REVIEW OF OPERATIONS

Building Materials Division

The Building Materials division was one of the oldest entrants into building material industry. With a history of 70 years in existence it has been partnering with some of the best brands in building material like Tata Steel, JSW, Jindal, Apollo, SAIL, Dalmia Cements, Jain Irrigation, Finolex Cables amongst many others. During the year, despite the challenging economic scenario that prevailed in the country, adversely affecting the steel and construction sectors, this division achieved a total turnover of ₹39,977 Lakhs and earned a net profit of ₹196 Lakhs against previous year turnover of ₹41,786 Lakhs and a net profit of ₹80 lakhs. Sales declined due to continuous and substantial fall in domestic steel prices by over 19% coupled with the imported steel glut from China, liquidity crisis, downturn in all industries that persisted for most part of the year. The Company aims to expand the business operations beyond the existing range by increasing various product portfolios and catering to a wide customer base by moving to new territories. Accordingly, sanitary ware products & CP

fittings business under the brand name DANUBE has been making inroads through our own facilitation centres, showrooms and extensive dealership network set up for distribution of these products in Kerala and Tamil Nadu.

Goodwill Governor Services Division

The Governor Services division has been in the business for the past 25 years and has built strong reputation as the exclusive authorised service provider for Woodward products. The division registered a lower turnover due to sluggish market conditions majorly in oil refineries, shipping, sugar and fertilizer industrial segments, leading to deferment of orders, caused by non-availability of capex budget and funds by most of the corporate customers. Revenue of this division during the year under review was ₹2,562 lakhs and net profit was ₹381 lakhs as compared to sales of ₹2,710 Lakhs and net profit of ₹439 Lakhs in the previous year. The additional business from Siemens Distribution contributed only marginal value to the turnover of the division.

Speciality Chemicals Division

Speciality Chemicals division has posted a turnover of ₹302 Lakhs and earned a net profit of ₹53 Lakhs this year as compared to turnover of ₹486 Lakhs and a net profit of ₹138 Lakhs in 2014-15. During the year, this division has extended its operations to northern parts of India by bagging new contracts valuing ₹42 Lakhs from a Sugar manufacturing company in New Delhi and added some new customers like TNPL. This division is looking forward to explore the latent sales potential by appointing more dealers and as a step in this direction has appointed a dealer in Coimbatore.

Drums Manufacturing Division

During the year, the Drums Manufacturing division posted low turnover due to declining steel prices, challenging economic scenario, reduced output of customers, and early closure fruit pulp season. Therefore, Turnover stood at ₹2,182 Lakhs as compared to ₹3,639 Lakhs in 2014-15. The net profit of this division was reasonably higher than previous year due to implementation of sustainable cost reduction measures. This division registered a net profit of ₹162 Lakhs for the year 2015-16 as against ₹89 Lakhs in the previous year 2014-15.

Boat Building Division

This division has not posted any operational income during the year 2015-16 due to lack of new orders for boat building. There is a delay in receipt of new orders from Indian Army. This division expects new orders from BEML in the ensuing financial years for which discussions with the customers are going on to bag the contract.

DIVIDEND

Your Directors are pleased to recommend a dividend of ₹0.60 per equity share (6% on equity capital of the Company) for the financial year 2015-16 despite a very challenging year with many downturns in respect of economic recovery, volatile raw material prices and financial instability. The total dividend payout is ₹238 Lakhs and dividend distribution tax amounts to ₹48 lakhs. The dividend shall be paid to the eligible shareholders whose names appear in the Register of Members as on the record date fixed by the Board.

During the year, the Board of Directors discussed at length the requirement for consolidation of financial statements of its Associate Company M/s.EDAC Automation Ltd with the accounts of the Company. The Company holds 49.99% of equity capital which is more than 20% mandated for consolidation as per Section 2 of the Companies Act, 2013, which defines that more than 20% of holding of equity capital will be treated as controlling interest. However, on a detailed study of the provisions, it is found that the conditions stipulated under the Accounting Standard 21(5) spell out factors defining significant influence. Since the Company does not have significant influence on its Associate Company In terms of Accounting Standard 21(5), the Board decided that the accounts of the Associate Company would not be considered for preparation of consolidated financial statements for the year 2015-16.

In the consolidated financial statements for the year 2014-15, the Company had included the financial statements of the Associate Company. But during the year detailed discussions were held on the conditions

stipulated in Accounting Standard 21 for consolidation. Since the business transactions during the last two years did not contain any such aspect that establishes significant influence of the Company over the Associate Company, and since Account Standard 21 also overrides the provisions of the Companies Act, 2013 in this regard, the Board decided that non-consolidation of the financial statements of the Associate Company would be in line with the Accounting Standards.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT 2015-16

Economic scenario

India has emerged as the fastest growing major economy in the world registering a growth rate of 7.6 per cent and is poised to continue to grow at more than 7 per cent in 2016-17. India was ranked the highest globally in terms of consumer confidence during 2015. India could grow at a potential 8 per cent on average during from fiscal 2016 to 2020 powered by greater access to banking, technology adoption, urbanisation and other structural reforms.

The improvement in India's economic fundamentals has accelerated in the year 2015 with the combined impact of strong government reforms, improved investor confidence, lower food prices, RBI's focus on inflation supported by benign global commodity prices. The economic activities which witnessed significant growth were 'financing, insurance, real estate and business services' at 11.5 per cent and 'trade, hotels, transport, communication services' at 10.7 per cent.

Foreign Direct Investment (FDI) in India has received a dramatic boost from the launch of the Make in India initiative, according to the Economic Survey. The concept of Make in India has really succeeded as it added more employment. With this, India has now become a vibrant market for manufacturers. For the products that are made out of the initiative, we have a strong domestic market with increasing demand.

The government has taken several steps to promote investments through a liberal FDI policy. This relaxation of norms has created a vast opportunity for foreign players to invest in India. FDI increased in several sectors such as Infrastructure, Automobile, Technology, Telecommunications, etc. The net FDI inflows has touched a record high. The Economic Survey 2015-16 has said that a favourable policy regime and sound business environment have facilitated increase in FDI flows into the country.

During the year under review the total revenue of the Company was ₹46,544 Lakhs as compared to ₹62,571 Lakhs with Profit before tax was ₹603 lakhs as against ₹583 Lakhs in 2014-15.

The detailed operational results are provided in the Directors' Report

The loss from the discontinued operations of Commercial Vehicles sales for Rs 212 lakhs (Rs 93 lakhs) was due to the administrative expenditure incurred for the closure of operations and also lower realization on sale of non moving inventory at market prices.

Opportunities & Outlook

The Company is exploring various avenues for organic growth and is also looking for good alliance partners to expand the product range beyond the existing range by catering to a wide customer base and increasing various product portfolios. The Government initiative of identification of initial 20 smart cities of the total list would bring very high growth in the development of these cities and also our share business in such cities would increase.

Secondly, the "make in India" initiative of the Government would boost up the local production and demand for domestic products. We are confident that this measure would enhance the revenues of our Company. The Company expects that the new action plans being taken up by the management shall make the organization more competitive and strong and also equip to face the emerging challenges in the coming years. Focus on customers, products delivery, service innovation and trained sales force is expected to deliver customer excellence in the ensuing years.

Risks & Concerns

The major risks and concerns affecting the Company's business mainly emanate from several external factors. The risk may arise because of price instability similar to the volatile prices that rattled the industry in the year 2015-16, abnormal demand and supply conditions which our industry witnessed and suffered seriously in 2015-16 due the extensive steel imports that has thrown the domestic steel market out of gear, trade and credit policies, liquidity position, other Government policies, etc. Further, huge competition from the unorganized sector which produces building materials of inferior quality at lower prices that creates serious pressure on selling price and reduces the Company's margin and profitability across all divisions. High Inflation can have a negative impact on sale of construction materials. Moreover, Iron & Steel industry is subject to cyclical swings like any other industry due to various factors that impact the market share of the Company. The Company, being a major player for trading and marketing of building materials with high level of efficiency, is continuously watching all key risk factors which may impact the profit margins and would take all possible steps to maintain and enhance the

competitive edge. The other major concern in Governor Services division arise from the funding policies of the Government on public sector undertakings and Capex allocation which generally suffers in crisis years. Governor services division passed through a tough year in 2015-16 on these grounds.

The Management has also put in place effective measures to monitor the Risk Management System and appropriate steps are taken to strengthen the existing business practices and policies to the overcome the challenges. Purchase, Inventory and sales management processes are reviewed strictly and continuously to mitigate the risk of price changes in the volatile market. Efforts are also made by the management to increase the sales and profitability in core products, strict credit policy measures are initiated to lower the market exposure and robust plan is in place improve the customer service by offering value added services to its customers across the branches.

Internal Control System & Adequacy

The Company's internal control systems are commensurate with the nature of its business. The Company maintains an adequate internal control system designed to provide a high degree of assurance regarding the effectiveness and efficiency of operations, the reliability of financial controls and compliance with all applicable laws, rules and regulations. Periodical audit is being conducted by the Internal Auditors and their reports are placed before the Audit Committee of the Board. Regulations 2015. The Risk Management Committee constituted by the Company has been delegated with powers to oversee the risk management process, risk identification, effective implementation of mitigation plan and risk reporting.

Annexure 2 to the Independent Auditor's report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Sicagen India Limited ("the Company") as of 31st March, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the

Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure to the Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended 31st March 2016, we have audited the internal financial controls over financial reporting of Sicagen India Limited ("the Holding Company"), its Subsidiary Companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company, its Subsidiary Companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note, issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over

financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and Directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, based on the test checks conducted by us, the Holding Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, reasonably adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were prima facie operating effectively as at 31st March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to 1 subsidiary company does not arise, since the company is incorporated outside India.
