wide initiative called 'Sankalp'. This helped reinforce the work culture. Initiatives were identified to take this exercise ahead in 2011-12.

During the year, KF facility was revamped and product quality was improved as per global standards. We emphasised on

infrastructure upgradation and undertook several environment, health and safety related initiatives.

### Road ahead

Going ahead, the Company will strive to increase capacity utilisation of its plants. The Company is also looking at projects for creating value-added products out of the by-products, reducing waste disposal. Initiatives will be taken for converting the waste into usable form – a step towards green environment.

## IV. Human resource management

Our presence in the niche specialty and fine chemical segments makes it imperative to invest in people, processes and practices. The Company's centralised recruitment is done through campuses, consultants and web portals.

All Company recruits undergo 21 days of induction training. A number of seminars and training sessions are conducted through out the year for employees. Many of the employees were also sent to reputed institutions like IIM, ISB and Indian Society of Behavioural Science, among others.

The Company undertook Sankalp, an initiative which involved employee teams across functions and locations in projects. Employees were rewarded and recognised for their contribution towards projects.

A three-year wage agreement (starting 2010-11) was signed with the workmen's union which enhanced mutual trust and reinforced a performance driven culture.

The total number of employees as on 31st March, 2011 was 540.

## V. Safety, Health and Environment (SHE)

We deal with hazardous chemicals and processes which makes it imperative to follow stringent safety, health and environment norms. As a responsible corporate citizen, the Company constantly strives to minimise risks across its plants and offices.

We have an experienced team to manage the safety, health and environment issues. Third party audits are conducted to measure our SHE performances. Commitment towards safety, health and environment is integral to the Company's existence. Over the years, we have been investing heavily in enhancing the infrastructure in line with safety, health and environment needs.

### Focus on safety

- The Company availed the services of a reputed international firm, Chilworth, to carry out a comprehensive safety audit of the Company's plants. The Company commissioned third party safety audits during the year by the Central Labour Institutes to reconfirm our safety measures.
- The Company conducts extensive safety training regularly, including behavioural, technical and emergency response training.
- The Company conducts awareness creation programmes where participation by all permanent and contract workers in mock drills and other activities are mandatory.
- The Company introduced a modified safety work permit system to make Standard Operating Procedures (SOPs) more

comprehensive.

- The Company extended focus beyond employees to the nearby community, transporters and customers, training them in the safe use and handling of products.

### Focus on health

- The Company has a full fledged six-bed health centre at the Surat facility along with a qualified full time doctor supported by nurses.
- The Company invites reputed external faculty to visit employees periodically and offer health-related advice; we also conduct health tests semi-annually.
- The Company tied up with a hospital 5 km from the Surat plant to provide immediate and effective care, in case of any emergencies.
- The Company provides comprehensive health insurance cover for all employees across various organisational levels.

### Focus on environment

- The Company maintains a huge plantation cover to reduce air pollution caused by factory emissions and prevent soil erosion.
- The Company optimised the effluent treatment plant (ETP) to reduce lime waste disposal.
- The Company constantly reviews its processes to reduce solid waste.

## VI. Analysis of the financial performance.

The salient features of the financial performance are:

- PBT was lower by 13% from Rs. 12,233 lacs in the previous year to Rs. 10,602 lacs in the current year.
- PAT was also lower by 4% from Rs.7,436 lacs in the previous year to Rs.7,164 lacs in the current year.
- EPS was lower at Rs.71.11 in the current year compared with Rs.73.63 in the previous year.
- Operating EBIDTA fell from 31% in the previous year to 28% in the current year.

- ROCE decreased to 32% in the current year from 40% in the previous year.
- Gross block increased from Rs.24,007 lacs as on 31st March, 2010 to Rs.25,525 lacs as on 31st March, 2011.
- Working capital declined 27% from Rs.14,455 lacs as on 31st March, 2010 to Rs.10,576 lacs as on 31st March, 2011.
- Current ratio stood at 1.69 as on 31st March, 2011 compared with 2.06 as on 31st March, 2010.
- Debt equity improved from 0.04 to 0.03

## VII. Risk management

Risk is an integral factor in virtually all businesses in varying degrees and forms. At NFIL, risk management ensures that risks are adequately measured, estimated and controlled. Irrespective of the type of risk or the activity that creates it, the Company's fundamental approach to risk management remains the same:

- Forward-looking approach to identify and measure risks
- In-depth knowledge of the business and competitors
- Flexibility in the understanding and management of risk

NFIL has designed a structured risk management programme to protect the organisation through timely action. The objectives of the Company's risk management framework comprise the following:

- To identify, assess, prioritise and manage existing as well as emerging risks in a planned and cohesive manner
- To increase the effectiveness of the internal and external reporting structure
- To develop a risk culture that encourages employees to identify risks and associated opportunities, responding to them with appropriate timely actions

The Company prioritised the risks and attached each risk with a designated owner, who closely monitored the likelihood of recurrence and the probable impact on the business with ongoing control measures in a periodical manner.

## VIII. Internal control systems

All the major business processes of the Company are currently run on the latest ERP system. The Company has an adequate Internal Audit System commensurate with its size and nature of operations. An independent firm of chartered accountants carries out the internal audit at one of its manufacturing sites. A team from the in-house internal audit resources of the group

covers the other locations.

The internal auditors periodically interact with the Audit Committee of the Board of Directors to discuss the terms of reference and frequency of the audit, significant audit observations and their disposals and remedies if any.

## Auditors' report

To, the members of

**Navin Fluorine International Limited**

1. We have audited the attached Balance sheet of Navin Fluorine International Limited as at 31st March, 2011, the Profit and Loss account and also the Cash-flow Statement for the year ended on that date, annexed thereto. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. As required by the Companies (Auditor's Report) Order, 2003 (CARO), issued by the Central Government in terms of section 227 (4A) of the Companies Act, 1956, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the said Order.
4. Further to our comments in the Annexure referred to in paragraph 3 above, we report as follows:
  - i. we have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - ii. in our opinion, proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
  - iii. the Balance sheet, Profit and Loss account and Cash-flow statement dealt with by this report are in agreement with the books of account;
  - iv. in our opinion, the Balance sheet, Profit and Loss account and Cash-flow statement dealt with by this report are in compliance with the Accounting Standards referred to in Section 211 (3C) of the Companies Act, 1956;
  - v. in our opinion, and to the best of our information, and according to the explanations given to us, the said accounts, give the information required by the Companies Act, 1956, in the manner so required, and give a true and fair view in conformity with the accounting principles generally accepted in India:
    - a) in the case of the Balance sheet, of the state of affairs of the Company as at 31st March, 2011;
    - b) in the case of the Profit and Loss account, of the profit for the year ended on that date and
    - c) in the case of the Cash-flow statement, of the cash-flows for the year ended on that date.
  - vi. On the basis of written representations received from the directors, as on 31st March, 2011 and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2011 from being appointed as a director in terms of Section 274 (1) (g) of the Companies Act, 1956.

## Auditors' report (contd...)

# Annexure to the Auditors' report

### Re: Navin Fluorine International Limited

(referred to in paragraph 3 of our report of even date)

1. Having regard to the nature of the Company's business / activities / results, clauses (vi), (x), (xii), (xiii), (xiv), (xv), (xviii) and (xx) of paragraph 4 of CARO are not applicable to the Company for the year.
2. In respect of its fixed assets :
  - a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
  - b) The fixed assets were physically verified during the year by the management in accordance with a regular programme of verification, which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
  - c) The fixed assets disposed off during the year, in our opinion, do not constitute a substantial part of fixed assets of the Company and such disposal has, in our opinion, not affected the going concern status of the Company.
3. In respect of its Inventory :
  - a) As explained to us, the inventories were physically verified during the year by the management at reasonable intervals.
  - b) In our opinion and according to the information and explanations given to us, the procedures of physical verification of inventories followed by the management were reasonable and adequate in relation to the size of the Company and the nature of its business.
  - c) In our opinion and according to the information and explanations given to us, the Company has maintained proper records of inventories and no material discrepancies were noticed on physical verification.
4. The Company has neither granted nor taken any loans, secured or unsecured to / from companies, firms or other parties listed in the Register maintained under section 301 of the Companies Act, 1956.
5. In our opinion and according to the information and explanations given to us, having regard to the explanations that some of the items purchased are of special nature and suitable alternative sources are not readily available for obtaining comparable quotations, there is an adequate internal control system commensurate with the size of the Company and the nature of its business with regard to purchases of inventory and fixed assets and the sale of goods and services. During the course of our audit, we have not observed any major weakness in such internal control system.
6. In respect of contracts or arrangements entered in the Register maintained in pursuance of Section 301 of the Companies Act, 1956, to the best of our knowledge and belief and according to the information and explanations given to us:
  - a) The particulars of contracts or arrangements referred to Section 301 that needed to be entered in the Register maintained under the said Section have been so entered.
  - b) Where each of such transaction is in excess of Rs.5 lacs in respect of any party, the transactions have been made at prices which are *prima facie* reasonable having regard to the prevailing market prices at the relevant time.
7. In our opinion, the internal audit functions carried out during the year by firm of Chartered Accountants appointed by the Management have been commensurate with the size of the Company and the nature of its business.
8. We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under section 209(1)(d) of the Companies Act, 1956, and we are of the opinion that *prima facie* the prescribed accounts and records have been made and maintained *except that the prescribed cost statements are in the process of being compiled for the year*. We have, however, not made a detailed examination of the records with a view to determining whether they are accurate or complete. To the best of our knowledge and according to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records for any other product of the Company.
9. According to the information and explanations given to us in respect of Statutory dues ;
  - a) The Company has generally been regular in depositing undisputed statutory dues including Provident Fund, Investor Education and Protection Fund, Employees State Insurance, Income-tax, Sales-tax, Wealth Tax, Service Tax, Custom Duty, Excise Duty, Cess and other material statutory dues applicable to it with the appropriate authorities.
  - b) There were no undisputed amounts payable in respect of Income-tax, Wealth Tax, Custom Duty, Excise Duty, Cess and other material statutory dues in arrears as at 31st March, 2011 for a period of more than six months from the date they became payable.
  - c) Details of dues in respect of income-tax, excise duty, customs duty, wealth-tax, sales-tax, service tax and cess which have not been deposited as on 31st March, 2011 on account of disputes are given below :

## Schedules forming part of the accounts

### Schedule 16 SIGNIFICANT ACCOUNTING POLICIES

#### 1. Basis of preparation of Financial Statements

The financial statements are prepared under historical cost convention on accrual basis of accounting and in accordance with generally accepted accounting principles.

#### 2. Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period.

Difference between the actual results and estimates are recognised in the period in which the results materialise or are known.

#### 3. Fixed assets

Fixed assets are recorded at cost of acquisition or construction. They are stated at historical cost less accumulated depreciation and impairment loss, if any.

#### 4. Depreciation

Depreciation on fixed assets is provided for on straight-line basis in accordance with the Companies Act, 1956 (refer note 5 of schedule 17).

#### 5. Impairment loss

Impairment loss is provided to the extent that the carrying amount(s) of assets exceed their recoverable amount(s). Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash-flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

#### 6. Investments

Long-term investments are carried at cost. Provision is made to recognize a diminution, other than temporary, in the carrying amount of long-term investments.

#### 7. Inventories

Items of inventory are valued at cost or net realisable value, whichever is lower. Cost is determined on the following basis:

Raw materials, stores and spares - Weighted average

Process stocks and finished goods - At material cost plus appropriate value of overheads

Trading goods - FIFO

#### 8. Retirement and other employee benefits

a. The Company contributes towards Provident fund, Family pension fund and Superannuation fund which are defined contribution schemes. Liability in respect thereof is determined on the basis of contribution required to be made under the statutes / rules.

b. Gratuity liability, a defined benefit scheme, and provision for leave encashment is accrued and provided for on the basis of actuarial valuations made at the year end.

#### 9. Foreign currency transactions

Transactions in foreign currency are recorded at the original rates of exchange in force at the time the transactions are effected. At the year-end, monetary items denominated in foreign currency and forward exchange contracts are reported using closing rates of exchange. Exchange differences arising thereon and on realisation / payment of foreign exchange are accounted, in the relevant year, as income or expense.

In case of forward exchange contracts, or other financial instruments that are in substance forward exchange contracts, the premium or discount arising at the inception of the contracts is amortised as expense or income over the life of the contracts. Gains / losses on settlement of transactions arising on cancellation / renewal of forward exchange contracts are recognised as income or expense.

#### 10. Borrowing costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing cost are charged to revenue.

### Schedule 16 SIGNIFICANT ACCOUNTING POLICIES (Contd.)

#### 11. Revenue recognition

Revenue (income) is recognised when no significant uncertainty as to its determination or realisation exists. Turnover includes carbon credits which are recognised on delivery thereof or sale of rights therein as the case may be, in terms of the contracts with the respective buyers.

#### 12. Taxes on income

Tax expense comprises of both current and deferred tax at the applicable enacted / substantively enacted rates. Current tax represents the amount of income-tax payable / recoverable in respect of the taxable income / loss for the reporting period. Deferred tax represents the effect of timing differences between taxable income and accounting income for the reporting period that originate in one period and are capable of reversal in one or more subsequent periods.

#### 13. Provisions and contingencies

A provision is recognised when the Company has a legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. A contingent liability is disclosed when the Company has a possible or present obligation where it is not probable that an outflow of resources will be required to settle it. Contingent assets are neither recognised nor disclosed.

#### 14. Employee stock option

Measurement and disclosure of the employee share-based payment plans is done in accordance with the Guidance Note on Accounting for Employee Share-based Payments, issued by The Institute of Chartered Accountants on India. Compensation expense is amortised over the vesting period of the option on a straight line basis. The Company measures compensation cost relating to employee stock options using the intrinsic value method.

#### 15. Intangible assets

Intangible assets are stated at cost of acquisition less accumulated amortisation. Computer Software which are capitalised, are amortised over a period of 6 years on straight-line basis.

### Schedule 17 NOTES ON ACCOUNTS

(Rupees in lacs)

	As at 31st March, 2011	As at 31st March, 2010
<b>1. Estimated amount of contracts remaining to be executed on capital account and not provided for</b>	767.80	770.37
<b>2. Contingent liabilities in respect of:</b>		
a. Excise matters disputed in appeal		
These relate to MODVAT on capital purchases (pending before the Assistant Commissioner) and permit fee on purchase of alcohol (pending before the High Court)	158.42	91.48
b. Claims against the Company not acknowledged as debts		
Labour matters involving issues like regularisation of employment, termination of employment, compensation against severance, etc.	22.34	23.34
c. Sales-tax matters disputed in appeal		
These relate to classification of goods and consequent dispute on the rates of sales-tax (pending at various stages from Assistant Commissioner to High Court)	209.42	207.14
d. Income tax matters disputed in appeal	629.17	606.81

In all the above matters, the Company is hopeful of succeeding and as such does not expect any significant liability to crystallise.

3. a) The Board for Industrial & Financial Reconstruction (BIFR) declared Mafatlal Industries Limited (MIL) a sick industrial undertaking and sanctioned a scheme for its rehabilitation (SS). Pursuant to this:
- i) the Chemical Division of MIL was demerged and vested in the Company with effect from 1st March, 2002 as a going concern;
  - ii) Sulakshana Securities Limited (SSL), the wholly-owned subsidiary of the Company, took over certain identified assets and term loan liabilities of MIL with the objective of repaying them by disposing off the assets thus transferred.
- b) In terms of the settlements reached by MIL - SSL for the discharge of term loan liabilities of MIL, as referred to in 3(a)(ii) earlier:
- i) As at the year end, the aggregate value of interest free monies advanced to and debentures issued on behalf of SSL by the

### Schedule 17 NOTES ON ACCOUNTS (Contd.)

company is Rs. 2,799.07 lacs (previous year Rs. 2,794.07 lacs). The market value of the assets remaining in SSL after repayment of the liabilities taken over from MIL far exceeds the value owed by SSL

- ii) the Company gave a corporate guarantee of Rs. 1,000.00 lacs against which a Contingency reserve of Rs. 1,000.00 lacs has been created equitably over four years from 2005-2006 as required by the lenders.
4. The Company decided to assist MIL in its rehabilitation efforts in view of its substantial investment in MIL's shares and has from time to time taken several steps which, broadly are as follows:
- a) Advanced monies to a group company aggregating to Rs. 2,594.82 lacs (previous year Rs. 2,412.48 lacs) including interest, at year end to enable the settlement of loan liabilities of MIL.
- b) Taken over loan liabilities of MIL of Rs. 6,534.12 lacs, which aggregate to a value of Rs 3,372.49 lacs (previous year Rs. 3,015.99 lacs) at year end.

The net worth of MIL has turned positive based on their accounts as on 31st May, 2010 and consequently it has been deregistered from BIFR. The settlement of the amounts in (a) and (b) above is dependent on the realisation of value from the sale of assets of MIL.

5. Depreciation has been provided for on all fixed assets on straight-line basis in accordance with the provisions of the Companies Act, 1956, at the rates and in the manner specified in schedule XIV of the Act. In respect of Speciality Chemicals, Cryolite, Aluminium Fluoride, Refrigerant Gases, ABF, Fluoroaniline Plants, R & D Pilot Plant and Captive Power Plant depreciation have been provided for at the rate applicable to continuous process plants.

9. MIL was executing a project in Iraq when hostilities broke out between Iraq and Kuwait in 1990-91, resulting in suspension of project work. In view of the post war sanctions imposed by the United Nations and the Government of India, suspended operations could not be resumed. The customer's bankers have asked for extension of bank guarantees for advance payment and performance and the State Bank of India (SBI), in turn, had claimed that the funds deposited with them in respect of the aforesaid project are subject to lien which was subsequently released on alternate arrangements. In view of the continuing uncertain circumstances, the receipts and payments under the contracts, transferred to the Company pursuant to the SS of MIL, continue to be carried forward and necessary adjustments would be made on the status of the project becoming clearer.

#### 21. Employee benefits

Contributions are made to Recognized Provident Fund / Government Provident Fund and Family Pension Fund which covers all regular employees. Contribution is also made in respect of executives to a Recognized Superannuation Fund. While both the employees and the Company make predetermined contributions to the Provident Fund, contribution to the Family Pension Fund and Superannuation Fund are made only by the Company. The contributions are normally based on a certain proportion of the employee's salary. Amount recognized as expense in respect of these defined contribution plans, aggregate to Rs. 227.01 lacs (previous year, Rs. 165.75 lacs).

ASB Guidance on Implementing AS 15, Employee Benefits (revised 2005) states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed, are to be considered as defined benefit plans. Pending the issuance of the guidance note from the Actuarial Society of India, the company's actuary has expressed inability to reliably measure provident fund liabilities. Accordingly the company is unable to exhibit the related information.

Contributions are made to a Recognized Gratuity Fund in respect of gratuity and provision is made for leave encashment based upon actuarial valuation done at the end of every financial year using 'Projected Unit Credit' method and it covers all regular employees. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Gains and losses on changes in actuarial assumptions are accounted for in the Profit and Loss account.

The charge on account of provision for gratuity and leave encashment has been included in 'Contribution to provident fund and other funds' and 'Salaries, wages and bonus' respectively.

In respect of gratuity (funded) :

The Capital redemption reserve has been created out of General reserve for Rs. 33.88 lacs being the nominal value of shares thus bought back. All the equity shares bought back have been extinguished by 5th March, 2011.

#### 23. Employee Stock Option Scheme

- The NFIL Employee Stock Option Scheme has been approved by the Board of Directors of the Company on 1st May 2007.
- The vesting period is over four years from the date of grant, commencing after one year from the date of grant.
- Exercise Period would commence one year from date of grant and will expire on completion of ten years from the date of vesting.
- The options will be settled in equity shares of the company.
- The company used the intrinsic value method to account for ESOPs.
- The exercise price has been determined to be the market price on the days preceding the dates of grants.
- Consequently, no compensation cost has been recognized by the company in accordance with the "Guidance Note on Accounting for Employee Share-based payments" issued by the Institute of Chartered Accountants of India.

## Consolidated Auditors' report

To,  
The Board of Directors of  
**Navin Fluorine International Limited**

1. We have audited the attached Consolidated Balance Sheet of Navin Fluorine International Limited ("the Company") and its subsidiaries (the Company and its subsidiaries constitute "the Group") as at 31st March, 2011 the Consolidated Profit and Loss Account and the Consolidated Cash Flow Statement of the Group for the year ended on that date, both annexed thereto. The Consolidated Financial Statements include investments in associates accounted on the equity method in accordance with Accounting Standard 23 (Accounting for Investments in Associates in Consolidated Financial Statements) as notified under the Companies (Accounting Standards) Rules, 2006. These financial statements are the responsibility of the Company's Management and have been prepared on the basis of the separate financial statements and other financial information regarding components. Our responsibility is to express an opinion on these Consolidated Financial Statements based on our audit.
2. We conducted our audit in accordance with the auditing standards generally accepted in India. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and the disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by the Management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.
3. We did not audit the financial statements of the associate, whose net carrying cost of investments as at the end of the year is Nil (Previous year Nil) and a subsidiary whose financial statements reflect total assets of Rs. 30.81 lacs as at 31st March, 2011, total revenue Rs. Nil and net cash outflow Rs. 0.11 lacs for the year ended on that date, (Previous year total assets Rs. 30.92 lacs, total revenues Nil and net cash Outflows Rs. 0.11 lacs) as considered in the Consolidated Financial Statements. These financial statements have been audited by other auditors whose reports have been furnished to us and our opinion in so far as it relates to the amounts included in respect of this subsidiary and associate is based solely on the reports of the other auditors.
4. We report that the Consolidated Financial Statements have been prepared by the Company in accordance with the requirements of Accounting Standard 21 (Consolidated Financial Statements) and Accounting Standard 23 (Accounting for Investment in Associates in Consolidated Financial Statements) as notified under the Companies (Accounting Standards) Rules, 2006.
5. Without qualifying our report we draw attention to our Note 17 of schedule 17 regarding non-accounting of rent/recovery of expenses, Rs. 108.83 lacs (previous year Rs. 108.83 lacs).
6. Based on our audit and on consideration of separate audit reports on individual financial statements of the Company and the aforesaid subsidiaries and associate and to the best of our information, and according to the explanations given to us, in our opinion, the Consolidated Financial Statements give a true and fair view in conformity with the accounting principles generally accepted in India:
  - a) in the case of the Consolidated Balance sheet, of the state of affairs of the Group as at 31st March, 2011;
  - b) in the case of the Consolidated Profit and Loss account, of the profit for the Group for year ended on that date; and
  - c) in the case of the Consolidated Cash-Flow Statement, of the cash flows of the Group for the year ended on that date.

## Schedules forming part of the consolidated accounts

### Schedule 16 SIGNIFICANT ACCOUNTING POLICIES

#### 1. Basis of preparation of Financial Statements

The financial statements are prepared under historical cost convention on accrual basis of accounting and in accordance with generally accepted accounting principles.

#### 2. Use of Estimates

The preparation of financial statements requires estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period.

Difference between the actual results and estimates are recognised in the period in which the results materialise or are known.

#### 3. Fixed assets

Fixed assets are recorded at cost of acquisition or construction. They are stated at historical cost less accumulated depreciation and impairment loss, if any.

#### 4. Depreciation

Depreciation on fixed assets is provided on the straight-line basis in accordance with the Companies Act, 1956. (refer note 4 of schedule 17)

#### 5. Impairment loss

Impairment loss is provided to the extent the carrying amount(s) of assets exceed their recoverable amount(s). Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash-flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from sale of the asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

#### 6. Investments

Long-term investments are carried at cost. Provision is made to recognise a diminution, other than temporary, in the carrying amount of long-term investments.

#### 7. Inventories

Items of inventory are valued at cost or net realisable value, whichever is lower. Cost is determined on the following basis:

Raw materials, stores and spares - Weighted average

Process stocks and finished goods - At material cost plus appropriate value of overheads

Trading goods - FIFO

#### 8. Retirement and other employee benefits

a. Contributions are made towards Provident fund, Family pension fund and Superannuation fund, which are defined contribution schemes. Liability in respect thereof is determined on the basis of contribution required to be made under the statute/ rules.

b. Gratuity liability, a defined benefit scheme, and provision for leave encashment is accrued and provided for on the basis of actuarial valuations made at the year end.

#### 9. Foreign currency transactions

Transactions in foreign currency are recorded at the original rates of exchange in force at the time the transactions are effected. At the year-end, monetary items denominated in foreign currency and forward exchange contracts are reported using closing rates of exchange. Exchange differences arising thereon and on realisation/ payment of foreign exchange are accounted, in the relevant year, as income or expense.

In case of forward exchange contracts, or other financial instruments that are in substance forward exchange contracts, the premium or discount arising at the inception of the contracts is amortised as expense or income over the life of the contracts. Gains/ losses on settlement of transactions arising on cancellation/ renewal of forward exchange contracts are recognized as income or expense.

#### 10. Borrowing costs

Borrowing costs that are attributable to the acquisition, construction or production of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use. All other borrowing costs are charged to revenue.

#### 11. Revenue recognition

Revenue (income) is recognised when no significant uncertainty as to its determination or realization exists. Turnover includes carbon credits which are recognised on delivery thereof or sale of rights therein as the case may be, in terms of the contracts with the respective buyers.

### Schedule 16 SIGNIFICANT ACCOUNTING POLICIES (Contd.)

#### 12. Taxes on income

Tax expense comprise both current and deferred tax at the applicable enacted/ substantively enacted rates. Current tax represents the amount of income-tax payable/ recoverable in respect of the taxable income/ loss for the reporting period. Deferred tax represents the effect of timing differences between taxable income and accounting income for the reporting period that originate in one period and are capable of reversal in one or more subsequent periods.

#### 13. Provisions and contingencies

A provision is recognised when there is a legal and constructive obligation as a result of a past event, for which it is probable that cash outflow will be required and a reliable estimate can be made of the amount of the obligation. A contingent liability is disclosed when there is a possible or present obligation where it is not probable that an outflow of resources will be required to settle it. Contingent assets are neither recognised nor disclosed.

#### 14. Employee stock option

Measurement and disclosure of the employee share-based payment plans is done in accordance with the Guidance Note on Accounting for Employee Share-based Payments, issued by The Institute of Chartered Accountants of India. Compensation expense is amortised over the vesting period of the option on a straight line basis. The Company measures compensation cost relating to employee stock options using the intrinsic value method.

#### 15. Intangible assets

Intangible assets are stated at cost of acquisition less accumulated amortisation. Computer Softwares which are capitalised, are amortised over a period of 6 years on straight-line basis.

4. Depreciation has been provided for on all fixed assets on straight-line basis in accordance with the provisions of the Companies Act, 1956, at the rates and in the manner specified in schedule XIV of the Act. In respect of Speciality Chemicals, Cryolite, Aluminium Fluoride, Refrigerant Gases, ABF Plants, Fluoroaniline Plants, R & D Pilot Plant and Captive Power Plant depreciation have been provided for at the rate applicable to continuous process plants.
5. a) The Board for Industrial & Financial Reconstruction (BIFR) declared Mafatlal Industries Limited (MIL) a sick industrial undertaking and sanctioned a scheme for its rehabilitation (SS). Pursuant to this:
  - i) the Chemical Division of MIL was demerged and vested in the Company with effect from 1st March, 2002, as a going concern.
  - ii) Sulakshana Securities Ltd (SSL) the wholly-owned subsidiary of the Company, took over certain identified assets and term loan liabilities of MIL with the objective of repaying them by disposing off the assets thus transferred.
 b) In terms of the settlements reached by MIL - SSL in the discharge of term loan liabilities of MIL taken over under 5(a)(ii) above:
  - i) As at the year end, the aggregate value of interest free monies advanced to and debentures issued on behalf of SSL by the parent company is Rs. 2,799.07 lacs (previous year Rs. 2,794.07 lacs). The market value of the assets remaining in SSL after repayment of the liabilities taken over from MIL far exceeds the value owed by SSL.
  - ii) the parent company gave a corporate guarantee of Rs. 1,000.00 lacs against which a contingency reserve of Rs. 1,000.00 lacs has been created equitably over four years from 2005-2006 as required by the lenders.
6. The parent company decided to assist MIL in its rehabilitation efforts in view of its substantial investment in MIL's shares and has from time to time taken several steps which, broadly are as follows:
  - a) Advanced monies to a group company aggregating to Rs. 2,594.42 lacs (previous year Rs. 2,412.48 lacs) including interest, at year end to enable the settlement of loan liabilities of MIL.
  - b) Taken over loan liabilities of MIL of Rs. 6,534.12 lacs, which aggregate to a value of Rs 3,372.49 lacs (previous year Rs. 3,015.99 lacs ) at year end.

The net worth of MIL has turned positive based on the their accounts as on 31st May, 2010 and consequently it has been deregistered from BIFR. The settlement of the amounts in (a) and (b) above is dependent on the realisation of value from the sale of assets of MIL.
7. a) As mentioned in Note 5 above, BIFR had declared MIL a sick industrial undertaking and sanctioned a scheme of rehabilitation (SS). In the SS, SSL was identified as a 'special purpose vehicle' into which the Real Estate and Investment Business of MIL was demerged for settlement of MIL's secured term lenders at the values determined in the SS. Against this demerger, the shareholders of MIL were to be issued one equity share of Rs. 10/- each fully paid-up in the Company for every 500 shares of Rs. 100/- each fully paid-up held in MIL as consideration for the demerger, aggregating to Rs. 1.00 lac. Accordingly, assets valued as per SS of Rs. 14,905.59 lacs along with settled values of secured term liabilities of the like amount had been transferred to the Company on the Appointed Date (1st April, 2002) and effect given in the accounts in the relevant year.
  - b) In respect of other settled values of secured term liabilities of MIL transferred to the Company settlement had been reached in the previous years.
 

For paying off settlement amounts, monies have been borrowed from the parent company. In terms of the SS, the parent company has residuary rights on the assets of SSL as available to a guarantor under section 140 and 141 of Indian Contract Act, for all payments made by it towards such repayment of dues.
8. As mentioned in note 7 above, SSL has been identified as a 'special purpose vehicle' in the process of implementation of the SS of MIL. Therefore, though the accumulated losses have exceeded its shareholders' funds as at 31st March, 2011, the accounts of the Company have been prepared on going concern basis. Further the market value of the immovable property is much higher than the cost.

## Schedules forming part of the consolidated accounts

### Schedule 17 NOTES ON ACCOUNTS (Contd.)

9. a) The parent company has taken office and residential premises under operating lease or leave and license agreements. These are generally cancelable in nature and range between 11 months to 36 months. These leave and license agreements are generally renewable or cancelable at the option of the Company or the Lessor. The lease payment recognised in the profit and loss account is Rs. 210.83 lacs (Previous Year Rs. 77.29 lacs).

b) The company has taken office premise under lease rental agreement. Details of minimum lease payments for non-cancellable lease are as under:

10. MIL was executing a project in Iraq when hostilities broke out between Iraq and Kuwait in 1990-91, resulting in suspension of project work. In view of the post war sanctions imposed by the United Nations and the Government of India, suspended operations could not be resumed. The customer's bankers have asked for extension of bank guarantees for advance payment and performance and the State Bank of India (SBI), in turn, had claimed that the funds deposited with them in respect of the aforesaid project are subject to lien which was subsequently released on alternate arrangements. In view of the continuing uncertain circumstances, the receipts and payments under the contracts, transferred to the Company pursuant to the SS of MIL, continue to be carried forward and necessary adjustments would be made on the status of the project becoming clearer.

11. Major components of deferred tax assets and (liabilities) are as under:

19. SSL's current account with the Bank of Baroda had been attached by the Income-tax authorities in the earlier years against their demands and an amount of Rs. 7.29 lacs has been withdrawn by them towards such demands.

20. SSL has applied for the change of name to Registrar of Companies from Sulakshana Securities Pvt Ltd to Sulakshana Securities Ltd.

#### 21. Employee Stock Option Scheme

- The NFIL Employee Stock Option Scheme has been approved by the Board of Directors of the Company on 1st May 2007.
- The vesting period is over four years from the date of grant, commencing after one year from the date of grant.
- Exercise Period would commence one year from date of grant and will expire on completion of ten years from the date of vesting.
- The options will be settled in equity shares of the company.
- The company used the intrinsic value method to account for ESOPs.
- The exercise price has been determined to be the market price on the days preceding the dates of grants.

#### 23. Employee benefits

Contributions are made to Recognized Provident Fund / Government Provident Fund and Family Pension Fund which covers all regular employees. Contribution is also made in respect of executives to a Recognized Superannuation Fund. While both the employees and the Company make predetermined contributions to the Provident Fund, contribution to the Family Pension Fund and Superannuation Fund are made only by the Company. The contributions are normally based on a certain proportion of the employee's salary. Amount recognized as expense in respect of these defined contribution plans, aggregate to Rs. 227.01 lacs (previous year, Rs. 165.75 lacs).

ASB Guidance on Implementing AS 15, Employee Benefits (revised 2005) states that benefits involving employer established provident funds, which require interest shortfalls to be recompensed, are to be considered as defined benefit plans. Pending the issuance of the guidance note from the Actuarial Society of India, the company's actuary has expressed inability to reliably measure provident fund liabilities. Accordingly the company is unable to exhibit the related information.

Contributions are made to a Recognized Gratuity Fund in respect of gratuity and provision is made for leave encashment based upon actuarial valuation done at the end of every financial year using 'Projected Unit Credit' method and it covers all regular employees. Major drivers in actuarial assumptions, typically, are years of service and employee compensation. Gains and losses on changes in actuarial assumptions are accounted for in the Profit and Loss account.

The charge on account of provision for gratuity and leave encashment has been included in 'Contribution to provident fund and other funds' and 'Salaries, wages and bonus' respectively.
