Communiqué from the MD

Hathway stands at the forefront of the technological revolution sweeping the digital bandwidth of the country"

Dear Valued Shareholders,

Our Company broadly experienced a favourable macroeconomic environment in FY 2018. Economic environment recovered quite well from the disruption caused by demonetisation, which was undertaken in FY 2017 and the teething issues of Goods and Services Tax (GST) introduced during the current year.

We continue to benefit from the current Government focus on Digital India with the Government taking forward significant investment in Bharatnet and Government's focus on overall strengthening policy framework for broadband and Pay TV industry.

Digitally connected homes are having a profound impact on social, industrial and economic transformation happening around us. We are experiencing explosion of data which is leading to rapid shift in customer purchase and usage behaviour across products and services. This was evident by increase in our average data consumption per customer per month which has reached to 103 GB per month in FY 2018.

Financially, strategically and operationally FY 2018 was a successful year for Hathway. We delivered strong financial results, improving Consolidated Operating EBIDTA by 70% year-on-year (YoY) and improving consolidated PAT by ₹ 88 Cr.

The mobile telecom industry faced an extraordinarily turbulent year in India through unprecedented disruption. Price per GB for mobility data reduced by around 90% for retail customers. While it helped in growing mobility data consumption by six times, it also provided much cheaper options to our extremely low usage home broadband customers thereby creating short-term stress on our revenue and EBIDTA. While we expect this stress to last for another 12 months, which is the time being taken for realigning our customer base to high data guzzling users. We are also sure that this new mobility structure will ultimately help in the growth of home broadband. We already see early signs of mobility customers sampling low price data on mobility and then shifting to home broadband for binge watching their favourite OTTs and for overall much better user experience.

Investment for the future, transforming customer service experience and cost optimisation were the key drivers for Hathway story in FY 2018.

Investment for the future

Broadband

FTTH

Your Company's strategic and early investment in FTTH has positioned it well to benefit from the immense opportunities that lie ahead. This enables us to give speed up to 1 GBPS on current ARPU (Average Revenue Per User) levels while still growing current EBIDTA levels. Apart from upgrading existing home passes, we also launched 0.8 Mn new home passes through focus on rapid network expansion. This best-in-class FTTH launch provided us with long-term opportunities for subscribers, revenue growth and outstanding customer experience.

Growth in the share of high data usage customers

Our share of >80 GB monthly data usage customers in overall base increased from 11% to 55%. This happened on the basis of us adding free additional data limits of 200 GB/month to 1 TB/month based on consumption trends. To ensure great customer experience and make it commercially viable, we invested in world-class data centre, evolved peering and caching solutions and formed alliances with Content providers for hosting their servers in our data centre.

We believe this focus on increasing data consumption and focus on heavy data users will be a good source of revenue growth in medium-to-long term.

Pay TV

We continue to invest in improving customer experience in Phase III and Phase IV of Pay TV markets by seeding high quality boxes and continuous focus on increasing the number of channels. This has helped us increase Phase III and Phase IV ARPU by 45% in FY 2018 and this will remain a key enabler for growth in FY 2019 as well.

In Phase I and Phase II markets, we are investing in transforming customer-viewing experience by introducing low price-high quality HD boxes. This has picked up pace in Q4 FY 2018 and will be a big driver in FY 2019.

Transforming customer service experience

We continue our focus on making lives of our customers easier by increasing their broadband speed and by offering value-added services.

Through focus on network upgradation, we have doubled the speed for our customers in majority of key markets, allowing us to eliminate digital divide for erstwhile slow speed customers.

On value-added services, we launched our easy-to-use, low cost home surveillance solution. This allows our customers to monitor their homes online and increase their productivity. We also launched our upgraded Wi-Fi device – a solution that provides our customers with enhanced Wi-Fi signal strength that extends and improves the Wi-Fi signal throughout the customers' home.

Cost optimisation

With an objective of taking cost leadership in the wireline market, we started several projects to identify and remove out waste from our business.

This primarily happened through reduction of the organisational layers from 9 to 5 and removal of duplicate processes and automation. This is demonstrated by the fact that we delivered approximately ₹ 50 Cr. in Opex. cost savings in FY 2018.

Hathway today is very different from the traditional cable company that we were five years ago. We have strengthened our Cable Television base, have diversified successfully and profitably into high-speed broadband business and we are also more competitive and resilient. We have increased our focus on creating exceptional customer experiences that sets us apart from competition. While our transformation continues, I am confident that a strong foundation is in place to evolve our business to the next level and thrive in this digital world.

We enter FY 2019 energised, enthusiastic and purposeful as we embrace many opportunities given by digitally-connected world.

On behalf of all of us at Hathway, thank you for your continued trust and support.

Thank You,

Rajan Gupta

Powered to speed on...

We are powered to speed on into the future by our differentiated growth strategy. It is a strategy crafted to deliver greater efficiencies, accelerated growth, improved customer experience and higher value to all stakeholders.

A growth strategy crafted for the future

Fast-tracking into the future with technology

Our business model is structured around a powerful core of intrinsic strengths, which we are continuously augmenting through strategic investments. Technology has emerged as a key driver of our growth strategy and we have in place, high-end infrastructure that deploys advanced technology and state-of-the-art equipment. Partnering us in this fast-track journey of growth and expansion are several Indian and global technology leaders, who are helping us make our business infra-ready to delight our customers, while speeding up growth in our subscriber base.

dictum that the slow

***But that was

Where speed is of essence...

With Internet, came the concept of high-speed communication, which we have taken to new levels with our best-in-class technology initiatives, coupled with unique products and service offerings.

We are cognizant of the criticality of speed to the success of our Broadband business, in which we have the biggest share of the Indian market pie. We continue to build on this competitive advantage through innovative schemes and plans, backed by technological infrastructure development, year-on-year.

FY 2018 saw us increase the base speed for all customers to 40 MPBS, taking the average speed nationally to 60 MBPS, while enhancing the data limits of all customers by 200 GB per month. Our new data centre and the various alliances we have forged on hosting content servers and peering, caching etc., are steering this game-changing transition, opening new avenues for augmenting customer engagement by offering better value for money.

Wired for fast-paced growth

The demand potential for our high-speed wireline Broadband service is manifest in the growth and the average usage is 103 GB per consumer per month. Armed with higher bandwidth and greater speed potential in data transmission, fibre optic cable continues to drive broadband growth across the country and we are ideally positioned to harness this growth opportunity.

Our Cable Television business showed an increase in ARPU whereby, ARPU for Phase I and II reached to ₹ 105* and ₹ 108* respectively, while the ARPU for Phase III reached to ₹ 70* as compared to ₹ 50* in the previous year and Phase IV ARPU has reached ₹ 55*, a strong improvement in rates and efficiencies which is clearly visible in this business segment.

*Excluding taxes.

Leveraging speed to boost customer loyalty

Taking our speed thrust to a new level, we have further strengthened the value proposition for our customers:

- ☛ We have partnered with Microsoft to give 1 TB cloud storage and MS Office package to our year pay term customers on FOC basis. This enables them to download unlimited content on high speed and storing practically unlimited videos and other content
- ☛ We have also started deploying GPON Fibre to the Home Services in high potential DOCSIS markets, beginning with South Mumbai and parts of Bengaluru. We are offering 200 MBPS speed with 1000 GB data to our premium customers in these markets, enabling us to increase consumer stickiness and boost revenue as we move faster towards increasing our market share

Strengthening technological infrastructure

As we accelerate our growth strategy to power future expansion in the Broadband segment, we are completely focussed on strengthening the technological infrastructure across the value chain of this business – from Marketing to Sales, Customer Service, Billing and Collection, Call Centre and Technical Compliance.

- ☛ With the adoption of Oracle Billing and Revenue Management system, we have already leapfrogged into the next generation of high-speed growth
- ☛ We have launched our self-care app “Hathway Broadband” to provide customers easy access to their data usage pattern and billing cycle, enabling them to seamlessly make online payments

Speeding up the process of digitisation

Using digital tools and automation has emerged as a key area of our efforts to strengthen our customer proposition for the future:

- ☛ The appointment of TCS as a system integrator to automate various processes and improve quality of service is another significant initiative which we expect to contribute to ring-fencing our high ARPU consumers
- ☛ The implementation of our Microsoft world-class CRM solution and chat board are well on track
- ☛ We have also partnered with various content providers, education portals and other lifestyle improvement players to create a more experiential interface for our customers
- ☛ Our collaborative venture with Yupp TV is providing a host of customer-centric services, while our LCO partnership, facilitated by close coordination between the Broadband and Cable on-ground teams, is co-creating new expansion plans

Ramping up customer engagement

A diversified channel portfolio with 50+ HD channels, innovative packages customised to local needs, along with pre-paid services for primary subscribers and a unique electronic programme guide (EPG) for easy navigation – these are some of the elements of our customer delight proposition in Cable Television business.

Increasing speed, improved service and growth in GBs per month are among the initiatives launched to deliver more value to our existing customers across the geographical expanse of the country.

In addition to the Productivity app, we are engaged in key enhancements in our Sales app, along with H-Fibre installation to reduce the turnaround time (TAT), while the shift to a new System Integrator will improve delivery and monitoring process, as well as manageability.

Future-forward on the back of technology

Moving forward, we remain focussed on strengthening our customer proposition through more powerful technological initiatives to boost productivity. The roll-out of our FOS Productivity app in the first quarter of FY 2019 is aimed at faster assignment of field complaints to FOS, followed by their speedy resolution. The app will increase the average productive hours per FOS across India.

We are also striving to strengthen the simple SMS technology to close-loop complaints. Use of 2-way SMS will improve customer complaint delivery, with prompt response to customer feedback – the basic pillar of this methodology.

It is our constant endeavour to improve customer interface with the focussed aim of streamlining the payment process, improve self-service and reduce activation times for our customers.

Technological adoption has, in fact, emerged as a way of life at the Company, which has undertaken a series of initiatives over the past six months to reduce TAT and improve online performance. Our technological innovations are facilitating deeper and stronger customer engagement, which we see translating into increased growth and revenues in the future.

With actor R Madhavan donning the mantle of our pan India brand ambassador, **we have stepped up the pace of our transition into the Broadband of the future.**

Scaling customer experience...

Our Cable Television business offers the dual advantage of the speed of digitisation and the robustness of cable connectivity to scale-up our customer experience manifold. As an early proponent and adopter of digitisation, we have mastered the intricacies of the process of transition through effective monetisation, resulting in significant ARPU increase – right from Phase I to Phase IV of digitisation.

Customer focus remains the key to our growth, amid an increasingly competitive industry landscape. Our business strategy in this segment is centred on retaining customers, propelling incremental growth in EBIDTA quarter-on-quarter, while concurrently ring-fencing all our high ARPU customers.

Of our total digital base of 7.2 Mn subscribers, we have 0.35 Mn primary subscribers, spread across 350+ cities, while the remaining are managed through LCOs.

A de-risked business model is sustaining our growth momentum in this segment, through a combination of steady revenues from customers and broadcasters, as well as limited fixed overheads, backed by higher bargaining power with broadcasters. Our diversified core strengths has enabled Hathway's emergence as one of India's largest MSOs, operating on several head-ends in various geographies around the country.

Content is directly downloaded from broadcasters and transmitted via a robust technological framework to LCOs, or directly to subscribers. Of our total digital base of 7.2 Mn subscribers, we have 0.35 Mn primary subscribers, spread across 350+ cities, while the remaining are managed through LCOs.

Total Comprehensive Income/(Loss)	78.92	(154.31)	(105.21)	(193.19)

During the year under review, the total income of your Company was ₹ 556.51 Crores on a standalone basis and ₹ 1544.36 Crores on a consolidated basis as compared to the previous financial year's total income of ₹ 1330.50 Crores on a standalone basis and ₹ 1368.23 Crores on a consolidated basis. For the financial year under review, the Company has earned net profit of ₹ 78.92 crores on a standalone basis reflecting a significant growth of 151.00% as against net loss of

₹ 154.31 crores in the previous financial year. During the year under review, the net loss of the Company was ₹ 105.21 crores compared to ₹ 193.19 crores in the previous financial year on a consolidated basis.

As of closing hours of 31st March 2017, the Company had transferred its Cable Television business through slump sale to its wholly owned subsidiary, Hathway Digital Private Limited. Hence the standalone numbers for the current financial year are not comparable with the standalone numbers of previous financial year.

b. Operational Highlights:

During the year under review, the broadband business has performed exceptionally well. The new upgraded technology DOCSIS 3.1, advent of GPON Fiber to the home, delighting customers with enhanced data limits and efficient customer services have helped your Company reach 5th position in cable wireline broadband. (Source TRAI - The Indian Telecom Services Performance Indicators - Jan - Mar, 2018)

Your Company has carved out its Cable Television business and transferred it to its wholly owned subsidiary – Hathway Digital Private Limited (f.k.a Hathway Datacom Central Private Limited), through slump sale as of closing hours of March 31, 2017. Hathway Digital Private Limited (HDPL) is now, one of the largest MSO with 7.2 Mn digital subscribers

which are spread across pan India. HDPL has made concentrated efforts to accelerate monetisation across all the phases.

During the year, the focus has been on monetisation of Phase III and IV in Cable Television Business and to increase Broadband foot prints through, network expansion in Chennai, Indore and Kolkata.

GTPL Hathway Limited, one of the Joint ventures of your Company, has been successfully listed on BSE Limited and National Stock Exchange of India Limited on 4th July, 2017. Your Company had offered sale of 7.2 Mn shares in the Initial Public Offer (IPO) and money received from such sale of shares has been used for repayment of debt. Post the IPO, the Company now holds 37.32% in GTPL Hathway Limited.

BROADBAND BUSINESS:

Due to constant focus on network expansion, your Company has added 0.8 Mn Home Pass during the year, reaching 5.2 Mn Home Pass at the end of the year under review.

India has around 17.96 Mn wireline broadband subscribers as on 31st March, 2018 (As per revised definition i.e. a Broadband customer is a customer having minimum speed of 512 kbps). Comparing the trend on year on year basis, the wireline broadband number has declined by 0.28 Mn subscribers (March 2017 18.24 Mn) [Source -TRAI report December 2017]. However, your Company has added 0.16 Mn customers during the year. Customers increasingly prefer wireline broadband as it allows online media consumption and seamless accessibility of data to multiple devices while at home.

As of 31st March, 2018, your Company has 0.80 Mn broadband subscribers with ARPU of ₹ 710/. With high quality and high capacity Hybrid Fiber Coaxial (HFC) Network, your Company is well placed to garner a larger share of high speed broadband market.

Your Company is providing services in all 4 metros and all major mini metros with latest addition of ultra-high speed 'GPON FTTH' technology in South and West regions. Your Company is the first MSO to provide GPON FTTH service to retail customers. GPON FTTH facilitates data speed up to 1 Gbps and the equipment and network is designed to provide data speed upto 1 Gbps without any incremental investment. Your Company currently offers data speed up to 200 Mbps – 500Mbps to premium customers and provides data limit up to 1 Terabytes per customer per month (PCPM).

The average download PCPM has now increased to 103 GB / PCPM which clearly shows the consumption pattern shift from the small screen to larger screen.

We continue to upgrade our Docsis 3.0 customers to 3.1 and at the same time GPON FTTH parallel network is being deployed in high potential Docsis home passes. This increases the opportunities to increase market share by offering 200-500 Mbps speed to premium customers.

The customer consumption habits have changed and their experience of watching content has been enhanced in last 3 years due to abundant availability of regional content and content provided by Over The Top (OTT) players such as Netflix, Hotstar, Voot, Zee5, Sun Nxt, Yupp TV etc. This allows your customers to watch media content on the larger screen without compromising on the speed.

Your Company is equipped with technical upgrades that can provide speed up to 1 Gbps with nearly unlimited data access (upto 1024 GB/PCPM) at any point of time without any further investment or increase in cost.

Our National brand ambassador is versatile and popular actor R. Madhavan, he has added star power to drive the broadband business. He is a well-known actor and has been among the early movers in digital phenomenon and we are extremely proud to have him as the face of our brand.

CABLE TELEVISION BUSINESS:

Your company's footprints through its 100% wholly owned subsidiary i.e. HDPL in DAS III and IV market has now started getting monetised. During the year, in the Phase III and IV market the ARPUs have significantly increased to ₹ 70/- from ₹ 50/- last year and subsequently the Phase IV ARPUs have now reached ₹ 55/- which has resulted in healthy growth in subscription revenue.

The Company's online portal "Hathway Connect" has been implemented in 2/3rd of our customer base and 55% of payment by LCOs and primary subscribers are now paid online. This creates stability in business and increase in collection efficiency to 98%.

New regulation

With reference to the new regulations i.e. Telecommunication (Broadcasting and Cable) Services Interconnection (Addressable Systems) Regulations, 2017 (The Regulations), the Telecommunications

(Broadcasting and Cable) Services (Eighth) (Addressable Systems) Tariff Order, 2017 (The Tariff Order) and The Telecommunication (Broadcasting and Cable) Services Standards of Quality of Service and Consumer Protection (Addressable Systems) Regulations, 2017 (QOS) brought in by the Sector Regulator-Telecom Regulatory Authority of India and notified on 3rd March, 2017, which were stayed, have now, post the Order by majority pronounced by the Hon'ble High Court of Madras on 2nd March, 2018 and 23rd May, 2018 have been vacated, where it was pending for hearing.

The Madras High Court after hearing all parties to the Writ Petition vide its majority view, has rejected the plea of Star India Private Limited and Vijay Television Private Limited and held that the challenge to the Regulation and Tariff Order by the above Broadcasters should fail.

These regulations envisage sweeping changes in the existing model and is expected to benefit all the stakeholders in the value chain (viz) Broadcaster, MSO, LCO and Customer. The proposed regulation is the outcome of several issues arising out of flaws and imbalances in the erstwhile regulatory regime which was skewed in favour of the broadcaster and LCO.

IT & Other initiatives

To serve our growing customer base and taking the lead for future your Company has taken various initiatives on backend IT support.

The Company has tied up with Tata Consultancy Service (TCS) as Implementation Partners to automate various functions/processes and to improve the Quality of services.

To support "Digital India" Flag ship campaign and for customer convenience, your company has promoted the "Go Cashless" options by encouraging online payment options including a tie up with digital wallet platforms to encourage LCOs and the Subscribers to pay online. Due to these initiatives we now receive 70% of our Broadband collections online and 55% of our Cable television business collections online.

The Company is focusing constantly on utilisation of technology to automate its processes across functions to achieve cost optimisation.

c) Consolidated Accounts:

The consolidated financial statements of your Company for the financial year 2017-2018 are prepared in compliance with applicable provisions of

the Companies Act, 2013, Indian Accounting Standards ("Ind AS") notified u/s 133 of the Companies Act, 2013 and relevant rules issued thereunder and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (SEBI (LODR)) as prescribed by the Securities and Exchange Board of India.

d) Report on performance of subsidiary companies, associate companies and joint ventures:

A statement containing the performance and financial position of each of the subsidiaries, associates and joint ventures for the financial year ended 31st March, 2018 is given pursuant to Section 129(3) of the Companies Act, 2013 read with Rule 5 of the Companies (Accounts) Rules, 2014 (including any subsequent amendment thereof) in AOC-1 in **Annexure - I** to this report.

j) Disclosure of Internal Financial Controls:

Your Company's internal controls are commensurate with its size and the nature of its operations. These have been designed to provide reasonable assurance with regard to recording and providing reliable financial and operational information, complying with applicable statutes, safeguarding assets from unauthorised use, executing transactions with proper

authorisation and ensuring compliance of corporate policies. Your Company has a well-defined delegation of power with authority limits for approving revenue as well as expenditure. Your Company uses an enterprise resource planning (ERP) system to record data for accounting and management information purposes and connects to different locations for efficient exchange of information. Your Company had already developed and implemented a framework for ensuring internal controls over financial reporting. This framework includes entity level policies, process and operating level standard operating procedures. It has continued its efforts to align all its processes and controls with global best practices.

The entity level policies include code of conduct, whistle blower policy and other policies (like organisation structure, insider trading policy, HR policy, Electronic Communication policy and Forex policy). The Company has also prepared Risk Control Matrix (RCM) for each of its processes like procure to pay, order to cash, treasury, fixed assets, inventory etc.

The Management Audit Team (MAT) had conducted a review and evaluated the design, adequacy and operating effectiveness of the Internal Financial Controls of the Company. Management testing has been conducted on a sample basis for Revenue ISP, Expenses and payables, Fixed Assets, Inventory, Procure to pay processes, Borrowings, Investments, Leases, Forex Exposure and Hedging, Compliances, Related Party, Consolidation, Retirement Benefit, Finalisation, Loans & Advances, Contingent Liability and remedial action has been taken or agreed upon with a finite closure date where control weaknesses were identified. A summary of operating controls covered during the year are as follows:

Sr. No.	Particulars	No.
1	Total controls	1158
2	Controls verified	1103
3	% of coverage	96

During the year, no reportable material weakness in design and effectiveness was observed.

Based on the above, the Management believes that adequate Internal Financial Controls exist in relation to its Financial Statements.

k) Particulars of loans, guarantees, investments and securities:

As per Section 186 (11)(a) read with Schedule VI of the Companies Act, 2013, since the Company qualifies to be the Company providing infrastructural

facilities, it is exempted from the applicability of Section 186 except for sub-section (1) of section 186 of the Companies Act, 2013. Accordingly, disclosure of details with respect to investment made, loan given, guarantee given and security made during the financial year 2017-18 in terms of Section 186(4) of the Companies Act, 2013 is not applicable.

The Company maintains that Board appointments should be based on merit that complements and expands the skills, experience and expertise of the Board as a whole taking into account knowledge, professional experience and qualifications, gender, age, cultural and educational background and any other factors that the Board might consider relevant and applicable from time to time for it to function effectively. In the process of attaining a diverse Board based on the aforementioned criteria, the following criteria needs to be assessed:

I. OPTIMUM COMPOSITION

- The Board shall have an optimum combination of executive and non-executive directors and not less than fifty per cent of the Board of Directors comprising non-executive directors;
- At least half of the Board should comprise of independent directors (where the Chairman of the Board is executive) or at least one-third of the Board should comprise of independent directors (where the Chairman of the Board is non-executive);
- The Company shall continue to have at least one woman director on the Board to ensure that there is no gender inequality on the Board.

II. RECOMMENDATION

While recommending the appointment of new directors, the Committee will:

- Review Board composition, consider the benefits of all aspects of diversity including, but not limited to, those described above, in order to enable it to discharge its duties and responsibilities effectively.
- Identify suitable candidates for appointment to the Board, consider candidates on merit against objective criteria and with due regard for the benefits of diversity on the Board.

PART D-POLICY ON DIVERSITY OF BOARD OF DIRECTORS OF THE COMPANY**A. POLICY STATEMENT**

The Company recognizes and embraces the benefits of having a diverse Board that possesses a balance of skills, experience, expertise and diversity of perspectives appropriate to the requirements of the business of the Company. Diversity at Board level is an essential element in maintaining a competitive advantage. A truly diverse Board will include and make good use of varieties of skills, regional and industry experience, background, race, gender and other distinctions between directors. These differences will be considered in determining the optimum composition of the Board and when required should be balanced appropriately.

III. FUNCTIONAL DIVERSITY

- a) Appointment of directors to the Board of the Company should be based on specific needs and business of the Company. Appointment should be done based on the qualification, knowledge, experience and skill of the proposed appointee which is relevant to the business of the Company;

MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW OF ECONOMY

GLOBAL ECONOMY OVERVIEW

The acceleration in global activity that started in 2016 gathered steam in 2017, reflecting firmer domestic demand growth in advanced economies and improved performance in other large emerging market economies. Global growth is set to be just over 3.5% in this calendar year 2018, the fastest for seven years, with improved outcomes in both advanced economies and the EMEs. Confidence measures and levels of new orders for businesses remain strong. This long awaited lift to global growth, supported by policy stimulus, is being accompanied by solid employment gains, a moderate upturn in investment and a pick-up in trade growth. The continued expansion depends on robust global growth and governments' support for right trade policies. However, there are signs that escalating trade tensions may already be affecting business confidence and investment decisions, which could compromise the current outlook. (Source: IMF and OECD).

INDIAN ECONOMY OVERVIEW

Indian economic growth is giving a positive signal for the current and future scenario. It is projected to strengthen to above 7%, gradually recovering from the transitory adverse impact of rolling out the Goods and Services Tax (GST) and measures to choke off the black economy, including demonetisation. India's GDP grew 7.2% in the third quarter of 2018, surpassing expectations

and wresting back the mantle of fastest growing economy from China on the back of a rebound in industrial activity, especially manufacturing and construction and an expansion in agriculture. Reserve Bank of India has estimated GDP growth in a range from 7.4% to 7.9% for the Financial Year 2019-2020. (Source: OECD and Economic Times)

Fiscal deficit for 2017-18 is revised to INR 5.95 lakh Cr at 3.5% of the GDP which is approximately the same as 2016-17 inspite of transformation in the economy. In addition to initiatives like; "Make in India", "Housing for All", "Digital India" government has also introduced "Sagar Mala" and "Bharat Mala" initiatives which are expected to boost the domestic growth of the country. In 2016, the Indian television, film and digital media Industry was at INR 808 Bn. It is growing with a CAGR of more than 12% and is expected to reach INR 1,242 Bn by 2020. The addition of over INR 434 Bn by these 3 segments is expected to transform the way the content is produced, delivered and accessed by the consumers leading to an exponential growth in value creation for the entire ecosystem

Consumers, who have at least one Pay TV subscription and/or OTT subscription are driven by sachet pricing of content, would provide a high volume-lower value subscription base to content distributors. This segment could, on the back of digital and micro payment systems being rolled out in the country, reach as high as 20 Mn households from 6 Mn in 2017.

Mass consumers would form the largest segment of the M&E sector in 2020. These consumers would consume traditional media (either pay or free) and free OTT content, on the back of falling data charges and growing free Wi-Fi access. These consumers are expected to cross 500 Mn by 2020 from around 200 Mn in 2017.

Indian Broadband Industry

India's internet market has grown significantly in recent years, with total internet subscribers increasing by a CAGR of 17.9% from 238.7 Mn subscribers in 2013, to 446.0 Mn in 2017 according to TRAI. Mobile internet has led this growth, driven by the proliferation of internet-enabled mobile devices and 3G/4G network deployments by telecom operators (Telco's). Mobile internet subscribers grew at a CAGR of 18.9% from 220.4 Mn in 2013 to 424.7 Mn in 2017. Wired internet subscribers grew over the period at a CAGR of 5.5% from 18.3 Mn subscribers in 2013 to 21.3 Mn in 2017.

Wireline Broadband Internet penetration in India

While the advent of 3G/4G services has led to a rapid increase in mobile broadband penetration per capita (from 2.6% in 2013 to 17.2% in 2016, based on MPA estimates), fixed broadband penetration has only improved marginally from 5.5% of total households as of 31 December 2013 to 6.8% as of 31 December 2017. MPA believes both fixed and mobile broadband penetration will expand at a robust pace over the next five years as mobile and fixed broadband incumbents ramp up their existing networks. Mobile broadband penetration will surge from 23% of the population in 2016 to 37.9% by 2022. During the same period, the country's fixed broadband penetration of households will increase from 6.8% to 7.4% in CY2018 driving the growth in India's fixed broadband subscriber base at a CAGR of 10.4% from 17.86 Mn subscribers in 2017 to 32.4 Mn subscribers by 2022.

Key Fixed Broadband Technologies Deployed

In anticipation of impending consumer and enterprise demand, fixed broadband providers are investing in technologies that offer faster broadband services. As of 31 December 2017, MPA notes that over 70% of fixed broadband homes in India are still connected through legacy ADSL networks. The future fixed broadband deployments in India will be led by FTTx-based technologies such as GPON.

Average Revenue Per Unit (ARPU)

India has one of the lowest broadband ARPUs across Asia Pacific, but the scale of the market puts it in the top five in terms of broadband revenue. MPA forecasts that India will generate USD 4.8 Bn in revenue in 2022, putting it ahead of more advanced broadband markets such as Thailand and Taiwan. India is a long way away from achieving the revenue levels of markets such as China or Japan. However, India will be the fastest growing fixed broadband market in Asia Pacific during 2017-2021, exhibiting a CAGR of 10.9%.

The Competitive Landscape of India's Fixed Broadband Market

India's fixed broadband market is highly competitive, with multiple national and regional players. It is dominated by the state-owned telco BSNL, although the company's market share has been diminishing. MPA estimates that BSNL, along with fellow telco incumbents MTNL and Bharti Airtel, accounted for 70% of total fixed broadband subscribers as of 30 March 2018, with cable operators and ISPs taking up the remainder. In recent years, cable broadband players have managed to eat into the telco player's share. Telco incumbents have also come under pressure following intense competition in the voice and mobile data business.

Distribution System

Fragmented Market

The distribution segment in India has an estimated 60,000 local cable operators (LCOs) and more than 1,469 multi-service operators (MSOs). There were six pay direct-to-home(DTH) operators and Doordarshan's free satellite service in operation.

In addition, there was one Headend-in-the-sky (HITS) operator. The DTH companies and 10 largest MSOs dominated the market, serving around 65% of pay TV homes.

TV viewing households grew to 183 Mn

Of the estimated 286 Mn households in India, TV penetration reached 64% taking the total number of TV viewing household to 183 Mn in 2017, which is a 3.5% growth over 2016. This accounted for approximately 780 Mn viewers. 83% of the total TV households were paying households.

Rural TV penetration crosses 50%.

Consolidated cable subscription revenue during the year stood at INR 573.3 Crores versus INR 472.8 Crores in the previous year, reflecting an improvement of over 21% YoY. The technology innovation and transparency with channel partners has led our company to increase ARPUs year on year in our Cable television business.

During the year the ARPUs from Phase I and Phase II markets were INR 108 and INR 102 per subscriber per month respectively. In Phase III markets, ARPUs grew significantly from INR 50 to INR 70 per subscriber per month and Phase IV is now being monetised at an ARPU of INR 55.

Your company is one of the pioneers to provide STBs ahead of digitisation to the Indian consumer, giving them access to premium quality and niche entertainment content, thereby enhancing the viewing experience. Your company today is one of India's largest cable television distribution company serving over 7.2 Mn digital homes in over 350+ cities.

Hathway Connect – Online Portal

The company's online portal, Hathway connect, has been implemented in 2/3rd of our customer base and 55% of payment by LCOs and primary subscribers are now paid online. This creates stability in business and has increased collection efficiency to 98%.

DTH subscribers grew, but ARPUs were under pressure

The number of active DTH subscribers in India grew by over 3 Mn during 2017, primarily driven by digitisation in DAS III and DAS IV markets. However, due to demonetisation, implementation of GST and introduction of low value packs for rural markets and to counter the competition from Free Dish, ARPU has been flat at around INR 220 per month as compared to previous year, despite muted increases in package prices.

HD subscribers crossed 10 Mn

As per industry estimates, HD grew with digitisation and has been estimated to cross 10 Mn, on the back of increased sale of large television screens of 40 inches and above, where the viewing experience requires higher quality content. In addition, many distributors are providing over 80 HD channels, including sports which is a large incentive for subscribers. HD audiences contribute to higher revenues for distribution companies due to the premium pricing that such channel commands. This will be the next subscription growth driver.

OTT- A new name of entertainment

Over-the-Top (OTT) video viewing is a digital wave transforming the way we consume video in India. Television is viewed almost everywhere, on-demand, on-the-go, across devices and geographies, owing to burgeoning OTT platforms coupled with rapidly increasing Internet services.

Increasing bandwidth capacity and falling prices, best bundles for voluminous media consumption. The growth in smartphone penetration and improvement in Internet speeds is evolving into a multi-screen, time-shifted, mobile environment, with viewers deeming their smart device as their primary source of media and entertainment. The OTT video market in India is bustling with competition as leading operators Hotstar, Zee5, dittoTV, Jio TV, Amazon Prime Video, Netflix, ErosNow, and YuppTV battle to penetrate this lucrative market. According to Frost & Sullivan, there were 70 Mn unique video viewers in India (2016) with 1.3 Mn paid subscribers. Currently, there are at least 80 Mn unique connected-video viewers, with at least 1.75 Mn OTT paid-video subscribers. With a high growth rate of almost 30 percent, this number is rising rapidly with the recent unveiling of high speed broadband services.

Company Overview

Hathway Cable & Datacom Limited, is one of India's leading Broadband players having 5.2 Mn Home passes and 0.8 Mn subscriber base. It is India's first MSO to launch GPON FTTH service in India.

The Stand-alone financials of the Company are not comparable due to slump sale of its Cable television business to 100%

subsidiary Hathway Digital Private limited (formerly known as Hathway Central Datacom Private Limited) as of the closing hours of 31st March 2017.

Hathway Digital Private limited is a MSO, with 6+ main head ends and a network of approximately 35,000 Kms of optical fibre and coaxial cable, providing cable services to 7.2 Mn viewers (including through its fellow subsidiaries & associates) pan India and reach to 350+ cities and adjoining areas.

INDEPENDENT AUDITOR'S REPORT

To the Members of Hathway Cable and Datacom Limited

REPORT ON THE STANDALONE FINANCIAL STATEMENTS

We have audited the accompanying standalone financial statements of Hathway Cable and Datacom Limited ('the Company'), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (herein after referred to as "standalone financial statements").

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") specified under section 133 of the Act read with the relevant rules issued thereunder and relevant provisions of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters, which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act and other applicable pronouncements issued by the Institute of Chartered Accountants of India ("ICAI"). Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to

obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including the Ind AS, of the state of affairs of the Company as at March 31, 2018, and profit including (Other Comprehensive Income), its cash flows and the changes in equity for the year ended on that date.

OTHER MATTERS

The standalone financial statements of the Company for the year ended March 31, 2017 were audited by predecessor auditor who expressed an unmodified opinion on those statements on May 30, 2017.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 1 under "Report on Other Legal & Regulatory Requirements" of our report on even date to the members of the Company on standalone financial statements for the year ended March 31, 2018:

- (i) (a) The Company has maintained records of Property, Plant and Equipment showing particulars of assets including quantitative details and location except in case of certain types of distribution equipments like cabling, line equipments, access devices with end users. In view of the management, nature of such assets and business is such that maintaining location-wise particulars is impractical;
- (b) Distribution equipments like cabling and other line equipments of selected networks were verified. The management plans to verify balance networks in a phased manner. Property, Plant and Equipment, other than distribution equipments and access devices with the end users were physically verified during the year based on verification programme adopted by the management. As per this programme, all assets will be verified at least once in a period of three years. The management has represented that physical verification of access devices with the end users is impractical; however, the same can be tracked, in case of most of the networks, through subscribers management system;
- The Company is in the process of reconciling book records with outcome of physical verification, wherever physical verification was carried out and have accounted for the discrepancies observed on such verification;
- In our opinion, frequency and procedure for verification of distribution equipments and subsequent reconciliation with book records need to be strengthened;
- (c) The Company does not hold any immovable properties. Accordingly, the paragraph 3(i)(c) of the Order regarding title deeds of immovable properties is not applicable;
- (ii) (a) Inventories have been physically verified during the year by the management. In our opinion, the frequency of verification is reasonable;
- (b) The discrepancies noticed on physical verification as compared to the book records were not material having regards to size and nature of operations and have been properly dealt with in the books of account;
- (iii) (a) The Company has granted unsecured loan to parties covered in the register maintained under section 189 of the Act;
- (b) In our opinion, the terms and conditions on which the loans had been granted to the companies listed in the register maintained under section 189 of the Act were not, prima facie, prejudicial to the interest of the Company
- (c) According to the information and explanations given to us, no repayment schedules have been specified in respect of such loans granted and accordingly, the question of regularity in repayment of principal amount does not arise;
- (d) There is no amount which is overdue for more than ninety days in respect of such loans.
- (iv) Based on the audit procedures applied by us, during the year under audit, the Company has not granted loans, guarantee and security or made investments which require compliance in terms of the provisions contained in the section 185 or section 186 of the Act. The Management has, based on legal opinion, represented that overdue book debts are not in the nature of loan and hence do not fall within the scope of section 185 of the Act. In such circumstances, para 3(iv) of the Order is not applicable;
- (v) In our opinion and according to the information and explanation given to us, the Company has not accepted deposits from the public and therefore, the provisions of sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under are not applicable to the Company. We have been informed by the management that no order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal in this regard;
- (vi) The Central Government has prescribed maintenance of cost records under section 148(1) of the Act, for the products manufactured by the Company. We have broadly reviewed the books of account maintained and in our opinion; prima facie, the prescribed accounts and records have been made and maintained by the Company. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete;

- (vii) (a) The Company has generally been regular in depositing with appropriate authorities undisputed statutory dues such as provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, goods and service tax, cess and other applicable statutory dues. According to information and explanations given to us, no undisputed statutory dues payable were in arrears as at March 31, 2018, for a period of more than six months from the date they became payable;

- (b) The details of dues of income tax, sales tax, service tax, duty of customs, duty of excise or value added tax or cess which have not been deposited with the concerned authorities on account of dispute are given below:

Sr No	Name of the Statute	Nature of the Dues	Amount involved (in crores)	Period to which the amount relates	Forum where dispute is pending
1	Finance Act, 1994	Service Tax	0.04	April 2003 to March 2004	Commissioner (Appeals), Service Tax
2	Central Sales Tax Act, 1958	Central Sales Tax	0.02*	2011-12	Deputy Commissioner Appeals
3	Finance Act, 1994	Service Tax	3.70	2003-04 to 2006-07	Additional Commissioner Service Tax

* Amount demanded is fully paid

- (viii) Based on our audit procedure and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to the financial institutions, bank, and government. The Company has not issued any debentures;
- (ix) In our opinion and according to the information and explanations given to us and based on overall examination of records, the term loans have been applied for the purpose for which the loans were obtained; The Company did not raise any money by way of initial public offer or further public offer (including debt instruments);
- (x) To the best of our knowledge and belief and according to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year;
- (xi) According to the information and explanations give to us and based on our examination of the records of the Company, the Company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197, read with Schedule V to the Act;
- (xii) In our opinion and according to information and explanation given to us, the Company is not a Nidhi Company. Accordingly, paragraph 3 (xii) of the Order is not applicable to the Company;
- (xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards;
- (xiv) Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to information and explanations given by the management, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable to the Company;
- (xv) Based on our audit procedures performed for the purpose of reporting the true and fair view of the financial statements, the Company has not entered into any non-cash transactions with directors. We have been informed that no such transactions have been entered into with person connected with directors. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company; and
- (xvi) The Company is not required to be registered under section 45 IA of the Reserve Bank of India Act, 1934.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER SECTION 143(3)(i) OF THE ACT

We have audited the internal financial controls with reference to financial statement of the Company as of March 31, 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statement based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statement and their operating effectiveness. Our audit of internal financial controls with reference to financial statement included obtaining an understanding of internal financial controls with reference to financial statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statement.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

A company's internal financial control with reference to financial statement is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statement includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to financial statement, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statement to future periods are subject to the risk that the internal financial control with reference to financial statement may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statement and such internal financial controls with reference to financial statement were operating effectively as at March 31, 2018 based on the internal control with reference to financial statement criteria established by the Company considering the essential components of internal control stated in the Guidance Note.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

BACKGROUND

Hathway Cable and Datacom Limited ("the Company") is a Public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is engaged in distribution of internet services through cable and has strategic stake in entities engaged in Cable Television business. Its equity shares are listed on National Stock Exchange of India Limited (NSE) & Bombay Stock Exchange Limited (BSE) in India.

Authorisation of standalone financial statements

The standalone financial statements were authorised for issue in accordance with a resolution of the directors on May 28, 2018

1.00 SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the presentation of these standalone financial statements.

1.01 BASIS OF PREPARATION

(i) Compliance with Ind AS

The standalone financial statements comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 ("the Act"), and relevant rules issued thereunder and relevant provisions of the Act. In accordance with proviso to the Rule 4A of the Companies (Accounts) Rules, 2014, the terms used in these financial statements are in accordance with the definitions and other requirements specified in the applicable Accounting standards.

(ii) Historical cost convention

The standalone financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) is measured at fair value; and
- defined benefit plans – plan assets measured at fair value

1.02 ROUNDING OF AMOUNTS

All amounts disclosed in the standalone financial statements and notes have been rounded off to the nearest crores, except where otherwise indicated.

1.03 CURRENT VERSUS NON-CURRENT CLASSIFICATION

The Company presents its assets and liabilities in the balance sheet based on current / non-current classification.

An asset is classified as current if:

- it is expected to be realised or intended to be sold or consumed in normal operating cycle;
- it is held primarily for the purpose of trading;
- it is expected to be realised within twelve months after the reporting period; or
- the cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if:

- it is expected to be settled in normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period; or

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

- (iv) there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities on net basis.

All assets and liabilities have been classified as current or non-current as per Company's normal operating cycle. Based on the nature of operations, the Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

1.04 USE OF JUDGEMENTS, ESTIMATES & ASSUMPTIONS

While preparing standalone financial statements in conformity with the Ind AS, the management makes certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities in the statement of financial position date and the reported amount of income and expenses for the reporting period. Financial reporting results rely on our estimate of the effect of certain matters that are inherently uncertain. Future events rarely develop exactly as forecasted and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions. The management continually evaluates these estimates and assumptions based on the most recently available information.

Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the standalone financial statements are as below:

Key assumptions

- (i) Financial instruments; (Refer Note 4.11)
- (ii) Useful lives of Property, Plant and Equipment and Intangible Assets; (Refer Note 1.05 and 1.06)
- (iii) Assets and obligations relating to employee benefits; (Refer Note 4.06)
- (iv) Expected customer relationship period (i.e. expected life of the customer); (Refer Note 1.16)
- (v) Evaluation of recoverability of deferred tax assets; (Refer Note 2.06) and
- (vi) Contingencies (Refer Note 4.02).

1.05 PROPERTY, PLANT AND EQUIPMENT

Property, Plant and Equipment acquired separately

- (i) Property, Plant and Equipment is stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price, non-refundable taxes, any costs directly attributable to bringing the asset into the location and conditions necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, finance cost. The purchase price is the aggregate amount paid and the fair value of any other consideration given to acquire the asset.
- (ii) Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.
- (iii) Access devices on hand at the year-end are included in Capital Work in Progress. On installation, such devices are capitalised or treated as sale, as the case may be.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

- (iv) The residual values and useful lives of Property, Plant and Equipment are reviewed at each financial year end, and changes, if any, are accounted prospectively.
- (v) Stores & Spares which meet the definition of Property Plant and Equipment and satisfy the recognition criteria of Ind AS 16 are capitalised as Property, Plant and Equipment.

Derecognition of Property, Plant & Equipment

- (vi) An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of an item of Property, Plant and Equipment is determined as the difference between the sale proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

Depreciation on Property, Plant & Equipment

- (vii) Depreciation on Property, Plant & Equipment is provided on straight line method. In accordance with requirements prescribed under Schedule II of Companies Act, 2013, the Company has assessed the estimated useful lives of its Property, Plant & Equipment and has adopted the useful lives and residual value as prescribed in Schedule II except for the cost of Access devices at the customer's location which are depreciated on straight-line method over a period of eight years based on internal technical assessment.
- (viii) In case of additions or deletions during the year, depreciation is computed from the month in which such assets are put to use and up to previous month of sale, disposal or held for sale as the case may be. In case of impairment, depreciation is provided on the revised carrying amount over its remaining useful life.
- (ix) All assets costing up to ₹ 5,000/- are fully depreciated in the year of capitalisation.

Deemed cost for Property, Plant and Equipment

The Company had elected to continue with the carrying value of all of its Property, Plant and Equipment recognised as of the date of transition to Ind AS measured as per the previous GAAP and use that carrying value as it's deemed cost as of the transition date.

1.06 INTANGIBLE ASSETS

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Intangible Assets acquired separately

Intangible assets comprises of Network Franchisee, Bandwidth Rights, Goodwill and Softwares.

Intangible assets with finite useful lives that are acquired are recognised only if they are separately identifiable and the Company expects to receive future economic benefits arising out of them. Such assets are stated at cost less accumulated amortisation and impairment losses. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated amortisation and impairment losses."

Intangible Assets acquired in business combination

Intangible Assets acquired in business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

proceeds and the carrying amount of the asset, are recognised in statement of profit and loss when the asset is derecognised.

Amortisation of intangible assets

Intangible assets with finite useful lives are amortised on a straight line basis over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each year end. The amortisation expense on Intangible assets with finite lives and impairment loss is recognised in the Statement of Profit and Loss.

Estimated lives for current and comparative periods in relation to application of straight line method of amortisation of intangible assets (acquired) are as follows:

- Network Franchisee are amortised over the period of five to twenty years.
- Softwares are amortised over the license period and in absence of such tenor, over five years.
- Bandwidth Rights are amortised over the period of the underlying agreements.

The estimated useful lives, residual values, amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Deemed cost for Intangible assets

The Company had elected to continue with the carrying value of all of its Intangible assets recognised as of the date of transition to Ind AS measured as per the previous GAAP and use that carrying value as it's deemed cost as of the transition date.

1.07 IMPAIRMENT OF ASSETS

Carrying amount of Tangible assets, Intangible assets, Investments in Subsidiaries, Joint Ventures and Associates (which are carried at cost) are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or Company's assets (cash-generating units). Non- financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

1.08 NON-CURRENT ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Non-current assets are not depreciated or amortised while they are classified as held for sale.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

Non-current assets classified as held for sale are presented separately from the other assets in the balance sheet.

A discontinued operation is a component of the entity that has been disposed off or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

1.09 INVENTORIES

Inventories are valued as follows:

Spares and maintenance items are valued at lower of cost (net of taxes recoverable) on first in first out basis and net realisable value.

Stock-in-trade comprising of access devices are valued at cost on weighted average method or at net realisable value, whichever is lower.

1.10 CASH AND CASH EQUIVALENTS

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value.

For the purpose of statement of cashflows, cash and cash equivalents consist of cash, short-term deposits as defined above, bank overdrafts and short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value as they are considered as an integral part of the Company's management. Bank overdrafts are shown within borrowings under current liabilities in the balance sheet.

1.11 FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Initial Recognition and Measurement – Financial Assets and Financial Liabilities

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Assets

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVTOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets; and
- the contractual cash flow characteristics of the financial asset.

Amortised Cost:

A financial asset is classified and measured at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

FVTOCI:

A financial asset is classified and measured at FVTOCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVTPL:

A financial asset is classified and measured at FVTPL unless it is measured at amortised cost or at FVTOCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Impairment of Financial Assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Classification and Subsequent measurement: Financial Liabilities

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL.

Gains or losses on financial liabilities held for trading are recognised in the Statement of Profit and Loss.

Other Financial Liabilities:

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of Financial Assets and Financial Liabilities:

The Company de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

Offsetting Financial Instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

1.12 INVESTMENT IN SUBSIDIARIES, JOINT VENTURES AND ASSOCIATES

A subsidiary is an entity that is controlled by another entity. An investor controls an investee if and only if the investor has the following: (i) Power over the investee, (ii) exposure, or rights, to variable returns from its involvement with the investee and (iii) the ability to use its power over the investee to affect the amount of the investor's returns.

An associate is an entity over which the Company has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The Company's investments in its subsidiaries, associates and joint ventures are accounted at cost and reviewed for impairment at each reporting date in accordance with the policy described in note 1.07 above.

1.13 BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an company incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

1.14 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a current pre-tax rate. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed in the case of:

- a present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from the past events, when no reliable estimate is possible;
- a possible obligation arising from past events, unless the probability of outflow of resources is remote.

Contingent Assets is disclosed when inflow of economic benefits is probable.

1.15 GRATUITY AND OTHER POST-EMPLOYMENT BENEFITS

(i) Short-term obligations

Short term employee benefits are recognised as an expense at an undiscounted amount in the Statement of profit & loss of the year in which the related services are rendered.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

(ii) Post-employment obligations

The Company operates the following post-employment schemes:

- defined benefit plans such as gratuity; and
- defined contribution plans such as provident fund

Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised at amount net of taxes in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in Statement of Profit and Loss as past service cost.

Defined contribution plans

The Company pays provident fund contributions to publicly administered provident funds. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(iii) Other long-term employee benefit obligations

The liabilities for leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in statement of profit and loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iv) Bonus Plans

The Company recognises a liability and an expense for bonus. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

1.16 REVENUE RECOGNITION

Revenue is measured at the fair value of the consideration received or receivable.

Income from Rendering of services

Revenue from Operations is recognised on accrual basis based on underlying subscription plan or agreements with the concerned subscribers / parties.

Revenue from prepaid Internet Service plans, which are active at the end of accounting period, is recognised on time proportion basis. In other cases of Internet Service plans, entire revenue is recognised in the period of sale.

Income from services does not include Service Tax (ST) / Goods and Service Tax (GST).

Consultancy Income:

Revenue from consulting services is recognised when the services are completed.

Rental income:

The Company's policy for recognition of revenue from operating leases is described in note below on Leases.

The Company collects GST, Value added Taxes (VAT), ST and Entertainment Tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

Sale of goods

Revenue from the sale of goods is recognised when significant risks and rewards of ownership of the goods have passed to the buyer. Revenue from sale of goods is measured at the fair value of consideration received or receivable. Amount disclosed as revenue are net of returns and allowances, trade discounts and volume rebates but does not include VAT, Central Sales Tax (CST) and GST.

The Company collects VAT and GST on behalf of the Government and, therefore, these are not economic benefits flowing to the Company and hence not included in revenue.

The Company recognises revenue when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the entity.

Other Operating Income

Other Operating Income comprises of fees for rendering management, technical and consultancy services. Income from such services is recognised upon achieving milestones as per the terms of underlying agreements.

Interest Income

Interest income from debt instruments is recognised using the effective interest rate method.

Dividend Income

Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

Share of profit / loss from Partnership firms

Share of profit / loss from Partnership firm is recognised in the Statement of Profit and Loss in respect of the financial year of the Partnership firm ending on or before the balance sheet date, on the basis of its audited accounts.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

1.17 TAXES ON INCOME

Current Tax:

Tax on income for the current period is determined on the basis of estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments / appeals.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax:

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

The break-up of the major components of the deferred tax assets and liabilities as at balance sheet date has been arrived at after setting off deferred tax assets and liabilities where the Company have a legally enforceable right to set-off assets against liabilities.

1.18 EARNINGS PER SHARE (EPS)

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders is adjusted for after income tax effect of interest and other financing cost associated with dilutive potential equity shares and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.19 LEASES

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

As a Lessee

Operating Lease

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to statement of profit and loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a Lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

1.20 FOREIGN CURRENCY TRANSLATIONS

(i) Functional and presentation currency

The Company's standalone financial statements are prepared in INR, which is also the Company's functional and presentation currency.

(ii) Transactions and balances

Monetary items:

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in statement of profit and loss. Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains / (losses).

Non – Monetary items:

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

1.21 FINANCIAL GUARANTEE CONTRACT

The Company on case to case basis elects to account for financial guarantee contracts as financial instruments or as an insurance contract, as specified in Ind AS 109 on Financial Instruments and Ind AS 104 on Insurance Contracts. The Company has regarded its financial guarantee contracts as insurance contracts on contract by contract basis. At the end of each reporting period the Company performs liability adequacy test, (i.e. it assesses the likelihood of a pay-out based on current undiscounted estimates of future cash flows) on financial guarantee contracts regarded as insurance contracts, and the deficiency is recognised in profit or loss.

1.22 BUSINESS COMBINATIONS AND GOODWILL

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Company elects whether it measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs which are administrative in nature are expensed out.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed off, the goodwill associated with the operation disposed off is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed off in this circumstance is measured based on the relative values of the operation disposed off and the portion of the cash-generating unit retained.

Common control business combinations include transactions, such as transfer of subsidiaries or businesses, between entities within a group.

Business combinations involving entities or businesses under common control are accounted for using the pooling of interests method. Under pooling of interest method, the assets and liabilities of the combining entities are reflected at their carrying amounts, the only adjustments that are made are to harmonise accounting policies.

The financial information in the standalone financial statements in respect of prior periods are restated as if the business combination had occurred from the beginning of the preceding period in the standalone financial statements, irrespective of the actual date of the combination. However, if business combination had occurred after that date, the prior period information is restated only from that date.

The difference, if any, between the amount recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and presented separately from other capital reserves with disclosure of its nature and purpose in the notes.

Estimated amount of contracts (including acquisition of intangible assets net of advances) remaining to be executed on capital account and not provided for aggregate to ₹ 49.43 (March 31, 2017: ₹ 51.02).

As a part of business strategy, the Company has expanded its area of operations in various parts of the country by entering into arrangements with local partners. Such operations are in the form of subsidiaries/joint ventures. (Subsequently, some of such entities are converted into wholly owned subsidiaries.) Since operations of such entities are significantly dependent on the company's policies, the Company is committed to provide the required support towards the operations of such entities including financial support that may be required to meet commitments/obligations of such entities.

4.05 EXCEPTIONAL ITEMS

During the current financial year, the Company has offloaded 72 lakhs shares of GTPL Hathway Limited under Offer to sale @ ₹ 170 per share. The holding of the Company has reduced from 50% to 37.32%.

Pursuant to circular dated December 17, 2012 issued by the Delhi Entertainment Department, the MSOs were made responsible for collection and payment of Entertainment Tax for secondary points w.e.f. April 1, 2013. The Company challenged the constitutional vires of the said circular and filed writ petition in the matter before the High Court of Delhi. The High Court pronounced a favourable judgment stating that the liability to collect and deposit the Entertainment Tax for secondary points rests wholly and solely upon the LCOs, before and after March 31, 2013, as they are the Proprietor of their individual cable TV network, and not the MSOs. Accordingly, the Company during the previous financial year 2016-17 had reversed provision of ₹ 9.70 made on account of Entertainment tax.

4.06 EMPLOYEE BENEFITS

a) Defined Benefit Plans:

The Company provides for gratuity, a defined benefit retirement plan covering eligible employees. The gratuity plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount equivalent to 15 to 26 days' salary for each completed year of service subject to a maximum of ₹ 0.10. Vesting occurs upon completion of five continuous years of service in accordance with Indian law.

The Present value of the defined benefit obligations and related current service cost were measured using the Projected Unit Credit Method, with actuarial valuation being carried out at each Balance Sheet date.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

(₹ in Crores unless otherwise stated)

Investment Risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to government bond yields. If the return on plan asset is below this rate, it will create a plan deficit. Currently the plan has a relatively balanced investment
Interest Risk	A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the return on the plan's debt investments
Longevity Risk	This risk effects Past Retirement Benefit Plans, especially Pension and Medical Benefits. This Plan pays the benefit on Retirement, if not paid earlier, on account of resignation or death and hence the Longevity risk will not materially effect this Plan.
Salary Risk	The Gratuity benefit, being based on last drawn salary, will be critically effected in case of increase in future salaries being more than assumed.

4.11 FINANCIAL INSTRUMENTS :

(i) Methods & assumptions used to estimate the fair values

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- The carrying amounts of receivables and payables which are short term in nature such as trade receivables, other bank balances, deposits, loans to employees, trade payables, payables for acquisition of non- current assets, demand loans from banks and cash and cash equivalents are considered to be the same as their fair values.
- The fair values for long term loans, long term security deposits given and remaining non current financial assets were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs.
- The fair values of long term security deposits taken and non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs.
- For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

(ii) Categories of financial instruments

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: directly or indirectly observable market inputs, other than Level 1 inputs; and

Level 3: inputs which are not based on observable market data

4.12 FINANCIAL RISK MANAGEMENT

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Board of Directors. The details of different types of risk and management policy to address these risks are listed below:

The business activities of Company activities expose it to financial risks namely Credit risk, Liquidity risk and Market risk. In order to minimise any adverse effects on the financial performance of the Company, it uses derivative financial instruments, such as foreign exchange forward contracts, foreign currency swap contracts, call options to hedge certain foreign currency risk exposures and follows policies set up by a Treasury department under policies approved by the Board of Directors.

Credit risk

Credit risk arises from the possibility that counter party will cause financial loss to the company by failing to discharge its obligation as agreed. The Company's exposure to credit risk arises mainly from the trade receivables, loans given, financial guarantee contract and derivative financial instruments.

Credit risks from balances with banks and financial institutions are managed in accordance with the Company policy. For derivative and financial instruments, the Company attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned by credit-rating agencies.

The Company's major revenue streams arises from services provided to end use customers in the form of monthly subscription income. The trade receivables on account of subscription income are typically un-secured and derived from sales made to large number of independent customers. As the customer base is distributed economically and geographically, there is no concentration of credit risk. The credit period provided by the Company to its end use customers generally ranges from 0 to 30 days.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

(₹ in Crores unless otherwise stated)

The Company follows a simplified approach (i.e based on lifetime ECL) for recognition of impairment loss allowance on Trade receivables. For the purpose of measuring the lifetime ECL allowance for trade receivables, the Company uses a provision matrix which comprise a very large number of small balances grouped into homogenous groups and assessed for impairment collectively. Individual trade receivables are written off when management deems them not recoverable. Based on the industry practices and business environment in which the Company operates, management considers that the trade receivables are in default if the payment are more than 12 months past due.

Financing arrangements

The Company has sufficient sanctioned line of credit from its bankers / financiers; commensurate to its business requirements. The Company reviews its line of credit available with bankers and lenders from time to time to ensure that at all point of time there is sufficient availability of line of credit.

The Company pays special attention to the net operating working capital invested in the business. In this regard, as in previous years, considerable work has been performed to control and reduce collection periods for trade and other receivables, as well as to optimise accounts payable with the support of banking arrangements to mobilise funds.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company is exposed in the ordinary course of business to risks related to changes in foreign currency exchange rate and interest rate.

(a) Market Risk – Foreign Exchange

Foreign exchange risk arises on all recognised monetary assets and liabilities which are denominated in a currency other than the functional currency of the Company. The Company has foreign currency trade payables, receivables and borrowings. However, foreign exchange exposure mainly arises from borrowings and trade payables denominated in foreign currencies.

Foreign currency risk is managed by following established risk management policies, which inter alia includes monitoring the movements in currencies in which the borrowings / capex vendors are payable and hedging the exposure to foreign currency risk by entering into forward currency contracts, call options and currency swaps contracts.

The Company does not enter into or trade financial instrument including derivative for speculative purpose.

(b) Market Risk – Interest Rate

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is exposed to interest rate risk because the Company has borrowed funds substantially at floating interest rates. The interest rate risk is managed by the Company by the use of interest rate swap and by monitoring monthly cash flow which is reviewed by management to prevent loss of interest.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

(₹ in Crores unless otherwise stated)

The exposure of the company's borrowings to interest rate changes at the end of the reporting period are as follows:

Particulars	March 31, 2018	March 31, 2017
Variable rate borrowings	704.56	823.08
Fixed rate borrowings	123.02	18.64

Interest rate sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates on the borrowings at the end of the reporting period. For floating rate borrowings, the analysis is prepared assuming the amount of borrowing outstanding at the end of the reporting period was outstanding for whole of the year. A 100 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel.

	Impact on Profit (March 31, 2017: Loss): Increase/(Decrease)		Impact on equity Increase/ (Decrease)	
	March 31, 2018	March 31, 2017	March 31, 2018	March 31, 2017
Interest rates - increase by 100 basis points *	(6.85)	14.57	(6.85)	(14.57)
Interest rates - decrease by 100 basis points *	6.85	(14.57)	6.85	14.57

* assuming all other variables as constant

The sensitivity disclosed in the above table is attributable to variable interest rate borrowings and the interest swaps. The above sensitivity analysis is based on a reasonably possible change in the under-lying interest rate of the Company's borrowings in INR & USD (being the significant currencies in which it has borrowed funds), while assuming all other variables (in particular foreign currency rates) to be constant.

4.13 Duties and taxes of ₹ 2.01 for the period prior to 2016-17 and ₹ 0.50 for the year 2016-17, being Prior Period expenses, have been recognised in the respective period by restating relevant previous year figures

4.14 RECENT PRONOUNCEMENTS

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

The standard permits two possible methods of transition:

- Retrospective approach-Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors.
- Retrospectively with cumulative effect of initially applying the standard recognised at the date of initial application (Cumulative catch-up approach) The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Company has adopted the standard on April 1, 2018 by using the cumulative catch-up transition method and accordingly, comparatives for the year ended March 31, 2018 will not be retrospectively adjusted. The effect on adoption of Ind AS 115 is being ascertained.

4.18 TRANSFER OF CATV BUSINESS THROUGH SLUMP SALE

Pursuant to receipt of approval to the internal restructuring from the board of directors and the shareholders, the company had transferred its Cable Television business by way of slump sale to its wholly owned subsidiary Hathway Digital Private Limited (earlier known as Hathway Datacom Central Private Limited) ("the said subsidiary") with effect from close of business hours as of March 31, 2017 for a total consideration of ₹ 302. In view of the same, all assets and liabilities including borrowings & contingent liabilities attributed to the Cable Television business got vested in the said subsidiary. The company has completed all necessary documentation to give effect to this transfer including receipt of necessary approvals from the lenders for said restructuring. However in case of few lenders filling of relevant forms for change in the charge documents inter-se between the company and the said subsidiary with the Registrar of Companies is under process. In view of the aforesaid transfer of Cable Television business of the Company, the previous year's figures are not comparable with the figures for the current financial year.

4.19 In previous reporting period, the investments in equity shares of Hathway Patiala Cable Private Limited (formerly known as Hathway Sukhamrit Cable & Datacom Private Limited) was classified as investments in Joint Venture. However, the management no longer intends to exercise its influence in operations of Hathway Patiala Cable Private Limited. Accordingly, such interest in Hathway Patiala Cable Private Limited has been reclassified and measured as financial assets in terms of Ind AS 109. Considering the financial statements of earlier years and the future plans of Hathway Patiala Cable Private Limited, the management is of the view that fair value of the equity shares of Hathway Patiala Cable Private Limited would be at least equal to its carrying amount.

4.20 Previous year's figures have been reclassified / regrouped, wherever necessary.

INDEPENDENT AUDITOR'S REPORT

To the Members of Hathway Cable and Datacom Limited

REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

We have audited the accompanying consolidated financial statements of **Hathway Cable and Datacom Limited** (hereinafter referred to as "the Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its joint ventures and its associates comprising of the Consolidated Balance Sheet as at March 31, 2018, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information. (hereinafter referred to as 'the consolidated financial statements').

MANAGEMENT'S RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act 2013 ("the Act") with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance (including other comprehensive income), consolidated cash flows and consolidated statement of changes in equity of the Group including its joint ventures and associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards ("Ind AS") specified under section 133 of the Act and read with the relevant rules issued thereunder and relevant provisions of the Act. The respective Governing bodies of the entities included in the Group and of its joint ventures and associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the entities and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act and other applicable pronouncements issued by the Institute of Chartered Accountants of India ("ICAI"). Those Standards and pronouncements require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Holding Company's Board of Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

OPINION

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors of the subsidiaries, joint ventures and associates, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its joint ventures and associates as at March 31, 2018, and their consolidated loss (including other comprehensive income), their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

EMPHASIS OF MATTER

We draw your attention to:

- (i) Note 4.16 in respect of basis of recognition of income relating to some of the local cable networks under Digital Addressable System of a wholly owned subsidiary namely Hathway Digital Private Limited. The management has represented that they are confident of realising the income recognised and hence, no adjustment has been made to such income.
- (ii) Note 4.18 regarding non-availability of financial information including the financial statements of Hathway Patiala Cable Private Limited (formerly known as Hathway Sukhamrit Cable and Datacom Pvt Ltd) accounted under Ind AS 109. In absence of such financial information the investment is measured at cost. The management is of the view that the fair value of such investment is higher than the cost.
- (iii) Note 4.19 to the consolidated financial results which indicates that 13 subsidiaries and 1 joint ventures of the Group has incurred net loss during the year ended March 31, 2018 and as of that date, the liabilities of each of these companies exceeded their total assets. Accordingly, financial statements of these companies have been prepared on other than going concern basis as material uncertainty exists that may cast significant doubt on these entities' ability to continue as a going concern.

Our opinion is not qualified in respect of these matters.

OTHER MATTERS

We did not audit (a) the standalone financial statements of 28 subsidiaries included in the consolidated financial statements, whose financial statements reflect total assets of ₹1,605.64 crores as at March 31, 2018; total revenues of ₹1,043.74 crores and net cash outflows amounting to ₹8.73 crores for the year ended on that date (b) the consolidated financial statements of 1 associate, whose consolidated financial statements include the Group's share of net profit of ₹34.10 crores and (c) the standalone financial statements of 13 joint ventures and 2 associates, whose standalone financial statements include Group's share of net loss of ₹2.00 crores for the year ended on March 31, 2018. These financial statements and other financial information have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far it relates to the amounts and disclosures included in respect of these subsidiaries, joint ventures and associates, and our report in terms of section 143(3) of the Act, in so far as it relates to the aforesaid subsidiaries, joint ventures and associates, is based solely on the report of other auditors.

Apart from above, as stated in Note. 4.13 of the consolidated financial statements, the Group's share of net profit of ₹7.09 crores for the year ended on March 31, 2018 as considered in the consolidated financial statements, in respect of 4 joint ventures, whose financial statements have not been audited by us. These financial statements and other financial information are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far it relates to the amounts and disclosures included in respect of these joint ventures, and our report in terms of section 143(3) of the Act, in so far as it relates to the aforesaid joint ventures is based solely on such unaudited financial statements.

The consolidated financial statements of the Company for the year ended March 31, 2017 were audited by predecessor auditor who expressed an unmodified opinion on those statements on May 30, 2017.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

As required by section 143(3) of the Act, based on our audit and on consideration of report of the other auditors of subsidiaries, joint ventures and associates, as noted in the Other Matter paragraph, we report to the extent applicable, that:

- a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
- b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
- c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
- d. In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under section 133 of the Act read with relevant rules issued thereunder and relevant provisions of the Act;
- e. On the basis of the written representations received from the directors of the Holding Company as on March 31, 2018 taken on record by the Board of Directors of

the Holding Company and the reports of the statutory auditors of its subsidiaries, joint ventures and associates incorporated in India, none of the directors of the Group companies, its joint ventures and associates incorporated in India is disqualified as on March 31, 2018 from being appointed as a director in terms of section 164 (2) of the Act;

- f. With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, its subsidiaries, joint ventures and associates incorporated in India and the operating effectiveness of such controls, refer to our separate Report in 'Annexure A'; and
- g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of other auditors of subsidiaries, joint ventures and associates, as noted in the Other matters paragraph:

- i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, its joint ventures and associates. Refer Note 4.04 and 4.12(c) to the consolidated financial statements;
- ii. The Group, its joint ventures and associates did not have any material foreseeable losses on long term contracts including derivative contracts; and
- iii. There were no amounts required to be transferred to the Investor Education and Protection Fund by the Group, its joint ventures and associates.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph (f) under Report on Other Legal and Regulatory Requirements' of our Independent Auditor's report on even date to the members of Hathway Cable and Datacom Limited ("the Holding Company") on the consolidated financial statements for the year ended March 31, 2018:

REPORT ON THE INTERNAL FINANCIAL CONTROLS UNDER SECTION 143(3)(i) OF THE COMPANIES ACT, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Holding Company as of and for the year ended March 31, 2018, we have audited the internal financial controls with reference to financial statements of **Hathway Cable and Datacom Limited** (hereinafter referred to as "the Holding Company") and its subsidiaries, its joint ventures and associates, which are companies incorporated in India, as of that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Holding company, its subsidiaries, its joint ventures and associates, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Holding Company, considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company, its subsidiaries, joint ventures and associates, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate

internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal controls based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditor in terms of their report referred to in the "Other Matter" paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial control system with reference to financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the Holding Company, its subsidiaries, its joint ventures and associates, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2018 based on the internal controls with reference to financial

statements criteria established by the Holding Company, considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

OTHER MATTERS

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements, in so far as it relates to standalone financial statements of 28 subsidiaries, 13 joint ventures and standalone/consolidated financial statements of 3 associates, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

BACKGROUND

Hathway Cable and Datacom Limited ("the Company") is a Public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is engaged in distribution of internet services through cable and has strategic stake in entities engaged in Cable Television business. Its equity shares are listed on National Stock Exchange of India Limited (NSE) & Bombay Stock Exchange Limited (BSE) in India.

Authorisation of consolidated financial statements

The consolidated financial statements were authorised for issue in accordance with a resolution of the directors on May 28, 2018.

1. SIGNIFICANT ACCOUNTING POLICIES

This note provides a list of the significant accounting policies adopted in the presentation of these consolidated financial statements. The consolidated financial statements are of the Company and its subsidiaries (collectively, "the Group").

1.01 BASIS OF PREPARATION

(i) Compliance with Ind AS

The consolidated financial statements comply in all material aspects with Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 ("the Act") and relevant rules issued thereunder and relevant provisions of the Act. In accordance with proviso to the Rule 4A of the Companies (Accounts) Rules, 2014, the terms used in these financial statements are in accordance with the definitions and other requirements specified in the applicable Accounting standards.

(ii) Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) are measured at fair value; and
- defined benefit plans – plan assets measured at fair value.

1.02 ROUNDING OF AMOUNTS

All amounts disclosed in the consolidated financial statements and notes have been rounded off to the nearest crores, except where otherwise indicated.

1.03 CURRENT VERSUS NON-CURRENT CLASSIFICATION

The Group presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is classified as current if:

- it is expected to be realised or intended to sold or consumed in normal operating cycle;
- it is held primarily for the purpose of trading;
- it is expected to be realised within twelve months after the reporting period; or
- the cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current if:

- it is expected to be settled in normal operating cycle;
- it is held primarily for the purpose of trading;
- it is due to be settled within twelve months after the reporting period; or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

All assets and liabilities have been classified as current or non-current as per Group's normal operating cycle. Based on the nature of operations, the Group has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

1.04 USE OF JUDGEMENTS, ESTIMATES & ASSUMPTIONS

While preparing consolidated financial statements in conformity with Ind AS, the management make certain estimates and assumptions that require subjective and complex judgments. These judgments affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses, disclosure of contingent liabilities at the statement of financial position date and the reported amount of income and expenses for the reporting period. Financial reporting results rely on our estimate of the effect of certain matters that are inherently uncertain. Future events rarely develop exactly as forecast and the best estimates require adjustments, as actual results may differ from these estimates under different assumptions or conditions. The management continually evaluate these estimates and assumptions based on the most recently available information.

Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the consolidated financial statements are as below:

Key assumptions

- (i) Financial instruments; (Refer Note 4.08)
- (ii) Useful lives of Property, Plant and Equipment and Intangible Assets; (Refer Note 1.06 and 1.07)
- (iii) Assets and obligations relating to employee benefits; (Refer Note 4.03)
- (iv) Expected customer relationship period (i.e. expected life of the customer); (Refer Note 1.17)
- (v) Evaluation of recoverability of deferred tax assets; (Refer Note 2.07) and
- (vi) Contingencies (Refer Note 4.04).

1.05 PRINCIPLES OF CONSOLIDATION AND EQUITY ACCOUNTING

(i) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intergroup transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively. Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

(ii) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting (see (iv) below), after initially being recognised at cost.

(iii) Joint Ventures

Under Ind AS 111 Joint Arrangements, investments in joint arrangements are classified as either joint operations or joint ventures. The classification depends on the contractual rights and obligations of each investor, rather than the legal structure of the joint arrangement. The Group has only joint ventures.

Interests in joint ventures are accounted for using the equity method (see (iv) below), after initially being recognised at cost in the consolidated balance sheet.

(iv) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in statement of profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in Note 1.08 below.

(v) Changes in ownership interests

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity (Refer Note 4.12).

When the Group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in statement of profit and loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate or joint venture. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed off the related assets or liabilities. The amounts previously recognised in other comprehensive income are reclassified to statement of profit and loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to statement of profit and loss where appropriate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

1.06 PROPERTY, PLANT AND EQUIPMENT

Property, Plant and Equipment acquired separately

- (i) Property, Plant and Equipment is stated at cost, less accumulated depreciation and accumulated impairment losses. The initial cost of an asset comprises its purchase price, non-refundable taxes, any costs directly attributable to bringing the asset into the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of any decommissioning obligation, if any, finance cost. The purchase price is the aggregate amount paid and the fair value of any other consideration given to acquire the asset.
- (ii) Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to statement of profit and loss during the reporting period in which they are incurred.
- (iii) Set Top Boxes (STBs) and Access devices on hand at the year-end are included in Capital Work in Progress. On installation, such devices are capitalised or treated as sale, as the case may be.
- (iv) The residual values and useful lives of Property, Plant and Equipment are reviewed at each financial year end, and changes, if any, are accounted prospectively.
- (v) Stores & Spares which meet the definition of Property, Plant and Equipment and satisfy the recognition criteria of Ind AS 16 are capitalised as Property, Plant and Equipment.

Derecognition Property, Plant & Equipment

- (vi) An item of Property, Plant and Equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of an item of Property, Plant and Equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit and loss.

Depreciation on Property, Plant & Equipment

- (vii) Depreciation on Property, Plant & Equipment is provided on straight line method. In accordance with requirements prescribed under Schedule II of Companies Act, 2013, the Group has assessed the estimated useful lives of its Property, Plant & Equipment and has adopted the useful lives and residual value as prescribed in Schedule II except for the cost of STBs & Internet Access devices at the customer location which are depreciated on straight-line method over a period of eight years based on internal technical assessment.
- (viii) In case of additions or deletions during the year, depreciation is computed from the month in which such assets are put to use and up to previous month of sale, disposal or held for sale as the case may be. In case of impairment, depreciation is provided on the revised carrying amount over its remaining useful life.
- (ix) All assets costing up to ₹ 5,000/- are fully depreciated in the year of capitalisation.
- (x) Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

Deemed cost for Property, Plant and Equipment

The Group had elected to continue with the carrying value of all of its Property, Plant and Equipment recognised as of the date of transition to Ind AS measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

1.07 INTANGIBLE ASSETS

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses. Internally generated intangibles are not capitalised and the related expenditure is reflected Statement of Profit or Loss in the period in which the expenditure is incurred.

Intangible Assets acquired separately

Intangible assets comprises of Cable Television Franchise, Movie & Serial Rights, Bandwidth Rights, Goodwill and Softwares. Cable Television Franchisee represents purchase consideration of a network that is mainly attributable to acquisition of subscribers and other rights, permission etc. attached to a network.

Intangible assets with finite useful lives that are acquired are recognised only if they are separately identifiable and the Group expects to receive future economic benefits arising out of them. Such assets are stated at cost less accumulated amortisation and impairment losses. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated amortisation and impairment losses.

Intangible Assets acquired in business combination

Intangible Assets acquired in business combination and recognised separately from goodwill are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in statement of profit and loss when the asset is derecognised.

Amortisation of intangible assets

The intangible assets with finite useful lives are amortised on a straight line basis over their useful economic lives and assessed for impairment whenever there is indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each year end. The amortisation expense on Intangible assets with finite lives and impairment loss is recognised in the Statement of Profit and Loss.

Estimated lives for current and comparative periods in relation to application of straight line method of amortisation of intangible assets (acquired) are as follows:

- Softwares are amortised over the license period and in absence of such tenor, over five years.
- Movie & Serial Rights are amortised on exploitation over the balance license period in equal installments.
- Channel Design are amortised over the period of five years.
- Network Franchisee are amortised over the period of five to twenty years.
- Bandwidth Rights are amortised over the period of the underlying agreements.

The estimated useful lives, residual values, amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Deemed cost for Intangible assets

The Group had elected to continue with the carrying value of all of its Intangible assets recognised as of the date of transition to Ind AS measured as per the previous GAAP and use that carrying value as it's deemed cost as of the transition date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

1.08 IMPAIRMENT OF ASSETS

Carrying amount of Tangible assets, Intangible assets and Investments in Joint Ventures and Associates (accounted under equity method) are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used.

For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or Group's assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

1.09 NON-CURRENT ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

Non-current assets are not depreciated or amortised while they are classified as held for sale.

Non-current assets classified as held for sale are presented separately from the other assets in the balance sheet.

A discontinued operation is a component of the entity that has been disposed off or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

1.10 INVENTORIES

Inventories are valued as follows:

Spares and maintenance items are valued at lower of cost (net of taxes recoverable) on first in first out basis or net realisable value.

Stock-in-trade comprising of access devices are valued at cost on weighted average method or at net realisable value, whichever is lower.

1.11 CASH AND CASH EQUIVALENTS

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of change in value. For the purpose of statement of cash flows, cash and cash equivalents consist of cash, short-term deposits as defined above, bank overdrafts and short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant risk of changes in value as they are considered as an integral part of the Company's management. Bank overdrafts are shown within borrowings under current liabilities in the balance sheet.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

1.12 FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Initial Recognition and Measurement – Financial Assets and Financial Liabilities

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss and ancillary costs related to borrowings) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Statement of Profit and Loss.

Classification and Subsequent Measurement: Financial Assets

The Group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ("FVTOCI") or fair value through profit or loss ("FVTPL") on the basis of following:

- the entity's business model for managing the financial assets; and
- the contractual cash flow characteristics of the financial asset.

Amortised Cost:

A financial asset is classified and measured at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVTOCI:

A financial asset is classified and measured at FVTOCI if both of the following conditions are met:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVTPL:

A financial asset is classified and measured at FVTPL unless it is measured at amortised cost or at FVTOCI.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Impairment of Financial Assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Classification and Subsequent measurement: Financial Liabilities

The Group's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

Financial Liabilities at FVTPL:

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or are designated upon initial recognition as FVTPL.

Gains or Losses on financial liabilities held for trading are recognised in the Statement of Profit and Loss.

Other Financial Liabilities:

Other financial liabilities (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of Financial Assets and Financial Liabilities:

The Group de-recognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Offsetting Financial Instruments:

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

1.13 FINANCIAL LIABILITIES AND EQUITY INSTRUMENTS:

Classification as debt or equity:

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group are recognised at the proceeds received.

1.14 BORROWING COSTS

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

1.15 PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a current pre-tax rate. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed in the case of:

- a present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- a present obligation arising from the past events, when no reliable estimate is possible;
- a possible obligation arising from past events, unless the probability of outflow of resources is remote.

Contingent Assets is disclosed when inflow of economic benefits is probable.

1.16 GRATUITY AND OTHER POST-EMPLOYMENT BENEFITS

(i) Short-term obligations

Short term employee benefits are recognised as an expense at an undiscounted amount in the Statement of profit & loss of the year in which the related services are rendered.

(ii) Post-employment obligations

The Group operates the following post-employment schemes:

- defined benefit plans such as gratuity; and
- defined contribution plans such as provident fund

Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised at amount net of taxes in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in Statement of Profit and Loss as past service cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

Defined contribution plans

The Group pays provident fund contributions to publicly administered provident funds. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(iii) Other long-term employee benefit obligations

The liabilities for leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in statement of profit and loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iv) Bonus Plans

The Group recognises a liability and an expense for bonuses. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

1.17 REVENUE RECOGNITION

Revenue is measured at the fair value of the consideration received or receivable.

(i) Income from Rendering of services

Revenue from Operations is recognised on accrual basis based on underlying subscription plan or agreements with the concerned subscribers / parties.

Revenue from prepaid Internet Service plans, which are active at the end of accounting period, is recognised on time proportion basis. In other cases of Internet Service plans, entire revenue is recognised in the period of sale. Income from services does not include Service Tax (ST) / Goods and Service Tax (GST).

Consultancy Income:

Revenue from consulting services is recognised when the services are completed.

Rental income:

The Company's policy for recognition of revenue from operating leases is described in note below on Leases.

The Company collects GST, Value added Taxes (VAT), ST and Entertainment Tax on behalf of the government and, therefore, it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

(ii) Sale of goods

Revenue from the sale of goods is recognised when significant risks and rewards of ownership of the goods have passed to the buyer. Revenue from sale of goods is measured at the fair value of consideration received or receivable. Amount disclosed as revenue are net of returns and allowances, trade discounts and volume rebates but does not include VAT, Central Sales Tax (CST) and GST.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

The Company collects VAT and GST on behalf of the Government and, therefore, these are not economic benefits flowing to the Company and hence not included in revenue.

The Company recognises revenue when the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the entity.

(iii) Other Operating Income

Other Operating Income comprises of fees for rendering management, technical and consultancy services. Income from such services is recognised upon achieving milestones as per the terms of underlying agreements.

(iv) Interest Income

Interest income from debt instruments is recognised using the effective interest rate method.

(v) Dividend Income

Dividends are recognised in the Statement of Profit and Loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

1.18 TAXES ON INCOME

Current Tax:

Tax on income for the current period is determined on the basis on estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments / appeals.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss.

Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax:

Deferred tax is provided using the balance sheet approach on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

The break-up of the major components of the deferred tax assets and liabilities as at balance sheet date has been arrived at after setting off deferred tax assets and liabilities where the Group have a legally enforceable right to set-off assets against liabilities.

Deferred tax liabilities are recognised for all taxable temporary differences, except in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

1.19 EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders is adjusted for after income tax effect of interest and other financing cost associated with dilutive potential equity shares and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

1.20 LEASES

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date, whether fulfillment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in an arrangement.

As a Lessee

Finance Lease

Leases of Property, Plant and Equipment where the Group, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Operating Lease

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Group as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to Statement of Profit and Loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

As a Lessor

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

1.21 FOREIGN CURRENCY TRANSLATIONS

(i) Functional and presentation currency

The Group's consolidated financial statements are prepared in INR, which is also the Group's functional and presentation currency.

(ii) Transactions and balances

Monetary items

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in statement of profit and loss. Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains / (losses).

Non – Monetary items:

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

1.22 SEGMENT REPORTING

The Chief Operational Decision Maker monitors the operating results of its business Segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the financial statements.

The operating segments have been identified on the basis of nature of services.

- Segment revenue includes sales and other income directly attributable with allocable to segments including inter-segment revenue.
- Expenses that are directly identifiable with / allocable to segments are considered for determining the segment results. Expenses which relate to the Group as a whole and not allocable to segments are included under unallowable expenditure.
- Income which relates to the Group as a whole and not allocable to segments is included in unallowable income.
- Segment assets and liabilities include those directly identifiable with the respective segments. Un-allocable assets and liability represent the assets and liabilities that relate to the Group as a whole and not allocable to any segment.

4.03 EMPLOYEE BENEFITS

a) Defined Benefit Plans:

The Present value of the defined benefit obligations and related current service cost were measured using the Projected Unit Credit Method, with actuarial valuation being carried out at each Balance Sheet date.

Investment Risk	The present value of the defined benefit plan liability is calculated using a discount rate determined by reference to government bond yields. If the return on plan asset is below this rate, it will create a plan deficit. Currently the plan has a relatively balanced investment with LIC of India and ING.
Interest Risk	A decrease in the bond interest rate will increase the plan liability. However, this will be partially offset by an increase in the return on the plan's debt investments.
Longevity Risk	This risk effects Past Retirement Benefit Plans, especially Pension and Medical Benefits. This Plan pays the benefit on Retirement, if not paid earlier, on account of resignation or death and hence the Longevity risk will not materially effect this plan.
Salary Risk	The Gratuity benefit, being based on last drawn salary, will be critically effected in case of increase in future salaries being more than assumed.

4.08 FINANCIAL INSTRUMENTS :

(i) Methods & assumptions used to estimate the fair values

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

- The carrying amounts of receivables and payables which are short term in nature such as trade receivables, security deposits given, loans given to related parties, other bank balances, deposits, loans to employees, trade payables, payables for acquisition of non- current assets, security deposits taken, demand loans from banks and cash and cash equivalents are considered to be the same as their fair values.
- The fair values for long term loans, long term security deposits given and remaining non current financial assets were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs.
- The fair values of long term security deposits taken, non-current borrowings and remaining non current financial liabilities are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs.
- For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

(ii) Categories of financial instruments

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: directly or indirectly observable market inputs, other than Level 1 inputs; and

Level 3: inputs which are not based on observable market data

4.09 FINANCIAL RISK MANAGEMENT

The Group's financial risk management is an integral part of how to plan and execute its business strategies. The Group's financial risk management policy is set by the Board of Directors. The details of different types of risk and management policy to address these risks are listed below:

The business activities of the group expose it to financial risks namely Credit risk, Liquidity risk and Market risk. In order to minimise any adverse effects on the financial performance of the group, it uses derivative financial instruments, such as foreign exchange forward contracts, foreign currency swap contracts, call options are entered to hedge certain foreign currency risk exposures and follows policies set up by a Treasury department under policies approved by the Board of Directors.

1 Credit Risk :

Credit risk arises from the possibility that counter party will cause financial loss to the group by failing to discharge its obligation as agreed.

The group's exposure to credit risk arises mainly from the trade receivables, loans given, financial guarantee contract and derivative financial instruments.

Credit risks from balances with banks and financial institutions are managed in accordance with the group policy. For derivative and financial instruments, the group attempts to limit the credit risk by only dealing with reputable banks and financial institutions having high credit-ratings assigned by credit-rating agencies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

(₹ in Crores unless otherwise stated)

The group's major revenue streams arises from services provided to end use customers in the form of monthly subscription income and receivables from broadcasters for carriage / placement income. The trade receivables on account of subscription income are typically un-secured and derived from sales made to large number of independent customers. As the customer base is distributed economically and geographically, there is no concentration of credit risk. In case of receivables from the carriage / placement income, as there is no independent credit rating of the broadcasters available with the group, the management reviews the credit-worthiness of the broadcasters based on their financial position, past experience and other factors. The credit period provided by the group to its end use customers and broadcasters generally ranges from 0 to 30 days.

The group follows a simplified approach (i.e based on lifetime ECL) for recognition of impairment loss allowance on Trade receivables. For the purpose of measuring the lifetime ECL allowance for trade receivables, the group uses a provision matrix which comprise a very large number of small balances grouped into homogenous groups and assessed for impairment collectively. Individual trade receivables are written off when management deems them not recoverable. Based on the industry practices and business environment in which the group operates, management considers that the trade receivables are in default if the payment are more than 12 months past due.

The Trade Receivables includes amount due from disconnected / inactive customers / LCOs with whom no inter-connect documents have been executed and outstanding in excess of one year. The Company is taking adequate steps for recovery of overdue debts and advances and wherever necessary, adequate provisions as per expected credit loss model have been made.

2 Liquidity Risk

Liquidity risk is the risk that the group will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The group's liquidity risk management policies include to, at all times ensure sufficient liquidity to meet its liabilities when they are due, by maintaining adequate sources of financing from both domestic and international banks at an optimised cost. In addition, processes and policies related to such risks are overseen by senior management. The group's senior management monitors the group's net liquidity position through rolling forecasts on the basis of expected cash flows.

Financing arrangements

The group has sufficient sanctioned line of credit from its bankers / financiers; commensurate to its business requirements. The group reviews its line of credit available with bankers and lenders from time to time to ensure that at all point of time there is sufficient availability of line of credit.

The group pays special attention to the net operating working capital invested in the business. In this regard, as in previous years, considerable work has been performed to control and reduce collection periods for trade and other receivables, as well as to optimise accounts payable with the support of banking arrangements to mobilise funds.

3 Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The group is exposed in the ordinary course of business to risks related to changes in foreign currency exchange rate and interest rate.

a) Market Risk – Foreign Exchange

Foreign exchange risk arises on all recognised monetary assets and liabilities which are denominated in a currency other than the functional currency of the group. The group has foreign currency trade payables, receivables and borrowings. However, foreign exchange exposure mainly arises from borrowings and trade payables denominated in foreign currencies.

Foreign currency risk is managed by following established risk management policies, which inter alia includes monitoring the movements in currencies in which the borrowings / capex vendors are payable and hedging the exposure to foreign currency risk by entering into forward currency contracts, call options and currency swaps contracts.

The group does not enter into or trade financial instruments, including derivatives for speculative purpose.

The carrying amount of the group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

b) Market Risk – Interest Rate

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The group is exposed to interest rate risk because the group has borrowed funds substantially at floating interest rates. The interest rate risk is managed by the group by the use of interest rate swap and by monitoring monthly cash flow which is reviewed by management to prevent loss of interest.

The exposure of the group's borrowings to interest rate changes at the end of the reporting period are as follows:

Particulars	March 31, 2018	March 31, 2017
Variable rate borrowings	1,504.35	1,597.52
Fixed rate borrowings	192.94	100.24

Interest rate sensitivity analysis

The sensitivity analysis below have been determined based on the exposure to interest rates on the borrowings at the end of the reporting period. For floating rate borrowings, the analysis is prepared assuming the amount of borrowing outstanding at the end of the reporting period was outstanding for whole of the year. A 100 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2018

(₹ in Crores unless otherwise stated)

Share in Contingent liabilities of GTPL Hathway Limited (f.k.a. GTPL Hathway Pvt Ltd) :

- 1 GTPL Broadband Private Limited (GBPL), one of the subsidiary Company of our associate GTPL Hathway Ltd., has been granted Unified License from Ministry of Communications & IT, under Government of India, under which GBPL is required to pay an annual license fee at the rate of 8% of the its adjusted gross revenue. Hathway Cable and Datacom Limited (Hathway), the Company's Holding Company, along with others has filed a petition (petition no. 655 of 2015) under sections 14 and 14A of the TRAI Act against the DoT before the Telecom Dispute Settlement Appellate Tribunal (TDSAT). It was averred that the unified ISP license policy arbitrarily distinguished between existing ISP licenses required to be renewed and existing ISP licenses not requiring renewal for the near future. Further, it was averred that the inclusion of revenue from 'pure internet services' in the adjusted gross revenue for the computation of license fees under DoT's new unified ISP license policy was contrary to the order dated October 12, 2012 of the TDSAT (in petition No. 429 of 2012). TDSAT vide its order dated December 10, 2015 (TDSAT Order) has granted stay with respect to the matter filed by Hathway. Further, GBPL is in the process of filing a petition with the TDSAT on similar grounds. The license fee for the period ended March 31, 2018 works out to ₹ 20.28 (Group share = ₹ 7.57) (8% of ₹ 253.45 adjusted gross revenue). On the basis of the TDSAT Order, the license fee of ₹ 7.57 has been considered to be contingent in nature.
- 2 A shareholder of GTPL Kolkata Cable & Broadband Pariseva Limited, one of the subsidiary company of our associate GTPL Hathway Ltd. offered to sell his 30,000 shares to the company (buy back), price offered by company was not accepted by him. Matter was then referred to Company Law Board, whereby Board appointed a valuer. Valuation finalised by Company Law Board was not accepted by company, hence, petition was filed with High Court against Board's order. Value was finalised by valuer of High Court at ₹ 2.4 (₹ 800/- per share). Hence, petition was filed in Supreme Court against order passed by High Court. Supreme Court agreed to hear petition on a condition that "Company to deposit ₹ 2 in cash & ₹ 0.05 as bank guarantee with registrar of court". Hence, company has paid ₹ 0.92 million as guarantee with Registrar and petition is yet to be heard in Supreme Court.

FOR THE YEAR ENDED MARCH 31, 2018

(₹ in Crores unless otherwise stated)

for secondary points rests wholly and solely upon the LCOs, before and after March 31, 2013, as they are the Proprietor of their individual cable TV network, and not the MSOs. Accordingly, the Company during the previous financial year 2016-17 had reversed provision of ₹ 9.70 made on account of Entertainment tax.

4.15 GOODWILL ON CONSOLIDATION COMPRISES OF:

Particulars	March 31, 2018	March 31, 2017
Goodwill on Consolidation	86.26	86.26
Less : Capital Reserve on Consolidation	(1.87)	(1.87)
Net Goodwill on Consolidation	84.39	84.39

4.16 In case of Hathway Digital Private Limited (HDPL), a wholly owned subsidiary, pursuant to introduction of Digital Addressable System (DAS), in terms of TRAI Regulations the MSOs are required to inter alia enter into inter connect agreements with local cable operators. The Company has entered into such contract with most of the local cable operators, however in few networks, it is pending due to resistance from Local cable operators. In such cases, pending execution of documents, income recognised is based on various underlying factors including rate charged by other MSO's, ongoing negotiations with cable operators etc. The management has reviewed the outstanding receivables and has made suitable provisioning, wherever required and is confident that it is stated at realisable amount.

4.17 During the previous financial year, GTPL Hathway Limited (GTPL), a Joint Venture till June 30, 2017 and associate thereafter, having many step-down entities, it was not practicable for GTPL to draw up its consolidated financial statements up to March 31, 2017 within stipulated period in which the Company was required to publish its audited consolidated financial results. Accordingly, the management had considered audited consolidated financial statements of GTPL for nine month period ended December 31, 2016. During the current financial year, the management has considered audited consolidated financial results of GTPL from April 1, 2017 to March 31, 2018 and audited figures for the quarter ending March 31, 2017.

4.18 In previous reporting period, the investments in equity shares of Hathway Patiala Cable Private Limited (formerly known as Hathway Sukhamrit Cable & Datacom Pvt Ltd) was classified as investments in Joint Venture. However, the management no longer intends to exercise its influence in operations of Hathway Patiala Cable Pvt Ltd. Accordingly, such interest in Hathway Patiala Cable Pvt Ltd has been reclassified and measured as financial assets in terms of Ind AS 109. Considering the financial statements of earlier years and the future plans of Hathway Patiala Cable Pvt Ltd, the management is of the view that fair value of the equity shares of Hathway Patiala Cable Pvt Ltd would be at least equal to its carrying amount.

4.19 13 subsidiaries and 1 Joint venture of the Group have incurred net loss during the year ended March 31, 2018 and as of that date, the liabilities of each of these companies exceeded their total assets. Accordingly, financial statement of these companies have not been prepared on going concern basis as material uncertainty exists that cast significant doubts on these companies ability to continue as a going concern.

4.20 RECENTS PRONOUNCEMENTS

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Ind AS 115, Revenue from Contract with Customers. The core principle of the new standard is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers. The standard permits two possible methods of transition:

- Retrospective approach - Under this approach the standard will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 - Accounting Policies, Changes in Accounting Estimates and Errors
- Retrospectively with cumulative effect of initially applying the standard recognised at the date of initial application (Cumulative catch-up approach). The effective date for adoption of Ind AS 115 is financial periods beginning on or after April 1, 2018.

The Group has adopted the standard on April 1, 2018 by using the cumulative catch-up transition method and accordingly, comparatives for the year ended March 31, 2018 will not be retrospectively adjusted. The effect on adoption of Ind AS 115 is being ascertained.
