Moving up the Value Chain

In the ever-evolving era of technology, the companies are compelled to find innovative ways to stay aligned to the momentum and stay in the competition. Manufacturing industry is also attuned to this wave and undergoing rapid transformation. The essence of this metamorphosis lies in shifting and upgrading from the low end of the value chain to the notches above and being the avant-garde. For a company it can be summarized as moving up the value chain from parts to assemblies, assemblies to systems, systems to vehicle and complementing partnerships and Joint Ventures.

From this perspective and in order to foster growth, we took a quantum leap from auto systems manufacturing into vehicle manufacturing thereby moving up the value chain. The buses built by the Company are state-of-the-art and ultra-modern. The prerogative for our bus division is to provide comfort and safety to its commuters. Our R&D team has actively done global benchmarking and adapted world class aggregates with latest technology like Independent Front Suspension (IFS), Inverted Portal Axle (IPA) and multiplexing in our bus segment.

As a future readiness measure we have taken a number of steps where the focus has been optimizing energy cost. Independent feeder has been installed at Faridabad unit to ensure continuous availability of power. We have entered into an agreement with Indian Energy Exchange (IEX) for the purchase of electricity units at competitive rates through the bidding process. We continuously monitor and maintain sustainable power consumption

level which results in optimization of energy consumption. In order to avoid wastage and ensure optimal cost of energy, Energy Audits are conducted at regular intervals. We have installed energy efficient LED light in office areas and also installed energy efficient motors in paint shop. This has resulted in 30% less power consumption on an average than conventional motors.

In our pursuit to manufacture products with consistent quality we have adopted the best-in-class processes, like the Just in time (JIT), Kaizen, Low cost optimization, Lean manufacturing among others, to ensure implementation of 'the JBM way'. These processes are targeted towards improvement in the Return On Investment (ROI) of business, by reducing in-process inventory and its carrying costs.

Collectively these measures on the various fronts of production, optimization in consumption in energy, enhanced product quality have led to sustained value creation. Over the last five year we have been continuously growing where Net Sales grew at a CAGR of 15.85% and PAT grew at a CAGR of 19.47%. As we move ahead we are committed to continue to move up the value chain and also continuously add value to our stakeholders.

At JBM Auto, we are relentlessly working towards the needs of our customers and incorporating their requirements and delivering them upto their expectations. We have placed tremendous thrust on customer focus and continues to bond with them.

Key Clientele Base

Chairman's Message

Dear Shareholders,

I am delighted to get this opportunity to connect with you rather I look forward to giving you a holistic account of the year gone by and the promising future that awaits your Company.

During the year 2015-16, the global macroeconomic growth continued to stagnate around 3.0% with divergent traits across the advanced and developing economies. China's economic rebalancing acts have given kneejerk reaction to all the economies. On the other hand, India emerged as one of the fastest growing economies in the world. During the FY 2015-16 India registered a GDP growth of 7.6%. The softening of commodity prices and crude oil in particular, augurs well for India.

The Government's initiatives of 'Smart Cities' and fast tracking highways construction, is favorable for the public transport domain. To ensure a hassle-free journey, the Government of India has introduced uniform bus body code. This applies to all companies and individuals engaged in bus manufacturing or bus body building and all types of buses are covered under the bus code. The Government's move to do so play the role of unorganised sector in the bus manufacturing business is paving the way for a uniform structure to the bus segment and also ensuring heightened quality and safety of the products.

We seek to achieve this goal by executing our strategies across segments of passenger cars, farm equipments and commercial vehicles by implementing advanced technology with quality standards. Our bus manufacturing division is equipped with modern European technology which will set a bench mark for the industry.

Our goal is not simply to sell individual products, but rather to understand our clients' objectives and fashion cohesive solutions that help achieve those objectives.

Our newly established manufacturing plant in Sanand & Indore for manufacturing auto components will cater to Ford and other customers in the region. The initial investment for this plant is ₹ 200 Crores. We have set up a plant in Indore with an initial investment of ₹ 100 Crores.

The automobile industry produced a total of 23,960,409 vehicles including passenger vehicles, commercial vehicles, three wheelers and two wheelers in FY15-16 as against 23,358,047 in FY14-15, registering a marginal growth of 2.58% Y-o-Y. The Passenger Vehicles segment grew by 7.24% in FY15-16, over the previous year. The Commercial Vehicles (CVs) segment registered a growth of 11.51% in FY15-16, against FY14-15. Within the CVs segment, the Medium and Heavy Commercial Vehicles (M&HCVs) grew by 29.91% and Light Commercial Vehicles grew by 0.30% respectively in FY15-16, over the previous year. The Three Wheeler and Two Wheeler sales grew by 1.03% and 3.01% respectively in FY15-16, over the previous fiscal.

During the year your Company achieved a total income of ₹ 1524.16 Crores as against ₹ 1561.04 Crores recorded in the previous year. However, EBITDA has marginally increased to ₹ 196.54 Crores from ₹ 195.02 Crores as a result of improved operational efficiencies. The EBITDA margin stood at 12.9% as against 12.5% in the previous year. The intense efficiency enhancement measures across our operating businesses are now yielding measurable results that would continue in the future. Innovation is core of everything we do. We take a design-led approach to building the best user experience in the world, combined with seamless, efficient functionality. We firmly abide by our long term strategy of investing in the future to drive sustained growth and stay ahead of competition. We are never hesitant of confronting new challenges and will

continue to excel our competition, by engaging in effective strategic planning and flawless execution.

We are progressing well in the bus segment. Our CNG & Diesel bus 'CITYLIFE' and electric bus 'ECOLIFE', which was unveiled in the Auto Expo-2016 have received a good response.

I remain optimistic for the future of the industry. The Government's committed efforts towards its flagship initiative 'Make in India' is encouraging local manufacturers and has put India on a Global Manufacturing arena. This is bound to augment sales of auto components. With the monsoon progressing well, the rural demand for automobiles would pick up in the coming months, thus increasing the demand for auto components.

I would like to thank all our shareholders for their continued support in FY15-16, and all our dynamic employees, who have consistently pushed themselves enabling a steady progress for the Company. I am grateful for the trust and confidence you have placed in us.

Best Regards

Surendra Kumar Arya
Chairman

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A. ECONOMY OVERVIEW

• International Economy-Global View

Global financial crisis is now seven years behind us, still the world's economy is struggling to regain momentum. In 2015, global economic activity remained subdued, with world output slowing down further to 3.1%. Emerging markets and developing economies grew 4%, a Year-on-Year deceleration for the fifth consecutive year. Growth continues to falter in advanced economies and, while there is considerable divergence of performance across emerging markets and developing economies, their overall growth remains below potential. Looking ahead, the prospects of global growth remain muted. The challenges faced by these economies and markets, including the fall-out of sluggish advanced economy growth, tighter financial conditions, and stubbornly low commodity prices, though the latter impacts economies differently, depending on their nature of trade.

Developed economies which are key markets for Automobile grew at a modest rate of 1.9% in aggregate – US (2.4%), UK (2.2%), Euro Area (1.6%) and Japan (0.5%), hampered by weak demand, unfavorable demographics and low productivity growth.

Although global growth is projected to accelerate gradually, a wide range of risks threaten to derail the recovery, including a sharper-than-expected slowdown in major emerging markets, sudden escalation of financial market volatility, heightened geopolitical tensions, slowing activity in advanced economies, and diminished confidence in the effectiveness of policies to spur growth.

• Domestic Economy

India has emerged as the fastest growing major economy in the world as per the Central Statistics Organization (CSO) and International Monetary Fund (IMF). According to the Economic Survey 2015-16, the Indian economy will continue to grow more than 7 per cent in 2016-17. The steps taken by the government in recent times have shown positive results as India's Gross Domestic Product (GDP) at factor cost at constant (2011-12) prices 2015-16 is Rs 113.5 trillion (US\$ 1.668 trillion), as against Rs 105.5 trillion (US\$ 1.55 trillion) in 2014-15, registering a growth rate of 7.6 per cent. The economic activities which witnessed significant growth were 'financing, insurance, real estate and business services' at 11.5 per cent and 'trade, hotels, transport, communication services' at 10.7 per cent.

Numerous foreign companies are setting up their facilities in India on account of various government initiatives like Make in India and Digital India. The Make in India initiative is expected to increase the purchasing power of an average Indian consumer, which would further boost demand, and hence spur development, in addition to benefiting investors. Besides, the Government has also come up with Digital India initiative, which focuses on three core components: creation of digital infrastructure, delivering services digitally and to increase the digital literacy.

Currently, the manufacturing sector in India contributes over 15 per cent of the GDP. The Government of India, under the Make in India initiative, is trying to give boost to the contribution made by the manufacturing sector and aims to take it up to 25 per cent of the GDP.

India's GDP numbers for quarter January-March, 2016 stood at 7.9 per cent as against 7.3 per cent in October-December, 2015, powered by a rebound in farm output and an improvement in electricity generation and mining production in the fourth quarter of the fiscal thereby making it the fastest growing economy in the world.

The Introduction of various measures including single window clearances, ease of doing business, introduction of GST, restructuring of Taxes have made India a very attractive Investment destination and currently India being looked upon as an economy which will contribute significantly to the growth of the World economy and balance out the de-growth faced by the developed economies.

B. INDIAN AUTOMOTIVE INDUSTRY

The Indian automotive industry accounts for 45% of the country's manufacturing Gross Domestic Product (GDP), 7.1% of the country's GDP and employs about 19 million people, both directly and indirectly.

The industry produced a total of 23,960,409 vehicles, including passenger vehicles, commercial vehicles, three wheelers and two wheelers in April-March 2016 as against 23,358,047 in April-March 2015, registering a marginal growth of 2.58% over the last year.

India's western and southern regions outpaced the North in passenger vehicle sales growth in fiscal 2016. The West reported an expansion of 8 percent, and South even better at 11 percent, compared with 5 percent in both northern and eastern regions that was also lower than the India's average of 7 percent.

The overall Commercial Vehicles (CVs) segment registered a growth of 11.51% in April-March, 2016. In CVs, the Medium and Heavy Commercial Vehicle (M&HCVs) segment grew by 29.91% and Light Commercial Vehicle segment grew by 0.30% during the period April, 2015 to March, 2016. Three Wheelers' sales grew by 1.03% in April-March, 2016 over the same period of the previous year. Two Wheelers' sales registered a growth of 3.01% in April-March, 2016 over April-March, 2015.

- **Exports**

In April-March, 2016, overall automobile exports grew by 1.91 percent. Passenger Vehicles, Commercial Vehicles, Three Wheelers and Two Wheelers registered a growth of 5.24 percent, 16.97 percent (-) 0.78 percent and 0.97 percent respectively in April-March, 2016 over April-March, 2015.

C. AUTO COMPONENT INDUSTRY IN INDIA

The Indian auto-components industry has experienced healthy growth over the last few years. Some of the factors attributable to this include: a buoyant end-user market, improved consumer sentiment and return of adequate liquidity in the financial system. A stable government framework, increased purchasing power, large domestic market, and an ever increasing development in infrastructure have made India a favorable destination for investment.

Over the last decade, the automotive components industry has scaled three times to US\$ 40 billion in 2015 while exports have grown even faster to US\$ 11 billion. This has been driven by strong growth in the domestic market and increasing globalization (including exports) of several Indian suppliers.

According to the Automotive Component Manufacturers Association of India (ACMA), the Indian auto-components industry is expected to register a turnover of US\$ 100 billion by 2020 backed by strong exports ranging between US\$ 80- US\$ 100 billion by 2026, from the current US\$ 11.2 billion.

The cumulative Foreign Direct Investment (FDI) inflows into the Indian automobile industry during the period April 2000 – March 2016 were recorded at US\$ 15.07 billion, as per data by the Department of Industrial Policy and Promotion (DIPP).

The Government of India's Automotive Mission Plan (AMP) 2016–2026 envisages creation of an additional 50 million jobs along with an ambitious target of increasing the value of the output of the sector to up to Rs 18,89,000 crore (US\$ 282.65 billion). The face of Indian Auto Industry is also changing with the youth of the country making a big chunk of purchases. The Aesthetics, features, comfort and safety etc. have become major considerations for purchasing cars and consequently for the last two years the demand for SUVs and similar vehicles is increasing. The Cars like Maruti Vitara Breeza, Hyundai Creta, Ford Eco Sport are driving change in the market.

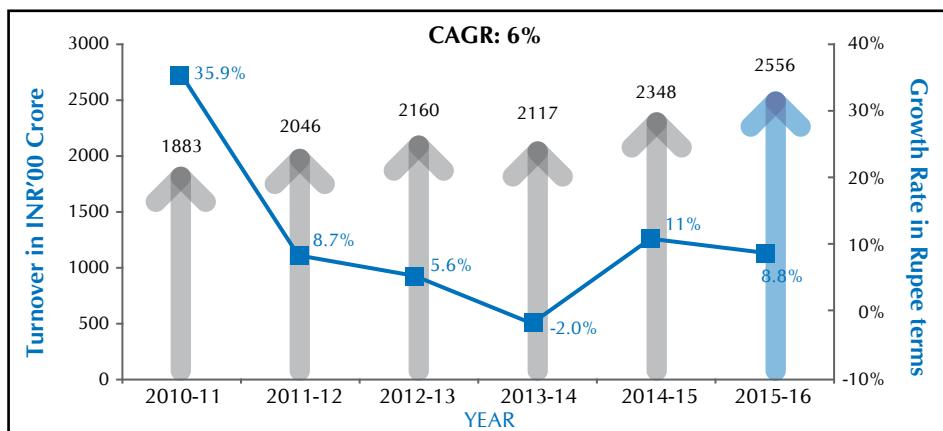

The rapidly globalizing world is opening up newer avenues for the transportation industry, especially while it makes a shift towards electric, electronic and hybrid cars, which are deemed more efficient, safe and reliable modes of transportation. Over the next decade, this will lead to newer verticals and opportunities for auto-component manufacturers, who would need to adapt to the change via systematic research and development.

The Indian auto-components industry is set to become the third largest in the world by 2025. Indian auto-component makers are well positioned to benefit from the globalization of the sector as exports potential could be increased by up to four times to US\$ 40 billion by 2020.

The Indian Auto Industry is also facing challenges as Indian Government is taking steps to move towards Green by banning diesel vehicles and promoting electric and hybrid cars. These sudden changes have brought a stiff challenge for many Automotive

OEMs who have made lot of investment towards R&D etc. for diesel vehicles or the OEMs which mainly manufacture diesel vehicles. However, this is a transition stage and will ultimately enhance the opportunities in the Auto Industry and thereby its contribution towards the growth of Indian economy at large.

- **OPPORTUNITIES:**

1. Manufacturing and Imports free from licensing and approvals.
2. Increased budgets for R&D activities.
3. 100% FDI permitted without prior Govt. approval.
4. WTO compliant policies (no import restrictions and reduced tariff levels).

D. OPERATIONAL/FINANCIAL PERFORMANCE HIGHLIGHTS (ON CONSOLIDATION BASIS)

Total Income: In FY 2015-16, the Company achieved a total income of ₹ 1524.16 crore as against ₹ 1561.04 crore recorded in the previous year. Inspite of the fall in prices of raw material by 15-20% the Company was able to maintain its revenue levels closer to last year. The Component Division's revenue was ₹ 1450.79 crore, contributing close to 96% of the total income. Revenue from the Tool Room Division was down by 22.02% and stood at ₹ 76.79 crore.

EBITDA: In FY 2015-16, the Company recorded EBITDA of ₹ 196.54 crore as against ₹ 197.04 crore recorded in the previous year.

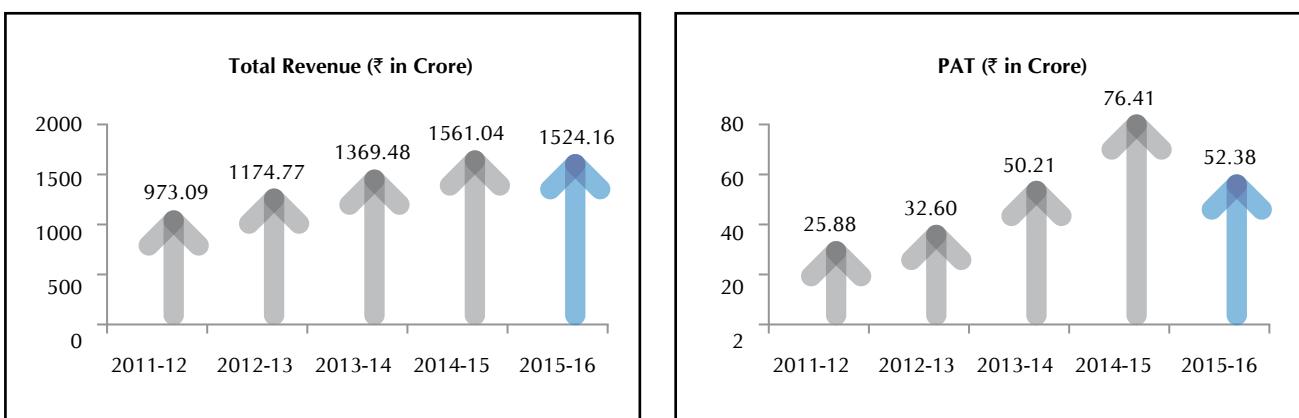

Net Profit: In FY 2015-16, the Company achieved a net profit (after minority interest) of ₹ 52.38 crore as compared to ₹ 76.41 crore of FY 2014-15, a decrease of 31.45% primarily attributed to high interest and depreciation cost resulting from increased investments in new plants. As the new plants become fully operational, the PAT is expected to be recovered in the coming financial years. Moreover, the adverse impact of Product mix changes are expected to reverse considering higher tooling revenue expected in FY 2017.

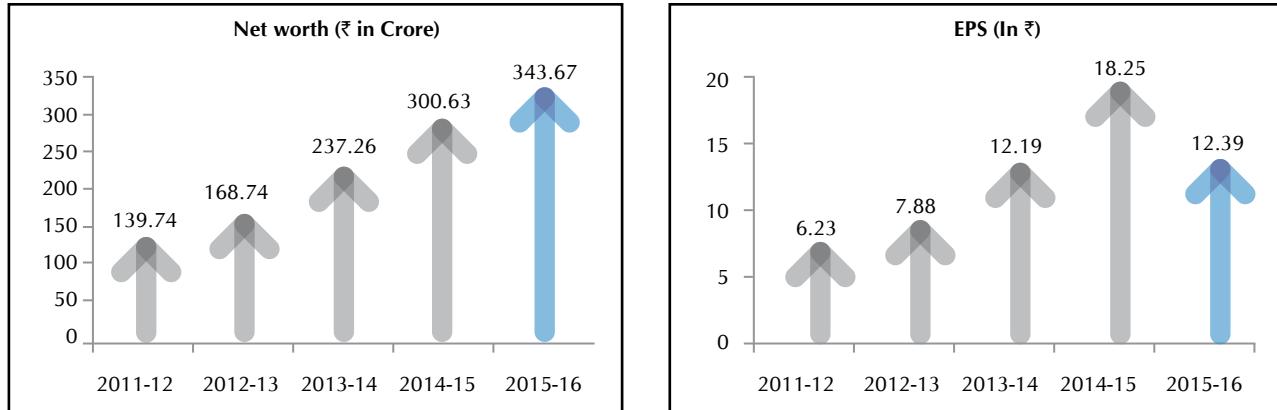

Dividend: The Board has recommended a dividend of ₹ 1.75 per equity share for the FY 2015-16 (₹ 2.50 per equity share in FY 2014-15).

Net Worth: The net worth of the Company reached to ₹ 343.67 crore as on 31st March, 2016 (₹ 300.63 crore as on 31st March, 2015), a YoY growth of 14.31%.

Debt Equity Ratio: The Debt Equity ratio of the Company improved to 0.64 times as on 31st March, 2016 as against 0.79 times in the previous year, which is due to reduction in long term debt from ₹ 236.98 crore in FY 2014-15 to ₹ 221.15 crore in FY 2015-16.

- **Consolidated Performance of your company for Past 5 year**

- Segment Wise Performance**

The segment wise performance of the Company during 2015-16 is as follows:

- Business Outlook**

Components Division

The prospects of the auto component industry are closely linked to the economic growth. However, the company has been continuously working on improving its operating efficiency through adoption of latest technology in manufacturing like alternate material, high tensile steel forming, frugal engineering and automation. The value chain enhancement is being achieved through vertical integration. Global quality standards at local cost are being implemented in operations enabling the company to become preferred supplier on global platform.

As the automakers are rapidly advancing towards technology up-gradations to meet stringent emission & safety norms, the company has forayed into developing parts & assemblies using high tensile material resulting in the lighter weight & ensuring safety norms. The company is closely working with the OEMs to partner new advancements to cater to emerging vistas as a forerunner in the segment.

Product portfolio has been significantly enhanced for commercial vehicle segments that includes chassis & suspension parts, air tanks, fuel tanks, exhaust systems & complete cowl assemblies

The company has bagged a prestigious export business from a leading CV maker in Japan.

Tool Room Division:

From tooling prospective, JBMA is targeting on the development of tooling's for advance technology, high value items like, Dies for high strength steels, Skin panels, Transfer dies, Robotic cells and Chassis and suspension systems. With OEMs introducing more and more new India specific models, business outlook for tooling is progressive in terms of technology and scale of business.

- Bus Division :**

Bus Division-CNG & Diesel Variant

Your Company launched India's first True Low Floor Bus-'CITY LIFE' at the Auto Expo 2014 showcasing the state of the art technology consisting of many unique features like monocoque structure, Independent Front suspension (IFS), Inverted Portal Axles (IPA) and Disc Brakes with ABS, ITS/PIS on all wheels among many more which gives a completely low floor bus with superior ride and handling with enhanced safety.

Fully developed in India, the CNG base model of 'CITY LIFE' having undergone the product validation process has secured the homologation certificate as well. Company has received Orders for supplying Buses to NMRC and work is in full swing to complete the order satisfactorily.

E. AWARDS & ACCOLADES

During the year under review, the Company has been awarded with the "Elite set of the 10 greatest value creators in the Fortune India 500 Companies".

Fortune 500, the most respected name in the field of corporate excellence in the world, is about the world's largest Companies, commonly known as the Fortune 500 companies.

The first ever Fortune India Next 500 rankings have been announced in the month of August, 2015 at a showcase event at Hotel J. W. Marriot, Aerocity, New Delhi attended by the leading names of Indian business & economy. Shri. Piyush Goyal, the Hon'ble Minister of State with Independent Charge for Power, Coal and New & Renewable Energy, Govt. of India was the chief guest at the events.

Mr. S. K. Arya, the Chairman and Mr. Nishant Arya, the Director of the Company were felicitated in the awards ceremony for their foresight, determination and commitment, which helped the JBM Auto make it to the elite set of the 10 greatest value creators in the Fortune India 500 segment.

F. WORKING CAPITAL MANAGEMENT

The Company follows prudent working capital management practices and does adequate planning for managing its day-to-day requirements of working capital funds. It focuses on timely receivables realizations (mostly through RTGS mode) and optimum inventory levels considering the JIT supply to customers, which helps in reducing the working capital requirement. Most of the payment mechanism is linked with receivables from customers and to bridge the gap, the Company borrows funds from the banks on short term basis.

G. RISK MANAGEMENT SYSTEM

The Company is exposed to external and internal risks associated with the business. Its operations are directly dependent on the growth of the Indian automotive industry. The general economic conditions have an influence on the automotive industry as well as on the operations of the Company. The Company has laid down well-structured procedures for monitoring the risk management plan, which is integrated with operations, for identification, categorization and prioritization of various risks like: operational, financial and strategic business risks. Operational risks are managed through an Enterprise Risk Management system, with periodic reviews and controls. Apart from regular operational risk, the Company is also exposed to the following risks:

Slowdown in Economy/Industry

Risk: Slowdown in an economy or industry can have severe impact on the Company's profitability.

Mitigation: The Company has a sound management, which proactively prepares for any slowdown in the industry or economy. The Company is widening its product base and entering into new business segments to cushion from a slowdown in any particular segment.

Manufacturing Inputs cost

Risk: The Company is dependent on factors which significantly affect the manufacturing costs like power and fuel, consumables, packing and forwarding, which are external factors and beyond the Company's control. Any significant rise in such cost may affect the Company's profitability.

Mitigation: The Company actively works to improve the operational efficiency of the plants to normalize the impact from a rise in input cost. It usually passes on the increase or decrease in input cost to its customers.

Fuel Prices

Risk: Any substantial increase in petroleum prices can impact the purchasing power of customers, resulting in the decrease in sale of automobiles.

Mitigation: This is an external risk beyond the Company's control. However, it has a well-diversified business portfolio which helps it to minimize the impact.

Interest rates

Risk: Any substantial change in the monetary policy of the RBI resulting into high financial cost and tightening of liquidity can significantly impact the profitability of the Company.

Mitigation: The Company has well qualified management professionals who keep a close watch on the major economic indicators and takes precautionary measures to avoid any deep impact on its profitability.

Technology

Risk: The Company is sensitive to the technology changes in its product line. Any significant change in component designing and development or obsolescence in existing technology can impact its profitability.

Mitigation: The Company continuously upgrades its technological base to meet the changing demands of modern times.

Regulatory compliance

Risk: The Company operations are exposed to the rules, regulations and policies of the Government. Any significant change in the regulatory compliances can have an adverse impact on it.

Mitigation: The Company has a sound and well qualified professional management team which ensures that all the compliances which are necessitated by the law are adhered to.

Foreign Exchange Rate

Risk: Any significant changes in the foreign exchange rates vis-à-vis the Indian Rupee can have an adverse impact on the Company's profitability.

Mitigation: The Company has an appropriate policy for transactions in foreign exchange and follows a sound hedging strategy without exposing itself to undue risks.

H. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company's Internal Control System has been designed to provide for:

1. Accurate recording of all the quantitative transaction with proper internal checks and prompt reporting.
2. Strictly adherence to applicable accounting standards and policies.
3. Proper compliance with applicable statutes, policies and procedures.
4. Effective and efficient use of resources and safeguarding of assets.
5. The Company's in house Internal audit department, carried out periodic audits at all locations and functions based on the plans approved by the Audit Committee. The summary of the Internal Audit observations and status of implementation are submitted to the Audit Committee which reviews it on a regular basis and concerns, if any, are reported to the Board. The Company follows the standard operating procedure for all the business processes, with the aim to have robust internal financial controls. It is strengthening its existing internal control in routine transactions by segregating the duties in ERP. Apart from that, it is in the process of creating standard role for all modules and the assigning of authorization in ERP. The Company has successfully implemented all modules of ERP and is using SAP in its day-to-day working and business activities for MIS and control purposes.

I. HUMAN RESOURCE AND INDUSTRIAL RELATIONS

The Company's HR process ensures the availability of a competent and motivated team of employees. The Company continuously endeavors to provide a fair compensation amongst industry of like nature, a clear career path, reward for performance and regular training and development for each level of employee.

Their competency and trained workforce are the key reasons for growth of the Company. To enhance the productivity, the Company has developed its people by providing innovative and professional environment. It has an efficient recruitment policy and robust human resource management processes, which enables to attract and retain competent & talented employees. When we hire people, we look for positive attitude and exemplary behavior so that they can imbibe our value system. Company has also ensured 100% strict implementation of Biometric system of attendance for control and administration purposes.

To keep ourselves abreast with time and technology, we regularly assess the competencies critical for the development of our

business and arrange for appropriate training and development programs to cater different learning needs of our employees in the areas of technology, management, leadership, cultural and other soft skills.

We are a learning organization. We encourage an environment, which helps to leverage the knowledge of every employee through training programs like Operational leadership, Decision Making, Problem Solving, Result Orientation, Strategic Planning etc. by renowned Soft Skill Trainers.

The Company observes special weeks with themes of Safety, Quality, 5-S and Kaizen. Apart from these formal weeks, we have various celebrations such as Environment Day, Annual day, Women's Day, Health and Yoga Classes, to name a few. These activities motivates the employees and help in improving their bonding with the Company. JBM's premise is full of energy, vitality, enthusiasm and passion. As a part of continuous process for talent acquisition and enhancement, the Company has introduced various policies as well as reward and recognition programs.

Another major initiative called ISQ has been launched to inculcate the culture of three non-negotiable values – Integrity, Safety and Quality within the company various events like Posters, Slogan, Creative Art, Rangoli competitions including Quiz contest are being regularly organized to achieve this goal..

Similarly, another major initiative called "TUK" (Tayaari Udaan Ki) has been rolled out to reinforce three operating principles of rigorous thinking, collaborative approach and taking charge within the Organization. This program is also aimed at institutionalizing objective method of problem solving.

As one of CSR activity we organize Blood Donation Camps with support of Red Cross Society.

To harness the leadership skills of the employees, the Company has extended the "MEGA - DRIVE" Leadership Development Program, which is conducted by Inhouse Leadership development team in association with Global Leadership Development Experts. This program is helping the Company in developing a team of young employees at the middle management level as prospective leaders and thus supporting the succession planning of the company.

The Company had 747 permanent employees as on 31st March, 2016. The industrial relations remained peaceful and cordial throughout the year.

J. RESEARCH AND DEVELOPMENT

The Company is focusing heavily on developing in-house R&D capabilities in three major areas comprising Bus division, Components division and Tooling division.

The strategic approach for developing R&D capability is driven by customer requirements and targets at achieving quick time to market for new products by deploying latest technologies and skilled and experienced resources using extensive global and local benchmarking.

- **Bus Division**

A state of the art Research & Development center has been set up at Kosi in order to design and develop new models of Buses. This is a fully equipped R&D facility with a CAD design center, Prototyping facilities, Vehicle validation facilities and a dedicated test track. The strong R&D team consists of domestic as well as global experts.

This R&D Centre is a recognized In-house R&D Unit by the Ministry of Science and Technology, Department of Scientific and Industrial Research, Technology Bhavan, New Mehrauli Road, New Delhi – 110016.

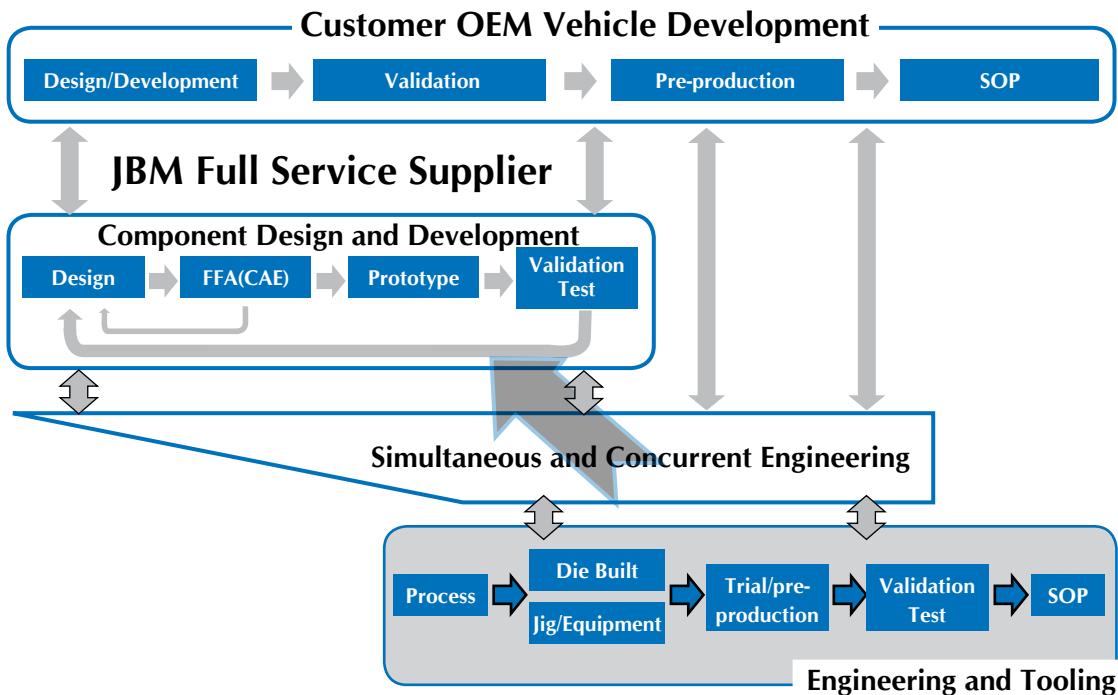

The R&D Centre is currently engaged in expanding the product portfolio of buses. We have already successfully designed, developed, and homologated true low floor CNG and Diesel Bus platforms based on latest global technology.

The key areas, where our R&D center will be focusing in future, is on development of the products as per forthcoming regulations, delivering value by enhancing product performance specially NVH (noise & vibration) reduction, fuel efficiency, environment friendly vehicles and bringing cost efficiency in entire product portfolio.

- **Component & Tooling division**

Leveraging the strong in-house R&D capabilities, the company is focusing on continuous improvement through adoption of new technologies and benchmarking to enhance quality, reduce cost and optimize time to market to maintain leadership in both components and tooling sector.

Through the application of advanced technologies, the company is actively engaged in providing design services, tooling and components to meet customer requirements as a full service supplier.

The key focus areas for over all development are Simulation, Feasibility Analysis and Development of dies for High Strength Steels.

Simulations:

More and more use of simulation software's is providing pre information of forming and spring back analysis and hence able to get robust design and process. It solves difficult problems even before start of actual manufacturing, thereby saving lot of development time and provides quality product.

Feasibility analysis:

Our experienced team involves with OEMs at early stage of product development. With support of wide experience and simulation software's our designers suggest changes to OEM product designers for making part simpler, cost effective and feasible.

High Strength Steels:

We got success in developing parts up to 980 mpa. OEMs are getting more confidence on our capabilities and are diverting imports to local manufacturing in India. The percentage of usages of High strength steel is increasing. Our capability to develop dies for high strength steel will play a major role in acquiring new business from OEMs in the upcoming models.

K. ENVIRONMENTAL HEALTH AND SAFETY

The Company is committed to provide high quality products without adversely affecting the natural resources, environment, health and safety of all its stakeholders. The Company is committed to:

- Establish measure, monitor, assess and continually improve health, safety and environmental performance through compliance management and control of hazardous waste.
- Comply with all environmental, occupational health, safety (OH&S) and other statutory/ regulatory requirements.
- Regular upgrade of the knowledge and skill of employees through professional development and training.

- d) Effective management of operational activities to minimize the adverse impact of operations on the environment, health and safety.
- e) Implement effective policies for environment conservation.
- f) Establish an environmental health and safety management team to continually monitors, sets and reviews the environment, health and safety objectives and targets.
- g) Reduce waste and implement effective recycling of waste in manufacturing operations.

Going forward, the Company will continue to align its business development to support inclusive growth, social equity and concern for the environment, thereby creating value for all its stakeholders.

L. OPPORTUNITIES FOR THE INDIAN AUTO COMPONENT INDUSTRY

1. **Favorable economic environment:** The majority of the macroeconomic indicators have been positive, indicating a steady revival in the economy. The country is witnessing a favorable investment environment in all the sectors, including automobile, resulting in increased demands and supply of auto components.
2. **Global Components Sourcing Hub:** The Indian auto component industry is one of India's sunrise industries with tremendous growth prospects. It has emerged, from being a low-key supplier of components to the domestic market, to a significant player in the global automotive supply chain. Several global suppliers are increasing procurement from their Indian subsidiaries or partners due to the cost advantage and the sound engineering knowledge of skilled man power.
3. **Improving Product Development Capabilities:** There is a substantial enhancement in research and development investment over the past few years and many laboratories are being setup to conduct analysis, simulation and engineering animations. The increased sourcing and investment from global OEMs from India is turning the country into a preferred designing and manufacturing base for them. The domestic players are also acquiring global companies to gain access to the latest technology and are expanding their client base.
4. **Huge Export Opportunities:** As per the latest industry report, India's share of the global auto component exports is just 1% as compared to China's 10% and 2.5% of South Korea. Apart from that, the industry earns only 29% (Including OEM exports) of its total revenues from exports which is on the lower side, if we compare the same with 60-70% of Thailand and Turkey. Clearly, Indian suppliers have a huge untapped opportunity when it comes to exports. Industry experts also believe that there is considerable potential and opportunity to export components worth USD 20 billion to China alone.
5. **Improved Highway to Boost Bus Industry:** The government has initiated massive up-gradation of existing national highways and started the construction of expressways which will link major Indian cities, namely, the Golden Quadrilateral Project, the Ganga Expressway, the Pathankot-Ajmer Expressway, the Eastern and Western Peripheral Expressway and many others. Surface transport is bound to gain on the back of the new crop of highways and expressways. Bus travel, being the primary mode of preferred transport for holidays, business and social visits, is expected to increase, which will augment, significantly, the demand for bus and luxury coaches in the coming years.
6. **100 Smart Cities to Increase Demand for Buses:** The government has initiated the ambitious project of 100 smart cities where the focus will be on smart urbanization and integrated transport system. These cities are expected to revamp and develop their network for buses (primary and feeder) for the daily commuting of people, to give them safe and comfortable travel. There is a huge opportunity for bus manufacturers who have a comprehensive product range, to cater to the demand which is expected to emerge in the foreseeable future.
7. **Supportive Government Policies**
 - a. The Government of India encourages foreign investment in the automobile sector and allows 100% FDI under the automatic route, subject to all the applicable regulations and the law.
 - b. The manufacturing and imports in this sector are exempt from licensing and approvals.
 - c. The Indian Government has announced the **AMP-26**
 - i. Indian automotive industry to grow 3.5 to 4 times of the current value of ₹ 4,64,000 crore to ₹ 18,88,500 crore (Optimistic base).
 - ii. Indian automotive industry to be among the top three automotive industries in the world.
 - iii. India to generate 65 million more jobs.

- iv. The sector to contribute 12% of India's GDP.
- d. The National Automotive Testing and R&D Infrastructure Project (NATRIP): The Project aims to create core global competencies in the automotive sector in India and facilitate seamless integration of the Indian automotive industry with the world, as also to position the country prominently on the global automotive map. This project is not only the largest, but one of the most significant initiatives in the automotive sector, with an aim to place testing infrastructure commensurate with global standard for safety and emission and will increase India's automotive research and development capabilities. The Government has made a commitment of close to USD 388.5 million till date, for the project and seven testing facilities have been inaugurated till date.
- e. The Department of Heavy Industries and Public Enterprises has created a USD 200 million fund to modernize the auto components industry, by providing an interest subsidy on loans and investment in new plants and investment.
- f. Key Provisions of the 2015-16 Union Budget
 - i. The Government has exempted the excise duty on the parts of tractors, removed from one or more factories of a tractor manufacturer to another factory of the same manufacturer, for the manufacture of tractors.
 - ii. The Government has increased the custom duty from 10% to 40% on commercial vehicles imported as completely built units (CBUs) to encourage foreign OEMs to set-up assembly units in India.
- g. The Government is planning to implement an "End of Life" policy for automotive vehicles and components which is in line with safety and preservation of environment. This policy is expected to ensure the retirement of vehicles after a stipulated usage, thereby creating demand for new and more efficient vehicles.
- h. **Implementation of Bus Code:** The Government has come up with the bus building code to ensure that buses are built as per stipulated standards related to safety, design and comfort. The implementation and updating of the Bus Code in 2014, the Government has clearly down played the role of the unorganized sector in the bus manufacturing business, thereby giving a uniform structure to the bus segment and also ensuring the quality and safety of the products.
- i. Auto component Sector, like many other manufacturing sectors will be a beneficiary of long awaited GST legislation, which will mark the roll out of second generation reforms in India. This will minimize the indirect taxation and limit it to Centre and State GST.

Moving to a GST regime will be beneficial for the Indian economy on multiple counts, and though its impact on growth will be negative in the short-run, it is expected to be positive in the long-run, says a report. Hopes are high that the long-standing Goods and Services Tax (GST), which has been pending for more than a decade, will be passed in this monsoon Parliament session.

M. CHALLENGES FACING THE INDIAN AUTO COMPONENTS INDUSTRY

- **Global competition:** The Indian auto component industry is facing challenges from other low cost countries like China, Taiwan, and Thailand, etc.
- **Infrastructure challenges:** The Indian components industry faces problems for basic infrastructure needs like power and transportation cost. As per Industry estimates, power cost is more than twice that of Thailand and the time taken in transportation is also on the higher side. Power is also not available all the time. The Companies have to make their own provision for power which is expensive.
- **Rupee depreciation:** The component industry sources raw material from other countries especially the metal and chemicals used in painting. Any sharp depreciation of the Indian rupee against the USD or Euro is seen as a major drawback to the Indian component industry.
- **New technologies:** The development of new technologies like fuel cells and hydrogen powered vehicles may affect the auto component industry.
- **Availability of unskilled and skilled labour:** There is a constant pressure for the industry to retain its unskilled and skilled labour at optimum cost. Alternative income generation schemes being promoted by the Government is leading to lesser availability of unskilled labour. At present, due to the increased domestic competition, it is becoming difficult to retain the talented and motivated people at reasonable cost.

- **Building R&D competence and ecosystem:** The industry is still lacking in R&D competencies compare to the US and European standards. One of the primary reasons is low investment as a part of the total income by the Indian component manufacturer as compared to their global peers.
- Diesel ban impact:** Owing to recent diesel bans, Indian carmakers face depressing sales growth. That is not the only challenge. The automobile industry is also in a nervous race against time to meet newer, stricter emission norms. This January, the government advanced the deadline to implement the Bharat Stage VI emission and fuel standards, or the Euro norms, as they are popularly known, to April 2020 from 2023. It took Europe and other developed markets 10 years to upgrade to the new norms. India has far less time to make the transition.

N. THE ROAD AHEAD

The prospects of the auto component industry are closely linked to the automobile industry, which in turn, is linked to the country's economic growth. We believe that the Central Government has initiated various policy changes which are expected to bring economic stabilization which will further boost the investment climate and market sentiment. Hence, based on that assumption, the Company is expecting that its revenue in the coming years will grow steadily.

The ambitious 'Make in India' initiative is expected to boost the domestic manufacturing, specially the auto component industry. The macro economic situation is getting increasingly better with an estimated growth rate of around 8%, low inflation, on the back of low commodity prices and lower interest rates, compared to the past few years (though the scope for further reduction exists) are giving a positive outlook and indicating that the Indian auto sector is poised to grow further from the current level.

The domestic and foreign car makers have lined up investments to the tune of USD 10 billion over the next few years, for creating more capacities and entering into newer segments and geographies. The proposed investments are expected to cement the 'Brand India' image globally by the 'Make in India' initiatives. With such investments, the auto components industry is naturally expected to get major boost. The developing countries like ours having large population base, have inherent and large potential for growth opportunities. In India, we have only 7 Cars against the population of every 1000 persons as compared to more than 500 in developed countries like USA and Europe. Likewise, we have only 0.75 buses for each 1000 persons, much lower than the developed countries. This huge gap is a big opportunity for the auto industry. Government of India have initially set the target to have at least 20 cars per 1000 of population and at least 1.5 buses for 1000 persons. The Govt. of India has started initiatives like "Skill India" and "Make in India" to make India a manufacturing hub.

The Company is continuously working to improve its operating efficiency and quality and is diversifying its product range and adding optimal capacity, as per the requirements of the customers. The Company has a sound business model which uses the latest technology and machinery and also takes continuous measures for cost optimization. Even as the current market situation poses challenges, it believes that there is significant room for growth. The focus going forward, will be to capitalize on the opportunity and to leverage the scalability that the Company has achieved in its operations in previous year.

INDEPENDENT AUDITOR'S REPORT

To

The Members of JBM Auto Limited

Report on the Financial Statements

We have audited the accompanying standalone financial statements of **JBM Auto Limited** ("the Company"), which comprise the Balance Sheet as at 31st March 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act,2013 ("The Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent, and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate Internal financial control system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as on 31st March, 2016, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section 11 of section 143 of the Act, we give in the "Annexure A" our report on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b. in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
 - c. the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
 - d. in our opinion, the aforesaid standalone financial statement comply with the Accounting Standards specified under Section 133 of the Act , read with Rule 7 of the Companies (Accounts) Rules , 2014.
 - e. On the basis of written representations received from the Directors as on 31st March 2016, and taken on record by the Board of Directors, none of the Directors is disqualified as on 31st March 2016, from being appointed as a Director in terms of section 164 (2) of the Act.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**".
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its financial Statements- **Refer Note 17** to the financial statements.
 - (ii) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, on long-term contracts including derivative contracts-**Refer Note 21** to the financial statements.

ANNEXURE B" TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **JBM Auto Limited** ("the Company") as of 31st March 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and Directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes Forming Part of Financial Statements

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

a) BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting in accordance with the accounting principles generally accepted in India ('Indian GAAP') and comply with the Accounting Standards prescribed in the Companies (Accounting Standards) Rules, 2006 which continue to apply under Section 133 of the Companies Act, 2013, ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014 and other relevant provisions of the Companies Act, 1956, to the extent applicable.

b) USE OF ESTIMATES

The preparation of financial statements require estimates and assumptions to be made that affect the reported amount of asset and liabilities on the date of the financial statements and the reported amount of the revenue and the expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/materialized.

c) REVENUE/EXPENDITURE RECOGNITION

Revenue represents the net invoice value of goods and services provided to third parties after deducting discounts, outgoing sales tax and other duties, and are recognized when all significant risks and rewards/ownership are transferred to the customer. Revenues from sale of material by products are included in revenue.

Dividend income is recognized when the Company's right to receive dividend is established. Interest and Royalty income are recognized on accrual basis in the Statement of Profit and Loss.

Expenditure is accounted for on accrual basis and provision is made for all known losses and liabilities.

d) GOVERNMENT GRANTS

Grants and subsidies from the government are recognized when there is reasonable assurance that the company will comply with the conditions attached to them, and the grants/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on the systematic basis in the statement of profit and loss over the periods necessary to match them with related costs which they are intended to compensate. Where the grants relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

Where the company receives non-monetary grants, the assets are accounted for on the basis of its acquisition cost. In case a non-monetary asset is given free of cost, it is recognized at a nominal value.

Government grants of the nature of promoter's contribution are credited to capital reserve and treated as a part of the shareholders' funds.

e) EXTRA-ORDINARY ITEMS

Extraordinary items are those income or expense that arises from events or transactions that are clearly distinct from the ordinary activities of the enterprise, and, therefore, are not expected to recur frequently or regularly.

f) EXCEPTIONAL ITEMS

Exceptional items are those items of income or expense arising from ordinary activities, are of such size, nature or incidence that requires separate disclosure to explain the performance of the enterprise.

g) FIXED ASSETS

The initial cost of Fixed Assets comprises its purchase price, including import duties, net of modvat/ cenvat, less accumulated depreciation and include directly attributable costs of bringing an asset to working condition and location for its intended use, including borrowing costs relating to the qualified asset over the period upto the date the asset is ready to commence commercial production. Adjustments arising from exchange rate variations relating to long term monetary items attributable to the depreciable fixed assets are capitalized.

Notes Forming Part of Financial Statements

Machine spares that can be used only in connection with an item or fixed asset and their use is expected to be irregular are capitalized. The replacement of such spares is charged to revenue.

h) ASSETS IN THE COURSE OF CONSTRUCTION

Assets in the course of construction are capitalized in the assets under construction account. At the point when an asset is operating at enterprises intended use, the cost of construction is transferred to appropriate category of fixed assets. Costs associated with the commissioning of an asset are capitalized where the asset is available for use but incapable of operating at normal levels until a period of commissioning has been completed.

i) INTANGIBLE ASSETS

In accordance with the Accounting Standard (AS) 26 relating to intangible assets, all costs incurred on technical know how/ license fee relating to production process are charged to revenue in the year of incurrence. Technical know how/license fee/ product development relating to process design/plants/facilities are capitalized at the time of capitalization of the said plants/ facilities and amortized as follows:-

- | | |
|---|------------|
| a) Computer software | - 3 years |
| b) Technical know-how | - 5 years |
| c) License fees, Design, Technical know-how & Prototype Related to Bus Division | - 10 years |

j) IMPAIRMENT OF ASSETS

Carrying amount of cash generating units/Fixed assets are reviewed for impairment, if events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. The excess of carrying value over the recoverable amount of the asset is charged, as an impairment loss to the Statement of Profit & Loss.

k) DEPRECIATION

Depreciation on fixed assets is provided to the extent of Depreciable amount on straight line method based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II are used, based on technical advice which considered the nature of assets, the usage of asset, expected physical wear & tear etc.

Assets	Years
Plant & Machinery and Electric Installation	20
Pallets, Tools & Dies	8
Leasehold land for less than 90 years	Over the remaining period of leasehold from the date of commissioning of plant

Individual assets costing ₹ 5000/- or less are depreciated in full, at the time of purchase. Depreciation on incremental cost arising on account of translation of foreign currency liabilities for acquisition of fixed assets is provided as aforesaid over the residual life of the respective assets.

l) INVENTORIES

Inventories are valued at lower of Cost and Net Realizable Value. The cost is determined on the following basis:

Raw material is recorded at cost on a First In First Out (FIFO) method.

Finished Goods and Work in Process valued at raw material cost plus cost of conversion and other costs incurred in bringing the inventory to its present location and condition

By Product and Scrap are valued at net realizable value.

m) INVESTMENTS

Investments are classified into Current and Non Current investments. Current investments are stated at lower of cost or market value. Non Current investments are stated at cost and provision for diminution in value is made only if such decline is other than temporary in the opinion of management.

Notes Forming Part of Financial Statements

n) FOREIGN EXCHANGE TRANSACTIONS

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of transaction. Monetary items denominated in foreign currencies outstanding at the year-end are translated at exchange rate applicable as on that date. Non-monetary items denominated in foreign currency are valued at the exchange rate prevailing on the date of transaction. Any income or expense on account of exchange difference on forward exchange contract and on settlement or on translation is recognized in the Statement of Profit and Loss, except in the following cases:-

- a) Exchange differences relating to long term monetary items attributable to depreciable fixed assets are capitalized; and
- b) Exchange differences relating to long term monetary item not attributable to depreciable fixed assets are transferred to "Foreign Currency Monetary Item Translation Difference Account" and amortised over its tenor till maturity.

o) BORROWING COST

Borrowing Cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from short term foreign currency borrowings to the extent they are regarded as are adjustments to interest cost.

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to revenue.

p) EMPLOYEE'S BENEFITS

- i. Short term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which related service is rendered.
- ii. The Company has defined contribution plans for post retirement benefits, namely, Employees Provident Fund Scheme administered through provident fund commissioner and the company's contribution are charged to revenue every year.
- iii. Company's contribution to state plans namely Employees State Insurance Fund is charged to revenue every year.
- iv. The company has defined benefit plans namely Leave encashment / Compensated absence and Gratuity, the liability for which is determined on the basis of an Actuarial valuation at the end of the year. Gratuity Trust is administered through Life Insurance Corporation of India.
- v. Termination benefits are recognized as an expense immediately.
- vi. Gain or Loss arising out of actuarial evaluation is recognized immediately in the Statement of Profit and Loss as income or expense.

q) CLAIMS

Claims receivable are accounted for depending on the certainty of receipt and claims payable are accounted for at the time of acceptance.

r) EXCISE DUTY

Excise duty payable is accounted on the basis of both payments made in respect of goods cleared as also provision made for goods lying in bonded warehouse.

s) RESEARCH AND DEVELOPMENT COSTS

Research costs are expensed as incurred .Development expenditure incurred on an individual project is recognized as an intangible asset when the company can demonstrate all the following:

- i) The technical feasibility of completing the intangible asset so that it will be available for use or sale
- ii) Its intention to complete the asset
- iii) How the asset will generate future economic benefits
- iv) The availability of adequate resources to complete the development and to use or sell the asset
- v) The ability to measure reliably the expenditure attributable to the intangible asset during development.

Notes Forming Part of Financial Statements

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use.

t) TAX EXPENSE

Provision for current income tax is made after taking credit for allowances and exemptions using the tax rate and laws that have been enacted or substantially enacted on the Balance Sheet date. In case of matters under appeal, due to disallowances or otherwise, provision is made when the said liabilities are accepted by the Company.

Minimum alternative tax (MAT) paid in accordance to the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the company will pay the income tax. Accordingly, MAT is recognized as an asset in the balance sheet when it is probable that the future economic benefit associated with it will flow to the company and the asset can be measured reliably.

Deferred tax resulting from "timing difference" between taxable and accounting income is accounted for using the tax rates and laws that are enacted as on the balance sheet date.

Deferred tax asset arising from temporary differences are recognized to the extent there is virtual certainty of realization of asset in future.

u) PROPOSED DIVIDEND

Dividend as proposed by the Board of Directors is provided for in the books of account, pending approval of the Members at the Annual General Meeting.

v) PROVISION AND CONTINGENT LIABILITY

Show cause notices issued by various Government Authorities are not considered as obligation. When the demand notices are raised against such show cause notices and are disputed by the Company then these are classified as possible obligation.

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is a probable that there will be an outflow of resources. Contingent liabilities are not recognized but are disclosed in notes.

w) DERIVATIVE FINANCIAL INSTRUMENTS

In respect of the Financial derivative contracts the premium / interest paid and profit / loss on settlement is charged to Statement of Profit & Loss. The contracts entered into other than forward contracts are marked to market at year end and the resultant loss is charged to Statement of Profit & Loss except in the cases these relate to the depreciable fixed assets in which case these are adjusted to the carrying cost of such assets.

x) CONTIGENCIES & COMMITMENTS

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, these are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements, although there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the financial position or profitability.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as "the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The Holding Company's Board of Directors is also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of Consolidated Financial Statements. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, other than the unaudited financial statements as certified by the management and referred to in sub-paragraph (b) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at 31st March, 2016, and their consolidated profit and their consolidated cash flows for the year ended on that date.

“ANNEXURE” TO THE INDEPENDENT AUDITOR’S REPORT

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (“THE ACT”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2016, We have audited the internal financial controls over financial reporting of JBM AUTO LIMITED (hereinafter referred to as “the Holding Company”) and its subsidiary companies, and jointly controlled companies, which are companies incorporated in India, as of that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Respective Board of Directors of the Holding company, its subsidiary companies and jointly controlled companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the reports of the other auditors in respect of entities audited by them and representation received from the management for entities un-audited referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and Directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Holding Company, its subsidiary companies and jointly controlled companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India as it appears from our examination of the books and records of the Holding Company and the reports of the other auditors in respect of entities audited by them and representation received from the management for entities un-audited.

OTHER MATTERS

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting, in so far as it relates to the audited one jointly controlled company is based on the corresponding reports of the other auditors and in so far as it relates to the unaudited one subsidiary company and one jointly controlled company, is based on representation received from the management (also refer para (a) and (b) of Other Matters of the Independent Auditors' Report above.) Our opinion is not qualified in respect of this matter.

Notes Forming Part of Consolidated Financial Statements

NOTE 1: SIGNIFICANT ACCOUNTING POLICIES

1. BASIS OF CONSOLIDATION

The consolidated financial statements related to JBM Auto Limited (the Company) and its subsidiaries and Joint Ventures. The accounts are prepared on historical cost basis and in accordance with the applicable accounting standards and other applicable relevant statutes.

A. BASIS OF ACCOUNTING

- i. The financial statements of the subsidiary company used in the consolidation are drawn up to the same reporting date as of the Company.
- ii. The financial statements of the Company and subsidiary companies have been prepared in accordance with the applicable Accounting Standards and generally accepted accounting principles.

B. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements have been prepared in accordance with the applicable Accounting Standards on the following basis:-

- i. The financial statements of the Company and its subsidiary companies are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balance and intra-group transactions resulting in unrealized profits or losses in accordance with Accounting Standard (AS) 21 –“Consolidated Financial Statements” as notified under Companies Accounting Standard Rules, 2006.
- ii. The Financial statement of Joint Venture Company have been combined by applying proportionate consolidation method on a line by line basis on items of assets, liabilities, income and expenses after eliminating proportionate share of unrealized profit or losses in accordance with Accounting Standard (AS) 27 on “Financial Reporting of Interest in Joint Ventures’ as notified under Companies Accounting Standard Rules, 2006.
- iii. The Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented to the extent possible in the same manner as the company’s separate Financial Statements except as otherwise disclosed in the Notes to Accounts.
- iv. The excess of the cost to the Company of its Investment in Subsidiaries and Joint Venture over its share/proportionate share in the equity of the investee company as at the date of acquisition of stake is recognized in the Financial Statements as Goodwill. In case the cost of investment in a Subsidiary or Joint Venture is less than the share/proportionate share in the equity of the investee as on the date of the Investment, the difference is treated as Capital Reserve. Goodwill/Capital Reserve measured as above of more than one subsidiary, have not been netted off for the purpose of consolidation.
- v. Minority interest’s share of net profit/Loss of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company.
- vi. Minority interest’s share of Net Assets of consolidated subsidiaries is identified and presented in the consolidated Balance Sheet separately from liabilities and the equity of the company’s shareholders.

C. OTHER SIGNIFICANT ACCOUNTING POLICIES

1 BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting in accordance with the accounting principles generally accepted in India ('Indian GAAP') and comply with the Accounting Standards prescribed in the Companies (Accounting Standards) Rules, 2006 which continue to apply under Section 133 of the Companies Act, 2013, ('the Act') read with Rule 7 of the Companies (Accounts) Rules, 2014 and other relevant provisions of the Companies Act, 1956, to the extent applicable.

Notes Forming Part of Consolidated Financial Statements

2. USE OF ESTIMATES

The preparation of financial statements require estimates and assumptions to be made that affect the reported amount of asset and liabilities on the date of the financial statements and the reported amount of the revenue and the expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/materialized.

3. REVENUE/EXPENDITURE RECOGNITION

Revenue represents the net invoice value of goods and services provided to third parties after deducting discounts, outgoing sales tax and other duties, and are recognized when all significant risks and rewards/ownership are transferred to the customer. Revenues from sale of material by products are included in revenue.

Dividend income is recognized when the Company's right to receive dividend is established. Interest and Royalty income are recognized on accrual basis in the Statement of Profit and Loss.

Expenditure is accounted for on accrual basis and provision is made for all known losses and liabilities.

4. GOVERNMENT GRANTS

Grants and subsidies from the government are recognized when there is reasonable assurance that the company will comply with the conditions attached to them, and the grants/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognized as income on the systematic basis in the statement of profit and loss over the periods necessary to match them with related costs which they are intended to compensate. Where the grants relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset.

Where the company receives non-monetary grants, the assets are accounted for on the basis of its acquisition cost. In case a non-monetary asset is given free of cost, it is recognized at a nominal value.

Government grants of the nature of promoter's contribution are credited to capital reserve and treated as a part of the shareholders' funds.

5. EXTRA-ORDINARY ITEMS

Extraordinary items are those income or expense that arises from events or transactions that are clearly distinct from the ordinary activities of the enterprise, and, therefore, are not expected to recur frequently or regularly.

6. EXCEPTIONAL ITEMS

Exceptional items are those items of income or expense arising from ordinary activities, are of such size, nature or incidence that requires separate disclosure to explain the performance of the enterprise.

7. FIXED ASSETS

The initial cost of Fixed Assets comprises its purchase price, including import duties, net of modvat/ cenvat, less accumulated depreciation and include directly attributable costs of bringing an asset to working condition and location for its intended use, including borrowing costs relating to the qualified asset over the period upto the date the asset is ready to commence commercial production. Adjustments arising from exchange rate variations relating to long term monetary items attributable to the depreciable fixed assets are capitalized.

Machine spares that can be used only in connection with an item or fixed asset and their use is expected to be irregular are capitalized. The replacement of such spares is charged to revenue.

8. ASSETS IN THE COURSE OF CONSTRUCTION

Assets in the course of construction are capitalized in the assets under construction account. At the point when an asset is operating at enterprises intended use, the cost of construction is transferred to appropriate category of fixed assets. Costs associated with the commissioning of an asset are capitalized where the asset is available for use but incapable of operating at normal levels until a period of commissioning has been completed.

Notes Forming Part of Consolidated Financial Statements

9. INTANGIBLE ASSETS

In accordance with the Accounting Standard (AS) 26 relating to intangible assets, all costs incurred on technical know-how/license fee relating to production process are charged to revenue in the year of incurrence. Technical know-how/license fee/ product development relating to process design/plants/facilities are capitalized at the time of capitalization of the said plants/ facilities and amortized as follows:-

- | | |
|---|------------|
| a) Computer software | – 3 years |
| b) Technical know-how | – 5 years |
| c) License fees, design, Technical know-how & Prototype related to Bus Division | – 10 years |

10. IMPAIRMENT OF ASSETS

Carrying amount of cash generating units/Fixed assets are reviewed for impairment, if events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. The excess of carrying value over the recoverable amount of the asset is charged, as an impairment loss to the Statement of Profit & Loss.

11. DEPRECIATION

Depreciation on fixed assets is provided to the extent of Depreciable amount on straight line method based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II are used, based on technical advice which considered the nature of assets, the usage of asset, expected physical wear & tear etc.

Assets	Years
Plant & Machinery and Electric Installation	20
Pallets, Tools & Dies	8
Leasehold land for less than 90 years	Over the remaining period of leasehold from the date of commissioning of plant

Individual assets costing ₹ 5000/- or less are depreciated in full, at the time of purchase. Depreciation on incremental cost arising on account of translation of foreign currency liabilities for acquisition of fixed assets is provided as aforesaid over the residual life of the respective assets.

Depreciation has been provided on straight line manner at rate higher than the schedule II for one of the subsidiary company

Assets	Years
Furniture & Fixture, Motor Car and Office Equipment	3

In respect of assets whose useful lives have been revised, the unamortized depreciable amount is charged on the remaining lives of the assets,

12. INVENTORIES

Inventories are valued at lower of Cost and Net Realizable Value. The cost is determined on the following basis:

Raw material is recorded at cost on a First In First Out (FIFO) method.

Finished Goods and Work in Process valued at raw material cost plus cost of conversion and other costs incurred in bringing the inventory to its present location and condition

By Product and Scrap are valued at net realizable value.

In case of one subsidiary company and one joint venture company inventory is valued at lower of cost, determined on the weighted average bases and net realizable value.

13. INVESTMENTS

Investments are classified into Current and Non Current investments. Current investments are stated at lower of cost or market value. Non Current investments are stated at cost and provision for diminution in value is made only if such decline is other than temporary in the opinion of management.

Notes Forming Part of Consolidated Financial Statements

14. FOREIGN EXCHANGE TRANSACTIONS

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the time of transaction. Monetary items denominated in foreign currencies outstanding at the year-end are translated at exchange rate applicable as on that date. Non-monetary items denominated in foreign currency are valued at the exchange rate prevailing on the date of transaction. Any income or expense on account of exchange difference on forward exchange contract and on settlement or on translation is recognized in the Statement of Profit and Loss, except in the following cases:-

- a) Exchange differences relating to long term monetary items attributable to depreciable fixed assets are capitalized; and
- b) Exchange differences relating to long term monetary item not attributable to depreciable fixed assets are transferred to "Foreign Currency Monetary Item Translation Difference Account" and amortised over its tenor till maturity.

15. BORROWING COST

Borrowing Cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from short term foreign currency borrowings to the extent they are regarded as are adjustments to interest cost.

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to revenue.

16. EMPLOYEE'S BENEFITS

- i. Short term employee benefits are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which related service is rendered.
- ii. The Company has defined contribution plans for post retirement benefits, namely, Employees Provident Fund Scheme administered through provident fund commissioner and the company's contribution are charged to revenue every year.
- iii. Company's contribution to state plans namely Employees State Insurance Fund is charged to revenue every year.
- iv. The company has defined benefit plans namely Leave encashment / Compensated absence and Gratuity, the liability for which is determined on the basis of an Actuarial valuation at the end of the year. Gratuity Trust is administered through Life Insurance Corporation of India.
- v. Termination benefits are recognized as an expense immediately.
- vi. Gain or Loss arising out of actuarial evaluation is recognized immediately in the Statement of Profit and Loss as income or expense.

17. CLAIMS

Claims receivable are accounted for depending on the certainty of receipt and claims payable are accounted for at the time of acceptance.

18. EXCISE DUTY

Excise duty payable is accounted on the basis of both payments made in respect of goods cleared as also provision made for goods lying in bonded warehouse.

19. RESEARCH AND DEVELOPMENT COSTS

Research costs are expensed as incurred .Development expenditure incurred on an individual project is recognized as an intangible asset when the company can demonstrate all the following:

- i) The technical feasibility of completing the intangible asset so that it will be available for use or sale

Notes Forming Part of Consolidated Financial Statements

- ii) Its intention to complete the asset
- iii) How the asset will generate future economic benefits
- iv) The availability of adequate resources to complete the development and to use or sell the asset
- v) The ability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for use.

20. TAX EXPENSE

Provision for current income tax is made after taking credit for allowances and exemptions using the tax rate and laws that have been enacted or substantially enacted on the Balance Sheet date. In case of matters under appeal, due to disallowances or otherwise, provision is made when the said liabilities are accepted by the Company.

Minimum alternative tax (MAT) paid in accordance to the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the company will pay the income tax. Accordingly, MAT is recognized as an asset in the balance sheet when it is probable that the future economic benefit associated with it will flow to the company and the asset can be measured reliably.

Deferred tax resulting from "timing difference" between taxable and accounting income is accounted for using the tax rates and laws that are enacted as on the balance sheet date.

Deferred tax asset arising from temporary differences are recognized to the extent there is virtual certainty of realization of asset in future.

21. PROPOSED DIVIDEND

Dividend as proposed by the Board of Directors is provided for in the books of account, pending approval of the Members at the Annual General Meeting.

22. PROVISION AND CONTINGENT LIABILITY

Show cause notices issued by various Government Authorities are not considered as obligation. When the demand notices are raised against such show cause notices and are disputed by the Company then these are classified as possible obligation.

Provisions involving substantial degree of estimation in measurement are recognized when there is a present obligation as a result of past events and it is a probable that there will be an outflow of resources. Contingent liabilities are not recognized but are disclosed in notes.

23. DERIVATIVE FINANCIAL INSTRUMENTS

In respect of the Financial derivative contracts the premium / interest paid and profit / loss on settlement is charged to Statement of Profit & Loss. The contracts entered into other than forward contracts are marked to market at year end and the resultant loss is charged to Statement of Profit & Loss except in the cases these relate to the depreciable fixed assets in which case these are adjusted to the carrying cost of such assets.

24. CONTIGENCIES & COMMITMENTS

In the normal course of business, contingent liabilities may arise from litigation and other claims against the Company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, these are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements, although there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the financial position or profitability.

NOTE : 28 The Company has filed a writ petition with the Hon'ble High Court of Kolkatta, West Bengal for injunction restraining the Govt. of West Bengal for acting in terms of Singur Land rehabilitation and Development Act, 2011. The Division Bench of the Kolkata High Court had held that the Singur Act was unconstitutional and had therefore struck down the Act. The State Government has challenged the said judgment of the Kolkata High Court before the Hon'ble Supreme Court and the same is still pending. Meanwhile the Division Bench had granted a stay on the said order dated 21st June, 2012 which has also been extended by Supreme Court. By virtue of the order of stay, the State Government is still retaining the possession of the Singur land.

Pending finalization of the case, the company has not made any provision against advance given for the same.

NOTE: 29 On 5th November, 2014, a fire occurred in the administration block of the Sector-59 unit (Ballabgarh, Haryana) of the Company. All the records, documents, computer system etc. were burnt. The Company has filed the insurance claim against the loss, which is pending for settlement. No provision has been made for the same. Any variation from insurance claim filed will be accounted for as and when it is realized

NOTE: 30 Company has reviewed the useful life of intangible assets and revised the useful life of Prototype, design, technical Know-how and related license fees of Bus Division from 7 years to 10 years based on the expected pattern of consumption of economic benefits and in accordance with the rebuttable presumption that the useful life of asset will not exceed 10 years from the date asset is available for use, effective April 1, 2015. Consequently, amortization for the year is lower and profit before tax is higher by ₹ 177.85 Lacs.

NOTE: 31 The Company has recognized deferred tax asset on unabsorbed depreciation based upon virtual certainty supported by confirmed orders from customers which will result in sufficient taxable profit.
