Channelising
growth
through diverse business ventures
for a successful future

SADBHAV has built its success on a firm foundation of a value system that sustains integrity, trust and respect. These timeless principles have honed the Company's core competence of Constructing Infrastructure through Roads, Mining and Irrigation Projects.

Performing & Progressing through Professionalism

Sadbhav Today for Tomorrow

Shri Vishnubhai M. Patel
Chairman Emeritus (From 03-03-2017)

Our motto reflects our spirit. We believe what we build today will last beyond our lifetime and benefit tomorrow. We strive today, for a better future.

Our true success does not lie in the profits we make today, but in the green legacy we create for the generations to come.

Striving to Excel...

By setting the benchmarks
like being the 'best in class',
in our chosen fields.

By creating – Value for our customers
Wealth for our stakeholders and Future
for our employees.

By giving back to Society,
what we have gained from it.

“ Constructing takes acumen, but a strong foundation takes experience. With a combination of these two, Sadbhav is now making its vision into reality. ”

Making Vision into Reality

Our reputation of being a construction company with a well-diversified portfolio, Sadbhav has a large accumulation of currently operation and underway projects in EPC under the roads and highways segment, irrigation supporting infrastructure, and the excavation of ores under the mining segment. Sadbhav has sustained its steady growth with net revenue, net profit and order book CAGR of ~25%, ~27% and ~17%, respectively, in the last decade. The Company has done work for/with clients of high reputation such as NHAI, MSRDC, Coal India, GIDC, GHCL Ltd., KSHIP, Northern Coalfields Limited, NVDA, UCIL, to name a few along with many more. The current Government has also bridled infrastructure as the means to attain connectivity even in the remotest corners of the country. Our progress is correlational with strong in-house integrated execution capabilities in accordance with technological advancement and cutting edge-innovational mechanism for Sadbhav's state-of the-art equipment facility for Bitumen and Concrete roads. We have set a bar high for ourselves to ensure the safety of our staff and strictly adhere to the standards. A continuously strengthened development of technology with prudence, Sadbhav guides itself through a unified and structured approach. Since its incorporation in 1988, Sadbhav has a much focused approach towards its systematised strategy to execute projects in these three segments. Sadbhav Infrastructure Project Limited (SIPL), a subsidiary of Sadbhav Engineering Limited (SEL) for development of assets under Built, Operate and Transfer (BOT) model has also rooted its existence in high growth states of India.

Roads & Bridges that lead to tomorrow

ROADS AND HIGHWAYS: Corridors of a Networked Nation !

As an ambitious target has been set to increase the length of national highways, development of roads and highways is one of the priority areas for the Government of India. With constant focus of current government to build nationwide network of roads and highways, tunnels and economic corridors, our vision to build an exceptional road infrastructure for the nation is already bearing fruit with our institutional presence with major ongoing EPC projects. Six lane EPE (Package I and II), Ambala - Kaithal section (NH-65), and four laning of Yamunanagar -Saha Barwala-Panchkula section (Package I and II) in the state of Haryana; Delhi Metro Project, Delhi; Malavalli - Pavagada section in Karnataka; four laning of Rampur-Kathgodam section (Package I and II) in Uttar Pradesh; along with widening and strengthening of NH 15, constructing the stretch of Lalsotto Kota road project in Rajasthan and early completion of ARRIL, BHTPL and DPTL. Apart from these, SEL has executed series of prestigious projects such the Chindwada road of the stretch 422 kilometers, largest and longest project by NHAI. These corridors are spread across India, with strategic focus on inclusive development and the protection of environment. SEL emphasises on abundant plantations in and around the area used for various constructions.

MINING: Opportunities in the Burrows of Earth !

Being mineral rich with a favourable geological milieu has led to a robust development in the mining sector as a major economic activity in India. According to Ministry of Mines and Ministry of Coal, Government of India, the sector contributed to about 2.6% of GDP in the last financial year, commercial primary energy consumption in India has grown by about 700% in the last four decades. Driven by the rising population,

expanding economy and a quest for improved quality of life, energy usage in India is expected to rise. India produces as many as 87 minerals, which includes 4 fuel, 10 metallic, 47 non-metallic, 3 atomic and 23 minor minerals (including building and other materials). During the year 2011-12, the bulk of value of mineral production of about 91.41% was confined to 11 states of Andhra Pradesh, Gujarat, Rajasthan, Madhya Pradesh, Karnataka, Tamil Nadu, Odisha, Jharkhand, Chhattisgarh, Maharashtra, and Goa (including offshore areas) only. Presently, the offshore areas are in leading position, in terms of value of mineral production in the country and had the share of 25.79% in the national output. SEL under this segment is, thereby, focused on excavation projects site at Kapurdi, Barmer with Jindal Steel Works. We now have removal of over burden at Bharat Coking Coal, Dhanabad along with overburden and extraction of Uranium Ore in Banduhurang mine, Jharkhand and removal of overburden in Amlohri OCP of NCL, Madhya Pradesh in our pockets. One of our major ongoing projects is Basantimata – Dahibari colliery of C.V. area in Jharkhand. We are proud to successfully complete removal of overburden and all types of material at Khadia OCP and Junad OCM, Wani area, respectively. Under important schemes of Government of India for this sector, the primary objective will be to implement a range of welfare projects in mining areas. With the Government's consistent efforts in the promotion and development of the sector as well as the untapped potential the industry offers, the mining sector is poised to make significant strides and reach its pinnacle in the years to come.

IRRIGATION: Sustainable Development for a Green Legacy !

Steps taken by the Government of India for economic reforms have ensured a focus macro-economic stability and prudent fiscal management. One such important step was towards irrigation. Government of India is

“ The derivative of our pan India growth with an aspiration towards a best engineering company is the result of efficient teamwork to create the building blocks of success. ”

committed to accord high priority to water conservation and its management. To this effect Pradhan Mantri Krishi Sinchayee Yojana (PMKSY) was formulated with the vision of extending the coverage of irrigation and improving water use efficiency in a focused manner with end to end solution on source creation, distribution, management, field application and extension activities. PMKSY has been formulated amalgamating ongoing schemes viz. Accelerated Irrigation Benefit Programme (AIBP), Ministry of Water Resources (MoWR), River Development & Ganga Rejuvenation along with other departments, which focuses on faster completion of ongoing major and medium irrigation including national projects. PMKSY has been approved for implementation across the country with an outlay of ₹ 50,000 crore in five years. For 2015-16, an outlay of ₹ 5300 crore has been made which includes ₹ 2000 crore for MoWR (₹ 1000 crore for AIBP; ₹ 1000 crore for PMKSY). In SEL, considering the best interest of a nation's development in a sustainable manner, we have largely involved ourselves in the Irrigation sector. We are in the ongoing process of developing Bhauti high level canal along with Omkareshwar right bank lift canal in Madhya Pradesh. We have prestigious projects such as the Harlon Project and Omkareshwar (Package I, II, and III) in Madhya Pradesh; and in Gujarat, namely, Kutch branch canal, Adipur (canal earthwork, structures, lining and service road to it already completed) and Radhanpur sub branch canal. We have displayed SEL's scope to work in all the high growth states by constructing NMC from 108 to 127 kilometers and canal syphon across river Watrak for SSNNL. Achieving the goal of efficient management of the already built infrastructure in harmony with development of technologies to sustain the same is the pathway to an "ever-green revolution" in this sector.

Today's Team for tomorrow's dream

The dedication and enthusiasm of Sadbhav's leaders is revealed in its people who form the spinal chord of the company. This team of dedicated people consists of a treasure trove of talent and skills. It totals to about 5650 professionals, which includes engineers and workers.

Our people play a key role in the company's growth, which also steers the nation's ascends. We strive to provide the most favorable environment to facilitate our teams all round growth. We recognize talent and guide it to develop specialized skills to enable them to give the best. We encourage a healthy inter and intra-site relationship.

Such conducive work environment enables our team to realize Today's dreams into tomorrow's realities.

Message from Chairman

Dear Stakeholders,

Sadbhav Engineering Limited (SEL) is not just an organisation but a process, by which dreams became realities and experienced visions became dynamic achievements. True to Gordon Hinckley's wise words, Sadbhav believes in hard labour to prosper as one of the most trusted names in infrastructure. With a presence in 14 different states and multitude of aspects in Engineering, Procurement and Construction (EPC) business for Transport, Mining, and Irrigation sectors in India; over past 29 years, SEL has widespread its reach and also expertise itself with the complexity of engineering work. In last year, your Company has also received an appreciation letter from National Highway Authority of India (NHAI) for its pace of work in India's first smart expressway project i.e. Eastern Peripheral Expressway project. We are proud to be associated with this landmark project of India. These achievements have formed a part of a holistic combination of dynamic growth structure and active responsibility towards our commitment to the society and environment. Your company, since its inception has maintained an honest principle of sharing its success with all its contributors.

“ A project is complete when it starts working for you, rather than you working for it. ”

– Scott Allen

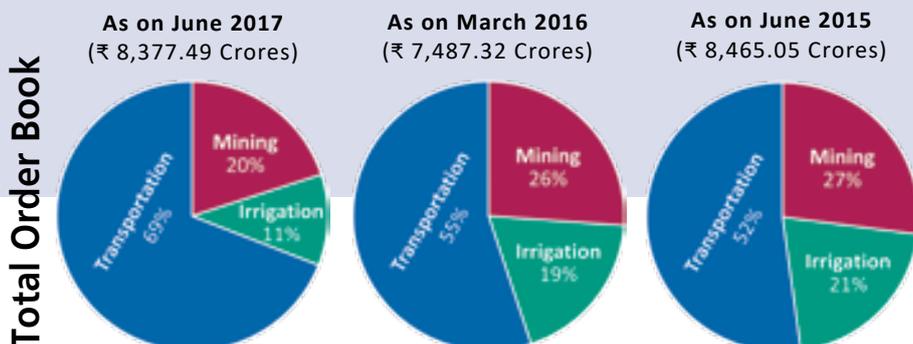

It, therefore, gives me an immense pleasure to present to you the financial report of Sadbhav, for the year 2016-2017. Infrastructure has been garnered as one of the key focus areas with augmentation of policies such as 'Swadeshi' or Make in India. This has furthered the developmental revolution with massive indulgence of global markets in engineered constructions. Therefore, such opportunities have propelled our presence and reflected on the order book of your company Spread as a network, channelized into accentuating each and every stem, Your Company has created new opportunities for itself while retaining its quality in work and delivering an outstanding result.

The dedication and focus towards reaching greater heights has profited your company since its inception to satiate every contributor by paying regular dividends over the last 15 years. Your Company has come a long way from its initial listing of equity shares on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) in 2006 with a market capital of ₹ 201.60 crores to a market capital of ₹ 5236.34 crores as on March 31, 2017. Between 2006 and 2017, Net revenue of your

company has increased at a CAGR of 25% p.a., Net profit has increased at a CAGR of 27% p.a., Project Costs of BOT assets have increased at a CAGR of 32% p.a. and market cap has increased at a CAGR of 34% p.a. during the same period. With focus of Government of India on infrastructure projects, your company is poised to achieve far greater success than already achieved in past.

With a well diversified and healthy balance order book of ₹ 7683.42 crores (excluding L1 of ₹ 1575.00 crores) as on March 31, 2017 which translates to order book to sales ratio of 2.37x; your Company is poised to grow it further with having prequalification for project costs of upto ₹ 2374.4 crores in NHAI EPC projects.

During 2016-17, Transport segment contributed 76% of revenues, which includes the construction; upgradation of roads and highways; construction of metro projects; and much more. Your Company, till date, has constructed over 7,551 lane kilometres. With a captivating balance order book status of ₹ 4996.89 crores (excluding L1 of ₹ 1575.00 crores), I am confident that growth for next few years shall be driven by the roads

Message From Chairman

and highways segment. Irrigation segment has a balance order book of ₹ 989.94 crores as on 31st March, 2017, translating to 2.2x of FY17's irrigation revenue with the projects under canal construction work it reached over 656 kilometers. Projects pertaining to excavation of over 501 mn cubic meters and balance work order for mining segment of Sadbhav stands at ₹ 1696.60 crores, translating to 5.3x of the revenue.

Strong in-house integrated execution capabilities with highly qualified human resource and state-of-the art equipments made gross block of fixed assets stand at ₹ 675.85 crores as on March 31, 2017. A diversified and dynamic approach towards all our contracts and projects has created value addition to important portfolios along with the enhancement in returns of the previously held projects.

With all these, I am proud to say that despite various challenges in the sector over last 10 years, your company has successfully completed construction of all 11 BOT assets in first set of the portfolio. For 12th BOT assets, MBHPL has already applied for CoD certificate. With this experience, we are confident to achieve completion of the

7 under-construction HAM projects also within the schedule timelines. SIPL, our subsidiary has won highest number of HAM projects till date from NHA. Also, SIPL has been able to achieve financial closure of 5 projects and financial closure for balance 2 projects is in progress and shall be achieved before the scheduled date. Cashflow position of SIPL has improved substantially in 2016-17 as compared to 2015-16 due to completion of refinancing of debt in various SPVs although the impact of demonetisation was felt on the traffic volumes from December-16 to March-17.

Travailing to obtain success, as an unmitigated result, is achieved when passions and skills are engaged with excellence in managerial abilities. This conflation of our Engineering and Management staff has brought us to the stature a perpetual stream of achievements which flow in tranquillity of satisfaction from advocating highest levels of transparency, accountability and equity, in all facets of its operations. A great synchronization between the organization and individuals, in terms of interaction, realized into attainment of growth in heaps and bounds.

“While technology is important, it’s what we do with it that truly matters.”

– Muhammad Yunus

Essential element of conviction, commitment, and credibility present in our organizational structure form an integral for delivering better outcomes: mapping those uncharted routes where many ventured, but Sadbhav attained. Thereby, I take this opportunity to thank each and every stakeholder of Sadbhav Engineering Limited who plays an important role in spreading our roots to shape the nation of tomorrow and by tomorrow. We also uphold our appreciation for our customers, shareholders, lenders and vendors for joining us in this continuous effort to diversify and succeed. Hence, on your as well as on behalf of the Board of Directors, I congratulate a congenial support extended by the employees of Sadbhav Engineering to unveil yet another copious display of spectacular performance. I encourage them to keep building trust in the capabilities of one-self and the team. I would like to thank you all for your constant and esteemed presence and congregated interest in the Company.

Hereby, we at Sadbhav Engineering Limited present our report for the financial year 2016 – 17.

ABOUT SADBHAV ENGINEERING LIMITED

Founded in 1988, SEL has implemented and executed projects of national significance including construction of roads and highways, bridges, mining and irrigation supporting infrastructure. SEL has successfully constructed 7551 lane kms. (till date) of roads and highways (both state and national highways) and are among the topmost infrastructure companies in India. SEL is also listed on both National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) and have had privilege to work for and with NHAI, Coal India, GIPCL, GHCL, L&T, HCC, Punj Lloyd, Sardar Sarovar Narmada Nigam among various others.

SEL's foundation moves on the growth chart keeping in view various factors, such as patterns of key emerging markets in advanced economies, rising policy, geopolitical uncertainties, additional growth disappointments, and many more.

1. GLOBAL ECONOMIC OVERVIEW

A resultant signification towards a sluggish growth in advanced economies, weak global trade, and diminishing capital flows came out in a report by The World Bank, Global Economic Prospects: Divergence and Risks, which revised its 2016 global growth forecast down to 2.4%. This move has made the need for a structural reform more urgent than ever. Diffusion of instability, environment of weak growth and eroding policy buffers has now called for the global economic activities, both in the advanced economies and the emerging markets, to identify a broad lift in growth in many major regions.

The synchronised nature of an improvement in growth is notable with global activity expanding at an annualised rate of 4.1%, as compared to the low point of 2.2% recorded in March, 2016. Since the early 2015, the risks of a global recession have started subsiding providing early indications that a movement into the period of above trend expansion opportune for global economies. This continuation of improved situations might also suggest that the world economy is achieving an 'escape velocity', where the recovery becomes self-propelled without the need of repeated influx of monetary and fiscal policy support to prevent a renewed slowdown.

2. PANAROMA OF INDIAN ECONOMIC SITUATIONS

International agencies of repute for financial and economic monitoring such as the Central Statistics Organisation (CSO) and International Monetary Fund (IMF) have established that India has emerged as the fastest growing major economy in the world. Its Gross Domestic Product (GDP) rose at an annual rate of 7.9% in Q1 2016 compared to 7.5% in the same quarter last year. In a report by UN ESCAP titled, 'Economic and Social Survey of Asia and the Pacific 2015', India exhibited a strong rise and is forecasted to accelerate to 8.2% in 2016, benefiting from the acceleration of infrastructure projects; strong consumer/social expenditure due to lower inflation; and monetary easing and gradual improvements in market sentiments.

The improvement in India's economic fundamentals has accelerated in the year 2015. The consolidated gains achieved in restoring macroeconomic stability from the beginning along with the combined impact of strong governmental reforms and RBI's inflation focus, the consumer price inflation (measured by the CPI-NS) declined from 5.4% in February 2015 to 5% in October 2015, even though the inflation has continued to moderate steadily. This was supported by benign global commodity prices and liquidity conditions globally. Post the launch of 'Make in India' campaign, Foreign Direct Investment (FDI) in India observed a manifold rise of 29%. These steps taken by the government in recent times have shown positive results as India's GDP, registering a growth rate of 7.6% with the factor cost of US\$ 1.668 trillion in 2015-16, as against US\$ 1.55 trillion in 2014-15.

Aiming at the economic predictions for the fiscal bracket from 2016 to 2020; powered by greater access to easy banking systems, adoption of technology as key to advancement, urbanisation of the rural, unified tax system with Goods and Service Tax (GST) and various other structural reforms; we at Sadbhav Engineering Limited, believe that these government policies and industry predictions will further our coordination with them to deliver results in our field of expertise: construction of roads and highways as well as irrigation and mining related infrastructure.

3. OUTLOOK OF OPPORTUNITIES AND STRENGTHS

Roads and Highways

India has surpassed its own capacities by extending its capabilities beyond the national boundaries via road connectivity. The transportation sector has been highly responsible for propelling India's overall development. The Government of India intensified its focus on this profitable sector by initiating policies that would ensure time-bound creation of world class infrastructure in the country. Therefore, US\$ 376.53 billion investment in infrastructure over a period of three years as an announcement was targeted. This will include US\$ 120.49 billion for developing 27 industrial clusters and an additional US\$ 75.30 billion for road, railway and port connectivity projects. With a concept as innovative as building smart cities across India, significant interest from international investors was witnessed in the infrastructure space. Heralding the aggressive approach to building infrastructure which is needed to unlock faster economic growth; the Government of India plans to use the new hybrid-annuity model for allocating contracts under the Public Private Partnership (PPP) projects in highways, which will help in overcoming the challenges faced by private developers in the Build-Operate-Transfer (BOT) Toll and BOT-Annuity models. We, at Sadbhav Engineering Limited, are keeping up with the boost in the particular sector as we obtained 29 projects, from all over India, consisting of transport EPC and BOT contracts.

Irrigation

Forming a crucial input in India's agricultural development, irrigation and foraying into harnessing of water resources for the same, has been marked as an important sector in successive developmental plans by Niti Ayog. For the 12th Plan (2012-17), a growth target of 4% has been set. With net irrigated area of 65.3 million hectares, the sector also rebounded to the growth zone, although the rate of expansion was low at 1.2% in 2015-16. A slew of measures, for example, 2.85 million hectares to be brought under irrigation, have been taken to salvage the contraction. The Government of India recognised the importance of micro-irrigation development, eventually allocating a sum of US\$ 777.6 million (possibility to enhance bilateral trade) and urging each state to provide special attention to this elemental sector. Several initiatives and programmes to ensure continuous growth were agreed upon by the Government of India in accordance with the correlation between improvement in irrigation and the development of the country. Therefore, we have a total of 20 on-going and new projects for this sector, wherein we have various construction of CM and CD works, hydraulic preparation, excavation, investigation, earthwork construction, canal build up, among others, structured.

Mining

In 2015, the mining industry of India broke its own record when a strong expansion of US\$ 305.5 billion flowed in. A renewed thrust to further generate demand for ores such as lignite and uranium was received with indication of the Indian economy expected to grow by approximately 7% in the years to come. This segment recorded a growth of 7.4% in FY 2016, down from 10.8% in the previous fiscal. India's strategic location enables a fast-developing Asian markets by facilitating convenient exports to prosper. After, the Government of India allowed a 100% Foreign Direct Investment (FDI) in the mining sector under the automatic route, it also approved MMDR Bill (2011) to provide better legislative environment for investment and technology. Benefitting from these structural reforms undertaken by the government to revive the mining sector, Sadbhav Engineering Limited now stands 11 projects strong with activities ranging from removal of overburden by hiring HEMM (Heavy Earth Moving Machinery) as well as excavation and transportation, to the extraction of ores like lignite and uranium. It has also maintained its focus on trained manpower for the same.

4. RISKS & ITS MITIGATION

The management of company has identified risks in two categories i.e. (1) Internal and Business Risk and (2) External Risk.

Internal and Business Risks: These are the risks that arise out of processes which are managed internally.

- (1) The successful completion of projects undertaken partially depends on the performance of our joint-venture partners and/or sub-contractors. Therefore, before entering into any such agreement, we thoroughly analyse their credentials and maintain track records of association with us. Irrespective of the partner's and/or contractor's status of association (old as well as new), we always insist on having a performance guarantee and quality assurance from our collaborators.
- (2) Various situations such as; cost overrun of projects due to problems of land acquisitions, removal of encroachment, complying with environmental standard, penalty for delay in completion of the project in time, insurance coverage, and others; may not adequately protect us against all possible risk of losses. Therefore, we elaborately plan to execute all our projects before the scheduled time. Also, we have contractor's all risk insurance policy and workmen's compensation policies as a precautionary measure at our disposal. We take Advance Loss of Profit (ALOP) Policy for each project and always appoint an Insurance Consultant / Professional to assess all at stake.
- (3) The estimates of increase of raw materials for BOT projects are made at the time of bidding, since there is no provision for cost escalation. Hereby, our considerable experience in the infrastructural sector enables us to keep the associated risks to a minimum.
- (4) With respect to risk of shortage in supply of raw materials, we ensure continuous supply of raw-materials by entering into long term arrangement with our suppliers before every single project.
- (5) Non-maintenance or break-down of equipment cause a major hindrance in complete execution of projects. Therefore, our team of technical experts regularly overhaul and repair the machines, thereby minimising the chances of any break-downs. We also set up mechanical divisions at each project site, wherein the regular maintenance and interim repairs are undertaken.
- (6) Mishandling of machines and equipment can result in being a liability. Therefore, we have training programmes for handling the sophisticated equipment and machinery used at our project sites. We have taken insurance coverage for any mishap claims that may arise under the Workman's Compensation Act.
- (7) Any negligence in employees' health, safety and regulatory measures can affect our performance. We, therefore, take the required precautionary measures for the same. In case of mining projects, we are required to provide a proper medical certification under the Medical Certificate Form 'O' as prescribed by DGMS. All employees are, thereby, sufficiently covered by Workman Compensation Insurance. We also provide the employees with necessary safety gadgets such as helmets, boots, and more.
- (8) Being a broad organisation with personnel in abundance, we have strong systems to ensure minimal dependence on any individual. Our operations may suffer a temporary setback if any of our key managerial personnel were to leave. Therefore, successful completion of projects is ensured by properly planning the delegation of work in a team.
- (9) SADBHAV uses a mix of debt and equity to finance its fund requirements as it needs substantial working capital and financing to meet the requirements of large scale operations. Over the years, we have built a healthy relationship with our lenders which consolidate the difficulty in the process of obtaining debt for our business needs.

External Risks: Risks that arise out of changes in the external environment are classified under this head. These are mostly outside our control: for example, changes in interest and exchange rates, increase in material cost, and various others. Our efforts have always been in taking proactive measures to mitigate these by creating sufficient barriers in the pricing, making suitable provisions in books, and providing insurance cover upon entering derivative transaction for hedging our obligation in foreign currencies.

Any further change in government policies, tax structure, geopolitical and political situation, and civil disturbances may have adverse effect on SEL's business. Mitigation of insurance coverage for natural risks (for example: adverse weather condition, fire, floods, and earthquakes) has been worked. A manifold competition from large national as well as international organisations and deviation from estimated traffic volume is also an area of concern for the Company.

This risk management exercise identifies risks, and also reduces risks to an acceptable level. Your Company has risk management policies to manage and overcome these risks to ensure smooth functioning of its business operations which are reviewed periodically by the Directors of the Company.

5. SEGMENT WISE PERFORMANCE

As on March 31, 2017 the Company has a reportable business segment of construction, engineering and infrastructure development on Stand Alone basis. A segment wise performance on consolidated basis is given in the note no. 55 to the consolidated financial statements.

6. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACIES

An internal control for business processes across departments is required to not only ensure efficient operations but to also comply with internal policies, applicable laws and regulations, protection of resources and assets as well as accurate reporting of the financial transactions. Aiding the effectively of this system of internal control is extensive internal audits, regular reviews by the management team and standard policies and guidelines to ensure the reliability of financial and all other records. Therefore, the ERP-SAP system of the company, which is already operative, was established. It connects all the project sites with the corporate office by providing real time information to the top management of the Company. Ideation to centralise the entire data process is being acted upon by Sadbhav Engineering Limited so as to assure transparency to each and every stakeholder of the Company.

Independent Auditor's Report

To, The Members of
Sadbhav Engineering Limited

Report on the Ind AS Standalone Financial Statements

We have audited the accompanying standalone financial statements of **Sadbhav Engineering Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2017, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and Statement of change in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and change in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS standalone financial statements based on our audit. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at 31st March, 2017, and its financial performance including other comprehensive income, its cash flows and change in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - (d) In our opinion, the aforesaid Ind AS standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

- (e) On the basis of the written representations received from the directors as on 31st March, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial control over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure-A"
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 43 (A) to the financial statements.
 - (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

Annexure - A

To the Independent Auditor's Report of Even Date on the Ind AS Financial Statements of Sadbhav Engineering Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Sadbhav Engineering Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial Reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

Our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

The financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

These financial statements are the company's first Ind AS financial statements.

The financial statements up to year ended March 31, 2016 were prepared in accordance with the Accounting standards notified under Companies (Accounting Standards) Rules, 2006 (previous GAAP) and other relevant provisions of the Act. Previous period numbers in the financial statements have been restated to Ind AS.

In accordance with Ind AS 101 First time Adoption of Indian Accounting Standard, the Company has presented reconciliations and explanations of the effects from Previous GAAP to Ind AS on financial position, financial performance and cash flows in the note no. 5.

2.2 Basis of measurement

The Financial Statements have been prepared on the historical cost basis except for the following items which are measured at fair values:

- certain financial assets and liabilities (including derivative instruments)
- defined benefit plans assets

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.3 Functional and presentation currency

Indian rupee is the functional and presentation currency.

2.4 Use of estimates

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions.

These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period.

Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements are:

- Revenue recognition of construction services based on percentage of completion method
- Useful lives of Property, plant and equipment
- Valuation of financial instruments
- Provisions and contingencies
- Income tax and deferred tax
- Measurement of defined employee benefit obligations

3. Significant Accounting Policies

3.1 Revenue Recognition

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

a. Contract revenue

When the outcome of a fixed price construction contract cannot be estimated reliably, contract revenue is recognized only to the extent of cost incurred that it is probable will be recoverable.

When the outcome of a fixed price contract is ascertained reliably, contract revenue is recognized by reference to the stage of completion of the contract activity at the end of the reporting period.

The outcome of a fixed price construction contract can be estimated reliably when total contract revenue can be measured reliably, it is probable that economic benefits associated with the contract will flow to the company, contract costs to complete the contract and stage of contract completion at the end of the reporting period can be measured reliably and contract cost attributable to the contract can be identified and measured reliably.

Percentage of completion is determined based on the survey of work performed at the end of each year. The effect of a change in the estimate of contract revenue or contract costs, or the effect of a change in the estimate of the outcome of a contract, is accounted for as a change in accounting estimate and the effect of which are recognized in the Statement of Profit and Loss in the period in which the change is made and in subsequent periods.

Contract revenue comprises the initial amount of revenue agreed in the contract, the variations in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and they are capable of being reliably measured. Contract revenue is measured at the fair value of the consideration received or receivable.

Contract cost associated with contract revenue is recognized as expense by reference to the stage of completion of the contract activity at the end of the reporting period. Contract cost comprises of cost that relate directly to the specific contract, cost that are attributable to contract activity in general and can be allocated to the contract and such other cost as are specifically chargeable to the customer under the terms of the contract.

An expected loss on construction contract is recognized as an expense immediately when it is certain that the total contract costs will exceed the total contract revenue.

b. Other income

i. Revenue from wind mill power generation

Revenue from wind mill power generation is recognized when the electricity is delivered to electricity Distribution Company at a common delivery point and the same is measured on the basis of meter reading.

ii. Interest income

Interest income is recognized using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through expected life of the financial asset to the gross carrying amount of the financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

iii. Dividend income

Dividend income is recognized when the right to receive dividend is established.

3.2 Property, Plant and Equipment

Property, Plant and Equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any.

The cost comprises the purchase price, borrowing cost if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequent expenditures relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the company and the cost of the item can be measured reliably.

All other expenses on existing fixed assets, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

For transition to Ind AS, the carrying value of Property Plant and Equipment under previous GAAP as on 01 April 2015 is regarded as its cost. The carrying value was original cost less accumulated depreciation and cumulative impairment.

Significant Accounting Policies & Notes on Accounts

Forming part of the Financial Statement

Property, Plant and Equipment not ready for the intended use on the date of the Balance Sheet are disclosed as "Assets not put to use".

Gains or losses arising from derecognition of fixed assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset at the time of disposal and are recognized in the statement of profit and loss when the asset is derecognized.

Depreciation is provided for all Property, Plant and Equipment except for vehicles on straight-line method and depreciation on vehicles is provided on written down value method as per the useful life prescribed in schedule II of the Companies Act, 2013.

Depreciation is provided for all Property, Plant and Equipment as per the useful life prescribed in the Schedule II of the Companies Act, 2013 except in respect of plant and machineries used other than in mining activity, where less useful life is considered than those prescribed in schedule II.

In respect of Property, Plant and Equipment purchased during the year, depreciation is provided on a pro-rata basis from the date on which such asset is ready to use. Assets costing less than rupees fifty thousand each are fully depreciated in the year of purchase.

The residual value, useful live and method of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.3 Intangible assets

An intangible asset is recognized, only where it is probable that future economic benefits attributable to the asset will accrue to the enterprise and the cost can be measured reliably.

Intangible assets are stated at cost, less accumulated amortization and impairment losses, if any.

Intangible assets not ready for the intended use on the date of the Balance Sheet are disclosed as intangible assets under development.

Intangible assets are amortized over their estimated useful life. The estimated useful life of the intangible assets and the amortization period are reviewed at the end of each financial year and the amortization method is revised to reflect the changed pattern. Software being Intangible Assets used at Head office and work-shop are amortized over a period of three years and software used at Project sites are amortized over the project completion period.

In respect of intangible assets acquired / purchased during the year, amortization is provided on a pro-rata basis from the date on which such asset is ready to use.

3.4 Financial Instruments

3.4.1 Initial recognition

The company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument.

All financial assets and liabilities are recognized at fair value on initial recognition.

Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to or deducted from the fair value of financial assets or financial liabilities on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in statement of profit or loss.

Regular way purchase and sale of financial assets are accounted for at trade date.

3.4.2 Subsequent measurement

a. Non-derivative financial instruments

i. Financial assets carried at amortized cost

A financial asset is subsequently measured at amortized cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Significant Accounting Policies & Notes on Accounts

Forming part of the Financial Statement

- ii. Financial assets at fair value through other comprehensive income
A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Company has made an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income based on its business model. For such equity instruments, the subsequent changes in fair value are recognized in other comprehensive income.

- iii. Financial assets at fair value through profit or loss
A financial asset which is not classified in any of the above categories is subsequently measured at fair valued through profit or loss.
- iv. Financial liabilities
Financial liabilities are subsequently carried at amortized cost using the effective interest method.
- v. Investments in subsidiaries, associates and joint ventures
Investments in subsidiaries, associates and joint ventures are carried at cost in the separate financial statements.
- b. **Derivative financial instruments**
The company holds certain derivative contracts such as cross currency interest rate swaps and forward contracts to hedge risks. These contracts do not qualify for hedge accounting under Ind AS 109, Financial Instruments. Hence these contracts are not designated as hedges and are accounted for at fair value through profit or loss.
- c. **Equity instruments**
An equity instrument is a contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Incremental costs directly attributable to the issuance of equity instruments are recognized as a deduction from equity instrument net of any tax effects.

3.4.3 De-recognition

The company de-recognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for de-recognition under Ind AS 109. A financial liability is de-recognized when obligation specified in the contract is discharged or cancelled or expires.

3.4.4 Off-setting

Financial assets and liabilities are offset and the net amount is presented in the balance sheet when the company currently has a legally enforceable right to offset the recognized amount and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

3.5 Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefit by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable and consists of the following three levels:

Level 1 – inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 – inputs are other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived prices)

Significant Accounting Policies & Notes on Accounts

Forming part of the Financial Statement

Level 3 – inputs are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part using a valuation model based on assumption that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

3.6 Income tax

Income tax expense comprises current tax, deferred tax and MAT Credit.

Current Tax

Current tax is recognized in statement of profit or loss.

Current tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

Current tax assets and current tax liabilities are offset, where company has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred Tax

Deferred tax is recognized in statement of profit or loss.

Deferred tax liabilities are recognized for all taxable temporary differences, except to the extent that the deferred tax liability arises from initial recognition of goodwill; or initial recognition of an asset or liability in a transaction which is not a business combination and at the time of transaction, affects neither accounting profit nor taxable profit or loss.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax losses and carry forward of unused tax credits to the extent that it is probable that taxable profit will be available against which those temporary differences, losses and tax credit can be utilized, except when deferred tax asset on deductible temporary differences arise from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit or loss.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the tax rules and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset, where company has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

MAT Credit

Minimum Alternate Tax (MAT) paid in a year is charged to statement of profit and loss as current Tax. The company recognizes MAT Credit available as an assets only when and to the extent that there is convincing evidence that the company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on "Accounting for Credit Available in respect of Minimum Alternative Tax under Income Tax Act, 1961", the said assets is created by way of credit to the statement of Profit and loss and shown as "Deferred Tax". The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the assets to the extent the company does not have convincing evidence that it will pay normal tax during the specified period.

3.7 Impairment

3.7.1 Financial assets other than investments in subsidiaries

The company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss.

Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL.

For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL.

The impairment loss allowance (or reversal) recognized during the period is recognized as income / expense in the statement of profit and loss.

Significant Accounting Policies & Notes on Accounts

Forming part of the Financial Statement

3.7.2 Financial assets - investments in subsidiaries

The company assesses at each reporting date whether there is an indication that an asset may be impaired.

If any indication exists the company estimates the asset's recoverable amount based on value in use.

To arrive at the value in use of the investment, the Company has used expected future cash flows of projects in subsidiaries which generally covering period of the concession agreement using long term growth rate applied to future cash flows.

In assessing value in use, the estimated future cash flows are discounted to their present.

Value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Where the carrying amount of an asset exceeds its value in use amount, the asset is considered impaired and is written down to its recoverable amount. The impairment loss is recognized in statement of profit and loss.

3.7.3 Non-financial assets - Tangible and intangible assets

The company assesses at each reporting date whether there is an indication that an asset may be impaired.

If any indication exists the company estimates the asset's recoverable amount.

An asset's recoverable amount is the higher of an assets net selling price and its value in use.

The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets.

Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The impairment loss is recognized in the statement of profit and loss.

In assessing value in use, the estimated future cash flows are discounted to their present.

value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

3.8 Borrowing costs

Borrowing cost includes interest and other costs that company has incurred in connection with the borrowing of funds.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

All other borrowing costs are expensed in the year they occur.

Investment income earned on temporary investment of specific borrowing pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

3.9 Employee Benefits

Contribution to "Defined Contribution Schemes" such as Provident Fund is charged to the statement of profit and loss account as incurred. Provident Fund contribution is made to the Government Administered Provident Fund. Company has no further obligation beyond this contribution charged in financial statement. The company recognizes contribution payable to the provident fund scheme as expenditure, when an employee renders the related service.

Company also provides for Retirement Benefits in the form of Gratuity. Such Benefits are provided for, based on valuation, as at the Balance Sheet date, made by independent actuaries. Company has taken Group Gratuity Policy of L.I.C. of India. Actuarial valuation is carried out using the projected unit credit method made at the end of each reporting date. Re-measurement of the net defined benefit liability (asset) comprise of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability / (asset)). Re-measurement is recognized in other comprehensive income and will not be reclassified to profit or loss in a subsequent period.

Significant Accounting Policies & Notes on Accounts

Forming part of the Financial Statement

Short term employee benefits including leave are recognized as an expense at the undiscounted amount in the statement of profit and loss account of the year in which the related services are rendered.

In respect of employee stock options, the excess of fair price on the date of grant over the exercise price is recognized as deferred compensation cost amortised over the vesting period.

3.10 Provisions

A provision is recognized when the company has a present obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

3.11 Contingent Liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

3.12 Contingent Asset

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company. The company does not recognize a contingent asset but discloses its existence in the financial statements.

3.13 Foreign Currency

a. Initial recognition

Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

b. Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

c. Exchange difference

The company accounts for exchange differences arising on translation / settlement of foreign currency monetary items as below:

i. Exchange differences arising from translation of long term foreign currency monetary items

- Long-term foreign currency monetary items recognized in the financial statements as on March 31, 2016 related to acquisition of a fixed asset are capitalized and depreciated over the remaining useful life of the asset.
- Other long-term foreign currency monetary items are accumulated in the "Foreign Currency Monetary Item Translation Difference Account" and amortized over the remaining life of the concerned monetary item.

ii. Exchange differences on other monetary items

All other exchange differences are recognized as income or as expenses in the year in which they arise.

3.14 Cash and cash equivalent

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank (including demand deposits) and in hand and short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.15 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Significant Accounting Policies & Notes on Accounts

Forming part of the Financial Statement

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

3.16 Inventories

Inventories are valued at lower of cost and net realizable value. Cost of materials is determined on first-in-first-out basis. Net realizable value is the estimated selling price less estimated cost necessary to make the sale.

3.17 Lease

Lease agreements where the risks and the rewards incident to ownership of an asset substantially vest with the lessor, are recognized as operating leases.

a) Company as lessee

Lease rents under operating leases are recognized in the statement of profit and loss on a straight-line basis.

b) Company as lessor

Assets given on operating lease are included in Property, Plant and Equipment. Lease income is recognized in the statement of profit and loss on a straight-line basis.

3.18 Segment Reporting

An operating segment is component of the company that engages in the business activity from which the company earns revenues and incurs expenses, for which discrete financial information is available and whose operating results are regularly reviewed by the chief operating decision maker, in deciding about resources to be allocated to the segment and assess its performance. The company's chief operating decision maker is the Chief Executive Officer and Managing Director.

Assets and liabilities that are directly attributable or allocable to segments are disclosed under each reportable segment. All other assets and liabilities are disclosed as un-allocable.

Revenue and expenses directly attributable to segments are reported under each reportable segment. All other expenses which are not attributable or allocable to segments have been disclosed as un-allocable expenses.

The company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the company as a whole.

3.19 Share based payment

The company recognizes share based compensation expenses in net profit using fair value in accordance with Ind AS 102, Share Based Payments, with a corresponding increase in equity. The expense is recognized over vesting period on a straight line basis.

Notes forming Part of the financial statements

4. Recent Accounting Pronouncements issued but not yet effective

In March 2017, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017, notifying amendments to Ind AS 7, 'Statement of cash flows'. These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB) to IAS 7, 'Statement of cash flows'. The amendments are applicable to the company from April 1, 2017.

"The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement."

5. Transition to Ind AS

These standalone financial statements of The Company for the year ended March 31, 2017 have been prepared in accordance with Ind AS. For the purposes of transition to Ind AS, the Company has followed the guidance prescribed in Ind AS 101 First Time Adoption of Indian Accounting Standards with April 01, 2015 as the transition date and Indian GAAP as the previous GAAP.

The transition to Ind AS has resulted in changes in presentation of the financial statements, disclosures in the notes thereto and accounting policies and principles. The accounting policies set out in Note 3 have been applied in preparing the standalone financial statements for the year ended March 31, 2017 and the comparative information.

5.1 First time adoption of IND AS

5.3 Notes to First time adoption of Ind AS

- (i) **Finance cost recognition on account of amortised cost of financial liability:**
The financial liability has been recognised at effective interest rate method under Ind AS. Under previous GAAP, the same is disclosed at transaction value.
- (ii) **MTM on derivative financial instruments:**
Under previous GAAP, net mark to market losses on derivative financial instruments as at the Balance Sheet date, were recognised in profit and loss, and the net gains, if any, were ignored. Under Ind AS, such derivative financial instruments are to be recognised at fair value and the movement is recognised in the statement of Profit & Loss.
- (iii) **Deferred Tax:**
The impact of transition adjustments together with Ind AS mandate of using balance sheet approach (against profit and loss approach in the previous GAAP) for computation of deferred taxes has resulted in charge to the Reserves, on the date of transition, with consequential impact to the statement of Profit and Loss account for the subsequent periods.

Notes forming Part of the financial statements

(iv) **Dividend:**

Under Ind AS Dividend to holder of equity instrument is recognized as a liability in the year in which the obligation to pay is established. Under previous GAAP dividend payable is recognized as liability in the year to which it relates.

(v) **Recognition of Actuarial Gain / Loss:**

Actuarial gains and losses are recognized in other comprehensive income as compared to being recognized in the statement of profit and loss under IGAAP.

(vi) **Interest Income:**

The financial asset has been recognised at effective interest rate method under Ind AS. Under previous GAAP, the same is disclosed at transaction value.

(vii) **Depreciation on Tangible Assets:**

Under previous GAAP, foreign currency loan liability shown net off risk covered under derivative deal.

- The Company had adopted an option under Para 46A of AS 11 under previous GAAP which the company has elected to continue as per para D13AA of Ind AS 101 'First time adoption Indian Accounting Standard'. Accordingly the exchange difference arising on reporting of long-term foreign currency monetary items, in so far as they relate to the acquisition of depreciable asset, is added or deducted from the cost of the asset and shall be amortised over the balance life of the asset. During the year company has added ₹ -148.49 Lakhs (₹ 637.07 Lakhs) to the capital asset towards such exchange differences. The unamortised amount of such exchange difference included into the carrying amount of asset is Rs 1687.82 Lakhs (₹ 1220.18 Lakhs).
- The Company has applied the different estimated useful lives as specified in Schedule II in respect of certain assets as disclosed in accounting policy on depreciation on the basis of working of machineries in very tough condition at project sites. In support of that Company has also taken an opinion of Chartered Engineer & Valuer regarding the different useful life. Accordingly the unamortised carrying value of those assets is being depreciated over the remaining useful life as adopted by the Company instead of useful life specified in the Schedule II, resulting in a higher depreciation of ₹ 845.71 lakhs (₹ 784.99 lakhs) charged to profit and loss account.
- Refer Note No. 49 for information on property, plant and equipment pledged as security.

As per Ind AS - 19 - "Employee Benefits", the disclosures of Employee Benefits is given as below:-

39.1 Defined Contribution Plans

Details of amount recognized as expenses during the year for the defined contribution plans.

Particulars	2016-2017	2015-2016
Contribution to Provident Funds	650.63	516.65
Contribution to ESIC	38.45	2.84
Total (Ref. Note No. 36)	689.08	519.49

39.2 Information about the characteristics of its defined benefit plans - Gratuity benefit plan.

The benefit is governed by the Payment of Gratuity Act, 1972. The Key features are as under:

Features of the defined benefit plan	Remarks
Benefit offered	15 / 26 × Salary × Duration of Service
Salary definition	Basic Salary including Dearness Allowance (if any)
Benefit ceiling	Benefit ceiling of ₹ 10,00,000 was applied
Vesting conditions	5 years of continuous service (Not applicable in case of death / disability)
Benefit eligibility	Upon Death or Resignation / Withdrawal or Retirement
Retirement age	58 years

39.3 The trustees are responsible for the governance of the plan. The day-to-day administration of the scheme is carried out by the trustees. It is the trustee's duty to look after assets on behalf of employees who are entitled to benefit from those assets at some future date. Investment of assets of fund is key responsibility of the trustees. The trustees must review investment performance regularly.

39.4 Risk to the Plan

Following are the risk to which the plan exposes the entity :

A Actuarial Risk:

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

Adverse Salary Growth Experience: Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

Variability in mortality rates: If actual mortality rates are higher than assumed mortality rate assumption then the Gratuity benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cash flow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

Notes forming Part of the financial statements

Variability in withdrawal rates: If actual withdrawal rates are higher than assumed withdrawal rate assumption then the Gratuity benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

B Investment Risk:

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

C Liquidity Risk:

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign / retire from the company there can be strain on the cash flows.

D Market Risk:

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate / government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

E Legislative Risk:

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/ regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognized immediately in the year when any such amendment is effective.

Limitation of method used for sensitivity analysis :

Sensitivity analysis produces the results by varying a single parameter & keeping all the other parameters unchanged. Sensitivity analysis fails to focus on the interrelationship between underlying parameters. Hence, the results may vary if two or more variables are changed. There are no changes from the previous period in the methods and assumptions used in preparing the sensitivity analysis.

39.13 Details of Asset- Liability Matching Strategy

There are no minimum funding requirements for a Gratuity benefits plan in India and there is no compulsion on the part of the Company to fully or partially pre-fund the liabilities under the Plan. The trustees of the plan have outsourced the investment management of the fund to an insurance company. The insurance company in turn manages these funds as per the mandate provided to them by the trustees and the asset allocation which is within the permissible limits prescribed in the insurance regulations. Due to the restrictions in the type of investments that can be held by the fund, it may not be possible to explicitly follow an asset-liability matching strategy to manage risk actively in a conventional fund.

Notes forming Part of the financial statements

45.2 The Fair value of Investments in Bonds and Debentures, NSCs, Long term Loans and advances, Bank Deposits with more than 12months maturities and earmarked balances approximate carrying value as the interest rate of the said instruments are at the prevailing market rate of interest.

The Fair value of current financial assets and current trade and other payables measured at amortised cost are considered to be the same as their carrying amount because they are of short term nature.

The carrying amount of financial assets and financial liabilities (other than borrowed funds) measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

The fair value of Borrowed Funds approximate carrying value as the interest rate of the said instruments are at the prevailing market rate of interest.

45.3 Refer Note 49 for information on financial asset pledged as security.

46.2 There are no transfer between level 1 and level 2 during the year.

46.3 The company policy is to recognise transfers into and transfer out of fair values hierarchy levels as at the end of the reporting period.

46.4 Valuation technique and inputs used to determine fair value in level 2.

The Company enters into derivative financial instruments with Bank. Interest rate swaps, option contract are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques includes forward pricing and swap models, using present value calculations. The modes incorporate various inputs include currency spot rate, risk free interest rate of respective currency, currency volatility and interest rate curves. The derivative instrument fair value using marked-to-market valuation as at March 31, 2017.

The cost of investments in equity instruments approximates fair value because there is a range of possible fair value measurements and the cost represents estimate of fair value within that range.

47 Financial Risk Management

47.1 Financial Instruments Risk management objectives and Policies

The Company's principal financial liabilities comprise borrowings and trade & other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's principal financial

Notes forming Part of the financial statements

assets include Investments, trade & other receivables and cash and bank balance that derive directly from its operations.

The Company's activities expose it to market risk, credit risk and liquidity risk. In order to minimise any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign currency option contracts are entered to hedge certain foreign currency exposures and interest rate swaps to hedge certain variable interest rate exposures. Derivatives are used exclusively for hedging purposes and not as trading / speculative instruments.

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Risk management systems are reviewed periodically to reflect changes in market conditions and the Company's activities. The Board of Directors oversee compliance with the Company's risk management policies and procedures, and reviews the risk management framework.

47.2 Market Risk

The market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. Financial instruments affected by market risk include borrowings, Investments, other receivables, trade and other payables and derivative financial instruments.

Within the various methodologies to analyse and manage risk, Company has implemented a system based on "sensitivity analysis" on symmetric basis. This tool enables the risk managers to identify the risk position of the entities. Sensitivity analysis provides an approximate quantification of the exposure in the event that certain specified parameters were to be met under a specific set of assumptions. The risk estimates provided here assume:

- a parallel shift of 100-basis points of the interest rate yield curves in all currencies. The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and provisions.
- a simultaneous, parallel foreign exchange rates shift in which the INR appreciates / depreciates against all currencies by 2%

The potential economic impact, due to these assumptions, is based on the occurrence of adverse / inverse market conditions and reflects estimated changes resulting from the sensitivity analysis. Actual results that are included in the Statement of profit & loss may differ materially from these estimates due to actual developments in the global financial markets.

The following assumption has been made in calculating the sensitivity analyses:

- The sensitivity of the relevant statement of profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2017, March 31, 2016 and April 1, 2015.

47.3 Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company transacts business in local currency and in foreign currency, primarily in USD. The Company has obtained foreign currency loans and is, therefore, exposed to foreign exchange risk. The Company may use foreign exchange options towards hedging risk resulting from changes and fluctuations in foreign currency exchange rate. These foreign exchange contracts, carried at fair value, may have varying maturities varying depending upon the primary host contract requirements and risk management strategy of the company.

The Company manages its foreign currency risk by hedging appropriate percentage of its foreign currency exposure, as approved by Board as per established risk management policy.

The Company's exposure to Foreign Currency Risk is as follows:

(₹ in Lakhs)

Particulars	Currency	March 31, 2017	March 31, 2016	April 01, 2015
ECB Loans	USD	89.56	132.67	210.78
	Equivalent INR	5,806.66	8,800.17	13,169.28

47.4 Interest Rate Risk

Interest rate risk arises from the sensitivity of financial assets and liabilities to changes in market rates of interest. The Company seeks to mitigate such risk by entering into interest rate derivative financial instruments such as interest rate swaps. Interest rate swap agreements are used to adjust the proportion of total debt, that are subject to variable and fixed interest rates.

Under an interest rate swap agreement, the Company either agrees to pay an amount equal to a specified fixed-rate of interest times a notional principal amount, and to receive in return an amount equal to a specified variable-rate of interest times the same notional principal amount or, vice-versa, to receive a fixed-rate amount and to pay a variable-rate amount. The notional amounts of the contracts are not exchanged. No other cash payments are made unless the agreement is terminated prior to maturity, in which case the amount paid or received in settlement is established by agreement at the time of termination, and usually represents the net present value, at current rates of interest, of the remaining obligations to exchange payments under the terms of the contract.

47.5 Liquidity Risk

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys cash management system. It maintains adequate sources of financing including debt at an optimised cost.

47.6 Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Credit risk encompasses both, the direct risk of default and the risk of deterioration of credit worthiness.

Credit risk arises primarily from financial assets such as trade and other receivables, Loans and advances, cash and cash equivalent and other balances with banks.

Credit risk on cash and cash equivalents is limited as company deposits with the banks.

The company generally gives loans and advances to its subsidiaries and employees. Hence, the management believes that the company is not exposed to any credit risk in respect of such loans and advances.

In respect of trade receivables, credit risk is being managed by the company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the company grants credit terms in the normal course of business. All trade receivables are also reviewed and assessed for default on a regular basis.

The maximum exposure to the credit risk at the reporting date is primarily from trade receivables as on March 31, 2017 - ₹ 170097.77 Lakhs, as on March 31, 2016 - ₹ 103724.73 Lakhs and as on April 01, 2016 - ₹ 93601.59086 Lakhs.

48 Capital Management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other reserves attributable to the equity holders of the Company.

The Company's objective for capital management is to maximize shareholder value and safeguard business continuity.

The Company determines the capital requirement based on annual operating plans and other strategic plans. The funding requirements are met through equity and operating cash flows generated.

Independent Auditors' Report on the Consolidated Financial Statements

To the Members of
Sadbhav Engineering Limited

Report on the Consolidated Ind AS Financial Statements

We have audited the accompanying consolidated Ind AS financial statements of Sadbhav Engineering Limited (hereinafter referred to as "the Holding Company"), its subsidiaries and its step-down subsidiaries (the Holding Company, its subsidiaries and its step-down subsidiaries together referred to as "the Group"), comprising of the consolidated Balance Sheet as at March 31, 2017, the consolidated Statement of Profit and Loss (including other comprehensive income), consolidated Cash Flow Statement, the consolidated statement of Change in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as 'the Consolidated Ind AS Financial Statements').

Management's Responsibility for the Consolidated Ind AS Financial Statements

The Holding Company's Board of Directors is responsible for the preparation of these consolidated Ind AS financial statements in terms with the requirement of the Companies Act, 2013 ("the Act") that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows and the consolidated statement of Change in Equity of the Group in accordance with accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The respective Board of Directors of the Companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial control that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated Ind AS financial statements by the Directors of the Holding Company, as aforesaid.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated Ind AS financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India, as specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated Ind AS financial statements. We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the consolidated state of affairs of the Group as at March 31, 2017, their consolidated loss including other comprehensive income and their consolidated cash flows and the consolidated statement of change in equity for the year ended on that date.

Emphasis of Matter

We draw attention to Note No. 64 of the consolidated Ind AS financial statements in respect of accounting of Intangible Asset/ Intangible Asset under development of ₹ 18,830.90 Lakhs (31 March 2016: ₹ 17,405.70 Lakhs) under the Service Concession Arrangement of Maharashtra Border Check Post Network Limited, a step-down subsidiary company, based upon the recommendation made by the project lenders' engineer and technical experts appointed by the project authorities. Pending final approval by the Government of Maharashtra, no further cost adjustments are considered necessary in these financial statements.

Our opinion is not qualified in respect of this matter.

Report on Other Legal and Regulatory Requirements

As required by section 143 (3) of the Act, based on our audit and on the consideration of report of the other auditors on separate Ind AS financial statements and the other financial information of subsidiaries, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

- (a) We / the other auditors whose reports we have relied upon, have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated Ind AS financial statements;

Annexure-1 to the Independent Auditors' Report on the Consolidated Financial Statements

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

To,
The Members of **Sadbhav Engineering Limited**

In conjunction with our audit of the consolidated Ind AS financial statements of Sadbhav Engineering Limited as of and for the year ended March 31, 2017, we have audited the internal financial controls over financial reporting of Sadbhav Engineering Limited (hereinafter referred to as the "Holding Company"), its subsidiaries and its step-down subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the of the Holding Company, its subsidiaries and its step-down subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures

selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies and its step-down subsidiary companies which are companies incorporated in India, have, maintained in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting of the Holding Company, insofar as it relates to these two subsidiary companies and eleven step-down subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiary companies incorporated in India.

Company also establish, maintain, operate, lease or transfer the above infrastructure facilities on BOT, BOLT and BOOT basis. Company is also engaged in business of energy generation through Wind Power Project.

Sadbhav Infrastructure Project Limited (SIPL), subsidiary company, is engaged in development, construction as well as operation & maintenance of infrastructure projects and related consulting and advisory services. SIPL undertakes infrastructure development projects directly or indirectly through Special Purpose Vehicles (SPVs) as per the concession agreements.

Mysore Bellary Highway Projects Limited (MBHPL), subsidiary company and all other step down subsidiaries are the Special Purpose Vehicles (SPVs) incorporated to undertake the specific project.

The Consolidated Financial Statements comprise of financial statements of Sadbhav Engineering Limited ('the Company' or 'SEL'), its subsidiaries and step-down subsidiaries (collectively, 'the Group') for the year ended March 31, 2017. The Company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognized stock exchanges in India. The registered office of the Company is located at "Sadbhav House", Opp. Law Garden Police Chawki, Ellisbridge, Ahmedabad-380006.

The Group undertakes road and other infrastructure development projects directly or indirectly through Special Purpose Vehicles (SPVs) as per the concession agreements..

The consolidated financial statements were authorized for issue in accordance with a resolution of the directors on May 29, 2017.

During the year, one of subsidiary, Sadbhav Infrastructure project Ltd. ('SIPL') has sort clarification from Reserve Bank of India with regards to applicability of Systematically Important Core Investment Companies (Reserve Bank) Directions, 2011. The clarification is still awaited as at reporting date, however, the management believe that SIPL is not required to be registered with Reserve Bank of India as on March 31, 2017 based on eligibility criteria mentioned in the Systematically Important Core Investment Companies (Reserve Bank) Directions, 2011.

2. Basis of preparation

2.1 The financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended thereafter.

For all period up to and including the year ended March 31, 2016, the Group has prepared its financial statement in accordance with the Accounting standards specified in Section 133 of the Companies Act, 2013, read with paragraph 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as "Indian GAAP") and other relevant provision of the Act. These financial statements for the year ended March 31, 2017 are the first financial statements that the Group has prepared in accordance with Ind AS. Refer to note 52 for information on how the Group adopted Ind AS.

The Consolidated financial statements have been prepared on a historical cost basis, except:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments),
- Derivative financial instruments measured at fair value; and
- Defined benefit plans – Plan Assets measured at fair value

The Consolidated financial statements are presented in Indian Rupee ('INR') which is also the Group's functional currency and all values are rounded to the nearest Lakhs (INR 00,000), except when otherwise indicated.

2.2 Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31 March 2017. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has;

Notes on Accounts forming part of Consolidated Financial Statements

- Power over the investee (i.e. existing rights that give it the current liability to direct the relevant activities of investee)
 - Exposure, or rights to variable returns from its involvement with the investee; and
 - The ability to use its power over the investee to affect its returns
- Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:
- The Contractual arrangement with the other vote holders of the investee
 - Rights arising from other contractual arrangements
 - The Group's voting rights and potential voting rights
 - The size of the Group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed off during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

The financial statements of each of the subsidiaries used for the purpose of consolidation are drawn up to same reporting date as that of the Company, i.e. year ended on 31 March.

Consolidation Procedure:

- i. Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
- ii. Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- iii. Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and fixed assets, are eliminated in full, except as stated in point iv. Intragroup losses may indicate an impairment that requires recognition in the consolidated financial Statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.
- iv. The Build, Operate & Transfer (BOT)/ Design, Build, Finance, Operate & Transfer (DBFOT) contracts are governed by service concession agreements with government authorities (Grantor). Under these agreements, the operator (Group Companies) which are Special Purpose Vehicles, does not own the Infrastructure assets, but gets toll collection/service fee rights against the construction services rendered. Since the construction revenue earned by the Group companies is considered as exchanged with the grantor against toll collection/service fee rights, profit from such contracts is considered as realised. Accordingly, the intra group transactions on BOT/DBFOT contracts and the profits arising thereon are taken as realised and not eliminated.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flow relating to transactions between members of the Group are eliminated in full on consolidation.

When the Group loses control over a subsidiary, it derecognized the assets and liabilities of the subsidiary, and any related non-controlling interest and other components of equity. Any interest retained in the form of subsidiary is measured at the fair value at the date of the control is lost. Any resulting gain or loss is recognized in statement of profit & loss account.

- v. The following entities are considered in the Consolidated Financial Statements as well as the Company's voting power in entities listed below:

3. Summary of significant accounting policies

3.1 Business Combination and goodwill

In accordance with Ind AS 101 provisions related to first time adoption, the Group has exercised exemption and elected not to apply Ind AS accounting for business combinations retrospectively.

The excess of cost to the group of its investments in subsidiary companies over its share of the equity of the subsidiary companies at the dates on which the investments in the subsidiary companies are made, is recognized as 'Goodwill' being an asset in the Consolidated Financial Statements. This Goodwill is tested for impairment at the close of each financial year. Alternatively, where the share of equity in the subsidiary companies as on the date of investment is in excess of cost of investment of the group it is recognized as 'Capital Reserve' and shown under the head 'Reserves and Surplus', in the consolidated financial statements.

3.2 Current versus non-current classification

The Group presents assets and liabilities in the Balance Sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Notes on Accounts forming part of Consolidated Financial Statements

Operating cycle

Operating cycle for the business activities of the company covers the duration of the specific projects/contract/product line/service including the defect liability period wherever applicable and extends up to the realization of receivables (including retention monies) within the agreed credit period normally applicable to the respective lines of business

3.3 Foreign currency transactions:

The Group's consolidated financial statements are presented in INR, which is also the parent company's functional currency.

Transaction and balances

Foreign currency transactions are recorded in the functional currency, by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Differences arising on settlement of such transaction and on translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rate are recognised in profit or loss with the exception of the following:

- Long-term foreign currency monetary items related to acquisition of a fixed asset are capitalized and depreciated over the remaining useful life of the asset.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

3.4 Right arising from service concession arrangement

The Group builds infrastructure assets under public-to-private Concession Arrangements which it operates and maintains for periods specified in the Concession Arrangements.

Under the Concession Agreements, where the Group has received the right to charge users of the public service, such rights are recognised and classified as "Intangible Assets" in accordance with Appendix A to Ind AS 11. Such right is not an unconditional right to receive consideration because the amounts are contingent to the extent that the public uses the service and thus are recognised and classified as intangible assets. Such an intangible asset is recognised by the Group at cost (which is the fair value of the consideration received or receivable for the construction services delivered) and is capitalized when the project is complete in all respects and when the subsidiary companies receives the completion certificate from the authority as specified in the Concession Agreement and in case of MBCPNL (entity operating multiple border checkposts in the state of Maharashtra), each check post is capitalised when the MBCPNL receives completion certificate from the authority. The economics of the project is for the entire length of the road / infrastructure as per the bidding submitted by the Group companies.

Under the Concession Agreements, where the Group has acquired contractual rights to receive specified determinable amounts, such rights are recognised and classified as "Receivable under service concession arrangement" under financial assets.

Premium Capitalization

Under some of the concession agreements, the Group has contractual obligation to pay premium (concession fees) to National Highway Authority of India ("NHAI"), Grantor, over the concession period. Such obligation has been recognised upfront on an discounted basis when the project gets completed as per the Concession Agreements as 'Intangible assets – Toll Collection Right' and corresponding obligation for committed premium is recognised as liabilities.

Amortization

The intangible rights which are recognised in the form of right to charge users of the infrastructure asset are amortized by taking proportionate of actual revenue received for the year over Total Projected Revenue from project to Cost of Intangible assets i.e. proportionate of actual revenue earned for the year over Total Projected Revenue from the Intangible assets expected to be earned over the balance concession period as estimated by the management.

As required, total Projected Revenue reviewed by the management at the end of the each financial year and accordingly, the total projected revenue is adjusted to reflect any changes in the estimates which lead to the actual collection at the end of the concession period.

3.5 Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration

Notes on Accounts forming part of Consolidated Financial Statements

received or receivable, taking into account contractually defined terms of payment and excluding taxes or duties collected on behalf of the government.

The specific recognition criteria described below must also be met before revenue is recognized.

Toll collection and user fee income

The revenue is recognized in the period of collection which generally coincide as and when the traffic passes through toll – plazas.

Annuity income

Revenue from annuity based projects is recognised in the Statement of Profit and Loss over the concession period of the respective projects based on the implicit rate of return embedded in the projected cash flows. Such income is duly adjusted for any variation in the amount and timing of the cash flows in the period in which such variation occurs.

Contractual Income:

When the outcome of a fixed price construction contract cannot be estimated reliably, contract revenue is recognized only to the extent of cost incurred that it is probable will be recoverable.

When the outcome of a fixed price contract is ascertained reliably, contract revenue is recognized by reference to the stage of completion of the contract activity at the end of the reporting period.

The outcome of a fixed price construction contract can be estimated reliably when total contract revenue can be measured reliably, it is probable that economic benefits associated with the contract will flow to the company, contract costs to complete the contract and stage of contract completion at the end of the reporting period can be measured reliably and contract cost attributable to the contract can be identified and measured reliably.

Percentage of completion is determined based on the survey of work performed at the end of each year. The effect of a change in the estimate of contract revenue or contract costs, or the effect of a change in the estimate of the outcome of a contract, is accounted for as a change in accounting estimate and the effect of which are recognized in the Statement of Profit and Loss in the period in which the change is made and in subsequent periods.

Contract revenue comprises the initial amount of revenue agreed in the contract, the variations in contract work, claims and incentive payments to the extent that it is probable that they will result in revenue and they are capable of being reliably measured. Contract revenue is measured at the fair value of the consideration received or receivable.

Contract cost associated with contract revenue is recognized as expense by reference to the stage of completion of the contract activity at the end of the reporting period. Contract cost comprises of cost that relate directly to the specific contract, cost that are attributable to contract activity in general and can be allocated to the contract and such other cost as are specifically chargeable to the customer under the terms of the contract.

An expected loss on construction contract is recognized as an expense immediately when it is certain that the total contract costs will exceed the total contract revenue.

Contract revenue and costs associated with project related activities are accrued and recognized by reference to the stage of completion of the projects at the reporting date. The stage of completion of a project is determined by the proportion that the contract cost incurred for work performed up to the reporting date bears to the estimated total contract costs.

Any excess revenue recognized in accordance with the stage of completion of the project, in comparison to the amounts billed to the clients in accordance with the milestones completed as per the respective project, is accrued as "Unearned Revenue".

Any short revenue recognized in accordance with the stage of completion of the project, in comparison to the amounts billed to the clients in accordance with the milestones completed as per the respective project, is carried forward as "Unbilled Revenue".

Income from sale of services:

Revenue in respect of arrangements made for rendering services over specific contractual term is recognized on the contractual term of the arrangement. Service tax collected on behalf of the government is not an economic benefit flowing to the Group. Hence, it is excluded from revenue.

Notes on Accounts forming part of Consolidated Financial Statements

Revenue from wind mill power generation

Revenue from wind mill power generation is recognized when the electricity is delivered to electricity Distribution Company at a common delivery point and the same is measured on the basis of meter reading

Interest

For all debt instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

Dividend

Income from dividend on investments is accrued in the year in which it is declared, whereby right to receive is established.

3.6 Property, Plant and Equipments:

Property, Plant and Equipments are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost comprise the purchase price, borrowing costs if the recognition criteria are met and directly attributable cost of bringing the assets to its working condition for its intended use. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives.

All other expenses on existing property plant and equipment, including day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

De-recognition

An item of property, plant and equipments is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is de-recognised.

Depreciation

For transition to Ind AS, the carrying value of Property Plant and Equipment under previous GAAP as on 01 April 2015 is regarded as its cost. The carrying value was original cost less accumulated depreciation and cumulative impairment.

Property, Plant and Equipment not ready for the intended use on the date of the Balance Sheet are disclosed as "Assets not put to use".

Depreciation is provided for all Property, Plant and Equipment except for vehicles on straight-line method and depreciation on vehicles is provided on written down value method as per the useful life prescribed in schedule II of the Companies Act, 2013.

Depreciation is provided for all Property, Plant and Equipment as per the useful life prescribed in the Schedule II of the Companies Act, 2013 except in respect of plant and machineries used other than in mining activity, where less useful life is considered than those prescribed in schedule II.

Depreciation on Property, Plant and Equipments is provided on the written down value method basis over useful lives of the assets as prescribed under Part C of Schedule II to the Companies Act, 2013. When parts of an item of property, plant and equipment have different useful life, they are accounted for as separate items (Major Components) and are depreciated over their useful life or over the remaining useful life of the principal assets whichever is less.

In case of AJTWL, ARRIL, RPTPL, DPTL depreciation on Property, Plant and Equipment is amortized on straight line basis, from the date on which such asset is ready for use, till the end of concession period.

Depreciation for assets purchased/sold during a period is proportionately charged for the period of use.

The residual value, useful live and method of depreciation of Property, Plant and Equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Notes on Accounts forming part of Consolidated Financial Statements

3.7 Intangible assets:

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, Intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Amortisation

Software is amortized over management estimate of its useful life of 3-6 years.

Intangible assets under development

Expenditure related to and incurred during implementation of project are included under "Intangible Assets under Development". The same will be transferred to the respective intangible assets on completion of project.

3.8 Impairment – Non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists the group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. The recoverable amount is determined for an individual asset which is based on the discounting of estimated future cash flows to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. The impairment loss is recognized in the statement of profit and loss.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Group bases its impairment calculation on detailed budgets and forecasts calculation (DCF method). These budgets and forecast calculations are generally covering a period of the concession agreements using long terms growth rates applied to future cash flows.

Intangible assets with indefinite useful lives are tested for impairment annually as and when circumstances indicate that the carrying value may be impaired and charges to statement of profit and loss accounts.

3.9 Investment Property

Investment Property is measured initially at cost including related transaction costs. Such cost comprises the purchase price, borrowing cost if capitalization criteria are met. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. All day-to-day repair and maintenance expenditure are charged to the statement of profit and loss for the period during which such expenses are incurred.

An investment property is de-recognised on disposal or on permanently withdrawal from use or when no future economic benefits are expected from its disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference

Notes on Accounts forming part of Consolidated Financial Statements

between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is de-recognised.

3.10 Inventory

Project Inventories are valued at lower of cost and net realizable value. Cost comprise all cost of purchase, and other costs incurred in bringing the inventories to their present location and condition. Cost of materials is determined on first-in-first-out basis. Net realizable value is the estimated selling price less estimated cost necessary to make the sale.

3.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. Investment income earned on temporary investment of specific borrowing pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are expensed in the year they occur. Borrowing cost consist of interest and other costs that Group incurs in connection with the borrowing of funds as defined in Indian Accounting Standard 23 – Borrowing Cost.

3.12 Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is assessed for whether fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Group as lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Group is classified as a finance lease. An operating lease is a lease other than a finance lease.

Operating lease payments are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term except the case where incremental lease reflects inflationary effect and lease expense is accounted in such case by actual rent for the period.

3.13 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial assets

i. Initial recognition and measurement of financial assets

All financial assets are recognized initially at fair value. Transaction costs that are directly attributable to the acquisition of financial assets that are not at fair value through profit or loss are added to the fair value on initial recognition.

ii. Subsequent measurement of financial assets

For purposes of subsequent measurement, financial assets are classified in below categories:

- Financial assets at amortized cost
- Financial assets at fair value through profit or loss (FVTPL)

• Financial assets at amortized cost :

A financial asset is measured at amortized cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

• Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the above conditions mentioned in "Financial assets at amortised cost" are met. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss.

• Financial assets at fair value through profit or loss:

FVTPL is a residual category for financial assets. Any financial asset which does not meet the criteria for categorization as at amortized cost or as FVTOCI is classified as at FVTPL.

Notes on Accounts forming part of Consolidated Financial Statements

iii. De-recognition of financial assets

A financial asset is de-recognized when the contractual rights to the cash flows from the financial asset expire or the Group has transferred its contractual rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

iv. Impairment of financial assets

The Group recognizes loss allowances using the expected credit loss (ECL) model for the financial assets. Expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in profit or loss.

b) Financial Liabilities

i. Initial recognition and measurement of financial liabilities

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts

All financial liabilities are recognised initially at fair value, in case of loan and borrowings and payables, fair value is reduced by directly attributable transaction costs.

ii. Subsequent measurement of financial liabilities

The measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss (FVTPL).

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses on changes in fair value of such liability are recognised in the statement of profit or loss.

- **Loans and Borrowings**

After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to borrowings.

- **Financial guarantee contracts**

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognised initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirements of Ind AS 109 and the amount recognised less cumulative amortisation.

Notes on Accounts forming part of Consolidated Financial Statements

iii. Derecognition of financial liabilities

A financial liability (or a part of a financial liability) is derecognised from its balance sheet when the obligation specified in the contract is discharged or cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

c) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if the Group currently has enforceable legal right to offset the re-ognised amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

d) Derivative financial instruments

The Group uses derivative financial instruments, such as options and interest rate swaps, to hedge its foreign currency risks and interest rate risks. These derivative contracts does not qualify for hedge accounting under Ind AS 109, financial instrument and are initially recognized at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

3.14 Fair Value Measurement

The Group measures financial instruments such as derivatives and Investment in Mutual Fund at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefit by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market price in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Group's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments

Notes on Accounts forming part of Consolidated Financial Statements

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable on yearly basis.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

3.15 Employee Benefits

a) Short Term Employee Benefits

All employee benefits expected to be settled wholly within 12 months after the end of the reporting period are classified as short term benefits. Such benefits include salaries, wages, bonus, short term compensation etc. and the same are recognized as an expense in the statement of profit and loss in the period in which the employee renders the related services.

b) Post-Employment Benefits

(i) Defined contribution plan

The Group's approved provident fund scheme is defined contribution plans. The Group has no obligation, other than the contribution paid/payable to the provident fund. The Group recognize contribution paid/payable under the provident fund is charged to statement of profit & loss account during the period in which the employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid.

(ii) Defined benefit plan

Company also provides for Retirement Benefits in the form of Gratuity. Such Benefits are provided for, based on valuation, as at the Balance Sheet date, made by independent actuaries. Company has taken Group Gratuity Policy of L.I.C. of India. Actuarial valuation is carried out using the projected unit credit method made at the end of each reporting date. Re-measurement of the net defined benefit liability (asset) comprise of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset) and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability / (asset)). Re-measurement is recognized in other comprehensive income and will not be reclassified to profit or loss in a subsequent period.

Short term employee benefits including leave are recognized as an expense at the undiscounted amount in the profit and loss account of the year in which the related services are rendered.

In respect of employee stock options, the excess of fair price on the date of grant over the exercise price is recognized as deferred compensation cost amortised over the vesting period.

The employee's gratuity scheme is a defined benefit plan. The present value of the obligation under such defined benefit plans is measured based on the actuarial valuation using the Projected Unit Credit Method as at the end of each financial year. Obligation is measured at the present value of estimated future cash flows using discounted rate that is determined by reference to market yields at the balance sheet date on Government Securities where the currency and terms of the Government Securities are consistent with the currency and estimated terms of the defined benefit obligation.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income (OCI) in the period in which they occur. Re-measurements are not reclassified to Statement of Profit and Loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation as an expense in the Statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Notes on Accounts forming part of Consolidated Financial Statements

c) Other employment benefits:

The employee's compensated absences, which is expected to be utilized or encashed within the next 12 months, is treated as short-term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as result of the unused entitlement that has accumulated at the reporting date.

3.16 Government grants

Government grants are recognized where there is reasonable assurance that grant will be received and all attached conditions will be complied with. When the grant relates to an expense item. It is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an assets, it is recognised as income in equal amounts over the expected useful life of the related assets.

3.17 Income tax

Income tax expense comprises current tax and deferred tax.

Current Tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with Income tax 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current income tax are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred Tax

Deferred tax is provided using the balance sheet approach. Deferred tax is recognized on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences excepts when the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that affects neither the accounting profit nor taxable profit or loss.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax losses and carry forward of unused tax credits to the extent that it is probable that taxable profit will be available against which those temporary differences, losses and tax credit can be utilized excepts when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that affects neither the accounting profit nor taxable profit or loss.

As per provision of Income tax Act 1961, the Company's subsidiaries are eligible for a tax holiday under section 80IA for a block of 10 consecutive assessment year out of 20 year beginning of toll operation. Accordingly, no deferred tax (assets or liabilities) is recognized in respect of temporary difference which reverse during tax holiday period, to the extent such gross total income is subject to the deduction during the tax holiday period. Deferred tax in respect of timing difference which is reverse after the tax holiday period is recognised in the year in which the timing difference originate. However, the Group restricts recognition of deferred tax assets to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. For recognition of deferred tax, the timing difference which originate first are considered to reverse first.

The carrying amount of deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the tax rules and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset, where Group has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Notes on Accounts forming part of Consolidated Financial Statements

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

MAT CREDIT

The Group recognizes tax credits in the nature of Minimum Alternate Tax (MAT) credit as an asset only to the extent that there is sufficient taxable temporary difference /convincing evidence that the Group will pay normal income tax during the specified period, i.e., the period for which tax credit is allowed to be carried forward. In the year in which the Group recognizes tax credits as an asset, the said asset is created by way of tax credit to the statement of profit and loss. The Group reviews such tax credit asset at each reporting date and writes down the asset to the extent The Group does not have sufficient taxable temporary difference /convincing evidence that it will pay normal tax during the specified period. Deferred tax includes MAT tax credit.

Minimum Alternate Tax (MAT) paid in a year is charged to statement of profit and loss as current Tax. The company recognizes MAT Credit available as an assets only when and to the extent that there is convincing evidence that the company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognizes MAT credit as an asset in accordance with the Guidance Note on "Accounting for Credit Available in respect of Minimum Alternative Tax under Income Tax Act , 1961" , the said assets is created by way of credit to the statement of Profit and loss and shown as "Deferred Tax". The Company reviews the "MAT credit entitlement" asset at each reporting date and writes down the assets to the extent the company does not have convincing evidence that it will pay normal tax during the specified period

3.18 Provisions

General

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit or loss, net of reimbursements, if any.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provision are reviewed at each balance sheet and adjusted to reflect the current best estimates.

Contractual obligation to restore the infrastructure to a specified level of serviceability

The Group has contractual obligations to maintain the road / infrastructure to a specified level of serviceability or restore the road / infrastructure to a specified condition before it is handed over to the grantor of the Concession Agreements. Such obligations are measured at the best estimate of the expenditure that would be required to settle the obligation at the balance sheet date. In case of intangible assets, the timing and amount of such cost are estimated and determined by estimated cash flows, expected to be incurred in the year of overlay. Such costs are recognised by charging it to revenue on the basis of units of usage method i.e. on the number of vehicles expected to use the project facility, over the period at the end of which the overlay is estimated to be carried out based on management estimates.

3.19 Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Group does not recognize a contingent liability but discloses its existence in the financial statements. Contingent liabilities are reviewed at each balance sheet date.

3.20 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with on original maturity of three months or less, which is subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consists of cash and short term deposits, as defined above, net of outstanding bank overdrafts as they are considered as integral part of the Group's cash management.

3.21 Cash dividend to equity holders of the Company

The Group recognises a liability to make cash or non-cash distributions to equity holders of the parent when the distribution

Notes on Accounts forming part of Consolidated Financial Statements

is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

3.22 Earnings per share

Basic EPS is calculated by dividing the profit / loss for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the profit / loss attributable to equity holders by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

3.23 Segment reporting

Based on management approach as defined in Indian Accounting Standard 108 – Operating Segment, Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker for evaluation of Group's performance.

4. Significant accounting judgements, estimates and assumption

The preparation of the Group's financial statements requires management to make estimates, judgments and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities and the accompanying disclosure, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Revenue and expenses of construction contracts

As described in Note 3.5, Revenue recognition using the percentage-of-completion method which involves the use of estimates of certain key elements of the construction contracts, such as total estimated contract costs, allowances or provisions related to the contract, period of execution of the contract and recoverability of the claims. As far as practicable, the Group applies past experience in estimating the main elements of construction contracts and relies on objective data such as physical inspections or third parties confirmations. Nevertheless, given the highly tailored characteristics of the construction contracts, most of the estimates are unique to the specific facts and circumstances of each contract.

Although estimates on construction contracts are periodically reviewed on an individual basis, we exercise significant judgments and not all possible risks can be specifically quantified.

Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the credits can be utilised. Significant management judgment is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget generally covering a period of the concession agreements using long terms growth rates and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Notes on Accounts forming part of Consolidated Financial Statements

Property, plant and equipment

Refer Note 3.6 for the estimated useful life of Property, plant and equipment. The carrying value of Property, plant and equipment has been disclosed in Note 5.

Service concession arrangement

The Cash flow model indicates the cash flow to be generated over the project lifecycle. The key inputs of the model comprise of revenue inflows (Toll / annuity), expenses to incurred to earn the revenue, estimations on cost to build and maintain the asset, interest obligations based on financing pattern and other operational efficiencies. These inputs are based on circumstances existing and management judgement / assumption on the future expectations based on current situations. Judgements include management view on expected earnings in future years, changes in interest rates, cost inflation, government policy changes, etc. These input assumptions could affect the reported cash flow from the related assets and accordingly these assumptions are reviewed periodically.

Amortization of Intangible Assets

The intangible assets which are recognized in the form of Right to charge users of the infrastructure asset are amortized by taking proportionate of actual revenue received for the year over Total Projected Revenue from project to Cost of Intangible assets. The estimation of total projection revenue requires significant assumption about expected growth rate and traffic projection for future. All assumptions are reviewed at each reporting date

Provision for periodical Major Maintenance

Provision for periodical Major Maintenance obligations are measured at the best estimate of the expenditure that would be required to settle the obligation at the balance sheet date. The timing and amount of such cost are estimated and determined by estimated cash flows, expected to be incurred in the year of overlay. All assumptions are reviewed at each reporting date.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

- ii. The Company had adopted an option under Para 46A of AS 11 under previous GAAP which the company has elected to continue as per para D13AA of Ind AS 101 "First time adoption Indian Accounting Standard". Accordingly the exchange difference arising on reporting of long-term foreign currency monetary items, in so far as they relate to the acquisition of depreciable asset, is added or deducted from the cost of the asset and shall be amortised over the balance life of the asset. During the year company has added ₹ -148.49 Lakh (₹ 637.07 Lakhs) to the capital asset towards such exchange differences. The unamortised amount of such exchange difference included into the carrying amount of asset is Rs 1687.82 Lakhs (₹ 1220.18 Lakhs).
- iii. In support of that Company has also taken an opinion of Chartered Engineer & Valuer regarding the different useful life. Accordingly the unamortized carrying value of those assets is being depreciated over the remaining useful life as adopted by the Company instead of useful life specified in the Schedule II. This changes result in a higher depreciation of ₹ 845.71 lakhs (₹ 784.99 lakhs) charged to profit and loss account.

Notes:

- Under a Service Concession Arrangement (SCA), where a Special Purpose Vehicle (SPV) has acquired contractual rights to receive specified determinable amounts (Annuity) for use of an asset, such amounts are recognised as "Financial Assets" and are disclosed as "Receivable against Service Concession Arrangements".

The value of a Financial Asset covered under a SCA includes the fair value estimate of the construction services which is estimated at the inception of the contract and is based on the fair value of the constructed asset and comprises of the actual construction cost, a margin as per the SCA, estimates of the future operating and maintenance costs, including overlay / renewal costs.

The cash flows from a Financial Asset commences from the Provisional / Final Commercial Operation Date as certified by the granting authority for the SCA. The cash flow from a Financial Asset is accounted using the effective interest rate method. The intrinsic interest element in each Annuity receipt is accounted as finance income and the balance amount is accounted towards recovery of dues from the "Receivable against Service Concession Arrangements".

- Refer note 60 for additional disclosure pursuant to Appendix - A to Ind AS 11 - "Service Concession Arrangements" ('SCA').

Total	5,614.58	

(e) Certain subsidiary companies has carried forward losses aggregating ₹ 280981.00 Lakhs (March 31, 2016: ₹ 228915.20 Lakhs and as at April 01, 2015: ₹ 150235.80 Lakhs) under the Income Tax Act, 1961, which gets expired within 8 years of the respective year from the date of origin.

Deferred tax assets has not been recognised in respect of these unabsorbed losses as they may not be used to offset taxable profits elsewhere in the Group, they have arisen in subsidiaries that have been loss-making for some time, and there are no other tax planning opportunities or other evidence of recoverability in the near future. If the Group were able to recognise all unrecognised deferred tax assets, the profit would increase by ₹ 8,682.31 Lakhs.

- (i) The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the group does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.
- (ii) The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.
- (iii) The Fair value of Investments in Bonds and Debentures, NSCs, Long term Loans and advances, Bank Deposits with more than 12 months maturities and earmarked balances approximate carrying value as the interest rate of the said instruments are at the prevailing market rate of interest.
- (iv) The Group has entered into derivative financial instruments with Bank. Interest rate swaps, option contract are valued using valuation techniques, which employs the use of market observable inputs. The most frequently applied valuation techniques includes forward pricing and swap models, using present value calculations. The modes incorporate various inputs included currency spot rate, risk free interest rate of respective currency, currency volatility and interest rate curves. The derivative instrument fair value is arrived using mark-to-market valuation as at March 31, 2017.
- (v) The fair value of Premium Obligation is calculated by discounting future cash flows using rates as per RBI Bank rate+2%.
- (vi) The caring value of Group's interest-bearing borrowings are reasonable approximations of fair values as the borrowing carry floating interest rate.

Salary Growth Rate	0.50%	0.50%	14.29	(14.01)

50.10 Limitation of method used for sensitivity analysis :

Sensitivity analysis produces the results by varying a single parameter & keeping all the other parameters unchanged. Sensitivity analysis fails to focus on the interrelationship between underlying parameters. Hence, the results may vary if two or more variables are changed. There are no changes from the previous period in the methods and assumptions used in preparing the sensitivity analysis.

50.11 Details of Asset- Liability Matching Strategy

There are no minimum funding requirements for a Gratuity benefits plan in India and there is no compulsion on the part of the Company to fully or partially pre-fund the liabilities under the Plan. The trustees of the plan have outsourced the investment management of the fund to an insurance company. The insurance company in turn manages these funds as per the mandate provided to them by the trustees and the asset allocation which is within the permissible limits prescribed in the insurance regulations. Due to the restrictions in the type of investments that can be held by the fund, it may not be possible to explicitly follow an asset-liability matching strategy to manage risk actively in a conventional fund.

56 Financial Risk Management

The Group's principal financial liabilities comprise borrowings and trade & other payables. The main purpose of these financial liabilities is to finance the Group's operations and to support operations as well as development and maintenance of SPVs project. The Group's principal financial assets include Investments, other receivables and cash and bank balances.

The Group's business activities are exposed to a variety of financial risks, namely market risk, credit risk and liquidity risk. The Group's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

The Board of Directors have overall responsibility for the establishment and oversight of the Group's risk management framework. Risk management systems are reviewed periodically to reflect changes in market conditions and the Group's activities. The Board of Directors oversee compliance with the Group's risk management policies and procedures, and reviews the risk management framework.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk. Financial instruments affected by market risk include borrowings, Investments, other receivables, trade and other payables and derivative financial instruments.

Within the various methodologies to analyse and manage risk, Group has implemented a system based on "sensitivity analysis" on symmetric basis. This tool enables the risk managers to identify the risk position of the entities. Sensitivity analysis provides an approximate quantification of the exposure in the event that certain specified parameters were to be met under a specific set of assumptions. The risk estimates provided here assume:

- a parallel shift of 25-basis points of the interest rate yield curves in all currencies
- a simultaneous, parallel foreign exchange rates shift in which the ₹ appreciates / depreciates against all currencies by 2%

The potential economic impact, due to these assumptions, is based on the occurrence of adverse / inverse market conditions and reflects estimated changes resulting from the sensitivity analysis. Actual results that are included in the Statement of profit & loss may differ materially from these estimates due to actual developments in the global financial markets.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity and provisions.

The following assumption has been made in calculating the sensitivity analyses:

- The sensitivity of the relevant statement of profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at March 31, 2017, March 31, 2016 and April 1, 2015.

Interest rate risk

Interest rate risk is the risk that fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group seeks to mitigate such risk by entering into interest rate derivative financial instruments such as interest rate swaps. Interest rate swap agreements are used to adjust the proportion of total debt, that are subject to variable and fixed interest rates.

Under an interest rate swap agreement, the Group either agrees to pay an amount equal to a specified fixed-rate of interest times a notional principal amount, and to receive in return an amount equal to a specified variable-rate of interest times the same notional principal amount or, vice-versa, to receive a fixed-rate amount and to pay a variable-rate amount. The notional amounts of the contracts are not exchanged. No other cash payments are made unless the agreement is terminated prior to maturity, in which case the amount paid or received in settlement is established by agreement at the time of termination, and usually represents the net present value, at current rates of interest, of the remaining obligations to exchange payments under the terms of the contract.

The banks are now finance at variable rate only, which is the inherent business risk.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

Notes on Accounts forming part of Consolidated Financial Statements

	Effect on loss before tax	
	March 31, 2017	March 31, 2016
Increase in 25 basis point	(2458.19)	(1785.36)
Decrease in 25 basis point	2479.09	1874.36

The effect of interest rate changes on future cash flows is excluded from this analysis.

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Group transacts business in local currency and in foreign currency, primarily in USD. The Group has obtained foreign currency loans and is, therefore, exposed to foreign exchange risk. The Group may use foreign exchange options towards hedging risk resulting from changes and fluctuations in foreign currency exchange rate. These foreign exchange contracts, carried at fair value, may have varying maturities varying depending upon the primary host contract requirements and risk management strategy of the group.

The Group manages its foreign currency risk by hedging appropriate percentage of its foreign currency exposure, as approved by Board as per established risk management policy. Details of the hedge & unhedged position of the Group given in Note no. 48.

Foreign currency sensitivity

As per the Group's policy, exchange rate differences of long-term foreign currency loans which are related to acquisition of depreciable fixed assets have been added to or deducted from the cost of the assets and depreciated over the balance life of the assets. Accordingly, the change in USD rate is not impacted directly on loss before tax and pre-tax equity for the year ending March 31, 2017 and March 31, 2016 and accordingly sensitivity analysis of change in USD rate has not been presented.

(b) Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk related to operating activities (primarily trade receivables and other financial assets), financing activities including temporary Investment in mutual fund and other financial instruments.

Credit risk from balances with banks and financial institutions is managed by the Group's finance department in accordance with the Group's policy. Investments of surplus funds are made only in accordance with group policy. The Group monitors the ratings, credit spreads and financial strength of its counterparties. Based on its on-going assessment of counterparty risk, the Group adjusts its exposure to various counterparties. The Group's maximum exposure to credit risk from balance with bank and financial institutions as of March 31, 2017 is ₹ 10832.30 Lakhs, March 31, 2016 is ₹ 11364.50 lakhs and April 1, 2015 is ₹ 17447.40 Lakhs.

(c) Liquidity risk

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to, at all times maintain optimum levels of liquidity to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys cash management system. It maintains adequate sources of financing including debt at an optimised cost.

The Group regularly monitors the rolling forecast to ensure it has sufficient cash on an on-going basis to meet operational needs. Any Short term cash generated, over and above its working capital management and other operational requirement, is retained as cash nad cash equivalents (to the extent required) and any excess is invested in short term mutual fund to optimise the cash returns on investments while ensuring sufficient liquidity to meet its liabilities.

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due without incurring unacceptable losses or risking damage to the Group's reputation. The Group ensures that it has sufficient fund to meet expected operational expenses, servicing of financial obligations.

61 First time adoption of IND AS

These consolidated financial statements, for the year ended 31 March, 2017 are the first the Group has prepared in accordance with Ind AS. For periods upto and including the year ended 31 March 2016, the Group prepared its financial statements in accordance with accounting standards notified under section 133 of the companies Act, 2013 read with paragraph 7 of the companies (Account) Rules, 2014 (Previous GAAP).

Accordingly, The Group has prepared consolidated financial statements which comply with Ind AS applicable for periods ending on 31 March, 2017 together with the comparative period data as at and for the year ended 31 March 2016, as described in the summary of significant accounting policies. This note explains the principle adjustments made by the Group in restating its previous GAAP financial statements including the balance sheet as at 1st April 2015, and the previously published Previous GAAP financial statements as at and for the year ended March 31, 2016.

A Exemption from other Ind AS

a. Deemed cost

Ind AS 101 permits a first time adopter to elect to continue with the carrying value for all of its Property, Plant Equipment's and Investment property as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

Notes on Accounts forming part of Consolidated Financial Statements

Accordingly, since there is no change in the functional currency, the Group has elected to continue with the carrying value for all of its Property, Plant Equipments and Investment property, as recognised in its previous GAAP financials, as deemed cost at the transition date.

b. Revenue based amortization of Toll Collection Rights

Ind AS 101 permits a first time adopter to continue policy adopted for amortization of Toll Collection Rights arising from service concession arrangements related to toll roads recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP.

Accordingly, the group has elected to continue with the Revenue based amortisation method prescribed under Schedule II to the Companies Act, 2013 for toll collection rights recognised under service concession arrangements, as per policy adopted by the group in the previous GAAP.

c. Long Term Foreign Currency Monetary Items

The Group has elected to avail exemption under Ind AS 101 to continue the policy adopted for accounting for exchange differences arising from translation of long-term foreign currency monetary items outstanding and recognised in the financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period as per the previous GAAP.

d. Business combination

Ind AS 103 Business Combinations has not been applied to acquisitions, which are considered as business combination under Ind AS that occurred before 1 April 2015. The carrying amounts of assets and liabilities in accordance with previous GAAP are considered as their deemed cost at the date of acquisition. After the date of the acquisition, measurements is in accordance with Ind AS. The carrying amount of goodwill in the opening Ind AS balance sheet is its carrying amount in accordance with the previous GAAP.

Ind AS mandatory exceptions

a. Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP, unless there is objective evidence that those estimates were in error.

Ind AS estimates as at April 1, 2015 are consistent with the estimates as at the same date made in the conformity with previous GAAP. The estimates used by the Group to present these amounts in accordance with Ind AS reflect conditions at April 1, 2015, the date of transition to Ind AS and as of March 31, 2016.

b. Classification and measurement of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Footnotes to the reconciliation of profit and loss for the year ended March 31, 2016 and equity as at April 01, 2015 and March 31, 2016 :

(a) Finance Cost Recognition of account of amortised cost of Financial Liability: The financial liability has been recognised at effective interest rate method under Ind AS. Under previous GAAP, the same is disclosed at transaction value.

(b) MTM on derivative financial instruments : Under previous GAAP, net mark to market losses on derivative financial instruments as at the Balance Sheet date, were recognised in profit and loss, and the net gains, if any, were ignored. Under Ind AS, such derivative financial instruments are to be recognised at fair value and the movement is recognised in the statement of Profit & Loss.

(c) Deferred Tax: The impact of transition adjustments together with Ind AS mandate of using balance sheet approach (against profit and loss approach in the previous GAAP) for computation of deferred taxes has resulted in charge to the Reserves, on the date of transition, with consequential impact to the Profit and Loss account for the subsequent periods.

(d) Recognition of Construction Revenue including Government Grant under Service Concession Arrangement : In consolidated financial results, the construction revenue and related construction cost of assets developed under concession arrangements with government are recognised as income and expenditure and concession rights capitalised as intangible assets as per the Appendix A of Ind AS 11 'Service Concession Arrangement' on specific conditions being met in terms of accounting standard. Under Indian GAAP, construction costs are recognised as Intangible rights under concession arrangement.

(e) Discounting / unwinding of liability / provision: In consolidated financial results, under the previous GAAP, the provision of Major Maintenance expenses and the premium obligation payable to government authorities were recognised on undiscounted basis. As required under Ind AS, the same have been recognised on discounted basis.

(f) Annuity assets considered as financial assets: In consolidated financial results, financial Income on the Annuity based BOT project recognised as financial assets considering the time value of total receivables as per the Appendix A of Ind AS 11 'Service Concession Arrangement' under Ind AS. Under Previous GAAP, the fixed amount receivable from authorities was recognised as Income on gross basis.

(g) Reversal of Goodwill on Consolidation: In consolidated financial results, the goodwill on consolidation was amortised under previous GAAP over the concession period. Under Ind AS, the goodwill value is not amortised and is carried as previous GAAP carrying value in accordance with Ind AS 101 and tested for impairment.

62 Standards issued but not yet effective

The standard issued, but not yet effective up to the date of issuance of the Group's financial statements is disclosed below. The Group intends to adopt this standard when it becomes effective.

Amendment to Ind AS 7 'Statement of cash flows':

The Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2017 in March 2017, notifying amendments to Ind AS 7, 'Statement of cash flows'. The amendment to Ind AS 7 requires the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the balance sheet for liabilities arising from financing activities, to meet the disclosure requirement.

This standard will come into force from accounting period commencing on or after 1 April 2017. The Group will adopt the new standard on the required effective date. The group is evaluating the requirements of the amendment and the effect on the financial statements is being evaluated.

- 63 In terms of the Concession Agreement for setting up the project for Modernization and Computerisation of integrated Border Check Post ('Project') in the state of Maharashtra on Build, Operate and Transfer basis, the Maharashtra Border Check Post Network Limited (MBCP), a subsidiary, has been regularly representing in the Steering Committee of the project set up by Maharashtra State Road Development Corporation (MSRDC) under Concession agreement, about handover of the additional project BCP sites so as to meet Concessionaire obligations as regards implementation of project as per the Concession agreement. As at 31st March, 2017, the company has achieved provisional certificate of completion for 17 check posts out of total 22 check posts as per Concession agreement. The collection of service fees have been started in 13 BCP as per directive of MSRDC. Further, MBCP had received general resolution from government of Maharashtra for construction of additional 2 Check post on BOT basis.

As at 31st March, 2017, the project implementation is in progress and there are costs variance in development of each BCP site. The Company has been accounting cost variations, if any based on the approval of independent engineers appointed by MSRDC read with note 56 below. MBCP has been regularly representing to MSRDC for the time extension of completion of BCP construction in terms of Concession agreement. MBCP is confident that necessary approvals relating to time extension for completion of BCP construction will be received and that no additional financial obligations is envisaged to be levied on the company under the terms of concession agreement.

Sadbhav cares...
CSR

Government Primary School

Standing by our values of giving and sharing, Sadbhav initiated many projects under its Corporate Social Responsibility division. In accordance with the same, we adopted the entire Mota Isanpur village. Aligning it with the 'Swachh Bharat Abhiyan' (a Government of India initiative); we built Toilets for Hygiene along with a Hospital for Health and a Primary School for Literacy. Parks, Temples, Roads and *Anganwadi* were also constructed with a view to provide better infrastructural facilities and basic amenities to help people improve their standards of living.

New Construction at M. B. Patel Trust Hospital

Furthermore, we extended our CSR activities to serve humanity by establishing various healthcare, educational and religious institutes in the same vicinity. Initiation of developing an Eye Hospital as well as a *Sarvajanik* hospital took place to serve the community at large.

Government Primary School for Girls

Blood donation Camps and Tree plantation activities are often organised at various project sites to encourage the value of 'Giving'.

Disclaimer

This Annual Report contains forward-looking information to enable investors to comprehend company's prospects and take informed investment decisions. This report and other statements - written and oral - that we periodically make contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes' and words of similar substance in connection with any discussion of future performance.

We cannot guarantee that these forward-looking statements will be realized, although we believe we have been prudent in assumptions. The achievement of results is subject to risks, uncertainties, and even less than accurate assumptions. Should known or unknown risks or uncertainties materialize or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated or projected. Readers should bear this in mind.

We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.
