MANAGEMENT DISCUSSION & ANALYSIS REPORT

INDUSTRY OVERVIEW

During the F.Y. 2015-16, India's Macro economic scenario remained stagnant with demand for Capital Goods waiting to recover. The investment by the state power transmission utilities (transcos) is expected to get momentum. With the budget target of 100% village electrification by May 2018, coupled with Government projects like Green Energy Corridor for power generation from renewable resources would augment the growth of Transformer industry in medium term. Overall CAPEX by corporate both private and public sectors, are much lower and with that limited demand is being chased by huge capacity. This has caused industry's capacity utilization at sub-optimum level and price realization and liquidity problem is still faced by most of players in transformer industry. However, the inflation rate, currency rate fluctuation and the release of planned funds for the power sector are the challenges adversely affecting the performance of the industry. The market is crowded with capacity expansion by all players and sizable investments by the Chinese manufacturers. The uncertainty and slow down in the overseas markets are expected to substantially affect the exports potential.

INDIAN TRANSFORMER INDUSTRY-Opportunities and Threats:

"The Indian economy is witnessing a restoration and so are the electrical industry and its various segments including the transformer industry. High demand arising from the energy intensive oil and gas, and cement segments has buoyed prospects for the Indian power transformer market. Developments in the power sector will have huge ramifications for the Indian transformer industry.

The Government of India is encouraging investments at the T&D level to increase access to reliable power supply and reduce technical and commercial losses in the system through schemes such as Revised Accelerated Power Development and Reform Program (R-APDRP) and Rajiv Gandhi Grameen Vidyutikaran Yojana (RGGVY). The R-APDRP scheme aims to bring down the Aggregate Technical and Commercial (AT&C) losses in the T&D network. This entails huge investments in the T&D sector including use of energy efficient transformers, besides renovation, modernization, restructuring, and up gradation of the T&D infrastructure. Evidence points to a conscious effort to upgrade the grid voltages to 765 KV to minimize the transmission losses and the corridor width. Major participants are gearing up their manufacturing facilities to this changing paradigm with MNCs bringing technology from their parent companies, while local participants are obtaining the technology

through acquisition and technology transfer. The Bureau of Energy Efficiency (BEE), Ministry of Power, is actively working to ensure that quality products are procured by the electricity boards and has accordingly stipulated mandatory star rating for distribution transformers. Distribution transformer procurement for R-APDRP is likely to be set at a minimum of 3 star rating. A large number of distribution transformer manufacturers have already applied to BEE for acquiring star ratings. Government of India under the leadership of current prime minister is exploring never before possibility in renewable energy viz. solar and wind energy. Your Company will encash the current boom in renewable energy sector by providing state of art product to renewable energy industry.”

BUSINESS OVERVIEW- product-wise performance:

Your Company is currently engaged in the areas of manufacturing, rehabilitation, up-gradation, and refurbishment of transformers ranging from Power & Distribution Transformer, Industrial Transformer, Furnace Duty Transformer, Electric Locomotive Transformer, Electric Traction Substation Transformer, Dry Type Transformer, Potential Transformer, and Special Purpose Transformers. We are one of the few players in Indian markets manufacturing & repairing, power & distribution transformers, focusing on quality, timely delivery and customization based on our engineering capabilities without any third party collaboration or technical assistance.

In India many players belong to the unorganized segment of the Industry and cater to small ratings distribution transformer's demand. However, over a period of time many of these small players moved up the value chain and graduated to the higher rating transformers. Despite this, the number of players qualified for the larger variants of transformers is still small to serve upcoming demand expected over forthcoming years.

DISCUSSIONS ON RESULTS OF OPERATIONS-product-wise performance:

During the Financial year 2015-16, your Company has achieved Total Turnover of Rs.2200.21 Lacs and has incurred Net Loss of Rs.105.05 Lacs.

The Company has net worth of about Rs.5192.80 Lacs as on March 31, 2016.

The Company has incurred losses during the year, mainly due to the fact that the nature of business is working capital intensive and we mainly deal with State Electricity Boards which are known for delayed payments. As payments are blocked with SEB's, there is need to borrow for short term to carry on operations, which impacts our profitability as high interest payments are to be made.

OUTLOOK FOR THE COMPANY:

As the number of competitors in the higher range of power transformers manufacturing is very small, the board still foresees a bright future for the Company. However, the targeted profitability will be achieved only after the Company meets the minimum qualifying criteria set up by various utilities who happen to be our main customers.

RISK & CONCERNS

Our future results of operations could potentially be affected by the following factors:

- Our ability to manufacture transformers as per the requirement of our clients;
- Our ability to continuously operate and maintain our manufacturing facilities optimally;
- Our ability to continue to source raw material at competitive rates;
- Our ability to manufacture transformers using the latest technologies in terms of modern materials, components and processes.
- Our ability to generate working capital funds at reasonable interest rates.

HUMAN RESOURCES AND INDUSTRIAL RELATION:

Your Company strongly believes that employees are central to the Company's transformation agenda and that it is important to build capabilities of employees to handle both current and future needs. During the year, the Company continued to work on identifying the needs of employees across all categories and level. The Company has built a strong team of highly qualified and competent professionals to meet the emerging business challenges and market competition.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Internal audit was carried out by firm of Chartered Accountants who conduct the audit on the basis of Annual Audit Plan. The process includes review and evaluation of effectiveness of the existing process, controls and compliance. It also ensures adherence to policies and systems, and mitigation of the operational risks perceived for each area under audit. Significant observations including recommendations for improvement of the business processes were reviewed by the Management before reporting to the Audit Committee which reviewed the Internal Audit procedures, findings and status of implementation of the agreed action plan.

CAUTIONARY STATEMENT

Statements in the Management Discussion and Analysis Report, describing the Company's objectives, projections and estimates, are forward-looking statements and progressive within the meaning of applicable securities laws and regulations. Actual results may differ materially from those expressed in the statement. Important factors that could influence the Company's operations include global and domestic demand and supply conditions affecting selling prices, input availability and prices, changes in government regulations, tax laws, economic developments within the country and other factors such as litigation and industrial relations.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls over financial reporting of Tarapur Transformers Ltd. ("the Company") as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:-

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Qualified Opinion

According to the information and explanations given to us and based on our audit, the following weaknesses have been identified as at March 31, 2016.

- a) The Company did not have an appropriate internal audit system.
- b) The Company did not have an appropriate internal control system for inventory with regard to periodic verification of stock.

In our opinion, except for the possible effects of the weakness described above the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
