# Message from The Chairman

Dear Shareholders,

I am delighted to present the Annual Report for the year 2016-17 – a year that will surely stand out as one of the more eventful years in recent times. The events that dominated headlines during the year happened on the global stage as well as in India. Globally, the UK's decision to exit the EU, popularly referred to as BREXIT, as well as the election of the Republican candidate as the President of the United States of America, created ripples whose effect will be felt for years to come in the socio-economic and geo-political spaces. In India, the unexpected move by the government to demonetise currency by banning ₹ 500 and ₹ 1,000 notes sent shockwaves, affecting every industry and every sector.

However, in a bold move forward, the government successfully passed the Goods and Services Tax (GST) Bill in the Parliament. GST is the single-most important tax reform in the history of the country, and is widely expected to level the playing field by creating a one-nation, one-tax unified market. Of course, there are the initial teething problems, but in the long-run, I believe it will be a catalyst in unlocking the true potential of the country.

While these are macro events, the real-estate also witnessed two key events that will have a far-reaching impact on the industry. The Real Estate Regulation Act (RERA) and the positive changes in Real Estate Investment Trust (REIT) rules both augur well for the industry.

RERA proposes to usher in a new era of transparency and accountability, outlining deliverables for the developers and promoters. Also, it lays down strict framework of rules to protect the interest of the buyers, including a clear structure of penalty in case of delays or non-compliance of any form on part of the developer. RERA approvals from the state RERA authorities is made compulsory, ensuring a massive shift in protection in favour of the buyers. The positive effects of RERA are already quite visible with buyers now experiencing a boost in confidence, which, in turn, is expected to translate into higher demand in the coming years.

With changes in the REIT rules, financing in real-estate projects has been made easier. The lowering of minimum project-size is

₹ **2,580.87** lacs

Year 2016-17**

also expected to attract more international funds to invest in the real-estate space in India.

It is against this backdrop that I would now like to update you about the financial performance of the Company:

- Total Revenues for the year was ₹ 3,310.74 lacs compared to ₹ 3,134.12 lacs, an increase of 5.64%
- EBITDA for the year stood at ₹ 2,580.87 lacs against ₹ 2,375.73 lacs, up by 8.63%
- Rental income for the year was ₹ 1,846.74 lacs against ₹ 1,817.46 lacs, rising by 1.61%

What underpins this CONFIDENT PERFORMANCE of the Company is its real-estate assets and its long-term strategy. The Company owns 9 Theatres, all of which are leased on a long-term basis to PVR Cinemas. This ensures an assured and uninterrupted cash-flow in the form of rental income for the Company. In addition, the Company also owns Eternity Mall at Nagpur. It is one of the most successful retail destination in Nagpur due to its location as well as its well-thought tenant mix. The mall has 100% occupancy with some of the leading national and international brands present in the mall. The Company has also invested in the commercial property – Kanakia Wall Street in Andheri, Mumbai. We continue with our renewable energy business with two windmills at Viswada in Gujarat and Revangaon in Maharashtra. The total capacity of these two windmills is 2.2 MWA.

While the Company remains CONFIDENT ABOUT PERFORMANCE, what excites us today is the massive

opportunity set to unfold on the horizon. As India powers ahead as the fastest growing major economy in the world and with a determined focus of the government on key sectors like manufacture, infrastructure and housing, we firmly believe that the future holds immense prospects for growth, and it is this opportunity on the horizon that is making us CONFIDENT ABOUT PROSPECTS. I remain positive and confident about the outlook for the Company.

I thank you for your sustained trust and faith in the Company, and assure you we will continue to focus on creating long-term value for all our stakeholders.

Yours sincerely,

Rasesh Kanakia

# MANAGEMENT DISCUSSION AND ANALYSIS

## ECONOMIC SCENARIO

### Global economy

In 2016, the growing conservatism and changing geopolitical equations across the globe posed a series challenge to the globalisation. Changing outsourcing policies, the disintegration of trade-blocks and growing resistance to job-related immigration rattled businesses around the world. Amidst such difficult times, the global economy grew at 3.2% as per the estimates of International Monetary Fund (IMF). In 2015, the world economy grew at 3.4%.

At 4.3% the growth in emerging markets too remained stagnant. Global uncertainties remained high, and unpredictability revolving around election outcomes and policy decision making remained elevated. Nonetheless, monetary policy in the US evolved on a predictable path as the Federal Reserve continued its efforts to achieve policy normalisation. As a result, despite the political uncertainty and lower economic growth, FDI inflows in the North American region were strong.

**FDI Inflows**

Region	Amount (USD billion)			
	2014	2015	2016	2017#
Europe	272	566	533	560
North America	231	390	425	360
Africa	71	61	59	65
Asia	460	524	443	515
Latin America	170	165	142	130

#Estimated

(Source: World investment report 2017: United Nations Conference On Trade And Development)

On the back of cyclical upswing, recovery in global trade-volumes, satisfactory performance of stock markets and improved macroeconomic outlook, FDI flows are expected to rebound moderately in 2017. In the list of top prospective FDI destinations, India stood 3<sup>rd</sup>, only behind US and China. IMF estimates global growth to accelerate to 3.5% in 2017 and 3.6% in 2018. However, inward-looking growth policies, dissimilar, regional growth, and non-economic factors such as rising geopolitical tensions among other can potentially derail the growth momentum.

### Indian economy

As per the provisional estimates, India's GDP expanded at 7.1% in FY 2016-17. Normal monsoon in most parts of the country pushed agricultural growth to 4.9% in FY 2016-17. This has been a massive improvement considering 0.7% expansion experienced in FY 2015-16 on account of deficient rainfall. On the other hand, mining, manufacturing and

construction activities recorded a sharp deceleration in FY 2016-17 vis-à-vis growth numbers reported in FY 2015-16. (Source:Ministry of Statistics & Programme Implementation)

Through the demonetisation move, the government cancelled high-value currency notes in Q3,FY2016-17 dampened the growth momentum. Nonetheless, demonetisation is likely to have many long-term positive effects on Indian economy. It's been an important step taken to improve tax compliance and curb the creation and circulation of black money in the country.

Credit growth of the banking industry shrank to a six-decade low of 5.1% in FY 2016-17 vis-à-vis 10.7% registered in FY 2015-16. Deposit growth remained robust 11.8% over review period.

### Moderation in inflation...

(Source: MOSPI)

For FY 2016-17, RBI had set the inflation target of 5.0%, against which the retail inflation averaged at 4.5% thereby remaining in the comfort zone of the Central Bank. Food inflation averaged 4.3%. The fall in food inflation, especially in H2, FY 2016-17 can be attributed to a better performance of the farm sector and the price erosion experienced in select food categories such as fruits, vegetables and other edibles during demonetisation.

The borrowing cost has been declining structurally in India. Despite RBI changing the monetary policy orientation from accommodative to neutral, the lending rates have remained flat, in the wake of stable deposit growth and lack of demand from corporate.

The private sector capex cycle has been going through a protracted lull phase. Excess capacity in many industries and weaker than expected demand is proving to be detrimental to the recovery. Going forward the situation at the grassroots level is likely to improve on account of improving political stability, higher budgetary allocations to infrastructure sectors, the GST rollout and other structural reforms introduced by the government in the recent past. IMF expects Indian economy to

grow at 7.2% in 2017 and at 7.7% in 2018 which is in line with RBI's 7.3% growth forecast for FY 2017-18.

## INDUSTRY OVERVIEW

Indian real estate sector is on the cusp of a complete transformation that ushers in an era of greater transparency, higher investments, end-user orientation and a higher degree of competition.

With the implementation of RERA—Real Estate (Regulation and Development) Act, 2016 and Benami Transactions (Prohibition) Amended Act, 2016, India achieved significant policy breakthroughs in FY 2016-17. Demonetisation—a move that shook the nation—changed the dynamics of real estate market significantly. Moreover, the implementation of Goods and Services Tax (GST) promises to change the business models of many players in the real estate sector.

Demonetisation severely affected the luxury as well as the plotted development markets (both primary and secondary), as deals therein involve high cash component. As per the estimates of Liases Foras, the market size in these segments is likely to shrink in the range of 7.0% and 22.0%.

Liases Foras predicts the profitability of the real estate market participants to ascend significantly post demonetisation, on account of diminishing speculative demand and a sizable reduction in land and approval costs.

### Profitability of developers may jump

	Breakup of financials	
	Pre-demonetisation	Post-Demonetisation
Financial Cost	10%	8%
Approval Cost	20%	10%
Construction Cost	25%	25%
Land Cost	35%	25%
Profit Margin	10%	32%

(Source: Liases Foras)

### Residential Real Estate

As per the assessment of Knight Frank, the residential real estate market witnessed a sharp fall of 46% in sales and 23% in new launches post demonetisation. Nonetheless, buying activities picked up towards the end of FY 2016-17. The muted pace of new launches post demonetisation helped the real estate players cut back the inventory levels. Despite that, NCR, Mumbai and Bengaluru remained the top 3 markets in terms of volumes of unsold units, as revealed by the Jones Lang LaSalle.

Government initiatives such as 'Housing For All' are likely to drive the performance of affordable housing segment.

Government incentives, favourable policies and facilities of cheaper credit bode well for the sector.

### Retail Real Estate

Demonetisation struck a mighty blow to India's household consumption in Q3, FY 2016-17. Smaller towns where the prevalence of cash transaction is high were the worst hits. Retailers in some Tier-2 cities witnessed upto 25% fall in sales during demonetisation. However, the effects proved to be transitory as the demand revived with the improving supply of new currency. As a result, all 3 segments of the retail industry—Apparel, Food and Beverages (F&B), and Entertainment and Cinema witnessed a steady performance over the review period. Malls, high-street shoppes and food outlets in metro cities such as Mumbai and Delhi saw greater footfalls.

According to Jones Lang LaSalle, retail space in India's prime cities was 75.8 million Square feet at the end of Q3, FY 2016-17. Closure of nearly 14 malls due to lacklustre consumer response and relatively slower activity on the supply-front improved the absorption rate of quality vacant places. The market also saw a growing trend in the refurbishment of malls into office spaces. Office-Retail Complex (ORCs) which is relatively a new concept in India has been gaining popularity with retailers as well as developers. Lower rents as compared to those charged by premium malls and reasonably higher footfall on weekends makes them a real bargain for retailers. From the tenancy diversification perspective, these formats offer better value-propositions to developers. Occupancy retention is a key to gain from the future rental hikes.

### Office Market

The concept of co-working has been gaining popularity of late, especially in Bengaluru, Pune and NCR region. India has been attracting investments from the global leaders in the co-working space. The demand for such offices is likely to firm up in future. As per the estimates of Knight Frank, start-ups and SMEs (Small and Medium Enterprises) prefer co-working spaces as they save around 15% to 20% costs. Plug-and-play nature of these offices offers smaller organisations efficiency and flexibility to optimise the use of resources.

The emergence of the Real Estate Investment Trusts (REITs) may open up significant value-unlocking opportunities for the developers, especially in office and retail segments. As per the estimates of Knight Frank, top 7 cities have REIT-able space of 537 million square feet and 75 million square feet respectively in office and retail segments. Warehousing segment has 1,127 million square feet of REIT-able area at all-India level. Structural changes in the real estate sector and the booming economy may help India attract higher investments in future.

Over the review period, EBITDA improved by 8.63% to Rs. 2580.86 Lacs from Rs. 2375.73 Lacs recorded in FY 2015-16. The Company recorded 83.16% rise in PAT which stood at Rs. 1056.06 Lacs as against Rs. 576.69 Lacs recorded in FY 2015-16.

### Segmental revenue

	2016-17	2015-16	% increase
Retail space	2073.34	2037.20	1.77%
Windmill	169.81	166.08	2.25%

## OPPORTUNITIES AND OUTLOOK

As the concept of REITs will propagate further in India, demand for high yielding retail and office properties will rise. Relatively low construction activities in the mall space over last two years will help improve the absorption rates.

Since India is expected to reclaim its position as the fastest growing economy among major economies of the world, FDI flow is likely to remain robust. Moreover, the structural reforms introduced by the government would facilitate the higher growth in the real estate sector. Demonetisation and implementation of GST will improve the transparency in the property deals which will eventually lead to a better price discovery.

Government's thrust on some of its flagship programmes such as 'Start Up India', 'Make In India', 'Housing For All' and 'Smart City Mission' among others, will create tremendous growth

opportunities for the real estate industry. The government has made a higher budgetary allocation to the tune of 3.96 lakh crore for the development of infrastructure. Out of this, Rs 64,000 would be allocated to build national highways and coastal roads. Moreover, emphasis on improving the intra-city connectivity would open up significant opportunities for the sector.

Structurally low-interest rates, lower inflation and improving economic prospects would push discretionary household incomes higher. This will eventually translate into higher spending on leisure and entertainment, improving the footfalls in malls. The growing instances of mall refurbishment would help lower the vacancy.

The Company is likely to benefit from these larger trends. Its properties are located in prominent areas which will offer it an added advantage.

## RISKS AND CONCERNS

Typical risks associated with the real estate sector such as high working capital requirement, longer gestation period and cyclicity of the business are not relevant to Cinline. The Company is in the business of leasing out retail spaces through long term contracts. Such arrangements generate steady cash flows for the Company. Although revenue stagnation can be a risk, Company's presence in the prime localities leaves a window open for enjoying the escalation in rent when contracts fall due for the renewal. Besides, government's focus on promoting renewable energy leaves enough room for Company's windmill business.

## MATERIAL DEVELOPMENTS IN HUMAN RESOURCES

The Company has laid down employee centric policies since employees are its biggest assets. Apart from rendering a conducive and safe work environment, Company's human resources policies ensure employees remain motivated and satisfied. The Directors present the Company's Report on Corporate Governance for the year ended March 31, 2017, in terms of Regulation 34(3) read with schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulation").

### I. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

*"Corporate governance is about maintaining an appropriate balance of accountability between three key players: the corporation's owners, the directors whom the owners elect, and the managers whom the directors select. Accountability requires not only good transparency, but also an effective means to take action for poor performance or bad decisions."*

Corporate governance is about commitment to values and ethical business conduct. It is about how an organization is managed. This includes its corporate and other structures, its culture, policies and the manner in which it deals with various stakeholders. Accordingly, timely and accurate disclosure of information regarding the financial situation, performance, ownership and governance of the company is an important part of corporate governance. This improves public understanding of the structure, activities and policies of the organization. Consequently, the organization is able to attract investors, and enhance the trust and confidence of the stakeholders.

We believe that sound corporate governance is critical to enhancing and retaining investor trust. Accordingly, we always seek to ensure that we attain our performance goals with integrity. Our Board exercises its fiduciary responsibilities in the widest sense of the term.

Our disclosures always seek to attain the best practices in international corporate governance. We also endeavor to enhance long-term shareholder value and respect minority rights in all our business decisions.

Our corporate governance philosophy is based on the following principles:

1. Satisfy the spirit of the law and not just the letter of the law. Corporate governance standards should go beyond the law.
2. Be transparent and maintain a high degree of disclosure levels.
3. Communicate externally, in a truthful manner, about how the Company is run internally.
4. Have a simple and transparent corporate structure driven solely by business needs.

The Company, through its Corporate Governance envisages an attainment of transparency, accountability, integrity and propriety in total functioning of the Company and conduct of business, both internally and externally. The Company defines Corporate Governance as a set of guidelines that are followed by the Board of Directors and the Management of the Company voluntarily.

**Annexure II to the Independent Auditor's Report of even date to the members of Celine India Limited, on the financial statements for the year ended 31 March 2017**

**Annexure II**

**Independent Auditor's report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

1. In conjunction with our audit of the financial statements of Celine India Limited ("the Company") as of and for the year ended 31 March 2017, we have audited the internal financial controls over financial reporting (IFCoFR) of the Company as of that date.

**Management's Responsibility for Internal Financial Controls**

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

**Auditors' Responsibility**

3. Our responsibility is to express an opinion on the Company's IFCoFR based on our audit. We conducted our audit in accordance with the Standards on Auditing, issued by the Institute of Chartered Accountants of India

(ICAI) and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of IFCoFR, and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate IFCoFR were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the IFCoFR and their operating effectiveness. Our audit of IFCoFR included obtaining an understanding of IFCoFR, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's IFCoFR.

#### **Meaning of Internal Financial Controls over Financial Reporting**

6. A Company's IFCoFR is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's IFCoFR includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls over Financial Reporting**

7. Because of the inherent limitations of IFCoFR, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the IFCoFR to future periods are subject to the risk that IFCoFR may become inadequate

because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### **Opinion**

8. In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

## SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE YEAR ENDED 31 MARCH 2017

value of the defined benefit obligations at the balance sheet date based on an actuarial valuation carried out by an independent actuary using the Projected Unit Credit Method. The discount rates used for determining the present value of the obligations under the defined benefit plan are based on the market yields on government bonds as at the balance sheet date. Actuarial gains or losses on such valuation are recognised immediately in the statement of profit and loss for the year.

- (iv) Liability for compensated absences is provided for on the basis of actuarial valuation at year end, made by an independent actuary as per Accounting Standard 15 “Employee Benefits” as specified under section 133 of the Act, read with the Rule 7 of the Companies (Accounts) Rules, 2014 (as amended).

### g. Taxes on income

#### Current tax

Current tax is computed and provided for in accordance with the applicable provisions of the Income Tax Act, 1961.  
Minimum alternate tax

Minimum alternate tax (MAT) paid in accordance with the tax laws gives rise to future economic benefits in the form of adjustments of future income tax liability. The same is considered as an asset if there is convincing evidence that the Company will pay normal income tax after the tax holiday period. Accordingly, MAT credit is recognised as an asset in the balance sheet when it is probable that the future economic benefits associated with it will flow to the Company and the asset can be measured reliably.

#### Deferred tax

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. If the Company has unabsorbed depreciation or carry forward tax losses, deferred tax assets are recognised only if there is a virtual certainty supported by convincing evidence that such deferred tax assets can be realised against future taxable profits.

At each balance sheet date the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realised.

### h. Impairment of assets

In accordance with Accounting Standard 28 “Impairment of Assets” as specified under section 133 of the Act, read with the Rule 7 of the Companies (Accounts) Rules, 2014 as amended, the carrying amounts of the Company’s assets are reviewed at each balance sheet date to determine whether there is any impairment. The recoverable amount of the assets (or where applicable, that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. An impairment loss is recognised whenever the carrying amount of an asset or a cash-generating unit exceeds its recoverable amount. Impairment loss is recognised in the statement of profit and loss or against revaluation surplus where applicable.

### i. Provisions and contingencies

Provisions are recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed in respect of possible obligations or present obligations that arise from past events, whose existence would be confirmed by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company. When there is a possible obligation or present obligation in respect of which the likelihood of outflow of resources is remote, no provisions or disclosure is made.
